TRAIL DUST

By DOUGLAS MEADOR

The advancing years make adjustments necessary to cope with problems resulting from the changing pattern of life. With diminishing accuracy in eyesight, I frequently find it impossible to recognize someone driving along the street. If the driver or passenger is a woman, and nods or waves a hand, I usually scratch my head. The gesture justifies the situation. If the recognition was intended for me, it is reciprocated, but if it should be a stranger, then I have not violated the rules of propriety, which frown on men waving at strange women.

★
Tossing in the rain, the red rose vine fulfills its mission of beauty despite the emptiness and the silence of the house. It nods at the windows where the blinds are gone and spreads fragrance in the early morning, but the laughter of children is missing; there is no longer lamplight in the night.

★
Patterns of conduct are designed when the cloth of life is being woven at the loom of childhood, thread at a time.

★
The voice of experience seldom screams in this noisy world unless someone is bragging about a mistake and is trying to interest an audience.

★
About the most important thing about graduation is the evidence it projects that the graduate is interested in the future, to the extent of preparing for it. Despite the dismal image coming from colleges in recent months, the future of education still contains the wholesome ambitions of most young people. The insipid, unwashed minority are like fingers trying to change the course of the wind.

★
Wisdom is the ability to make decisions without employing the expensive process of trial and error.

COME TO CHURCH SUNDAY

JIMMY ROSS EXPLAINS the outlined plans of Water Inc. which would bring water from the delta of the Mississippi River to West Texas. —Tribune photo

Imported Water Is Explained At Meet

IT WAS RAINING outside Thursday night when Jimmy Ross explained the importance of imported water to future generations. He showed slides, maps and film of Water, Inc.'s plan to bring a mighty river of water to the thirsty High Plains area.

Jimmy Ross was at home in Flomot. He graduated from Flomot High School in 1961 and is now associated with High Plains Underground Water Conservation District. He is also editor of the HPUWCD's monthly publication, "The Cross Section."

He pointed out the growing need for water as the population increases and said that 50 years from now the High Plains irrigation wells (80,000 now) will have depleted the supply.

Ross said he felt that the county below the Caprock was in a favorable position, if and when the water is imported, because it could probably obtain cheaper water. He pointed to the extra pumping costs to raise the water to the Plains.

He showed a film of California's water plan where giant machines are being operated day and night to bring water from the High Sierra Mountains to the southern part of the state (over mountain ranges). The film also showed almost worthless desert land without water rights, while land across the road was worth \$1000 per acre with water.

Hard To Sell
"The importation of water plan is hard to sell," the young speaker declared, "because people have always had sufficient water and they believe the supply will continue. I think we should show our interest in the plan by voting for Amendment 2, which would use the state's credit to borrow the money for the program. Water Inc., however, is only a plan, but we need to support its progress."

The meeting was held in the Flomot school building, and attendance was limited because of the rain storm. Visitors from Matador were Mr. and Mrs. Frank Pohl, Judge Forrest Campbell, Bob Stanley and Douglas Meador.

RECENT ACCIDENT
Mr. and Mrs. Nelson McMahan visited in Amarillo recently with their daughter and husband, Mr. and Mrs. Richard Brown of Canyon. At the time, Mr. Brown was a patient in Northwest Texas Hospital following a highway accident in which he was injured. He returned to his home last week.

It is now believed that a pickup may have been backed into the shop portion of the store after the thieves gained entrance where

Half of Matador Seniors Started School Together in First Grade

"On September 2, 1956, 25 scared little boys and girls entered the exciting world of 'See Spot run' and 'One plus one is two' and 'C-A-T spells kat . . . We thought Mrs. Gilbreath was our other mother . . ." thus reads the beginning of the history of Matador senior class, 1969.

After adding to, and losing numbers during the years, the graduates number 24, and of these, 12 started to school together.

Interesting, also, is the fact that through the years, the class has had enrolled, 86 different persons.

The first grade pupils were: Judy Addison, Sharron Allen, Jackie Benson, Joyce Benson, Stephanie Bethard, Steve Bostick, Don Cox, Priscilla Cox, Elaine Dixon, Margaret Evans, Kurt Fromm, Elizabeth Gilmore, Stephen Gwinn, Mark Hill, Franklin Jameson, Leslie Jameson, Vicki Jameson, Darrel Marshall, Ronnie Martin, Wanda Matney, Brenda Moore, Sue Robbins, Tim Rose, June Sandefer and Kate Thompson.

With the consolidation of the Northfield school in the Matador School district the following year, 14 pupils were added to the class, with four leaving. In the third grade, nine pupils were gained and six lost.

New members in the fourth grade numbered eight, but the class lost 10 as it entered the fifth grade. During that year the class gained three and lost three, and in the sixth grade, gained three and lost two. In the seventh grade the class lost four and gained two.

With five new members, less three lost, the eighth grade had an increase of five over the first grade enrollment, and there were 30 members who graduated into high school.

The class roll included Steve Bostick, Don Cox, Elaine Dixon, Larry Dunn, Margaret Evans, Pedro Gonzalez, Franklin Jameson, Leslie Jameson, Vicki Jameson, Larry Markham, Judy Marrs, Darrel Marshall, Mary Martin, Ronnie Martin, Wanda Matney, Virginia Green, Stephen Gwinn, Vickie Hemby, Mark Hill, James Hoover, Mike Hunter, Kelly Meyer, Brenda Moore, Sue Robbins, June Sandefer, Barbara Slover, Billie Stockton, Kate Thompson, Aaron Timmons and Jimmy Timmons. Of these, 16 had started in the first grade together.

Nine new members enrolled with the class as it entered the ninth grade, but nine also moved or dropped behind. Two more joined the group in the 10th grade, but four were lost. The loss was four in the 11th grade, as 2 enrolled and four left the class.

Of the 25 who started together in the first grade, the 12 still in the class are: Steve Bostick, Don Cox, Elaine Dixon, Margaret Evans, Mark Hill, Franklin Jameson, Leslie Jameson, Darrel Marshall, Wanda Matney, Sue Robbins, June Sandefer and Kate Thompson.

The other graduates are Brenda Bailey, Pedro Gonzalez, Virginia Green, James Hoover, Judy Marrs, Kelly Meyer, James Nelms, Pat Nichols, Barbara Slover, Billie Stockton, Aaron Timmons and Jimmy Timmons.

Nancy Hawkins, who joined the class in the second grade, is graduating at Seminole.

Their youngest son, Dickie is also music minded and plays the cornet, drums and piano. He will graduate from grade school next year.

Mr. and Mrs. Richard Berryman of Matador are maternal grandparents of the boys, whose mother is the former Wandell Berryman. Mr. Johnson is with the Texas Highway Department and was transferred from Matador to Quitcoke where they lived for several years before moving to Wellington.

Roaring Springs Junior-Senior Banquet Features Night in Paris

"A night in Paris" was the theme Friday night at 8 o'clock when the Roaring Springs High School junior class entertained the seniors with a farewell banquet in the high school study hall.

A Paris street featured store fronts on one side with a sidewalk cafe, awnings and red and white checked table cloths along two walls. The street led the length of the room to the 10-ft. tall Eiffel tower that gave a stunning night in Paris effect. A street light, loaned by West Texas Utilities, gave the finishing touch. Miniature Eiffel towers were favors for the students.

The invocation was given by Michelle Smith, followed by the welcome by Jeffrey Thacker. James Palmer, president of the senior class, gave the response. The Class Will was read by Mike Hull and the Prophecy by Dorothy Parks.

Following the meal, Tommy Wilson, Superintendent of Roaring Springs school introduced the speaker, M. H. Galbreath, Supt. of Girard schools.

Patton Springs Seniors Make Trip To Oklahoma and Points in Ozarks

The nine Patton Springs seniors and their sponsors, Mr. and Mrs. Coy Morris, returned late Sunday afternoon, May 11, from a four day, fun-filled trip into the Ozarks.

They went by way of Oklahoma City where they spent the afternoon at the zoo and the Cowboy Hall of Fame. The grounds of the zoo are clean and spacious. The visitors strolled between large caves, rock areas, pools and cages to view the large collection of animals. At the Cowboy Hall of Fame, the class especially enjoyed the 17-ft. sculpture, "End of the Trail," by Fraser and the chuck wagon from the Matador Ranch.

In the Ozarks, they visited Eureka Springs, Arkansas, a little village called "Little Switzerland," because of the way the houses and stores are built into the sides of steep hills. The entire area is very scenic with forested hills, deep valleys and rushing streams. Then the class drove into Roaring River Park in Missouri and visited the fish hatchery. It is a beautiful place. Water comes gushing out from the hill and flows through many shallow concrete divisions where thousands and thousands of speckled trout are being grown. They had lunch there. The menu? Speckled trout . . . delicious.

Silver Dollar City, Mo., close by, was the next stop. This a unique entertainment center which includes a trip through the large Marvel Cave. Everyone in the city dresses in the 1880 fashion. The hill people are there, carrying on their crafts just as they have in their homes for generations.

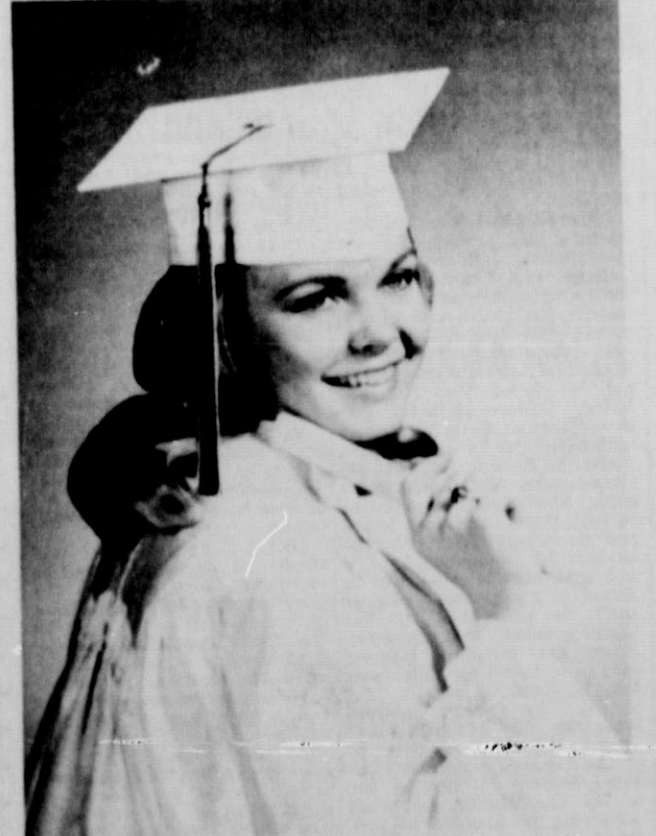

The blacksmith, the basket weavers, the rug weavers, the potter, the glass blower, the candy maker, the miller, the candle maker, lye-soap maker and the water witch—they're all there working. And family musical groups are scattered everywhere with fiddles, banjos, guitars, playing hillbilly music. Little girls, mamas and papas, and even the grandpas jig-danced all day. Artists were also there and several seniors had their portraits drawn. In an abandoned mine, the class dined on some of the best food imaginable.

They didn't see it all. Time came to head for home. They drove to Claremore, Oklahoma and visited the Will Rogers Memorial. Sunday morning before the long drive home.

It was a good trip, and the class would like to say Thank You again to all who helped make it possible.

MHS has Smoking Demonstration

By Jeanette Day

There was a strange scene and smell around MHS, May 15, as the students and faculty were introduced to "Smoking Sam" by Mrs. Gray, representative of West Texas T. B. Association.

Smoking Sam, a dummy, demonstrated the harmful effects of smoking. His lungs were represented by two glass jars connected by tubes to his nostrils and mouth. As he inhaled the tar and nicotine were plainly seen as it collected and stayed in the lungs.

Mrs. Gray pointed out how the glamorous cigarette commercials are misleading. "They never show

the cancer wards or T. B. and emphysema patients."

She related the story of Smoking Sam and his problems that were directly and indirectly caused by smoking. She ended the program by saying "Remember smoking may mean the difference between life and breath, and life and death."

by Lance Jameson

Eighth grade students recently enjoyed a day off from school by going on a field trip to Texas Western Museum at West Texas State University in Canyon, and Palo Duro Canyon. Mrs. Charles Johnson, science teacher, and Principal Jake Edwards accompanied the students.

Palo Duro Canyon proved to be the wider side of the outing. Boys went swimming, clothes and all; and girls got a rain shower. The class examined rocks which they have been studying in a geology unit in science. They also rode the train around the park.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section 49-d-1 to read as follows:

"Section 49-d-1. (a) In addition to Texas Water Development Bonds heretofore authorized to be issued by Sections 49-c and 49-d of Article III of the Constitution, the Texas Water Development Board is hereby authorized to issue \$3,500,000,000 in aggregate principal amount of bonds. No part of such additional bonds shall be issued prior to approval thereof by the vote of two-thirds of the elected members of both houses of the Legislature.

(b) The proceeds from the sale of such bonds shall be deposited in the Texas Water Development Fund. (c) The bonds herein authorized and all bonds authorized by such Sections 49-c and 49-d of Article III shall bear the same interest and maturity as the Texas Water Development Board shall prescribe subject to the limitations as may be imposed by the Legislature. Such contracts when executed may be issued by the general credit of the state, and if so secured shall constitute general obligations of the State of Texas in the same manner and with the same effect as Texas Water Development Bonds. If facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment. The aggregate principal amount of Texas Water Development Bonds authorized herein and in said Sections 49-c and 49-d shall be reduced by the aggregate of principal payments committed under such contracts constituting general obligations of the state. The provisions hereof shall not be construed to limit the authority of the Texas

Water Development Board to execute contracts or issue revenue bonds when such contracts or bonds are not secured by the general credit of the state.

(f) Texas Water Development Bonds and such contracts secured by the general credit of the state shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

(g) Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such Acts shall not be void by reason of their anticipatory character."

No other popular pickup goes to the lengths Chevy does to save you money.

Several lengths, in fact. Like offering pickup boxes that range in length from 6½ feet to a huge 9-footer.

No matter what size you prefer, you'll get a full measure of Chevy's Pacesetter Value with each model. For instance: the biggest power choice among popular pickups. Six or V8. And the smoothest

ride in trucks. Inside the double-steel cabs, you'll find such Pacesetter Values as thick foam seats. Which provide stretch-out room for three.

Wrap it all up in a small price and it becomes pretty clear. Chevy will go to great lengths to please you.
