## TRAIL DUST

By DOUGLAS MEADOR

A friend who holds no illusions about the importance of himself or others, has a simple method. Place your arm in a tub of water up to the shoulder, remove it quickly and observe the hole that remains.

Some of the most pleasant people in the world belong to a club which is always enthusiastic and happy over the course of life.

Destiny has its own computer with favorable decisions reached through feeding it a healthy attitude and good work.

Values are changing so rapidly that I am never quite certain whether I am gaining or losing ground. As a boy I used to pour buckets of clabber to the pigs, and now I am buying it in small cartons labeled cottage cheese.

If you think the pressure of competition will relax with age, don't let it become convenient.

Time heals most of the wounds of our hearts with the patience of a dedicated doctor. It leaves scars from the imaginary hurts that plague the young.

Beware of the successful man who wants to tell you about his success, unless of course you wish to sell him something.

We have not the reverence for the rainbow that the savage has, because we know how much is made. We have lost as much as we gained by prying into that matter. —Mark Twain reprinted in "Quote" Magazine.

Induction Orders Received By Board (Special to Tribune) Texas Local Board No. 45, Plainview, has called upon to furnish 47 men for the armed forces for the November induction quota, and to send 80 for the pre-induction physical examination.

In this group for induction will be students that did not qualify for further student deferment and were classified I-A, but who are now full-time students.

These students will not be taken out of college if the local board has the Student Certificate (SSS Form 109) from their college, showing they are full-time students (taking at least 12 hours).

Any student, however, ordered for induction must write the local board a letter stating he is still pursuing a full-time course of instruction. DO NOT ASK YOUR SCHOOL TO DO SO.

### Modern Mechanics Of Education Explained To El Progresso Club

The high school building was the location for the October 27 meeting of El Progresso Study Club, with Mrs. Fred Simpson as program director for an explanation and demonstration of "New Trends in Education."

She opened the program with the following quiz from an unknown author, "Education is a compassion which no misfortune can depress, no crime can destroy, no enemy can alienate, no despots can enslave."

Continuing, she reported from the U. S. Office of Education, that this fall marks the 22nd straight year of mounting school enrollments, with three of every 10 persons in the country attending school. The school boom has become a boom to business and is rapidly becoming one of the nation's most productive industries. "When you consider the adults going back to school, teachers and others who are directly connected with education," she pointed out, "it is safe to estimate that about one-half of the population are involved in the 'education explosion.'"

Three new trends in education were outlined by Mrs. W. D. Lipscomb in a report on timely events. These were: Starting the child to public school at the age of five years, extending the school day to seven classroom hours, and extending the school year to ten months.

Mrs. John Hamilton was spokesman for the "New Trends in Education," and was assisted by Mesdames J. E. Edwards, Glendell Smith and Vance Gilbreath.

They demonstrated the new, modern concepts used in reading, writing and arithmetic, by means of slides, charts and reading machines.

The following new machines were demonstrated: Tachistoscope to increase the eye-span; Autokinetic to aid in writing; and the Cuisinamic for understanding the basic principals in arithmetic.

Mrs. W. N. Pipkin gave the "Inspirational Thought."

### Girls' Cage Teams Win Two Victories

MHS basketball girls brought home two victories to start the season off with a bang. The A and B team games were played at Patton Springs, Monday, Oct. 24.

Karol King led the A team to victory with a 24 point lead. Shelley Stevens popped in 9 points along with Brenda Wason's three and Deborah Tilson's one. Matador's guards, Olivia Campbell, Sharlene Berryman, Elaine Thompson, and Rosanne Terry, held the opponents to only 14 points. Marilyn Adeock was high scorer for Patton with six points. Final score was 37-14.

Matador's B team came out on top with a score of 39-22. Patty Edwards, who played both guard and forward, led the team with 24 points. Theresa Richardson showed her ability by hitting the ring for ten points. Gail Lynn and Barbara Slover made three and two points respectively.

Billie Smith, Sue Robbins, and Judy Marrs played defensively for the Matadors.

Mrs. Reece Timmons is coach of the team. Managers are Jana Jones and Vickie Holt.

### "The Branding Iron"

Rhonda Wood, of El Paso, visited MHS the past week. Rhonda was the guest of Barbara Slover and was visiting in the Joe Campbell home. The senior civics class witnessed a court procedure, Wednesday, Oct. 26. It was the first time many of the students had ever seen a court in session. The English III class has started studying the Red Badge of Courage by Stephen Crane. Oral reports, themes, and class discussions will constitute the class's critical analysis of the book.

John Thomas, one of the three team captains of the Matadors, broke his left hand, Thursday, during practice. Last year, John was unable to play due to a knee injury.

The student body of MHS met with their advisors, Wednesday, Oct. 26. During the time, the students were assigned a special time in which they could confer with the advisors individually.

Individual school pictures were made Friday, Oct. 28, in the high school auditorium by Henington's Studio of Wolfe City.

### Mavericks Stomp Turkey Jr. High

Matador Mavericks won a decisive victory over the Turkey Junior team here, at Burleson Field, Thursday night, Oct. 20. As the final horn blared, the score stood 24-8 for Matador.

The Turkey team elected to receive the opening kick-off. With the aid of a penalty against the Mavericks, they managed to squeeze a first down before being forced to punt. After a series of first downs by the Matador team, James Thompson took the ball and went all the way for a touchdown. However, it was brought back on a clipping penalty against the Reds.

The quarter changed and this time Thompson made good for the initial score. Robert Elliott made the extra points and the score stood 8-0.

Jackie Bynum kicked off for the Mavericks and Turkey took the ball to their own 43, but were dropped twice for a loss and the ball went over on the Turkey's 30. Robert Elliott carried the ball for Matador and made a powerful run around right end to score for the Mavericks. Bynum made the extras for a 16-0 lead.

Turkey again took the kick to their own 43 and the next play Bynum blitted in to drop them for a loss. The Turks made three first downs before losing the ball.

The Turks received in the second half but could not budge the ball. Matador took the ball on the Turkey 39, but had the same trouble. Turkey lost the ball again and James Thompson twisted through for his second touchdown and then ran the extra points to make it 24-0 with half a minute left in the third quarter.

The second team then went in, but allowed the Turks six points before the clock ran out, standing at 24-6.

### Rally Features Pompon Routine

The Lockett pep rally, Friday afternoon, Oct. 28, got underway with "Matador Boy" and "Who Are the Matadors?" followed by speeches by Dick Moss and Max

Barton, senior members of the football team. This week, the cheerleaders, in addition to leading the yells, presented a pompon routine to "No Matter What Shape Your Stomach's In" which won the enthusiastic approval of the audience.

Last week a Spirit Jug was presented to Laura Jacobs for her assistance in making the signs that are placed in the halls of MHS each week to arouse spirit in the Matadors and fans. The signs are made by the cheerleaders.

Speaking at the rally were coaches Myers and Byerley and guest speaker Principal Wayland Moore.

**A team for a better Texas for you!**

Better John Connally and Attorney General Waggoner Carr have worked together for 4 years to give Texas and YOU a better state and better opportunities.

As a United States Senator in Washington, Waggoner Carr will cooperate with Governor Connally to work for better education, more jobs, benefits for our elderly, and better prices for our farmers, ranchers and dairymen. He will do what is right for Texas!

**Elect Democrat WAGGONER CARR United States Senator**

**DON'T FORGET!**

**ONLY YOU CAN CAST A VOTE!**

It is your right as an American to be able to vote; it is your responsibility as a citizen to vote. Don't let your country down. Go to the polls Tuesday and protect your rights.

**IN HOSPITAL**  
 Mrs. Rhonda Miller had surgery Tuesday in Medical University Hospital, Lubbock. She is a patient in room 15.

**ARRIVAL ANNOUNCED**  
 Mr. and Mrs. Johnny Durham of Lubbock are announcing the arrival of a baby girl on October 22. She weighed 6 pounds, 10 ounces and was named Stormy Gale. They also have a son, Stacey, 2 years old.

**COUNTY AGENT PALLMEYER SAYS:**  
 Frost and freezing weather is connected with the formation of Prussic acid in all members of the Sorghum family, including Johnsongrass, sudan, milo, forage sorghums and all hybrids. The poison acts quickly and can kill an animal within a very short time after the damaged plant is eaten.

Frosted Johnsongrass or sorghum should not be grazed until the damaged plants are as dry as good quality hay or for at least a week after the frost. If it is ready to cut for hay before the frost, it may be cut immediately provided adequate curing time is allowed. Silage made from frost damaged plants is safe as soon as the ensiling process is complete.

Young plants or second growth suckers are more likely to cause trouble than older plants, nearing maturity. Too, the more luxuriant the growth, the more likely the plants will be dangerous if their growth is interrupted.

Many times I am asked if it is against the law to kill a particular kind of bird. Through the assistance of Game Warden Ronnie Vandiver, I have compiled a list of unprotected birds, so it might be a good idea to keep this list.

**Letter to the Editor**  
 Referring to your editorial of October 20, 1966, "Now is the time for all good men," you state that now is the time for all good men to come to the aid of their party, come election day, November 8th. It should have read, "Now is the time for all good men to come to the aid of our country."

The Democrats are in power, and Texas is a Democrat state. Yet there is nothing that would suit L. B. J. and the liberal party in power more than to elect Waggoner Carr and Dee Miller to U. S. Senate and U. S. House of Representatives on November 8th from the state of Texas. They would know then that the majority of the people of the state of Texas were for the Administration in power, The Great Society, and all of their give-away programs, etc. The only way we can slow them down at all for the next two years is by electing all the good, honest, conservative men we can on November 8th.

Senator Tower has already proved his worth by his voting record in the Senate.

One thing is certain. If you think more of the 18th District than you do of the United States of America, or the state of Texas, then you should vote for the man that would better your bread the most. On the other hand, if you think anything of your sons and daughters and grandchildren, you should vote for the man that would help our country the most.

It is probable that you as a voter may be disgruntled with the Administration, but the best way to change things is not by sending Waggoner Carr and Dee Miller to Washington. All this will do is to let the Administration know that we, the people of the state of Texas, by a majority vote, have agreed with what has been happening the last two years and several years before that.

## TEXAS IS ON THE MOVE!

in virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

**IMPROVED EDUCATION** — Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools has increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current biennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education.

**WATER RESOURCES DEVELOPMENT** — Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years.

**CONCERN FOR THE AGED AND NEEDY** — Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens.

**JUDOOR RECREATION** — More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.

**INDUSTRIAL EXPANSION** — A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion. Last year, more than 23,000 new jobs were created in manufacturing alone — the best year ever for the Texas labor force.

**INCREASED TOURISM** — More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded.

**MENTAL HEALTH AND MENTAL RETARDATION** — New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "warehousing" patients. Investment for research into causes of mental disorders has doubled the past four years.

**BETTER HIGHWAY TRANSPORTATION** — Texas has more farm-to-market roads than any other state — more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average.

**COMBAT AIR AND WATER POLLUTION** — New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.

**NEW CULTURAL GROWTH** — The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texas. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Antonio.

**BUSINESSLIKE ADMINISTRATION** — With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.

**HEALTHY, GROWING ECONOMY** — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.
