Fund Drive Workers To Be Named

Community chairmen and workers who will make an intensive drive to obtain Motley county's quota in the United War Fund campaign, will be named next week. The drive, which opens nationally October 10, will start in Motley county on October 21 and continue through October 28.

"Busy people seem always to have sufficient extra time to aid in any project which will further the war effort," Douglas Meador, county chairman, declares, "and busy people will give of their time in this drive, as they did last year and as they have given in all other projects during the war."

The quota exceeds that of last year and residents are asked to contribute in equal or larger amounts than in 1943. Every resident is asked to make a contribution to this fund which serves approximately 20 war agencies with one solicitation. A number of contributions have been received by J. R. Whitworth, fund treasurer, at the First State Bank. The Tribune wishes to make a correction appearing last week regarding a \$10 War Fund contribution. Credit should have been given to Mr. and Mrs. H. Plemons.

Loans Available On 1944 Cotton

The War Food Administration through the Commodity Credit Corporation will make loans on 1944 crop cotton, according to F. C. Baurland, chairman of the Motley county AAA Committee.

Premiums and discounts for grade and staple in the 1944 program will be calculated in relation to the loan rate on 15/16 inch Middling cotton.

The loan rate for 15/16 inch Middling cotton, net weight, in Motley county is 21.23¢ Mr. Baurland said. The loans will vary according to location. The rate for 15/16 inch Middling cotton, net weight, will range from 21.09 to 21.30.

Coveled 'E' Award Is Made To Pantex

AMARILLO, Oct. 11.—Army and Navy Production Award will be presented to the Pantex Ordnance Plant on October 20 for its excellent record of production in the war effort. The "E" for excellence with its proud background of tradition is the symbol by which both Armed Services confer their highest praise on those plants whose records in the production of war materials is outstanding. Justly proud of their achievement, workers at Pantex continue their efforts to keep a steady stream of bombs and shells flowing to the men who are in the actual fight on distant battle fronts.

Additional workers are needed now at Pantex in order to meet the increased demands coming from the front lines. New workers will find a typical West Texas welcome in joining the ranks of its "Fighters behind the Fighters" at Pantex. Attractive wage scales start at 75¢ per hour, with time and one-half for more than 40 hours per week. No experience is necessary. Wage increases are given for length of service.

Workers who have been employed within the last 60 days at their highest skill in essential war work must have a statement of availability. Men engaged in farm work should secure their County Agent's approval before applying.

Mrs. Ruby Webb, Mrs. Earl Laughlin and Mr. and Mrs. Robert Darsey, were Lubbock visitors Saturday.

An extract of the resolution, dated Aug. 31, 1944, and presented to Maj. Gen. John E. Dahlquist, commanding general of the 36th Division, states that Dies wishes to show its extreme gratitude to the American troops, especially the Texas division which was the first unit to victorious-ly enter the city by naming the main street "Avenue la Division de Texas".

FIFTH ARMY VET RETURNS ON VISIT

T/5 Hamilton (Ham) Powell, veteran of the Fifth Army, who spent 22 months overseas, in Africa, Sicily and Italy, and was awarded the Purple Heart for wounds received in combat in Italy, arrived in the states the first of September to spend a 30-day furlough with his parents, Mr. and Mrs. A. D. Powell of Barber, Arkansas, formerly of Roaring Springs. He has been a guest in the home of Mr. and Mrs. R. A. Drennon of Afton, and was a visitor in Roaring Springs and Matador Saturday morning.

He wears the following ribbons: Pre-Pearl Harbor, Good Conduct and three major campaigns in addition to the Purple Heart.

Hamilton is a radioman with the Recon. Dept. of the Fifth Army. He is to report to Jefferson Barracks, Missouri for further assignment.

Enjoying his first furlough since entering service February 19, 1941 Hamilton has spent the past 30-days trying to learn to live again like the people "at home" in America.

Before entering the service he was employed by the Matador Ranch.

AMARILLO WRITER HERE FOR "COPY"

Pat Flynn, special feature writer for the Amarillo Globe-News, was here Friday and Saturday securing material (copy) for feature articles on Matador and Motley county. Mr. Flynn was accompanied by Mrs. Elma Curlin, also associated with the Globe-News and her sister, Mrs. Virginia Weatherly of Dallas.

The "itinerant Irishman" has written a number of profiles dealing with Panhandle weekly newspaper publishers and also a series of outstanding features publicizing vast natural resources, agricultural advancement and general progress of the Texas Panhandle.

ERRATUM

Rent quoted to the Motley county commissioners court for the 50-foot Luckett building frontage, should have been \$110 per month instead of \$150 as published in last week's Tribune article regarding the county's purchase of the property. A rent of \$150 per month was asked for the 75-foot frontage (two buildings) which was purchased by the county in the transaction.

HELP PROBLEM ACUTE WITH UTILITIES CO.

Ted Dudley, new manager for the West Texas Utilities Company here is facing acute help problems. At present his wife, Mrs. Ted Dudley, is acting as substitute bookkeeper and cashier in the absence of Miss Virginia Estes who is away on vacation.

Charlie Shepard of Abilene, who has been serving as "trouble shooter" has been called elsewhere and will leave Sunday. Unless the condition is relieved, Mr. Dudley forecasts the possibility of having to go to work himself. Freddie Welling, former serviceman, called into service October first, is in the Navy, stationed at San Diego.

Two Veterans Return From Pacific Theatre

Two Motley county veterans, Sgt. Clyde Duncan (Marines) and Pfc. William K. (Rusty) Birchfield (Army) returned home last week for 20-day furloughs from the southwest Pacific theatre of war where both have had extensive service in now historic conflicts. Altho their paths did not cross in the vast expanse of water, jungle and danger, they were in the same theatre of action. It was the first time for either of the servicemen to return home since donning uniform. Sgt. Duncan, wearing four battle stars, has been in the Marine Corps since a year before Pearl Harbor. Pfc. Birchfield has been in the Army for more than three years.

Sgt. Clyde Duncan, USMC

Typical of returning servicemen from grim battle zones, both Marine and Soldier are extremely modest and refuse any mention of heroism to be associated with their names. Pfc. Birchfield will report to a San Diego Hospital for further malaria treatments when his stay is up. The two veterans are invited as honor guests at the regular Matador Lions Club meeting to be held at the Methodist church basement, Tuesday, Octo-

ber 17. The club holds an open invitation to all returning servicemen to be guests at regular meetings, first and third Tuesdays each month.

"Worthless Land" Producing Over \$600 Per Acre In Quality Sweet Potatoes

When I. F. Reed purchased his farm in the northwest area of Motley county, he was advised not to try to grow anything on a certain part of the land that had been "turned-out" as worthless. Mr. Reed had his own ideas about the value of land. He had little money with which to develop his ideas after he learned that a seemingly endless supply of water was available under the flat that had been abandoned as worthless. However, he built a dirt tank and rigged a windmill to irrigate a small tract. The results justified

this faith in the soil. Later he replaced the windmill with a gasoline motor and extended the size of his irrigation plot.

Tomatoes, green peppers, melons, cucumbers and other vegetables were harvested in surprising quantities. Last year he was able to secure a federal irrigation loan of approximately \$1000. He extended the land under irrigation to 15 acres, two acres of which he planted in sweet potatoes. Mr. Reed is harvesting over 300 bu. of fine quality yams off each of the two acres. He is selling the potatoes for \$2.75 per bushel retail. The yams grown on the "worthless" land are of a quality equal to the finest sweet potatoes grown anywhere.

Applauds Government Help

"A lot of farmers could better their condition if they would take advantage of the aid the government is offering," Mr. Reed, declared, "while I wanted to secure larger equipment, I appreciate the government finance which has enabled me to produce profitable crops on what everyone told me was 'worthless land'."

News Is Welcome To Serviceman In Pacific War Area

Somewhere out in the Pacific, Sgt. W. T. Harmon is receiving his home newspaper regularly and news from home is welcome. His V-Mail letter dated September 27 follows:

"Dear Ben: Must write you again for the paper, for out here in the Pacific news from home is always welcome. And it makes me proud to be an American and know that I have friends like those who contribute to the paper fund, making it possible for all servicemen to receive regular news from home.

"Oh yes, I have several buddies whose homes are in the Eastern states and they always want my paper so they can read your paper. I have missed several copies because of change in address but they are coming regular again, so thanks again, Sgt. W. T. Harmon."

The Tribune is grateful for the following unsolicited contributions in support of the gratis subscription plan, which have been received since last publication: C. C. Renfro \$1, D. P. Keith \$2.50, Mrs. T. H. McCain 50¢, Mrs. Maudie Carman \$1, H. M. Murphy \$1, Sgt. W. T. Anderson \$2, Mrs. Margaret Newman \$3.

Spur-Matador Teams Will Clash Here Friday Night

Matadors Take Crosbyton's Measure With 26-0 Score In Game Last Week

BEYOND THE VISTA of a dozen years the Spur Bull Dogs and Matador Matadors started their football rivalry that has developed into an annual classic. Under the lights of Matador Arena Friday night this friendly feud will be focused on 60 minutes of playing which will decide seasonal supremacy for 1944. Last year was the first time recorded in 11 years playing that the Matadors have been defeated by the Bull Dogs on their own grid; the score 18-0. However, in 1942 the Bull Dogs defeated the Matadors 30-0 at Spur. Playing at home, the Matadors whipped the perennial rivals 20-6 in 1941. The Matadors also went into Spur territory in 1940 to leave the Bull Dogs howling with a 20-13 defeat. The score (at Matador) in 1939 was 7-7. At Spur in 1938 the Matadors were whipped to the tune of 6-32, and the previous year they entertained their visitors by defeating them 16-12. A Spur, back in 1936, the Matadors suffered a 6-13 defeat. The year before the score (game here) was 7-0 in favor of Matador. Matador went to Spur in 1934 and left the Bull Dogs licking their wounds of defeat 20-7. In 1933 the Matadors were hosts and won 22-6. In eleven years the total points scored are Spur 144 and Matador 124.

Chiang Kai-Shek Greets Supporters Of China Relief

Generalissimo Chiang Kai-shek of China selected the 33rd anniversary of his republic to pay a historic tribute to the ardent supporters of United China Relief, which is supported through contributions to the United War Fund. The outbreak of the Chinese Revolution started October 10, 1911, in which the rule of the Manchus was overthrown and the republic established.

TEXAN'S SHARE IS \$5,000,000 FOR UNITED WAR FUND

More than 3,000 "war fund comandos" will launch Texas' biggest war-related campaign next Tuesday, when volunteer leaders will open the public drive on behalf of the National War Fund.

Throughout the state, these leaders will spearhead the attack in the world's greatest offensive against suffering and want. Their success will depend upon the response of Texans everywhere to the call for home-front support of our fighting men and their heroic allies. Motley county's drive will open Saturday, Oct. 21, through October 28.

More than half of the funds raised by the National War Fund are expended for services to our own fighting men. Other amounts support our fighting allies and help reduce suffering among war-stricken people throughout the world.

The National War Fund campaign in Texas will be officially launched at 9:30 p. m., Monday night with a 30-minute radio program to be carried by all Texas networks and independent stations. Governor Coke Stevenson, high-ranking army and navy officers, Judge Ben H. Powell, UWCT president, and other leaders will take part in the broadcast.

Schools To Participate
 Week of October 9-14 has been proclaimed as "War Fund Week", and will be observed with appropriate services in all Texas public schools. State Superintendent of Schools L. A. Woods has announced.

In a letter to Judge Ben H. Powell, president of the United War Chest of Texas, Superintendent Woods urged all teachers, students and patrons of the schools to "support the agencies whose duties it is to render services to the men in our armed forces."

"War Fund Week" will coincide with the opening of the state-wide campaign being conducted on behalf of the National War Fund by the United War Chest of Texas. Through county and community war fund campaigns in every part of the state, Texas will contribute approximately \$5,000,000 to support USO, War Prisoners Aid and other National War Fund agencies serving "our own and our allies".

Mrs. Toky Doty and daughter of Sudan visited here over the weekend with her parents, Mr. and Mrs. J. M. Birchfield.

Contributions To War Fund Made In Advance Of Start

Contributions to the United War Fund campaign, which will have its official national start on October 10 and which will start in Motley county on October 21, are being received by the fund treasurer, J. R. Whitworth, at the First State Bank in Matador. Three contributions of \$10 each have been received during the past week. They are Mr. and Mrs. J. H. Plemmons, D. P. Keith and J. R. Whitworth.

Farmers Advised To Store Sorghums

Pointing out that most commercial grain storage space is already filled to capacity and unable to fully accommodate this year's estimated bumper crop of grain sorghums, Elbert Reeves, secretary of the Motley county Agricultural Conservation committee, urges farmers to store their threshed sorghums on their own farms and take advantage of government loans.

Wooden bins can be shipped into Motley county and will be available to farmers at prices not exceeding \$185 for a 1,600 bushel capacity and \$285 for a 3,000 bushel capacity. Money saved by storing grain sorghums on the farm at the loan rate would help pay for the bins, Mr. Reeves explained. The loan rate (farm storage basis) is 95 cents per bushel for No. 2 or better which amounts to about \$1.70 per hundredweight. If local market prices are below

the loan, producers can well afford to get a loan on their eligible grain sorghums. Applications for loans may be made at the office of the county agricultural conservation association between now and February 28, 1945.

Mr. Reeves estimates that about 25 percent of the crop was harvested during September, 30 percent will be harvested during October and the remaining 45 percent during November.

Due to the lack of storage space and of transportation facilities for spreading supplies throughout the nation, most of the grain sorghum crop will either have to be stored or utilized in or near areas of production, Mr. Reeves declared. Farmers should let their crops dry in the fields before cutting so that the grain may be stored properly, and are urged to feed as much of the grain as possible to their own livestock. Grain sorghums are one of the most nutritious and economical feeds and rank between 95 to 97 percent of the overall feed value of corn for all classes of livestock.

Further details on obtaining bins and other information pertaining to the crop may be obtained at the county AAA office.

Large Feed Export Rumors Are Denied

Rumors that large supplies of protein meal and feed grains have been shipped out of the country during the last year or so are entirely without foundation, according to word received by F. C. Bourland, chairman of the Motley county AAA committee.

"For several months reports have circulated that huge amounts of protein meal and feed grains

have been shipped to other countries," Mr. Bourland declared. "These reported exports, in some instances, have been blamed for shortages of feed supplies here at home."

"A report from the War Food Administration states that these reports are groundless. For reasons of military security, definite export figures cannot be released, but I can state that all exports of protein meal have totaled less than one-third of one percent of the amount used here at home. Since the war, numbers of livestock and poultry have increased at a more rapid rate than the production of feed. In addition, farmers have been feeding more feed per animal than they did before the war."

Large Imports in 1943
 Import of protein during the past year have been more than 7 times the quantity exported, according to the WFA. These included fish scrap and meal, and vegetable proteins—most of which came from South America.

Mr. Bourland pointed out that during the past year the U. S. imported more than 200 times the amount of barley and oats exported.

No corn or wheat has been exported for use as food, he said, and only very small amounts for food

CHRISTMAS PACKAGES FOR G. I. JOE

Let's Get Them Off Early!

REDDY KILOWATT Your Electric Servant

Army and Navy rules for shipping unsolicited Christmas packages overseas are the same as for last year—but correct addressing is more important than ever.

The package must be mailed between September 15 and October 15. They cannot weigh more than 5 pounds, be more than 15 inches in length, nor more than 36 inches in length and girth combined. Perishables are not allowed and fragile things will be strongly discouraged.

Remember that incorrect addressing can delay delivery for 90 days or more. One reason this is true: Just among the Navy's enlisted men there are 16,000 Smiths, 300 of them with identical first names and middle initials.

"I'm in a Cold Sweat!"

FEAR IS WHAT DOES IT, and many a car-owner has felt that freezing chill this summer, when a sudden, new noise from his motor has filled him with dread that his car was chugging its last.

There's nothing like that fear to make a stupid driver resolve to follow better driving practices. The intelligent motorist needs no such warning; and he always makes certain that the motor runs only with quality oil in the crankcase.

Obviously there are a number of such oils. And to help you select one of them, easily and with certainty, Phillips gives you these facts:

Phillips offers a number of oils because car-owners' preferences and pocketbooks vary. But when you want our best oil, remember Phillips tells you frankly that Phillips 66 Motor Oil is our finest quality . . . the highest grade and greatest value . . . among all the oils we offer to average motorists.

It's good for your motor, under today's reduced driving conditions, to change oil every two months, say experts. For that change, and for seasonal draining and refilling, you make sure of getting a quality lubricant, when you simply say: Phillips 66 Motor Oil.

It's Phillips Finest Quality

"Also The Hills"

(By Frances Parkinson Keyes)
(Now available at Matador City Library)

This is the story of the three "young farmans" who left the ancestral home on Farman Hill, where their parents, Daniel and Serena, have dwelt with such stability and contentment, to strike out for themselves: Jerome, to enter the banking business in Boston; Jenness, to act as a congressman's confidential secretary; and Judith, to become a nurse.

By December 1941, Jerome, a Reserve Officer in the Army, has already been sent from Boston to Fort Bragg, and has fallen head over heels in love with a girl from Louisiana named Alix St. Cyr; Jenness has become implicated in grave indiscretions of both a political and personal character in Washington; and Judith is wavering between her allegiance to her faithful suitor, Dexter Abbott, and her yearning to take a dramatic part in the war effort. Eventually all three become involved in this, though, as their father says bitterly, they are not "all on the same side." By spring Daniel and Serena feel they have lost almost everything that makes life worth while for them.

But they derive courage and consolation from an unexpected source: on a bleak March day, Alix Jerome's lovely southern bride, comes to the desolate house to stay with her husband's parents while he is overseas. She has courage herself and she declines to admit that she is in need of sympathy; she insists that Farman Hill has its own part to play in the war and that its lack of the spectacular in the fight for freedom indicates no lack of the essential. Moreover, the sterling qualities which the New England couple admire so much and understand so well are befitting, in the case of their Latin daughter-in-law, by delicate graces of both person and spirit which they have never encountered before. Alix not only cheers and enlightens them; she also charms them. Through her they gradually recapture their lost happiness, and forge forward.

with her and Dexter, to a great goal.

The pace of "Also The Hills" is swift, and the topic is timely and both are impregnated with romance. Mrs. Keyes reaches new heights in the progress of a career marked by steady and significant development and reveals afresh how rightly she merits the outstanding place she has made for herself in the field of fiction.
