58TH YEAR—No. 29 MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, SEPTEMBER 24, 1959 PRICE SEVEN CENTS

Flomot Leading in '59 Cotton Ginning

CRASH VICTIM Cecil Irwin who lost his life September 14 when his car turned over at a grade crossing in south Amarillo. Native of Matador, he was the son Mr. and Mrs. John Irwin.

TWO GINS at Flomot are way out ahead in ginning as harvest of Motley County's 1959 cotton crop gets underway. At 3:15 Monday afternoon the two plants had processed a total of 259 bales, according to a private report made to the Tribune by Rev. Ed Spivey, pastor of the First Baptist Church at Flomot.

The West Texas Gin at Matador had ginned 29 bales late yesterday, according to Ernest Elliot, manager. At Roaring Springs the Red Ball Gin had a total of 50 bales late Wednesday, H. C. Smith, manager said last night.

Hot, dry weather is causing cotton to open rapidly, especially the earlier plantings, farmers declare. Some young cotton, however, in parts of the county which received beneficial rains, is continuing to develop, with little opening.

Spanish American pickers are arriving in sufficient numbers to care for the cotton as it matures. A businessman said last night he had not heard of a single request for pickers in this immediate area. He said several farmers had declared they would start picking next week and that they had been able to find pickers without any trouble.

Observers believe the county will produce an average to good crop, although probably somewhat less than last year, which was classed as exceptional.

The lateness of frost will have a decided effect on the amount of cotton the county produces, since heavy rains during the planting season caused much of the crop to be later than usual.

Motley County's 1959 crop has been estimated at 11,000 bales by the Plains Cotton Growers Association, several weeks ago.

The county now has only four public gins due to the large acreage reductions during recent years. Flomot community has two gins. Spears Gin operated by Mr. and Mrs. Tom Spears and the Flomot Gin Co. plant with Joe Degan, Manager Matador and Roaring Springs now have one gin each.

Flomot Lions Make Change in Hours

A step up of one hour in meeting time was made last week by the Flomot Lions Club. The club meets the first and third Thursday evenings.

New meeting hour for directors is 6 o'clock (instead of 7) and the new meeting time for the club is 7 p. m. (instead of 8). The new time, which goes into effect the first of October, will remain until the first of April.

Top feature of last week's program was Tom Tilson's magic show, which so impressed the club that he was employed to give a performance to the Flomot school the following day, as a treat for the Lions.

A program is being arranged for the club's Ladies Night, November 5th, it was announced. Dist. Gov. Zimmerman and Cotton John are among the headliners who are expected to attend.

Club to Sponsor Community Social

A community social at Whiteflat, planned for Friday evening, Oct. 2, will be sponsored by the Whiteflat Home Demonstration club. This will be an open date for football, which will enable more people to attend.

Everyone in the community is urged to attend and bring a covered dish for supper at 7:00 o'clock.

Recreation following the supper will include showing of colored slides of Alaska and other places of interest, by Mr. and Mrs. Joe Bloodworth.

There will be no charge for the social and the public is cordially invited.

Funeral Services Are Held for Youth

Funeral services for Walter Lynn Smith, 9-year-old son of Mr. and Mrs. J. R. (Mutt) Smith were held at 2:30 p. m. Wednesday, at the First Baptist Church. Rev. Gene Hawkins, pastor, officiated.

The boy died Monday, Sept. 21, in the Texas State Hospital in Austin. He was 9 years, 10 months and one day old. He was born at Matador, November 20, 1949.

Eudy-Seale Funeral Home was in charge of arrangements, and burial was in East Mound Cemetery, Matador. Pallbearers were, Alton Rose, D. L. Dameron, Homer Jenkins, and Pat Sheridan.

Besides her parents, survivors include three brothers, Ronnie Don, and Johnny, all of the home; six sisters, Mrs. W. A. Shields of Paducah, and Darrell, Landa, Joy Gale, Elaine and Tresa, all of the home; one half-brother, Jackie Smith of Matador, and one half-sister, Mrs. Dale Jackson of Amarillo, and two grandparents, Mrs. J. C. Johnson of Paducah and Mrs. W. B. Smith, Matador.

The boy had been ill for several days, and the parents and other members of the family were with him at the time of his death.

Matador Florists Get FTD Charter

Matador Floral Company is now in a position to fill telegraph orders for flowers quicker and more accurately than formerly, through affiliation with Florists' Telegraph Delivery.

Mr. and Mrs. Bill Seale, local florists, were in Mineral Wells during the week end attending a convention of Texas New-Mexico Florist Association, and received their charter, designating them as members of the international group.

The Association, whose winged mercury trade-mark guarantees absolute customer satisfaction, now has approximately 11,000 members in the United States and Canada who handle flowers sent by wire. Through Interflora, Matador Floral Co. can have flowers and plants delivered to any point in the civilized world.

"Although we have already been sending flowers by wire, our membership in the FTD will make it possible to fill orders more promptly and accurately," Mr. Seale explained.

Mr. Seale's mother, Mrs. W. B. Seale of Vernon spent the week end here with her granddaughter, Marsha, while the latter's parents were in Mineral Wells. She left Wednesday to visit in Paducah before returning to her home.

CORRECTION

The name of Keith Patton was inadvertently omitted from the list of members attending the Garden Club program Monday at the home of Mrs. W. N. Pipkin.

Future Homemakers Of Area Meet Here

First official meeting of the current year of the Executive Council of Area 1 Future Homemakers of America, was held here Saturday, under the direction of Miss Esther Sorensen, Area Supervisor.

Miss Jan Barton, Matador, Area 1 president, presided at the meeting held for the purpose of planning programs for area meetings and to review budget for the year, vote on budget, plan for the Rambler F.H.A. official publication, and for the presentation of Area uniform.

The group agreed to continue with the anti-litter campaign, and to work for more and better news releases to area and state papers.

Goals stressed included participation in Civil Defense through highway and home safety program, and promotion of family unity; to pay dues by Nov. 1, and to increase F.H.A. membership in Area 1. State and national goals were also stressed.

Matador F.H.A. members who served refreshments during the morning session were Cheri Barton, Judy Hobbs and Vella Ree Edwards, and serving during the afternoon were Gwin (Continued on back page)

Rattler Killed Near Front Door

Summer is not over nor is the rattlesnake season closed, J. C. Cross who lives on Eubank Street just south of U. S. Highway 70, and slightly more than one block from the post office, late Thursday killed a large rattler on the sidewalk in front of his door.

The city serpent had nine rattlers head off with a hand ax. Other reports of rattlers being killed here in Matador have been received during recent weeks but this is the largest reported to the Tribune. A number of large rattlers were killed in the same vicinity last year.

WEEK END VISITORS

Mr. and Mrs. C. L. Kneir of Bronte, left Monday to return to their home after a week end visit here with their daughter and family, Mr. and Mrs. Frank Pohl and Carolyn Sunday. Mrs. Pohl accompanied her mother to their former home, South Plains, where they visited friends. Returning to Floydada, they visited friends and attended church services there.

Recent visitors in the home of Mr. and Mrs. Fred Simpson were their granddaughter and her small son, Mrs. Paul McMahon and Paul Douglas, of Mor-

TRAIL DUST

By DOUGLAS MEADOR

It was easy a third of a century ago to find a sanctuary of solitude on the Pacific coast in southern California. I liked in particular a place where the sea roared against rocky crags, a ceaseless force in turmoil. The lights were the stars and an occasional distant ship and there were no other sounds save the surf. My trips were frequent but memorable as refuge from the complexities of life and the responsibilities had accepted with the estate manhood. The peace it gave has been enduring, although I remember wondering how much of the sea is tears.

Habit is a saddle which can, when properly adjusted, make riding a duty more comfortable.

Melancholy winds of autumn are pacing the floors of the seas and their whispering is a sense of futility, as the terror wounded faith. It is the same winds that will spin brown leaves to earth and consort with water ere the season's portals are left open.

Design of the highway cloverleaf is not new. Most of us have seen ourselves returning in the direction whence we came without conflicting with the wishes of others who knew where they were going.

It is easy to understand the traditional custom of womanhood to arrive late at a public function. Only the brave go early without knowing for certain whether or not hats will be worn.

Compassion is an admirable trait until we administer it to ourselves.

Bachelorhood is an accident of which at least one woman is responsible.

Diagnosis is Given Of Child's Illness

LIBERAL, Kan.—A diagnosis of "acute febrile (fever) reaction with inability of sweat mechanism to compensate," was released as the cause of the death of 6-year-old Terry Wayne Smallwood who died August 21 in Northwest Texas hospital in Amarillo, after he had been struck by a mysterious disease August 19.

His parents are Mr. and Mrs. Clyde Smallwood, Liberal. The family physician and specialists awaited complete laboratory report before announcing cause of death.

The boy's father said his son had a skin condition which prevented the child from perspiring and that the skin condition contributed to the death. The high fever produced by convulsions put the boy in a comatose manner which was not relieved in the normal manner by sweating.

The father emphasized for the benefit of many parents that he made inquiries that his son did not have a disease but rather the skin condition which brought about his death.

Mr. and Mrs. Clyde Gilbert visited at Grapevine during the week end with their daughter and family. Mr. and Mrs. Bate Middlebrook. They were accompanied by Mr. Gilbert's brother, Mrs. R. L. Jameson Sr., who visited her brother and family in Fort Worth. Mrs. Gilbert's sister, Mrs. Pearl Christman of Kingsville, met them at Grapevine, and accompanied them home for a visit.

Matadors Lose To Class A Opponents

THE SPECTER OF DEFEAT came to the Matadors' camp Friday night under the lights on Burleson Field for the second game in succession, but the game was far less grim than the 22-6 score reads. The Matadors gave a splendid account of themselves against the Class A Idalou Wildcats, holding the score to 6-6 at the half.

Wilbanks broke loose for a 52-yard scamper to the Matador 32. The Matadors held and forced the visitors to punt. A roughing the kicker penalty, however, gave the Wildcats the ball on the Matador 17. Fullback Robert Layne scored but the play was nullified. Moments later Dale Dixon recovered an Idalou miscue. Again the Matadors were forced to punt and Swann returned it to the Matador 22 to start the Wildcats first TD drive. Wilbanks carried to the six and the quarter ended. Two plays later the ball was on the one.

Quarterback Tony Rodriguez tried to sneak over but was halted on the half-yard line, with Matadors gaining possession of the ball. They fumbled on the first play and Center DeWayne DeBusk recovered in the end zone for an Idalou touchdown. The extra points try failed and the visitors led 6-0.

Following the kickoff the Matadors were forced to punt. Idalou took over on their 19. They moved to the 27 in three plays and elected to try for the first down. The Matador line stopped them and Matador took over on the Idalou 28. Quarterback Dink Wilson carried to the 26 on the first play. Right halfback Ros Bearden then took a handoff, moved over right tackle and went 26 yards to score. (Continued on back page)

Here is the game as seen through the sharp, impartial and analytical eyes of Sports Reporter Johnny Ezzell:

The Wildcats scored early in the second period, but the Matadors came back to tie it up at the half 6-6. Idalou scored once in each of the final quarters to post their winning margin.

The Wildcats rolled up eight first downs in the game to three for Matador. They gained 258 yards (154 on the ground and 104 in the air) as compared to the Matadors' total of 105 yards (89 on the ground and 16 in the air).

Dale Dixon, Clem Edwards, Gale Stafford and Guy Campbell were outstanding in the Matadors' defense.

Opening quarter was a mixture of breaks. Idalou had two touchdowns called back and lost the ball on fumbles twice. The Matadors were held by the Wildcat defense, being unable to gain a first down.

The breaks came early. Idalou kicked off, held the Matadors and forced them to punt. Halfback Billy Pat Swann took the punt on his own 31-yard line and returned it for a touchdown but the play was nullified because of a clipping penalty. Idalou gained a first down before losing the ball on a fumble.

The Matadors punted and Idalou took over. Halfback Joe

WEEKLY THOUGHT
An old Chinese proverb: If you would have your lamp burn, you must pour oil into it.

LIBRARY LAPSE
by Linda Thompson

"Happy is he to whom God has given with sparing hand as much as is enough." —Horace
These words by Horace are the theme of Agnes Turnbull's *The Gown of Glory*. The author turns from the problems of a fashionable city parish to drama, humor, and adventure in the life of the minister of a village church fifty years ago.

This is the story of a wonderful family, short on cash but rich in everything else. It is the story of a full and happy marriage and of what happens when a very wealthy young man falls in love with the minister's daughter.
You will live in this novel. If you have ever seen a country come slowly awake on a summer Sabbath, if you begin to think life itself was richer in the days before the automobile and the rocket, you will find in these pages a warm and lasting pleasure, and a deep sense of peace.
This book has 403 pages and can be found in the MHS Library.

SENIOR NEWS
by Daphene Lynn

Elections of Student Council officers has gotten underway and speeches for the position of president were made in study hall last Friday.
Seniors running for president are Ed D. Smith, Jan Barton, and Thomas Edwards. Campaign managers for the candidates are Daphene Lynn, Harry Hamilton, Sue Cross, Carl Thompson, and Carolyn Pohl.
Those running for senior representatives were Bundy Campbell and Daphene Lynn. They also made their speeches last Friday.
Seniors were all smiles last Thursday. Was it because they had their pictures made or because they got out of an hour's school work?

MHS says, congratulations to Mr. and Mrs. Reece Timmons of Northfield at the birth of a son, Brian Reece.
Students visiting in the home of Mr. and Mrs. Timmons Sunday, September 13, included Kay Rattan, Carol Campbell, Donna Williams, Anita Martin, Cheri Barton, Melanie Brown, and Sue Cross.

Thursday morning Carol Campbell came into study hall with her arm all bandaged up. Carol had tried to get fresh air during the night by raising the window, and had stuck her arm through the glass. She was rushed to the hospital at midnight and received several stitches in her arm. Carol says, "Be careful how you raise windows from now on."

Get well wishes go to Butch Renfro who received knee surgery in Lubbock Monday. Butch hurt his knee playing football at the first of the season.

Last week the story, "The Impression MHS Made on Me," was written by Frances Cooper. Apologies go to her for leaving her name off of the story.

The basketball girls were entertained with a watermelon supper held in the home of Kay Rattan last Thursday night. The watermelons were furnished by Bert Ezzell.

See ya next week!

Installation Held For FHA Officers

The eighteen girls who will serve as FHA officers for 1959-60, were installed Wednesday night, September 16, in the high school auditorium.

Mrs. A. L. Fair, sponsor, was the installing officer. Each girl gave her duties and the group

repeated the FHA pledge.

Decorations consisted of nine candles, eight white ones with one red in the center, arranged in a semi-circle on the table. Each candle had the organization's flower, a red rose attached at the base and each was lighted from the red candle. The eight white candles stood for the eight purposes, and the red candle for the flame of home economics.

NOW... '60 CHEVROLET TRUCKS

WITH REVOLUTIONARY TORSION-SPRING SUSPENSION THAT GIVES ASTONISHING NEW SHOCKPROOF ACTION !!!!!

Chevy's done the next best thing to paving every road in America! First they threw out the front axle and put in torsion-spring independent suspension. Then they built wide-base coil rear springs into most light-duty models, variable-rate leaf springs into heavies. That made it—a ride that completely eliminates I-beam shimmy and wheel fight, lets you move faster over any ground to get more work done in a day.

Brawnier bulldozer build!
They're tougher than any Chevy trucks ever made. Frames are stronger, cabs 67% more rigid. Front wheels and tires are precision-balanced. And that new suspension cushions jars and road shock that used to spell slow death for the truck's body and sheet metal.

More comfortable cabs!
Easier to hop in and out of, too. Many models are a whole 7 inches lower outside. Yet there's more head room inside, plus more width for shoulders and hips. The windshield's bigger, with a wider, safer sweep of vision. Suspended pedals give you more foot room.

Big in the power department!
With the industry's most advanced gas-saving 6's. With high-torque Workmaster V8 performance in heavyweights. With new 6-cylinder or V8 power available in new Low Cab Forward models.

More models than ever!
New 4-wheel-drive models and tandems and high-styled Suburban Carryalls. It's the handsomest, hardest working Chevy fleet ever to report for duty. See your dealer for the whole story and, by all means, take a ride. It's something!

Anything less is an old-fashioned truck!

Matador Garden Club Reassembles for Activities Following Summer Recess

A patio breakfast at the home of Mrs. W. N. Pipkin, Monday, September 21, brought the Matador Garden Club into re-assembly following a summer recess. Assisting Mrs. Pipkin were Mrs. Bob Martin and Mrs. W. F. Jacobs.

Officers for the new club year presided and brought reports in a business session preceding the breakfast.

With Mrs. Forrest Campbell, president, in charge Mrs. F. S. Bourland gave a resume of the programs for the coming year, and Mrs. W. W. Clements, Junior Club chairman, reported on the new club for girls which will be sponsored by the Garden Club.

Objects and projects for the year were outlined by Mrs. Campbell in her "President's Message," and the "garden spot of the month" recognition went to Mrs. C. T. Jinks for her Heavenly Blue morning-glory vines.

With the tree-shaded back lawn patio providing a perfect setting, the serving table was colorfully laid with a designed cloth, and centered with a vertical arrangement of Spartan floribunda roses and fruit, in a rustic container of amass rock. A fruit plate, sausage popovers and doughnuts were served with coffee.

An unusual hanging wall decoration given as a door prize was received by a guest, Mrs. Gerald Fugit of Odessa, who attended with her mother, Mrs. Frank Montgomery. Also a guest was Mrs. Douglas Meador, and members present, other than those mentioned, included Mesdames Curtis Graham, C. P. Waybourn, F. B. Henderson, Ward Rattan, Bob Martin, J. L. Woodruff, Freeman Thacker, A. C. Traweck Jr., M. S. Thacker, U. L. Wilie, Joe Bloodworth, Clotelle Horn, and Bill McCaghen.

Women Playing in Handicap Matches

Mrs. Glenn Woodruff won the golf ball Thursday for low putts on nine holes of golf in regular play by the Women's Golf Association of the Airport Country Club.

A business meeting was held at the Roaring Springs Cafe following the game.

The women are entering a handicap tournament which starts today. First matches will be played Thursday, Friday and Saturday; second matches are scheduled Sunday and Monday and third matches will be held next Thursday.

Winner will be presented a trophy, it was announced.

Membership in the Women's Golf Association is open to all women in this area who are interested in playing.

ATTENDING TECH

Among students returning to Texas Tech, Lubbock, last week were James Taylor, Jimmy Watson and Johnny Shanks. The boys, together with Royce Kirby, who is employed in Lubbock, are sharing living expenses in a house which they have rented.

IN TRAWECK HOSPITAL

Mrs. Sam Chambliss has been a patient in Traweck Hospital this week, after undergoing surgery Friday in Quanan Memorial Hospital. Mr. Chambliss brought his wife here Saturday, that she might be near home while recuperating from the operation. Their daughter, Linda who is employed in Plainview, visited here Sunday, and was accompanied by Miss Emma Lou Gravell.

ATTEND FUNERAL

Mr. and Mrs. Carl Bird attended funeral services in Greenville, Tuesday of last week for H. R. Arnold, father of Mrs. Gus Bird. Enroute home they visited their grandson, James, who is attending Tarleton State College at Stephenville.

PREDICTA STUDY CLUB STARTS YEAR

Current year for the Roaring Springs Predicta Study Club opened Thursday night, Sept. 17, in a meeting held in the home of the president, Mrs. J. M. Thacker, who presided.

Although the year books were not ready, Mrs. Thacker outlined the programs for the year.

The Project Committee was asked to bring suggestions before the club at the next meeting. A short program was given by Mrs. Tom Yeates, and singing was led by Mrs. Carl Tardy. Each club member then introduced her guest.

For a tea following the program, the dining table was laid with a linen cloth, centered with an arrangement of pink carnations and pink candles in crystal holders.

Members present were Mesdames Lem Miller, J. T. Swain Jr., C. L. Marshall, H. C. Smith, J. N. Fletcher, R. C. Clem, M. S. Thacker, Carl Tardy, Tom Yeates, Ed James, Billy Hand, and Francis Gunter; Miss Freda Keahey and Miss Lula Swain.

Their guests included Mesdames Grady Lane, Charles Owens, C. W. Fincher, John Harland, S. J. Braselton, Deat. McInroe and Billy Peacock.

Mr. and Mrs. Glen Brotherton visited in Ponca City, Okla., as guests of friends during the week end.

Promotion Held in Night Sunday School For First Baptist Church Departments

Promotion Day activities for Sunday School departments were featured together with emphasis on the church revival services, Wednesday night at the First Baptist Church.

All groups met in their departments at 7:30, after which everyone assembled in the church auditorium at 7:50 for the "Promotion Day" program.

The program included special presentations by the Nursery department, under direction of Mrs. Bennie Keltz, superintendent; songs and Bible verses by the Beginners department, under direction of Mrs. Gerald Waybourn, supt.; songs and Bible questions by the Primary department led by Mrs. Forrest Campbell, supt.

The Juniors presented a variety of special features, including Bible questions and answers and Scripture memory verses, under the direction of Mrs. Edgar Lee, supt.; the Intermediate department, directed by Mrs. Gene Hawkins, supt.; presented a skit, and the Young People's department, directed by Mrs. J. E. Edwards presented a selection of organ-piano numbers.

Certificates of promotion were presented to those leaving departments by their superintendents.

Bibles were presented to a large number who were promoted from the Primary to the Junior department.

Good attendance helped to make the program successful. Everyone was reminded to pray for and attend the revival which begins at the church next Sunday, September 27.

New Officers Installed

New officers who will serve the Sunday School and Church

for the coming year, were installed. These included Bill McCaghen as general Sunday School superintendent with D. P. Keith as associate supt.; Elbert Reeves, adult supt., and adult teachers as follows: Mrs. Ben Keltz, T.E.L. class, Mrs. R. E. Future of Cattle Industry Uncertain as Supply Continues to Show Big Increase

By John McHaney
Extension Economist

On January 1, 1959 there were 96,851,000 head of cattle in the United States, which is a new record and 3 1/2 million more than on January 1, 1958. Most of this increase in the cattle inventory was in young beef stock as heifers rose 750,000 head, steer numbers rose 750,000 and calf numbers were 1,300,000 higher. The beef cow herd also increased 1.3 million. However, milk cows were off 600,000 head, and the increase in total cows was only 700,000. Cattle slaughter will hold up well in 1959 and it can increase

a little above that of 1958, but it will not be a great increase. Many of the heifer and heifer calves will be retained as breeding stock, although many young cattle will go to slaughter this year or next, after a period of feeding. On January 1 this year there were 11% more cattle on feed than a year ago.

A big expansion of beef production for the market in 1959 or 1960 is not expected because cow numbers are not large. They are still 2 million below 1955, and this is favorable from a price standpoint, because the calf crop this year will not be large enough to bring about a

crease. It could come in the early 1959.

Chances are that prices of cattle will be lower in 1960 and 1961 as cow numbers increase. The collapse in cattle prices usually comes later on in the cattle cycle when breeding herds are built up and calf crops increase. It could come in the early 1960's.

THE OUTLOOK for fairly stable slaughter and prices in 1959 is based upon favorable range and pasture conditions. Prices during the remainder of 1959 should remain good. However, a widespread drought could bring about larger marketings and lower prices. Cattle producers should watch cow numbers closely in 1959.

Slaughter of cows under federal inspection in the first half of 1958 was 16% below a year before, but in the second half it was 32% smaller. Cow slaughter for the period Jan-Mar. 1959 was 24% below last year and the smallest for the period since 1952.

If this rate of withholding continues, the expansion would be greater and prices could break much sooner than expected.

The expansion of cattle numbers is moving into full swing. A build up of 4 to 5 million head is expected during 1959. A build up of this size would approach the rate of expansion which occurred in 1951 and 1952, during the last cattle cycle and remember prices broke in 1953.

If this build up continues, it will end all hope of avoiding the over expansion that brought lower prices in the middle 1950's. It would result in severe declines in the early 1960's.

THE EXPECTED increase in numbers in 1959 would far exceed the rate of population growth in the United States. This increase represents a large build up in the beef supply for the future. The present boom brings with it the prospect of a price decline in the future when marketings catch up with production.

Even if the rate of expansion should slow somewhat after 1959, there is a very good possibility that numbers would reach 110,000,000 head by 1964. This is the slowest rate of expansion that can be expected if no severe drought occurs in the meantime. This would provide 90 pounds of beef for consumption per person and 4 1/2 pounds more than the record in 1956. Such a beef supply would bring

a big reduction in prices of cattle.

If numbers move upward at a fast pace there might be available 94 1/2 pounds of beef per person by 1964. An output of this size would demoralize the price of cattle. Prospects for cattle and beef supplies as well as price both in 1959 and the next few years would be altered if a severe drought should develop.

Watch range conditions closely in 1959 not just in your areas, but over the United States. A severe drought would cause more cattle to move to market and you may want to be there first with the most. You can't ever tell.

Recent News about Former Residents Of Interest to Many County Friends

Interesting information is received by friends here from time to time, concerning activities of former residents.

J. R. Whitworth, who looks after business interests of many former citizens of the county, enjoys a wide correspondence, which he shares with others.

Writing recently from Las Vegas, Nevada, was Coach Harvey G. Stanford, and his letter, in part reads:

"Bebe Gates, his wife and little son Gregory, came by to see us today on their way home after a two weeks' vacation. They live at 1224 Heil St., El Centro, California. We had a wonderful time talking over old times. He made us feel wonderful. He said Bernice was the best English teacher he ever had and that as far as he is concerned, I am the only football coach that ever lived. We played the 1935 (Matador) season all over again.

Teach In Las Vegas

"Jerry is to teach in J. D. Smith Junior High. Bernice and I are still with Las Vegas High School. Our schools of Clark County open Sept. 8 and expect 29,000 students. Nevada Southern expects 700 students this year. Monte will attend Nevada Southern at least this year. He got out of the Navy the first week of June, after three year's service . . . he was 21 years old, April 14.

"We now have four grandchildren, two girls and two boys. Jo Ann has a baby boy born August 3 at Denison, Texas. Her husband graduated from college at

South Eastern, Durant, Okla., and will enter seminary this fall. He is preparing for the ministry. "Hope you are taking good care of yourself . . . best regards to all.

Harvey Stanford, Bernice, Monte and Jimmy"

On War College List

A news release with a Washington date line contains the name of Lt. Col. Maurice R. Reilly, currently based at Madrid, Spain, as one of the 240 colonels and lieutenant colonels selected for senior service schools next year, specifically the "War College" (formerly the "Air War College").

Selections were made on a best qualified basis by a "senior officer" board, and later by a second board comprised of generals from commands and Hq. USAF.

Many of the students-to-be can expect assignment to high-level joint staff activities after they graduate, Air Force said. This would include the recently enlarged joint staff of the JCS at the Pentagon.

"I hear that we will be returning to Montgomery, Alabama next summer," Lt. Col. Reilly writes. "We will probably depart Spain next July to be in Montgomery for the start of school late in September.

"My mother arrived August 25. She had a nice flight over, one stop in Lisbon. She has already settled down to enjoying Spain as we are. I think she will stay a couple of months at least,

so will have time to do a lot of sightseeing . . .

"The children start school again next week: Suzanne in 9th; Betsy in 7th; and Matt in 2nd. The two girls will be going to a new school at our big air base 15 miles from Madrid. It means a long bus trip for them morning and night. Matt will go to school here in the city, as last year. He has spent the summer playing with Spanish friends and speaks Spanish now about as good as the natives . . . Mom joins us in best regards to all our friends in Matador."

"Have Pistol — Will Travel"

"Still have pistol — will travel . . ." writes former Matley County Sheriff H. H. Courtney, now Farmers Branch Police Chief who filed the murder charges (recently) against a 62-year-old Farmers Branch janitor, Jessie James Roberson.

Roberson, in a statement to Chief Courtney, said he shot his grandson-in-law, 22-year-old Henry Wayne Dryer, when Dryer came to his home and tried to smash the front screen door with an iron pipe.

Moves To Las Cruces

Mr. and Mrs. Ralph Horton, with their daughter, Linda, and son Richard moved recently from Carlsbad, N. M. where they have been living the past several years, to Las Cruces, N. M., where he will be engaged in the insurance business. They formerly lived here and Mrs. Horton is the daughter of Mr. and Mrs. W. W. Clements.

Return To Vermont

"It's been awfully nice hearing from you, but we haven't done so in several years. I know Trail Dust doesn't keep you that busy," wrote Marie Hunsucker (Mrs. Brewster Baldwin) in August to inform the Tribune that she had her family were returning to Middlebury, Vermont, after spending the summer in Tallahassee, Florida.

"Brew has been participating, along with 40 other college geology teachers, in an oceanographic institute sponsored by the National Science Founda-

tion. It's been sort of a semi-vacation (the ones from Texas tell the best jokes) attending lectures, going on field trips, and having contact with geologists from various parts of the U. S. This week they are winding everything up with a field trip to the Bahama Islands, where I expect they'll put in some time skin diving. At least, Brew took along fins and a mask, so I don't know much of what else he could do with those!

Jeanie and David, respectively 11 and 10, joined right up early in the summer with the Tallahassee Swim Club (A.A.U.) and while they don't shine on the team they do enjoy it and are getting in a lot of good exercise . . . Steve has kept busy in the city recreation program, and Chris keeps busy at home. Mother Marie keeps busy as chauffeur.

En Route Home

From Dreux, France, written Sept. 7, comes this message: "I'd like to notify you of our return to the states shortly, so you may discontinue our Tribune."

"We have certainly enjoyed receiving it. Knowing what's going on at home with friends means a lot, while you're away. Thank you very much. I Lt. and Mrs. Donald D. Hossley."

Mrs. Hossley will be remembered here and at Roaring Springs as the former Glenda Dobkins. They were receiving the Tribune as a gift from her aunt, Mrs. M. S. Thacker.

Clubs Reorganize At Roaring Springs

Five 4-H clubs were organized this week in the Roaring Springs School for the current year, with 73 boys and girls initially enrolled.

Officers selected to lead the junior class were, Lewis Carpenter, president; Rex Martin, vice-president; George Smith, secretary; and Nathan McCleskey, reporter.

Adult leaders selected were

John Harland, Charles Long, Buz Thacker and J. M. Carpenter.

The High School Club elected Gary Grizzle president, and other officers as follows: A. J. Dye, vice-president; Bert Green, secretary; and Sammie Swim, reporter. Adult leaders are Bill Peacock, Alfred Dye, Mervin Green, Hollis Godfrey and Dean McInroe.

Don Tardy was named president for the junior high club; Rogene Swim, vice-president; Shirely Stafford, secretary; and Bobby Murphy, reporter. Adult leaders are to be selected at the next meeting.

Officers and leaders for the Grade School Club and the High School girls club will also be selected at the October meetings.

Demonstrations which the members plan to carry out include tractor operation, grass judging, range judging, and livestock judging. These are in addition to home projects that include swine, beef calves, rabbits, gardens, sheep, chickens, turkeys, field crops, cooking, sewing and homestead improvement.

Meetings will be held on the first Monday of each month, except when conflicts arise, when they will be held on the second Monday.

Activities of the 4-H clubs will be under the supervision of County Agent Bill Fallmeyer.

About Your Health

A weekly public service feature from the Texas State Department of Health.

Henry A. Holle, M. D., Commissioner

It's sad but oh-so-true: the hay fever season lasts all year in Texas. The reason: the wide range of climate and soil conditions which produce an assort-

ment of offending flora — trees and shrubs and grasses.

This might be some consolation, though the state is running generally behind schedule in the rain department. And during dry weather pollen production goes into a slump.

Ragweed pollen is still the biggest enemy of the watery-eyed set, but mountain cedar, scrub elm, and a variety of other plants and grasses also cause their share of sneezing misery.

From mid-winter until early spring, people from Dallas southward are affected by the pollen of cedar, a profusely growing tree with a bad habit of pollinating like it was going to be banned tomorrow.

Fall hay fever sufferers probably have the scrub elm to blame for their troubles. A late-summer pollinator, the elm is common over most of the state, but it is particularly profuse in the bottomlands of the Guadalupe and Trinity Rivers. The mesquite causes minor allergic trouble in West Texas during May, June and July. Cottonwoods and poplars are pesky sources of red eyes and congest-

ed noses wherever they are found.

Grass hay fever is possible through spring, summer and fall over most of Texas, and in the winter in the Rio Grande Valley. Bermuda grass is the chief offender. Rhodes grass is a potential hay fever factor in the Lower Rio Grande Valley.

Ragweed pollen is now most abundant at Dallas and Houston as in the north central states. It is a serious summer and fall problem as far west as San Antonio and all along the Gulf Coast to Brownsville.

In arid parts of Central and West Texas, Russian thistle is a leading cause of inhaled allergies. Other local causes are sugar beets and Palmer amaranth. Sage pollen is a potential factor in a troublesome Sand sagebrush, a dominant native plant in the Panhandle, suspect as a trouble maker.

How to get relief from hay fever? A sea voyage during "your" season would do it, would staying in an air-conditioned room. But since neither is practical you'll just have to sneeze and wipe unless you check with your doctor.

Why we built two cars for 1960 . . . as different as night and day

On October 2—for the first time in Chevrolet's 49-year history—you will be able to walk into your dealer's showroom and see two totally different kinds of cars. One is the conventional 1960 Chevrolet, brand new in appearance and more beautifully refined and luxurious than you can imagine. The other is unlike any car we or anybody else ever built—the revolutionary Corvair, with the engine in the rear where it belongs in a compact car. We'd like to tell you why we built two such different cars, how we built them—and for whom we built them.

Why two kinds of cars? Because America itself has been going through some big changes in the past few years. Our cities have been straining at their seams. Traffic is jam-packed. Parking space is at a premium.

And our suburbs have spread like wildfire. People are living farther from their work, driving more miles on crowded streets. There is new leisure time—but more things to do. There's a new standard of living—and more need for two cars in the family garage.

In short, America's automobile needs have become so complex that no one kind of car can satisfy them completely. That is why we at Chevrolet, keeping tab on these trends, have had a revolutionary compact car in the planning stages for more than nine years.

Thus, when we decided three years ago to prepare for production of such a car we were ready to build it the way it should be built. There was no need for a hasty "crash" program that would create only a sawed-off version of a conventional car.

That is why the two cars you will see in your dealer's showroom October 2 will be two entirely different kinds of cars. One is the conventional '60 Chevrolet—brand new in beauty, with new space inside, new spirit under the hood, a new

feeling of sumptuousness and luxury never before attained by any car in its field. There is great V8 power linked with new thrift, plus Chevrolet's superb 6-cylinder engine. It is a traditional car that comes even closer to perfection—in silence, in room, in ease of control, in velvety ride—than any other car we have ever made.

The other is the Corvair, a compact car that is astonishingly different from anything ever built in this country. It has to be—because this is a six-passenger compact car, with a really remarkable performance . . . a car designed specifically to American standards of comfort, to American traffic needs.

The engine is in the rear. Among the basic advantages resulting from this engine location are better traction on a compact 108-inch wheelbase and a practically flat floor. But to be placed in the rear, the engine had to be ultra light and ultra short. So Corvair's engine is totally new—mostly aluminum and air cooled; it weighs about 40 per cent less than conventional engines. It is a "flat" horizontally opposed six—so it is only three cylinders long . . . and that leaves a lot more room for passengers.

Another weight saving: like modern airplanes, the Corvair has no frame; the body-shell supplies it great struc-

tural strength . . . it's a welded unit that is virtually rattle-free.

The ride is fantastic. But to get it we had to design independent suspension at every wheel; conventional springing would give a compact car a choppy ride. Right now we'll make one prediction: no other U.S. compact car will ride so comfortably, hold the road so firmly and handle so beautifully.

Now there are two kinds of cars from Chevrolet—because it takes two kinds of cars to serve America's needs today. If you love luxury—the utmost in luxury—and if you want generous interior space, breath-taking performance, automatic drives and power assists—then the conventional '60 Chevrolet may be your choice.

If easy parking, traffic agility and utmost economy are high on your list—then you should seriously consider the Corvair. But the best thing to do is to look these two new cars over at your Chevrolet dealer's . . . take them out for a drive. It may be that the only logical choice for your family between two cars like this is—both. They make a perfect pair.

The points try failed and the score stood at 6-6.
Idalou went 42 yards in nine plays to score in the third quarter. Joe Wilbanks climaxed the drive with a seven yard scoring run over right tackle. The extra points were scored by Rodriguez on a sweep around left end. The score now stood 14-6.
Idalou started their final scoring thrust on their 36-yard line in the final quarter. In two plays they had moved to the 50 yard line. Halfback Swann then took a pitch out, rolled out to his left and tossed an 18 yard pass to left end John Respondek, who ran the remaining 32 yards to score. Wilbanks went around right end to score the extra points. Score was now 22-6 and remained the same as the game ended.
