PROGRAM ON ART FEATURES CREATIVE ACTION OF YOUTH

"Drawing and painting are the oldest arts known to man. They are the means of communicating with other members of a society," Mrs. Bennie Keltz, Matador art teacher told El Progreso Club members Thursday afternoon.

The club met in the home of Mrs. W. D. Lipscomb for a program on "Creative Action of Youth," which featured art students of Mrs. Keltz and an exhibit of their paintings. Mrs. A. J. Daffern, program leader, presented Mrs. Keltz, who in turn introduced seven of her pupils.

"Through drawing, young children tell of their interests, activities and personal thoughts... the role of the teacher is to help children use art to express ideas and to put them together in pleasing patterns," Mrs. Keltz explained.

Assisting her in showing paintings and drawings made by pupils in the first through fifth grades, were Tony Rose, Shane Stevens, Paula Palmeyer, Pennie Marshall, Toni Crump, Ann Timmons and Billy Paul Campbell, all private pupils.

The group also displayed several paintings each had done, and described the techniques used. These included oils, water colors, chalk prints, and tempera on mulberry paper. Other processes included reproductions on tissue paper. Many of the paintings were of local scenes, and recognized by the audience.

In her introduction, Mrs. Daffern read the program quotation from Charlotte Cushman: "God conceived the world; that was poetry. He formed it; that was sculpture. He colored it; that was painting. He peopled it with living beings; that was the grand divine internal drama."

Mrs. L. B. Campbell, president, opened the meeting, thanked the hostess for the use of her home, and conducted a brief business session.

Other members present were Miss Amy Glenn, Miss Mary Keith and Mesdames John Barnhill, Vance Gilbreath, Ben Keltz, W. F. McCaghren, W. N. Pipkin, Frank Pohl, Douglas Meador, Fred Simpson, Ralph Stapleton, Howard Traweeck, J. R. Whitworth, Harry Willett and J. L. Woodruff.

FROM LOVINGTON
Mr. and Mrs. Odis Killingsworth and daughter, Gay of Lovington, N.M., formerly of Matador, visited during the week end in the home of Mr. and Mrs. C. D. Garrison and Debra. Sunday, they visited relatives in Childress, and returned Monday to attend to business.

Mr. and Mrs. James Price and children, Krista, Paul and Scotty of Lubbock spent the week end here with his mother, Mrs. Audrey Price, and with friends.

MRS. JAN AMONETT WHITAKER

Whitaker-Hickman Vows Pledged In January Ceremony in McAdoo

Miss Linda Joyce Hickman of McAdoo and Jan Amonett Whitaker of Flomot pledged marriage vows in a ceremony read at 3 p.m. January 2, in the First Baptist Church of McAdoo. Rev. Jackie R. Corbett, former pastor of the church, officiated.

Parents of the couple are Mr. and Mrs. Howard Hickman and Mr. and Mrs. Earl Whitaker.

Presented in marriage by her father, the bride wore a floor-length gown of white satin and organza, with overlays of re-embroidered lace and seed pearls. A chapel train extended from a large bow at the back waistline. Long, fitted sleeves and princess lines were other features of the gown.

The bride was attended by Miss Mary Sue Neff, maid of honor, and bridesmaids, Miss Prissy Whiting and Miss Janet Hickman sister of the bride. They wore identical floor-length dresses in hot pink satin and lace.

Coy Franks was best man.

Groomsmen were Clois Shorter and Bill Campbell. Johnny Hickman and Dwight Hickman and Bob Cole seated the guests.

Misses Rita and Teresa Whitaker, foster sisters of the bridegroom, were flower girls. Candelights were Miss Kandice Burrow and Danny Finney. Sharon Neff served as organist and Cherri Brown sang, "I Believe."

A reception following the ceremony was held in the church fellowship hall. Mrs. Bennie Brown registered guests and Misses Donna Brown, Linda Whitaker and Gloria Hernandez presided at the bride's table.

After a short wedding trip the couple is residing in Levelland at 208 N. College. They will attend night classes as sophomores at South Plains College.

IN THE MATTER OF THE ESTATE OF ADA SHANDS, Deceased IN THE COUNTY COURT OF MOTLEY COUNTY, TEXAS NOTICE TO CREDITORS OF THE ESTATE OF ADA SHANDS, Deceased

Notice is hereby given that Letters of Administration upon the estate of ADA SHANDS, Deceased were granted to the undersigned on the 18th day of January, 1971, by the County Court of Motley County, Texas. All persons having claims against said estate are hereby required to present same to me within the time prescribed by law. My residence and post office address is Matador, Texas. My attorney's name and address is Mr. Tom Hamilton, LaFONT, TUDOR, TUNNELL, FORMBY & LaFONT, P.O. Drawer 1510, 419 Skaggs Building, Plainview, Texas.

Bill McCaghren, Administrator of the Estate of ADA SHANDS, Deceased. 48/cft

January 19, 1971

Notice is hereby given that the Motley County Commissioners Court, at its regular term on February 8, 1971, will enter into a contract with a bank as a depository for county funds for a period of two years.

Forrest Campbell, Judge Motley County, Texas Jan. 21 - 28; Feb. 4

Matador Chapter No. 66 OES MEETS FIRST THURSDAY EACH MONTH at 7:30 p.m.

COUNTY AGENT PALLMEYER SAYS:

Cash income to farmers and ranchers in Motley County could be more than \$7,049,200 by the end of 1976.

This will be an increase of more than \$1,761,700 from 1968-69 figures, with feed grain production contributing a large part of the gain. The projections are based on studies of the Texas Agricultural Extension Service and are a part of the "3.76 in '76" program, a state-wide project to increase Texas agricultural cash receipts by more than one billion dollars.

Total cash receipts from all agricultural enterprises in Motley County are presently about \$5,413,500, with beef cattle, cotton and peanuts providing about 80% of this total.

The county will be aided in its production efforts by the Rolling Plains Economic Program. Meetings will be scheduled in the county to supply information needed for increased net returns per acre.

MEN NEEDED in this area to train as LIVESTOCK BUYERS

LEARN TO BUY CATTLE, HOGS AND SHEEP at sale barns, feed lots and ranches. We prefer to train men 21 to 35 with livestock experience. For local interview, write age, phone, address and background to: NATIONAL MEAT PACKERS TRAINING 3435 Broadway, Dept. B 111 Kansas City, Mo. 64111

The projections are based on estimates from the different Program Building Committees after separate predictions were made by Extension economists. Figures were published for each county, Extension district and economic areas in Texas. Motley County producers will have access to production information and techniques that can help spell success for the Texas goal of \$3.76 billion in 1976.

There are no producers who oppose this goal, as all will benefit. Success of the program will depend on those it will benefit, the producers.

Farmers interested in learning more about sprinkler irrigation systems should obtain a new USDA publication, L-476 "Sprinkler Irrigation."

This publication is available for 55 cents a copy from the Superintendent of Documents, US Printing Office, Washington, D.C. 20402.

The 8 page publication is illustrated with photographs showing various types of sprinkler irrigation in operation and covers use on soils with high rates of water intake (sands) and those which are too shallow to level or those fields that have steep slopes or irregular surfaces.

Points on planning a system and on its operation and maintenance are covered, along with other helpful suggestions on the amount of water needed for operating a system.

It costs money to pump water to the surface and distribute it over the crop land. Proper use is essential for maximum net returns.

Farmers Reminded Of New Income Tax Deadline March 1

March 1 is the deadline for farmers to file their 1970 income tax return, according to a reminder by County Agent Bill Pallmeyer. This date was extended from February 15 to March 1 by the 1969 income tax law.

To qualify for reporting as a farmer, two-thirds of your gross farm income must be from the sale of agricultural products. If farm income is less than two-thirds of the gross income, a taxpayer may be required to declare estimated tax and make quarterly payments. Statutory penalties are

assessed for failure to file required declarations of estimated tax.

The county agent adds that many taxpayers will not be required to file a return due to a new low income allowance. As an example, for 1970 returns, married persons filing a joint return would not be required to pay any tax if their incomes were less than \$2,300. However, farmers may be required to file an income tax return in order to report self-employment tax if their net income exceeds \$400 for 1970.

Additional information regarding farm income tax reporting regulations can be found in the 1971 edition of the Farmer's Tax Guide

which is available from your county agricultural agent or the Internal Revenue Service.

COUNTY AGENT PALLMEYER SAYS:

You can't look at soil and tell if it is able to supply the nutrients needed for top crop production.

Selection of the proper fertilizer depends upon a knowledge of the nutrient needs of the crop to be grown and the nutrient supplying power of the soil on which it is to be grown.

Determining the nutrient needs of crop is comparable in many ways to diagnosing human ills. A medical doctor observes the patient, obtains all the information possible by questions, and then makes certain tests. This same routine should be followed in submitting a soil sample, so be sure to fill out the information sheet that should accompany the soil sample.

When taking a soil sample, first divide the field into different blocks of similar land that can be fertilized the same way. From each block, take several samples and mix together, staying out of unusual small spots. You are interested in the overall result, not just that on a very small area. Normally samples in a block of similar land should be taken from each 5 acres for a composite sample of the block to be fertilized. If results indicate the need for the same fertilizer from different blocks, you have taken more composite samples than needed, but this information can be used to reduce the number of samples submitted the next time.

A soil test can save the farmer money by showing the right amount of the right fertilizer to use. Adequate moisture is needed for maximum results, but tests in dry years such as 1970 have shown that it is possible to make a crop with less moisture when the proper nutrients are available for the plants.

Fertilizer use is increasing, and the acres of farm land is decreasing, therefore more are finding out that proper use of fertilizer pays. For those who want maximum net returns per acre, this practice is a must. Additional information on this subject is available for the asking.
