## TRAIL DUST

Contentment is the quiet testimony of faith qualified by the dignity of courage to meet the future moment at a time in the conviction that it is blessed.

Deceit may now leave its mark in the sands where my sandals will pass and it is no longer of consequence I have grown tolerant of the unfaithful and the ambassadors of deception because truth and time will strip them of the worthless trinkets they have collected. My compassion reaches to the frontier of manhood and responsibility, but fails to enter my childhood. Try as I may to banish the hurt of crushed faith in claims and promises, it remains. One was a picture projector, described in illustration and detail. Barefooted and weary, I worked in the sun for days and saved my pennies; worked and dreamed my boyhood dreams. The long days of waiting and at last the hour of arrival. Some painted tin and a piece of glass to corrupt a promise. A material lie shipped in brown paper to make a boy grow sick with disappointment. Tears. Some scars must remain in our heart forever.

One method by which two can live as cheaply as one is to have the marriage annulled after the ceremony and before buying the first stock of groceries.

Enthusiasm is the intangible ingredient in every achievement which is often described as luck.

Marriage is what frequently happens to a man who accidentally trips the approval of some girl's mother. (Tribune files 6-20-57)

About half the women were professional models or actresses, and the other half were career women and housewives," Barrow says. "Though she'd never entered this type of contest before, Nancy is no stranger to the stage. For the talent portion of the race, she simply picked up her guitar and sang a few of the folk songs she's been singing around the state since student days at Texas Tech in Lubbock."

The bride is the daughter of Mr. and Mrs. Bobby J. Tyson of Lubbock, formerly of Roaring Springs. The bridegroom is the son of Mrs. W. M. Owens of Lubbock and the late Mr. Owens.

Given in marriage by her father, the bride wore a formal gown of white organza with a high, sheer, victorian neckline, trimmed in a V-shaped ruffle and Chantilly lace. The long, bishop sleeves and empire waistline were accented by

matching lace. The gown was finished with a three-tiered ruffled train and a chapel length veil of illusion and matching lace.

Matron of honor was Mrs. Penny Pittman, cousin of the bride, and Miss Susan Miller was bridesmaid. They wore long dresses of yellow and coral, respectively, with matching picture hats trimmed with flowers and ribbon.

Candlelighters were Miss Marilyn Owens, sister of the groom, and his niece, Miss Deanie James.

Two attendants served as best man for the groom, his cousin, Dennis Hood, and his brother, Johnny Owens. Ushers were Ronnie Pittman and Walter Stephens, cousins

of the bride and groom, respectively.

Flower girl was Christy Tyson, and ring bearer was Shayne Pierce, both cousins of the bride.

Wedding music was provided by Mrs. Joyce Rowe, organist and Cary C. Bank, pianist, and vocal duets were sung by Jack Tyson, uncle of the bride and Wayne Pierce, cousin of the bride.

A reception followed the ceremony, with Miss Shelly Pierce, cousin of the bride and Miss Leah Owens and Lance Owens, niece and nephew of the groom, handing out rice bags in the bride's chosen colors, yellow, coral and lime green.

Mrs. Donna Menasco registered guests, and Miss LaVonda Pevey, cousin of the bride, handed out the wedding programs.

After a honeymoon trip to Disneyland in California, the couple will reside in Lubbock, where the groom is employed at Sax Auto Machines.

The bride graduated with honors from Coronado High School and is employed at Shetland Hallmark Stores. She is the granddaughter of Mrs. Leta Foust and R. J. - ★ Proper insulation helps to keep OUT heat in the summer, helps to reduce outside noises, absorbs inside sounds, and can save over 40% on energy costs on both cooling and heating.
- ★ Insulation comes in rolls, loose-fill or batts. Insulation is labeled with a R value showing its ability to resist heat. The better its insulating value, the higher the number. R values up to R 30 in the ceiling and R 20 in walls are now being recommended for new construction in this area.
