

The Big Spring Herald

XVII. NO. 45

Big Spring, Texas, Friday, July 28, 1922

By Jordan & Hayden

DEVELOPMENT IN THIS FIELD

Wells Nearing 3000-Foot Stage in Westbrook Field—Increase in Field Increases

Development in the Westbrook field is being pushed forward with vigor. The Sterling Petroleum Co.'s well No. 1 has set casing at 1280 feet and fast time is expected from now on. They will run tower on this test and complete it at the earliest possible date. This well is located ten miles northwest of Sterling City.

Oil News

The Brennan well is the first victim of the strike in these parts. This well is shut down between 1200 and 1300 feet for lack of casing. A carload of casing for this well, we are told, is standing on the track at Carbon, Texas, but the strikers refuse to let it be moved. Efforts are being made to get a car of casing out of Breckenridge so that drilling might be resumed. The crew at this well is idle, and will be until casing can be had.

Casing and piping for Durham No. 1 has been shipped, but only a part of it has been shipped. Every effort is being put forth to resume drilling in this interesting prospect. If the strike does not interfere with the shipping of supplies, it is given out that drilling will begin at an early date.

Drilling in the Cushing well is progressing satisfactorily. The management stated that there was nothing to be given out, other than that all was going good.

Biglow & Son were transferred this week from the George McEntire well to the Sparkman well, where drilling is progressing rapidly.

Floyd C. Dodson and assistants are making a thorough geological survey of a large body of land in southwest part of this county for the Fidelity Oil Company, of New Jersey. It is said that this concern expects to begin the development of its holdings in the near future.

T. F. Grisham and R. P. Ricker, of Breckenridge and Mexia, were here Wednesday consummating leases on several tracts of land in the northwest part of the county.—Sterling City News Record.

To Secure Agricultural Exhibit

T. H. Johnson has been employed to secure and prepare an agricultural exhibit to be sent to the Dallas Fair and other fairs from our county this fall. In order that he can secure an exhibit that will be a credit to our county he expects to begin assembling farm products at once and will certainly appreciate any cooperation and assistance accorded by the farmers of our county. The products can be left at Mr. Johnson's office in the basement of the First State Bank building.

Keep in mind that the biggest and best watermelons, pumpkins, kershaws—in fact the biggest and best of everything in the way of fruit, vegetables and farm products are desired and bring them to Mr. Johnson's office.

Howard County should have an exhibit that would compare favorably with the best.

Mrs. Lawrence Has Fine Garden

Mrs. L. F. Lawrence, postmistress at Luther, Texas, finds time to raise a fine garden in addition to attending to the other duties. She brought to the Chamber of Commerce this week from her garden a head of cabbage weighing nearly nine pounds and two monster beets. She also brought some very fine grapes.

Mrs. Lawrence has already marketed 500 pounds of cabbage from a little plot 25x65 feet and will have 100 pounds more to market. This small space devoted to raising cabbage will bring in fifty dollars in cash. Figure this up and see what an acre of cabbage would bring on this basis.

Benefit Ball Game

Even though there was standing room and then some at the ball park last Sunday the benefit ball game for the shopmen on strike netted the strikers over \$66.

The ball game was staged by the Trainers and Firemen; and the first game was between teams made up of members of the two organizations, the trainers winning handily by a score of ten to four. The second game was a contest between the winners and the shopmen.

We note that our old friend John W. Thurman, cashier of the Peoples State Bank at Ranger has been elected president of the Eighth District Association of Bankers. A. E. Pool, president of the Guaranty State Bank of Abilene, another former citizen of Big Spring, was named as a member of the executive committee.

Major Henry F. Phillips of the United States Army, and Mrs. Phillips of San Antonio, Texas, who are visiting the former's mother, Mrs. D. Phillips, were the inspiration of a swimming party that took place on Monday morning at Jones' pool. A charming aftermath was the breakfast cooked in the out of doors and served picnic fashion.

The list was made up of the honorees and their young daughter Harriet, Mr. and Mrs. Charles Cunningham, Mr. and Mrs. W. W. Rix, Mrs. Alice T. Reader, of Houston; Mrs. G. M. Whitney of Louisiana, Mrs. Shine Phillips, Miss Alice Ann Rix and Nancy Bell Phillips.

THE PRIMARY ELECTION RETURNS

Much Interest Taken in Election Saturday—Largest Vote Ever Polled in the County

There were plenty of surprises when the returns of the primary election held in our county last Saturday began to come in, and an immense crowd gathered on the courthouse lawn where J. F. Hair and W. L. McCollister had provided a bulletin board to post the returns to learn the results.

The surprise came in the great number of votes polled, as well as in the almost clean sweep the county candidates, endorsed by the Farm Labor Union and the Union men, made in being elected. With the exception of the candidates for county and district clerk and commissioner of precinct 3, the candidates so endorsed led the field. In the race for sheriff W. W. Satterwhite, endorsed by the Farm Labor Union and union men, was high man with 919 votes—with one small box yet to hear from—and lacked but about sixty eight votes of receiving more than all the other seven candidates in this contest; and this will be the only county office for which a runoff will be necessary.

On account of the great amount of votes and great number of candidates the counting was slow work and results late in being given out. The counting of the vote in precinct No. 3 where over 500 votes were cast was not completed until Sunday afternoon. Returns from over the state were not available Saturday night.

As only two sets of returns were provided for election and as the chairman of the executive committee is not authorized to open the returns for counting until Saturday July 29th—the results in all races for senate, state and county will not be known until such time. One small voting box is also out and is not included in returns given below. We give the returns for our county as they were given on the bulletin board at courthouse:

- For U. S. Senate—Incomplete—Ferguson 296; Mayfield 233; Cullen Thomas 142; Culbertson 162; Henry 77; Ousley 129.
 - For Governor—Incomplete—Warner 44; Neff 142; Rogers 451; King 7.
 - For Lieut. Gov.—Jamison 47; Davidson 78; Mayfield 67; Edmondson 117; Johnson 52.
 - Supt. Public Instruction—Bentley 117; Smith 104; Marrs 136.
 - Representative, 91st District—Carson 223; Riser 148.
 - District and County Clerk—J. I. Prichard 1009; W. F. Cook 945.
 - Sheriff and Tax Collector—J. W. McCutchan 144; M. W. Harwell 48; W. W. Satterwhite 919; H. T. Lane 14; L. S. Patterson 272; Bob Dorward 48; R. S. McDonald 104; Andrew J. Merrick 425.
 - County Treasurer—C. T. Clifton; Tucker 285; G. E. McNew 652; E. G. Towler 983.
 - Tax Assessor—Anderson Bailey 951; Luther J. Smith 1012.
 - Hide and Animal Inspector—Jes Slaughter 377; Joe B. Neel 491; J. W. Allen 918.
 - Commissioner Precinct 1—O. C. Bayes 197; C. A. Merrick 138.
 - Commissioner Precinct 2—J. G. Arnett 226; J. S. McOright 223.
 - Commissioner Precinct 3—I. B. Cauble 210; Geo. White 300.
 - Commissioner Precinct 4—W. M. Fletcher 422; G. O. Rice 204.
- County candidates who had no opponents are not listed because the vote received by them was not listed in many boxes.
- While the returns from the election are coming in slowly—and it will be after next Saturday, when the various county chairmen canvas the returns and make their report, that the exact result will be known.
- A sufficient number of votes have been tabulated to determine the result in most of the contests however and only a few run-offs will be necessary. It looks as though Mayfield and Ferguson will be in the run-off for the U. S. Senate. Neff may escape a run-off if he maintains his present lead over his opponents.
- Below are the results from about 200,000 votes of about a possible 300,000 votes; these are incomplete and are from 247 counties.
- U. S. Senate—Culbertson 68,942; Ferguson 74,523; Henry 25,794; Mayfield 160,185; Ousley 38,961; Thomas 53,838.
 - Governor—King 16,368; Neff 182,825; Rogers 112,942; Warner 32,465.
 - Lieut. Governor—Mayfield 113,628; Davidson 98,035; Johnson 46,550; Edmondson 113,320; Bentley 123,866; 51,619; Marrs 113,320; Riser 123,866.
 - Supt. Public Instruction—Smith 100,225; Jamison 18,465.
- It was impossible to give a tabulated

THE STRIKE SITUATION

Believed Conference Now On In Washington Means End of Strike—Local Notes of Strike Situation

Two Big Spring Boys on Honor Roll

Students of the University of Texas who achieved special distinction in their scholastic work for the spring term of the long session have been listed on the honor roll, which has just been issued by Dean H. Y. Benedict, of the College of Arts and Sciences. The object of this honor list is to commend officially one-tenth of the student body, that tenth whose grades during the term rank them scholastically above the remaining nine-tenths. This "top" tenth is subdivided in five groups, giving rank to the highest averages. In constructing the honor list, account is taken both of the grades made and the number of courses passed, giving credit both to quality and quantity of work done. Freshmen grades run lower than those of the upper classmen, and to attain equal rank on the honor roll, freshmen do not have to make quite such high averages as do the upper classmen.

In 1919 the honor roll was published in this manner for the first time, and since then it has been compiled in the same manner every term. Out of 3,117 students, there were 72 in Group 1, Summa Cum Laude; 148 in Group 2, Cum Laude Ampla; 222 in Group 3, Magna Cum Laude; 319 in Group 4, Ampla Cum Laude; and 412 in Group 5, Cum Laude.

Among the students from Big Spring in the University, the following were mentioned as deserving special distinction: Marion B. Hair, Wilbur Lee Matthews.

Delightful Outing

An altogether delightful outing was hosted by a coterie of the married set for some out of town guests on Friday evening of last week at Jones' pool in the south end of town.

The jolly party motored out at 6 o'clock and after a swim in the cool waters partook of barbecued chicken and accessories.

The personnel included, Mr. and Mrs. W. W. Rix, Mr. and Mrs. R. O. Jones, Mr. and Mrs. John Biles, Mr. and Mrs. Albert Fisher, Mr. and Mrs. Michael Stoner, Mrs. Jno. Notestine, Mrs. Alice T. Reader, of Houston, Texas, Mrs. G. M. Whitney of Alexandria, La., Mr. and Mrs. Nat Shick, Misses Mattie and Spencer Leatherwood, Catherine Anderson of Lamesa, Mary Duffus of El Paso, Alice Ann Rix, Clara Jones, Lillian Shick and Albert Fisher Jr. and Louis Biles.

A. J. Gallemore Enters New Business

A. J. Gallemore this week purchased the fire-insurance agency formerly conducted by O. T. Lacey and is now in active management of this business.

Mr. Gallemore is known to most everyone in the Big Spring section, is a courteous and affable gentleman and should more than make good in his new venture. He has secured a good line of responsible insurance companies and as he is going to give his entire time and attention to the insurance business you can rest assured that all business entrusted to him will be carefully and properly attended to.

He will maintain an office over the postoffice and will be glad to confer with any of our folks who desire to take out fire insurance.

Attend K. of C. Meeting at San Angelo

Rev. S. Kistner, Dan O'Keefe, S. P. Dally, Jno. Frue, Joe Dally, Paul Dally, Wm. Leonard, Chas. Vines, Tommie O'Keefe and Emil Pearson returned Monday from San Angelo where they had been to attend a meeting of the San Angelo Lodge Knights of Columbus and the following being initiated into the order, Tommie O'Keefe, Wm. Leonard, Paul and Joe Dally and Emil Pearson with a class of twenty-five.

A big barbecue in a pecan grove on the Concho with addresses by City Officials and prominent citizens of San Angelo was enjoyed in addition to the initiation ceremonies.

Swimming Party for Visitors

Major Henry F. Phillips of the United States Army, and Mrs. Phillips of San Antonio, Texas, who are visiting the former's mother, Mrs. D. Phillips, were the inspiration of a swimming party that took place on Monday morning at Jones' pool. A charming aftermath was the breakfast cooked in the out of doors and served picnic fashion.

The list was made up of the honorees and their young daughter Harriet, Mr. and Mrs. Charles Cunningham, Mr. and Mrs. W. W. Rix, Mrs. Alice T. Reader, of Houston; Mrs. G. M. Whitney of Louisiana, Mrs. Shine Phillips, Miss Alice Ann Rix and Nancy Bell Phillips.

A Visit to Experiment Farm

Representative of the Herald Visited the U. S. Experiment Station, Just north of Big Spring, Thursday and was more than surprised to find that everything was in such fine condition. It was evident that Fred Keating, the genial superintendent, had been working early and late for everything was shipshape and a finer crop would be difficult to find.

In addition to the large field crops there are to be looked after and careful data kept, of two hundred plots, each measuring one tenth of an acre. These plots constitute the main experimental work of this station, and have to do with various methods of tillage and preparation of the land; crop rotation work and variety testing. These records, kept thru a series of years, absolutely prove what methods must be followed to insure the greatest success in crop production in this section.

In addition, instruments have been installed and records kept of the daily temperatures, wind velocity, evaporation, rainfall and humidity of the atmosphere. The foregoing factors influence crop production and the closer "tab" we have on them the better equipped are we to overcome the many difficulties experienced by the new comer in farming in this section. By visiting the station and securing the data a new settler can avoid serious losses and disappointments.

The purpose of this experiment station is to determine what crops are best adapted to this section and which will give the highest average yield thru a series of years, as well as the proper cultural methods.

We consider this Experiment Station a great institution for our county and if more of our folks would visit the farm and get the data and facts that are being compiled for your use and benefit it would be worth much to us.

You will find Mr. Keating easy to get acquainted with, always glad to have you visit the station, and ready and willing at all times to cooperate with the folks of Howard County in furthering the agricultural interests of our county.

Chas. W. Macpherson Sr. Dead

The announcement of the death of Chas. W. Macpherson came as a great shock to friends and loved ones. He passed away at the family home at 700 Jack street, about 12:30 o'clock a. m., Sunday, following an illness of about two hours. Death was due to a cerebral hemorrhage. Mr. Macpherson, being stricken while eating a light lunch with Mrs. Macpherson after returning home from a visit down town.

He was aged fifty-seven years and eleven months and had made his home in Big Spring the past seventeen years. Of a cheerful and amiable temperament he readily won friends and those who knew him declare there was not a more kindly or a better man to be found anywhere. Ever ready and willing to help others, and with a word of praise rather than criticism for his fellowman, he was the type of man who may be classed as a good citizen, a true friend and neighbor, and many hearts are saddened by his going. He has practiced the teachings of the Golden Rule in his dealings with his fellowman and was ready to meet his Maker when the summons came.

Funeral services were conducted at the family home at 10:30 o'clock Tuesday morning and the remains laid to rest in the I. O. O. F. cemetery. The large concourse of friends attending the funeral and the beautiful floral offerings attested to the esteem in which this good man was held by our citizenship.

He is survived by his wife, a son, C. W. Macpherson Jr., and two daughters, Mrs. Fred C. Segelken of Los Angeles, California, and Mrs. A. J. Moss of Breckenridge, Texas, and to these who mourn for one dearly beloved is extended the deepest sympathy of a host of friends in this city.

Locate Auto Thieves

Ed R. Allen, W. B. Allen and Doc Meadows returned Tuesday night from Wichita Falls where they chased a band of auto thieves who stole two Ford touring cars here last week. They located the car belonging to J. E. Pittman, said car having been scrapped for repainting and the engine number changed, and arrested one of the gang. Sheriff J. W. McCutchan and Mr. Pittman left Sunday night for Wichita Falls to identify the auto recovered.

Other members of the gang are known, some of them having been around Big Spring for some time and it will only be a question of time until they are rounded up.

Mrs. R. O. Strain and nephew Belden Cole returned Sunday from a two-months visit with relatives in Kansas.

A Ray of Hope in Strike Situation

Just as the railway strike seemed to have settled to a long drawn out and determined battle, hopes for peace, which have waxed and waned as succeeding indications pointed to continued strife or a settlement have been revived by the gathering at Washington of strike leaders and railway executives. No news of the conferences between these representatives and President Harding have been given out as yet.

Restoration of seniority rights to men on strike remains the chief obstacle to peace.

Don't Rock the Boat

Disturbances and violation of picketing rules act only as a boomerang, as the cool heads of the Shop Crafts know. Every violation, even by sympathizers, hurts the standing of the union. It enables the railway managers to persuade the government to call out troops, but troops cannot repair railroads and troops cannot prevent the men from knowing they are in the right as long as they obey the law. Keep cool and the strike will be won.

Howard County Looks Good to Visitors

That Howard County looks mighty good to farmers from other sections of Texas was proven this week when Chas. Smith of Brown County and C. C. Patvado of San Saba County, though they had no intention of buying land here, decided to do so after a visit thru the county. They had recently made an auto trip thru Central Texas and the Panhandle and stated that crops in Howard County are the finest they have seen anywhere. They say that cotton is going to make as much as a bale to the acre on many of the farms in our county.

They picked out 640 acres of land that looked good to them and it is very probable that they will purchase this tract.

They stated that the folks here didn't seem to appreciate what a fine farming country we had in Howard County and that farmers from other sections of the state were going to flock in and buy much land while it was offered at such reasonable prices.

"Listen, you Marie, you go on and play and don't bother me, very much 'til I get all done eating this Kellogg's Corn Flakes, for lunch! Say, I bet your mouth waters when you catch me eatin' these big mouth-fuls of Kellogg's goodness!"

The perfect child-food for summer— Kellogg's CORN FLAKES serve with fresh fruit!

Let the little folks eat as often as they like and as much as they like of Kellogg's Corn Flakes—wonderful summer food for every member of the family!

Just what little and big stomachs need to thrive on best during the hot days; an ideal food to take the place of the heavy meals which upset health, make you sluggish and take the joy out of life!

Kellogg's are so extra delightful in summer with fresh fruits—for breakfast, for lunch, for "snacks." Try Kellogg's Corn Flakes as a dinner dessert with fresh fruit and cream!

Insist upon Kellogg's Corn Flakes in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

"Human Interest" in the Daily News.

In New York, where anything may and many things do, happen, a woman was shot five times by her husband because he caught her going out with other men. Most people shot even once will complain about it, but Mrs. Margaret Maher not only refused to swear out information against her husband, but defied the judge, who ordered her, in the public interest, to do so. "I deserved to be shot," she answered.

If you have a supposed "don" or other innocent-appearing shell brought as souvenir from "over there," make sure it isn't loaded. A Watertown, New York, man had a shell used as a door weight, and the sun heated it and it exploded and killed eight children.

Two woman stowaways who managed to conceal themselves until they reached this country from Russia, claimed to be opera singers and able to support themselves. They were ordered deported back to Russia. Whereupon both of them said that sooner than return they would kill themselves, as death was infinitely preferable to the dishonor, torture, and degradation which would be their lot if they went back to the land of Bolshevism and Soviet government.

A Malden, Mass., man was cruel to his horse, failing to provide it with proper shelter and feed. The wise judge, before whom the man was brought, ordered the horse turned out to graze and the man to be confined for two days and nights in the horse's stall in the stable to see how it felt to be a horse.

Card of Thanks

I want to thank my good friends throughout Howard County for their loyal support and influence in my successful race for the office of County and District Clerk of Howard County. I not only want to thank the men and women who voted for me, but also the others, as well as the boys and girls, who contributed their influence for me. I deeply appreciate your good will and ask the cooperation of our entire citizenship to the end that this office shall be able to give the best service possible to every citizen in Howard county.

Again thanking you for honoring me with the office, I beg to remain,
Yours sincerely,
J. I. Prichard.

String Beads Found

A string of beads was found on Johnson street last week. Owner can secure same by describing property and paying for this notice.

Stop! Look! Read

Can you sing?
We want you to join our choir.
Do you pray?
We need your prayers.
Can you smile?
Bless us with a sunny smile.
If you can do neither of these, come anyway. We will be glad and you will feel better.
Won't you come?
And remember the place, Christian Church, 9:45 a. m., every Sunday.
Reporter.

City Federation Meets August 1.

The regular monthly meeting of the City Federation will be held at the Rest Room at the courthouse at four o'clock, Tuesday afternoon, August 1st. All members are urged to attend this meeting as important business is to come up for consideration.

The reduction of Highway Railway Grade Crossing collisions is constantly growing more important as more than a million new automobiles are put into service each year and there is a corresponding steady increase in the number of crossing accidents. Just why a "slmp" will take a chance at a railway crossing and endanger the lives of all in his auto is more than the ordinary mortal can understand.

Fruits, melons, roasting ears, black-eyed peas and other products from the farms are now making it possible for the farmers to secure a little ready cash. This beats depending on a cotton crop alone as a cash crop.

Some folks have been able to determine that true friendship is worth more than mere gold. They are getting out of life that which is worth while, though their lot may be with those who cannot boast of riches.

Things are coming to an awful pass as President Harding had to postpone a game of golf the other day on account of the railway strike and the coal miners strike.

Mrs. Allen Mabree nee Miss Margaret Compton, after a few days visit in this city, the guest of Miss Maud Loeper, left Sunday morning for her home at Eastland.

It is stated that a car repairer at Abilene who failed to answer the strike call on July 1st has soured on the job and is now ready to quit. He has agreed to join the men on strike if assured of protection.

E. C. McBee of Denton has been a visitor here this week.

Our Own Home Town!

Abraham Lincoln Once Said:

"I like to see a man proud of the place in which he lives. I like to see a man live in it so his place will be proud of him."

We believe in this community—in the citizens who are proud of living here—in our good schools and churches—in the successful farmers and enterprising business men. We want to aid in every way.

We advise setting aside a portion of your income so you can make life something more than mere living. The satisfaction of a bank account, accrued from your savings eliminates the worry of how you are going to "get by."

We help you save, protect your funds and pay you 4 per cent on savings account.

"THE BANK WHERE YOU FEEL AT HOME"

J. Athans made a business trip to Colorado Wednesday.

T. F. Grisham returned Tuesday from a business trip to Dallas.

Ellis Green of Mineral Wells has been a business visitor here this week.

Mrs. W. F. Cushing was here Tuesday from the Cushing ranch southeast of this city.

THE COOLEST PLACE IN TOWN TO DRINK.....CUNNINGHAM AND PHILIPS.

The regular weekly shipment of Ford automobiles for the Stokes Motor company was received Tuesday.

WHEN YOU BUY CREAM FROM US PLEASE NOTE THE WAY IT'S SERVED...CUNNINGHAM & PHILIPS

Henry Lloyd and son Walter of Lampasas visited his brother R. E. Lloyd and family in this city last week.

If the coal strike is not settled before long its a cinch that none of us will have cause to complain of the heat this winter.

Mr. and Mrs. J. R. Copeland left Tuesday evening for Tulsa, Okla., to be with Mrs. Copeland's brother who is to undergo a serious operation.

Mr. and Mrs. B. O. Jones and daughter Miss Clara, and Miss Mary Duffus of El Paso left the first of the week for a fishing trip to Devils river. They were met at Angelo by relatives from Baird who will accompany them on the trip.

Mrs. Chas. E. Elze and children are expected to arrive next week from Parks, Texas, to join Mr. Elze and make their home in this city. Mr. Elze is scout for the Texas Company in this district.

Good old Howard County watermelons and cantaloupes are now rolling in daily and our folks are taking to same because melons raised in our county have a far better flavor than the ones shipped in earlier in the season.

That a home garden in town is really worth while is the opinion of Mrs. M. E. Holdscaw who apparently has much success in growing vegetables. Just to prove that her tomatoes are the best in town Mrs. Holdscaw brought the Herald force a big sack full of fine ripe tomatoes—some of them extra large—and they certainly were appreciated.

Concrete Work

Will be glad to furnish you estimates on sidewalks and curbs, retaining wall, or anything in concrete. SHEPARD & BURGHAM.

Strike Against Bankers, A. F. L. Council Declares

"Let there be no mistake—this is a strike against the Wall street interests and their hirelings, the managers who control the railroads of the land and not against the United States government."

"The Railroad Labor Board is not a judicial, executive or legislative branch of the government. It is purely an advisory and recommendatory body and the public has had no choice in the selection of the personnel nor has the public any control over any of its members."

That ringing statement concludes a proclamation issued by the entire executive council of the American Federation of Labor, whose members were polled by telegraph, putting the organization squarely behind the striking shopmen in their struggle with railroad managements.

Causes that led up to the strike order are presented for the information of the public as well as of national and international organizations, to whom the proclamation has been sent.

"The stoppage of work can be ended at any moment through joint negotiation between the railroad managements and the workers and there is nothing to prevent the adoption of this course at any moment," the statement says.

Vigorous protest is laid against the efforts of the administration to make it appear that the strike is against the government. It is pointed out that the roads have repeatedly violated the Labor Board's rulings and that no government authority called them to account for it.

"The fact that any organization is affiliated with the A. F. of L. have not participated in the strike up to this time," the proclamation says, "in no way lessens the justice of the cause for which all other affiliated unions are striking."

"Indeed, the effort by the Railroad Labor Board to placate these organizations is at once an admission and confession that the Railroad Labor Board erred in its decision and that it has now stooped to the position of trying to divide the ranks of the organized wage-earners and is attempting to create friction and strife among the wage earners."

Mrs. E. E. Hall and son Eimer of Abilene after a few days' visit with Mrs. H. H. Hurt, daughter of Mrs. Hall, left Wednesday evening for their home. Miss Vera Hall who accompanied them to this city will spend two weeks or more here with her sister.

Eb Hatch is all swelled up over landing a fifty or sixty-pound catfish on the Pecos last week and is claiming to be the champion fisherman of all West Texas. He declares that he is going to have a championship belt made from the hide of this whale.

R. P. Ricker returned Tuesday morning from a business trip to Dallas.

Ira Thurman of Ranger spent Sunday with friends in this city.

Neighborliness

How fondly the heart beats for neighborhood gatherings of joy! The Husking Bee, Quilting Party, Killing, Log Rolling, Gravy-making! These are but a few of the letter events that made life worth living.

Everybody came and brought a basket of fried chicken, plus all accessories to match. It turned in and made quick work of the day and then a real-to-goodness picnic ensued.

The beaux of the neighborhood eyes at the belles who blushed their appetites, and wondrous liked her frock. The older counted experiences of aches and then possibly there'd be a match, a foot race, and some games. Perhaps this would be by a spelling match or a song-so on through the day until when fond adieux would be said all went home happy and light to remember the pleasure of for weeks and weeks, and look to the next.

These were the days of real neighborliness. The women swapped receipts, as they often were, and the men swapped tobacco, politics, traded horses or anything.

That was the day when a man was as good as his bond, and a balanced individual was brain, brawn, and soul.

The camp meeting brought together from a radius of miles and the crowning event was Sunday and dinner on the grass.

Now this is not a plea for the days of few conveniences, the most covered bucket that the well, but it does seem to the cherished institution of neighborliness should not be permitted to pear from the face of the earth like the electric light, the radio concert, the gas engine, the suction sweeper, and so on but wouldn't it be a fine thing to be able to know everybody by his first name, and sending you a mess of spaghetti in the winter, or a peach or a watermelon in the summer! And all could come together in a while, for a round-up like we used to do!

Joe Hill whose fame as a laborer extends throughout West Texas placed several mounted specimens as well as some wildcat and other that have been converted into the office of the Chamber of Commerce and the splendid specimens responsible for much of the interest both as to proving the manhood of Mr. Hill and as to the tractiveness to the office of member of Commerce.

tion of Young Ladies and Little Girls.
Also for Boys under twelve years of
age. Studies will be resumed Tuesday,
September 5th, 1922.

For catalog apply to Sisters of Mercy,
Stanton, Martin Co., Texas. 45-5t.

Sons of The Idle Rich

Sons of the idle rich, for more than
a decade the butt of American sarcasm,
are coming to be viewed in a clearer
perspective.

The latest evidence of modern view-
point adopted by the pampered youth is
seen in the Vanderbilt family. "The
Cornelius Vanderbilt Newspaper Ser-
vice" having come into being under the
guiding hand of Cornelius Vanderbilt
Jr.

Young Vanderbilt burst into the news-
paper profession some four years ago
as a reporter on The New York Herald.
On a thirty dollar a week salary he
rode to business in his high-powered
motor car. He tried to be a good fel-
low and nothing of a snob, so it did
not take long for the speedster to van-
ish and for the young millionaire to
set aside some of his preconceived
notions of the newspaper profession.

Seemingly the young man has not
prospered under assignment, and hopes
to make better headway under his own
direction, hence we see him furnishing
news to the great metropolitan jour-
nals, some of which is published.

Presumably he has sensed the value
of publicity, if not of propaganda, and
with the Vanderbilt name attached to
his enterprise undoubtedly he will have
entree to the inner circles of finance and
industry that should be productive of
much material of public interest, if it be
discreetly written and the young man
display the ability to sift the wheat
from the chaff.

Young Vanderbilt has the opportunity
of a lifetime for public service if he
can measure up, on the one hand
declining to become the vehicle for indus-
trial exploitation, and on the other re-
fraining from too vivid an expression
of the socialistic views that seem to
have tinged his mentality since he has
rubbed elbows with the world.

When his grandfather lay dying re-
porters were turned away from the
Vanderbilt home as annoying pests, a
type of life too insignificant to warrant
courteous treatment. The world do
move. Young Vanderbilt is a reporter.
The operations of the Vanderbilt News
service will be watched by the public
and the newspaper profession with
thoughtful interest.

MONUMENTS, MARKERS AND CURBING

I have the agency for Texas Grey
Granite and am prepared to furnish
the finest monuments at fair prices.
With ten years of actual experience in
that line of work I can give good ser-
vice. I guarantee that when monument
is erected it will remain in position.
If you will phone 379 I will be glad to
show you designs and quote prices. In-
J. M. MORGAN, Contractor.
Big Spring, Texas.

George Gould Will Say Good Bye

The report that George Gould will
live with his old friend and new wife,
when the Gould affairs shall have been
settled in this country, causes no
astonishment among those who know
how the house of Gould has wined
under publicity that has engulfed the
family name in sensationalism.

Notoriety and the Goulds have been
almost synonymous ever since the elder
Jay Gould barricaded himself in the
Grand Opera House, New York, years
ago to escape the murmurs of an ex-
cited populace.

The experience of Anna Gould with
her funny little busted French count,
the battle over the Castellane children,
the alimony controversy, Countess
Anna's second marriage to a simon
pure prince, the internal squabble over
the manner in which brother George
handled the Gould monie and other in-
cidents have served to keep the family
before the public in an unfortunate
light for years.

Previously the experience of George
Gould with the dairy but determined
Zella Nicolaus gave even more sensa-
tional reading to a gossip loving public.
Indeed, it was not until an actress,
Edith Kingdon, entered the family that
the Gould name was restored to the
higher public regard.

Perhaps no woman in recent times
performed a duty as wife and mother
so sweetly, so splendidly as Edith King-
don. Her lonely death on the golf
links seemed a poor reward for the
nobility of her service.

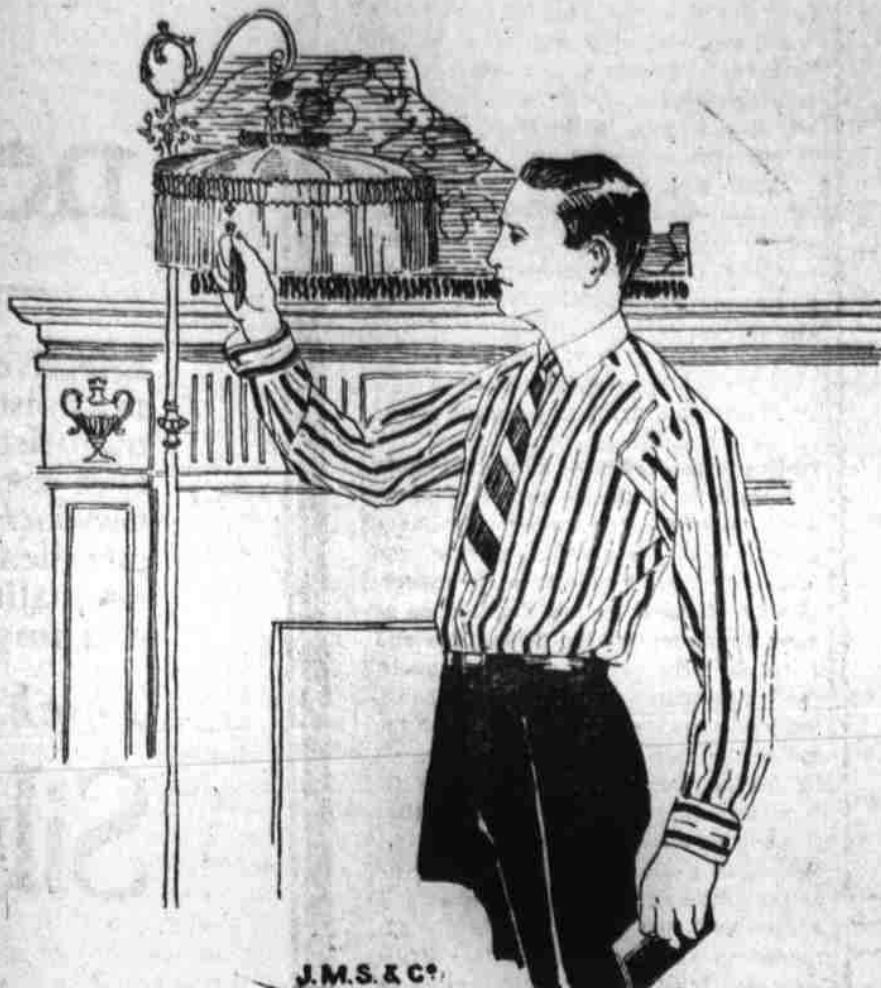

The American nation probably will
say good-by to George Gould with pass-
ing interest, but the stage should re-
member him.

He has been the vehicle through
which a maligned profession can point
to the fact that actresses can be splen-
did types of womanhood even if there
be black sheep and loose morals herded
aside by side with them.

Flash lights and what you need for
them. . . . Cunningham & Philips.

Six Points About Shirt Buttons

1. All Eagle Shirts have six buttons down the front.
2. They are spaced closely enough to keep from gaping at the waistband.
3. The bottom one is low enough to keep the shirt closed in front.
4. They are sewed with 50% more stitches than most manufacturers consider necessary.
5. They are of fine pearl.
6. They are on a full length center plait that makes a finished appearance.

WE SELL AND RECOMMEND EAGLE SHIRTS

BATHING SUITS

Men's \$3.00 to \$4.00

Children's 75c to \$2.50

Ladies \$2.50 to \$5.00

Quickly, economically you cut out your garment—

This new way saves you time and money

Unusual assortments of lovely new fabrics are now ready for your inspection. With a new Butterick Pattern and its Deltor you can make your own clothes.

Piece by piece, you quickly lay your pattern on just as the Deltor pictures show you. Snip, snip go your scissors! You cut just as an expert would. In almost no time you cut your garment from less material than would have been possible without the Deltor.

Every new Butterick Pattern includes the Deltor. It shows you just how to lay your size pattern on your width material. Every Deltor applies specifically to the garment you are working on.

The Deltor saves you time and money. It makes it possible for you to have more lovely clothes than ever before. At the pattern counter with all new Butterick Patterns.

Let's Try Anything Else Before Using Troops in Strike

Trains must be protected, mails must be kept moving and railroad shops safeguarded. But must this be done by armed troops? So many states are mobilizing their national guard forces and moving them about here and there that the reader can imagine he hears the tramp of feet and the rattle of accouterments throughout the country.

If there is any other way to furnish protection, let's don't use troops, either federal or state. Let's not embitter strikers and their families and possibly millions of other workers against the uniform and those who wear it, the loyal and resolute defenders of their country, the soldiers of the United States.

It is a bad thing for a country when a considerable number of well-disposed citizens lose their respect and admiration for their own soldiers; much worse when bitterness brings them into conflict with the troops of their country.

Let the shopcraft unions take the responsibility for protecting property and keeping the peace. They can do it by announcing they will expel permanently from membership and turn over to the authorities any union man who interferes with the mails, or with a train, or damages company property or attacks company employes. And knowing that every act of that kind hurts the union and helps the company, they can work up such a strong sentiment within the union and in the ranks of all organized labor that no mere sympathizer will dare commit an act of violence in the mistaken belief that he is helping win the strike.

And it is possible, in the same way, to keep a thumb on the companies to see that their workmen and other agents do not provoke clashes with strikers or themselves damage company property in the hope of discrediting the unions.

This matter can be worked out in a reasonable way if state and national authorities are patient enough to under-

take it instead of using military force. The very last thing to do is to reach for a gun.—El Paso Herald.

Methodist Notes

Last week the Superintendent received from Nashville a certificate for our S. S. showing it a 100 per cent Centenary Sunday School to date, "a record of which your entire church should be proud," writes Rev. J. E. Edgerton, centenary treasurer. We are glad to note that some are still making good their pledge; \$3.50 being paid in the past week. "If we remember our vows to perform them," our S. S. will still be a 100 per cent one in December as in July.

Last Sunday we had a reading from Mabel Robb at the close of the lesson and a beautiful solo by Miss Mabel Ricker. This Sunday Harriet and Betty Phillips will favor us with readings.

On Monday the W. M. Auxiliary met at the "Y" for its usual monthly social session. Quite a nice crowd was present, to listen to a good program and take part in the business session of our "Big 4 Circle." Over \$300.00 was collected in dues and pledges. Delicious refreshments were served by Mrs. Martin and her fine corps of helpers. We had with us as visitors Mrs. Henry Phillips and her two talented daughters whose readings were greatly enjoyed. We are to have the pleasure of hearing them again at S. S. Don't miss the Story of the Stars" told by the dainty, airy, fairy Betty, who very much resembles a fairy sprite herself in her delicate interpretation. The older sister also "sparkles." Come and see.

Monday at 4 at the church we will have Bible Drill on the Book of Second Samuel. Read the chapters and be prepared to take part. Under the cool electric fans you will be far more comfortable than at home. Try it once.

Gainsborough hair nets. Ask any woman. . . . Cunningham & Philips.

The Farmer Boy

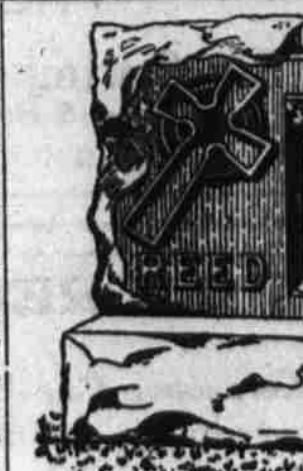

Many farmers are wondering what caused the farmer boy of today to wish to leave the farm. They remember that when they were boys, never thought of going to the city to live. But they do not remember that in those days the farm was the boys paradise. For old fashioned farming left plenty of time for fishing, hunting, and swimming. But now, that dad has adopted modern methods of farming, son has work to do all of the time, rain or shine. And there is not any use for him to hurry and get through with his work, so that he may go swimming.

Though the farm boy gets all the exercise he needs, still he needs play, for, "All work and no play makes Jack a dull boy." He wants to play baseball, but dad says there is no time for such foolishness. So the boy has nothing to look forward to, and he naturally becomes discouraged. And when he sees the city fellow, speeding by in a brand new car, he envies him, and wishes he could live in the city. If dad would promise him a few hours off on Saturday, provided he does his work well, it would be surprising how much better the work is, and how much more is done.

The boy should have something to care for, and to call his own. This should be a calf, a colt, or a pig. But it should not be given him, for he will get more satisfaction out of it if he can say he earned it. If he is told that he will be given a heifer if he works hard all summer, he will work very much harder, and will do much better work. And in this way he will pay for the animal.—C. A. Dorris.

Proof of the pudding is in the eating thereof. Thousands praise Tanlac. So will you. J. L. Ward Jewelry and Drug Co.—Advertisement.

Resolutions of Respect

Whereas our Heavenly Father called to his reward Brother Charles W. Macpherson, aged 57 years and eleven months, on Sunday July 23rd, 1922, and whereas Mullin Lodge I. O. O. F. No. 327 of Big Spring has lost a most worthy and beloved brother; therefore be it resolved that we tender to the wife, son and daughters, who mourn for him who was a faithful husband and a kind and loving father, our deepest sympathy and ask God to sustain and comfort them in their great trial. May we all meet him in the Home on High in our sincere prayer.

Be it further resolved that a copy of these resolutions be spread on the minutes of the lodge, a copy be sent to the family of our departed brother, and a copy published in the Big Spring Herald.

Dr. E. O. Ellington.
J. A. Stephens.
Ben Miller, Committee.

Notice to the Voters of Howard County

I want to thank the people of Howard County for the support they have given me in the elections during the last six years. I take it as an expression of kindness in you electing me as your Treasurer for the three times and I am grateful to you and have no ill feeling towards any of you. I am thanking you people who so loyally voted for me in the recent election and have no ill feeling towards those who saw fit to vote against me. I am informed that those who voted against me found no objections against me as a man, or as to the discharge of my duties and I assure you that I have faithfully attended to all the duties of the office and have tried to give good service to each person alike, for I had no favorites and no preference towards any one.

Yours truly,
G. E. McNew.

Union Get-to-Gather Meetings

The members of the Farm Labor Union and the union men of Big Spring met in their get-together meeting at W. O. W. Hall Wednesday evening and a fine time was in order. Much enthusiasm was in evidence as a result of the big victory in last Saturday's primary, and a number of short talks were made.

It was decided to meet regularly each Wednesday night. On Wednesday night August 9th a special meeting will be in order as the wives of the members will be invited to take part in the proceedings and a fine session and a big attendance is assured.

Fair vs. Unfair Railway Managers

The broadminded ones among the railroad manager realizing that the demands of the men on strike are just, are showing a willingness to concede them and secure a settlement. A small minority headed by the Pennsylvania and New York Central, and backed by the Morgan bankers are stupidly fighting the unions, against the decent managers and against public welfare. Many roads are seeking to arrange for conferences but a few roads are able to block all negotiations.

"Take All" Is Their Game

Since 1920 wages of railroad employes have been reduced to the tune of \$1,000,000,000, the operating expenses of the railroads have been reduced by over \$1,500,000,000 but the railroad managers have reduced rates to the tune of less than \$450,000,000. The owners are asking the employes to make sacrifices for their profit, not for the benefit of the public.

Investigate This

If you are interested in owning your home this will be of interest to you:

One 7-room house; modern; lot 98x100 feet. Ideal for roomers or light housekeeping. Price \$3300, terms, 7 1/2 per cent interest.

One 5-room bungalow; east front; lot 52x175 feet. Modern equipped. Price \$3200; terms.

One 5-room; modern; West front; lot 60x90 feet. Price \$3000, terms.

This property all on Scurry street. Look this over and see what will come you to build one like it. This price good for 20 days only. See A. F. Clayton or Gus Thomas at Star-Telegram stand. Phone 254.—Advertising.

Marital Law Being Involved

The railroad managers have been able to have marital law declared at Denison. They will not be satisfied until they have marital law declared at every division point in the state. The rail managers will spend billions and force the federal and state governments to do likewise before they will agree to pay their workers a living wage.

It seems that the fight is on in earnest to decide whether or not the railroad magnates and other monied interests control the government.

T. H. Johnson reports that he has secured a bunch of grapes for the Howard County exhibit that will make even Californians sit up and take notice. This bunch of white grapes weighed one and one-quarter pounds and was brought in by Mrs. W. E. Carnrike.

Commissioner of Agriculture Geo. B. Terrell will not call a meeting of the State Farmers' Institute this year, because of bad financial condition of the farmers and his inability to secure free transportation or reduced rates for the meeting.

Eastman kodaks. You will want one on your vacation. Reasonable prices. \$2.50 up. Ward's.

To the many kind friends who have given such a wonderful help and support in our time of sorrow, we express in this manner our thanks and appreciation.

Your words of cheer and your many acts of kindness and lovely floral offerings were appreciated by all and will ever be remembered.

Mrs. Chas. W. Macpherson,
Mr. and Mrs. Chas. W. Macpherson Jr.
Mr. and Mrs. Fred G. Slaughter,
Mr. and Mrs. A. J. Mason.

Notice—Notice—Notice

On account of unsettled conditions due to railway strike, I have not to make a trip August 1st. Will stay on the job here shoe repair work you need can depend on me to do it. W. E. A. D.

Bridge Club Notes

Mrs. W. W. Inkman delightedly entertained the members of the Club and a few guests Wednesday evening at a most enjoyable and especially pleasant meeting. Mrs. G. M. Whitney of Dallas, La., had the honor of setting guests high score and Mrs. H. F. San Antonio arrived in time for the delicious refreshments served at the close of play.

Notice

A Revival meeting will begin Evangelical Baptist Church on July 31st in Big Spring Sunday, July 31st 11 o'clock a. m.

The pastor will do the preaching. Everyone is extended a cordial invitation to come and take part in the singing. W. D. Green, Pastor.

Mr. and Mrs. F. O. Slaughter Thursday evening for a visit to their old home in Bryan and also to Houston and Galveston.

Goodrich announces new tire prices

—lowest cost mileage ever known

Effective July 20th, Goodrich establishes a revised price list that is a base line of tire value. It gives the motorist the buying advantage of knowing that whatever size tire he selects is of the same quality—the Goodrich one-quality standard. It gives him the longest mileage, the most satisfactory service and the highest-quality his money can buy. Results will prove that it is impossible to buy tire mileage at lower cost.

Think of being able to buy

Silvertown Cords

at such prices as these:

SIZE	BASE LINE PRICE	SIZE	BASE LINE PRICE
30 x 3 1/2 CL	\$13.50	34 x 4 S. B.	\$30.85
31 x 3.85 CL	15.95	32 x 4 1/2 S. B.	37.70
30 x 3 1/2 S. B.	15.95	33 x 4 1/2 S. B.	38.55
32 x 3 1/2 S. B.	22.95	34 x 4 1/2 S. B.	39.50
31 x 4 S. B.	26.45	35 x 4 1/2 S. B.	40.70
32 x 4 S. B.	29.15	33 x 5 S. B.	46.95
33 x 4 S. B.	30.05	35 x 5 S. B.	49.30

No extra charge for excise tax. This tax is paid by Goodrich

New base line prices are also effective on Goodrich Fabric Tires

SIZE	BASE LINE PRICE	SIZE	BASE LINE PRICE
30 x 3—"55"	\$9.65	32 x 4 S. B. Safety	\$21.20
30 x 3 1/2—"55"	10.65	33 x 4 1/2 S. B. Safety	22.35
32 x 3 1/2 S. B. Safety	16.30	34 x 4 S. B. Safety	22.85

No extra charge for excise tax. This tax is paid by Goodrich

This revised price list affords the motorist as definite a guide to tire prices as Goodrich Tires are the definite standard of tire quality.

Mrs. Mabel Gary visited relatives in Stanton Sunday.

Four Rail Strikers Arrested on New Orleans Writ

Four striking shopmen arrested here on contempt citations wired to El Paso from the United States district court in New Orleans yesterday, left last night for the Louisiana city, where they will be arraigned. They were accompanied by a deputy United States marshal and Attorney James J. Murphy, who has been employed by the shop crafts federation to defend them.

The citations were issued in behalf of the Texas & Pacific railroad in New Orleans as the receiver of the company is under jurisdiction of the court there.

The men arrested were: Dan Arnell, 1300 Texas street; G. M. Bernhart, 154 Brown street; Bill Dehlinger, 1219 E. Overland street, and Frank Langston, 703 Myrtle street.

Arrests were made by U. S. Deputy Marshal A. H. Woelber. The men were taken to the county jail, pending removal to New Orleans, where they have been ordered to appear before U. S. District Judge Rufus E. Foster, July 28, at 10 a. m.

According to Deputy Marshal Woelber, no information concerning the exact nature of the alleged violation of the Texas & Pacific injunction granted by Judge Forster when the railroad passed into the hands of a receiver was sent. The injunction protects the company against interference with traffic.

"Those men have violated no federal injunction," W. N. Chamberlain, chairman of the local federation of shop crafts, declared last night. "In addition to Mr. Murphy we have retained counsel in New Orleans to defend them."

"I expect to develop the case later, as I do not know what action will be necessary until I get to New Orleans," said Mr. Murphy. "We could have given bond here, but it was with the view of speeding up the case that we did not do so."—El Paso Times.

Three of the men arrested at El Paso for violation of the Federal injunction are well known in Big Spring, having formerly been employed in the T. & P. shops here: Bill Dehlinger in boiler-maker dept.; Frank Langston as machinist and Dan Arnell as a cooper-smith.

Machines Are The Present Day Serfs.

The Corpus Christi Caller points out in an interesting paragraph that to make 100 pairs of women's shoes by hand takes 1,025 hours of labor. To make them by machine requires only 80 hours. A machine-driven saw makes as many pine boards in 272 hours as can be sawed by hand in 16,000 hours. We are headed for a day when the only human labor will be making machines and keeping them adjusted while running. The machine is the modern slave. In effect, each of us has many of these slaves working for us. That is why we have a higher standard of living than our ancestors.

Reducing energy latent in fuel and water power to the use of man through the generation of electricity and its transmission to points where the work is to be done has accomplished the miracle of making inanimate things do work better and more quickly than men can do it with their hands. The electric power plant has become the most potent and necessary utility in the world of today.

As to School Transfers

School patrons are hereby notified that all transfers of students from one school district to another in our county must be made before August 1st.

Please take note of this and attend to it at once if you contemplate transferring your child to a different district as it will be impossible to arrange for such transfer after August 1.

James T. Brooks,
County Supt. of Schools.

For Silent Meditation

Give me a few friends who will love me for what I am, or am not, and keep ever burning before my wandering steps the kindly light of hope. And though age and infirmity overtake me, and I come not in sight of the castle of my dreams, teach me still to be thankful for life and time's old memories that are good and sweet; and may the evening twilight find me gentle still.

—Exchange.

Mr. and Mrs. Lee Castle, Misses Twila Lomax and Arah Phillips plan to leave Monday for an auto trip to Bryan, Galveston and Houston. They expect to be gone about two weeks.

Miss Gertrude McIntyre and Miss Mary Holmes returned this morning from a two months visit in Chicago, New York, Boston and Toronto, Canada, and report a delightful trip.

D. Graves enroute from Coleman to Lamesa to visit his brother, spent Thursday in this city. This is Mr. Graves' first visit to Big Spring in seventeen years.

Justice of the Peace J. A. Stephens on Thursday performed the ceremony which united in marriage C. V. McGee and Miss Thelma McMurry.

THE MAIN ELECTION IS OVER. LET'S ALL GET DOWN TO BUSINESS. ... CUNNINGHAM & PHILIPS.

Citation by Publication

THE STATE OF TEXAS
 To the Sheriff or any Constable of Howard County—Greeting:

You are hereby commanded to summon H. Thurman, B. M. Kitchen, William Barclow, I. B. Crockett, William Lampos, Sam Lirgis, George Denas, Peter Triampos, D. E. Fletcher, E. J. Leonard, Alice Tingle, Lem Hilburn, M. B. Hilburn, V. Day, George P. Hoover, L. B. Brownfield, J. M. Hartswell, J. W. Robinson, James Georgasopoulos, Gust Kironis, John Mavrakas, John Pulas, Christ Carcolio, Francis Barcolias, and J. F. Johnson by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the Thirty-second Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said Thirty Second Judicial District, to appear at the next regular term of the District Court of Howard County, to be holden at the Court House thereof, in Big Spring, on the 1st Monday in September A. D. 1922, the same being the 4th day of September A. D. 1922, then and there to answer a petition filed in said Court on the 28th day of July A. D. 1922 in a suit, numbered on the docket of said Court No. 889, wherein O. T. Lacey is Plaintiff, and H. Thurman, B. N. Kitchen, William Barclow, I. B. Crockett, William Lampos, Sam Lirgis, George Denas, Peter Triampos, D. E. Fletcher, E. J. Leonard, Alice Tingle, Lem Hilburn, M. B. Hilburn, V. Day, George P. Hoover, L. B. Brownfield, J. M. Hartswell, J. W. Robinson, James Georgasopoulos, Gust Kironis, John Mavrakas, John Pulas, Christ Carcolias, and J. F. Johnson are Defendants, and said petition alleging that on the 4th day of December 1918, plaintiff executed in favor of J. D. Biles an oil and gas lease on Sections 36, 38, and 48, Block 31, Township One South, in Howard County, Texas, that J. D. Biles assigned the said lease to the Big Spring Production Company and the said Big Spring Production Company assigned said lease to G. T. Hall.

That said defendants are now setting up some kind of a claim, title or interest in and to said oil and gas lease by transfer, assignment or otherwise, from or under said lessee, the exact nature of which plaintiff is unable to more definitely state, but whatever the nature or character of the same may be, it is inferior and subject to the rights and claim of said lessor and of the plaintiff and to terms, condition provisions and covenants of said lease contract, and is a cloud upon plaintiff's title to his said land, and is and should be declared terminated and cancelled. Wherefore, plaintiff prays the court that defendants be duly cited to appear and answer herein at the next regular term of this court, and that on final hearing of this cause, plaintiff have judgment against each of said defendants for the oil and gas rights, on and under said subscribed tract of land, and declaring said lease contract terminated and cancelled and removal of the cloud upon plaintiff's title to said land, his damages and costs, and for such other and further relief herein, special and general, in law and in equity that he may be justly entitled to.

Herein Fall Not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Big Spring, Texas this the 26 day of July A. D. 1922.

(Seal.) J. I. PRICHARD, Clerk
 District Court, Howard County.

W. I. Scrivner of Tempe, Ariz., when coming to Big Spring the other day took up for his former home town when a couple of fellow travelers, also headed for this place, seemed inclined to belittle it. He said he had then converted until he took them up town and they began to "hurrah" him because the streets were not paved and Big Spring did not have sewer system. He said the citizens of Arizona are more progressive than folks in Texas for not only are the streets of the small cities paved but concrete roadways are being built to connect the towns. Of course taxes are higher, but the people don't mind paying when they can enjoy such conveniences.

We note an advertisement in the daily papers offering \$1,000 reward for information sufficient for the arrest and conviction of persons who assaulted mechanics helper, R. Lopez Puqua, at Big Spring early morning of July 23rd. This advertisement signed by J. L. Lancaster receiver for the T. & P. Ry. Hardly any of our folks heard of this occurrence until they saw an item concerning same in the Dallas News.

Lost
 A Ford truck jack was lost between my place and G. Y. Wilson's on Gall road. Finder please return to me. J. P. ANDERSON.

Notice
 I have a \$95 Singer Sewing Machine for sale on easy terms. See me at 110 Beale street or at Busy Bee Cafe. E. A. ROWLAND. 1tp

S. M. McIntosh who farms four miles east of town reports crops out his way looking fine but that a nice rain would certainly prove beneficial. He has sixty-five acres in cotton that certainly looks good but his feed crop is going to be cut short unless rain comes at an early date.

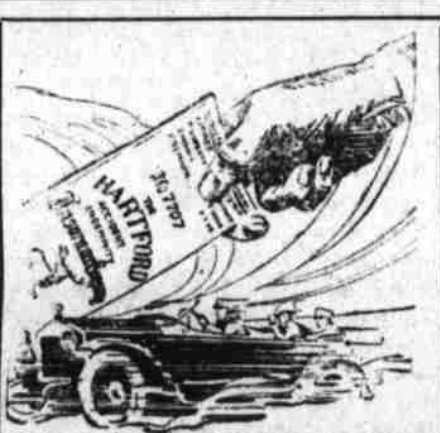

Mr. and Mrs. J. E. Wright and Miss Loraine Pate arrived Thursday via automobile from Fort Smith, Ark. for a visit with relatives in this city. Mrs. Wright and Miss Pate are sisters of Mrs. B. B. Fox.

The thermometer has been hanging around the ninety-six degree mark for days on a stretch and it is only after nightfall when the cool breezes appear that life seems worth struggling for.

Mr. and Mrs. George Carter and daughters, Dons and Adine, are visiting relatives in Wichita Falls.

Anderson Bailey and family left this week for a visit with relatives in Fort Stockton.

A good memory is a blamed nuisance sometimes.

THE test of a careful driver is found in the preparedness for the emergencies every car owner meets.

Jewelry at right price. Ward's Drug Store.

Vinson Ervin spent Sunday in Colorado city.

Poem by Uncle John

HOT DAYS—HERE AND THERE

We sizzle in the livin' room, an' smother on the porch. Old Sol is mighty reckless with his peaky little torch! But soon we'll roll from under, an' there'll be the twilight breeze, till we set around an' wonder if there's better days than these.

A feller ort to think about the everlastin' flame, in the pit that's so infernal, that I hate to write its name.—But they tell us it is real, an' we got to run the chance of payin' fer our meanness, where they wear asbestos pants!

It's foolishness to grumble when the sun's a little hot, with nothin' wuss to bother, than to hunt a cooler spot—while we face a possibility that's likely to occur, of sweatin' on, feverish, in the place we're headed fer.

So—we better be contented with the tan that's on our hide,—it beats the conflagration fried! An' I had ruther linger where the weather's apt to change, than to settle down fer ages, to a deathless cookin'-rangel!

Yr. ever-loving John

Thursday Book Club

The meeting of the Thursday Book Club was held the week before last with Mrs. C. E. Shive. Six tables of players thoroughly enjoyed the interesting games and the delicious ice course served at the close of the meeting. In the contest for the honor of making high score Mrs. Walter Pike was winner among the visitors and Mesdames Austin and Woodall made club high score; Mrs. Austin winning in the cut.

The club met last week with Mrs. Fox Stripling and an especially jolly time was enjoyed by the four tables of players. Mrs. Leslie Thomas made visitors high score at this meeting, while Mrs. C. W. Davis and Mrs. Kelly Hogg tied for club high score and Mrs. Hogg winning in the cut.

An ice course was served and very much enjoyed.

Who Are The Violators?

Do you know that Federal laws, Texas laws, and all law, has been trampled under foot by the railroads during the last few weeks? Equipment and appliances are being inspected by persons that don't hardly know the difference between a locomotive and a cook stove, are inspecting boilers and brake equipment. It is claimed that one inspector (strike-breaker) at the S. P. shops put a piece of wood to tighten up a cross-head of a locomotive.—Texas Railway Journal.

Card of Appreciation

I take this method of thanking my friends thruout the county for the loyal support accorded me in my race for sheriff and tax collector of Howard County. Your good will and loyalty is deeply appreciated. Although defeated, I hold no ill will or grouch against those who saw fit to vote for the other fellow for we all realize this is a free country and it is everyone's privilege to vote as they please. Yours truly, I. S. Patterson.

Appreciate Benefit Baseball Receipts

At the meeting of the Federated Shop Crafts Monday afternoon, a vote of thanks was extended to the members of the Firemen, Trainmen and Shopmen taking part in the Benefit ball game Sunday and to the various business houses making donations in the way of baseballs, etc. Thru this generous cooperation over \$66 was available for the relief of the Shopmen now out on strike.

Card of Appreciation

I take this method of expressing my sincere thanks and appreciation to my friends for the liberal support given me in the recent primary election. Though defeated by a very small majority, I feel like I made a good race, and assure each one of you that I deeply appreciate your vote in my behalf. W. F. Cook.

Cheering Her Up

Young Wife—"Oh, I am so miserable: my husband has been out all the evening, and I haven't the faintest idea where he is."

Experienced Friend—"My dear, you mustn't worry. You would probably be twice as miserable if you did know."—London Opinion.

Garage and Auto Repairing

Have opened a garage and auto repair shop at 311 Pecan street, in north part of Big Spring and am prepared to repair your auto in quick time. All work guaranteed. Also prepared to do tire patching. Phone 479. Bernard A. Rueckart. 42-4p

Visitor: What does the chaplain do here?

Freshman: Oh, he gets up in chapel every morning, looks over the student body and then prays for the college.

"No Man Can Serve Two Masters"

He that is not with me, is against me; and he that gathereth not with me, scattereth abroad.—Jesus.

No spiritual thought is a bad thought, and no bad thought is a spiritual one.

We can not deposit worthless paper in the bank of life and draw out gold.

One had as well undertake to go east and west at the same time as to try to hold to God with one hand and to the prince of darkness with the other.

There is no truce between vice and virtue, no compromise between right and wrong, no agreement between good and evil.

We can not fritter away our time and demand the fruits of the time well spent by others. Paul tells us, "Whoever a man soweth, that shall he also reap." The emphasis here should be upon the word "that." Each thing sown produces of its kind.

We can not sow tares and reap wheat.

We can not sow thorns and reap fruit.

We can not sow frivolity and reap spirituality.

We can not sow hate and reap love. It is a beautiful and useful life which begins each day with the loving thought expressed in these lines:

"If I can dry one tear today,
Hold back one soul that wants to stray,
Or show to one the higher way,
My life will better be."

Such a life is satisfying to the inner, or real, man, and no other can be. It is one which the Still Small Voice approves and sanctions. It is the kind of life which is constantly engaged in constructive work. No matter how hard we try to camouflage our conscience, when we do not live up to the best we know there will remain the realization that we have neglected opportunities, frittered away time, prostituted our talents, and to a greater or less degree suppressed the best that is in us. For this we are responsible, and there is no evading the responsibility.

When beginning our day's labor we too often allow ourselves to be diverted from the field of labor by tares, or weeds, or even by poisonous flowers, and thus not only fail to garner the King, but gather the crop of the enemy and then reap the penalty for our folly and disobedience. Sometimes, too, we squander our time in a way which neither plants, cultivates nor harvests, but actually prevents others from doing so. In this way we are made ideal servants of the enemy. We should realize this fact with horror, for the results are everlasting. We all engage in pastimes or works which are either constructive or destructive to a greater or less degree, for all work and all play is either constructive or destructive. Before engaging in either it is our imperative duty to consider which is to be the result, and then act accordingly. If we do that which is constructive we are blessed and made happy; if we occupy our time in that which does not build up, we are putting forth our efforts and talents, our time and thought, destructively, and are as certain to suffer in proportion as we are made happy by constructive effort.

We get out of life just what we put into it, and in that proportion.

Every day is an opportunity for work—physical, mental, spiritual. When one devotes his best thought to a matter, he is devoting his divinest attribute to it, since he is using intelligence, and this comes only from Him who is infinite intelligence. We each start out in the morning with a realization of this truth before us, but how many are able when nightfall comes to say, "Father, here are some sheaves from thy harvest field?" And yet some of us not only fail to garner for the Master during the day, but actually neglect the King's business and serve the evil one. We can not excuse ourselves by saying there was no grain to garner

where we were, for His harvest field is everywhere, and there is no part of it wherein there is no grain. So, whether it be little or much, we must make the effort, and that is what counts with Him whose we are and whom we serve. Zeal for the cause of right, honesty of purpose and earnest desire are what are considered by our Employer. This holds good whether the work be mental or physical.

One's thought is sure to portend the nature of one's effort.

The individual himself decides whether or not he shall entertain angels or devils in his mental home. A mind that is not alert soon finds itself the host of "wicked spirits" in the form of thoughts which are dishonest and impure. If one allows himself to entertain such guests often, he soon becomes accustomed to such company, and then makes little or no effort to rid himself of such associates. The result is always disaster. One who knew utterly the hearts of men said, "What I say unto one, I say unto all. Watch."

When being importuned, either by others or by our own thought, to do a thing which we know to be wrong, or about which we are in doubt, we should at once ask this question, "Wist ye not that I must be about my Father's business?"

There is so much to be done and so few to do it, or rather so few who will do it!

He whose constant effort is to be about his Father's business has little difficulty in overcoming temptation, for the very good reason that temptations do not so often come to one who is constantly engaged in business for the King. His thought is too pure, his time is too well occupied in better things, to give evil many opportunities to enter his consciousness; and then the devil hates a busy person anyway unless that person is busy about the devil's business. He sends for his most cunning emissaries for the seducing of one who is busy about the business of the King.

"No man can serve two masters: for either he will hate the one and love the other; or else he will hold to the one and despise the other."—Dallas News.

With most everyone up in the air when it comes to guessing how tomorrow's election is coming off, there will be a big crowd out tomorrow night to get the returns.

THE MAIN ELECTION IS OVER. LET'S ALL GET DOWN TO BUSINESS.....CUNNINGHAM & PHILIPS.

Prayer of a Knecker

Lord, please don't let this town grow. I've been here for thirty years and during that time I have fought every public movement. I've knocked everything and everybody. I have done all I can do to keep this town from growing and never have spoken a good word for it. I have knocked hard and often. Whenever I saw anyone progressing or enjoying himself, I have started a movement to kill the business or stop the fun. I do not want the young folks to stay in this town and I will do all I can by law, rule and ordinance to drive them away. It pains me, O Lord, to see that in spite of my knocking this town is beginning to grow. Some day I fear that I will be called on to put down sidewalks in front of my property and who knows but that I may have to keep up the streets that run by my premises? This, Lord, would be more than I could bear. It would cost me money, though all I have made has been right here in this town. Then, too, more people might come if the town begins to grow, which would cause me to lose some of my pull. I ask, therefore, to keep this town at a standstill, that I may continue to be chief. Amen.—Exchange.

Free Scholarships

According to President J. A. Hill, the State Board of Regents at its recent meeting in Austin authorized the West Texas State Normal College to grant three annual scholarships, carrying exemption from all fees, to young women in the seventh district of the Federated Clubs of Texas.

These scholarships will be awarded by a committee, from the Federated Clubs, of which committee Mrs. Arthur Ware, of Amarillo, is chairman. It is very gratifying that the basis of cooperation between the Federated Clubs and the West Texas State Normal College has been found. The two institutions will no doubt be greatly benefitted as both are primarily interested in the development of our young people and the improvement of our social system as a whole.

Dr. Harry F. Estell, president of the Sam Houston Normal Institute in Huntsville, Texas, was the week-end guest of his sister, Mrs. J. I. McDowell.

Kodak films. Ward's.

Discipline Wins

Chicago, July 14.—"Discipline must prevail if the trade union movement is to accomplish its historical mission," says Charles F. Hohmann, editor Baker's Journal.

"A trade union which cannot conceive this necessity is bound to experience the most ignominious and disgraceful downfall.

"Trade union discipline does not mean—as it is in the case of the army and during war times—that we must submit absolutely to the rule and dictations of superiors. Trade union discipline demands only that the individual subordinates his own will and desires to the interests and decisions of his organization.

"Trade union discipline does not demand personal sacrifices, only the realization of mutual efforts, and it is based upon the natural laws of self-control. This does not make trade union discipline by any means inferior to military discipline; quite the contrary—it strengthens the same in its efficiency.

"The degree of discipline within a trade union depends in a large degree and in its finality upon the strength of the will and determination among the membership as a whole to observe practice and discipline."

Famine Threatened

"I've had a hard day at the office, dear, and I'm hungry as a bear. Is dinner ready?"

"No, love, I'm afraid we'll have to go to a restaurant tonight. I've broken the can-opener."—Judge.

Christian Endeavor Rally a Success
The Christian Endeavor Rally which was held last Sunday evening at the Presbyterian church was well attended and quite a success. Only one speaker failed to appear and the program was highly enjoyed. Five members of the Midland District Council were on the platform and each gave splendid talks. The music and readings were especially enjoyed. The Council met at four o'clock p. m. and discussed plans for the Fall convention at Lamesa in September. It is hoped that this convention will be largely attended.

The following out of town visitors rendered most interesting parts on the program Sunday night: Miss Mariam Pemberton of Midland, president of the District; Mrs. Russell Jones of Midland, Alumni Supt.; Miss Frances Ratliff and Elizabeth McKissick, both active workers in the Midland Intermediate Union; Messrs Web Randle and J. R. Bebe of Lamesa. During their stay in Big Spring Miss Pemberton was entertained by Miss Ada Rutherford, Mrs. Russel Jones was the guest of Miss Ella Brown, Misses Ratliff and McKissick were entertained in the home of Mr. and Mrs. J. R. Creath, and Messrs Randle and Bebe were guests at the home of Mr. and Mrs. C. O. Jenkins.

Such a thing as a Democratic primary in Texas is a joke until the election law is changed so that only Democrats may participate in same. Under the present law a man can be a Democrat while voting and a Republican, Socialist or other party man just as soon as he leaves the polling place. It's a joke as conducted at present.

MULFORDS BLACKLEG AGGRES-
SIN FIFTEEN CENTS A DOSE.....
CUNNINGHAM & PHILIPS.

Inside Story of Success
Mr. Morgan might make a good farmer, but he would soon leave the farm for financing. Mr. Edison would probably prosper in the restaurant business, but catering to critical eaters is not Mr. Edison's long suit. "Bill" Skinner is a great "mule skinner," but "Bill" would not shine in a studio.

Mr. Schwab as a sea captain would undoubtedly be a success, but he is a bigger success as a captain of industry. Mr. Boomer as the head of a great system of big hotels, Mr. Ford as the manufacturer of flivvers, are both where they belong, but leave the cattle puncher on the range, not in the drawing room.

Individuality must fit the industry, and the industry be fit for the individuality.

And right here we find the suggestion why so many men fail.

A deep sea diver would not look well trying to direct the affairs of the Alexander Hamilton Institute. John G. Jones as General Sales Manager and Vice President would present a fine appearance running a park mower for the city government. John would do a good job with the mower, but you couldn't hold him there long.

And here we snub up against another big lesson.

The incapable and indifferent first try any old thing that fits their fancy, then they fancy they can fool all of the people, all of the time, but what's the result? They only fool themselves.

Capable and calculating men first find where they fit, then make sure that what they find fits them, and here you have the inside story of Success.—The Silent Partner.

Less Whitaker of Amarillo was a visitor here Tuesday and Wednesday. Mrs. Whitaker and children are here on a visit to her parents, Mr. and Mrs. L. T. Deats.

Education, the Hope of the World
Two thousand years of history makes it very plain that civilization is no better and no worse than the average citizens who make and maintain it.

Two thousand years have not, and doubtless will not, teach every one that a nation can not be legislated into Utopia. The "do as I do, think as I think, or I'll pass a constitutional amendment making you" chap, will probably, like the poor, always be with us.

But he will decrease in numbers as the knowledge spreads, that the spread of knowledge is the answer to all the problems of our imperfect life. When a man knows that a hot stove burns, he keeps his hands off. When he knows that oil soothes, he anoints his burned fingers. When we all know, what some of us realize, that the imperfections of our existence are due to the fact that a lot of us know no better, we will all unite for better education, for more education, for finer education.

We have too much reverence for "book learning" and not enough for understanding for the difference between acquired knowledge and acquired ability to think. It is education which teaches thinking, not dates and facts alone, which we all need. It is not only more schools, but better schools we must have.

You have guessed it! This is another argument for the Townser-Sterling bill, now before congress, creating a Department of Education, which shall aid our forty-eight states not only to educate more of us, but accomplish that education better, quicker, less expensively, more efficiently.

It is in education, not in army or conference, arbitration or treaty, that the hope of world peace lies; it is education, not legislation, which shall keep this nation in the forefront of the world's civilization.

Open Season for Mud-Slingers Over
The great Democratic primary election was held July 22, thus officially closing the open season for mud-slingers. For six weeks prior to the election men seeking high office addressed citizens of this great commonwealth from public platforms in every city in Texas. Instead of confining themselves to the issues of the campaign and presenting their views on great public questions in order that the voters might judge of their fitness for office, they spent much of their time bitterly denouncing their opponents. Motives were impugned; morals called in question; past official acts twisted and exaggerated to make them appear dishonest; political trickery resorted to in every conceivable way to get votes—and yet these men pose as statesmen. Where are our statesmen? In a population of nearly 5,000,000 persons, are there not men big enough to ignore the public attacks of small men and run for office on merit alone?

Many citizens attend a political speech to be entertained rather than to receive instruction. Citizens of this character, though their numbers be few, loudly applaud slanderous statements of the speaker. They may not believe them, but want to hear what they are pleased to term "a hot speech," and the politician falls for it. In doing so, he brands himself as unfit to hold the office for which he aspires.

Will the time ever come when Texas and other Southwestern States will become favorably known for the statesmen they produce? Not until voters give due consideration to a candidate's honesty of purpose, his understanding of public questions, and his merits as an honest, conscientious, outstanding citizen.—Farm and Ranch.

Services at First Baptist Church
Rev. Berry King of Abilene will conduct services at the First Baptist Church next Sunday at 11 a. m. and at night. All members urged to be present and the public is cordially invited to be present.

Rev. King is an earnest and entertaining talker and you should hear the messages he has to deliver.

The regular Roll Call meeting of the railway Shopcrafts was omitted Tuesday morning out of respect for Charles W. McPherson, aged 58, a member of the International Association of Machinists and a respected and highly esteemed citizen of Big Spring for many years, who died Sunday morning July 23rd and whose funeral was conducted at the family home at 10:30 o'clock Tuesday morning.

George, Dick and Eb Hatch, J. E. Moon, W. D. McDonald and Mr. Bell returned Monday from a fishing trip on the Pecos about two hundred miles southwest of here. They had fine luck for in addition to catching many fish they captured one cat fish weighing about sixty pounds (estimated) and another weighing about forty pounds.

The net revenue from railroad operations of the Southern Pacific company for the six months ending June 30 was \$27,006,898, an increase of \$5,014,210 over the same period last year. Yet the poor railroads need Uncle Sam's aid in cutting down the wages of the workmen.

W. M. Lourcy of Wichita Falls, a representative of the Gulf Production company, was making an inspection of oil development in this county Thursday.

Mrs. Joe Butte and Joe Jr., and Miss Lodema Evans spent Sunday with friends in Midland.

Homemakers Meeting
The Homemakers class of the First Baptist Church met with Mrs. B. N. Ralph, 706 Main street, Tuesday afternoon for a business meeting. The president, Mrs. Paul M. Boaz, presided. After Scripture reading the class went into the election of officers for the ensuing year. As it was the annual election new officers were elected. Mrs. D. E. Daniel, president; Mrs. Joe Copeland, first vice president; Mrs. R. S. McDonald, second vice president; Mrs. Geo. Brown, third vice president; Mrs. Dock Martin secretary; Mrs. Will Bly, treasurer; Mrs. Paul M. Boaz, reporter; Miss Lizzie Cromwell teacher.

Industrial Show August 1-2-3
At Dallas, Texas, on August 1st, 2nd and 3rd will be held a big Industrial Show; something instructive and out of the ordinary to users or prospective users of Fordson tractors—and a cordial invitation is extended you to attend one day at least. There will be something like thirty manufacturers of industrial equipment exhibiting their products, most of these being in active operation. At this show you will see road graders, planers, hay balers, threshing machines, air compressors, pumping outfits, hoisting machinery, dirt loaders, electric light generators and many other attachments too numerous to mention, all operated by the Fordson tractor. The illumination for the show grounds, as well as the current used for operating the moving pictures, will be furnished by generators Fordson-driven. Incidentally, this show will be opened by a parade through the main streets of the city, headed by a Lincoln car carrying the Mayors of the several cities located in Dallas and Tarrant Counties. In the parade there will be approximately twenty tractors trailing some type of industrial equipment, as well as a number of trucks equipped with bodies of various designs and makes. A local band has promised plenty of music.

Watch repair work done reasonable Ward's.

Oppose Resignation of Labor Commissioner
At the general meeting of the members of the shopmen now on strike Thursday morning, a resolution was adopted by the members of the six Shop Crafts urging Governor Neff not to accept the resignation of State Labor Commissioner Joseph S. Myers. A committee was appointed to draft such resolution and wire Governor Neff immediately. Further warnings were issued the men as to remaining entirely away from railway property. The men were urged not to go near the depot or to loiter near the company's right-of-way. The men were urged to do all in their power to avoid trouble as it is to the company's interest to seize on all disturbances in order to have martial law declared.

Dancing Party
A group of her friends of the younger society element surprised Miss Alice Ann Rix on last Saturday, her fourteenth birthday anniversary with a dancing party in the evening. The measures were trod to Edison records of excellent tempo and during an intermission a delectable ice course was served. Sharing in the pleasures of the occasion were Misses Rix, Mary Duffus of El Paso, Claras Jone, Lillian Roberts Potton, Alice Daves, Mattie Brooks, and Evelyn Buckley of Italy, and Lorena Kelsey of Sweetwater, and John Ross Williamson, Bill Turpin, Holt and Ingham of Midland, Ralph and Lewis Rix, Carson Blalack, Oscar Koberg, Omar Pittman, Coulter Richardson.

E. A. Rowland brought to the Chamber of Commerce Wednesday a cantaloupe that has had any yet brought in beat a mile as far as size and flavor are concerned. It was certainly a monster of a cantaloupe and just as good as it was big. Mr. Rowland should save the seed of the variety and have more of them raised in our county.

R. Barnett this week purchased of O. G. Loudamy a four room cottage on South Runnels street. This is especially desirable property and will make an ideal little home.

Foster's Weather Forecast
The Herald published Foster's weather forecast in its issue of April 7th and a number of our readers have requested that we republish same, and here it is:

The week centering on April 1 will average below normal temperatures on meridian 90 from Gulf of Mexico to the far north. The high temperature of that disturbance will be in northwestern Canada about April 5th, on and along meridian 90 April 5, and in eastern sections April 7. A cool wave will be in northwestern Canada near April 6, on meridian 90 April 8, eastern sections April 10.

Most severe storms of the month and most rain are expected during the week centering on 1 and these will be followed by killing frosts where they sometimes occur at this season. This will be a good crop weather month, except not so much rain as in March in the hard winter wheat section.

Readers must necessarily carefully study the storm paths that cross the continent from westward to eastward and I am preparing valuable and necessary improvements. Heretofore I have had only a mid-latitude storm path. I am now arranging a northern, a middle and a southern. On my chart for each month will be three temperature lines. The middle line will run near latitude 40 and will be the solid line now used. The northern will be a broken line near latitude 50. The southern a line of small circles near 30. The forecasts of temperatures are not in degrees but for above and below normal and you must learn to know about what the average daily temperatures are for your locality. Then the up and down movement of the temperature line will suggest for each day, how much above or below the usual or normal the daily temperature averages will be for your immediate vicinity.

Quite a number of my readers have got themselves all tangled up on my assurance that the general average of 1922 crops for North America will be good and that a great drought will strike North America within two years. Those readers failed to notice that the assured good crops are only for 1922, while the great North American drought will strike between April 1, 1922 and April 1, 1924.

My predictions of great and destructive droughts in fifteen great countries within two years of April 1922 has caused a profound sensation and is a very serious matter any way you look at it. I have not the least doubt that every one of these droughts, in the fifteen countries, will occur as predicted. The forecasts were made on a scientific basis and there is no guessing in it. If the whole could be given to the world, and if the world would accept that truth, a vast amount of suffering might be avoided and the governments of some countries, at least, might be saved from bankruptcy, anarchy and ruin. But the world would not accept my warnings and therefore it would do no good for me to publish the details. It would temporarily injure me and I cannot afford

to be injured in that way. I can make it a great benefit to myself and to those that have faith in my work. The list of those who have the complete details is rapidly growing. The evidences of these great droughts will begin to materialize between April 1 and May 1.

Force Will Not Win This Strike

"The attempt to settle the coal strike and reopen the mines by parading engines of war to awe American citizens would be a national farce did it not possess the elements of tragedy," states John Lewis, president of the International Union; and it seems that he is right.

Washington advices assert there is no concealing that grave concern had been given government officials by verified reports concerning the dwindling of coal output. Almost no new production has been attained in Pennsylvania, unionized coal fields since troop protection has been furnished, and non-union production in West Virginia, Tennessee and Kentucky has decreased far below levels maintained in June.

With "big business" directing affairs at Washington the same plan of using force to awe the rail strikers is going to be attempted—not to deal fairly with the men—but more to uphold the majesty and dignity of men who are incompetent to handle a situation that means much to the entire country.

In outlining the government position in the railroad strike, administration spokesmen said it had been decided that the railroad labor board's statutory authority to determine wages and working conditions for railroad employees must be recognized and upheld. The people are beginning to see that they mean to make the men recognize this authority but the Pennsylvania and other powerful railway systems can ignore the Labor Board's rulings with impunity.

We wonder if the Labor Board will have the nerve to go forward with their work of cutting the wages of the Maintenance of Way and Big Four Brotherhood? Our guess is that they will not, and action on same will be indefinitely postponed.

The money power seems to have the upper hand in government affairs and force not arbitration is the remedy they believe in.

T. F. Nabors pounded The Herald force this week with watermelons and cantaloupes and we'll say they were appreciated. Mr. Nabors has a special cantaloupe he has developed on his farm north of town, which is surely a dandy when it comes to flavor. Mr. Nabors has ten acres planted in melons and is going to be kept busy marketing them.

Frank Lester brought to the Chamber of Commerce this week one of the largest and finest tomatoes that one would care to see and enjoy. If the railway strike hangs on Mr. Lester could turn his attention to raising fine garden truck if he could have as much success as he has had with his tomatoes.

Consolation for Candidates

(By T. H. Johnson)
Come all you defeated candidates,
Whoever you may be,
The election is over
And now you are free.
You are free from all the worries
And abuse that you might get.
You are free from all the duties
And rotten politics.
The men who were elected
Has all of these to bear.
He has all the troubles on him
And the whole world to stare.
He will have to take the cursing
That every officer gets.
He will have to take the cursing
That goes with politics.
So cheer up, brother candidate
And take a little rest.
And say when you were running
You surely did your best.
So take life easy now
For two years at least.
Then you can run again
And may not suffer defeat.
Put your trust in God
And he can pull you thru
Don't put your trust in men
To electioneer for you.

Resolutions of Respect

Whereas an All Wise Father did on July 19th, 1922 call to his reward W. A. McGowan; and whereas in his death Mullin Lodge, I. O. O. F. No. 372 of Big Spring, Texas, did lose a worthy and esteemed brother;
Therefore be it resolved that we bow in humble submission to the will of Him who does all things for the best, though we deeply mourn for a friend and brother.
Be it further resolved that we tender to the family and other relatives our deepest sympathy, and ask the Great Comforter to aid them in bearing their deep sorrow.
Be it further resolved that a copy of these resolutions be spread on the minutes of this lodge, a copy sent to the bereaved family and a copy be printed in the Big Spring Herald.
Dr. E. O. Ellington.
Ben Miller.
J. A. Stephens.
Committee.

He Forgot the Climate

The Californian gets up at the alarm of a Connecticut clock; buttons his Chicago suspenders to Detroit overalls; washes his face with Cincinnati soap in a Pennsylvania basin; wipes on a Rhode Island towel; sits up to a Grand Rapids table, eats Kansas City meat and Minneapolis flour with his Idaho potatoes cooked with Indiana lard on a St. Louis stove burning Wyoming coal; warms up to a Belleville heater, decorated with German silver; puts on a new bridle on a Colorado broncho, fed with Iowa corn; plows five acres of land (covered with Ohio mortgages) with a Chattanooga plow. When bedtime comes he reads a chapter from the Bible printed in Boston; says a prayer written in Jerusalem; crawls under a blanket made in New Jersey only to be kept awake by fleas—the only home product of his own State.—Ex.

A Limited Enlightener

"I speak it's a lucky thing," said Uncle Eben. "dat de world doesn't have to depend entirely for its enlightenment on what Congress done foun' out in 'vestigations'."—Washington Star.

When He Gets It

"Does your wife ever let you drive her car?" "Oh, yes. She is always most anxious to have me take it when ever it needs gasoline and oil."

Destructionists, Constructionists and Dreamers

The population of the United States is composed of the above named classes of people, and organized labor has its share of all three. The first named class is composed of the I. W. W. members of the organizations of labor, and labor is not the only class of people who are blighted with the radical element. The gentleman (?) who sits back in some cushioned swiveled chair and holds a position as a railroad manager is sometimes affected with the same disease as the I. W. W., and when we find a railroad manager who is thus affected, we find a more dangerous character to society than the common radical, for the reason he is usually a man who carries more weight than the ordinary worker.

The railway manager of this class is the one who will tell the public that the present struggles of the shop crafts "is no fight between the men and the railways. That it is directed at the Rail Labor Board and that the companies have absolutely nothing to do with it." The primary cause of the trouble is that system of penance heaped upon the worker by no one else this same railroad manager, and who so readily tells the public that he "did not start this trouble and has nothing to do with it." The "SNAKE" who puts out such bunk is as far inferior to even an I. W. W. as the I. W. W. is to an ordinary good and law-abiding citizen. This kind of a manager is the man who sits back and throws the wrench in the machinery and will then say, "I am not to be condemned." This man is the real DESTRUCTIONIST.

The next we have to contend with is the CONSTRUCTIONIST, who is the man who has the sense of justice in him to try to work out a system, a sane and safe system, if you please, whereby both capital and labor will neither be given the best nor worst of things. The Adamson Eight-Hour Law is one of the most constructive bits of legislation that the law-making body of our nation has enacted in many years, while the work of the DESTRUCTIONIST was the enactment of the so-called Transportation Act, aimed solely at the laborer, the purpose being to destroy him! The power of the Labor Board does not go any further than to set a brake on the employe and his lawful activities. The gigantic railway corporations violate the orders of this body at will, and have they ever been threatened with prosecution? But the very minute that it is intimated that a body of workmen are going to violate an order coming from this Board, then they are immediately notified that they will face a vigorous prosecution. The Transportation Act does not apply to anyone except the workers. It was aimed at no one except them.

Next we have the DREAMER, who has dreamed that the time is now here and that the Lion and Lamb will lie down together. To him I must say that the time is far off when we will be able to wake up and be confronted with such wonderful things. Let him dream on, as no sane person will take him seriously.—Texas Railway Journal.

Congress Feels Want of Confidence.

Washington, July 10.—How to restore the American people's confidence in and esteem for the Congress of the United States is one of the political problems giving administration leaders deepest concern as the Congressional elections draw nearer.

The people's apparent loss of respect for Congress within recent months is being more and more emphasized here in the correspondence of House and Senate members and in the reports returning legislators bring of the way folks back home regard the National Legislature.

Concrete Sidewalks and Curbing

Now is the season to have concrete sidewalks and curbing constructed. Will be pleased to furnish you estimates on this work. JIM WINELOW, Phone 308.

Language and Dialect

In relation to modern languages, dialect usually means a variety or form of speech differing from the standard or literary language—a local variation. Every great language owes its origin to dialects, and is in fact merely a promoted or elevated dialect itself.

Where Women Predominate

Women predominate in all the British Isles.—In England and Wales there are 18,062,220 males and 18,803,022 females; in Scotland, 2,348,403 males and 2,533,885 females; Ireland, 2,192,048 males and 2,198,171 females.

Feed and Transfer

WHILE the baby chick is in the shell the white and yolk of the egg supply all the food needed to develop the chick. That is why chicks, when fed these white and yolk making elements after hatching, will grow twice as fast as chicks raised on unbalanced grains.

Purina Poultry Chows

make double weight chicks because they supply every element needed to feed the whole chick. These Chows will be delivered to you on a positive guarantee of double development the first six weeks or money back. Order Purina Chows today.

"Twin" Suns, 15,000 Times Brighter Than Our Luminary, Found

Victoria, B. C., July 22.—"Twin" suns, 52 quadrillion miles from earth, have been discovered by Dr. J. S. Plaskett, director of the Dominion of Canada's astrophysical observatory here through the observatory's big seventy-two-inch reflector telescope, it was announced today.

Scientists here said the discovery was one of the outstanding astronomical achievements of recent years. The suns have been named Plaskettis, for their discoverer.

Dr. Plaskett has estimated that the suns burn at a temperature of 30,000 degrees Fahrenheit as they whirl around one another. One, the more massive, is believed to be seventy-five times the bulk of our sun. The lesser is sixty-three times heavier.

One is 15,000 times as bright as the sun, the other 12,000 times as bright. Plaskett, Dr. Plaskett estimates is more than five times as large as any other known heavenly body.

Reducing the figures to modern terms, scientists pointed out that an airplane, traveling 200 miles an hour would require 30,000,000,000 years to travel from the earth to the newly discovered planets. Light, traveling at the rate of 186,000 miles a second requires more than 5,000 years for the passage.

The announcement of the discovery quotes Professor Harold Jacoby of Columbia University as characterizing it "the most outstanding of recent astronomical discoveries" and as declaring that the measurements recorded by Dr. Plaskett must be accepted as most reliable.

PHONE 389 FOR PURE MILK

We can now supply you with pure milk from tested cows. To further insure absolute purity we have installed a Clarifier which removes all foreign matter from the milk. Get pure milk. From now on our price is 6 cents per pint and 10 cents per quart. THE BIG SPRING DAIRY CO. J. T. Parrish, Proprietor. 25-42
