SAGA OF THE PRAIRIE

ALLIE FAYE WILLIAMS, Editor MATADOR HIGH SCHOOL March 7, 1935

Senior News

The seniors have begun to think about their play. They ordered three plays last week to read and choose one for the senior play.

Junior News

The junior play books are here. The juniors are planning to have the best junior play ever presented in Matador. The play is very good. The cast has been selected and they are ready to start practicing.

General News

The desks in the study hall have been rearranged. A number of the desks had been torn from the floor and the screws would no longer hold them. They were moved nearer to the front of the study hall and isles made narrower.

This week starts a new six-weeks and the students are glad to be free from the strain of examinations for a while. The juniors will have a standard test over their American history. They hope they rank high among the schools.

The majority of the students who were absent last week are present this week. However, Grace Keltz, Addie Lee Lawrence, Louise Hall and Lois Falfer were absent the first of this week.

Friday afternoon at 2:30 p. m., at the high school auditorium, the Texas Tech Band will give a concert. The admission will be 5c for school children and 15c for adults. Everyone is invited.

Girls Sports Report

The volley ball girls played 2 games with Valley View Thursday. The Valley View girls won both games, but there wasn't enough difference in the scores to discourage the Matador girls. Some of the girls have never practiced this year so after practicing some, they will do better.

Boys Sports Report

Coach Stanford has between 20 and 25 boys coming out for track. He has several weight, distance, and dash men. He says he is glad to get the material he has

La Junta Club

The La Junta club met Monday, March 4. A talk by Geneva Cooper was given on "Spanish Paintings." The members of the club had a railroad spelling contest.

The club is making a scrap book containing pictures and clippings from newspapers and magazines of material of interest of Spanish speaking people.

Some of the members are planning to get pins. They have not yet decided on the type, but plan soon to get them.

28,000 FRAMERS SIGN 1935 CORN-HOG CONTRACTS COLLEGE STATION, March 4.—Twenty-eight thousand Texas farmers have signed the new 1935 corn-hog adjustment contract, it was announced here today by E. M. Regenbrecht, Extension Swine Specialist.

This is an increase of more than 25 per cent of signers over last year. "The progress of the 1935 sign-up is gratifying," Regenbrecht declared. "Much of the increase, in signing the contracts, is due to the new liberal regulations of the contract. The increase is particularly noticeable in the 'Black Lands.' Corn-hog farmers may now receive payment from the government by retiring a part of their corn crops and at the same time plant an unlimited amount of other feed crops such as oats, barley and other feed grains.

"Also," he added, "this year the government has raised the ante on payment. Thirty-five cents a bushel will be paid for the corn, an increase of five cents a bushel over last year."

Each county is allowed to set its own deadline on the signing of the contracts. Reports show that the majority of the counties have set closing dates at between March 1 and March 15.

A report from Dr. A. G. Black, chief of the administration's corn-hog section at Washington, D. C., states that more than 450,000 farmers of the Corn Belt and other states throughout the nation have signed applications for the 1935 contracts.

This estimate was based on reports from Extension directors in the major corn and hog growing states.

PRIMARY NEWS (Miss McKee) Mrs. W. M. Hill visited Miss McKee's room Monday. Mrs. L. B. Archer was a visitor Friday.

INTERMEDIATE ROOM (Mrs. Ballard) Mrs. Ballard, Mrs. Wolf and Mrs. Stafford gave Melvin Throckmorton a birthday party last Friday. Mrs. Grace and Mrs. Bloodworth helped, too. They served hot chocolate, cookies, and popcorn. He received many pretty and useful presents. His home and all his clothes were

burned last week. Now he has moved to Missouri, and we are sorry to lose him from our class. Jewell Lawrence cut three of his fingers deeply when a door slammed to on them.

LIGHTING... Yesterday and Today. DID YOU KNOW THAT—musical compositions, frequently dwelling on candle light, are but recollections of a luxury in bygone days? That such spectacular illumination from candles would compare as only modest electric illumination today? That one modern electric lamp (50-watt size) gives the same illumination as 48 candle light give? That the wax candle will burn about 4 hours, necessitating 250 replacements to one replacement of the electric lamp? That an average home today has the equivalent of approximately ten such electric lamps (50-watt size) in use, and with 24 months or 1,000 burning hours as their useful life, the two-year total lighting costs, including cost of lamps and cost of electric service, is only \$27? That a comparable illumination from wax candles (not considering the inferior light or the danger accompanying any flame, its fine soot floating or gaseous odors) would necessitate consumption of 120,000 wax candles over such a two-year period at a cost to you of more than \$2,400, yet complete electric "lighting" service is supplied by this company and enjoyed by all members of your household for less daily costs than a cigar to one member of the household. Further, that over half of all domestic service customers in West Texas pay less than 4c a day for all their residential electric service, including lighting. ELECTRIC SERVICE IS CHEAP! YOU SHOULD USE MORE OF IT! West Texas Utilities Company

**FORD ECONOMY**

**THE new Ford V-8 is a car of major developments.** This year, to the proved performance and economy of the V-8 engine, Ford has added another major engineering development—the Full-floating Springbase with Comfort Zone Seating. This means "front seat riding comfort" for back seat passengers. Now everybody can enjoy a *Comfort Zone Ride*.

The car is longer and wider—more room for passengers and baggage. It's beautifully streamlined, and luxuriously upholstered. It has many important safety features, including welded all-steel body and wheels. Safety glass all around and large, sure-traction balloon tires are included at no extra cost.

Here is a car that meets every 1935 driving need . . . whether you want safety, speed, power, size, dependability, economy, or beauty. See it now at your nearest Ford dealer's.
