Details Unknown Of Paratrooper's Death

Details surrounding the death of Pfc. Travis V. McDonald, paratrooper, who paid the supreme sacrifice in action in France on the 7th of September, are still unknown.

A letter received by his parents, Mr. and Mrs. Claude McDonald of Northfield, from Major General J. A. Ulio, dated October 4, only confirmed the message as relayed earlier in a telegram, and expressed the sympathy of the war department at their loss. "Unfortunately, reports of this nature contain only the briefest details as they are prepared under battle conditions and the means of transmission are limited", General Ulio's letter stated.

Travis V. McDonald was born at Northfield, Texas, May 11, 1923 and was 21 years, 3 months and 26 days old at his death. He attended Matador High School and following graduation in 1942, attended Texas A. & M. College in the fall of that year. He entered the armed service April 19, 1943 and trained at Camp McCall, N. C., and Ft. Benning, Ga., receiving his final training in Tennessee.

Following a furlough visit at his home at Northfield in April, he was sent overseas and landed in Italy. He was in the invasion in Southern France the 15th of August, he advised his parents in a

letter written just a few days prior to his death.

Survivors are his parents, one, sister, Mrs. Dorothy Carnes, and one brother, Foy McDonald. His paternal grandmother, Mrs. Ella McDonald also survives and is a resident of Glen Allen, Alabama, and his maternal grandfather, B. F. Simpson, of Northfield, is a pioneer resident of this county.

Mystery Surrounds Death of Sergeant

Mystery surrounds the death of T/Sgt. Harrold Faulkner, 24, whose body was found 40 feet from the entrance of the San Antonio country club about 10 a. m. Sunday morning. Sergeant Faulkner was last seen alive at a squadron party which he attended at the club about 11:30 Saturday night, where he spoke to several friends before departing, apparently to go home.

Funeral services will be held at the First Baptist church here at 4:30 p. m. this afternoon, by Rev. H. G. Verner, pastor, and interment made in Matador East Mound cemetery. He is survived by his wife Mrs. Harrold Faulkner of New Braunfels, Texas, a son William Ramond, age 20 months and a daughter, Patricia Elaine, age three weeks, his mother Mrs. C. M. Hammersley of Matador, three brothers, Lt. Forrest Faulkner of San Marcos, Pvt. Merritt Faulkner of Fort Myers, Florida, R. T. Hammersley of Matador and two sisters, Mrs. J. C. Green and Mrs. Hardy Berryman, both of Matador.

Decision of cause of Sgt. Faulkner's death is being withheld pending an outcome of an army investigation. His body was found on an abandoned parking lot 10 feet from the driveway, in an area overgrown with weeds. He had suffered a large laceration on the back of his head, extending down to his left ear. Found face downward, bleeding at the mouth indicated internal injuries, examiners declared. Automobile grease was found on his uniform and green car paint was found on the side of his head and in his hair. Army examiners estimated the time of his death between midnight and 3 a. m. Sunday morning. He had not been robbed.

Matador High Graduate
Sgt. Faulkner was a graduate of the Matador High school, class of 1939. He moved with his mother to Matador in 1928 and had spent most of his life here prior to his death.

Million Dollar Crop Awaits Harvest Help

Abundant Fields Jeopardized Through Critical Shortage Of Cotton-Pickers

COTTON estimated to yield between \$750,000 and \$1,000,000 in Motley county may suffer severe weather damage if cotton-pickers are not secured in sufficient numbers in the immediate future according to farm leaders. Producing rapidly after the delayed rains, cotton and other crops in the West Texas county now indicate that the yield may exceed that of last year, which was in the neighborhood of 10,000 bales. Leading farmers in the Roaring Springs, Whiteflat and Flomot areas believe the feed crop prospects are better than in many years. An area extending about Matador suffered from the prolonged drought until it has failed to recover after the rains.

Cotton ginning is far below the same date last year despite vast fields white with open bolls. County Agent J. R. Emmons has been trying frantically to procure sufficient help through Texarkana, College Station, San Angelo and Robstown, where pickers are reported available. Mr. Emmons said yesterday that a few more Mexicans are arriving each day but far short of the supply needed to fill the demand of farmers. He said less than 200 itinerant pickers are estimated to be in the county while 500 to 1000 are needed to harvest cotton now open in the fields.

Frost Will Be Factor
Mr. Emmons declared that the first "killing" frost will be a factor in the total feed and cotton crop which the county will produce. Continued warm, "growing" weather this week may be expected to continue until about the 10th of November according to average frost dates. Well-grained row crops are already being harvested in the Flomot area. Most observers say that the entire crop is approximately 30 days later than last year. Official cotton ginning report made by special agent of the Bureau of Census, Maudie L. Marler, shows that 221 bales of cotton were ginned in Motley county from the crop of 1944 prior to October 1 as compared with 1,442 bales (on the same date) from the crop of 1943.

Spur Wins Over Locals

Pushing the striving but out-classed Matadors against the wall with a 27-0 defeat, the Spur Bull Dogs went out from under the lights on Matador Arena Friday night with three straight victories over their traditional rivals. The battered Matadors lost their first conference game of the season. However, the crowded field of paying customers felt they had received full value for admission. Unofficial reports are that gate receipts exceeded \$300.

A few "off" breaks probably prevented the Matadors from scoring in the one-sided game, which at times showed possibilities of scoring either way until the Bull Dogs hit a stride after the first quick touchdown early in the first quarter. Spur back Rumfield raced over approximately 50 yards for the first score. The Matadors held their aggressive guests back in the second quarter, but half back Draper piled up two more touchdowns in the third and a third in the fourth, with extra points. Spur fans that constituted an estimated half of the attendance, were wild with elation after their team started the scoring music. The Matadors achieved 7 first downs to 10 gained by their visitors.

Spur backed up for a total of 95 yards in five 15 and four five-yard penalties, as against four five yard penalties for the Matadors. The Matadors go to Petersburg Friday night and fans are assured another good game under more evenly matched conditions.

Lions Hear Veterans

Pfc. William K. Birchfield

Members of the Matador Lions Club heard two returned Southwest Pacific veterans, Pfc. William K. Birchfield (Army) and Sgt. Clyde Duncan (USMC) relate experiences in fighting the Japs, as honored guests at the organization's regular Tuesday meeting.

Pfc. Birchfield (above) who has returned from 29 months overseas, said it was his opinion that but few men in the Southwest theatre of war would be interested sufficiently in the election, to vote. Asked if he had expected more from the government and people back home than he had been offered, he replied, "I have had more offered me than I expected." Son of Mr. and Mrs. J. M. Birchfield, the veteran had a part in campaigns on New Guinea, Cape Gloucester, New Britain and Guadalcanal.

Sgt. Duncan, who enlisted in the Marines in August 1940, went overseas in January 1942. He was in New Caledonia, Fiji islands and arrived in the Solomons in August 1942. He had a part in the conquest of Guadalcanal, and later took part in the new historic battles of Tarawa and Saipan. He left Saipan August 21, 1944. Sgt. Duncan is the son of Mrs. Laila Duncan of Matador.

Other visitors at the luncheon were Lee Thomas, C. P. Price and Travis Burgess, blind musician of Plainview who furnished guitar music while the meal was in progress. Second vice-president J. R. Emmons served in the absence of Boss Lion D. E. Pitts.

H. C. Duncan, manager of the Farmers Cooperative gin was welcomed into the club as a new member.

Both teams showed good defensive football. Matadors scored 7 points in the first quarter, no score was made in the second quarter while they returned with six additional points in the third stanza and made 13 points in the final 15 minutes of play.

BOYCE HOUSE'S "TALL TALK FROM TEXAS" AMUSING

Boyce House, author of "I Give You Texas!" (10 editions within a year), is out with another book, equally humorous, "Tall Talk from Texas," Naylor Company, San Antonio, Publisher.

"Tall Talk from Texas" by Boyce House, Fort Worth newspaper-radio columnist, continues to develop the rich vein of Lone Star State humor which the author first uncovered in his record-breaking "I Give You Texas!" now in the tenth edition, with a sale of more than 70,000 copies to date.

When one read "I Give You Texas!" he felt that House had succeeded in rounding up just about all the jokes of the State but in "Tall Talk from Texas", there are just as many more and just as funny—which will be good news, especially to the service men from Texas who, all around the world, have chuckled at the first book.

The book contains a select group of cow-country poems and a stirring oil field ballad, "There's a Churchyard Down at Ranger"; also House's after-dinner classic, "How I Took Hollywood by Storm" delivered over 300 times and pronounced by J. Frank Dobie to be as funny as Irvin Cobb's "Speaking of Operations."

Then there is the farmer's letter about "not raising hogs" and the country editor's review of the movie, "Gone with the Wind," either of which alone is almost worth the \$1.79 that the Naylor Company of San Antonio, publisher, asks for the handy, illustrated book of real Texas humor.

BUY WAR BONDS NOW!

Nobody is going to save your money for you. You'll have to do it yourself!

LOOKING ahead to the future and planning wisely is more important today than ever. With the longer hours and harder work the war has brought, your equipment is wearing out pretty fast. Few replacements are available. But the day is coming when full lines of everything will be on the market again—and then you're going to need a lot! Nobody else will save the money to meet those future needs. It's up to you to do it yourself.

On farms and ranches all over the country, owners and tenants are salting down their dollars in the War Bonds which will mean so much to their post-war prosperity. It's the safest and easiest way to save. Uncle Sam stands behind them. You can buy them in large or small denominations, to suit yourself, and you can get them at bank or post office or Production Credit Association. Between trips to town you can buy by mail, or ask your rural mail carrier to get them for you. The wise, farsighted plan is to keep right on buying them.

Save your money for your boy, too. His great dream, wherever he's fighting, is to get home as quickly as possible. The least you can do, now, is to buy the War Bonds that help provide his fighting equipment. But when the war is over, then the money you've lent to the Government will come back to you . . . and you and the boy can use it together. The farm will mean more to him than it ever has, and he'll be proud of you for the way you've stood behind him and provided ahead for future needs. War Bonds of your duty to your country, to your boy—and yourself.

YOU NEVER GET LESS THAN YOU LEND! And you can get 1/2 more than you invest. When held 10 years, Series E War Bonds yield 2.9% interest compounded semi-annually. You get back \$4 for every \$3.

Of course, no one should cash a Bond unless he has to; but if an emergency comes along, Uncle Sam will redeem them in cash—at full purchase price—any time after you've held them 60 days. BUY WAR BONDS!

FACTS ABOUT WAR BONDS (Series E)

The USD Bonds Sell:	Open Maturity you get back
\$18.75	\$25.00
37.50	50.00
75.00	100.00
375.00	500.00
750.00	1000.00

You can buy the Bonds from your bank, postoffice, mail and carrier or Production Credit Association.

For America's future, for your future, for your children's future—keep on buying WAR BONDS

WHAT LANGUAGE IS THAT?

Shoo-fly Clumb some Gandidancer How eye Snoble goble

Prof. Tak is a philologist. Words are his meat: Chinese, Sanskrit or Aztec. He can even understand his freshman daughter and soldier son!

But the talk he's hearing now has him baffled.

You, too? . . . Well, it's simply the everyday speech of the line crews who keep your home and community supplied with electricity—come what may.

A "shoo-fly," for example, is a temporary line built around a tree fall, washout or construction job.

These men don't coin curious words just for the fun of it. They use them, as a kind of oral shorthand—to speed their work and help bring you better electric service.

Lots of folks take the linemen's work for granted. But they are an essential part of the industry which—under experienced business management—has met every war demand for electricity—without shortage or rationing—at low prewar prices.

That's an accomplishment in any man's language.

*A "clumbsome" is an apprentice lineman. A "gandidancer" is a laborer. A "how eye" is a dead-end tye. "Snoble goble" is anything you can't remember by its name.

THE CAR IS 1-A BUT THE TIRES ARE 4-F

Be sure to get both Tire Saving and Car Saving Service

D-DAY IS HISTORY. And V-Day may well be, by the time you read these words!

But as a recent editorial in the September 9 issue of Collier's points out: "If we don't baby our cars and tires along as carefully as we can, the ominous fact is that we can run into a serious motor-transport breakdown on the home front."

The blunt words of the editorial echo what Phillips and its service station men have been saying month after month, beginning even prior to Pearl Harbor.

We quote it because some few motorists may have thought that our insistent emphasis on tire and car care was motivated by self-interest rather than by our patriotic sense of duty. So again we say, in our country's interest and in your own, be frugal with your dwindling stock of tire and car miles. Visit your Phillips 66 Service Station at least once a week for tire and car-saving services.

Phillips Tire Saving Service includes checking air pressures . . . inspecting for nail holes, cuts, and bruises . . . examination of the tire carcass to warn you when re-capping is necessary and still possible . . . crisscrossing with the spare every 3,000 miles.

Phillips Car Saving Service includes inspection of battery, air filter, and anti-freeze protection . . . regular lubrication of every friction point specified by the maker of your car.

With tires for A-card motorists not promised before mid-1945 . . . with cars wearing out and disappearing from the road at the rate of more than 5,000 a day . . . you must Care for your car For your Country, to help prevent a crisis in domestic transportation.

Drive in at any Orange and Black 66 Shield, the sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil, and you will get the patriotic cooperation and aid of the Phillips 66 Service Man in making your car and tires go farther and last longer.

The Ivory Mischief

(By Arthur Meeker Jr.)
(Now available at Matador City Library)

The smartest era the world has known was the era of Louis XIV. The most pampered and idle aristocracy was that of Louis XIV. The richest, fastest, most outrageous, most fashionable, most brilliant, most elaborate, most ornate, most arrogant, most amorous court in the history of our civilization was the court of Louis XIV.

None of the characters in "The Ivory Mischief" is imaginary. "The novel," says the author, "grew almost of itself out of my years of living and traveling in France, a long familiarity with French language and literature, and a passion for the lively grandeur of the Louis XIV period. It took me three years to plan it and three more to write it, during which I really breathed and had my being in the Paris of three hundred years ago."

This is a novel of two beauties at the court of the great Louis—dark-eyed, dark-haired Magdelon, and blonde, bored Cateau—whom you will follow from first love to the last dim memory of passion, from the French provinces to the court in Paris and into retirement. The strangest, most romantic of modern novels, in which there are no characters of fiction, for even the pampered lap dogs are historic personages.

Look to the Mountain

(by Le Grand Cannon Jr.)
Now Available at Matador City Library

Before they were twenty, Whit Livingstone and Melissa Butler had discovered that they wanted each other. They knew, too, that there was no place for them in the snug, settled village of Kettleford. So they set off, together and alone, up the long course of the Merrimack to the country of lakes and streams under the shadow of Mont Chocorus.

The story of their life together is both a saga and a romance, told with the simplicity and intensity of a genuine work of art. As you read it, there is no sense of the historical or of fiction. Its events are as real as if they were happening to you.

"Look To The Mountain" is its own kind of book, one of the rare novels which both magnificent reading and heart-warming to remember.

Ah... a neat knack had he that hushed back-seat driving!

Driving that's easy on passengers and cars is one far-reaching good outcome of War!

Handling the wheel and pedals like a professional became a wartime necessity. It favored the car and quit scaring the rear-seat riders. Now it's a great point of pride. Yet an even more envied product of fine car-sense is to own an engine that isn't showing its age. That demands sparing your engine from acids; from fiercely corrosive acids inside. You can do it by having your engine OIL-PLATED. All you need is a change to Conoco Nth motor oil that OIL-PLATES.

In the extra-limited seasonal driving that's now the rule, your engine "hoards" a surplus of acids. Every explosion adds to these acids. You don't drive enough for engine heat to eject them safely. But they won't go biting right through OIL-PLATING. This highly corrosion-resistant surfacing is attached all over your engine's fine inner finish as if by magnetism—an effect you must credit to costly pioneer research, responsible for the special ingredient in popular-priced Conoco Nth oil, patented.

You can't apply keen intelligence to the car that must last you, than to equip it with an OIL-PLATED engine—simply by changing to Conoco Nth oil for Winter. Your Mileage Merchant's Conoco station knows your correct grade. Go now. Continental Oil Co.

Quota Is Topped In One Day

Matador Tribune

MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, OCTOBER 26, 1944

PRICE 5c

Purses Open To Aid War Cause

VOLUNTEER SUPPORT of the citizenship of Motley County has established an outstanding record in reaching the \$2,330 quota assigned for the National War Fund. The quota has been reached in one day, or approximately that amount of working time. Members of the Matador Lions Club, sponsoring the drive, assisted by ladies of the community, had received contributions of \$1,250 Saturday night. Including a check from the Matador Land and Cattle Company for \$100, Matador workers received a total of \$1,401.46. Matador had a quota of \$1,000. C. W. Giesecke of Roaring Springs, who started work Saturday morning, collected \$416. Roaring Springs had a quota of \$375.

W. F. Morris of Union Corner, remote section of the county located in the southeast corner of the county, reported to county chairman Douglas Meador and asked to work his community which consists of only about six or eight households. Tuesday, Mr. Morris sent in his collection of \$48.

Work in Whiteflat community was not started until Monday because of chairman Meador's failure to request workers there until late Saturday. Whiteflat contributions received yesterday totaled \$210. Mrs. Bob Martin was chairman of the work. Fay Tipton of Northfield accepted the responsibility of securing funds in that community.

Flomot, with a quota of \$585, reported \$300 collected Tuesday, but much of the community still to work. Shelton Haynie, leader of the workers there, has exceeded every quota assigned him in previous drives. Observers believe that Flomot's total report will exceed the quota.

Thus, approximately the county's quota has already been raised in one day's work. Motley county, battered by drought, labor shortage and with hundreds of its ablest young men in uniform, has opened its purse to oversubscribe a war drive in one day. Workers reported an understanding and willing attitude among the people they solicited. The bulk of the fund was raised from average contributions. Motley county has no war industry, or large incomes. Earnings come from the soil, directly through farming and livestock, and labor. Little of the literature supplied by the United War Fund was used and publicity was handled almost entirely through news articles in the Tribune.

Regarding the success of the campaign, chairman Douglas Meador declared, "I thought I knew the people of my native Motley county. I believed we could report achievement of the goal by the end of the period set, Saturday, October 28. To complete the drive in one day exceeds my most optimistic expectations. I want to say in this statement, to hundreds of boys far from the eternal hills of Motley county, that many things may be changed in the world to which they return. One thing, however, a very precious thing, will always be the same. The spirit, the willingness and the generosity of the people of Motley county are still as they

Students Turn Out To "Pull Bolls" For Contributions

Desiring to have a part in the support of Motley county's War Fund Drive, the Matador high school student body has adopted by unanimous vote, a resolution to pull bolls in the cotton fields and earn funds with which support the drive.

School will be recessed at noon today that students may work in the fields. All funds earned thru the afternoon will be contributed to the drive and the drive for the infantile paralysis fund which is being conducted throughout the schools in Texas this week.

A contest will be conducted among the four high school classes. The two classes earning and making the largest contributions will be entertained at some later day, by the two classes losing in the contest.

The amount which the student body will contribute, will be earned by their own hands in the fields, and no additional funds will be requested of parents or relatives.

GI Joe Anderson Celebrates 4th With Plenty Fireworks

MCCLOSKEY GENERAL HOSPITAL, Temple, Texas, Oct. 10—Here's one "GI Joe" who celebrated the Fourth of July with plenty of fireworks—too many, in fact. He's T/5 Joe I. Anderson of Spur who was wounded in Normandy on July 4 by a Teller mine. Anderson, son of Mrs. Laura Anderson of Spur, formerly of Motley county, served as tank driver with a tank battalion in the Normandy invasion and saw his first action in that sector. He was riding in a jeep with some medics, enroute to a soldier who had been killed by an S mine when he was hurt. The Teller mine was in the road along which the jeep was traveling.

Anderson was looking at the dead soldier, a friend of his, when he set off the mine. "I had been bringing the medics up to him in a hurry because I wasn't sure my friend was beyond aid," he explains.

The medics with Anderson were British and included a captain and an aid man. Both were injured by the same mine that hurt Anderson. Referring to their courageous action, the Texan declares that "Those British would crawl into the mouth of hell if they were asked to."

Anderson went into the Army in May, 1942, received his basic at Fort Knox, Kentucky, and went overseas Aug., 1942—Texas Spur, Friends Visit.

Visiting the wounded veteran over the week-end were Mr. and Mrs. Von Muse, Mrs. Ceretha Franklin, Mrs. Marion Norris and daughter, Janelle, and Miss Clotelle Willie. Anderson told his visitors that within ten minutes following his accident, he had medical attention and within fourteen minutes had received plasma. He was in a hospital in England for two months before being returned to the states.

He sent a "hello" to his friends here and urged that the people write the boys in the service. He also expressed thanks for the paper and stated that he received it while on the front lines. Anderson lost his right arm, has both legs broken, and received facial injuries in the explosion.

RETURN HOME Mrs. R. E. Campbell and children, Charlotte and Carroll, returned home Saturday from Williamsburg, Va., after their husband and father, of the U. S. Navy Cons., had been transferred to the west coast.

Full parity price for farmers for their 1944 crop of upland cotton is assured under the new Commodity Credit Corporation purchase program regardless of whether or not it is under a government loan, Elbert P. Reeves, secretary of the Motley county AAA, said today.

The cotton will be purchased at the following prices: (1944 crop) Middling 15/16 inch, basis gross weight flat cotton at Memphis, Tenn.) Purchases will be made only from farmers who produced cotton in 1944 (cotton must be stored in CCC-approved warehouses).

Deer Refuge Will Be Located Here

More wild game is being located in Motley county through the State Game, Fish and Oyster Commission. A. S. Jackson, biologist for the organization was here last week and approved the Bob Echols ranch as a deer refuge after inspecting the territory. Mr. Echols has made application for the deer to be released here after the trapping season begins in the lower part of the state. The season begins early in November.

During his visit here, Mr. Jackson inspected the antelope released on the H. H. Campbell ranch two years ago. In one bunch of 27 antelope, about one third were young raised this year.

Mr. Jackson praised the work of the Motley County Game Management Association and said it was one of the most outstanding organizations of its kind in the state. He said Motley county is recognized as one of the most "game-minded" areas in Texas. He said interest in wild game and cooperation of land-owners has made it possible for the county to secure game for restocking.

H. D. MEETING TONIGHT

Women of the community are reminded that a Home Demonstration meeting will be held tonight (Thursday) in the office of County Demonstration agent, Miss Lois Jo Bentley.

Purple Heart Is Awarded Matador Soldiers In Italy

Purple Heart Award was recently received by two Matador soldiers, wounded in action in Italy, while serving in different theatres of operation.

Pfc. T. H. McCain Jr., of an Infantry division was wounded by enemy shell, but says, "... but before I passed out, his number was on the front side of my rifle. I hated to do it, but it was my life or his."

Sgt. Joe Berry Meador, with a U. S. tank battalion, also serving in Italy, has received the award for an injury received in a freak accident. Meador had been up at the front with a mortar platoon for seven days when his unit was relieved by a Negro unit, which was probably the first Negro combat troop to fight in that area. "... we started back to our rear area", he wrote, "and after we had driven about four or five miles I took a wrong road. We went down it about two or three miles and some Negroes were guarding a cross road there. One of them got all excited and fired his gun. It hit me in the neck. They rushed me to an army hospital and in six days I was back; my neck was just scratched."

Faulkner Funeral Delayed Awaiting Brother's Arrival

Funeral services for T/Sgt. Harold Faulkner, found dead near the entrance of San Antonio country club, Sunday morning, Oct. 15, were delayed here Thursday afternoon, when a message was received that his brother, Pvt. Merritt Faulkner, would not arrive from Fort Myers, Florida, before night.

Final rites were held for the former Matador high school graduate at the First Baptist church, Friday morning at 10:30. School dismissed for the services and Matador business houses closed in tribute to the high esteem with which the former resident was held. The funeral had been arranged for 4:30 Thursday afternoon.

Out-of-town relatives attending the services were: Mr. and Mrs. R. A. Butler and family of Chillicothe, Lt. and Mrs. Forrest Faulkner of San Marcos, Mrs. Alice Morgan of Brenham, Mrs. Lena Reynolds and daughter of Portales, N. M., Mr. and Mrs. Buck Smith of Portales, Mr. and Mrs. Jess Weaver of Earth, Mr. and Mrs. P. M. Faulkner of Breckenridge, and Misses Billie and Imogene Thomas of Sudan.

Disabled Veterans To Receive Gifts From This Area

Disabled veterans at McCloskey General Hospital at Temple, Texas will have a brighter Christmas, through gifts which are being collected at Lubbock for that purpose.

The campaign to collect gifts and donations for gifts for the veterans at McCloskey has been extended until Wednesday, November 15, those in charge of the drive have announced, and it is hoped that many additional gifts will pour in as a result.

More than 200 gifts and \$250. have been contributed by soldiers and civilians at South Plains Army Air Field and residents of Lubbock have turned in several hundred more gifts to the central collection point at Hemphill-Wells Co. in Lubbock. The deadline for contributions was extended to give residents of the surrounding area an opportunity to participate in the campaign, it was said.

The gifts will be prepared and wrapped by wives of officers and enlisted men at South Plains AAF. Each gift will bear a card from the person who donated it. All the gifts contributed in this area will be sent to McCloskey.

Miss Mailie Lee of Lubbock visited her parents, Mr. and Mrs. John Lee last week-end.

ABSENTEE VOTES REACH 34 TOTAL

County and District Clerk Richard A. Seay, said Monday that his office had received a total of 34 absentee votes, 16 of which are from servicemen. Absentee votes are valid when received up to 3 days before election. Some of the absentee votes received by Mr. Seay are War Ballots, which make it possible for servicemen who have not paid poll taxes, to vote in the national election (to vote for President and Vice-President) but exclude them from the state ticket. Where War Ballots and absentee ballots are received from the same men, the War Ballots are to be disregarded. War Ballots are sent to the Secretary of State and then forwarded on to the county and precinct which the serviceman designates as his residence.

Thieves Make Raid For Gas Coupons

J. W. (Jim) Haney, local Gulf consignee, is "gunning" for the thief or thieves responsible for the raid on his wholesale station here sometime Monday night or early Tuesday. Mr. Haney would like to recover the gas coupons taken from the office, the adding machine and the Ingersoll watch, but his greatest grievance is the loss of six or eight packages of cigarettes which vanished during the night.

Discovery of the burglary was made about 8:30 Tuesday morning when Mr. Haney found that the heavy wire on a south window had been ripped away to gain entrance to his office. Local officers were notified, who in turn secured the aid of State Highway officers from Plainview, for the purpose of securing fingerprints. Mr. Haney said that he did not believe any gasoline or oil had been taken from the warehouse, although the stock has not been checked.

Principal object of the burglary appeared to have been gas coupons. Wholesale gasoline stations were robbed in Tulsa during the same night. Amount of coupons lost by Mr. Haney, was not disclosed, but is estimated to be small.

Soldier Grateful For One Issue Of Tribune At Front

Pfc. T. H. McCain, who has received the Purple Heart (account elsewhere in this issue of the Tribune) for wounds sustained when he gave one of Germany's "supermen" the satisfaction of paying with his life to prolong the existence of "der Fuhrer", is grateful for the one issue of the home newspaper which he has received since he landed in Italy.

Excerpts from his letter are as follows: "I had better drop you a line to let you know what I think of the people of Motley county. They are tops with me from A to Z. I have received but one paper but I hope to receive more in the future so I won't be so lonesome to know what is going on around home.... I hope the people of Motley county will keep up the good work and buy all the War Bonds they can...."

The Tribune desires to express sincere appreciation for the following unsolicited contributions in support of subscriptions to Motley county men in uniform, received since last publication: B. F. Simpson (Northfield) \$3, Lester Terry \$1, Mrs. Bess Patton (Fort Worth) \$1, Mr. and Mrs. Doc Burrows (Wichita Falls) \$2.50, Mrs. Freddie Welling (Textile, Texas) \$2.50, L. B. Titus (Bakersfield, Calif.) \$1, R. L. Jameson (Whiteflat) \$1, Otis Smith (Roaring Springs) \$5, L. J. Fullington (Afton) \$2, W. A. Frank Hallford returned home Tuesday morning from a week-end visit to Lubbock and Hobbs, end visit to Lubbock, who is in N. M. His mother, Mrs. Mary Jane N. M. His mother, Mrs. Mary Jane Hallford, who also had been visiting in those places, accompanied him home.

Cotton Harvest Moving

Fruit of Motley county's 1944 cotton crop is moving out of the fields, fully a month behind usual schedule, according to farm leaders. A check of the county's seven gins at noon yesterday showed a total of 1,909 bales ginned from this year's crop.

Roaring Springs' two gins had run 901 bales through their stands. Flomot's two gin plants had a total of 550 bales. Three gins in Matador had a collective total of 458 bales.

Shortage of cotton pickers remains acute according to County Agent J. R. Emmons. He said the picture is the same in most west Texas counties, with little hope of relief in sight before the bulk of the crop is gathered in central Texas. He said a considerable number of Mexican pickers are coming to the county each week, but that some are always moving on. Weather conditions have been ideal for maturing late cotton and for pulling cotton during the past two weeks.

FOOD STORES IN COUNTY MEET OPA COMPLIANCE 100%

C. W. Giesecke of Roaring Springs, chairman of the Motley county War Price and Rationing Board price panel, has issued a statement that the October survey of food stores in the county shows 100% compliance with OPA requirements in both price and posting. Mr. Giesecke's panel is composed of four unpaid volunteers who make the surveys.

Mr. Giesecke's panel has accepted the responsibility of handling violations of retail selling prices. Under a new provision of the price control law, price panels have been directed to negotiate with retailers for a voluntary settlement involving payments to the United States treasury or to the customers in cases of overcharges.

If the price panel finds that records were falsified, payments were made on the side, or the violations were repeated after a warning from OPA, the panel is to send the cases directly to the district OPA office at Lubbock for handling.

Mr. Giesecke expressed his gratification at the cooperation being given the OPA by county food merchants, and declared he believed the same support would be found in price surveys of other fields in the near future.

Full Vote Urged At November Polls

Appealing to all citizens of Motley county to turn out at the polls on Tuesday, November 7, W. I. Rushing, president of the Motley County Farm Bureau, today declared that the nation needs as never before the sound judgment of rural and small-town America in deciding who its leaders shall be in the years immediately ahead.

"The stability of America," he said, "has always been in the grass roots—in the people back on the farms and in the small towns. These are the people who own or plan to own their homes and their land, the people who must pay taxes and who from long experience in running their own businesses are accustomed to making their own decisions. They should study the records of all the candidates and then make their wishes known at the polls."

"The tremendous task that is ahead will call for the best leadership America can offer."

General Election Ticket Is Ready

Printing was completed late Monday of the general election (saddle blanket size) ballots for Motley county voters. Including a wide margin, the over-all size of the ticket is 18x24 inches. Copy for the ballot, which will be distributed to Motley county's nine voting boxes for the November 7th election, was received Saturday. All typesetting and printing was done in the Tribune plant. (Darden Canyon voters will cast their ballots at Roaring Springs for the first time after requesting the boxes be merged through the legal process which was completed last month).

Matador courthouse voters may wonder where they will vote after the change following the courthouse fire. It has been made very simple by action of the Commissioners Court. Not a single vote in

Matador will be changed. All voters who formerly voted at the old courthouse, will vote at the new courthouse. All voters who formerly voted at the city hall will continue to vote at the city hall. The courthouse voting precinct was enlarged to include the two buildings purchased by the county for courthouse purposes, and no more. Since no residence is established in the buildings, the town's voting status remains unchanged.

Visitors At Scout Meeting

Distinguished visitors attended the regular Matador troop 60 Boy Scout meeting held at the Scout hut, Tuesday, October 10. Cecil Fox, Scoutmaster of Spur troop 36, made an interesting talk on the Boy Scout camp, Philmont, near Cimaron, New Mexico. Chas. H. Brace of Amarillo and Spur provided a motion picture projector and treated the membership to pictures of a Hawaiian volcano in eruption, Carlsbad Caverns, rodeo pictures on the Swenson ranch and a rattlesnake hunt near Spur. Other distinguished visitors included field biologist Alfred S. Jackson of the State Game Commission, Alvin Stearns, Gus Bird, Cecil Shelton and H. F. Pipkin. Scoutmaster Fox treated the group to cold drinks. The meeting was well attended by regular members.

Elbert Reeves gave an instructive talk and demonstrated the Fireman's Underwriters knot which aroused much interest among the boys.

Two new members, Cecil Carman and William Curtis Graham, were accepted into the troop.

There's a Shortage of Copies of The Dallas Morning News—But NOT of Our Desire to Serve!

The crucial shortage of newsprint paper has forced a curtailment of the supply of copies of The Dallas Morning News to our dealers in this county. Only a small part of regular shipments is possible until we are permitted by Government Authority to increase our consumption of newsprint.

Distribution for the present will be made from drug stores and newsstands, unless your agent can arrange otherwise.

We realize, with deep regret, that some of our old-time readers are not able to get copies of The News. We trust they will understand and bear with us while we're making every effort to restore service.

In the meantime, although many patrons will not have The News delivered to them temporarily, their names are still on The Dallas News' Big Book and we look forward to serving them again.

Dear Ben:

I received another Matador Tribune yesterday, dated August 17. It was the first one in three or four months. I thought I would thank you for the ones I do receive. I enjoyed reading the Service Men's column. Mail on the whole has been rather scarce for us.

I regretted to read of the boys being wounded. I am glad for those who are getting furloughs. Eighteen months ago today I started home the last time. It is quite trying on the spirits when a fellow thinks how long it has been, but one must brace up and make the best of it. Anyway, I am seeing some of the world all right. I have been to quite a number of countries and islands. We have visited a great city, whose name I can't call of course; but we had a very pleasant time there and saw many interesting things which I will tell you something of when I get home. I have seen lots of things that have saddened me, but of course we all do. I'd like to forget those things and remember only the more pleasant ones.

There is one fellow on board with me who could really be considered a neighbor. He is from Frederick, Okla., and his name is Cooper. He is the first fellow from real close to home that I have served with in nearly two years.

I still have a rugged time with seasickness. I can't seem to get over it even after 7 months.

This is all for now and will write you again soon.

Your friend,

Sharp Park, Calif., Box 1020 is the present address of **Frank J. Pohl**, Y 3/c, according to information furnished by his wife, who is with him in California.

Cpl. James A. Allen writes from overseas to advise that he has been receiving the paper pretty regularly the past two months. His V-Mail letter reads, "... am sure glad to get the paper and want to thank all of the ones that have been helping to send it overseas to the boys, and tell everybody 'hello' for me. I enjoy reading the paper very much."

Cpl. Allen's mail goes in care of the New York postmaster.

Sgt. Roy George writes to advise his change of address to: Co. C, 227th Bn. Camp Blanding, Fla., and says, "I want to thank you for sending the Tribune to me. I have changed addresses several times and it has always reached me. I know it is a big job to keep the changes of address straight, but we all appreciate what you have done for the servicemen. The Tribune always brings news of friends we wouldn't get otherwise. Thanks again for the paper."

A new address was recently furnished for **Pfc. N. L. Sanders**, former colored employee of Mr. and Mrs. Harold Jones at Roaring Springs. He receives his mail at an APO in care of the New York postmaster.

T/Sgt. Lyman B. Campbell was recently advanced to that rank, at the base in China where he is located.

Change was made the past week in the address of **R. T. Irvin**, S 2/c who received his mail in care of the F.P.O. San Francisco, Calif., and of **Pfc. Andrew E. Mize**, U. S. M. C., also from the same postoffice. APO of **Pvt. Judson T. Spears** receiving mail in care of the Postmaster, New York, N. Y. also changed recently, as did that of **Pfc. Gordon G. Turner**.

An interesting V-mail letter was received last week from **Vernon Chambliss**, CM 2/c of the N. C. B., written on Peleliu, Palau Islands, Sept. 25, as follows:

Dear Ben: By permission from the Island Command, I'm allowed to tell where I am. This is the first time I've been able to give my location, and it gives me somewhat of a feeling of freedom.

I guess you know as much about the battle here as we do, but we saw the real thing. I saw the Naval bombardment from about nine miles out, before the assault landings. I don't see how there could have been any Japs left alive on the island after such a terrific shelling and bombing. There were plenty here, though, and there still are plenty left in caves up in the hills. The snipers are yet to be cleaned out. The Japs really had a fortress here, but it couldn't take an American pounding, even if they did have over a quarter of a century to build it.

I came in on D-day to help unload the ammunition for the boys at the guns. I was passing the ammunition; had some narrow escapes of mortar and machine gun fire; and I'm truly thankful to Him that I came through Okay.

We don't have our camp set up very well yet, but hope to in a week or two. There is a lot of cleaning up to do before living conditions will be bearable. There's always this sort of thing after an invasion, you know. We had a pretty nice camp at Munda and hope to have one as good here before we leave. We are hoping to be back home before next spring.

I haven't had any mail in over a month but hope to receive some soon, because the 'airfield here is already in operation. I should have a bunch when it does come in, and maybe I'll have three or four copies of the good 'ol Tribune.

I still haven't met anybody over here from home. It seems that I'm always in the out-of-the-way places and don't ever see them. I sure would like to see somebody I know. Sincerely, Vern.

SPECIAL OFFERING TO AID WAYLAND

Purpose of the offering will be to supplement regular monthly gifts to the Cooperative program. This offering will be designated for Wayland College in the interest of Christian Education, to be used in the building of a men's dormitory in the Wayland College Enlargement campaign now underway.

Emphasis is being placed on the purchase of war bonds, in the name of some boy in service, during the Sixth War Loan drive which begins next month.

"If you would like to preserve any boy's name that appears on our Service flag, you may do so by buying one bond, series G, or F, and have it inscribed to Wayland College, A Corporation, Plainview, Texas. The name of the boy will be placed in the hall of that great dormitory", Rev. Verner explained. "It will help win the war now, and then it will help produce christian leaders for tomorrow."

Wartime motorists from coast to coast say... "No car like a Studebaker!"

LETTERS from owners have been streaming in to Studebaker headquarters from all sections of America—spoken, fact-packed, impressive letters praising the remarkable reliability and low-cost performance of Studebaker Champion, Commander and President cars.

We publish a few of those comments here. They tell you better than we could why Studebaker owners these war days appreciate Studebaker engineering and craftsmanship and prudently hold on to their cars.

"Not for sale," says county official "Twice I've had attractive money offers for my Champion," says J. Stanley Howard of Liberty, Kentucky. "I won't sell because Studebaker economy and stamina in wartime mean too much."

"No engine repair bills," says this owner "My Studebaker Champion is a joy to own these days," writes college teacher Audrey L. Pachham of Florida. "I've had no engine repair bills."

Nicknamed the Weasel because of its stealth and swiftness, its sure-footed traction on virtually any kind of terrain, this new vehicle is powered by a Studebaker Champion engine and built by Studebaker under contract with the Ordnance Department, Army Service Forces. A water-borne Weasel, the M-29C, is also now in service.

You mean, it's that easy?

This Skeptical Gentleman represents many hundreds of thousands of automobile owners... intelligent, patriotic drivers who are determined to give their cars the best of care, who understand the nation's need for keeping every possible car running for the duration.

They require no long-winded arguments to convince them that quality oil is the best policy. They ask only: How can I select a quality lubricant, when I am neither an engineer nor a chemist? Isn't there some simple, easy way to make sure of getting a motor oil of quality?

There is! Phillips, with an outstanding reputation in the field, makes a frank and clear statement to relieve all doubt when choosing between the various oils marketed under this good name. Phillips says, if you want our best oil, remember we frankly tell you that Phillips 66 Motor Oil is our finest quality... the highest grade and the greatest value... among all the oils we offer to average motorists.

Oil wears thin in summer use. It also accumulates dust, metal particles, and oxidation products. So it's wise, say experts, to drain every two months, under today's reduced driving conditions. Especially when you make the seasonal change, ask for the correct winter grade of Phillips 66 Motor Oil.

Plans For Wayland Enlargement Told At Church Meeting

Plans for the enlargement of Wayland College, embracing the construction of several new buildings, were outlined at an All-Church night of the Baptist membership, held in the basement of the church Monday night.

Guest speakers were Mrs. J. H. McClain of Falls, State Stewardship chairman and Dr. John W. Cobb, dean of Wayland College.

Mrs. McClain explained the fund drive movement of the W. M. U.'s of District Nine, for the construction of a Bible-Science Building, for which purpose, a large contribution has already been received. Stamp books are being used by the women of the district, with which to purchase

bonds for Wayland. Dr. Cobb stressed the immediate necessity of a boys dormitory, and stated that several thousand dollars had already been raised toward this building.

Special music for the program included accordion selections by Mrs. A. B. Simpson and a quartette composed of Messrs. R. E. Campbell, Roy Reeves, Vernon Doss and V. J. Skaggs, with Miss Rachel Patton as accompanist.

An enjoyable covered-dish supper was served preceding the program. Tables were attractive with arrangements of fall flowers, combined with a Hallowe'en motif in orange and black.

Miss Dora Ratcliff of Lubbock spent last week-end here with her parents, Mr. and Mrs. Geo. Ratcliff.

Miss Francis Carpenter, teacher in the Berger school system, spent the week-end here with her father, W. W. Carpenter.
