## TRAIL DUST

Weather plays a vital part in the economy and the destiny of people everywhere but in West Texas it comes close enough to be personal. Recently a pioneer cowboy related an experience in which a herd of fat steers was being moved to market when an early norther struck. Rain and snow preceded the cold wave and the herd stood in a quagmire. Before morning the ground froze to a point where sharp splinters of icy mud cut the steers' feet and after they were driven away the ground was crimson.

Considering the time we spend in the culture of our souls it is little wonder that the character of human beings has remained unchanged for more than two thousand years.

Another argument in favor of returning high button shoes to popular acceptance, is the retreating cuff line on men's trousers. Bermuda shorts have surrendered the last fortress of privacy by revealing the awful truth of the average male physique, and should have some support from any direction.

When love is dropped its effect is like an atomic bomb except that the radius of its devastation is limited to the temple of one heart. On the other hand its power may be diverted through the process of affection to bring eternal warmth to many lives.

## Scenes For Rogers Film Will Be Shot In Matador

ROY ROGERS, veteran screen celebrity, is coming to Matador to film scenes for his new movie, "Macintosh and T.J."

The King of Cowboys is returning to the screen after a 21 year absence.

Excitement ran high in Matador last week when representatives of the T. Penland Productions of Fort Worth were here making arrangements to shoot several scenes for the movie.

Setting for most of the production will be the 6666 Ranch in King County. After visiting several area towns, Matador was selected for certain scenes. Places of business selected were C. R. Davis' Conoco, Matador Variety, Household Supply, Bob Stanley Pharmacy, Cowboy Boot Shop and Matador Hotel. A street scene will also be shot on Dundee Street and will feature a duplex dwelling owned by the late Mrs. U. L. Willie, just West of the First State Bank building.

Approximately 20 local persons will be hired as extras. Miss Shari Rhodes, in charge of casting, was here Friday and again Monday. Rogers arrived in Lubbock Tuesday to go on location at the 6666 Ranch where shooting was scheduled to start. Filming in Matador is scheduled for August 1 and August 5.

Shooting is scheduled to take four weeks, according to David Garland, associate producer. The 125 members of cast and crew, who will stay in Lubbock and Dickens, are to work 12-hour-days, six

days a week, in an attempt to complete shooting on time, stated Garland.

Co-star Clay O'Brien, T. J. of the film, is a young actor who has been in a number of Walt Disney movies.

The film is a modern day story of the adventures of a loner (Rogers) who picks up a stray 13-year-old boy (T.J.).

In an interview Tuesday at the Lubbock Municipal Airport, Rogers said this country could use some good family movies. So he chose to return to the screen to make this film.

Filming set to begin in May was delayed when rains caused ranchland to become too green to fit the rough, sandy terrain setting called for in Macintosh's adventures.

The script was written by Paul Savage, former executive story consultant for the "Gunsmoke" television series.

Directing the \$1 million film will be Marvin Chomsky who has directed two motion pictures including "Evil Knievel," and also several television specials.

## RODEO QUEEN CONTEST OPEN FOR CANDIDATES

Any Motley County or Dickens County girl wishing to enter the contest for Rodeo Queen of the 1975 Old Settlers Reunion and Rodeo is invited to become a candidate. C. L. (Corky) Marshall, general manager announced this week.

Motley County candidates may contact Bill Hand or Bill Peacock at Roaring Springs. Dickens County candidates may contact John Warren at Dickens or Jim Perryman at Afton.

Votes for the queen are received with tickets sold on a saddle to be given away on the concluding night of the rodeo. Each ticket counts for one vote for the queen candidate.

Dates for the Motley-Dickens Counties Old Settlers Reunion and Rodeo are August 28, 29, and 30.

Plans and arrangements are underway for the annual event, and include the usual attractions.

## Rainfall Is Heavy For July

RAINFALL to date has exceeded July precipitation in several years, and is far above the same date last year. Total for the month is 2.84, and for this time last year it was only .02.

Figures are from Bob Stanley, who said his rain gauge measured .32 on Friday, July 18; .02 on the 19th, .03 on the 20th, and .34 early Wednesday morning. The rain yesterday did not extend very far East, and none was reported at Flomot. Estimates at Roaring Springs ranged from .15 to the .34 which fell here. The rain Saturday netted 1.60 for the Harold Campbell Ranch west of town.

## County's Oil And Gas Figures Reach New High

The production of crude oil and natural gas in 1974 continued to have a significant impact on the economy of Motley County, with the estimated value of the county's production, royalty payments, and state severance taxes reaching new highs.

Motley was one of 197 counties -- an increase of four from 1973 -- which produced oil and gas valued in excess of \$100,000 in a year which saw the total value of state production jump from just over \$6.7 billion to almost \$11.4 billion.

The county ranked 157th in the state in the total value of petroleum produced --

\$2,842,780 -- with \$2,835,273 of that coming from the sale of 405,039 barrels of crude oil; \$7,507 from the sale of 25,798 MCF of natural gas.

This study by the Texas Mid-Continent Oil & Gas Association shows also that the county's petroleum production last year resulted in the payment of \$355,000 to royalty owners.

"These figures, whether considered statewide or individually in almost 80 percent of Texas' 254 counties, emphasize the importance of a healthy petroleum industry in the nation's No. 1 energy state," said Sherman Hunt, a Dallas independent oil man

who is president of Texas Mid-Continent.

"In the face of declining production in Texas, it is significant that this increased return to royalty owners and producers came from crude oil and natural gas which is free from restrictive federal price controls. But there are at this time proposals in Congress which would place all of Texas' petroleum production under federal price controls, with predictable disastrous consequences for the industry, as well as the whole economy of the state," Hunt said.

The survey also shows that the State of Texas received \$130,986 in production taxes from county wells, with \$130,423 coming from crude oil output and \$563 from natural gas production.

According to the Texas Employment Commission, 10 oil and gas industry employees worked in the county in 1974 and shared a payroll totaling \$78,820.

### STUDIES ABOUT THE BIBLE

We have noted in Galatians 5:22 a list of nine traits of character called "fruit of the Spirit." After a person is born again, of water and the Spirit, John 3:3,5, he must allow himself to be led by the Spirit, and the first fruit mentioned in the list cited above is "love."

During the last twenty-five years the word "love" has been cheapened considerably by certain segments of our society. Contrary to this degrading idea, the word "love" is a spiritual word. Paul gives heaven's description of love as follows.

Love is patient, love is kind, love is not jealous; love does not brag and is not arrogant, and does not act unbecomingly;

it does not seek its own, is not provoked, does not take into account a wrong suffered, does not rejoice in unrighteousness, but rejoices with the truth; bears all things, hopes all things, endures all things; love never fails; . . . 1 Cor. 13:4,8.

After dying to sin with Christ and being buried and resurrected with Him, we must then start our spiritual journey up that straight and narrow road. The broad road leads to destruction, Ma. 7:13-15.

**NOTICE**

People who brought food to the Whitworth's home during their illnesses, and-or to the Brotherton home, should find their dishes at the Methodist Church kitchen. If yours is not among these, please feel free to look for them at the Whitworths.

Larry Hamilton of Lubbock visited recently with his mother, Mrs. John Hamilton, and also in Paducah with Mrs. G. E. (Maggie) Hamilton in Wood Nursing Home.

**NOTE OF THANKS**

To all who helped in any way to make our Homecoming at Flomot a success, we wish to express our heartfelt appreciation. The different committees who worked so hard, the musicians, and El Progresso Study Club who provided us with concessions, all had a part in making the event a pleasant one for our visitors as well as those of us at home.

**CARD OF THANKS**

The families of Margaret Whitworth sincerely appreciate all the persons who were responsible for the heart-warming "Welcome home" to Matador for Randall and us. The mowed lawn, the clean and prepared home, the lovely meals brought in and served to us, the food left for us to prepare for breakfasts, etc., and the abundant response of so many dishes of food for the dinner held at Mattie Brotherton's home resulted in an invitation back for supper that evening, and much food was sent home with us for the next day's meals. Margaret and Randall have been so blessed to live in such a loving, concerned community and we, the family, have benefitted from getting to know so many of you more personally. Thank you again for your expressions of Love. (1)

**IN APPRECIATION**

My family and I wish to thank each of you for your many deeds of kindness and love during my hospitalization and since my return home. To those of you who depended on me, please forgive me for my being unable to perform my responsibilities and obligations that were expected of me. I appreciate your patience and understanding. It warms your heart and cheers you so when someone cares and lets you know.

**TEXAS TALK**

**Snow drifts in a cotton field?** That's what it looked like last year at harvest time in California. And chances are the illusion will start showing up around here. Cause of the phenomena is a new and innovative method of field storage. The most talked about method is the cotton module. Module builders are best described as hydraulic tampers operating inside portable walls which form the module. This is set up on the turnrow and cotton is dumped directly from the picker baskets into the module. The machine packs as much as 12 bales on the pallet then is moved to another pallet to repeat the operation. When the packing is complete the modules are covered by a tarp and can be picked up anytime by a gin truck. Growers cited the main advantage of the system as uninterrupted harvesting. Giners say it increased their effective capacity and solved labor scheduling problems.

**ONLY ESSICK HAS THESE "MORE COOLING" PATENTED ADVANTAGES**  
**ESSICK**

- Patented No-Clog Filters are guaranteed clog-proof assuring 100% cooling efficiency—salts and dust cannot clog the filter.
- Patented grip lock filter holders are guaranteed to provide 100% cooling efficiency because filters cannot sag and settle allowing entry of hot, unfiltered, uncooled air.
- Patented free-flo visible water troughs with external adjustment assure 100% filter saturation, and eliminate cooling loss and costly service expense.
- Patented window closing attachment—you can close and lock your window. Keeps out dust, rain and burglars.
- Patented sto-fresh filters—redwood impregnated filters prevent objectionable odors and assure sweet, clean, cool air.
