may require time but some of us more astute observers are working on a project which can help to simplify weather forecasts. Our basic formula is elementary, however the evidence to support it is evidently highly classified. Our premise is that the same writers of rain forecasts are also the authors of dope sheets sold at race tracks. Our strongest evidence is the corresponding ratio of accuracy.

Truth has a tendency of bouncing out from any cover of secrecy about the time its appearance will generate the maximum amount of embarrassment.

Most of us who have toiled long in the vineyards of life are enthralled by the adventure of modern plane travel. The conquest over distance is a reoccurring miracle, but the view from the sky is always rewarding, especially when the flight is through or above the clouds. Here are great white mountains, tumbled into changing shapes that form no pattern except one of wondrous beauty; they might be the playthings of dreamers left on the veranda of eternity.

It is amazing how many people are not interested in or even slightly concerned with our most serious problems.

Well Causes Interest

The new well has caused much interest in Roaring Springs and here in Matador. Since it is a feet of heavily oil-cut mud, 2,900 of oil activity may be expected in

the county. Reports indicate that much of the land in the vicinity of the new well is not leased, and that most of the land in the county, with the exception of two Roaring Springs fields, is not leased.

It is pointed out that lease money scattered among many landowners will greatly enhance the county's economy.

International President

DR. ROBERT D. McCULLOUGH

Dr. Robert D. McCullough of Tulsa, Oklahoma, was elected President of Lions International at the Association's 53rd Annual Convention in Atlantic City, New Jersey, July 1-4. Serving as the 54th President of the world's largest humanitarian service organization, Mc-Cullough leads some 932 000 members in 24,400 clubs located in 146 countries and geographic areas throughout the world.

Lions International is best known for its aid to the blind and sight conservation activities, international relations programs, and its many community service projects. "Involvement Now" will be the primary theme during Dr. McCullough's 1970-1971 Presidential Year. The importance of taking an active interest in the welfare of the community and the necessity for increased international understanding will both be emphasized.
