Say did you hear about the smash up? Nine of our high school students were in a car wreck Sunday afternoon. However, no one was seriously injured.

A new lunch room has been put in under the management of the Child Welfare Association. They have added several additional customers. The relief fund will pay for one meal a day for school children in families on the relief roll.

The association found it necessary to raise the lunch fee to twelve cents for two reasons: first, food materials have advanced so much in cost that the lunch room was unable to pay operation cost on former lunch fee. Second, the relief agency pays twelve cents for each lunch and hence it was necessary to raise the fee to all.

Sports Report

Score 7-7
The Matadors journeyed to Spur Friday for their first conference game. They brought back a tie verdict. The boys thought they lost the game on 20 yard line penetrations, but a phone call to Austin and a district committee meeting held here Tuesday night brought to light that 20 yard line penetrations did not count as an elimination act. The Matadors scored in the second quarter when Beryl Blackshear, our line-busting full-back, tossed a nifty little 20 yard pass to Odell Washington over the goal. Jesse Spencor then made a very pretty conversion from placement. The score was 7-0 at the half in Matador's favor. Coach Wadsie of the Bulldogs must have told his team something for they also passed over the goal line for a counter. Scroggins converted. The game continued this way for the rest of the game. The Spur Bulldogs will play here the 16th or 23rd of November if both Matador and Spur beat Floydada and Paducah. If Coach Stanford's chargers beat the Floydada Whirlwinds and Floydada beats Spur the Matadors are already winner of this side of the district. Come and see the Matadors beat the Whirlwinds next Friday on Burlington Field.

Modern produce market has been established in our town under the management of Mr. and Mrs. Albert Hodges. Located in the First State Bank building, a sanitary apartment has been arranged to take care of any amount of cream or other form of produce they may receive. Highest prices are offered and courteous treatment is always insured to any patrons who come there to trade.

Smith-Thacker

The announcement during the week of the marriage of Miss Addelle Smith to Mr. G. B. Thacker came as a surprise to their many friends and relatives. The fair young bride is the talented daughter of Mr. and Mrs. A. J. Smith and was reared in our community. The bridegroom is the son of Mr. and Mrs. Guy Thacker and has lived here almost all of his life. Both of these young people are graduates of Roaring Springs high school and have a long and happy life together. The marriage ceremony was read by Rev. R. L. McClung, pastor of the First Baptist Church in Floydada, August 19, 1934.

COLEMAN Automatic ELECTRIC IRON

THE Coleman Automatic Iron saves \$2 to \$5 a year on electric current.

When it reaches the temperature at which the thermostat is set, the current is automatically cut off. It "counts" or "free wheels" on stored heat. 40% of the time it is in use it consumes no electricity. This saving on your electric bill goes on year after year as long as you use your Coleman! This same automatic action of the thermostat eliminates fire danger and scorching of clothes. Saves work... does more than the ironing.

The Coleman is beautifully designed and finished in super-chromum. Has long tapering point, button level and glass-smooth ironing surface. Come in and see this beautiful iron. Let us prove our statements about the money it saves you.

Roosters on roller skates, next?

With everything "going mechanical" on the farm these days, one wonders if soon there won't be roosters on roller skates. Trucks, tractors, windmills, pumps, incubators, electric lighting plants—each of them needs some special fuel or some special lubricant. To aid you in keeping track of these needs Sinclair has developed a Call-me-by-postcard Service free to farmers. We supply you with postcards requiring no postage on which is printed a list of the principal Sinclair products. Opposite each item is a space for noting down the number of pounds or gallons you require. As your supply runs low you simply set down the amount required, sign your name and drop the postcard in the mail. The mail carrier and we do the rest. May we call and leave a supply of cards? We sell Sinclair Opaline and Sinclair Pennsylvania Motor Oils, Sinclair Tractor Oils, Sinclair Gasolines, Sinclair Super-Flame Kerosene, Sinclair Cup and Sinclair Axle Greases, Sinclair P. D. insect spray.

By A Rogue

Friday and Saturday we are offering you the last of the John Wayne westerns, made by Vitagraph. These Vitagraphs have been good ones folks and this "Ride Him Cowboy" is no exception.

Sunday and Monday comes W. C. Fields. Buster Crabbe, Joan Marsh and Adrienne Ames, in "You're Telling Me." This is a very, very good comedy and will certainly be liked. I'm limiting talk on pictures because I have something else to say.

I'm advertising for your benefit and mine, that another tent show is coming to our town next week to take, if possible, a lot of our cotton and government money out of our town. Well, they are coming in here with the usual reduced prices, on a week where I had the biggest picture of the year booked, "Viva Villa," on which I intended to make some money, which I have not done in a long time. Well, that makes me mad! And little Willie is not going to be idle. I will show every night that week when I will try to keep that hard earned money from leaving our town. I feel sure that you had much rather see entertainment by the best actors and actresses in the world, than that by amateurs. That's the comparison.

I'm for the town, council and league. In fact all our local enterprises, and it may be good business to sponsor such, but I fail to see it. I'm not blaming anyone, just trying to reason with everyone. I gave a pie supper here in the show, all proceeds going to the Fire Department and told the whole bunch, all good friends of mine, that any time they needed some more money

Senior Report

Who said the modern girls aren't domestic? To prove that they are, Evelyn Fulkerson, a member of the Senior Class, had a quilt which she made, in the Baptist Ladies Quilt Show, Saturday.

The Seniors are very proud of their high averages. Forrest Faulkner has the highest average in our class which is 94.4. Robert Pritchett is second with an average of 90. Eight Seniors have never been absent nor tardy the first six weeks. Four Seniors were on the Honor Roll. Seven Seniors received no demerits and fifteen Seniors have an average of 90-99 in conduct.

Junior Report

Several members of the Junior Class were in the carnival last night. They were not recognized because they represented "negroes."

The class is proud to have a large number of Juniors on the Honor Roll and Distinguished List this six weeks. They hope there will be more next six weeks.

Sophomore News

History II had a big debate last week between the "Big Ears" and the "Red Heads." The "Big Ears" were victorious.

English II is studying "Silas Marner." Lorene Kingery has her doubts about Sila being an ordinary man, for she asked if Silas Marner had a beard. Clayton Titus came back with, "most men do, don't they?"

The class is very sorry to lose one of their "red-headed" classmates, Walter Clements.

Freshman News

The Freshmen Class has charge of the assembly program this Friday, Nov. 2, at 9:45 o'clock. Everyone is invited to attend the program.

All of the Freshmen made fairly good grades this six weeks considering the fact that this is their first six weeks in high school.

Perfect attendance: Betty Jo Simpson. The seventh grade will give a program at 1:10 Friday.

Sports Report

Score 7-7

The Matadors journeyed to Spur Friday for their first conference game. They brought back a tie verdict. The boys thought they lost the game on 20 yard line penetrations, but a phone call to Austin and a district committee meeting held here Tuesday night brought to light that 20 yard line penetrations did not count as an elimination act. The Matadors scored in the second quarter when Beryl Blackshear, our line-busting full-back, tossed our fifty little 20 yard pass to Odell Washington over the goal. Jesse Spencer then made a very pretty conversion from placement. The score was 7-0 at the half in Matador's favor. Coach Wade told his team something for they also passed over the goal line for a counter.

Generai News

The high school is taking the Wichita Falls Record News. They get it every day at noon. Everyone enjoys it, especially the sport page.

Say did you hear about the smash up? Nine of our high school students were in a car wreck Sunday afternoon. However no one was seriously injured.

A new lunch room has been put in under the management of the Child Welfare Association. They have added equipment to take care of seventy additional customers. The relief fund will pay for one meal a day for school children in families on the relief roll.

The association found it necessary to raise the lunch fee to twelve cents for two reasons: first, food materials have advanced so much in cost that the lunch room was unable to pay operation cost on former lunch fee. Second, the relief agency pays twelve cents for each lunch and hence it was necessary to raise the fee to all.

The District Executive Committee meeting was called Monday by Chairman B. F. Tunnell, to meet in Quitaque. The following superintendents and members of the executive committee attended the meeting: Supts. Sam Hall, Spur, A. W. Lewis, Roaring Springs; B. F. Tunnell, Matador; B. F. Harbour, secretary of the board, Matador; C. E. Jackson, Paducah; A. D. Cummings, Floydada; J. W. Jones, Lockney; Lee Vardy, Turkey; E. W. Scheid, Quitaque; G. L. Farrar, Wellington; who acted as temporary chairman and high school principals; also Gore of Memphis and Perack of Estelline. Every member school in the conference was represented. Mr. Stanford, Elmer Stearns and Captain R. E. Campbell also went from here.

The controversy between Spur and Matador was whether or not

the 20 yard penetration rule was in effect in the Spur game last Friday. Spur contending that it was and that they won the game for having made the most penetrations and first downs. Matador contended that the penetration rule was not in effect and that the 7-7 score was a tie. The district executive committee sustained Matador's contention and declared the game a tie.

Pepp Squad

The pep squad had good luck with their drill at the Spur game. A new drill is being worked out this week to be given at the Floydada game.

The pep squad has two mascots, Henrietta Thomas and Jerry Stanford. Jerry has been unable to join Henrietta because his suit had not come in. However it came this week and he will be

"decked out" in a football suit for the game Friday.

Were you at the pep rally and bonfire Thursday night? If not you should have been there. The pep squad gathered in the light of the fire and gave a number of yells and songs. Then the Fire Boys took the girls around to tell the football boys, with songs and yells, that they were behind them. The pep squad hopes to have more pep rallies this season and hope the people of the town will come to them.

The pep squad appreciated the interest of the Fire Boys and wish to thank them.

Miss Ellen Storm of Kirkland is spending the week with her sister, Mrs. A. A. Harp.

Coleman Automatic ELECTRIC IRON

THE Coleman Automatic Iron saves \$2 to \$5 a year on electric current.

When it reaches the temperature at which the thermostat is set, the current is automatically cut off. It heats "coasts" or "free wheels" on stored heat. 40% of the time it is in use it consumes no electricity. This saving on your electric bill goes on year after year as long as you use your Coleman! This same automatic action of the thermostat eliminates fire danger and scorching of clothes. Saves work... does more than the ironing.

The Coleman is beautifully designed and finished in super-chromium. Has long tapering point, button level and glass-smooth ironing surface.

Come in and see this beautiful iron. Let us prove our statements about the money it saves you.

Roosters on roller skates, next?

With everything "going mechanical" on the farm these days, one wonders if soon there won't be roosters on roller skates. Trucks, tractors, windmills, pumps, incubators, electric lighting plants—each of them needs some special fuel or some special lubricant. To aid you in keeping track of these needs Sinclair has developed a Call-me-by-postcard Service free to farmers. We supply you with postcards requiring no postage on which is printed a list of the principal Sinclair products. Opposite each item is a space for noting down the number of pounds or gallons you require. As your supply runs low you simply set down the amount required, sign your name and drop the postcard in the mail. The mail carrier and we do the rest. May we call and leave a supply of cards? We sell Sinclair Opaline and Sinclair Pennsylvania Motor Oils, Sinclair Tractor Oils, Sinclair Gasolines, Sinclair Super Flame Kerosene, Sinclair Cup and Sinclair Axle Greases, Sinclair P. D. insect spray.

Prizes Are Awarded Who's Who Contest

The three prizes offered through this newspaper in the "Who's Who in Matador" contest conducted in last week's issue were awarded as follows: First prize—Ladies handbag, awarded to Luther Campbell. Second prize—\$3.50 Oil Permanent, awarded to Mrs. Glenn Leggett. Third prize—Woodbury's Toilet Set, awarded to Glenn Leggett. Answers to the questions in the contest, which was participated in by Matador business firms, were as follows:

Traweck Hospital—The Traweck Hospital will accommodate 12 patients. It has been established in Matador under the direction of Dr. A. C. Traweck for six years. \$20,000 is invested in the Traweck Hospital.

First State Bank—The First State Bank of Matador was established March 19, 1897. Its capital stock is \$37,500.00. At present deposits in the bank amount to \$307,533.05. Matador can well be proud of this strong institution.

The Motley Hotel—The Motley Hotel, which is owned and operated by Mrs. Newman, has twenty sleeping rooms. Rates are \$1.00 and \$1.50. Mrs. Newman makes a speciality of serving delicious Sunday dinners at fifty cents.

Higginbotham-Bartlett Co.—Mr. Marvin English, manager of the Higginbotham-Bartlett Co., has been in the lumber business 11 years. They feature Johns-Manville and Barrett's roofings. The nationally known Sherwin-

Williams paints are handled.

City Drug Store—Dr. G. S. Craven, owner of the City Drug Store, has been a pharmacist for twenty-eight years. He features Charme, Mardelle, Woodbury and Boyer cosmetics. Only dependable drugs are handled at the City Drug Store, the featured line being McKesson.

Bonnie Dee Shoppe—The price range of dresses at the Bonnie Dee Shoppe is \$4.95 to \$10.00. Millinery is \$1.95 and up. This shop, which keeps up-to-the-minute on styles, has been established in Matador four years.

Renee Beauty Shop—Permanents at the Renee Beauty Shop may be had at from \$2.00 to \$5.00. Mrs. Solon Lea, owner of the shop, has been in business here one year. One of the finest machines, the Frederick, is used for permanent waving.

Lea Ice Company—A tremendous amount of water is used by the Lea Ice Co., 3,105 gallons a day. The average amount of ice sold during summer is 11,000 pounds a day. The Lea Ice Co. plant, if running at full capacity, could produce 12 tons of ice daily.

Utility Rates - - -

The second step for lighting, making the new rate to any size house 9 1/2c per kilowatt hour for the first twenty-five kilowatt hours; 6c per kilowatt hour for the next twenty-five kilowatt hours; and all in excess at 4c per kilowatt hour, unless they have an electric range or electric heating, in which case all service used will be at 9c for the first twenty-five kilowatt hours, 6c for the next twenty-five kilowatt hours and 3c per kilowatt hour for all over the first fifty.

This gives a very simple rate structure; and while it does not equalize the cost of serving as correctly as does the room count rate form which had been universally adopted over the United States, it does provide an easy, understandable or incentive rate which this company feels will be more helpful in the development of increased business, or more restricted use of its service.

Our main purpose now is to increase our sales of electric service and bring back the revenue which will be lost through this proposed reduction and change, as well as increased governmental expenses. We have found that over the last eight or ten years, our consumption per residential customer has more than doubled; yet we are not collecting as much in dollars and cents per customer as we did when they used less than one half as much service. While we have materially improved service, and have supplied a large increased amount of service, Government statistics show that the utility industry collects from the domestic customer about 1 1/2% of his total household budget expenditure, while the investment by utility companies in facilities to render such service is many times that required of other household items, such as food or clothing, for which the customer pays over twenty times as much.

Utility companies, through private capital and private initiative, supply more electric service in the United States than is supplied from any other source in all the rest of the world; and yet it is surprising to learn that this nation pays \$100,000,000 more for the single item of tobacco alone than it does for the total of all household electric service supplied in the United States.

The West Texas Utilities Company believes that in changing from the room count rate schedule, which it proposes to do in all of its 160 communities within the next few months, it can improve its customer relations and

sell an increased amount of service. It is with this in mind that we submit for your approval, the attached new residential rate schedule. We propose to make this rate change effective with billing rendered for current consumed after meter readings in September.

Your acceptance and approval of this rate will be appreciated. Respectfully submitted,
H. H. Monk,
Dist. Manager

MANY BENEFITS TO BE DERIVED FROM CENTENNIAL GALVESTON, Oct. 20

Chief among the benefits of statewide scope to result from the Texas Centennial, in the opinion of Dean George E. Bethel of the Medical Branch of the University of Texas, is the recognition of the great Southwest as perhaps the most rapidly growing and developing portion of the United States. Many of the people who attend the celebrations in 1936 at San Antonio, Houston, Galveston, Brenham, Nacogdoches, Huntsville, Gonzales, Galveston, Dallas and other cities, he concludes, will sense then for the first time a culture peculiar to this Lone Star State.

"The significance of the Texas Centennial," said Dean Bethel, "is far reaching in portraying to the world the growth, development and possibilities of the Lone Star State. The growth of her industrial centers, the great development of her natural resources, including waterways along with the intra-coastal canal, will be portrayed in such a way that the Western Hemisphere will realize the importance of the great Southwest."

"Not alone is Texas first in size among the sisterhood of States, but also in cattle raising, cotton production, sulphur mining, potash, lignite and frequently in exports. The development of her schools and colleges, including her great University, and its branches, the Medical Branch located in Galveston, the College of Mines and Metallurgy in El Paso, and A. & M. College at College Station, form an important achievement, which was proposed by the fathers of this great Republic. The establishment of the Sealy-Smith Foundation at Galveston, a most

valuable adjunct to medical education in this State, represents philanthropy of the highest order. "Many benefits of State-wide scope will flow from the Texas Centennial. Chief among these is the recognition of the great Southwest as perhaps the most rapidly growing and developing portion of the United States, and the importance of this fact in connection with an outlet to Latin America in commercial enterprises. The future trade relations in the Western Hemisphere will be in a large measure with South American Republics, and it is through Texas that a great deal of this trade must of necessity pass.

"Many people will sense for the first time a culture peculiar to this Empire State, with its varied aspects and many sided values to civilization, which has been recorded in story by Professor Frank Doble of the University of Texas."
