Veterans Day Is Observed

TRAIL DUST

By DOUGLAS MEADOR

Often I am startled from melancholy meditation through the realization that many people have known me since before I amounted to anything. Even more shocking is the knowledge that I still don't amount to anything and that all they have to show for their pains is the lasting quality of some acquaintances.

There is never a homecoming at the university of experience.

Pity first the rich who have never known the joy of giving, then the poor who have been denied.

Opportunity is like an egg. Once it is dropped, its composure disintegrates.

Within the orbit of a lifetime we are subject to the influence of many individuals, yet in most instances character is shaped by our thinking when alone.

True wisdom prevails upon a man when he beholds the future's enchanted valley and in an inspired moment fears success more than failure.

Love is like the explosion of an Atom bomb in the province of two people; with the fall out carried to the territory of familiarity.

City Has New Well

CITY OF MATADOR has a new producing water well and a second is being drilled, it was announced this week. Drilling of the first well was completed last week and test pumping produced 690 gallons per minute. The present four wells in use by the city produce 490 gallons.

The two new wells are located one mile East of Roaring Springs, on the north side of Dutchman Creek. The land belongs to Mance King of Texarkana, formerly of Plainview. AMA Drilling Co., of Memphis is the drilling contractor. The site is eight miles from Matador.

Water samples have been sent to Austin and the City Council is expecting reports of the results in the near future.

The city held an election in May, 1975 to approve the issuance of \$284,000 in bonds

to be used to aid in funding a new water supply source for Matador. This was done in order to obtain a \$100,000 Community Development Block Grant to finance a portion of the cost of the project.

The water bond issue was triggered by a warning by the State Health Department that nitrate levels in the present water supply are slightly over the acceptable mark and could be harmful to infants and by the fact that the present supply was getting low.

L. B. Campbell, City Council Representative to work with the Water Board said that bids for piping the new water supply to the water site, would be let after plans for laying the lines are made final. Completion of the project can be expected some time next summer, he said.

High self esteem on the part of the person as he grows older, is one of the goals set forth in the book, with answers to many problems which beset the aging. "Happiness is catching," Mr. Smith declared. "Get involved by caring and doing for others. Develop friendly relations with those about you - but at the same time be your own best friend. ... people don't care how much you know, until they know how much you care."

Mr. Smith's book is on sale at Bob Stanley Pharmacy. A prominent Lubbock

- ★ Utilize the washer's full capacity. Wash larger loads - wash less often.
- ★ Same goes for dryers: dry more than just a few items at a time.
- ★ Use the washer's load selector to save on hot water when you must wash small loads.
- ★ Use a cold rinse whenever possible to conserve hot water.
- ★ For more efficient drying, clean the dryer lint screen after each load.
- ★ If your dryer has an automatic cycle, use it to prevent unnecessary overdrying. Also, when allowed to overdry, clothes tend to wrinkle, thus require more ironing.

City Auto, Inc.

LEROY BURNS, RICKY BURNS, & SHORTY TURNER — OWNERS

In this day and age when every car maker has such a wide selection of models to choose from, it is really difficult for you to decide where to go for a new car. All the companies advertise that their cars are the best, but who is to say which car really is. Obviously all the cars on the market today must have their good points or they wouldn't have survived the ups and downs of the business. We, therefore, can conclude that the real difference in buying a car is the dealer you buy it from.

The ideal dealer to buy a car from offers a fair price on the new unit as well as an honest dollar for the car you trade in. However, the most important factor is the service that you receive on your new car year after year.

The writers of this 1976 Review would like to point out a dealer that considers the most important part of selling a car the quality of service he can offer you after the sale. We are talking about CITY AUTO, INC. at 201 East Missouri in Floydada, phone 983-3767, and trucks. See them today for a new or quality used car or truck, and you'll see why we say "Customer Consideration" is their byword.

Betty's Place

Betty Miller, owner. Conveniently located at 604 South Second in Floydada, phone 983-5091, this firm bears the name which is both familiar and popular with the people and is a place where you can feel at home while you are shopping. Its friendly atmosphere which predominates at all times has placed this store in an individual class by itself and can well be termed "Shopping Headquarters for this entire area". They feature clothing and accessories for everyone in the family. Ladies will love the ready-to-wear department. The men's department features a complete array of jeans and shirts and the youngsters too have their own department.

The merchandise is well handled so that all goods will be the latest quality that the market affords in style-design, material and quality.

This 1976 Review and its editors, suggest that you do business with this reliable firm which has the interest of every customer at heart.

FROM ACCO'S WIDE RANGE OF FEEDS, 20% SUPER CHARGED BREEDER RANGE CUBES.

When winter comes, the temperature isn't the only thing that goes down. So does the nutritional level of your pasture grass. Your cattle need extra help then. So let them graze on ACCO's range—a hard working line of supplemental feeds that cover the range from quality to economy. Like 20% Super Charged or 21% Breeder Range Cubes. These are low fiber, highly digestible, high energy cubes especially adaptable for supplemental winter feeding. They're packed with phosphorus, trace minerals and vitamins A, D and E. They contain 20,000 units of vitamin A in every pound. And they're available with either natural or equivalent protein. So let ACCO feeds give your herd a hand this winter. If you've got the cattle, we've got the range.

Mrs. Gerald Jackson, the former Cindy Carpenter of Cactus, has recently completed a twelve month Vocational Nursing Course which began last October.

Mrs. Jackson graduated Oct. 11, 1976 with a 94.8 grade average, being third in her class. The training course prepares one for the Texas Licensed Vocational Nursing Examination which is to be held in April of 1977 in Austin, Texas.

Both Cindy and her husband, Gerald are registered EMT (Emergency Medical Training Technicians) with the State of Texas. Gerald completed this course in July.

Mrs. Jackson is presently employed at the Dumas Medical Hospital in Dumas. Her plans for the future

include continuing her education in nursing by specializing in a field or becoming a Registered Nurse.

More coolers

It's hot and muggy. The cat is snoozing behind the sofa and the dog has staked himself a place in the cool shaded grass.

To keep yourself cool, apply some witch hazel or light cologne to the back of your neck.

Tie up your hair and get it off your neck and off your forehead.

Wear clothes that don't cling and that are not belted close to the body. A caftan or tent dress is perfect for this type of weather.

Make a pitcher of iced tea or fresh lemonade.

THANKS FROM THE HIGHTOWERS

Colleen and I are deeply grateful for the confidence you demonstrated in the Hightowers at the polls on Nov. 2. We are told that the 95,364 votes are more than any candidate for Congress ever has received in the history of the 13th Congressional District. It is truly a wonderful feeling to have the support of nearly 60 per cent of the voters, and you can be sure that I will spend 100 per cent of my time during the next session of Congress working for all of the residents of the District. It has been an honor to serve as your Congressman during the last two years, and I am looking forward to continuing to represent you. My staff and I always will be at your disposal, and I hope you will not hesitate to let us know when we can be helpful.
