Banks Rapidly Reduce Debt

Although the sum of \$1,800,000,000
has been advanced to banks and
trust companies by the Reconstruction
Finance Corporation since it began
operations in February, 1932,
down to April 30, 1935, these institutions
have repaid no less than
\$1,510,000,000, or more than 72%.
This rate of repayment is reported
as being considerably in excess of
that made by any other type of borrower.

Simplification of Bank Checks

New York - In a bulletin issued
by the Bank Management Commission
of the American Bankers Association,
plans are described for carrying
on the simplification of bank
checks, notes, drafts and similar
instruments in respect to the uniformity
of arrangements of subject matter.

The Twentieth ("Lame Duck")
Amendment: Ratification formally
announced Feb. 8, 1935.

The Twenty-first (Prohibition Repeal)
Amendment was adopted Dec.
5, 1933.

A proposed Child Labor Amendment,
passed by both Houses of
Congress in 1924, had (by July,
1932) been rejected by 24 States and
ratified by 12.

American Bankers Association
Describes Its Activities to
Aid Better Understanding

NEW YORK - Eight different
lines of activity through which the
American Bankers Association is
constantly aiming to promote better
public understanding and opinion
in regard to banking and the attitude
of bankers toward legislation
are described in detail in a statement
made public here by R. S.
Hecht, president of the association.

The aims, he says, is "to strengthen
the real basis for good opinion in
regard to the banks," through fostering
informative bank advertising
in the newspapers and in other ways.
The statement was issued in reply to
suggestions received urging a nationwide
public educational program
in regard to "the business of banking
and its place in the economic life of
our country."

Mr. Hecht declares that "we have
tried very hard to convince the public
that the banking fraternity has truly
profited by the lessons of the past;
is determined to approach all
questions of banking policy from the
broad viewpoint of public welfare
and is prepared to carry its full share
of the burden in connection with all
efforts to restore sound prosperity
in this country."

Lions . . .

(Continued from Page 1.)
bring to you today a personal message,
one granting to you a privilege,
and the other giving to you
an opportunity.

Highest Yield

The privilege is your right of
purchase, in small denominations,
United States Savings Bonds which

return the highest rate of yield of
any Government security, that can
be bought today.

The opportunity is your Government's
assistance toward building
for you an income estate along
the lines adopted by many of our
life insurance companies and savings
banks.

Primarily, this privilege and opportunity
are designed for the small
investor that he may be encouraged
to create during his gainful
years an assured income for the
years to come, and through a
profitable plan of savings and safe
investment, help him to realize his
more cherished ambitions.

Regardless of our present income
or lack of it, each of us likes to believe
that our ship of promise is
about to come into port, and that
tomorrow we will know the enjoyment
of ease and permanent security.

Individuals Must Aid

Your Government desires to
help. It is striving for the full
recovery and security of the Nation.
A prosperous nation means a prosperous
people, but individual prosperity
must ever depend largely upon
the individual. Our Government
cannot hope to do it all. Individually,
we have got to do our part.

A recent act of Congress authorized
the United States Treasury
Department to issue and the Treasury
is now making an offering of
a new security known as United
States Savings Bonds, or "Baby
Bonds" as the public insists upon
calling them. What are these savings
Bonds? Why are they issued?
What purpose do they fill? At what
prices do they sell? What is the
interest yield; what safe-guards
and where and when and for what
period may they be purchased?

Tax Free Security

United States Savings Bonds are
normally tax-free securities issued
by and under the guarantee of the
United States Government. They
provide that if you will save and
invest in these bonds you will receive,
at the end of ten years, as
a reward for your savings, what
you have invested, plus an accumulation
of interest amounting
to thirty-three and one-third per

cent more than you originally paid
for the bonds.

At the prices at which they are
quoted no other Government security
yields as high a return. The
owner of a bond does not have to
wait ten years. If emergency demands
he can at any time, after
sixty days from date of purchase,
cash his bonds for what he paid for
them, and receive in addition,
after the first year accumulated
compound interest. They are sold
at such low prices that almost
anyone gainfully employed can
regularly invest.

The Denominations

United States Savings Bonds are
issued in denominations of Twenty-
five dollars, fifty dollars, one
hundred dollars, five hundred

dollars; and one thousand dollars.
Those are their maturity values.
They mature in ten years. The
prices at which you can buy them
today are: \$18.75 for the \$25 bond;
\$37.50 for the \$50 bond; \$75 for the
\$100 bond; \$375 for the \$500 bond;
and \$750 for the \$1000 bond. Regular
monthly investment in
United States Savings Bonds,
through the magic of compound
interest, gives surprising results.
This is the way it works out: \$18.75
invested each month for 120
months in United States Savings
Bonds will build an income estate
of \$3,000 guaranteed by the United
States Government and payable at
the rate of \$25 each month for
120 months additional months.
\$37.50 thus saved and invested

monthly for the same term will
build an estate of \$6,000 payable
at \$50 a month for ten years. \$75 a
month, an estate of \$12,000, payable
at \$100 a month. \$93.75 a
month, an estate of \$15,000, payable
at 125 a month. \$187.50 a
month an estate of \$30,000, payable
at \$250 a month. \$75.00 a month
builds an estate of \$60,000, payable
at \$500 a month. It but remains
for each of us to select the income
estate we shall demand of our
ability to save. Surely the real

question is not what we can afford
to save with which to buy
United States Savings Bonds, but
how much we can afford to spend
and take it from our ability to
make these regular purchases.

Regular Meetings
After two irregular meeting
dates, the Matador Lions Club will
meet at the Baptist Church next
Tuesday, November 19th. The
civic clubs holds two meetings each
month, alternating between the
Baptist and Methodist churches.

GENERAL NEWS

The Matador high school had a general assembly Nov. 1st. The high school plans to have an assembly every other Friday from now on indefinitely. The Senior class is to have the program Nov. 15, the Junior class Nov. 29, the Sophomore class Dec. 6, the Freshmen, Dec. 30, and a special program will be given Jan. 3. These programs will be given the second period in the morning, or from 9:45 to 10:30. Everyone is urged to attend these programs, because we know you will enjoy them.

Many books were added to the library during the Carnival campaign sponsored by the Child Welfare Association. The books added to the library are: The Call of The Wild, London; Selections From the Sketch Books, Irving; House of the Seven Gables, Hawthorne; Pride and Prejudice, Austen; The Amnibus, Jules Verne; The Black Arrow, Stevenson; Bob, Mary Robert Rhineheart; A Christmas Carol, Dickens; The Merchant of Venice, Shakespeare (2 copies); Argumentation and Debate, Laycock and Scales; University Debates Annual, Mabic (2 copies); English Sounds, Rippmann; Intercollegiate Debates, Nichols (3 copies); Texas History Movies; Essay on Milton, Macaulay; The Deserted Village, Goldsmith; Washington's Farewell Address, Washington; The Spy, Cooper; Moby Dick, Melville, Herman.

The Matador high school library received eighty-three new books Nov. 6. These books were bought for the high school by the Child's

Welfare Association out of part of the money they received from the Halloween Carnival.

The school news is sponsored by Mrs. E. F. Luker. The staff plans to have a first class paper this year by her help.

The present enrollment of the high school is one hundred and thirty-three, and here is something worth notice—there are sixty six girls and sixty seven boys. It looks like the girl will have to look around the corner for some more girls.

The high school was honored by having W. A. Thomas, collector of internal revenue, of Dallas, speak to them, Thursday afternoon. The talk was greatly enjoyed by every member of the student body.

The high school colors have been changed from purple and gold to red and black the bullfighter colors. The colors were changed because of the impracticability of the purple.

SENIOR REPORT

If you haven't heard it, the Senior class has a record enrollment of forty-five. Mr. Tunnell says it is the largest class in the history of the Matador high school—How's that for the class of '36, the centennial class? Here is the roll:

- J. D. Allen, Clyde Amonett, Alford Barton, C. M. Barton, Georgia Bourland, Beryl Blackshear, Helen Brown, Harold Campbell, R. E. Campbell Jr., Katherine Copeland, Geneva Cooper, Margaret Cornett, Sibyl Daffern, Julia Davis, Hazel Ellithorp, Dorothy Echols Virginia Edmondson, Lucretia Estes, Forrest Faulkner, Norris Ford, J. D. Gaines, Dorothy Fuller, Bebe Gates, Louise Hall, Tatt Harchow, Clifford Harris, Katylynn Humphries, Oma Mae Jameson, Grace Keltz, Bernice King, Addie Lee Lawrence, Ruth Merrill, L. V. New, Sylvia Nell Patton, Will Pritchett, Dora Ratcliff, Marie Ross, Elmer Tibbets, Burrell Tipton, Odell Washington, Raby Webb, Camella Wilkinson, Allie Faye Williams, Albert Willis, Aileen Wright.

That isn't all either—The Seniors had more on the distinguished list and honor roll than any other class in the high school. Three cheers for the Senior Class!

The seniors are expecting their rings any day now. Just wait until you see them—they are going to be beautiful!

The class as a whole, and a few especially, were happily surprised to see one of their former members, Dorothy Willett, last week. The officers of the Senior class

are: President, Beryl Blackshear; Vice-President, Albert Willis; Secretary-Treas., Geneva Cooper; Reporter, Georgia Bourland; Sponsor, Mr. B. F. Harbour.

JUNIOR CLASS NEWS

The Junior Class officers are: President, Ruth Irwin; Vice-President, Harvey Doss; Secretary and Treasurer, L. C. Groves, Reporter, Ava Clyde Smart; Sergeant-at-Arms, Clayton Titus.

Coach Stanford is the Junior's sponsor, and there are thirty-five enrolled. The class has ordered the Junior pins, and there are expecting them in by the fifteenth of December.

The class regrets losing their Vice-President, Harvey Doss, who left to return to Brownwood to go to school.

SOPHOMORE CLASS

Thirty pupils were enrolled in the ninth grade, five of them being from other schools.

The officers are: President, Fred G. Simpson; Vice-Pres., Maurice Riley; Secretary and Treasurer, Jaunita Fuller; Class reporter, Frances Carlson.

Hot-cha! Our candidate for the carnival was Dorothy Gene Harp, and she won as queen of the high school. We sure were proud of her, and also of the work out by the members of the ninth grade class.

The Sophomore class are proud

of the fact that Mrs. Harvy Stanford is their sponsor.

FRESHMAN CLASS

The Freshman class is sponsored by Mr. Gray. The class officers are: President, Houston, Schweitzer; Vice-President, Kitty Janett Jenkins, Secretary and Treasurer, Weldon Westmoreland; Reporter, Herby Marquis; Sergeant-at-Arms, Virginia Estes.

A new student joined the freshman class Monday, October 28. She is Viola Floyd from Cary in Childress County. The class welcomes her to the freshman class.

PEP SQUAD

There are a large number of pep squad girls this year. After a little unrest the pep squad is working hard.

The pep squad has been working to raise funds to buy new suits which they plan to get very soon. The bullfighter or Matador colors will be carried out in a bullfighter costume for uniforms. The uniforms are to be bought by the school and are to be handed down from year to year. The girls are very pepped up over their new uniforms and are going to try very hard to live up to the interest people have shown in helping them buy the uniforms. The uniforms are not paid for, however, and the pep squad will have to raise the money. The squad will appreciate any assistance given in the future.

and wishes to make known their appreciation of interest given in the past.

The squad intends to have a drill for every game to come, so expect them!

SPANISH REPORT

The members of the two Spanish classes met September 20, and organized a club, which they named "La Junta."

Mrs. Stanford teaches Spanish and is our sponsor. The club plans to have a great time this year.

At the first meeting the following officers were elected: President

Georgia Bourland; Vice-President, Allie Faye Williams; Secretary, Julia Davis, Reporter, Geneva Cooper; Song leader, Margaret Cornett.

Program committee: Grace Keltz, Ruth McBride and Geneva Cooper. Social Committee: Allie Faye Williams, Margaret Cornett and Connie Brewer.

For the club work this year a trip to Mexico was decided to be taken. Many interesting places would be visited, and there will be much sight-seeing.

The club meets the second and

fourth Fridays in each month.

JOKES

Enlightenment. Raby: "Why you kissing my girl in a dark corner last night?"

Beryl: "Now that I've seen you in the light, I wonder myself."

Disturbing. Coach: "You can sleep in my class."

Albert: "If you didn't talk loud I could."

Time Wasted. Coach: "Now find that is equal to zero."

Bebe: "Gee! All that work nothing."

REPORT OF CONDITION OF FIRST STATE BANK

of Matador, in the State of Texas, a members of the Federal Reserve System, at the close of business on November, 1st, 1935.

School Talk

By B. F. Tunnell
Supt. Matador Schools

This is the second of a series of articles on the needs of the high school. In last week's discussion your attention was directed to the fact that our high school building provides two spacious rooms and one small one which were provided in the construction of the building in 1925 for the specific purpose of equipping them for a modern Home Economics Department. It is also worth repeating here that 179 of the 191 Texas High Schools having membership in the Southern Association of High Schools and Colleges are teaching home economics to their high school girls, and that Matador is one of the twelve which are not.

It will be my purpose in this article to present the need for a complete Commercial Department in the high school. At the present time, and for the past two years, we have been teaching Bookkeeping and Business Law, both courses being accredited by the State Department of Education. Now that these two courses have been placed into the course of study and have been affiliated, we are this year adding Commercial Arithmetic and hope to get it accredited during the present year. By all means, in my judgement, a typewriting department should be equipped for use by the opening of the next session of school. There are very few high schools now in the entire State which are not equipped for this work. From the standpoint of being practical, Typewriting is a close second to Bookkeeping as a vocational need for high school students. One of its chief appeals to students lies in the fact that it is a laboratory procedure almost altogether, and

gives the student the finest type of learning experience possible for the needed coordination of mind with hand.

A typewriting department could be installed at an approximate cost of \$1125. The 16 standard type writers can be bought at a school price of \$60.00 each, and the typewriter tables can be had at \$7.60 each. In every high school in which this work is offered it is found to be among the most popular courses for the reason that students really enjoy the work. The fact that it is a very popular course is a good reason for its maintenance. If our commercial department were complete, the Matador High School could equip its graduates for positions in the various business institutions into which they finally land after going away to school two or three years after high school graduation. Many high schools have installed this department and paid for the machines by charging a monthly fee of the students taking the course, but in my judgement, a high school ceases to be a public free school when it resorts to the practice of charging students for the courses they offer. Our high school has extreme difficulty every year scheduling our tenth and eleventh grades for the reason that our course of study does not offer a sufficient variety of courses. For the past three years, due to the steady increase of students from our neighboring communities, our high school science classes have been excessively large. This has seriously handicapped the quality of the work because laboratory classes cannot be efficiently directed with more than 24 students to the group. At the present time, our Commercial Arithmetic class, another of our large classes, has 42 students in it. Due to lack of versatility in the high school course of study, the girls find it necessary to take a foreign language or Physics and Chemistry, which

Beaumont Welcomes Huge New Tanker

All dressed up in gas hunting, the Magnolia, America's newest sea-going tank ship, enters Beaumont harbor for her first cargo of Texas refined petroleum. The huge tanker is two blocks long and transports enough gasoline to put 5 gallons in every passenger automobile in Texas.

At the right is Captain S. W. Woods, commander of the Magnolia and commodore of the Socony-Vacuum fleet, being welcomed by Mayor P. D. Renfro of Beaumont.

Fake Security Dealers Moving Before New Laws

The exodus is on. Fake security dealers are on their way out of Texas and legitimate dealers who offer the public sound investments are able to do so without fear of suspicion. The Texas Securities Act, which passed both houses of legislature without a dissenting vote, is responsible for this happy condition. However, the state is not com-

pletely rid of all fraudulent security dealers and the public is charged with the final responsibility. It is up to the persons who invest in stocks, bonds and oil, gas and mining leases to demand that the dealers they encounter be registered under the state securities law.

If a doubt as to the eligibility of any dealer exists in the mind of any citizen it is the duty of that citizen to inquire immediately. This information can be secured from the Secretary of State's office in Austin.

Many dealers in gas and oil leases contend that they are exempt. Such a contention is a misunderstanding of the law. In some cases lease dealers are sincere in this belief and are laboring under a false impression. In many more cases the dealer does not want to

his past record as a swindler and a crook will not permit him to become a registered dealer in Texas.

Under Article "A" of Section 2 of the Texas Security Act it is plainly stated that "any instrument representing any interest in or under an oil, gas or mining lease, fee or title" is to be classed as a security.

This clause was necessary in the law due to the existence of a great number of fake lease dealers in Texas. These parasites have preyed upon the unsuspecting small investors. They have steered clear of wise investors who take time to investigate before they invest.

Under all conditions potential purchasers of securities are urged to be certain of the dealers who approach them. The law does not pretend to guarantee an investment. It contemplates investigation into the character of the dealer. It is the human element that has been responsible for the fraudulent practices in securities in Texas. A stock certificate can't be crooked but the dealer can be.

RETURN HOME

Mr. and Mrs. J. T. Husley returned home last week from a visit with friends and relatives near Farwell and a tour of the territory in the neighborhood of Clovis, New Mexico.

R. C. Jeffers, who is a student in West Texas State Teachers College Canyon spent the holidays visiting relatives in Matador.

QUITTING TIME 1 A.M.

thermometer dropping!

No worry...when your engine

stays oiled

Oiling used to stop when the engine did. You'd come out in the cold, to your standing car. And in the first few minutes, before your loafing oil in the crankcase could get up to do any oiling, you'd chop hours or days off your engine's life.

Yes, engineers tell you that all in all, more than 50% of motor wear must be blamed on delayed lubrication in warming up. This winter then, get the oil that not only starts up when you do, but surely beats you to it!

No waiting for Conoco Germ Processed Oil to be pumped up on the engine parts, because it's already IN. It bonds itself direct to every metal surface, and stays there—the Hidden Quart—always a long jump ahead of friction. This remarkable power of Germ Processed Oil to form its lasting union

with metal, comes only from the patented Conoco Germ Process.

Seems unbelievable. But car owners—your own neighbors—have been avoiding overhauls and battery "grief," winter after winter, simply by using Germ Processed Oil. It meets even the severe oiling requirements of the new copper-lead, high-lead, and cadmium-alloy bearings; protects them far better than straight mineral oils, as fierce road tests prove.

Germ Processing also assures 2 to 4 times greater film strength, even in the lighter grades required for winter. Not only light-bodied but tougher, too, Conoco Germ Processed Oil rub-proofs, drag-proofs and zero-proofs your engine as soon as you drive in for your Conoco man's winter help.

STUDENTS VISIT FIELDS AND APIARIES THIS WEEK

Miss Verlin Reeves and her First grade students visited Mr. L. B. Robertson's bee-hives Tuesday afternoon, and had a very interesting lesson on bees and how they prepare and preserve their honey. This being the season when cotton is the main subject, Miss Amy Glenn and her Third grade class made a special study of the plant and its fruit Wednesday afternoon.

CONTROL OF CREDIT A BASIC QUESTION

Economist Describes Conflict Between Opposing Social Views on Central Bank

Agitation for government banking is a phase of the conflict between our present "personal competitive enterprise system" in America and the "compulsory state collective security system" of several European States, Virgil Jordan, President National Industrial Conference Board, says in "Banking" published by the American Bankers Association. "They involve irreconcilable principles of human conduct and philosophy of life and the conflict between them is the key to the economic, social and political struggles of today," Mr. Jordan says.

The enterprise system of which the development of the United States has been the unparalleled example, depends for its motive power of progress upon the inexhaustible reservoir of energy in individual desire for personal advancement in prosperity, but it guarantees nothing to the individual save freedom of opportunity," the article says.

The collectivist security system, he says, "places all emphasis upon the maintenance of a minimum standard of living for the mass with out regard to the creative power of the individual. Quite simply the security system involves the modern form of the philosophy of the slave society." He continues:

A Sign Of The Times

"The many-sided movement toward governmental banking, deposit insurance and currency management is the most direct and decisive expression of the universal instinctive search for security which is the sign of the times. In America our so-called social security legislation is an important indication of the drift away from the enterprise system toward a collectivist security system with concentration of authority in a Federal government."

"The nationalization of credit is crucial and indispensable for complete state control of the complex industrial and business structure of this country. The drive toward government banking and monetary control is most determined because the relation of the state to credit goes to the root of the enterprise system. A collective security system is inconceivable without nationalization of credit. An enterprise system is inconceivable with it."

Under a collective security system, based on government banking the controls "lie solely in the hands of a few persons and depend upon their judgment, will or caprice," Mr. Jordan says, adding "upon the basis of some predetermined plan or upon pure political expediency of the moment, what lines of industry and even what individual enterprises shall have the credit."

"Every government is an organ of party power and must respond to the will of the party that put it in power," the Jordan article says. "Under unchecked government operation it is an inescapable tendency of every currency to depreciate and for credit to expand. However much it may be in the interest of the nation, deflation is too dangerous politically for any government."

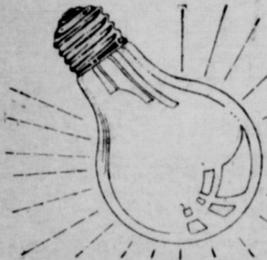

"In the end government banking and currency management resolve themselves simply into the use of credit as a political instrument of power, and this instrument tends to be used in the long run for expropriation of the community's savings."

BANKERS SUPPORT FARM COMMISSION

The Agricultural Commission of the American Bankers Association is promoting widely among bankers the practice of aiding their farm customers in installing on their farms better financial, accounting and operating methods. It also operates in the endeavor of assisting bankers' associations along similar lines.

The commission has published a book on "Making Farm Investments Safe," presenting a compendium of helpful material published over a period of years as a reference guide in the daily routine of banking and farming relationships. It has also published "Factors Affecting Farm

Using Ample Electric Light is Real Economy

The "Light" Idea
is the Right Idea

Yes, the Whole Family Really Enjoys and Appreciates Better Light

Visit our showroom and inspect the new I. E. S. indirect Floor and Table lamps. These are the latest in design for beauty and eye conservation. Buy one of these Better Light-Better Sight lamps for only a small down payment. Pay the remainder on your electric service statement each month.

Families who have taken advantage of the improvements made in home lighting now enjoy one of the greatest advancements since the discovery of the incandescent lamp.

Newly designed I. E. S. lamps, created for students and other members of the family who do difficult visual tasks relieves eyestrain. These lamps are now on display at our showroom.

Take advantage of our most liberal offer and secure one of these lamps. It will protect your most valuable possession—your eyesight.

Mr. J. A. Tipton of Northfield community was transacting business here Wednesday of this week.

MOVIE CHATTER

By A Rogue

"The Texas Ranger"

You bad men of the wild and woolly west had better be on the look out Friday and Saturday as a Texas Ranger will ride among your midst to get the unlawful ones at any cost. Buck Jones is that ranger and he's here to thrill you

as never before. Put on your boots and chaps and come out to the Rogue to see "The Texas Ranger"

"The Farmer Takes A Wife"

Sunday and Monday Janet Gaynor and Henry Fonda (a new star and a really good one, too) are featured in "The Farmer Takes A Wife". In the beginning of the picture you'll wonder where and how this "farmer" business as the picture is made on the Erie Canal, in the days when it was most important, but if you'll wait you'll see this farmer. He really takes a wife, but see how it is done. Slim Summerville, as the dentist, furnishes plenty of comedy.

"Public Hero No. 1"

As has already been mentioned in last week's paper, this picture will be for benefit of fire boys and is a jam-up good picture on the G-Men type. A good story, plenty good actors as Lionel Barrymore, Jean Arthur and Chester Morris; the title is "Public Hero No. 1". Come see this show Tuesday and Wednesday and help the fire boys. There will be other Tuesday and Wednesday pictures.

Football . . .

(Continued From Page One)

The next score came after Red Titus had recovered a Turkey fumble on his own 31 and Gates had carried the ball to the 4 on a 65 yard run, Washington going around end for the score. Gates hit the line for extra point. Washington carried the ball over on a 30 yard run thru center for the next tally in the second quarter and kicked goal for the extra point.

Late in the second quarter Webb carried the ball around end for two yards and a score. Washington kicked goal for extra point. Score at the half Matador 34 Turkey 0.

With Gates and Blackshear pounding the Turkey line, the Matadors scored early in the third quarter after a 50 yard drive up the field, Blackshear going over from the 3 yard line. Washington passes to Pritchett for the extra point. The second score in the third period came after Washington had intercepted a Turkey lateral. Washington went around end for the score and kicked extra point.

A blocked Turkey kick helped the Matadors continue their scoring. Gates going around end for 15 yards and a score. Washington's kick for the extra point was wide. Gates again crossed the goal line after a 25 yard jaunt around end. Gates kick for the extra point was blocked. Charley Seaff scored the last touchdown mid-way the fourth quarter on an end run. R. E. Campbell kicked goal.

Starting Line-up

Turkey	Pos.	Matador
Meacham	LE	Titus
Price	LT	Brown
Gafford	LG	Willis
J. Hill	C	R. E. Campbell
Cheshire	RG	Faulkner
E. Hill	RT	Ford

Massie	LH	Gates
Mullins	RH	Washington
Liscomb	FB	Blackshear

First Downs: Matador 18, Turkey 4. Yards gained on running plays, Matador 475, Turkey 121.

Kicks: Matador kicked twice for an average of 60 yards. Turkey kicked 4 times for an average of 36 yards.

Passes: Matador attempted 5 passes, completed 1 for a gain of 6 yards and had one intercepted. Turkey attempted 15 passes, completed 7 for a gain of 62 yard and

1 intercepted. Penalties: Matador 4 times for 30 yards, Turkey 2 times for 16 yards.

Red Cross . . .

(Continued from Page 1.)

of them are preventable." According to Red Cross figures millions of people are injured in the home each year. Last year more than 34,000 were killed and the number permanently disabled by accidents occurring in the home ran into six figures. "People do not realize that the home is not safe," Mr. Harbour stated "and it is the purpose of the Red Cross program to correct this erroneous belief, to point out common and uncommon home hazards and show how each may be eliminated and to conduct an actual inspection of the homes of this community."

Educational Program

A program of this nature, Mr. Harbour pointed out, is of necessity largely educational in character. The Matador Chapter will campaign against disinterest and fallacy through the medium of the written and spoken word. A comprehensive public speaking schedule is being arranged in an intensive effort to make children and parents aware of the very real danger which lurks in the home itself. The generous cooperation of newspapers and various publications have been enlisted. Individuals, civic and social clubs and business groups are being contacted. Many have already pledged their aid. A number of national organizations have signified their willingness to help the Red Cross minimize home accidents and the close cooperation of the local branches of these organizations is anticipated.

Home Inspection

"Special home inspection forms have been prepared," Mr. Harbour said, "and are to be introduced into the homes here through the children in our schools. Arrangements have been made with school superintendents, principals and teachers so that school children will receive these blanks, take them home and conduct an actual inspection of the home to eliminate accident causing hazards with the help of parents or relatives and return the blanks to the school, where they will be forwarded to the Red Cross for compilation of statistics to indicate what type of home accident hazards is most prevalent."

Local Committee

The local Red Cross states that the Committee in charge of this special program will be chaired by B. F. Harbour. Other members of the Committee are as follows: Ben Meador, Dr. Albert Tra-week, Dr. J. S. Stanley. This home safety campaign, it is understood, will also include farm safety and safety while at work on the farm. Because of the inaccessibility of farms and the difficulty of securing accident statistics pertaining to them, little safety pioneering has been done in this direction.

"Preventing unnecessary death and alleviating human misery," Mr. Harbour, Chapter Chairman pointed out, "is a chartered obligation of the Red Cross, and home safety," he said, "is a natural outgrowth of First Aid, a Red Cross service which has been in effect for some 25 years and is annually responsible for saving many lives."

Nationwide Scale

"The accident prevention campaign," he said, "will be carried out on a nation-wide scale and each of the nearly 13,000 Red Cross Chapters and Branches will play a part."

Mr. Harbour indicated that the campaign would not be an intensive affair of a few months which would subsequently be dropped but, rather, would be a continuing year-by-year program to prevent unnecessary deaths and accidents in the home and on the farm.

The Red Cross believes that knowledge of first aid will do much to prevent home accidents. A person instructed in first aid is accident conscious; and certainly, when an accident does occur in the home, the practical application of first aid knowledge may prevent a minor injury from crippling, a serious injury from killing.

Chevrolet Motor Co. Increases Output

The Chevrolet Motor Company, preparing for the introduction of its 1936 models on November 2, has reopened all its manufacturing plants and its 10 assembly plants, and will have built more than 65,000 units by the end of October.

Schedules for November and December call for a greatly increased production. The introductory day for the 1936 Master deluxe and Standard models, Chevrolet officials say, will find every one of the company's 10,000 dealers stocked with display cars and in a position to take orders for immediate deliveries.

It is expected that sales in November and December, months that heretofore have been dull, will be brisk, under the impetus of the new model announcement, and the large automobile shows, formerly held after January 1. The former show dates were not conducive to large selling, coming as they did in the coldest months of the year. This year's shows open with two whole months of pleasant weather remaining, and it is the industry's belief that many motorists will buy new models at once.

Employment is increasing rapidly in Chevrolet plants, as the supply of units and bodies for the new models increases daily. The change over from 1935 models to 1936 models was completed early in October, after a brief shut-down during which plants were re-aligned for increased production.

According to W. E. Holler, vice president and general sales manager, Chevrolet dealers will have the advantage of an ample supply of the new models from the very start of the new selling year.

"The enthusiastic reception accorded our 1936 models by our own field forces, during their convention in Detroit, is now being repeated, in every region and zone territory, by our dealers. They all agree that Chevrolet has done a

great job in its new cars, and they all are enthusiastic over the business prospects. We feel that the public will be just as responsive to our 1936 cars when they go on public display November 2."

Norris Ford: "Quick, Bodie! A wild cat just run into your house where your wife is."

Bodie: "Well I can't do anything about it. He will just have to get out the best way he can."

Tester Tested. Donald Groves, while taking an exam: Mr. Gray: "How many ears has a cat?"

Donald: "Two"

Mr. Gray: "How many eyes has a cat?"

Donald: "Two"

Mr. Gray: "How many legs has a cat?"

Donald: "Say, Gray, Didn't you ever see a cat?"

PUBLIC CONFIDENCE CONTINUES TO GAIN

Bankers Report Nation-Wide Improvement in Goodwill Toward Banks

NEW YORK—Ninety-six per cent of over 300 reporting clearinghouses throughout the United States find concrete evidence of favorable turns in public opinion regarding banks, it is shown in the results of a survey made by "Banking," the monthly publication of the American Bankers Association. City and country districts in every state are represented in the survey. It points out, "The outstanding conclusion is that there has been a genuine nationwide improvement the last few months in the attitude of the public toward its banking institutions," the publication says. Statistical evidence on which the bankers base their conclusions which warrant this statement is described as follows:
