their offensive machinery to rolling in the game, and the result was a game monopoly by the defenses.

In the first half both teams put up a stonewall defense and neither team managed to score. But midway in the third quarter, Eddie Morales, the Jayton fullback, rounded left end, cut back and sailed in for the first score. The Matador forward wall stormed in to block the try for points to keep the score Jayton 6, Matador 0. In the final period, the Matadors scored their only tally of the game on a fine run by fullback Richard Campbell, covering 15 yards. Fine blocking by Charles Ezzell, Danny Davis, Dickie Garrison, and Tim Green produced the TD. A running try for extra points failed.

PRICE SEVEN CENTS

TRAIL DUST

By DOUGLAS MEADOR

So little of glory ever seeps through the complex capillary of life to its rightful assignation. For instance, it would be difficult to impress a rancher to pay tribute to the dentist. On the other hand but for the great advances made in the production of dentures, the consumption and price of beef would be much lower.

Opportunity is confronted with a competitive problem that requires automatic door-openers like a supermarket, so the prospects can browse around and look for something they want.

It is impossible to wash gossip from your hands after you have carried the sordid raiment that concealed a personal disaster.

I am approaching a stage in life where I feel like lifting my hat when I pass a wrecking yard of old automobiles. I am aware that some antiques are valuable but they are no longer practical.

Statistics would be extremely difficult to acquire but it is probable more Bibles were read proportionately by coal oil lamps than have been by diffused electric lights.

MOTHER DIES

Entire Magazine Is About Texas

The entire November issue of Ford Times is about Texas. The excellent 65-page magazine published by the Ford Motor Company is devoted to the Lone Star State, with fine features, pictures and drawings. With national circulation it should be a great source of attracting more visitors to Texas.

One of the features is by the late J. Frank Dobie. Frank X. Tolbert of the Dallas News tells about Canton, Texas where hunting dogs are swapped each first Monday, to attract from 3,000 to 5,000 visitors in a community of 1,500.

John Graves, in an article about the many lakes in Texas (and others to be built) tells the story about a rancher who said of the old days: "You took off your hat with respect when you walked up to a windmill."

There is a feature on the high Plains, the Big Bend National Park, the great cities of Texas, the Missions, The Valley, Padre Island and other sections of the 276,339 square miles of vacation land that even cause a "nativist" to want to travel more. Among the Texas recipes is one for Texas pecan pie, from the "Sirlion" in Lubbock.

You might ask Ford Dealer Glenn Woodruff for an extra copy to send to some "outlander" who does not know all about Texas.

Mavericks Corral Shorthorns In First Victory Of Season

By Tim Green

A stubborn defense and a wide-open offense led the Matador Mavericks to an easy 34-0 victory over Lockney last Tuesday night.

In the first quarter Darrell Marshall drove over the goal line from one-yard out to begin the fireworks. The extra point attempt failed and the score was 6-0. No other points were scored in the first half before time ran out.

The Mavericks literally stamped over Lockney in the second half. Darrell Marshall took a pitchout from quarterback Ronnie Welling and scampered 34 yards for a TD. Marshall also ran over the extras to make the score 14-0. Later in the third quarter Mark Hill and Don Cox combined on a 51 yard pass-and-run play to the Lockney 9 yard line. Cox scored on a one yard plunge and Marshall ran over the extras to make the score 22-0.

The same combination of Cox to Hill connected again in the third quarter for a 59 yard touchdown. Extra point try failed.

In the final period Marshall rounded out the scoring with a ten yard romp. Extra point try failed and the final score was 34-0.

Glen Moss, Stanley Martin, and Aaron Timmons were standouts on defense for the victorious Mavericks. Their record for this season is now 1-1.

Maverick Corral

By Karen Elliott

Each week the Matador Brand will feature a story of a first grade student. The featured first grader this week is Eddie Cook. Eddie, who is the son of Mr. and Mrs. Neveda Cook, was born July 24, 1958, in Matador. He and his brother, Randy, now live in Northfield where his parents are engaged in farming. Eddie enjoys school and says, "I like the work best."

Connie Turner, the reporter for the second grade, reports that the second grade has on display many interesting items from other countries. Billy Paul Campbell brought a Spanish hat; Lisa Smallwood two beautifully decorated, wooden plates from Germany; and, Will and Paula Palmeyer a pair of wooden shoes, four wooden plates, two chopsticks and a kimono from Japan.

The third grade students who have been finger painting, have created some very attractive and colorful pictures. They have also used their creative instinct to produce unique designs from scraps of different colored cloth.

In science the third grade students have been studying how to keep animals for pets. The third grade students staged a "Let's Trade Party," Monday. Each child brought toys or some other article to trade.

The fourth grade have been making crayola etchings. The etchings were constructed by first covering the paper with bright colors, and then covering it with dark or black colors. The design was completed by scratching through the dark colors with a sharp object.

The sixth graders have been

studying Egypt. In addition to making reports, the students have brought many interesting articles to supplement their study.

Ronnie Welling was elected president of the seventh grade. Other officers are Morris Price, vice president; Laura Jacobs, secretary; and Billy McAnally, reporter.

A once-a-week music period provided by four class mothers and Mrs. Maggie Hamilton, has become the highlight of the week. Each week, Mrs. Glen Woodruff, Mrs. Vernon Higginbotham, Mrs. Horace Jameson, Mrs. H. L. Martin, or Mrs. Hamilton teaches the children one hour of music on Fridays.

Don Cox was chosen fire marshal at MGS this year. Assistants are Mark Hill and Elaine Dixon.

Bill Barnhill and Andy Green are responsible for raising and lowering the colors this year. These boys, who are sixth graders have an important job, and realize the significance of the flag on campus.

Several MGS teachers have taken or will begin courses in the new math methods and science.

Mrs. Marshall, second grade teacher, attended a Workshop on the new methods at Spur recently. Mrs. Edwards, Mrs. Keith, Mrs. Reeves, and Mrs. Hamilton have enrolled for courses in math and science taught in Lubbock or Saturdays.

"We would appreciate it if families would keep their pet dogs at home, as we are not giving them perfect attendance certificates any more," states Mr. Edwards, MGS principal. His statement was issued after numerous dogs trespassed on the campuses and interfered with school activities.

PE GIRLS TAKE FITNESS TESTS

By Sharlene Berryman

As one walks through the halls of MHS this time of year, it isn't unusual to see several PE girls slumped, holding their stomachs, and looking as though they may collapse. Just ask any of them what's wrong and the answer would be "sit-ups, pullups, broad jump, and plenty of running exercise." By running they mean the 50 yard dash and 600 yard run-walk. These are physical fitness tests.

The tests, which are taken three times a year, were less dreaded this time than usual. There were less moans and groans and more enthusiasm, therefore higher grades were recorded.

SCOUT SPEAKS AT PEP RALLY

By Stella Martin

The Matador vs Jayton pep rally began with a bang last Friday afternoon. Guest speaker was Coach Ken Barr.

In addition to his job as assistant coach, Mr. Barr is also the number one scout for the Matadors. In his speech he pointed out the good points of the Jayton team, but also pointed out that Matador's team plus its fighting spirit would be the victor.

Besides an adult speaker, there are always a few football players who express their opinions about the oncoming game. Last week, Robin McAnally and Danny Davis told the student body that they thought the Mighty Matadors could and would clip the wings right off the Jaybirds!

To add to the variety of the pep rally, a skit of some sort, a song or a poem is given by members of the pep club. "Twas the night before the Game," a poem paraphrasing "Twas the night before Christmas," was recited by Stella Martin. Also, Patsy Hankins, Janie Killingsworth, and Judy Gwinn encouraged the team, through a song about the forthcoming game with Jayton to the tune of an old ballad.

STUDENTS PLAN '64 HOMECOMING

By Ruthie Lynn

Plans are getting under way in M.H.S. for the big Homecoming which is to be Nov. 20, 1964. Homecoming football game will be with Turkey.

Material is being selected and gathered by the Paper Staff for the annual Homecoming school paper. Each staff member is busily working on different features which will make up the paper.

Pep Club officers are planning and assigning jobs such as decorating stands and goal posts, getting articles to sell and getting programs together. The concession stand managers are also busy ordering and preparing for the big event.

The annual bonfire and pep rally plans are underway along with the speakers, skits, and stunts.

Out on one field are the Drum & Bugle Corps and Twirlers wholeheartedly practicing their routines, while over on another field the undefeated Matador Matadors are tediously working out so they will be presented in the best of shape. So Welcome Exes! We'll be ready!

BEFORE THE RAINS—These scenes were made on the Newton Fletcher farm about two miles southeast of Roaring Springs during the harvest of green blackeye peas. The crop netted approximately \$20 per acre in spite of extremely dry weather. Fertilizing value of pea vines is estimated to be worth \$10 per acre. Peas were harvested by Latin-American labor similar to cotton harvest. Lower photo shows picked peas being weighed before being loaded in waiting truck which rushed the peas to a cannery.

Hotline Phone Is Used Here

It is generally assumed that the red "hotline" telephones are located in the White House and in the Kremlin, as insurance against accidental disaster.

Matador has a red telephone, too. It is not connected with White House and Kremlin exchange. It is much shorter in length, extending from the office to the plant at West Texas Gin north of Matador. It is used to convey vital information on bales of cotton being processed.

Manager Bennie Keltz had some red paint last year and the phone needed painting. Hence the private "hotline."

Records Important Tax Man Sam Se

The keeping of records is a favorite subject with the Internal Revenue Service. For quite a few years the good tax folks have been encouraging taxpayers to keep better records.

On occasion this "encouragement" takes the form of disallowing the taxpayer's deduction during an audit because he can't prove the deduction.

The new series of public service TV spot films issued by Internal Revenue Service points out that the changes in the law make it more important than ever to keep tax records.
