Improvement Proposition

The proposition leading to the establishing of a desirable, efficient and sully time electric light plant, in connection with which will be operated a ten-ton daily ice factory, is taking definite proportions.

The gentleman who was here last week, made a written proposition to the City Council to the effect that he would put in the industry, if \$5,000 in stock was taken in the enterprise, or the present plant purchased and leased to him.

Either of these are fair enough, it would appear, and a committee was appointed by the council to see what could be done toward getting the stock subscribed, they to report within ten days, and if this falls down then the council will endeavor to purchase the plant by issuing city warrants.

Under the terms of either proposition, the interest taken will be retained by the subscribers and they cannot be much loser and the city have the reasonable assurance that the plant will be operated according to contract.

Both these improvements are sorely needed, as has been repeatedly urged, and not successfully contradicted, and this appears to offer a means whereby they can be secured and should be secured before it is too late.

Influenza Reported

Justin, Oct. 21—Of communicable diseases in Texas which State Health Officer Malone Duggan reported to the Surgeon General of the United States Public Health Service for the week ending October 18, influenza headed the list with 179 cases reported.

Measles were second with sixty-five cases, diphtheria third, sixty-three cases, and typhoid fever fourth, sixty-two cases.

Seventeen cases of smallpox were reported.

They Passed Us Up.

Owing to the fact that this town is the county seat of one of the best counties in West Texas, owns its own railroad, is headquarters for the Matador Land & Cattle Company and located just below the caprock, it had reason to feel that it was some town, but the conceit was taken out of us somewhat, when Aterbury Brothers "Anamel" show passed us up the first of the week, and this after billing us for a date.

The great aggregation, consisting of an elephant that is a "man eater," a grizzly bear with his phangs removed, a ring-tailed monkey and an immoral spotted pony, to say nothing of a consumptive prize fighter, was afraid to stop here for fear some of their tamed animals would become untamed, but they stopped at Whiteflat, where the elephant made a stand when he saw the abundant feed crop that has been raised in that section, and coming off the plains he had not enjoyed a square meal for some time. From there they went through here in broad daylight and stopped in the mesquite brush in the environs of Roaring Springs, where the animals must have thought they were back in their native lands, from the way they cut up and the people turned out to the show.

The Turkey Pool

All turkey raisers, or prospective shippers who wish to take advantage of the pool that is being organized in Motley county for the purpose of making an advantageous shipment for Thanksgiving, are requested to meet at office of County Agent Metcalf, in the court house, at 2:30, next Saturday, October 25th.

At this meeting it is desired to find out just how many turkeys are going to be available for the market and set a date for the delivery, which will probably be some time between the 5th and 10th of November.

Former Citizen Called By Death

A. G. Legirwood Dies Suddenly At Victoria, British Columbia.

Arthur Gordon Legirwood departed this life at his late home, in Victoria, British Columbia, on the 9th inst., death being due to heart failure, which attacked him while in bathing.

Mr. Legirwood was well known by all the early settlers of Motley county, having been manager of the Matador Land & Cattle Company's interests, with headquarters at the local ranch, from 1891 until his voluntary retirement in 1908.

He was a very progressive, conscientious and highly respected citizen and enjoyed the warmest friendship and unstinted confidence of all who knew him. He leaves a wife and two grown daughters.

The following account of particulars of his demise appeared in the Victoria Daily Colonist, of the issue of October 10th:

"Another victim was added to the long list of those who have lost their lives in the waters of the Gorge yesterday morning, when death came to Mr. Arthur Gordon Ligertwood, 210 Gorge Road West, while he was taking his daily plunge. He was seen approaching the public bathing houses near his home, dressed in a bathing suit and dressing gown. Later he was seen in the water. When some distance from the bank he showed signs of distress, and before help could be provided he had apparently lost consciousness.

Constable Hastings of the Saanich police department; Messrs. J. Young, W. Harman, W. Garrard, J. Gorst and others, did all in their power to effect revivification but were unsuccessful. Dr. H. J. Wasson was summoned and pronounced life extinct.

Was Widely Known

The late Mr. Ligertwood was widely known throughout Victoria and the surrounding district. He had taken a keen interest in various businesses in the city and was a member of several industrial and financial directorates. He is survived by a widow and a grown-up family.

During later years, or since he had retired from active business, he had taken a large interest in municipal affairs affecting the welfare of Victoria, and in this connection had served in many voluntary capacities. He was ever ready to give both time and financial assistance to worthwhile objects. His departure will be keenly felt by those with whom he had been associated in the general welfare work of the community.

The late Mr. Ligertwood made the bulk of his fortune as a rancher in the southern portion of the United States. He came to Victoria some years ago and made his home here. Funeral arrangements have not yet been announced.

County Court Gets Real Busy

Cleans Up Criminal Docket And Replenishes The School Fund.

For some time, or to be specific, ever since along about the time of the nominating primaries, the prospects for a prosperous session of the County Court have been most promising, and the rains and other favorable conditions have had a tendency to help things along.

We have always noticed that in dull seasons the religious revivals invariably meet with the greatest success, for then the people have more time to devote to the preservation of the soul, when the chase for the circulating medium becomes dull. On the other hand, you always have more fights and other infringements upon the peace and dignity of the individual, as well as the community, when the argumentative and combative have more money to procure the provocative utensils and with which to square their balance on the court record. Hence, we maintain that the prolific yield of the docket just renovated is no reflection upon the morality of our people, or our respect for law and order, but rather an indication of the era of prosperity so long in prospect and now being realized. We have had the price to pay and paid it, and as the officers of the law, who are charged with its enforcement, all got their "bit" out of the big pot and the school fund was an innocent benefactor we claim that it was nobody's business but those directly and financially interested.

The first to unroll their big roll of greenbacks and let go of them as if they were "but withered leaves and they the owners of unbounded forests," were J. H. Dennis and John Armstrong, charged with carrying concealed weapons, the scene of the former's activities being Northfield, and the latter displaying his indiscretion in the Whiteflat neighborhood. Both plead guilty and were fined \$100 each, with the accompanying incidentals.

E. Pyron, of Flomot, who had been indicted by the last grand jury, charged with gaming, had almost forgotten the incident, but was not willing to deny the charge, and was let off with a \$10.00 fine, etc.

Bert Wingo plead guilty to theft of a colored (man's) auto casing, and paid \$5.00—and, for the infraction.

John Dodson, who had been charged with aggravated assault in connection with the election riot at Roaring Springs, was willing to admit that the assault might have occurred, but that it was simple in its nature, and he was charged up with \$25.00, plus.

The battle royal came when the State alleged that L. E. Cooper was guilty of "toting" a deadly and dangerous weapon in, around a barber shop in Roaring Springs, about the prayer meeting hour on election day. Lige claimed that the gun was harmless and he more so, and that his intentions were at all times peaceable rather than destructive, and the jury before whom the case was tried agreed with his contention and he was acquitted.

L. B. Baker and John Thomas,

Grand Jury List

Following is a list of the Grand Jurors drawn for the November Term of the District Court of Motley County;

D. A. Davis, Roaring Springs.
O. G. Seigler, Matador.
W. W. Moore, Matador.
B. F. Simpson, Northfield.
W. A. Merrell, Flomot.
J. F. Montgomery, Polley.
A. Lee Havis, Roaring Springs.
M. E. Patton, Matador.
A. A. Groves, Matador.
D. S. Cargile, Roaring Springs.
C. M. Glenn, Matador.
Ed Whitaker, Whiteflat.
W. M. Graham, Matador.
W. R. Cammack, Matador.
C. M. McDonald, Northfield.
Ike Rushing, Matador.

The petit juries for the first two weeks of the term have been drawn and the lists will appear in next week's issue.

gentlemen of color and affluence, plead guilty to purloining some cotton sacks and knee pads from the premises of a Teepee Flat farmer and were punished by a fine of \$1.00 and one day in jail, all of which they seemed to have upon their irresponsible persons and they proceeded to liquidate in time and money.

George Dodson was given a clean bill of health when he admitted that in one instance he participated in one of the outgrowths of the unpleasant election affair, and also to having taken a hand in a little set-to between two alleged belligerents and a officer of the law, being required to pay at least one month's salary of a school teacher, same being \$25.00 in one case and \$5.00 in the other.

This cleaned the slate and some of the principal actors, and it has all gone into the records and memories of the past.

The injunction suit of J. W. Baker vs. N. W. Davis, involving a share crop raised on the W. B. Barton place, was decided in favor of the plaintiff. The probate docket was set for hearing on November 3rd.

Put On Night Watch

The question of putting on a night watch, or special policeman, has finally been disposed of favorably.

The business men have assumed the responsibility of paying the salary of the new officer, while the city simply had him sworn in and given authority to make arrests and enforce the laws of the municipality.

J. C. (Jap) Roberts has been appointed to the place, qualifying last Saturday, and entering upon his duties that night.

Jap will make a good officer, and always be found on the job—he is built just that way, and if he can not do a thing right he will not attempt it.

This is a wise move, for with the influx of strangers, some of them of questionable character, we never know just what element of a lawless nature may be in our midst, and already evidences of their deprivations are to be found. So far as the citizenship proper, is concerned, there has been no demand, and everyone felt secure.

Further, the winter season is at hand, when fire may break out at any time and the loss that may be stopped by a nightwatch would pay his salary a lifetime.

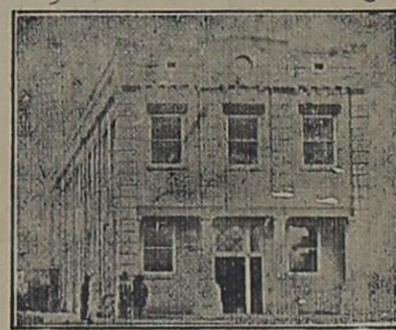

A Few Petty Thefts

It is evident that you can not leave things lying around loose, these days as you have been accustomed to in the past, and everything should be made secure.

Last Saturday some one stole a cushion out of L. M. Frier's limousine, and while Mr. Frier is an expert driver and rides mostly alone, the cushion was taken from the front seat and he finds it awkward to drive from the rear one.

Bill Groves inadvertently left about fifteen dollars in a trousers pocket in his car the other night, and when he went to look for it, the money was gone and no receipt left for it.

What do You do With rubbish?

Accumulations of waste and rubbish are responsible for a large part of the destruction by fire of a million dollars worth of property in this country every day. Cleanliness and eternal vigilance are important.

It is also important that the insurance company that carries this risk for you should be old, strong, and able to pay. You get policies of big companies in this agency of the Hartford Fire Insurance Company.

Mice in the Cisco depot used
forty dollars in currency in the
construction of a nest. That's
nothing. Up here the cotton
pickers use more than that much

There is one thing for which
we men, who are hanging around
the half century mark have reason
to congratulate ourselves. In the
days of our youth and gallantry
the middle aged married women
were not "vamping" us into
killing their husbands.

Most anything is fair in politics
and the ends are supposed to
justify the means, but the efforts
of the opposition to malign the
characters of President Coolidge
and Dr. Butte, are so ridiculous
and far fetched as to be almost
pathetic.

The supreme court held that
the name of Mrs. Ferguson should
go on the ballot. No one ever
seriously thought otherwise. The
will of the people is above all
law and all forms of law, and the
power of politics is above all
courts and forms of courts.

Courts are, indeed, very human.
The more inferior they are, the
more prone they seem to be to
hold that they have jurisdiction
in important cases. Take, for
instance, the case of that District
Judge down at Austin, who was
not very sure of anything in the
Ferguson case, but that of his
jurisdiction, and that was the
first thing that the Supreme Court
held he was wrong about.

But it is not so far between towns,

It may just be a coincidence,

An Illinois sheriff was taken
severely to task by a federal
judge for taking two women
prisoners to a dance. Perhaps
he did not want to go to church
and neither did the prisoners.

One encouraging thing about
this presidential election lies in
the fact that it has failed to
disturb business. When people

Future primary elections in

be able to find that much on

Two of the most pronounced
examples of ingratitude can be
found in La Follette and Wheeler,
the progressive independent
candidates. The former is accusing
the republican party of any political
crime in the category, and yet,
that party has furnished him a
good fat office for over a

devoted his El Paso speech to
abuse of the democratic party,

Clotelle Wilie Hostess

On Thursday afternoon the home of Mr. and Mrs. U. L. Wilie was the scene of one of the merriest gatherings ever known in Matador, when a number of little folk and their mothers arrived to help little Miss Clotelle Wilie celebrate her Seventh Birthday.

A number of games held every one's interest until the call for all the children to present themselves in the dining room was heard. They marched in and each found their place with a daintily designed place card at the lovely table decorated in a pink rose cloth with large bows of pink ribbon. The center decoration was the large white Birthday Cake with its seven pink candles. Each child's plate was accompanied with a lovely handkerchief favor embroidered in quaint children's designs. The plates were heaped with chicken sandwiches, olives, two kinds of cake and ice lemonade with cherries.

Many lovely gifts and best wishes for many more such happy events were presented the small hostess by: Maurice Reilly, Fred C, Georgia and Thomas Bourland, Mary Earrest, Dorothy and Bobbie Echols, James Alexander, Suzanne Eldridge, Harold and Lyman Campbell, Adele and Selbia Burleson, Maxiene Greene, Allie Fay Williams, Dorothy and Boyd Willett, Vernon Craven, Helen Simpson, Modena Graves, Arthur Edwards Jr. Mesdames E. W. McKenzie, A. I. Edwards, M. J. Reilly, F. C. Bourland, Bob Echols, L. F. Alexander, J. E. Eldridge, Harry Campbell, Roy Burleson, Edd Williams, W. P. Graves, Harry Willett, G. S. Craven and U. L.
