Our Customer Obligation

... is to always supply a constant and dependable source of Electric Power in advance of immediate needs.

To do this, we have invested much capital in facilities and always kept a highly trained personnel to efficiently operate the properties. We have helped our customers obtain appliances of the highest quality in order that they may enjoy the greatest benefit from their electric service.

We have made rate reductions amounting to more than sixty per cent during recent years. We are supplying much more service to the average customer than in former times, and with the average customer bill much below that of former years.

We are doing away with the room count rate in the 160 towns we serve in keeping with our policy of low electric rates. We urge our customers to take advantage of these low incentive rates for a greater use and enjoyment of service.

Electric service is cheap! It is one of the most valuable commodities of the household, yet takes only one per cent of the workman's total household expenditures. You should use much more of it!

Welfare Association Appreciates Support

The chairman of the Carnival Committee of the Matador Child Welfare Association expresses his personal appreciation and the appreciation of the Association to all the people of the community who made the Halloween carnival a grand success.

First, there are those who took part in planning and staging the carnival we wish to thank Harry Campbell who had charge of the nail driving contest; Clay Gilbert, assisted by Carl Sanders and Vernon Craven prepared Hades "for those wishing to go to such a place," and Lamar Guthrie had charge of the door to Hades; Marvin English, assisted by W. L. Miller, made and ran the negro chunking contest which also "went over big;" Mary Hamilton, assisted by Modena Graves and Marjoria Moore, also R. C. Jeters at the door operated the puppets and displayed the "Strongest Woman in the World;" Mrs. A. A. Harp, Mrs. Pitts, Mrs. Jeff Daffern and others prepared and operated the lunch room; members of the Association and other people in town donated all of the food used in the lunch room at the carnival; Ruth Simpson, assisted by her sisters Helen and Betty Jo and Mrs. A. J. Daffern read the stars for those who wanted to see into the future; Mrs. Schweitzer ran the fishing pond; Mrs. Barklay sold candy and chewing gum; Mrs. Tunnell directed the milk game in the auditorium, and a large cast of talented people assisted her; Mr.

and Mrs. Elmer Stearns operated Bingo, and they were assisted by Mrs. Reilly and Henry Ford. All of the shows were a big success, expenses were kept to a minimum, and a large sum of money was cleared for use of the children of the community.

Then there are the people of the community who supported the Carnival. The bottom floor of the auditorium was nearly full of people for the main show, and most of those people remained to patronize the side shows and lunch counter. People spent very liberally considering the times, and the Welfare Association is deeply grateful to all who helped in any way whatever.

MOVIE CHATTER

By A. Rogue

Hope you folks are all being pleased with our ten cent week, the question will probably arise that, "If he can show for a dime when there is a tent show in town, why can't he do it all the time?" I can't folks, but I am, just to show the gentlemen of the big top that I'm opposed to tent shows, and will give 'em fits each and every time one of them calls here. Fact is, I may open the gates and give you an ice cream cone before this is over now. Lets keep our money in Matador. For our picture Thursday, Friday and Saturday we offer you the world's heavy weight boxer, Primo Carnera and Myrna Loy in "The Prizefighter and the Lady." Here's a picture that you certainly will like; not only the men,

NEW WINTER GRADES

A Sure Way To Prevent Winter Trouble for Motorists of Matador

Special Winter Grades of Germ Processed Oil Give Positive Starting, Improved Gasoline Mileage and Utmost Motor Protection!

Change now to the proper grade of New and Improved Conoco Germ Processed Motor Oil. You'll get:

1. Positive Starting. These new lighter grades permit your motor to reach higher "cranking speed." You save your battery. You choke less—waste no gasoline.
2. Definitely more miles per gallon of gasoline. These lighter grade oils flow freely and minimize friction.
3. Utmost Motor Protection. Other oils drain away, leaving parts unprotected when you start. Only Conoco Germ Processed Oil penetrates and combines with metal surfaces, forming the "Hidden Coat that Never Drains Away." Every part is fully oiled from the first turn of the motor. It cuts down starting wear—saves repair bills!

Conoco dealers and stations have the new Winter Grades, namely, 10W and 20W— heavier grades, too—in refinery-sealed cans and in bulk. Consult the Conoco chart, fill with the proper grade—and stop worrying!
