BARNETT GOLDEN AGE HOME PADUCAH, TEXAS

Where Senior Citisens May Have a Gracious Living. Air Conditioned, Central Heating, Early American Decor. Let Us Show You Our Beautiful Home for Yourself Or Loved Ones

Let's Quit Kidding Ourselves and Make MATADOR GO AND GROW!

This message is to all citizens, business and professional men, county officials, government employees, business employees, school teachers and officials, and all others who live in Matador.

This is my message: When we spend a dollar in some other town for anything we can buy in Matador, thinking we are saving money, then we certainly are kidding ourselves. We do not have a reason but an excuse. If spending \$50 for specials in some other town could save you \$10 (which is impossible) you would still be the loser. Count your time, your car expense, meals and incidenta's and you

If you live in Matador, every dollar that you spend here will pay you dividends later. How? With better schools, churches, better homes and a better town in

If the Lions Club, the womens clubs (especially the ladies because they make projects move), American Legion and VFW would make this their No. 1 project, we would see Matador Go and Grow.

Our Merchants

Matador is blessed with some really fine merchants and business places. They know better than anyone when their way of doing business and prices are in line. If they are not, then they will soon be replaced by merchants who will follow accepted merchandising trends.

Matador is at its low point. Let's start from here for a new high. Let's be united in the life of our community. I think we will all agree that in sickness or death no town is more united to help than is Matador. This is wonderful. Let's make Matador as united in life and watch it grow. Right Now!

MANPOWER AND WOMANPOWER MAKE A TOWN GROW!

A short distance from Matador is a smaller town, the people of which are very loyal on account of a few men (the number can be counted on the fingers of one hand). I make this remark as a tribute to these men. This town is standing pat. Without these men there would scarcely be a town in a short time.

A TRIBUTE TO C. W. FURR (Founder of Furr Super Markets): About 40 years ago, I lived in a small town where C. W. Furr was a merchant. Until his leaving, it was known as "the biggest little town in Texas." Why? C. W. Furr knew and he presented to the citizens and other businessmen that they must give their support to stay there. Consequently, most everyone felt, and 1 certainly did, that they would rather steal a hat, a pair of shoes, or what have you, than to buy in some other town. On his leaving, it was the beginning of the end of no town at all.

IMPOSSIBLE!

It is impossible for Matador to get smaller if the 100 business and professional men, employees, clubs and citizens will start right now to pat their fellow coworkers on the back, instead of wanting our backs patted. If we all spend our dollars in Matador, live and breathe and talk Matador, our dividends in better schools, churches, businesses and a better place in which to live, will be a bargain in comparison to what we think we might save elsewhere.

LET'S GROW FROM HERE-
