Cupid's marksmanship may not be an inspiration to archers, but on the other hand it has prevented many 4F draftees of romance from wearing out porch swings by themselves.

In our crowded world many things are in short supply, but temptation is not on the list.

To have the courage to do anything is to invite a mistake. The safer course is to stay in the sidelines and be in a more favorable position to criticize those who dare to pour their courage into untried vessels.

To live by a television set is, perhaps, to accept its philosophy and be prepared to concede that words spoken at a departed one's obsequies is the commercial between the high adventure of life and the greater adventure of eternity.

The great safety factor of automobile seat belts is not readily apparent to a young couple courting down a lonely road on a moonlight night.

The fixed maintenance cost of raising and educating a child must be somewhere between all you can earn, all you expect to earn and what you can borrow.

No man is entirely free as long as a single habit keeps him prisoner. True emancipation is granted by the will in the tribunal of the heart.

Math Conferences Slated For Adults

Beacons For Living Emphasized By Sweetheart Banquet Speaker

Young people of the community were offered a wealth of advice, spiked with humor, in an address last week by an outstanding Lubbock attorney. Speaker was Roy Bass, widely known and in popular demand for his thought-provoking addresses.

Occasion was the Sweetheart Banquet on Monday night, at the First Baptist Church, an annual affair sponsored by the Baptist Women's Missionary Union for high school students.

"There are many beacons to chart a course by," Mr. Bass declared soberly, following mirthful introductory remarks which were highly entertaining to his audience.

"The light of sincerity is one of the strongest and most important beacons for an effective life . . . let folks know where you stand . . . let your yea be yea."

Pursuing the subject, "Harbor Lights," in keeping with the banquet theme of Anchors Aweigh, Mr. Bass listed salesmanship, personal philosophy, individuality, and discernment as other important "gleams" for character building.

"The gleam of salesmanship requires an element of advertisement," he pointed out, "but we have to have something to advertise—the light of selling ourselves requires a life of conviction and influence . . . there

is a gleam of personal philosophy in each of us—exercise the right to project that philosophy which is revealed in the sum total of our daily conduct."

He stressed spiritual conformity, but also asserted that conformity in the popular sense of following the crowd is not the mark of a mature person but rather of someone seeking security. "Develop the gleam of discernment," he advised, "it is important to evaluate situations and separate the wheat from the chaff."

Assembly was in the church auditorium, where organ music was played by Patsy Hankins, Shelley Stevens and Larry Keltz.

Gary Campbell as Program Pilot, served as master of ceremonies. Invocation was by Rev. James Hancock. Mrs. John Barnhill, W.M.U. president extended

Welcome and Jane Briscoe gave the Response. Special music (Gang Plank Melodies) was by the Sourdoughs. Rev. Hancock introduced the speaker and Mrs. Bass, who accompanied her husband. Benediction was by Ronnie Christian.

Tables and walls were decorated with lighthouses, miniature ships, sea gulls and other nautical symbols. Eighth grade girls, dressed as "gobs" served the delicious supper of spaghetti and meat sauce, buttered green beans, Chef's salad and garlic French bread, and dessert of Angel food cake with topping.

Mrs. Barnhill expressed thanks to everyone who assisted with the banquet and especially to the Northfield W.M.U. and to Mrs. Edgar Lee, who has supervised the decorations each year.

The first meeting of the new Guadalupe Society at Our Lady of Guadalupe Church was held on Sunday, March 28, following the mass. The meeting opened and closed with a prayer. Officers were elected as follows: Mrs. Solla Leal, President; Mrs. Manuela Hernandez Vice-president; Mrs. Carmela Castillo, Secretary and Mrs. Maria Saenz, Treasurer.

When purchasing bulbs, make sure they are not discolored and do not have scab type lesions on the surface. Healthy bulbs will have smooth surfaces free from spots and pitings.

Watch for signs of leaf spot on evergreens and check their color for uniformity and a healthy growing condition. It may be money well spent to buy top grades of nursery stock.

Because some ornamentals are extremely susceptible to diseases which occur in a given area, plant those with resistance to these diseases. Cotton root rot is very common, and should be considered when plants are being selected. A list of plants which show the most tolerance for this disease is available at my office. L-390 covers this topic, and other publications relative to other diseases are available for the asking.

Motley County has a wonderful group of dedicated volunteer 4-H Club adult leaders who contribute their time, ef-

fort and money to promote and assist the 4-H Club program, serving without pay.

Those who are not taking advantage on their income tax return can claim the following as charitable deductions, provided they itemize their deductions. Out of pocket transportation expenses, including the cost for use of cars or trucks to and from 4-H sponsored events, necessarily incurred in rendering donated service to 4-H, actual unreimbursed expenses incurred by 4-H adult leaders in attending contests, training courses and other 4-H sponsored events, meals, lodging and transportation expenses while away from home.

Cash contributions, contributions in kind, equipment, points and other supplies are also deductible, but no deduction is allowable for time contributed. A record of these expenses should be kept however, in case records are ever checked.

Beacons For Living Emphasized By Sweetheart Banquet Speaker

Young people of the community were offered a wealth of advice, spiked with humor, in an address last week by an outstanding Lubbock attorney. Speaker was Roy Bass, widely known and in popular demand for his thought-provoking addresses.

Occasion was the Sweetheart Banquet on Monday night, at the First Baptist Church, an annual affair sponsored by the Baptist Women's Missionary Union for high school students.

"There are many beacons to chart a course by," Mr. Bass declared soberly, following his introductory remarks which were highly entertaining to his audience.

"The light of sincerity is one of the strongest and most important beacons for an effective life . . . let folks know where you stand . . . let your yea be yea."

Pursuing the subject, "Harbor Lights," in keeping with the banquet theme of Anchors Aweigh, Mr. Bass listed salesmanship, personal philosophy, individuality, and discernment as other important "gleams" for character building.

"The gleam of salesmanship requires an element of advertisement," he pointed out, "but we have to have something to advertise—the light of selling ourselves requires a life of conviction and influence . . . there

is a gleam of personal philosophy in each of us—exercise the right to project that philosophy which is revealed in the sum total of our daily conduct."

He stressed spiritual conformity, but also asserted that conformity in the popular sense of following the crowd is not the mark of a mature person but rather of someone seeking security. "Develop the gleam of discernment," he advised, "it is important to evaluate situations and separate the wheat from the chaff."

Assembly was in the church auditorium, where organ music was played by Patsy Hankins, Shelley Stevens and Larry Keltz.

Gary Campbell as Program Pilot, served as master of ceremonies. Invocation was by Rev. James Hancock. Mrs. John Barnhill, W.M.U. president extended

Welcome and Jane Briscoe gave the Response. Special music (Gang Plank Melodies) was by the Sourdoughs. Rev. Hancock introduced the speaker and Mrs. Bass, who accompanied her husband. Benediction was by Ronnie Christian.

Tables and walls were decorated with lighthouses, miniature ships, sea gulls and other nautical symbols. Eighth grade girls, dressed as "gobs" served the delicious supper of spaghetti and meat sauce, buttered green beans, Chef's salad and garlic French bread, and dessert of Angel food cake with topping.

Mrs. Barnhill expressed thanks to everyone who assisted with the banquet and especially to the Northfield W.M.U. and to Mrs. Edgar Lee, who has supervised the decorations each year.

Catholic Women's Society Organized

The first meeting of the new Guadalupe Society at Our Lady of Guadalupe Church was held on Sunday, March 28, following the mass. The meeting opened and closed with a prayer.

Officers were elected as follows: Mrs. Soila Leal, President; Mrs. Manuela Hernandez Vice-president; Mrs. Carmela Castillo, Secretary and Mrs. Maria Saenz, Treasurer.

Twelve women were present, the others being Miss Dora Castillo, and Mesdames Audelia Saenz, Victoria Fuentes, Maria Mercedes Hernandez, San Juanita Zarate, Joan Patton, Cruz Garcia, and Julia Leal.

Each meeting is to be held the first Sunday of each month.

Home owners can head off later troubles by purchasing only disease free and healthy plants. If at all possible, check the roots to see they are free of such diseases as rots, galls or knots. Avoid buying plants that do not have a healthy appearing root system.

Also make sure the stems of the plant or plants are healthy in appearance. Dead areas or cankerous type lesions often found on stems may later develop and kill the plants. Diseases can be carried to healthy plants already growing through plant-

ing of those with disease. When purchasing bulbs, make sure they are not discolored and do not have scab type lesions on the surface. Healthy bulbs will have smooth surfaces free from spots and pit-

ings. Watch for signs of leaf spot on evergreens and check their color for uniformity and a healthy growing condition. It may be money well spent to buy top grades of nursery stock.

Because some ornamentals are extremely susceptible to diseases which occur in a given area, plant those with resistance to these diseases. Cotton root rot is very common, and should be considered when plants are being selected. A list of plants which show the most tolerance for this disease is available at my office. L-390 covers this topic, and other publications relative to other diseases are available for the asking.

Cast Announced For Junior Play

by Janie Killingsworth

The anxiously awaited announcement was finally received by the Juniors March 30. It was the names of the junior play cast. One could hear remarks such as "Who are you?" or "What part did you get?" passing from one junior to another.

The cast is as follows: John Barnhill as Gordon Warren, a mild-mannered guidance counselor; Chip Smith as Charlie Plunkett, janitor of Pembroke High; Kathy Hemby as Mrs. Maggs, cleaning lady at Pembroke; Joanie Barton as Mary Lou Brennan, a charming, lively senior; Ronnie Cox as Don Donley, Mary Lou's boyfriend; Harold Meason as Larry Donley, Don's older brother; Janie Killingsworth as Miss Entwistle, the warm-hearted principal of Pembroke High; Sharon Martin as Miss Prather, the stern and positive math teacher; Karen Elliott as Jane Gradner, a young lady in her first year of teaching; Wanda Lipham as Carol Izzard, a loud-talking high school girl; and Pat Day as Mrs. Donley, the mother of Don and Larry.

The play "Lock, Stock and Lipstick" will be held April 30 at eight o'clock. The admission will be 50c for adults and 25c for students.

which they extended to make this year's senior play possible. That superb makeup job can be attributed to Mrs. Timmons, the furniture used was the property of Thacker's Hardware, and many of the other properties were borrowed from several helpful citizens of the community.

We, the senior class, would especially like to thank Mr. Johnson, the director and producer of the play, for his long hours spent in bringing the play to production. About that ulcer, Mr. Johnson, we're awfully sorry; maybe the seniors next year will be a little brighter than we are.

And, of course, we want to thank you, the public, for paying your good money to come and see our show; we hope that you enjoyed it.

COUNTY AGENT PALLMEYER SAYS:

A new loan program recently announced by the Farmers Home Administration is designed to help rural families finance enterprises that will improve their incomes.

Alfred Harrison, F.H.A. County Supervisor has informed me that the new loans are a part of the Economic Opportunity Act of 1964. They can provide up to \$2500 for up to 15 years at a 4 1/8% interest rate. Rural residents can get the loans on the basis of their ability and character.

According to Harrison, the loans are for people who know a good way to increase their income, but who cannot readily get financing through regular credit channels. Farmers can borrow for improvements, land, equipment, livestock, machinery, buildings and other items.

Anyone interested in additional information about the new loans should contact Harrison or myself.

Clean fence rows can boost your income. Vegetation along the fence row robs moisture and nutrients from surrounding cropland and can result in reduced production on numerous acres, and where fence rows are not kept clean, you can save money, time and labor by not trying to produce crops nearby. Why waste this cropland though?

Fence rows also provide a place for insects to hibernate, so if you are interested in having clean fence rows, stop by and pick up information on chemicals that will make the job easier.

Zing into spring! in a new Chevrolet

If you've been sitting tight waiting for just your kind of car, with just your kind of power, at just your kind of price—wait no longer!

Chevrolet. It's a bigger, more beautiful car this year. Which is why that handsome silhouette could be mistaken for cars costing a thousand—even two thousand—dollars more.

Chevelle. This one's got lively looks, spirited power, a softer ride—and remarkable room atop a highly maneuverable wheelbase. No wonder it's today's favorite mid-size car.

Chevy II. No car so trim has a right to be so thrifty. But thrifty it is, with money-savers like brakes that adjust themselves and a long-lived exhaust system.

Corvair. Ask any '65 Corvair owner how it feels to drive a car with such easy steering, tenacious traction and responsive rear-engine power. And be ready to do lots of listening.

Police Sergeant Says Many Try To Cheat Taking Driver Tests

People often try to cheat in taking drivers' tests according to Sgt. Frank Fisher of the Drivers' License Division of the Texas Department of Public Safety, stationed in El Paso.

Sgt. Fisher was born and reared in the Flomot community and is the son of Mr. and Mrs. Ernest Fisher. He is a graduate of Flomot High School.

A feature article in the El Paso Herald-Post by Jane Pemberton issue of February 9 tells of many experiences Sgt. Fisher has had with attempts at cheating in order to pass the tests.

"The cheating doesn't surprise me anymore, but I am amazed at some of the ways they come up with to do it," he said.

One of the most common tricks of the cheaters is to write test answers inside the cover of book matches. Others write the answers on the palms of their hands and even half way up their arms.

"We spot them immediately when they roll up their sleeves to check the answers," the Sgt. said.

Licenses often reveal some funny stories.

One man got a license in 1937, the first year they were required in Texas. He never learned that it was supposed to have been renewed in 1938.

So he carried it for more than 15 years, never bothering to

get it renewed. He didn't even know he was breaking the law until he decided to get a new license.

"He must have been a good driver," Sgt. Fisher said. "Apparently he was never stopped by an officer for any reason during those years."

Another man got a license as a teenager and his parents had him restricted to "driving a red model A Ford with a rear view mirror." (This is completely legal when parents wish to keep their young drivers in just one car.)

However, the man never had the restriction removed from subsequent licenses until recently. Legally, he was still supposed to be driving that red model A Ford with the rear view mirror.

ARRIVAL ANNOUNCED

Mr. and Mrs. Stanley Burleson of Cedar Hill announce the arrival of a son, David Erin, on March 23, at Lockney General Hospital. The young man has two sisters, Carra Jean, 4, and Beverly Sue, 2. Grandparents are Mr. and Mrs. W. E. Burleson of Floydada, former local residents; Mrs. Blix Belew of Colorado Springs, Colo., and Hershel Belew of Woodward, Okla. Great grandparents are W. B. Barton of Flomot and Mr. and Mrs. J. C. Burleson of Matador.

Small Loans Made In Texas To Aid Fight on Poverty

First loan to help a Texas low-income rural family raise their income and attain a better standard of living under President Johnson's War on Poverty Program has been explained by Lester J. Cappelman, State Director for the Farmers Home Administration.

A loan was made to a 57 year old farmer and his wife, parents of 8 children, living near Long Branch, Panola County, Texas; \$2,500 for 15 years to refinance a mortgage which is overdue against his small 25-acre farm, purchase a milk cow and a mule, carry out some land development work and pay operating expenses on his 1965 truck crop which will consist of 2 1/2 acres of tomatoes and cucumbers. The family of ten also will raise a large garden and some pigs to meet their family food needs. Improvements made with the loan will enable this family to make a 50 percent increase in their gross income which last year totaled \$1,540.

Cappelman said approximately 75 applications for economic opportunity loans have been received.

The loans are authorized by the Economic Opportunity Act of 1964, which includes a rural credit service involving \$35 million in Federal funds.

In addition, three other loans have been approved in Texas, one to a 51 year old farmer who lives in Harrison County near Marshall, Texas.

There are five children in this family. The total amount of the loan is \$2,500. The funds will be used to purchase 12 acres of land, and move and repair a house to be located on the 12 acres being purchased. This will provide a more adequate dwelling for the family.

The third loan, was one made to a widow living near Hempstead in Waller County. A loan of \$820 is being used to assist this widow in purchasing livestock and drilling a well so that she and her family will have a sanitary water supply for domestic purposes.

The Farmers Home Administration County Supervisor for Washington and Waller Counties, Temple Evans, has developed a farming program on the small acreage which should result in an increased gross income of approximately \$400 per year.

The fourth loan was made to a couple living in Bell County who operate a small farm. The loan funds will be used to enable them to add an additional source of income through the construction and equipping of a small tractor and farm implement repair shop. With this additional source of income, the family will be able to raise their level of living from \$1,200 per year to approximately \$2,000 per year after the business is in operation. This will amount to a 50 percent increase in their gross income from all sources.

Soil Conservation Programs Complete

from the Motley County Soil Conservation Office

Five Great Plains Conservation Program contracts with the Soil Conservation Service in Motley County expired at the end of 1964. These contracts covering 29,005 acres have completed applying conservation on the ground.

These contracts were with L. B. Campbell, W. E. Burleson, Jack Parnell, Coyal Francis and Frank Smith. These ranches were assisted by the GPCP in applying a complete conservation plan at a more rapid pace. This pace gets conservation on the land which stabilizes the operations on farm and ranches to dry weather such as we are now having.

The conservation applied by these SCD cooperators has helped many people. It has reduced soil erosion and water pollution, which affects persons from here to where the Mississippi River empties into the Gulf of Mexico. It has also brought money into Motley County which has employed several persons over the past seven years.

There are 30 active GPCP contracts in Motley County now. The program is open to anyone

who wants to apply a complete conservation plan on an operating unit. The program cost-shares practices to get the conservation applied at an accelerated rate.

Why ELDERCARE offers better care than Medicare

- ★ More benefits for the elderly
- ★ Less cost to the taxpayers

This is the concluding advertisement in a series of 5 explaining ELDERCARE as compared with plan of Medicare

17 Q. AREN'T MANY OF THE ELDERLY NOW RECEIVING HEALTH CARE THROUGH THE KERR-MILLS LAW PASSED BY CONGRESS IN 1960?

A. Yes. All fifty states have Old Age Assistance programs under Kerr-Mills. Forty states and four jurisdictions have implemented Medical Assistance for the Aged programs under Kerr-Mills. Three other states have passed MAA legislation. Legislatures in most of the other seven states will be considering Kerr-Mills implementation this year. Eldercare would help to further expand and improve Kerr-Mills programs and would encourage even further implementation of the law.

18 Q. SOME SAY ELDERCARE IS AN EXCELLENT PROPOSAL, BUT THAT IT WAS DEVELOPED TOO LATE.

A. Both Eldercare and Medicare are now before Congress. Is it ever too late to pass good legislation and reject bad legislation?

19 Q. DO FACTS SUPPORT THE BELIEF THAT THE ADMINISTRATION, BECAUSE OF THE NOVEMBER 3 ELECTION, RECEIVED A "MANDATE" TO PUSH FOR PASSAGE OF MEDICARE?

A. National public opinion poll, published in the nation's newspapers Jan. 4, 1965, reported that 77 per cent of the people do not understand the provisions or limitations of the Medicare tax plan. How could there be a "mandate" to pass a bill when some 150,000,000 people do not understand what it will do or will not do?

20 Q. WHY ARE THE DOCTORS SUPPORTING ELDERCARE AND OPPOSING MEDICARE?

A. Physicians, who care for the elderly and know their health programs and medical needs, support Eldercare because it offers more benefits to the elderly at less cost to the taxpayers. They support it because it assures the patient free choice of physician and hospital and because it would provide medical care in a manner that is in keeping with the high standards and high quality of our present health care system.

WHAT YOU CAN DO

Time is short. Both bills are before Congress. Write your Congressman and Senators today. Urge them to vote for The Herlong-Curtis Eldercare Bill (H. R. 3727) and to reject again the Medicare tax plan.

OUR HOSPITALS

They rank with banks and county seats as the best assets to the area.

A bill is to be presented in the Legislature to declare a Motley County Hospital District. Later a bond issue may be called for. I FAVOR BOTH.

It is almost impossible for a doctor to practice medicine and manage a hospital at the same time. The bond issue should be large enough to build a new, modern, fire-proof hospital. Probably \$100,000.00. If state and federal requirements are met, it might be possible to obtain the same amount of money from the federal government.

\$200,000.00 is probably the least amount for building and equipment that will take care of our needs.

At any time several residents are in other hospitals when they could be taken care of at home.

In 1959 our Legislature passed rigid laws governing hospitals and placed supervision under the State Health Department. Correspondence indicates they agree that money should not be wasted in purchasing old facilities.

New building should be well located, probably out of city limits, easily accessible, room for expansion and parking.

LET'S ENCOURAGE A BOND ISSUE BIG ENOUGH TO FILL OUR NEEDS!
