

## Compromise Is Proposed For Air Force

WASHINGTON, April 22. (AP) — The administration laid a "bargain rate" air power compromise before Congress today aimed at giving the country 11 more fighting groups at a cost of \$481 million.

Secretary of Defense Forrestal whipped up the proposal in a fresh effort to keep the Senate from following the lead of the House in insisting on a full 70-group air force.

Forrestal's plan calls for a 66-group program and a three-year national defense outlay of \$46 billion.

## AAF Dispute Shows Solons Control Power

WASHINGTON, April 22. (AP) — Congress, not the President, will settle arguments in the military's official family.

This is made plain in the powerful congressional support given to demands for a bigger air force despite the insistence of Secretary of Defense Forrestal, backed by President Truman, that the Army and Navy should be expanded equally.

Last year's unification law which set up Forrestal's defense department provided that if any one of the three service secretaries—Army, Navy or Air—disagreed with Forrestal the dispute could be appealed to the White House. But Congress seems to have taken the bait.

The immediate issue is the size of the Air Force. The air arm proposed at the close of the war that the peacetime organization be 70 groups of combat planes.

But the White House and Budget Bureau decided that economy demands led money enough to support only 55 groups. The Air Force bowed to the decision for two years, but did not recede from its ultimate goal of 70 groups.

Forrestal, presenting the overall military budget to Congress this spring, proposed 55 groups and recommended that the air force's manpower be set at 362,000. Later he agreed to a manpower expansion to 400,000 but held fast to the 55-group force plan.

He contended that expansion beyond that also would require corresponding increases in the size of the Army and Navy to support the operations of the Air Force with transportation, supplies, defense of supply lines and other aid.

But Secretary for Air Symington, in a recent appearance before the House Armed Services Committee headed by Chairman Andrews (R-NY), was asked if a 70-group force was needed.

## ARABS ASK PEACE

## Jewish Forces Virtually Seize Controls At Haifa

HAIFA, Palestine, April 22. (AP) — Jews virtually seized control today of Palestine's richest port city of Haifa after having all-night fighting.

Arab leaders sued for peace, asking British military authorities to mediate.

"It was a massacre," said one Arab spokesman. "It was another Stalingrad. We were not prepared."

By request of the British, the Jewish military force Haganah issued a cease-fire order shortly after noon.

A Haganah spokesman said terms handed the Arab National Committee included:

Disarmament of all Arab forces and surrender of all arms.

Freedom of movement in all parts of Haifa with an end to sniping and roadblocks.

Delivery of all foreign Arab troops to Haganah for immediate deportation.

Surrender of all German Nazis.

A 24-hour curfew during which the Arab disarmament would be carried out.

One Arab spokesman declared: "Many women and children in Arab areas were shot as they attempted to flee into the port area."

The port area is controlled by British security forces. A Haganah spokesman denied the accusation.

The Haganah spokesman said the Jewish attackers suffered four killed and 32 or 34 wounded. He estimated the Arab dead at "not more than 20."

Haganah forces, aided by one detachment of the underground organization Irgun Zvai Leumi, moved down from the all-Jewish area of Hadar Carmel halfway up Mount Carmel.

"We used mortars, Bren guns and Sten guns in an attack which lasted much less longer than we thought would be necessary," the spokesman said. "One unit of Irgun was with us. They wanted to participate and we weren't prepared to say no."

## Says Wage Hike Is Just

PITTSBURGH, April 22. (AP) — The U. S. Steel Corp., today denied a wage increase demanded by the CIO United Steelworkers and announced price cuts totalling almost \$25 million for its products.

The price cuts are effective May 1.

Philip Murray, president of the CIO and the steelworkers' union, asserted the corporation had denied "a just and much needed wage increase." His statement emphasized, however, that the union would continue to live up to a no-strike pledge in a two-year contract, reopened for wage discussion.

Benjamin F. Fairless, steel corporation president, declared the unspecified wage increase had been denied and the price cuts effected "in an effort to half further advances in living costs."

## New Male Fashion Edict Is Unloaded

LOS ANGELES, April 22. (U-P)—Ahoy, men! Man your battle stations! The clothes designers are about to unload a fashion edict. In a preview for the press, the custom tailors and designers broke out such stuff as this—

green slacks with dark green coat; business suits of black and white striped checks with gold overplaid; smoke white camel's hair topcoats and pearl gray double-breasted vests.

The designers are going to show all this and more tonight to 400 influential clothes creators. Sorta spreading the ideas around, as it were. You fellows may have to wear it. Just thought you should be forewarned.

## REASON FOR MEAT SHORTAGE

# Depleted U.S. Cattle Herds Can Only Be Built Up Slowly

WASHINGTON, April 22. (U-P)—Meat experts say America's meat situation still must get worse before it gets better.

They say the explanation is simple.

"In the past year we have eaten up our cattle and calves at a record rate," says Berryman R. Hurt of the Bureau of Agricultural Economics (BAE) of the U. S. Department of Agriculture.

"Heavy slaughter speeded the decline in the number of cattle on farms. The decline has been under way since 1944."

This means so many breeding animals have been slaughtered that beef herds can't be increased quickly. And this in turn means less meat.

The experts say that if the downward trend in cattle numbers was stopped this year the slaughter would have to be limited to 30,000,000 animals. This would cut the beef supply by one-sixth compared with 1947.

Pork supplies might be boosted to make up for the short supply of beef. But the price of corn was so high last fall that many farmers found it more profitable, or more desirable, to sell off their hogs instead of raising pigs and fattening them with corn. Thus the 1948 Spring pig crop was a small one.

If meat production patterns follow their usual course it may be 1954 before there is a substantial upturn in the beef supply.

If the corn crop is a bumper one, the pig crop could be increased next year and thus there would be more pork by 1950, but the number of stock sheep on farms is the lowest in 80 years, so the prospect for more lamb and mutton isn't bright.

The BAE now estimates there will be about 10 per cent less meat this year than in 1947. This is a reduction of about 2,000,000,000 (b) pounds of beef, pork and mutton.

In 1947 about 155 pounds were available for each person. This year it is estimated the supply will range between 143 and 145 pounds.

The cattle population runs in a cycle. Usually it's from six to eight years between the peaks and the lows. This has been the marketing pattern for years.

A prewar low point was reached in 1938 when the number of cattle and calves totaled 65,200,000. A peak was reached in 1945. There were then 85,600,000 cattle and calves on U. S. farms, an all time high.

During 1945 and 1946 the slaughter was so heavy that cattle numbers declined. By the end of 1946 they were down to 81,000,000 head. Now they number 78,500,000, lowest since 1942.

If the cycle follows its usual course it will reach a low about 1950-51 and then start upward. But the beef supply won't climb back up to today's level until around

## Tells Of Shale Oil Possibilities

CHICAGO, April 22. (U-P)—The United States has enough potential gasoline and oil in shale beds in the west to run its automobiles and machines for 150 years, a report to the American Chemical Society estimated today.

Most of this oil-bearing shale is found in the Green River area of Colorado, Wyoming and Utah. It is estimated to contain about 300 billion barrels of shale oil, said John S. Ball, G. U. Dinneen, C. W. Bailey, John R. Smith, and R. A. Van Meter of the Bureau of Mines petroleum and oil-shale experiment station, Laramie, Wyo. Gasoline from this oil probably

would not cost more than a few cents a gallon above that from petroleum, they said. The cost margin might be reduced further, they added.

More deaths from heart disease occur among urban people than in the rural population.

## Black Raider Suspect Kills Self With Gun

ATLANTA, April 22. (U-P)—An admitted Ku Klux Klansman accused of being a "black raider" flogged took "the only way I know out" last night—a fatal, self-inflicted shotgun blast in the left side.

Police Sgt. L. T. Bullard said grey-haired, 58-year-old Sherman C. Keheley, under \$5,000 bond on flogging charges, shot himself to death at his home.

His wife found the body, the officer reported, sprawled barefoot on the floor near a bed. A nearby note read as saying:

"I have always tried to do the best I can by everybody. This is the only way I know out."

Keheley and four others were indicted for taking Joe Berry, a 23-year-old war veteran from his home a week ago and beating him. Found at the scene of the flogging were cards bearing the words "black raiders," together with a heavy leather strap on a wooden handle.

Bloodhounds caught Keheley, a utility linesman, after the flogging.

## Stassen Pays Taft Tribute

CLEVELAND, April 22. (U-P)—Sen. Robert A. Taft and Harold E. Stassen pushed deeper into the state today in their quest for GOP presidential delegates.

The Ohio senior senator scheduled stops at Salem, Lisbon, East Liverpool, Carrollton, Cadiz and Steubenville.

Stassen, who seeks 23 of Ohio's 53 delegates to the Republican national convention, planned to fly to Toledo from Dayton.

He told a capacity audience of 3,000 at Dayton's Memorial Hall last night the nation must strengthen itself without becoming militarized. The former Minnesota governor urged "a vigorous, firm and definite foreign policy" and a "dynamic and free domestic economy."

Stassen, who also appeared at Middletown, Hamilton and Oxford, again paid tribute to Taft. He declared:

"I respect his sincerity of purpose, his perseverance and his conscientious devotion to duty."

He pointed out, however, he found they were in "almost constant disagreement on the key question of foreign and domestic policy."

Stassen promised to release after the primary any Ohio delegates chosen for him with instructions to "do what they think best" at the national convention.

FIVE ALIENS CAUGHT

Mexican Smuggling Ring Is Uncovered

DALLAS, April 22. (U-P)—Five Mexican aliens have told immigration authorities of an organized underground railway from Mexico to the United States.

W. C. Young, Dallas immigration agent, said yesterday the Mexicans revealed the organized smuggling of aliens into this country after they were halted by the Texas Highway Patrol in a car between Sherman and Denison.

"They told Jack Adkins and R. L. Lyle, agents from our office here, they came from Tannhuata, deep in the interior of Mexico," Young said. "They were told jobs were plentiful in Chicago and that through the underground railway their trip would be speedy and sure."

Young said the Mexicans told this story:

Their confederates from Tannhuata brought them to Nuevo Laredo, for a fee. Here they paid another man \$15 a head to wade

the river at midnight a little less than a mile below the international bridge.

The man waded with them and showed them where to hide on the American side. They hid in the mesquite near a pump, and in about 20 minutes an auto picked them up. They were hidden in a house on the American side all day and taken out that night under cover of darkness to San Antonio.

Then they were brought to Dallas, for a change of cars for the last leg of their trip to Chicago.

Young said it cost the Mexicans as much to get from Laredo to Dallas as it did for tickets to Chicago from Dallas. He said each had spent more than \$100 before reaching Dallas.

The immigration agent said the driver of the car was still held in Sherman. He said the Mexicans, along with 18 others, were started today to San Antonio for deportation. Charges will be filed against those operating "way stations" on the route out of Mexico, he added.

Experiment Steers To Be Shown

Business men, farmers and ranchers have been invited to the U. S. Experiment Farm Monday afternoon to inspect 48 beef steers which have been fed for six months in a special demonstration.

Visitors will be given an opportunity to inspect all of the animals at 4 p. m. on the announced date. At that time final weights of the animals will be recorded.

The invitation to the general public was extended by F. E. Keating, superintendent of the Experiment Farm. J. H. Greene, chamber of commerce manager, said all local business men would be urged to accept invitations.

The animals will be carried to Fort Worth Monday night for marketing.

Alabama Demos Are Split Over Bolt

BIRMINGHAM, Ala., April 22. (U-P)—Alabama Democrats are split wide open on a proposal to bolt the Philadelphia convention if the Truman civil rights program goes

into the party platform. The state's 26 convention delegates will be named in primaries May 4 and June 1. There are 84 candidates.

A State Democratic Executive Committee resolution April 5, endorsed the walkout. The committee polled the candidates, with this result:

Twenty-nine said they would walk out on the civil rights issue; 25 others said they opposed the civil rights program but would remain in the party; the other 30 said nothing.

## SHOVEL and HOE

A Garden Column by Virginia Scott. Presented by the Big Spring Garden Club.

For seven weeks we have been giving information which we hoped would see you through the planting season. There have been many things to do, and we know that you feel like resting a bit now that "The April world is misted with emerald gold."

Nothing is more relaxing than relaxation, and we believe that nowhere can the true gardener relax better than in the garden, when "little buds all burgeoning with Spring hold—winter in forgetfulness."

So let us stop several times during the day to enjoy the beauty about us, and to contemplate more beauty to come from the care that we have given our garden.

This doesn't mean that we are to suspend operations, however, for there is more work, but less rush, ahead. Cultivation and transplanting still go on, but we can "rest our toes" every now and then without feeling guilty.

How well acquainted are you with the Dianthus family? Do you know the dainty little Deltoidea Brilliant? This is one of the most attractive members of said family, and very easy to grow, if given a well-drained soil and sunny location. Good for the rock garden.

Other good kinds of Dianthus are, Alpinus, Caesius, and Neglectus. They are all perennial, prefer a limy soil, not too rich. The Dianthus is called "Pink" because the edges are irregular, or pinked, not because of the color. Some are white and variegated. Dianthus knapall is yellow.

A gardener from Missouri says she has seen two entirely different kinds of plants both called "Mahonia," and wants to know if she was given the right information. Yes, there are two Mahonias with different foliage. Mahonia bealei has sticky, thick leaves and grows upright from a central stem. Mahonia aquifolium is more bushy with softer, bronzy leaves. There is also a creeping form of Mahonia.

These are fine plants for shade or semi-shade. They are reasonably hardy, can stand zero weather. Like rich leaf mold soil. Very attractive to rabbits in winter, when these animals often strip the leaves and gnaw the stems. We have wondered how they can digest those sticklers.

Gardeners are sometimes puzzled as to why certain plants fail to come back each year. The reason may be that they destroy these plants in cultivation. The foliage of Oriental Poppies, Dicentra spectabilis, and Mertensia does a disappearing act after they bloom. It is well to mark where they are, so that they won't be disturbed, when the beds are worked.

The foliage of Dicentra eximia (ever-blooming Bleeding Heart) is soft and fern-like. It stays along with the pretty little hearts all summer. Not so sturdy looking as the old fashioned variety mentioned above, but more practical.

Improper drainage causes root-rot and wilt in plants. Soil should be lightened with sand or coal ashes, and trenched, if necessary. Water should not stand around plants very long at the time.

Evergreens growing in good soil do not need any other fertilizer than a mulch of leaf mold mixed with well-rotted manure. The mulch should be several inches deep.

Broad-leaved evergreens should be defoliated and cut back, when transplanted, especially without soil on roots. The Hollies transplant better, when they are shedding their leaves in the spring, but it is possible to transplant them at other times. Mulches of leaves should be renewed often around these plants.

IF STOMACH BALKS DUE TO GAS AND BLOAT

Help Get Food Digested to Relieve Yourself of This Nervous Distress

Do you feel all puffed-up and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief in helping your stomach do the job—it should be doing—in the digestion of its food.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, lousy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

## EAT PLENTY AND TAKE OFF UGLY FAT

Many people have reported amazing results with this home recipe. It's easy—no trouble at all and costs little. Just go to your drug store and ask for 4 ounces of liquid Barcostrane. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Take two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show the change, easy way to lose belly fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic, from neck, chin, arms, breast, abdomen, hips, calves and ankles, just return the empty bottle for your money back.

### Lost 47 Pounds

"When I commenced to take Barcostrane, I weighed 212 pounds. I now weigh 165. I feel so much better after losing that weight. I think it is a wonderful medicine and thanks to Barcostrane."—Mrs. George Gregg, Chalmers Courts 4, Apt. 1, Austin, Texas.

### Lost 20 Pounds

"I lost 20 pounds taking four bottles of Barcostrane and I feel fine."—H. M. Gates, 212 25th Street, Corpus Christi, Texas.

HARRIMAN IS NO. 2 EXECUTIVE

## Oklahoman Rated 'Good Bet' For No. 3 Position In ECA

WASHINGTON, April 22. (AP)—Jess Larson, Oklahoma lawyer and war assets chief, is rated a "good bet" by officials for the No. 3 spot in the new economic cooperation administration.

Secretary of Commerce W. Averell Harriman is resigning his cabinet post to take the No. 2 ECA job today. He will be this country's ambassador-at-large to the 16 nations taking part in the \$5 billion European Recovery Program.

That White House announcement surprised Capitol Hill. But there were no predictions that the Senate would delay long in confirming Harriman's nomination.

Larson was mentioned as a possible choice for the remaining top spot under ECA Chief Paul G. Hoffman—deputy administrator at \$17,500 a year. Larson hasn't indicated publicly whether he would accept if the position were offered.

Hoffman is known to have put Larson's name on a preference list prepared for Mr. Truman. He declined to make known any of the names submitted.

But persons close to developments at both the White House and ECA said the even-tempered Larson has a good chance of getting the presidential nod. A newcomer to high official ranks, Larson has won friends in his few months as surplus disposal chief. With surplus stocks dwindling, he has announced his hope of liquidating WAA at mid-year.

Meantime ECA prepared to announce a new multi-million dollar allotment of food and fuel for Europe. Hoffman already has authorized purchases of \$38,301,000 in the two weeks of ECA's existence.

The new allotment, it was reported, will include the first ECA authorization for Great Britain. England has been assigned a \$1,324,000,000 (B) share of the first-year foreign aid funds.

The ECA boss was elated at Harriman's acceptance of the roving ambassadorship, which pays \$25,000 a year.

"He was No. 1 on my list," Hoffman told reporters. "This is more than just an appointment—the success of this undertaking depends in major part on the caliber of the man who is the roving ambassador."

President Truman, through a White House spokesman, said he regretted losing Harriman from the cabinet.

But Mr. Truman yielded to Hoffman's request for Harriman's services because of the "transcendent importance of this new work," it was stated. He telephoned the secretary of Commerce at the inter-American conference in Bogota, Colombia, last Friday. Harriman agreed to take the post and returned to this country Tuesday night.

Harriman, 56, is a former ambassador to Great Britain and to Russia. Avowedly friendly to the Soviet Union during his wartime tour of duty in Moscow, Harriman since has criticized Russia sharply. The Soviet Union is a "greater menace than Hitler was," he recently told a congressional committee.

### AVOIDING GAPS

## President Moves To Fill Cabinet

WASHINGTON, April 22. (AP)—President Truman moved swiftly today to avoid a gap in his cabinet. He picked former Ambassador Charles Sawyer to replace W. Averell Harriman as Secretary of Commerce.

Mr. Truman offered the post to Sawyer a few hours after Harriman late yesterday accepted ap-

pointment as "roving ambassador" for the European Recovery Program. Harriman's nomination goes to the Senate today.

High administration officials, who declined to be quoted by name said Sawyer's formal nomination will be announced soon.

The 61-year-old Cincinnati lawyer has been a frequent White House caller.

The same administration authorities said Truman also hopes to decide on a new secretary of Agriculture before Clinton P. Anderson steps out next month to run for the Democratic senatorial nomination in New Mexico.

They said the President has given no indication whom he has in mind for that cabinet job.

Sawyer, who was at his home in Cincinnati last night, declined comment on the President's offer. But officials here said they are confident he will accept.

A member of the Cincinnati city council from 1911 to 1915, Sawyer served as lieutenant governor in 1938 and as Democratic national committeeman from 1936 to 1944. He was ambassador to Belgium in 1944 and 1945. In that capacity, he met Mr. Truman at Antwerp in 1945 when the chief executive arrived there en route to the Potsdam "big three" conference.

Some observers saw in the selection of Sawyer an effort on the part of the President to strengthen the cabinet politically in advance of the 1948 campaign.

CANDIDATE — Harold E. Stassen of Minnesota, candidate for the Republican presidential nomination, said in an address at Cleveland that President Truman's proposed foreign program was "entirely inadequate for menace he describes."

OPTIMIST — Dr. Robert Andrews Millikan, 80-year-old Pasadena, Calif., scientist, sees no need for pessimism about the future of the world. He told interviewers it is up to the peace-loving peoples of the world to unite and stop aggressors.

Sawyer, who was at his home in Cincinnati last night, declined comment on the President's offer. But officials here said they are confident he will accept.

A member of the Cincinnati city council from 1911 to 1915, Sawyer served as lieutenant governor in 1938 and as Democratic national committeeman from 1936 to 1944. He was ambassador to Belgium in 1944 and 1945. In that capacity, he met Mr. Truman at Antwerp in 1945 when the chief executive arrived there en route to the Potsdam "big three" conference.

Some observers saw in the selection of Sawyer an effort on the part of the President to strengthen the cabinet politically in advance of the 1948 campaign.

They said the President has given no indication whom he has in mind for that cabinet job.

### E. C. Dodd Attends Lubbock Meeting

E. C. Dodd, president of Howard County Junior College and co-ordinator of the Howard County Vocational School, was in Lubbock Thursday for a coordinator's meeting.

While there he was to explore the possibility of locating a supervisor for a distributive education program.

Friday evening he is to go to Midland where he will address the junior senior banquet of the Courtney high school. The affair will be held at the Scharbauer hotel. Dodd also has been booked to deliver the commencement address for Ackerly seniors on May 20.

Big Spring Students Card Busy Weekend

This is to be a busy week end for Big Spring high school representatives.

Twelve members of the track team, one boy's declaimer, and a girl typist will be at the regional interscholastic league meet in Abilene Friday and Saturday. The high school golf team will be in Dallas; the FFA judging teams will be in Lubbock for contests; a delegate and instructor from the homemaking department are in Galveston for the state parley; and Walter Reed, high school principal, is in Austin for a state meeting of high school principals and representatives from Texas University.

### Mary Hardin-Baylor Offers Scholarships

BELTON, April 22.—Applications for scholarships being offered to Texas girls by Mary Hardin-Baylor college are being received.

Young women who apply must be 1947 graduates of their high schools and in the upper 50 per cent of the class. Applications must be received at Belton by June 1, it has been announced. One of the scholarships is awarded to a girl in each of the 17 WMU districts of Texas and approximate \$180 in value. They are offered in honor of Mrs. Fannie Breedlove Davis, who led the WMU in 1880 and was its first president.

Receives A 30-Day Sentence In Jail

H. P. Nance received a 30-day jail sentence in county court Wednesday afternoon after he had entered a plea of guilty to the charge of obtaining things of value with a worthless check.

Earlier, R. R. Jacks had been fined \$5 and costs on a similar count.

# Steers Meet Odessa Nine Here At 8:15

Harold Berry  
Due To Pitch

The Big Spring high school baseball Steers take on a big order to-night at Steer park when they clash with the pace-setting Odessa Bronchos. Game time is 8:15 p. m.

The Odessans are currently setting the District 3AA pace with four victories in five starts. A win to-night will give them the inside track for the title.

Conn Isaacs, Big Spring coach, will probably dispatch Harold Berry to the hill in quest of victory. Berry was one of the top pitchers in the league last year but has been troubled with a sore arm to date. He may come onto his own tonight.

If Berry falters, Donnie Carter or James Boatman will be ready for fireman duty.

Tonight's fracas will probably be the only night home game of the year for the Herd.

Admission prices have been pegged at 50 and 25 cents.

## Maxwell Posts 82 in Texas Prep Tourney

DALLAS, April 22—A field of 116 golfers, led by Medalist Ross Mitchell of Lubbock, begins play in the annual Texas High School tournament underway at Cedar Crest here today.

Mitchell won medal laurels Wednesday with a respectable 73, two-over-par. Mitchell was out in 40 but warmed up coming in with a 33.

Bobby Maxwell, Big Spring, crowded into the title picture despite the fact that he scored to an 82 in his qualifying round. He met Roy Melton of Longview, who got in under the wire with a 78.

Billy Maxwell of Abilene, who posted an opening round 76, faces Jimmy Reynolds of Marlin, who reported an 80.

Mitchell goes off the tee today with Billy Hise of Amarillo, who enjoyed a first round 79.

Bernard Riviere, the defending champion from Lamar of Houston, gets away with Billy Penn of Austin. Riviere put together a qualifying score of 78 while Penn equalled that.

Other West Texans in the championship flight and their qualifying scores include:

Graham Mackey, Midland, 75; Lee Pinkston, Abilene, 78; Gervin McGraw, Abilene, 75; Low Ground, Midland, 81, and Dilmus James Abilene, 79.

Clarence Schaefer, Big Spring, posted a opening round 87 and was to face Jack McMasters of Freeport in first flight play. McMasters qualified with a 84.

Bobby Hoberst, Big Spring, collected a 80 and will meet Lovell Turner of Highland Park in a third flight duel. Turner was in with a 101.

Sam Thurman, Big Spring, also in the third flight, pieced together a 93 and goes out against D. H. Snyder of Marshall, who had a 107.

## LOOKING 'EM OVER

With TOMMY HART

All three of the boys who hit Longhorn league pitching at a better than .400 clip in 1947 will be back in the circuit this season. Jim Prince, the leader with a .429 mark last year, was obtained by Midland from Lamesa over the weekend. Bob Cowser, the Sweetwater giant who has been purchased by Greenville, is returning to the Sports. Cowser rapped Longhorn pitching for .409 in '47, after leading most of the way.

Our Town's Pat Stasey, boasting a 1947 mace mark of .416, returns here, of course, as manager. The fact that Prince and Cowser, each of whom had a chance to make good in higher company, didn't stick doesn't speak too well of Longhorn league pitching. Still and all, they can't be considered failures.

Prince groaned when he was drafted by Lamesa and told intimates he would much rather play in Midland. Cowser insisted on finishing college before reporting to Greenville and that Big State league club gave up on him.

### COWSER MAY NOT FIT INTO SPORT PICTURE

One Sweetwater official, here for the league meeting Tuesday night, said he didn't know whether or not Cowser would fit into Manager Bill Gann's plans.

For one thing, Bob isn't the best fielder in the world. For another, despite his .400-plus average, Cowser is weak on an inside pitch. Dave Stegar, Melvin Wiebel and Frank Bishop have been manning the Sweetwater outfield posts. The Sweetwater spokesman, however, must have been speaking with tongue in cheek. Cowser, despite his weakness, hit enough pitches to justify his playing regularly.

### BOBBY MARTIN WASN'T ABLE TO MAKE TRIP HERE

Claud McAden and Stasey held their party Tuesday without Bobby Martin, the San Angelo skipper. Martin wanted to come up but was scheduled to introduce his players from the stage of the Roxy theater in Angelo.

Martin, by the way, has acquired Rudy Palmer, brother to Lamesa's I. R. Palmer. Rudy, an outfielder, was with Lamesa when the Lobos played here Sunday.

A. D. Ensey, the loquacious Odessa club owner, gained the floor at the Tuesday session to betray his problems in the Ector county capital, then analyze each one thoroughly. In the course of his conversation, he mentioned that the Oilers had 28 ball players in camp. That brought a rise from Bill Davis, the new skipper of the Odessans. He said in all seriousness that half of the youngsters should have to pay to get in the grounds.

Davis, by the way, played against Our Town's Willard Ramsdell not so many years ago.

### STURDIVANT STILL WEARS SKULL PROTECTION

George Sturdivant, the Lamesa skipper, still wears a steel plate in the left side of his cap. George was beamed several years ago and for a time his life was despaired of. He's never been without that skull protection since.

Arnold Davis, the Midland fly-chaser who got a spring tryout with the Tulsa Oilers, is now with Ogden, Utah, in the Pioneer league. Claud Gray, the ex-Indian flinger, is there, too.

Ray Mendoza and Charley Parlier, former Big Springers, have wound up with Emporia in the Virginia State league.

Norman St. George, another former Bronc, has been sent to Lincoln, which is in the Western Carolina circuit.

## Red Birds Off To Speedy Start In National League Skirmish

By The Associated Press

This is definitely a new year for Eddie Dyer and his St. Louis Cardinals.

Just a year ago today, Dyer's Redbirds were in the midst of one of their worst early season slumps. A heavy favorite to retain the championship they were 1 in 1946, the Cardinals got off on the wrong foot and dropped 9 straight games. As it turned out, the Cards lost the flag then and there.

But the picture is much brighter this year — thanks to some splendid pitching by Murry Dickson and George Munger.

Dickson gave up 10 hits in Tuesday's opener, but wound up with a 4-0 shutout. Munger allowed only five yesterday and registered a 5-2 victory over the same Cincinnati Reds. The two triumphs shoved the Cards into a first place tie with the Philadelphia Phils.

Ben Chapman's Phillies made it two in a row over the Boston Braves, taking yesterday's game 4-3 in 13 innings. A pair of walks, a sacrifice, a wild throw and Granville Hamner's long fly produced the winning tally.

Bill Voiselle was yanked for a pinch hitter after seven innings. Ernie White, a refuge from the coaching box, allowed only two hits in 5 2-3 innings of relief, but was charged with the defeat.

At the Polo Grounds the Giants flattened the Dodgers, 9-5, in one of the weirdest games in years. A crowd of 22,388 watched in amazement as five Brooklyn hurlers issued 13 free passes and gave up 11 hits, including two home runs.

Ralph Branca, Willard Ramsdell, Preacher Roe, John Hall and Jell Banta all tried their hands for the Dodgers.

The Giants' pitching wasn't much better. Sheldon Jones and Ken Trinkle also allowed 11 hits between them, including three home runs.

## Rodriguez Slated For Mound Duty

Gerry Rodriguez, curve-ball specialist, is scheduled to take the mound for the Big Spring Bronchos in their second Longhorn baseball league game in Midland tonight.

Rodriguez picked up a dozen wins last year, beating Midland five times.

Harold Webb, the Midland skipper, is due to counter with Weldon Stewart, a veteran from last year's team, in an attempt to make it two in a row.

The two teams switch their scene of operations to Big Spring Friday night, tangling in a contest that gets underway at 8:15 o'clock.

## Scouts Arrive For Roundup

Boy Scouts from throughout the 15-county Buffalo Trail Council were due to arrive here this afternoon for the 22nd annual Scout Roundup.

Registration was scheduled to begin at 4 p. m. at the Roundup grounds south of the city.

Several members of the Council professional staff were here this morning to assist H. D. Norris, local Scout field executive, with preliminary work connected with the event.

Advance lists submitted by Scoutmasters up to noon today indicated that more than 525 Scouts from various points in the Council would be here for registration today.

Exact number of Big Spring Scouts who plan to participate had not been determined this morning. Local officials again reminded that Scoutmasters must make suitable arrangements with proper school authorities for all Big Spring Scouts who will be absent from any classes during the event.

The Roundup, which is a major camping activity for the council, is held in Big Spring each year. The various troops encamp at the Roundup grounds in tents erected by themselves, do their own cooking and perform other necessary chores.

In addition the boys all participate in competitive events on Friday and Saturday morning. The activity will be climaxed again this year with the annual barbecue at noon Saturday. The barbecue is arranged each year by Big Spring citizens.

In addition to the regular program this year, special demonstrations on packing burros for hikes and camping expeditions will be conducted. Two burros were brought here Wednesday from the Council's Scout Ranch in the Davis Mountains. Several animals are kept at the ranch for use by Scouts during trips and hikes connected with the regular Council camping program.

## How Builders Of Indian Tower Failed

(AP Newsfeatures)

ALBUQUERQUE, N. M. — New evidence has been found that the vanished Indian tower builders of northern New Mexico were wiped out in one of the most complete mass exterminations known to anthropologists.

The discovery is reported by Dr. Frank C. Hibben of the University of New Mexico.

Since 1934, a year after a prospector first stumbled across the strange structures, Hibben has sought to unravel the mystery of a whole tribe's disappearance.

Excavation of the 17th of the towers, he says, reveals unparalleled violence. Each of the first 16 towers had been burned out. The 17th—first circular structure excavated—had been burned out twice.

From nearly 100 towers yet to be uncovered in the Galina area, beginning about 75 airline miles north of Albuquerque, Dr. Hibben hopes to solve the mysteries of the tower builders.

Anthropologists want to know the origin of the tower builders and of their enemies, and especially what touched off the violent, sustained warfare that resulted in the extermination.

"The motive couldn't have been robbery," Dr. Hibben says. "For the usual loot taken by ancient pillaging Indians—pottery, food and skins—was untouched and was burned with the owners."

About 800 years ago, according to reconstruction of the era, the strange tower Indians migrated to the wild, mountainous country of northern New Mexico.

They prospered, spreading their towers over a 75-mile belt extending from near Cuba, N. M., almost to the Colorado-New Mexico border. Hibben says they probably numbered several thousands.

From their implements and a squaw which they raised, the tower builders resemble Plains Indians, but they cultivated on terraces in the manner of early Indians of Mexico.

For defense they constructed stone towers about 30 feet high and 18 to 20 feet across, a type of architecture which is foreign to the region.

"As far as we know, the tower design was original with them," Dr. Hibben says.

For security, the towers were built on the most inaccessible mountain tops and cliffs.

"They knocked themselves out building the towers in isolated, hard to approach places," Hibben says. "But the very isolation for which they strove enabled their attackers to pick them off one at a time."

The attack came about 700 years ago. The sudden, fierce battles ended only when every man, woman and child was dead in the burned ruins of their homes.

In nearly all of the towers uncovered, skeletons of the defenders were found—some still clutching bows or other weapons.

While it appears that most of the tower builders were killed before the towers were burned, some died in the flames.

So far, Dr. Hibben says, no bodies of the invaders have been found, but arrows in many of the bodies are the type used by early Pueblo Indians who inhabited the less rugged areas in that district.

"But," he adds, "Pueblo Indians never were known to be a warlike people."

"If the Pueblos were responsible, the provocation must have been tremendous to cause such merciless and sustained warfare."

Dr. Hibben says that he has

## SOIL CONSERVATION

### Grass Reserve Aids Stock In Winter

L. W. Longshore, rancher co-operator with the Martin-Howard Soil Conservation District, reported last week that his cows had wintered in good shape. Longshore, whose ranch is on the Garden City highway 8 miles southwest of Big Spring, had a lot of grass reserve built up on his range because of moderate use. He sold his sheep last year and has run about 13 cows to the section since then. Moderate use of the range left a good cover of grass litter which has proved an insurance against drought by providing reserve forage and protecting the range from loss of soil and water. Longshore also said he will get a good calf crop this year.

Ray Swann, who made out a conservation plan last week on the ranch of Mrs. D. H. Snyder southeast of Coahoma, recently completed work on the spillways of two of his stock tanks. Swann enlarged the spillways to provide a better outlet for overflow water and protect the dams.

The irrigated pasture planted last fall by J. B. Calverley, rancher-cooperator with the District at Garden City, is making good growth. Calverley watered the pasture last week putting on the equivalent of three inches of rainfall, and will pasture with sheep in about 10 days. He also has about 50 acres of wheat under irrigation.

C. H. McDaniel, Jr. completed a plan for soil and water conservation last week on his dairy farm south of Big Spring. As a part of his program McDaniel will limit grazing on his pasture land to give the grass a chance to come back. He has one pasture which has been protected for two years. The better forage grasses, the grammas and buffalo grass, are taking over in

this pasture and crowding out needle grass and weeds.

Terrace construction started recently on the farms of Ed Carpenter and Willis Winters, Jr. in the Vincent Soil Conservation group. Carpenter is building 6.3 miles of broad base terraces on 320 acres of cropland. Winters is also terracing 320 acres. The farmers are terracing their farms as a part of their coordinated soil and water conservation program, to hold water on the land and prevent the soil from washing.

L. M. Barr completed a 3,000-cubic yard tank this week on his farm in the Vincent group. Barr built the tank to store water for use at his farmstead. He had the assistance of the Soil Conservation Service who designed and staked out the tank.

A 1935-cubic yard stock tank was completed by G. W. McGregor last week on his farm in the Coahoma soil conservation group.

### George Peddy Due For A Stop Here

George Peddy, Houston, is due to be in the Big Spring area on Friday in interest of his senatorial campaign.

Peddy reports indicated that he would be through Abilene Thursday, spending the night at Sweetwater. Stops are due for Colorado City, Stanton and Lamesa in this territory while Peddy is making his initial swing into West Texas. Peddy is booked to address the junior chamber of commerce at Midland on Friday evening.

One of the first to announce for the senate seat now held by W. Lee O'Daniel, Peddy plans to visit in 28 towns on his current 2,000-mile trip.

### Small Girl Falls On Picket Fence

BOSTON, April 22. (AP)—A 12-year-old girl, who became impaled on a picket fence in a six foot drop from a garage roof, was reported in critical condition today at city hospital.

Physicians said one of the pickets penetrated the lower abdomen of Alice Marie Fournier.

The girl was playing "spunk the leader" on top of the roof with playmates when passing boys shouted the garage owner was coming.

The frightened girl, misjudging the distance from the roof to the fence, dropped on the pickets. Playmates pulled her off.

### Texas Masons Sell Building To TNG

WACO, April 22. (AP)—The Texas Masonic Grand Lodge temple here will be sold to the Texas National Guard for use as an armory for \$225,000.

Horace K. Jackson, grand master of the Texas Masons, yesterday announced agreement for sale of the building had been reached with Guard officials.

## ETIQUETTE IS TOPPED BY JUDGE

DECATUR, Ill., April 22. (U)—Wedding presents, says Circuit Judge Martin E. Northland, are not the sole property of the wife.

Taking issue with some etiquette authorities, Judge Northland denied the claim of Mrs. Edith Greenberg to \$550 worth of wedding presents. She asked them yesterday as she obtained a divorce from William Greenberg, Decatur merchant, on grounds of desertion.

Judge Northland commented that an authority on etiquette said wedding gifts belong to the wife, "but she cannot be accepted as a legal authority." He ruled the \$550 worth of presents belonged to both husband and wife.

## Detroit Manhunters Checking Scores Of Leads Seeking Reuther Assassilants

DETROIT, April 22. (U)—Detroit police, ordered out on one of their greatest manhunts, checked scores of dim leads today in an effort to track down the would-be slayers of Walter P. Reuther.

Sifting through the pile of possibilities, officers questioned dozens of the friends and enemies of the fiery union leader had made on his climb to the presidency of the CIO United Auto Workers.

But despite the offer of rewards totalling \$117,900—perhaps the largest in the nation's history—real clues to the Tuesday night shooting remained rare.

Reuther himself, lying in New Grace Hospital with his shattered right arm suspended in a traction cast, could offer few ideas.

He told Prosecutor James V. McNally that "I haven't the slightest idea" when asked who might

have shot him.

It might have been, said the labor leader, management, Communists or screwball.

Following one of the scant clues, police checked all garages in the locality to find the red sedan that was seen dashing away from Reuther's house a moment after his stealthy assailant fired a shotgun blast through a window.

Police Commissioner Harry S. Toy said the fact that the car had not been found abandoned apparently proved at least one thing: that the shooting was probably done by an amateur.

"A professional would have disposed of the automobile by this time," he declared.

Reuther's associates in the UAW pledged their all-out aid to police. Secretary-Treasurer Emil Mazey declared, "We'll get the guy who did it if we have to turn the whole town upside down."

Reward offers flooded in. The UAW itself pledged \$100,000 to the person or persons who could give information leading to the would-be-assassins. The City of Detroit offered \$10,000. From the AFL International Brotherhood of Teamsters came \$5,000, while \$1,000 was pledged by the CIO council.

The Communist Party, which Reuther bitterly fought, offered \$500 along with a statement denouncing the attack as "the most desperate of a number of Fascist assaults against the security and civil liberties of the American people."

Other sums came from small UAW locals.

Meanwhile, police theorized that two or possibly three persons had a part in the actual shooting. Near a corner of Reuther's modest home they found some footprints indicating a lookout might have been posted to aid the actual gun wielder.

Another lead was turned in by a Ford Motor Company executive. William Gossett, an attorney and vice-president of the company,

MRS. REUTHER AT BEDSIDE OF HUSBAND — Mrs. Mae Reuther is shown above at the hospital bedside of her husband, Walter, CIO United Auto Workers president, who lies seriously wounded when an unknown assailant fired a shotgun blast through the window of their Detroit, Mich., home. (AP Wirephoto).

called Toy to report a Ford patent attorney had some "important information."

Toy sent Chief of Detectives Jack Harvill to interview the attorney, but refused to divulge the nature of the information.

In the hospital, doctors battling to save Reuther's arm said the fight appeared to have been won.

### VANGUARDIA DEFEATED

## Guns Are Bringing Costa Rica Peace

SAN JOSE, Costa Rica, April 22. (U)—Costa Rica's new government acted sternly today, with guns, to bring peace back to revolt-torn San Jose.

Armored cars were ordered out by President Santos Leon Herrera's government to smash bands of armed militiamen still roving the capital's streets. Four militiamen were killed yesterday.

Former President Teodoro Picado

do Michalski, who signed peace terms dictated by Rebel Leader Jose Figueres, left yesterday for Managua, Nicaragua, after turning the government over to Herrera, 74.

Herrera is to serve until about May 8, when a constituent assembly is to meet. Elections are planned later. The civil war started March 12 after Congress annulled the February elections in which Otilio Ulate Blanco won the presidency.

(A dispatch from Port Limon quoted Figueres, a Ulate backer, as saying that more than a thousand persons were killed in the shooting war.)

Reports here indicated some fighting still is going on. Figueres men and Herrera men joined forces to rout out the militiamen, who have refused to accept the peace settlement.

The militiamen fought during the rebellion on the side of the Vanguardia (formerly Communist) Party, which tied up with Picado against Figueres.

### Former Barrow Friend Is Dead

COUSHATTA, La., April 22. (U)—The man whom Sheriff Ray G. Adcock said helped lay a fatal trap for Clyde Barrow and Bonnie Parker is dead.

Adcock identified a man killed by a train at Sulphur, La., Tuesday as Henry Methvin, former pal of gangster Barrow and his girl friend Bonnie.

Methvin was crushed to death at Sulphur when he apparently tried to crawl across the tracks beneath a moving train. Funeral services were held here yesterday.

"You can tell the people in Texas and Oklahoma that the man killed near Lake Charles is the Henry Methvin who was with Barrow and Parker," Adcock said, adding he had known Methvin all of Methvin's life.

Barrow and his cigar-smoking sweetheart were credited with 12 killings before they were slain near Gibsland, La., May 24, 1934. At that time Frank Hamer, a veteran Texas Ranger, said Methvin had arranged for Barrow and Bonnie to travel down the gravel road on which they were shot to death from ambush.

Methvin then was on parole from the Texas prison after serving part of a 10-year sentence for robbery.

## ROBIN CREATES TRAFFIC PROBLEM

CHICAGO, April 22. (U)—A mother robin has created traffic problem at the Stuart Grau home in suburban Norwood Park.

A couple of weeks ago the robin built a nest on top of a light fixture at the Grau's front door.

Members of the Grau family are using the back door until the young are hatched. All visitors to the home are conducted to the back door.

## Baby Found In Garbage

MINNEAPOLIS, April 22. (U)—A newborn baby boy, found among garbage parcels on a city truck, was alive and well at Minneapolis General Hospital today.

Walter Lindell said the attention of himself and another garbage handler was attracted to the newspaper-wrapped package when it stirred after having been dumped into the truck from one of two refuse cans they were emptying late yesterday.

Investigating, Lindell said he found the child, barren of clothing, wrapped it in his coat and summoned an ambulance.

Police, arriving with the ambulance, found a crowd gathered around the garbage truck. They noticed a 19-year-old onlooker exhibiting more than ordinary interest. The girl became hysterical as questions were asked.

Between sobs, she admitted she had given birth to the child an hour earlier in her nearby room. She was reunited with her baby at the hospital, where physicians said the boy was normal, healthy and in very good condition. The mother was being queried further today.

## MAN-MADE WEATHER

### 'Buckshot' Used To Make Snow

CHICAGO, April 22. (U)—Fifteen kinds of "buckshot" to bring down

snow were described today by an authority on man-made weather.

This buckshot is various types of fine soil, Vincent J. Schaefer of the General Electric Company Research Laboratory told the American Chemical Society.

In laboratory tests, he said, all can produce snow. But they aren't as good as "seeding" clouds with little pieces of dry ice. They do indicate that dust spewed up by volcanoes or by dust storms probably is one cause of snow. The dust particles act as seeds for the water in super-cooled clouds to form snow crystals, he said.

Among the 15 types of soil capable of producing snow, in the laboratory, are:

Volcanic dust from Mexico, bentonite clay from Montana, wheat soil from the State of Washington, alluvial soil from Arizona, soil from Nevada lake bed deposits, and kaolin, topaz, kyanite, and clays from Tennessee and New York.

A new theory on how rain forms was suggested by Dr. Irving Langmuir, famous GE scientist. It's based on cloud studies at the Mt. Washington, N. H., weather station.

The difference in the sizes of drops within a cloud caused by evaporation and condensation would lead to rain through "gravitational accretion," he said. That is, the heavier droplets would overtake smaller and slower-moving droplets, thus forming drops large enough to fall as rain.

This process speeds up rapidly as drops increase in size, Dr. Langmuir said.

### Reports Slated On Hospital Drive

STANTON, April 22.—Committee chairmen for the Martin County Memorial hospital campaign are due to submit their first progress reports to a meeting in the Martin county courthouse tonight.

The fund drive was opened officially Monday night when committeemen raised early pledges to \$30,000 at a kick-off dinner in the Stanton Methodist church. Committeemen began soliciting pledges and Jim Tom, campaign chairman, said results of the first three days of canvas work would be tabulated at the session tonight. The committee chairmen hope to subscribe pledges for constructing a \$150,000 hospital building during a 30-day campaign.

## Missionaries Will Speak In Ackerly.

ACKERLY, April 21. (Sp)—The Rev. F. A. Frazier, missionary to the Indians in Arizona, conducted the services at the Monday evening meeting of the Church School of Missions held in the First Baptist church.

Other missionaries, both home and foreign, to speak during the remainder of the services are Mrs. Elizabeth Glass, missionary to China, Tuesday evening; the Rev. Jose Sanchez, missionary to the Mexican in New Mexico, Wednesday evening; the Rev. Dub Jackson, preparing for missionary work in Japan, Thursday evening and the Rev. Sanbel, preparing for missionary work in Hawaii, Friday evening.

Supper will be served to those attending services Friday evening. Leon and Parker White left Sunday for Tenaha where they plan to visit friends and relatives.

Mr. and Mrs. Jimmy Belt and boys and Mr. and Mrs. Buddy Belt and sons were Sunday visitors here.

Mrs. Leon White, Johnette and Van visited in Big Spring Sunday. Mrs. Porter Motley returned Saturday from San Antonio, where she was a guest of her sister, Mrs. Galvin Houston and family.

Recent visitors in the R. N. Adams home were D. E. Lloyd and family.

## Former Pastor Here Is Now In Nebraska

The Rev. Will H. Muston, a minister here three decades ago, is now pastor of the First Baptist church in McCook, Neb. It has been learned here in a letter from him.

He was pastor of the East Fourth Baptist church in 1914, when the church was known as the Evangel Baptist church following its organization in 1913. Rev. Muston was its third pastor and ministered when property was bought at E. 3rd and Gollad and the church became known as East Third Baptist. Subsequently, when its location was changed, it became East Fourth Baptist.

In his letter, Rev. Muston remembered S. H. Morrison and M. H. Morrison, charter members of the church. He recalled B. Reagan, the late James Pritchard and said he was acquainted with Dr. P. D. O'Brien, First Baptist minister here.

## Three Divorce Decrees Granted

Decrees were granted by Judge Cecil C. Collins in three divorce suits heard in 70th district court proceedings Tuesday.

Lydia Mary Lonsford was awarded a divorce from Fred M. Lonsford and was given the privilege of using her former name, Hudman.

Justine Bright won custody of two minor children as well as a decree from Robert C. Bright.

Mary Ethel Young was granted marital freedom from Wilburn C. Young and the right to use her maiden name of Johnson.

In a suit styled Doris Marie Coker vs Joseph A. Coker, an order was entered for the defendant to pay \$20 every two weeks toward the support of minor children, as agreed.

## Filbert Graham Cracker Squares

2 cups (about 24) finely crushed graham crackers  
1-2 teaspoon salt  
1-2 cup finely chopped filberts  
1-2 cup (about 1/2 6-ounce package) semi-sweet chocolate pieces  
1 15-ounce can (1 1-3 cups) sweetened condensed milk  
Mix graham cracker crumbs with salt, nuts, dates and chocolate pieces. Add sweetened condensed milk and mix thoroughly, using two spoons or a spoon and a fork if necessary. (Mixture will be thick and sticky.) Turn into greased 8 x 8 inch pan and spread evenly. Bake for 30 minutes in moderate (350 F.) oven. Cool and cut into 36 small squares with a sharp knife. Store in tightly covered container. Note: Dates may be easily cut by using scissors and dipping blades in water occasionally.

Tulleries Garden in Paris gets its name from tile plants that were located there in the 13th Century.

## Mocha Pouff

1/2 cup coffee  
1 package semi-sweet chocolate pieces.  
1 tablespoon (1 envelope) unflavored gelatin  
1-4 cup cold water  
4 eggs, separated  
1-4 cup sugar  
1/2 teaspoon salt  
1 teaspoon vanilla  
1-4 cup sugar  
12 1-inch cubes plain white cake  
Heat coffee to boiling in top of double boiler, over direct heat. Place over hot water and add chocolate pieces. Soften gelatin in cold water for 5 minutes. When chocolate is melted add softened gelatin and stir until mixture is smooth. Beat egg yolks with sugar, salt and vanilla. Stir in chocolate mixture. Return to top of double boiler and cook over hot, not boiling, water, stir constantly until mixture thickens or about 10 minutes. Remove from heat and place over cold water. Cool, stirring occasionally, until the consistency of molasses. Beat egg whites until stiff but not dry, then gradually beat in the remaining 1/4 cup sugar. Gently fold in the chocolate mixture. Pour half of mixture into 6 cup mold or rim mold which has been lightly brushed with salad oil. Place cake cubes at irregular intervals and cover with remaining chocolate mixture, being careful to have top surface even when finished. Chill several hours or until firm. Unmold on serving plate. Garnish with whipped cream if desired. 8 to 10 servings.

It is estimated that by the year 1960 annual U. S. deaths from heart and blood diseases may be as high as 1,200,000.

**CONTINUOUS CHORE** — The average housewife washes dishes 1,095 times every year, so it's easy to see why any new product to make the job easier is greeted with open arms. Procter & Gamble, the makers of Tide, a new washing aid now being sold in Big Spring believe their new product will save housewives time and effort which, over the course of a year, will add up to an astonishing total. They claim that Tide-washed dishes do not have to be wiped, since they dry without any hardwater streaks or film; that Tide provides active suds which cut grease better and last longer.

## Cornmeal Griddle Cakes, Sausage Filling Add Variety To Spring Menus

It's savory sausage rolled in golden crisp corn griddle cakes—not for breakfast but for dinner. That's our sausage roll-up, something new in meat extending dishes. It's a hearty enough dish to befit your main meal, especially when you serve it with thick browned slices of tart fried apples.

It's new because we're rolling the "extender" around the meat by combining extending foods with the meat, such as meat and vegetables in a stew.  
**CORNMEAL GRIDDLE CAKES**  
1/2 cup sifted flour  
1/4 cup finely ground cornmeal  
1 teaspoon baking powder  
1/2 teaspoon salt  
1 tablespoon sugar  
1 egg  
1/2 cup milk  
1 tablespoon fat, melted  
Sift the dry ingredients together. Combine the beaten egg, milk and melted fat. Add gradually to the dry ingredients, stirring only until the batter is smooth. Bake the cakes on a hot griddle. Makes 8 to 12 cakes.

**SAUSAGE FILLING**  
1 pound sausage  
2 tablespoons flour  
1/4 cup crushed pineapple (optional)  
Shape meat into 8 small rolls. Sprinkle with flour and brown in skillet—no fat is required. Reduce heat and cook until sausage is done. Roll a pancake around each

meat roll and serve with fried apple slices. Serves 4.

**Sausage Roll-Ups**  
Fried Apple Slices  
Fresh Beet Greens with Tiny Whole Beets—Mustard Sauce  
Tomato Jelly Salad  
Banana Trifle

Banana trifle is no trifle on your menu. It's a delicious dessert... bananas sliced over cake crumbs or slices, and covered with soft custard. And you may top it all with fluffy white coconut.

**Food Tips:** You may be eyeing the tomatoes in the stores longingly.

But your pocket book will fare better if you buy some of the plentiful canned tomato juice, now being offered at bargain prices. Most of the best tomato juice buys come in 46-ounce cans. Watch your grocery ads to see whether the larger cans do save more than the smaller ones.

An 18-ounce can of tomato juice is selling at 10 1/2 cents (2 for 21 cents) in some localities right now. And it's a good buy at that price, especially when you compare it with fresh tomatoes at 25 cents a pound.

It's a saving of 15 cents. And the tomato juice has just as much nutritive value as the pound of fresh tomatoes.

## Finds European Diet Is Skippy

NEW YORK, April 22. (U.S.)—A busy college student who lived for the past 10 days on a typical overseas food package was only one pound lighter today but "kind of tired."

The student, William Harrington, 25, of Dumont, N. J., yesterday ended an experiment during which he ate only from a food package designed for hungry Europeans.

The package included four pounds of wheat flour, two of ham and bacon, two of chocolate, three-fourths of a pound of coffee, a pound and a half of oatmeal, three-fourths of a pound of rice, and half a pound of cocoa.

The food package, according to SAFE (Save A Friend In Europe, Inc.), which sponsored the test, are designed to supplement European rations.

Harrington, who is over six feet tall and weighs 200 pounds, is a Manhattan College junior.

# Most Texas Demo Leaders Advise Shunning Of Revolt

FORT WORTH, April 22. (U.S.)—If Texas Democrats follow the advice of a majority of their leaders, they will shun the southern revolution.

The State Democratic Executive Committee yesterday beat down 35 to 14 a proposal modifying a party loyalty resolution, it criticized and praised President Truman, and voted in favor of a Texas delegation to the national convention unopposed to candidates.

By a voice vote, the committee rejected a suggestion that the electors and delegates to the national convention support the nominees of the party only if those nominees are in accord with the resolution adopted by the southern governors at Washington, rapping the President for his civil rights program.

All the actions taken by the committee were recommendations that must go before the May 25 state presidential convention at Brownwood. They do not bind the party, but they are a tip-off of its general sentiment.

The recommendations were in line with suggestions made by Gov. Beauford H. Jester in his speech here Tuesday night.

**VOTING STRENGTH**  
Another important action was passage of a resolution fixing the voting strength of the counties at the Brownwood convention. It will give each county one convention vote for each 500 votes or major fraction thereof cast by that county for governor in the last party primary.

The executive committee adopted just one major resolution.

It endorsed Jester's speech, urged precinct and county conventions to take forthright action "to protect our sovereignty and social institutions," recommended that the Texas delegation to the national convention seek restoration of the two-thirds rule, suggested that the delegates be instructed to fight for preservation of the tidelands and domestic water resources.

The resolution also suggested the Texas delegation should be instructed to oppose the destruction of "our social institutions by the fiat of Congress."

### TEST VOTE

The test vote came on this paragraph of the resolution: "We recommend that the presidential electors and delegates selected (at the May convention), be outstanding and loyal Democrats who will faithfully carry out the mandates of the party as voiced in convention assembled, and who will accord full support to every nominee of the party."

Morris Roberts of Victoria, chairman of the Resolutions Committee, wanted to strike out the phrase "and who will accord full support to every nominee of the party."

He said he was a Democrat, always had been one, and believed he would always be one, but that some national convention action such as nominating a Negro for vice-president might be more than he could take.

**ROBERTSON DISAGREES**  
Roberts suggested the Texas delegation would be in a better bargaining position if it made some reservation such as he suggested.

## AFTER LOSING VOTE

# Togliatti Denies Revolt Is Planned

Leader Palmiro Togliatti said today his followers "have no intention of using force or violence" to overthrow the anti-Communists who won the Italian election.

He gave this assurance even as he charged that the balloting was influenced by "brutal foreign intervention" in the form of threats of starvation and atomic bombing.

Togliatti's comments, in an interview published in the Communist newspaper L'Unita, were his first public statement on returns from the parliamentary election of Sunday and Monday.

The returns have put Premier Alcide de Gasperi's Christian Democrats within reach of an absolute majority in both houses of the Italian republic's first parliament, with the Communist-dominated Popular Front a poor second.

Parliament will meet May 8 and two days later will elect the president of the republic, who will pick a premier to set up a government. Italians are assuming De Gasperi will remain premier.

If he does, the new government will be the fifth he has headed. With the Christian Democrats so strong in parliament, his new one is expected to be free of the political maneuvering that has harassed De Gasperi in the past.

Last night in speeches to his party's directorate and to thousands of followers cheering in Rome's streets, the premier indicated his future program. He promised reforms—in which "no body must intervene."

In the newspaper interview, Togliatti said the election had not been free. He alleged foreign intervention by the Roman Catholic Church and intimidation of voters by the gov-

ernment and employers. In the election campaign, United States officials said Italy would get no Marshall-plan aid if the Communists won.

Without mentioning the U. S. by name, Togliatti defined the foreign intervention as:

(1) "A threat to starve the country if it voted for the (Popular) Democratic Front, . . . a threat of war."

(2) "The menace to use the atom bomb against certain towns or regions if in them the Popular Front voters had been in the majority."

## Revolt Talked For Nicaragua

BALBOA, C. Z., April 22. (U.S.)—Francisco Ibarra Mayorga, Nicaraguan opposition leader, said here today the successful revolution in Costa Rica will encourage the opponents of Anastasio Somoza to take up arms in Nicaragua.

Somoza is Nicaragua's war minister and strong man. The Nicaraguan government has been accused of sending troops in to help quell the rebellion in Costa Rica, but replied that it only took steps to protect Nicaragua from the trouble in the neighboring country to the south.

Ibarra also commented that he thought a coup might develop against President Tiburcio Carias Andino in Honduras, which borders Nicaragua to the north and west.

## Realtor Lashes Vet Housing Loans

DALLAS, April 22. (U.S.)—Charles B. Shattuck, Los Angeles real estate man, says that when the government began guaranteeing home loans to veterans it "automatically added \$4,000 to the cost of his house."

Shattuck is president of the Appraisers. He spoke to a joint American Institute of Real Estate meeting of Dallas and Fort Worth real estate boards here yesterday.

The government's guarantee, said Shattuck, "had a direct inflationary effect. It meant sellers immediately raised their prices that much."

Government home loan guaran-

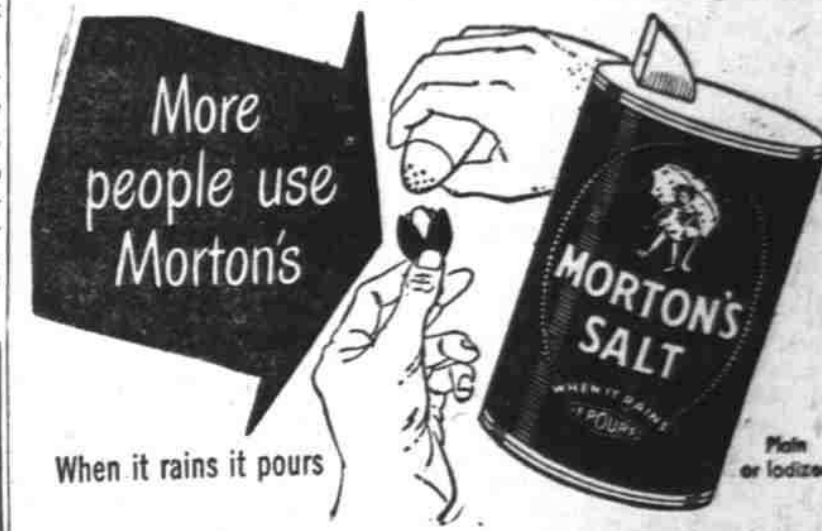

tee programs and federal rent controls are "the greatest single factors contributing to spiraling costs" of new homes Shattuck said.

Shattuck said later in an interview he was referring to GI home loans (which the government guarantees up to \$4,000) and to federal housing administration Title VI loan insurance. It guarantees 90 per cent loans to builders, based on current construction cost.

Mrs. Tucker's HOME MAKING HELPS

It's easier said . . . than unsaid.

The time has come to sound a sweet note or "jam session." So, here's a fanfare for Mrs. W. E. Chaney of Dallas, who wins \$10 with:

For a quickly made and easily handled jelly bag, snap the top of the cloth bag between a pair of embroidery hoops.

Jelly Step No. 2: Snap stout cord into hoops along with jelly bag; suspend bag by cord from a cabinet door handle over container for juice . . . clearer jelly.

With egg prices still in the top roost, wasting leftover yolks is enough to make Plymouth rock . . . but \$10 to Mrs. Wm. W. Reed, Brownsville, Texas, for the answer:

Leftover egg yolks will keep perfectly for several days in your refrigerator if MRS. TUCKER'S SHORTENING, melted and cooled, is poured over them

in a small bowl. When you are ready to use them, the shortening lifts off in one piece leaving yolks intact. If all are not used, repeat the process.

**FUNNY CAKE**  
(or, now you can have your cake and eat pie!)

1st Part 1/4 cup cocoa 1/4 cup sugar 1/4 cup water 1/2 teaspoon vanilla

2nd Part 1/2 cup MRS. TUCKER'S SHORTENING 1 egg 1/2 cup milk 1 1/2 cups cake flour 1 teaspoon baking powder 1/2 teaspoon vanilla 1/2 teaspoon salt 1 unbaked pastry shell

Pour cake batter (2nd part) into unbaked pastry shell. Pour warm cocoa sauce (1st part) over batter. Bake in a moderate oven (350 degrees) 45 minutes or until cake springs back to touch and pastry is nicely browned. Cool and serve in wedges.

(When "Funny Cake" is baked, the sauce is between the cake and the pastry, leaving the cake light in color. It is best served within 24 hours of baking, preferably as soon as thoroughly cooled.)

Hot bread made with MRS. TUCKER'S SHORTENING is practically an order with home-made jelly. And next to your jelly . . . you'll like MEADOLAKE MARGARINE best. MEADOLAKE'S wholesome, melt-in-your-mouth flavor is a pure case of food flattery.

## A Revolutionary New Washday Miracle!

### IT'S *TIDE*

...you've never used anything like it!

**TIDE** is a truly amazing discovery that brings you a wonderful new kind of washday! Born of new knowledge gained in wartime research, Tide does *what's never been done before*—washes clothes cleaner than any soap, yet leaves colors brighter! The first time you try Tide, you'll know it's a brand-new product! Oceans of suds billow up instantly, even in *hardest* water! Those wonder suds *look* different ... they even *feel* different!

#### GUARANTEE

Procter & Gamble guarantees that Tide will do everything claimed for it in this advertisement. If you are not completely satisfied, return the unused portion of your package to dealer, and the purchase price will be refunded.

### ONLY *Tide* DOES ALL FOUR!

#### 1. Washes clothes cleaner!

Yes, cleaner than any soap made! *Everything* comes cleaner with Tide—even greasy overalls and heavily soiled work shirts! Tide not only leaves clothes free from ordinary dirt, but *actually* removes dingy soap film as well! No soap in the world can get your whole wash as clean as Tide!

#### 2. Actually brightens colors!

Tide is not only *safe* for dainty, washable colors, but actually *brightens* soap-dulled, faded-looking colors. Brightness perks up almost like magic as Tide makes dulling soap film disappear! You can *see* the difference!

#### 3. Never "yellows" white things!

Tide can't turn them yellow, no matter how often they're washed or how long they're stored. Tide-washed clothes stay dazzling white, week after week!

#### 4. Gives more suds—

*Prove it in your dishpan!*

Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in *hardest* water! Tide cuts grease like magic ... washes dishes cleaner than any soap! No scum in the water! No cloudy film! That's why dishes and glasses rinse and dry *sparkling clear*—even without wiping!

## TIDE'S IN— DIRT'S OUT!

TIDE WORKS EXTRA MIRACLES IN HARD WATER! OCEANS OF SUDS! NO WATER SOFTENERS NEEDED!

## Source Censors And News Export

Recently the American Society of Newspaper Editors adopted a resolution directed against peacetime censorship of the news. Actually, there is no agency set up or contemplated to pass upon this news item and that, but what the resolution had in mind was a censorship at source, particularly in governmental circles.

Certainly there is always a danger in this direction if this bureau head elects just what shall and what shall not be reported from his agency; or if this cabinet member says that such and such a thing is not for the public's ears; or even the President decides that it is not time for the people to be told about a grave situation. Realistically, editors and others expect that a normal amount of discretion will be exercised by those who are sources of news, just as reporters and editors sometimes exercise discretion themselves. But habitual withholding of news amounts to a dangerous and insidious type of censorship and should be thrown open to scrutiny.

On the other side of the fence, there are signs of consistency. The Associated Press is the greatest newsgathering and distributing agency in the world. Another great service is the United Press. A third major source, available for the broadcast, is the International News Service, the child of William Randolph Hearst. Until now, the AP and UP have not permitted their reports to be used in Voice of America broadcasts, presumably because they felt that the government sponsorship might make some think that the AP and UP were propaganda pieces. At last studies are underway to see if this policy is not wrong. If we are entitled to their services in this country, certainly they are dependable enough to export over the air. It might be a means of letting other peoples, some behind the iron curtain, know that there is such a thing as an honest and objective news report. They would never know from reading after Tass, the official Russian agency.

## Crime Is Crime Wherever Found

Shooting of Walter Reuther, president of the United Automobile Workers union, is deplorable and should call for intense and tense investigation.

This business of violence between and within the ranks of organized labor and business is indefensible. It amounts to taking the law into one's hands. It is no different, except in scope, from mobs and lynch-law.

It is entirely possible, even probable, that Reuther was shot by representatives of the dissident forces within his own organization. It will be recalled that he went through a bitter fight to gain and retain control of the powerful automotive union. Moreover, he has warred consistently and vigorously on extreme leftists and pinks in the movement. Somewhere down the line he had made some bitter enemies who, unable to fight with their minds, take refuge in the moronic resort to violence.

There is no difference in the crime whether it is directed at labor leaders, capitalists, strikers or those who choose not to strike. Such violence is un-American. Beside that it represents a dangerous philosophy that individuals or groups are above or beyond the law. Unchecked, it is a shortcut to anarchy.

J. ROBERT OPPENHEIMER, born April 22, 1904 in New York, directed the Los Alamos, N. M., laboratory which perfected the atomic bomb. Oppenheimer, son of a man who emigrated from Germany, was only 28 when he directed scientists much older than he in the new physics development that rocked the scientific world. After that he acted as advisor to the President, the State Department and other official agencies concerned with atomic energy. ### The Nation Today

## Revise U. N. Is The Cry

By JAMES MARLOW

WASHINGTON, (U.P.)—An Associated Press story said: "The United States delegation gave every evidence of standing toughly against any further concessions to Russia on major controversies of the United Nations. . . . Apparently backed to hilt by President Truman, some of the U. S. delegates let it be known in public and off-the-record conversations that they believe this country has gone far enough in attempting to satisfy the Soviets. . . ."

Sound familiar? Sounds like something that was written today, or yesterday or last week. But it wasn't.

It was written in San Francisco April 25, 1945, the day the Allies opened their first meeting there to create the United Nations to keep peace.

The argument that day was over Russia's demand for three votes in the UN General Assembly, whenever it was formed.

This country has made some concessions to Russia since that day in 1945. But what was written that day by an AP reporter in San Francisco has now become the foreign policy of this country.

The policy is: No more concessions to Russia. It's a policy backed by President Truman and Congress.

Next Sunday, April 25, is the third anniversary of the opening of the San Francisco conference to create UN.

Now, after three years of a very unhappy life, how is UN doing? Poorly, indeed. So poorly that the United States is getting alarmed—just in case.

And in those three years some of this country's most important decisions have been made outside the UN for example:

Sending arms to Greece and Turkey to stop communism and setting up the European Recovery Program (ERP) to stop it.

In the past month two things which happened show pretty plainly UN's dilapidated condition although it still is chugging along. Secretary of Defense Forrestal told Congress:

We must have strong military reserves—trained men—until UN itself is able to keep peace.

How long will we need to keep men trained? For at least 50 years, Forrestal indicated.

When you put Forrestal's words together they add up to one thing: He doesn't expect UN to be able to keep peace for years to come. And in Congress there are a number of suggestions for revising the UN setup to try to make it work better.

In the House seven Republicans and seven Democrats got together on a suggestion. It's this:

Revise UN and if the Russians don't like it? Then Russia can get out.

And 16 senators—Democrats and Republicans—offered their idea which, in effect, is the same as that of the House: revise the UN. Senator Ferguson, Michigan Republican, introduced the 16-man idea in the Senate and he said bluntly how he feels:

If the Russians don't want to go along on a change in UN then the other nations should make a defense pact.

### Affairs Of The World

## Democracy Has Rebirth

Anti-Communist forces appear to have won a smashing victory for freedom in the Italian national elections—a victory likely to have a far-reaching influence on the cold-war between Russia and the democracies.

The returns aren't complete at this writing, but Premier Alcide de Gasperi's Christian Democrats and other right wing parties have sufficient lead so that Vice Premier Saragat has announced "The Communists will not be admitted into Italy's new government." If that proves to be true it will represent a sensational defeat for the numerically greatest Communist Party outside Russia. Saragat, head of the anti-Red Socialists, interpreted the upset thus:

"The Italian election means a rebirth of democracy in Europe. The victory of democratic forces is a great setback to Russia and Communist plans for expansion. Italy is now a part of Western Europe and not of the Balkans."

That's what we like to read, but let's temper our exultation with a bit of caution. Even if final returns bear out the present estimate, we mustn't overlook this:

Until Italy's first full-fledged post-war parliament meets next month and elects a new president there will be danger of a Bolshevik revolt. Communist Leader Tassilotti has promised that the Reds won't use force—but observers aren't making any bets on such assurance. Saragat himself warns that "The election doesn't mean the final defeat of communism in Italy," adding:

"This is more difficult because the Communists cannot be fought by police measures, but only through social measures. The Communist Party will remain strong here as it is today in France."

However, if present returns bear out their promise, Bolshevism has been soundly thrashed in the first big show-down outside Russia's Eastern European zone where the Reds have imposed their will by force.

### "HELLO — JOE MARTIN?"

Washington Merry-Go-Round—Drew Pearson

## Taft Finds Joke In CBS Radio Show

WASHINGTON, (U.P.)—Ohio's usually solemn Senator Robert A. Taft and his wife, Martha, were listening to a radio program, "CBS Was There," dramatizing ancient times in modern language. This particular program was based on the fall of ancient Pompeii, and the dramatization was grim and gruesome.

The people of Pompeii starved as their city was torn to pieces. As the program closed, Senator Taft picked up the phone and called Columbia Broadcasting.

"You can tell the people of Pompeii," he said, "not to worry. The Truman administration will ask for a \$42,000,000 relief program for them next week, I'm sure."

### MERRY-GO-ROUND

President Truman has been calling in Democratic leaders from all over the nation, and giving them pep talks aimed at securing his own renomination. After they leave his office, the visitors are discreetly warned that a vote against Truman at the Philadelphia convention means no jobs for them in the future. . . .

CIO President Phil Murray and Chicago political boss Jack Arvey met secretly in Pittsburgh the other day. Both are opposed to Truman's running again. . . . Chester Bowles, who is opposing President Truman's renomination, will make a nation-wide tour stumping for a liberal Democratic nominee. . . .

John L. Lewis' real strategy in prolonging the mine strike was to cut coal reserves. With stock piles low, Lewis is in a better bargaining position to get wage increases when the operators have to sign a new contract in June.

### NO CHANGE ON LEWIS

After G.O.P. Senator Styles Bridges of New Hampshire settled the coal strike, Attorney General Tom Clark personally wanted to pursue the government's contempt case against John L. Lewis, but decided to phone the White House for instructions.

"There's no reason to change our course in the slightest," was President Truman's immediate reply. "I know you intend to go right ahead with the court proceedings, and I want you to."

When Clark inquired what Truman thought about the Martin-Bridges peace deal with Lewis, the President said: "I'm ignoring it."

He added that he was glad to see the miners starting back to work, but was losing no sleep over Republican attempts to embarrass the administration.

### UNDER THE DOME

Three years after Roosevelt's death members of the Roosevelt Memorial Foundation have finally condescended to invite Steve Earle, one of FDR's closest friends, to join the Roosevelt Foundation and his three flying sons, plan a round-the-world speed flight via Moscow—if the Russians will let them. . . .

Congratulations to Congressman Lyndon Johnson of Texas for pushing President Truman into freezing surplus war plants. If it hadn't been for Johnson, a lot more plants would have been sold just as war production is needed again. . . . SEC commissioners, studying the record of the Henry Kaiser-Cyrus Eaton stock-market fight, may recommend to Congress a law penalizing any investment banker who walks out on a contract in the future.

### HAWAIIAN STATEHOOD

Senator Guy Cordon of Oregon is pressing for a vote on Hawaiian statehood inside the Senate Territories and Insular Affairs Committee. The House has already voted to make Hawaii the 49th state, but the bill hasn't been able to get by Chairman Hugh Butler of the Senate committee.

Butler has been insisting that the committee make a first-hand inspection before it passes on statehood despite the fact that when Butler's committee was invited to Hawaii last summer Cordon was the only one who accepted.

### DOWN PENNSYLVANIA AVE.

G.O.P. Congressman E. H. Hedrick of West Virginia has vigorously protested to the White House against the proposed sale of 225 government owned homes at South Charleston, W. Va. . . . "We are selling war plants for 10 cents on the dollar, but the appraisal value of these housing units has been jacked up so high by government housing officials that vets can't get loans from banks to buy homes," Hedrick told the President.

"Men who fought for their country can't understand why we sell war plants cheap to industry and homes high."

When the President received a pair of gold-plated boots and a bootjack from the El Paso Chamber of Commerce, he surprised the Texas presentation committee by putting the two-piece bootjack together in jig time. . . . "You do that like an old hand," exclaimed Rep. Ken Regan, from the Texas cattle country. . . .

Said California's Representative Harry Sheppard to a group of congressmen in the House restaurant: "Unless we are completely stupid, we must assume that the German scientists Russia commandeered have given her the atomic bomb by this time, and that she has planes as fast or, perhaps, faster than ours to carry the bomb. That means we will either have to start appeasing Russia or build an air force big enough to whip her. The quicker we build an air force like that, the quicker

Stalin and his thugs will become good boys."

### ARGENTINA PROMOTES BLOC

Argentina is continuing to work backstage at Bogota to set up a strong "neutrality front" in case of armed conflict between the U.S.A. and U.S.S.R.

Although Peron's totalitarian, anti-democratic regime is the only government actively involved in this plot, it has all-out support from majority political groups in three other countries, plus some support in half a dozen more.

The formation of a "Hispano-American Bloc" is a long-standing dream of ultra-nationalist reactionaries all over Latin America. However, this idea never went beyond the propaganda stage until Peron took over Argentina. Nothing succeeds like success, and it was a hefty shot in the arm for these fascist-minded isolationists to see one of their own kind reach the top through strictly "legitimate" elections.

Since the end of World War II, Hispano-American stock has had a bull market in Argentina, Uruguay, Paraguay and Bolivia. But it is only during the past six months or so that concrete plans have been mapped out.

The present government of Uruguay is staunchly pro-democratic and notably friendly to the U.S. However, the presidential candidate who got the most votes in the 1946 election, Luis Alberto de Herrera, leader of the jingo-fascist Nationalist Party, has announced his open support of Hispano-Americanism as a "defense against Yankee imperialism." On March 24, he went further by promulgating the official slogan "No matter who wins. . . ." As his party's position in case of war between Russia and the western democracies.

### In Hollywood—Bob Thomas

## Little Miss Moneybags

HOLLYWOOD, (U.P.)—Little Miss Moneybags herself—Sonja Henie—is back on the Hollywood rink, making another picture after a four-year absence.

Sonja, the girl who found a goldmine in the ice, is skating through "The Countess of Monte Cristo," her first film since the hapless "It's a Pleasure" in 1944. It's a pleasure to see her fresh Norwegian smile back before a camera, although it's hard to see why she undertakes the heavy duties of an ice film. She needs the dough like I need another ear, as the current Hollywood saying goes.

"Skating for pictures is much more difficult than other kinds of skating," she admits. "You have to do the routines over and over again until they photograph right. And you have to be careful to watch your marks so you won't skate out of camera range."

Sonja comes close to being a one-woman industry. Her ice show alone reportedly grossed \$2,500,000 in a quarter-year. Added to that is the profitable show at New York's center theater, her rinks in Indianapolis, Chicago, Detroit and Los Angeles and her chunk of Madison Square Garden.

"I have able people to handle those things for me," she smiles modestly. "I just do the skating."

I found Sonja skimming before the cameras at the Sonja Henie ice palace, which she rents to the production for \$10,000. She also shares in the picture's profits. She explained her absence from the screen.

"First the strike interfered with this picture, then we waited to try for a color commitment," she said. "Then it conflicted with my tours." She assured that she will

be making one film a year in the future.

"The Lady From Shanghai" (Col) is another provocative film from the one-man industry, Orson Wells. This time he exploits the talents of his onetime mate, Rita Hayworth, in a long-distance chase. Defects: A confused plot and labored attempts at action. But these are offset by the marvelous things Wells does with a camera.

## Specialized Songwriter

George B. Peeler writes his songs not for the world, the nation, or even Texas—but for Williamson County.

The handsome, grey-haired publisher of the Taylor, Tex., Press is a composer by hobby and in his county his songs are very popular. Outside Williamson County they are little known, for he makes no attempt to have them published. "I haven't the time or the inclination," he says.

Peeler, a thoroughly amiable fellow, is director and member of Taylor's glee club, an organization of eight men who sing at the drop of a request. They appear at churches, luncheons, minstrel shows, schools and even kindergartens. When Peeler writes a new number, the glee club introduces it. Glee club practice is held regularly in the living room of the publisher's big, comfortable home.

Peeler has written two operettas, both of which have been performed in Williamson County. He writes love songs and novelty tunes. In doing one of his songs you sing a few bars and whistle a few bars, and so on. He renders it with gestures. Some of his titles include: "I'm Waiting for Springtime," "Dreaming," and "I Never Knew." All have catchy words and tunes.

One of the favorites in Taylor is "Taylor Town," theme song of the glee club and the town.

Peeler, 57, was born in Austin and played left end on the University of Texas football team. He was a student at the university from 1909 to 1914.

"I was a member of a quartet at the university," the publisher smiles. "The other members were former Rep. Richard Kleberg of Corpus Christi, Dr. Arthur Scott of Temple, and Gov. Beauford Jester. A fellow named John Boles claims now he was a member of that quartet but he didn't have enough voice to make it."

Peeler has blue eyes, weighs 190 pounds, is five feet 10 and one-half inches tall, plays the piano and the guitar. He likes hunting, fishing and people. . . . He knows hundreds of persons by name and is friendly as a basket of puppies. Somehow, Peeler always appears to be bursting with cheerfulness.

## Newsman's Newsman

NEW YORK, (U.P.)—Wes Gallagher lives in what he calls "the world's biggest air-conditioned prison."

The prison is Berlin, Germany. Gallagher believes that today it is the keystone of American prestige in Europe and that the Russians will exert renewed pressure to force the Western Allies out of the German capital before the October elections.

This man Gallagher, who flew here to address the annual membership meeting of the Associated Press, is a real "newspaperman's newspaperman"—the kind the old-timers say died out long ago.

Wherever free men in the world read a free press they have seen his byline—"By Wes Gallagher." In the last eight years it has told the story of war and half-peace in 17 European countries, from the first foxholes to the latest conference table.

Here is the man behind the byline:

He is a big-shouldered, six-foot, stubble-headed, soft-hearted Irishman with the energy of a cub police reporter, and the mind of a diplomat. He peers at people from a pair of eyebrows as bushy as those of John L. Lewis.

He has only two facial expressions: a glowering frown while he's digging out an exclusive news story, a Cheshire cat grin when he puts it on the wire.

Eisenhower, Stimson and "Tooney" Spaatz had a personal liking for Gallagher and respected his rugged judgment. When military commanders began asking his advice on whether a "hot" story was too ticklish to release, he said bluntly:

"Tell it. You don't own the news—whether it's good or bad. If you try to suppress it, it'll blow up in your face."

Covering world crises has become routine with Gallagher, but he believes the present Berlin situation may flare into war.

"The tension has died down a little," he said. "Only 50 of the 2,500 American dependents have asked to go home."

"The trouble is that the Russian leaders have told their people so often they won the war single-handed that they've come to believe in their own propaganda."

"Allied diplomats there don't believe the Russians want war now, but they're afraid the Russians don't know how to stop short of war."

"The Russians are still determined to get us out of Berlin. They probably will make another attempt after they get the harvest in. They want to have a free hand by the October elections, however, to be able to deal with the two million Berliners who voted against communism last time."

Just before Wes took off on his return flight to Berlin I asked him if covering eight years of world struggle had taught him anything. "Only that nothing is more important than human freedom," he said.

## Why Barriers?

Last Sunday evening at my church a young man who had never been called to preach entered the pulpit for the first time to give a testimony of his experience. The words came from his lips only after a struggle. His fists clenched and unclenched as he fought to speak.

He is just a young fellow—only 17 years of age and he has had little experience in going before a large group and expressing his thoughts to them. Yet as he came to take his seat I could see a quiet determination in his eyes. He wasn't defeated. He had a purpose in life and he was going to fulfill it.

His actions bring to my mind many others who must have felt as he did Sunday night when they were starting out in their careers.

Who can forget the time Lou Gehrig, later to join the baseball immortals, made his debut with the New York Yankees by stepping on a row of seats and falling flat on his face the first time he attempted to approach home plate. The howls of laughter that came from the crowd didn't faze the youth who was to become famous as "the iron man of baseball" for playing more than 2000 consecutive games with the mighty Yankees. He took his place in the renown "murderers row," the most feared batting punch in the history of baseball.

Or what about Thomas Edison—how he must have felt after having his ears boxed and being discharged from his job after having accidentally set fire to the train on which he was working. Never-the-less he went on to issue in a new era of living with his discovery of the electric light and many other electronic wonders.

Recognize the name of Bob Considine, the well-known sports writer who has just finished a great biography of Babe Ruth? He was once fired from a sports job because, as he puts it "I was incompetent."

Many times, I think, barriers are placed before us, not to spell our defeat, but to provide a stepping stone that will lead to higher paths than we could possible have attained otherwise. They form determination within us that inspires achievement.

Look to Gehrig, Edison and Considine and see if I'm not right—ADRIAN VAUGHAN

## Seasonal Crime

NEW YORK — Faces in Places: Kay Thompson's opening at the new supper club, Le Directoire, was the fanciest first night of the year, night club or musical comedy. . . . Kay delighted the dressiest collection of saloon society characters since "Mister Roberts" opened.

Most of the guys dressed in dinner jackets, and what the gals did to the New Look, evening gown division, was a Hattie Carnegie caution. . . . Everyone from Gertie Lawrence and Marlene Dietrich to Bess Farley was there, sipping champagne, happy indeed to be crammed into the smart premises.

Not being an expert on period stuff, Mark Hanna, the ranking boulevardier and apparent heir to Frank Crowninshield's carnation, gave me the historical run-down. . . . The period bears the name of the government which had a few years' hand in running things over in France after the French Revolution, and Mark said he thought that choosing it as a basis for a night club decor was cutting things pretty fine. . . . But the job was done to elegant perfection by young Bill Pahlman, one of the junior geniuses who do miracles with piece goods and plastics, and the result was dignified without being stuffy and colorful without the riotously atrocious modernism of the place when it was the Uptown section of Barney Josephson's various Cafe Society saloons.

The hit of the evening, next to the Thompson-Williams didoes, was the stage on which they cut their brilliant capers. . . . Practically every night club these days presents its floor show on a stage set permanently above the level of the tables surrounding it. . . . This is a gaudy, rather circusy touch which the new owners of the joint, Herman Jacoby and Max Gordon, tried their best to avoid. . . . With Bill Pahlman's spirited blueprinting they accomplished it.

The floor, instead of sticking up like a sore mountain in the center of the place, is stashed away against a wall when not needed. . . . It's a huge arrangement of counterweights, pulleys, roller bearings, tracks and crossed fingers. . . . The floor is massive, but with the counterweight system, it is simply stood on end. . . . When the show is about to start, the bottom end starts to move outward, and the top comes down, sliding along its tracks quietly on roller bearings. . . . It's real big-time technical show business, impressive scenically and practical in that its vertical bulkiness takes up but a few feet against the back wall, which then is covered by a beautiful full-stage curtain. . . . The orchestra situation was solved by putting Ted Straeter's band on one side of the room and the rumba outfit at the other corner, instead of the traditional frontcenter style, leaving that much more room for dancers. . . . With all these gadgets, and improvements in the terracing of the tables, there is only one table in the room from which the show can't be seen too well.

"And don't ask me which one it is," said Bill Pahlman.

### Breaking The News

OMAHA, Neb. (U.P.)—A grade school music teacher, wearing a new engagement ring, called her young chorus to attention. She explained the next song and raised her baton. Unheeded, the group loudly sang: "I'll Dance at Your Wedding."

## Chocolate Sauce

2 squares (2 ounces) unsweetened chocolate.  
2 cups milk  
2-3 cups sugar  
2 1/2 tablespoons all-purpose flour  
1/2 teaspoon salt  
2 tablespoons butter or fortified margarine  
1 teaspoon vanilla  
Heat chocolate and milk in top part of double boiler over hot water. When chocolate is melted beat with rotary beater until well blended. Combine sugar, flour and salt, mixing well; add gradually to chocolate mixture, stirring as you do so. Cook until thickened, stirring constantly. Cook 5 minutes longer, stirring several times. Remove from heat and stir in butter and vanilla. Serve hot on cottage pudding. Makes 2 1/2 cups sauce.

## Orange Salad Bowl

1 quart torn romaine or lettuce leaves, loosely packed  
1 cup thin strips green pepper  
1 cup sliced celery (including celery tops if desired)  
2 large oranges, cut in sections and halved (about 1 cup)  
1-4 cup thin strips processed yellow cheese  
1-4 cup broken walnut meats  
1-4 cup (about) French dressing  
Freshly-ground pepper  
4 slices crisply cooked and drained bacon, crumbled  
Put romaine or lettuce, green pepper, celery, orange, cheese and walnuts in a large salad bowl. Add French dressing and freshly-ground pepper and toss with large spoon and fork to coat salad ingredients well with dressing. Sprinkle crumbled crisp bacon over top and serve. 4 to 6 servings.

## Vegetable Beef Soup Makes One Dish Meal

It's a thrifty threesome—this vegetable-beef soup that's sturdy enough for a main dish, our crisp fruit salad, and chocolate waffles for dessert.

And it's delicious eating. What could enchant the children more than chocolate waffles served with syrup!

Serving-size pieces of browned meat make the soup wonderfully hearty. And of course it's bright with vegetables such as green cabbage and tomatoes.

Those economy cuts of beef will go easy on your meat bill. You can use beef shank or knuckle soup bone in the soup.

### VEGETABLE-BEEF SOUP

2 lbs. beef shank  
2 tablespoons drippings  
2 quarts cold water  
Salt, pepper  
1-4 cup barley  
2 medium onions, sliced  
4 celery outside stalks, cut up  
2 medium potatoes, sliced  
1 cup cabbage, shredded  
2 cups canned tomatoes  
Cut meat from bone in serving size pieces and brown in drippings. Cover meat and bone with cold salted water and simmer until tender. Remove meat from broth. Cool and skim off fat. Bring broth to a boil, add barley, and when it boils again add all vegetables except tomatoes. Cook until vegetables are tender, add tomatoes and

## Calavo Crispy Salad

2 calavo pears  
Lemon juice  
Salt  
1 1/2 cups finely shredded cabbage  
1 cup flaked cooked or canned fish or seafood  
French dressing  
Mayonnaise, if desired  
Salad greens  
Cut each calavo pear into halves lengthwise and remove seeds. Do not peel. Sprinkle cut portions of fruit with lemon juice and salt. Add fish or seafood to cabbage and moisten with French dressing to taste. Mix in a tablespoon or two of mayonnaise, if desired. Fill half-shell pears with mixture and serve on salad greens.

### Crispot Apple Pudding

1-3 cup sifted all-purpose flour  
1 1/4 teaspoons baking powder  
1 teaspoon salt  
1 egg  
3/4 cup sugar  
1 teaspoon vanilla  
1 cup (1 medium-size) diced apple  
1/2 cup broken pecan meats  
Sift together flour, baking powder and salt. Beat egg until pale colored and very thick; gradually add sugar and vanilla, continuing to beat well. Add dry ingredients, diced apple and pecan meats; mix well. Turn into well-greased 10-inch pie plate, spread evenly and bake in a slow (325 F.) oven for 45 minutes. Serve warm with plain or whipped cream. 5 to 6 servings.

Mercury is the only metal which is liquid at ordinary temperatures.

**TEXANS IN WASHINGTON**

**Solons Shy Away From Conventions**

WASHINGTON, April 20. (U.P.)—Texas congressmen, unlike those in many states, don't concern themselves greatly with state and national political conventions.

Whether any will be on hand at Brownwood May 25 for the state Democratic convention or in Philadelphia July 12 for the national conclave is not definitely known.

Senator Tom Connally says he may attend, but isn't making any commitment. House Minority leader Sam Rayburn may go, but the press of legislative matters may keep him and all the rest of the Texans in Washington.

By and large, the Lone Star state congressmen leave the conventions pretty much alone and are glad that they don't necessarily have to get deeply involved. They say that in many states, such as Louisiana, the entire delegation gets tied up in state fights and members are sure to make enemies over issues they don't set.

Around the capital:  
A portrait of slinging Sammy Baugh, the West Texan who has been with the Washington Redskins grid team for a decade, was presented to the Touchdown Club of Washington by the Texas State Society.

Police Chief Rufus Taylor of Cuero sent a handsome Texas Tie-clasp to Congressman John E. Lyle of Corpus Christi. It's a sterling silver map of the state, on which is superimposed a holster in which is a removable tiny gold-plated revolver.

The police chief wrote Lyle that if things get too hot in Congress, "pull the gun out and shoot the works for Texas."

The U. S. Aircraft industry grew from an annual production of \$280 million in 1938 to \$20 billion in 1943.

**Story Of Battle Of San Jacinto Related To Club**

How Texas independence was sealed 112 years ago Wednesday was related to W. C. Blankenship to the Lions club.

Having retreated slowly and consistently from the massacres at the Alamo and Goliad, while the remnants of the government went before to cross the Brazos, Sam Houston backed up to San Jacinto, the speaker recalled.

Amid severe criticism for constant retreats, he had his men cross Buffalo Bayou and cut Venus bridge behind them to prevent Mexican reinforcements from arriving. Then he sat down, apparently to wait and wait. But at 3 p. m. on April 21, the signal to attack was given. In 20 minutes 600 Mexicans, approximately a third of the force, had been killed and the entire group routed. Gen. Santa Anna himself was captured and the back of the attack on colonists broken.

"Thus was the great empire of Texas secured," said Blankenship. To maintain its security and progress, he felt, it is necessary to produce trained leaders and an educated population to realize maximum utilization of the vast resources.

Progress of the campaign in behalf of Schley Riley as a candidate for district Lions governor was reported by Jack Smith, Bill Dawes, president, announced that Rex Van, producer of the Lions minstrel set for the last week in May, would be here next week.

CHICAGO, April 22. (U.P.)—If kids could vote, William C. Reavis, a University of Chicago education professor, would be a serious contender for president.

Reavis yesterday told 73 newly-assigned grade school principals to abolish home work in their schools.

At a "school" for the new principals, Reavis said:  
"Let the kids leave their bookbags home and their textbooks at school. The children are too tired to accomplish any real results with home work."
