FROM OUR EX-CHANGES

The Delmar Oil Co and the Osage Development Co., both of Bartlesville, Okla., have entered the South Hutchinson county oil field by the purchase of a 240 acre lease from E. B. Johnson & Sons, of Norman, Oklahoma, out of the James T. Williams Survey, Survey No. 1, about half mile south of the Whittington well in Huthchinson county.

This lease is situated northwest from the New Domain well which encountered oil at 3980 feet. The Whittington well to the north is an oil well also. These companies are represented here by F. E. Lewis, and the sale was made by I. H. Coker, of Amarillo.—Panhandle Herald.

Work of laying the 2,000 feet of pipe necessary to connect the new water wells with the present equipment at the Swindell well northeast of the city is progressing right along, according to City Secretary Chas. Christi. Water from the new wells being dug by the Layne CCompany is expected to be pumped into the city Monday or Tuesday, at which time test will be made of the flow—Quannah Times.

Work is well under way on the Childress cotton oil mill. The office is about completed and concrete is being poured for all buildings. The spur track from the Fort Worth & Denver Road has already been laid.

Approximately 50 men are being employed by the company in construction. Work will be rushed in order to complete the mill by early fall. It is reported the mill will be ready for operation by October 15. Its location is nine blocks east of Main street on hte property north or and adjacent to the railroad.—Childress Index.

The plans of the reorganization of the Kansas City, Mexico & Orient contemplate the extension of the line from San Angelo to Del Rio in West Texas as the next step following the completion of the unfinished gap between Alpine, Texas and Chihuahua, says the San Angelo Standard, it was believed here as a result of an application for a hearing in Kansas City of July 28 by an examiner of the interstate commerce commission to approve the acquiring of the stock of the Kansas, Oklahoma and Texas companies by the

(contd on page 2)

HELP BUILD UP OUR TOWN

Never in the history of our town was there a time when necessity demanded that the people stay together more than they should at the present time. Through business and business competition we have neglected things most essential for Matador and the up-building of our town. While our selfish interest are, as a rule, the first to look after because we are directly interested, but there isn't a man, woman or child within the limits of town that is not interested to some extent in building up our town, and we would like to impress it upon the minds of the more grasping ones that we must pay more attention to the welfare of the town in general. If we expect to have a good town, disensions in our midst must be disregarded, factions must not be tolerated and the different divisions must be united, we must all work together, must be of one accord. Usually it is selfish interests which cause divisions among the people and how foolish it is to allow these things to come up. We imagine the other fellow is doing us dirt and we want to get it back, when in doing so we are only hurting ourselves. It is a wrong principle to do these things and to do our town and ourselves good we must cut them out. Matador has some of the very brightest possibilities before it, it is located just right to make a real good town and it has resources greater than many other cities today with much larger populations, and with the earnest effort on the part of each and every individual in the town there is nothing that can keep our little city from growing. Capital for investment is seeking such places and it only has to be made known through the press and other wise until the flow of such things are coming over our way. Let us unite in one common effort in the one grand cause of devising ways and means for the promotion of the best interests of the town.

MISSIONARY SOCIETY MEETS

The Irene Eldredge Missionary Society met with Mrs. Lizzie Clements Wednesday afternoon from four o'clock until six for a bible lesson. The 5th chapter in "Training for Service" was given. A real interesting lesson was discussed.

Mrs. J. A. Malsby, Mrs. A. A. Harp and Mrs. Warren Clements were pleasant visitors. At a late hour delicious refreshments consisting of angel food cake, and ice cream were served to the following:

Mesdames: Harry Willett, Albert Darrern, G. C. Mitchell, L. B. Smallwood, E. A. Nolte, J. A. Malsby, U. L. Willie, L. C. Harp, Phillip Graves, A. A. Harp, Warren Clements, Miss Ellen Storm.

LETTER FROM L. S. JENKINS.

Rochester, Minn, Aug 11,

Editor Motley Co News,

Dear Sir:—

Received a copy of your paper, for which please accept thanks for same. Will say that its pages were read and appreciated very much. I was very anxious to get a crop report from that territory, however, I regret very much to learn that the drought still holds Matador and the immediate vicinity within its grasp, but hoping it will rain in time for farmers to make plenty of late feed, and to save the most important crop, which is cotton.

It has rained here half the time since my arrival in this city, and the temperature ranging around 50 at intervals, making it necessary to wear an overcoat, however it is appreciated very much by those that have ailments.

Rochester is a city where people gather from the four corners of the earth, and all nationalities to have the Mayo Brothers decide their fate.

Mayo Brothers are the wonders of the age. The work they do is miraculous. The only people who can supply the missing link between man and monkey.

After reading your paper let me congratulate you and also the insertion you have for me which is an attractive advertisement. The paper you publish is a credit to any town near the size of Matador.

Speak more in regard to this wonderful city and its makers and owners, will say it is composed of fine hotels, hospitals and cafeterias, and all such other places as where hospitality follows the dollars. All places are very inviting, particularly one that made an impression on me with their advertisement, and that was this, "Come to Kohler Hotel for a change and rest." After investigation, I find that the "bell hop" gets the change and the Kohler gets the rest.

Wishing you the best of luck with your paper, and that I may be able to join my many friends in Matador soon, I remain Yours truly, L. S. Jenkins.

ANOTHER GOOD RAIN

This section of West Texas was visited again Monday morning by another good rain. It is reported that about one half of an inch of moisture fell. Crops over the entire country are looking mighty good and things in general have begun to loom up. In fact we consider conditions in this section more promising at the present time, than they have ever been in the history of the country, and we look for Matador to take on a building and business boom this fall and winter that will make our neighbors set up and take notice.

WATSON—EDWARDS

Miss Anna Belle Watson, daughter of Mr. and Mrs. H. S. Watson, and Jack Edwards, son of Mr. and Mrs. G. T. Edwards, were united in marriage Wednesday morning of this week at the Baptist Parsonage Rev. J. C. Johnson, tying the nuptial knot. Immediately after the ceremony they left for Lubbock and other points where they will spend a short Honey-Moon.

The contracting parties are well and favorably known and their many friends wish them much success through life to gether.

DRAWING THE LINE

An actress who had retired from the stage and bought a little house in the country, decided to start a chicken farm.

Accordingly, acting on the principle that all big business has small beginnings, she bought a hen and a setting of thirteen eggs.

As she had no knowledge of poultry at all she wrote to a poultry journal asking how long the eggs would take to hatch out. The paper replied:

"Three weeks for chickens and four weeks for ducks."

Some weeks later she again wrote to the paper.

"Many thanks for your advice however, at the end of three weeks there were no chickens hatched out, and, so I didn't want any ducks, I took the hen off.—Poultry Journal.

WEEKLY NEWS SUMMARY

Crowell—Announcement is made here that following the address of R. Q. Lee, president of the West Texas Chamber of Commerce at Quannah, at which a number of Crowellites were present that an annual poultry show shall be held in Crowell. The date is the first week in December.

Munday—Work paving the streets of Munday was started. The contract was awarded to the Plains Paving Co., Amarillo and Wichita Falls.

Amarillo—A new West Texas Intercholastic League is planned under the management of the officers of Texas Tech in case the "One year residence" rule of the Texas Intercholastic League is provided for.

Mineral Wells—Dallas parties have conferred with the Mineral Wells Chamber of Commerce incident to the construction of a \$1,000,000 hotel in Mineral Wells.

Cisco—A Paved highway is to be built from Cisco to Lake Cisco where the average daily attendance of bathing visitors is now pass the 500 mark.

Coleman—Plans are underway here for the employment of a full time commercial secretary.

Margaret—Contract has been let for \$16,000 school building here and for \$8,000 school building at Rayland.

Canadian—The Canadian Fall Fair will be held here the week following September 19th.

Sonora—Ray Leeman, Southwest Manager will represent the West Texas Chamber of Commerce at the Ranchman's Round-up at the Ranch Experiment Station near Sonora, August 11-12. The San Antonio Light will be delivered at the Ranch by airplanes. Mr. Leeman will go to the Convention in one of the airplanes from San Antonio.

Alamogorda, N. M.—The West Texas Chamber of Commerce will hold the Trans Pecos District Convention here on Wednesday, August 1th. Many towns and cities of the Trans-Pecos region in Texas and New Mexico will have delegations here at that time.

Clyde—At a recent meeting here the Clyde citizens put over a local band proposition and now Clyde will get into the musical contests with a good band and probably win a prize at the 8th annual (contd on page 2)

PROGRESS ON HIGH SCHOOL BUILDING

Work on Matador's \$75,000.00 new and modern High School is progressing very nicely. The brick work is almost completed and work on the interior has already begun. Although the building will not be completed by the time school starts, it is expected to be completed by the latter part of September.

REVIVAL MEETING DRAWING GOOD CROWDS

The revival meeting that is being conducted by Evangelist Robt C. Jones, at the Church of Christ is drawing good crowds, and the people of Matador are showing a great deal of interest. The meetings began last Sunday and will probably continue for a week or ten days longer.

1925 BRIDGECLUB LUNCHEON

Mrs. H. G. Crowley charmingly entertained the 1925 Bridge Club with a luncheon Friday July 30th.

Vivid colored flowers filled bowls and vases every where and lent a pleasing atmosphere for the delicious luncheon which was served at four daintily appointed tables.

At the close of the games Mrs. Roy Burleson was found to hold high score, Mrs. Farris Fish won the cut for Club members and Mrs. Edd Malsby the cut for the guests.

Members present were: Mesdames M. J. Reilly, Bob Echols, Frank Eiring, U. L. Willie, Roy Burleson, Farris Fish, Harry Campbell, H. G. Crowley and Miss Ollie Echols.

Guests were: Mesdames Edd Malsby, Ollie Day, Harry Willett, Misses Marie Chalk and Nannie Mae Parten of Dallas, Hazel Walton and Grace Moore.

WHAT A JOY

Joy is defined as gladness, rapture, mirth, merry, happiness. True joy is a serene and sober motion. Joy is within and not without. It is something to possess and to parcel out to everyone you meet. The man who can conceal his joy is greater than he who can hide his grief and is worth more to the world than a million morbid souls who convey no feeling to their fellowman.

Become a Patron

Prudence, safety, and economical management matters of consideration, the our methods must rest you. Besides there is the further consideration of knowing how to handle your business satisfactorily and expeditiously.

THE AMERICAN CREED

"I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable, established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes. "I therefore believe it is my duty to my country to love it; to support its constitution; to obey its laws; to protect its flag; and to defend it against all enemies."

We understand that there are several new modern homes to be built in our city this fall and winter.

Several of our citizens have been planting gardens since the recent rains. This will no doubt cost expenses a great deal.

Politics are being talked by the people of the town and county every day, and a good stiff campaign is looked for in the coming election of 1926.

The fellow who thinks oratory is a lost art ought to hear one woman telling another about the perfectly lovely dress she is making.

Some of the young fellows around Matador have so much brass it is a wonder that the girls they kiss don't die with Ptomaine poison.

The News wants to call attention to the large Chevrolet ad in this issue of the paper, which quotes the new low prices on these cars.

The News is in the printing business and we consider that we are entitled to printing that is derived from public institutions and the like, that we are helping pay the taxes that maintains them.

There are large business concerns all over the country that have their eyes on Matador, and would no doubt locate here if they received the proper encouragement.

"Are dates good for the health?" said a bright young damsel to her mother recently, when the old grandma who had been to a picture show or two had some idea of the modern broke in, "not after midnight, sissy."

Enough moisture fell the past week and this to assure a good cotton and feed crops, and farmers are now making arrangements to put in a good acreage of wheat. Just now conditions are looking good for a winter season, and a good acreage in wheat this fall may prove profitable.

We are strong in favor of Matador putting on some kind of a trade day at least once a month. The farmers of Matador's trade territory are responsible for the welfare of every individual business concern in the town, and it is nothing more than right that the merchants show their appreciation, by offering them some sort of special inducements once in awhile. This not only benefits our customers, but the merchants as well, because it gets people from a parts of the country accustomed to coming here, and naturally a larger volume of new trade will be built up. The News is ready to do its part in any way possible. Lets get busy.

The Junior League will meet at 3:30 o'clock at the home of Mrs. F. G. Simpson, next Friday. After the program they will have a social meeting.

From our Exchanges (contd from page 1)

West Texas Chamber of Commerce Convention at Amarillo in May 1926.

Mertzon—This city will have one of the largest crowds that has assembled here on August 12th, when a big picnic and rodeo will be staged. Some of the features will be a barbecue and dance.

Carbon—The Post Oak Timbers report the best crops in years and sufficient moisture to mature same.

Levelland—More than 150 tracts of 177 acres each have been sold in Hockley County by Crosby and Posey agents for the C. W. Post interests.

Sweetwater—The Fair Committee to sell stock for the Nelson County Fair is slowly but surely approaching the goal for a permanent fair. They soon will have sold sufficient stock to guarantee immediate work on grounds and buildings.

Midland—The Chamber of Commerce of Midland County joined by the untiring efforts of County Agent J. B. Snider are working together to put over a real farm building program and are offering actual farmers tracts of land for stock farming. This will mean chickens, hogs, dairy cows, maize, cotton and enough truck farming to take care of the home use including plenty of good fruit.

Weekly News Summary (contd from page 1)

new Orient railroad.

While other Southwestern carriers are looking earnestly at the possibilities of a traffic exchange with the lines and cities of Mexico, the Orient also is said to have designs in that direction. Its proposed construction from San Angelo to Del Rio makes it an easy bidder for territory in Coahuila, rich in minerals and agricultural possibilities, and now served only by the Mexican International.

The Orient of Texas, which is a separate corporation, would be acquired by the reorganized company by purchase of 9,840 of its 10,000 shares of stock. The reorganization plans among other things contemplate an extension of the \$2,500,000 loan from the government obtained following the war and upon which the interest due is \$463,249. An equipment loan of \$1,000,000 would be negotiated.— Commercial News.

Miss Jessie Rattan returned to Dallas the first of the week, after spending several days with her mother, Mrs. W. H. Rattan.

Mr. and Mrs. H. M. Wagley and small children left Wednesday for Quanah and other points to visit relatives.

Miss Mary Vaughn, who has undergone an operation recently for appendicitis has returned to her home.

Mr. Cecil Cudd, left the first of the week for various points on the Plains.

The News has ordered a casting box which should be here in a short time, after which we will be in a position to furnish our advertisers a better line of advertising.

John Barton of the north part of the county has made the purchase of an airplane and was doing some stunts around town Wednesday afternoon.

AGRICULTURAL OUTLOOK CONTINUES GOOD

The 1925 agricultural picture is painted in bright colors by the Department of Agriculture. As business conditions also continue good, the combination presents an optimistic national outlook, the department says.

Promise of recovery in all branches of livestock industry is indicated. Heavy steers have been bringing higher prices than last year, hogs are nearly double the price of a year ago, and lambs have been higher priced.

Hogs this fall are probably approaching the peak of a price cycle, the department believes. It points out for the guidance of producers that some farsighted hog raisers are already considering probable heavy rip production in 1926, and lower price levels thereafter.

"Truck crops are coming in for a share of price recovery this season," the report says. "Early estimates suggest a potato production of only about 3.1 bushels per capita, which would be on a par with those well-remembered shortage years, 1911 and 1919. Onions, cabbage, melons and peaches have been selling at two or three times last year's prices and seemingly have a brisk fall market ahead.

"Rains last month added to hay and late oats. Corn is making ears now and looks good as a whole. A fairly good spring wheat crop seems assured, despite considerable hot weather damage and some rust in the Red River Valley. Winter wheat was a disappointment but has apparently threshed out about as much grain as was expected and is of good quality. Fruit is not so plentiful in eastern districts, but the Pacific Coast will make good much of the deficiency. Cotton has lost ground in the western belt by reason of drought, but indications still point to a good sized total crop. Potatoes are a decidedly smaller acreage than last year and promise a smaller yield but nevertheless may make more money for producers."

The department's general index of purchasing power of farm products in terms of non-agricultural commodities remains at a level of 90, compared with a five-year pre-war level taken as 100.

CHEVROLET NEWS LETTER

"Fleet orders" for both passenger cars and trucks are being received with increasing frequency by the Chevrolet Motor company from large organizations whose investigations have established the economy of providing their employees and other representatives with reliable motor transportation.

Hundreds of Chevrolet fleets have been delivered since the first of the year. The group purchasers assign various reasons for their decision to standardize on Chevrolet.

Reliability and economy, one of the factors in Chevrolet's popularity among the farm districts, the reason most frequently given by the organizations whose members purchase these districts. Others cite the universal availability of service at Chevrolet's 600 direct dealers, 2,900 associate dealers and 11,000 part dealers which dot the country. The purchasers of fleets for city use prefer the Chevrolet because of its attractive appearance and easy handling and its 15.5 foot turning radius.

Among the recent groups purchased is the United States Tobacco company which has furnished a fleet of 54 Chevrolet coaches to its salesmen in the eastern states. They find the coach tonau convenient for bulky samples.

The Consolidated Gas company in January 1 has bought 34 Chevrolet coupes, roadsters and sedans principally for the use of inspectors, "trouble shooters" and men in New York City.

A fleet of 24 coupes has been purchased by the Universal Portland Cement company for its sales throughout the country. Hundreds of other companies in a variety of business have established Chevrolet fleets ranging in number from six to 20 cars. Sales cost records are proving the economy of automotive transportation for salesmen," said H. Grant, general sales manager of the Chevrolet Motor company.

The average expense per call incurred by the salesman driving an automobile is lower than by due to the fact that the sales-using a machine makes three or four calls and saves more time with each customer. He will make calls which otherwise he would skip were he by rail transportation.

In addition a salesman who is an attractive car up to the owner's establishment enjoys a psychological advantage over the salesman who is on foot. Unconsciously the car accords more rapid and courteous attention to the man in the car.

FORD NEWS LETTER

Transforming steel ribbon into coils is one of the interesting operations carried out in one department at the Highland Park of the Ford Motor Company. A number of special designed machines play an important part.

How much activity there is in this department may be judged from the fact that 125 tons of steel ribbon is used daily in the production of roller bearings at the present output schedule. Permitting the assembly of complete bearings every

minute, steel ribbon used in five seconds of an inch thick, about half an inch wide. It is used in Ford designed and built machines known as "Wind-up" and when it emerges from the machine is in the form of a spiral rod with a narrow groove through the center. The rod is then cut into proper lengths and the short lengths are hardened and tempered.

Just before the bearings are assembled and in the process of being finished, the process being devised. Practically every bearing after having passed through the various manufacturing operations carry a certain amount of magnetism. If this is not removed, the rollers would have a tendency to stick up and retain pieces of steel that might get into the sleeve of the bearing. It is not likely, of course, that this would result even if the rollers were not desmagnetized. The policy followed is to desmagnetize the rollers. Evidence that this policy leaves nothing to be desired is the utmost assurance of its products.

THE UNATTAINABLE

"THERE'S a spot on my back about the size of a postage stamp, that has been itching all day," said the retired merchant, "and it has caused me more grief than the last attack of rheumatism. I can't reach it with either hand, and I have been backing up against every telephone pole and gatepost, rubbing like a horse with the mange. A man of my social and commercial standing doesn't look dignified while thus engaged, but when a man's back itches, he has to defy the conventions, and get relief the best way he can."

"I can understand just how it has worried you," said the hotelkeeper. "The fact that you couldn't reach around and claw the itching place with your fingers kept the matter fresh in your memory and got on your nerves. The pursuit of the unattainable always is more interesting to us than the easier work close to hand. You had your whole person to scratch, and might have bought a currycomb for a quarter, and had a good time, but you couldn't be happy until you had reached the one inaccessible spot."

"A while ago I imagined I had a skin disease, and went and saw the doctor. He knows I have money in the bank, and an considered good pay, so he confirmed my worst fears, and made up his mind to have me for his star patient, until one of us perished. He threw an awful scare into me, so that I went home sweating ice cold 'treas lemonade."

"He gave me some medicines and a lot of instructions. Among them was one to the effect that when I went to bed I should always sleep on my right side. He cautioned me over and over again against laying on my left side, and left the impression that if I disobeyed him, I'd wake up some morning to find myself a candidate for a floral horseshoe."

"That matter looked easy at the time, and I assured the doctor I'd follow his bylaws to the letter. When I went to bed that night, I stretched out on my right side, and in ten minutes I was just suffering to roll over. I don't believe I ever had such a hankering for anything. It seemed to me the height of human happiness would be in sleeping on one's left side."

"I followed instructions for two nights, and then I decided that life wasn't worth such sacrifices, and I rolled over and slept on my left side, and nothing happened. I was feeling better than usual next morning when I got up."

"Of course this experience lessened my confidence in the doctor's instructions, and I concluded that if I was going to sidestep the instructions I might as well sidestep the medicines, too, for they tasted like low life in a Chinese alley, and I threw the whole lot out of the window. Thus the sav-sones lost his most promising patient because he handed out a rule that wasn't strictly necessary."

"Speaking of the unattainable, do you know what the matter with Silas Furberlow? He has everything a man could ask, a stranger in the town would say. He has a beautiful home and a wife who would be considered a success anywhere, and he has fortunes of money where it will do the most good."

"Yet he has a secret sorrow. I think he's the most melancholy man I ever saw, and his trouble is that he can't raise a good stand of whiskers. Nowadays, when whiskers are considered an infirmity, it seems strange that any man should grieve over such a matter."

"He sends all over the United States for hair growers, and half the time his face is blistered or swollen, and still the whiskers won't grow on him. If some miracle happened, and he woke up some morning to find his countenance all covered with whiskers, he'd probably have them shaved off within a week; but because they won't grow, he won't be happy till he gets them."

Mr. and Mrs. R. L. McWilliams of Whiteflat visited relatives here last week.

C. R. Groves, of Lockney was here on business last week.

Miss Zeta Clements, of Flomot visited relatives here last week. She returned home last Saturday.

Mr. and Mrs. Arlie Carpenter, of Northfield visited relatives here Sunday.

Mrs. W. Y. Higgins and daughter Nellie Rhae are visiting relatives in Cloyd Craft New Mexico.

AMARILLO TRI-STATE EXPOSITION

With a dozen counties of the Panhandle already volunteering exhibits at the Amarillo Tri-State Exposition, and more known to be coming, officers of that institution are now being assured of what they heretofore predicted for the 1925 dates of September 26th to October 1st, inclusive.

Agricultural exhibits and livestock now being practically assured the best ever attempted in this section of the Southwest, attention to the attractions and amusements is now being asked by U. N. Oliver, president.

"Fair time is also fun time," he says, "and while development of this section and its resources is the prime object, father and mother, as well as Jack and Jill, wish entertainment mingled with the more serious side of life. In the 1925 showing exhilaration as well as studious absorption is sought, and for this purpose it is believed the best, the most elevating, as well as amusing, has been secured."

For the height of excitement there will be the races. Horse, motorcycle, and automobiles figure in these events. For the first mentioned three days have been set aside, Tuesday, Wednesday and Thursday. Purses amounting to \$3200.00 have been set aside, which added to those offered on the same circuit by Hutchinson Topeka, Wichita Falls and Dallas will bring the best horses from the best known trainers and owners.

Saturday and Monday the Automobile and motorcycle races will be run. A purse of \$3,000 has been hung up for these events, and four times trial races and two automobile races, sanctioned by the "Thee A" association, will be run.

On the Midway will be shown the great Clearance. A Wartham Shows. These will stretch from the entrance to the grandstand and to the agricultural hall. As a guarantee against rain and mud side walks will be laid so that they will be accessible to all, conveniently.

Erefoze the grandstand there will be a number of features between the races—free to all entering these gates. Among these will be the Chicago Cadets, and 18 piece band; Dave Darden's all professional band; the Clifton Girls, an acrobatic and dancing feature; the Mounters, chair and table artists fresh from overseas; and Perezoff & Co.' "Knock about jugglers in Tom follery," from, and vouched for by San Francisco.

To cap each day will be the fire works at night. This is a mammoth attraction staged by the World Amusement Company of Chicago.

Of special interest will be the old fiddlers contest, which coupled with the harmonica, and choral societies and drum corps events will be staged in the tent pavilion on Wednesday. It is said the fiddlers are coming in hordes to portray their music of other days.

Approximately 20 bands have already signified their intentions of entering that event. Prizes amounting to \$125.00 are divided as follows: 5 year bands, \$400.00, second \$200.00, 4 year \$200.00, second \$100.00, 2 year \$150.00, second \$75.00, and one year bands \$75.00.

In this announcementspace does not permit to go into detail but with this arrangement, added to these many clown features, which must not be told to be enjoyed, something doing every minute is guaranteed those seeking amusement of the best variety.

John Lisenby, of near Flomot was here Saturday.

Dr. Willie, of West Texas is visiting in the U. L. Willie home this week.

R. F. Cunningham, of Flomot was a Matador visitor Saturday.

Pal Martin, of Whiteflat was here on business Saturday.

A. J. Bynum, of Flomot was here on business Saturday.

Will Merrell, of Flomot was a county seat visitor Monday.

Mrs. Bill Allen and daughter Mrs. Harmon Mosley, of Flomot were in Matador Monday.

Mrs. E. R. Surles, of Wichita Falls visited relatives here this week.

NOTICE

THE QUANAH, ACME & PACIFIC RAILWAY COMPANY hereby gives notice that on the 15th day of July, 1925, it filed with the Interstate Commerce Commission at Washington, D. C., its application for a certificate that the present and future public convenience and necessity required the construction by it of an extension of its railroad from McBain in a general westerly direction to Floydada, a distance of approximately 27 miles, all in Motley and Floyd Counties, Texas.

Quanah, Acme & Pacific Railway Company, Quanah, Texas.

Danger!

When your heart flutters, and palpitates, when you're short of breath and dizzy, when you have smothering spells and faint spells, look out for your heart!

DR. MILES' Heart Treatment

has been used with marked success for all functional heart troubles since 1884. Your druggist sells it at pre-war prices — \$1.00 a bottle.

C. W. Morris, of east of town was here tarding the latter part of last week and made it a point to call at the News office to get acquainted with the editor and by the way handed us cash to keep the News coming to his address for another year.

Mrs. W. R. Tilson and daughters Ruth and Ophelia spent Sunday with her brother and family T. E. Williams.

Mrs. T. A. Williams, is visiting her son Mr. T. E. Williams of our city this week.

Where Else Will \$890 Buy Performance Like This?

The extraordinary performance of this Oldsmobile Six is certain to revise your present ideas of motor car values. So little effort is required to thread it through traffic, or into small parking spaces—that it almost seems to possess a sense of direction. And should you suddenly encounter a steep grade—or sink into deep sand—you will be amazed at what little effort its powerful L-Head engine makes in pulling you smoothly out.

You'll appreciate these things on your first ride—any time it's convenient come and drive this car.

Touring \$890. Coach \$1075. f. o. b. Lansing, plus tax.

S

TOURIST RATES BOOM ATTENDANCE AT CHICAGO RODEO

The summer tourist fare rates now in effect on railroads from Matador, to Chicago, will be the means of increasing traffic consideration between these two points in the next couple of weeks it is anticipated by railroad passenger agent who predicted that many here will take advantage of the lowered fares to run to Chicago to witness the Roundup and World's Championship Rodeo, which is to be held in the Grant Park Stadium August 15 to 23 by the Chicago Association of Commerce.

Late vacationist and business men with an eye on the fall trade are expected to be in the vanguard of this movement of Chicago. August is a month buyers are "going to town" to lay in stock, and the rodeo will enable business men to combine business and pleasure. Each year Chicago increases its prestige as a recreational, as well as a command the great American sportsmanship classic is expected greatly to add to that prestige.

Thirty thousand dollars in purses has been hung up by the Chicago Association of Commerce for "The Cowboys' Olympic Contests" which for nine days will bring to Chicago thrilling exhibitions of the daring skill of cowboys and cowgirls in competition for world's championship titles in broncho riding, calf roping, steer wrestling and riding. Coming in the latter half of August, after all the district roundups are over, only the "real hands" who have taken prize money at the earlier exhibitions will

pit their skill against each other for a share of the large prizes and championship belts and trophies offered at Chicago. This is why the eyes of the entire sporting fraternity of the country are upon the "windy city" by the lake.

TEXAS COWBOYS TAKE PART
To capture for Texas championship honors in the greatest of all western sports, some than a score of cowboys and cowgirls from this state will descend on Chicago August 15 to 23 for the Roundup and World's Championship Rodeo. The rodeo, which will be held in the Grant Park stadium, is under

T

the auspices of the Chicago Association of Commerce, with Tex Austin, foremost of cowboy contest directors, in charge of the various events.

Among those from Texas who have signified their intention of taking part in the Chicago Rodeo are: Louis Kubitz, Red Soblett, internationally known cowboy clown, Bob Calen, Ralph Fulker and Sam Stuart, of Fort Worth. Hugh Strickland, also of Fort Worth, who won the championship in bronk riding in Cheyenne and Pendleton roundups in 1920, and Mabel Strickland, who took the world championship in ladies trick riding in 1922 and 1923 as well as the Denver Post relay race for the two years and the McAlpin trophy for the best all round cowboy girl at Cheyenne will be there. So will H. D. Johnson of Gainesville, Roy Quick of Herrold; Bryan Roach of Fort Worth, who has the winner of the bronk riding contest in 1920; Louis Jones, Pecos, world championship calf roper in 1924; and James Massey, Snyder, winner of

world's championship steer wrestling contest in 1920.

Other Texans who have taken notable parts in previous world championship rodeo contests and who are expected to come to the Chicago contest are: J. T. Mat-her, Aan Angelo; Fred Bristow, Jack Wilson and Earl Eberhart, all of Fort Worth; Guy Dodgion, Paris; Slim Cooky, Wichita Falls; Oklahoma Curley, Fort Worth, and Al Ritchie of El Paso.

The Texas group is anticipating no "soft business" at the Chicago rodeo, however, for there they are to meet a hundred or more cowboys and cowgirls from other western and southwestern states bent on the same mission as themselves. From the "brush" of the Southwest to the ranges of Canada the challenge has gone out to the buckaroos and these together with the cowgirls and steer bulldoggers will there renew old rivalries and perhaps write new records into the classic of the cattle country. Winners in the Chicago rodeo will share in \$30,000 in cash prizes, the largest sum offered anywhere this year, as well as in world championship belts and trophies.

A

HALF-MILLION ARE BAPTIZED IN TEXAS

The evangelistic effort of Texas Baptists for the last twenty-five years has resulted in the baptism of 536,192 persons, almost one third of whom were received during the last six years which embrace the co-operative program of Southern Baptists, Dr. F. S. Groner, General Secretary of the Executive Board of the Baptist General Convention of Texas has announced. The net gain in members during the quarter century was 293,762. The membership in

1901 was 190,849 while the present membership of Texas Baptists churches is 484,611, Dr. Groner stated.

During the last six years Texas Baptists have received 181,536 new members by baptism and the net gain during that period has been 89,064. Last year was one of the most successful years in the evangelistic efforts of Texas Baptists with 34,507 being baptized.

A significant fact regarding the growth of Texas Baptists is that as the gifts to the denominational work have increased, the baptisms have also increased. In 1924 the gifts to all causes by Texas Baptists amounted to \$6,175,234 while twenty-five years ago, when the baptisms numbered 10,479, or less than one-third of the number last year, the gifts to all causes amounted to only \$347,556. Church property of Texas Baptists in 1901 was valued at only \$805,000 while today it reaches far above \$21,000,000 and increasing at the rate of more than \$3,000,000 a year.

WHITEFLAT MUSINGS

Too late for last week.

Miss Catherine Martin of Matador was a visitor here Saturday afternoon.

Miss Edna Keltz of Vernon is visiting home folks this week.

Mrs. Maude Dean and daughters of Matador were visitors here Sunday afternoon.

Mrs. Mimi Hart underwent an operation at Smith & Smith's Sanitarium at Floydada Sunday.

R

Thelma and Inez Casey, Dowell Garrison and Ernest Mc Williams were among those who attended the picnic at Turkey Saturday.

Mr. and Mrs. Jim Hart entertained the young folks Thursday evening.

Mrs. C. E. Holliday and Miss Lucille Robinson left Friday for Bryan to attend Short Court.

Mr. and Mrs. Farris Fish were among visitors from Matador Sunday afternoon.

Mr. and Mrs. J. L. Boyd were called to Childress Friday to attend the funeral of a nephew.

C

Miss Ellen Jameson gave a singing Sunday evening.

Mr. and Miss Jim Clawson of Vernon are moving back to our little city.

R. L. Jameson and sons left Wednesday for a fishing trip in South Texas.

Frank Robinson of Paducah was a week end visitor here.

Miss Ruth Winstead and Mr. Johnnie Redvine were united in marriage last Sunday afternoon. These young people have a host of friends who wish them a long happy prosperous wedded life. They will make their home in Paducah.

For Sale—Ford Sedan, just been over hauled and in good shape. Will sell cheap for cash. For particulars call at the News office.

Frank Eiring hailed us on the street one day this week, handing us cash to set his time up another year on the paper.

FOR SALE—185 acre farm in Cottle county, well improved, 140 acres in cultivation. Consideration \$35.00 per acre. One half down, balance to suit purchaser. For particulars inquire at News office.

Amarillo Tri-State Exposition

SEPTEMBER 26th., OCTOBER 1st INCLUSIVE

The third Tri-State Exposition will be held in Amarillo, September 26 to October 1st inclusive.

The Chicago Cadet Band and the Amarillo Band will furnish music for the entire 6 days. The Chicago Cadet Band has played for the Dallas Fair for a number of years. Clarence A. Warthen, Carnival Company and Band will also be a big attraction.

Automobile and motorcycle races and three days of horse racing.

Due to the fact that we have our buildings and grounds in excellent condition the exposition will be much better than ever before. The crop conditions throughout the Panhandle assure us of an excellent agricultural exhibit.

About half of the more than 4,000,000 children who enter the first grade in the elementary schools each year fail to reach the second grade according to a tabulation just completed by the Interior Department through the Bureau of Education.

Most of these pupils become so-called "repeaters." It is estimated that the cost to each school district is from \$72 to \$80 per year per pupil because these children fail to pass successfully the first grade of school, resulting in a tremendous waste in education which should command the serious consideration of every parent and teacher in the United States.

The Commissioners of Education in calling the attention of parents to this extraordinary situation declares that much of this waste in education is due to physical and mental defects in the children. He believes that the number of pupils who repeat the first grade can be materially reduced if the parents will

A

give due consideration to the defects of their children before they enter school.

The Bureau of Education of the Interior Department is collaborating with the National Congress of Parents and Teachers in an intensive campaign to have children 100 per cent perfect in mind and body before entering school for the first time next September. Thirty States have already signified their intentions of participating in the the Nation are urged to join the campaign at once and to prepare their children for school during the next eight weeks.

The Bureau of Education has issued posters and circulars call-

ling attention to the matter, which publications are distributed widely among parent associations, to communities throughout the United States.

We are in receipt of a letter from Mr. B. W. Clayton, Amarillo, Texas, requesting to send him a copy of the program. He is anxious to hear about the conditions around Matador. The crops in the vicinity are fine. Mr. Clayton is very optimistic about the recent rains of the past few weeks.

P. A. Cribbs called at the office the fore part of the week having us place the name of his daughter, Mrs. Lillie E. Cribbs, on the program. Mr. Cribbs is a pleasant man and we were indeed glad to make his acquaintance.

Miss Mildred Bates, of Amarillo, is visiting in the Bert E. Bates this week.

DANDRUFF

CAUSES THE HAIR TO FALL OUT AND THE HEAD TO BECOME UNCOMFORTABLE. Dandruff is a germ disease and is caused by a tiny fungus which grows on the scalp. It causes the hair to fall out and the head to become uncomfortable. Get rid of dandruff before it is too late. Wash the scalp with a soft towel and use Yetter-Bum (Don's Secret). Yetter-Bum (Don's Secret) is the only hair restorer that has been tested by the National Bureau of Health. It is sold in 25c and 50c bottles. Two sizes, 75c and \$1.50. Sold at all drug stores.

Mrs. W. H. Rattan and daughter Miss Fannie were week end visitors in Childress.

For Sale—Ford Sedan, just been over hauled and in good shape. Will sell cheap for cash. For particulars call at the News office.

FARM BUREAU CONVENTION AT PLAINVIEW

Plainview Aug 4.— Plainview will be host to the First District Convention of the Texas Farm Bureau ever held in this part of West Texas on August 20-21 when three thousand farmers from the thirty eight counties immediately surrounding Hale County are expected to come to Plainview to hear the splendid program that is now being prepared.

Col. Clarence Ousley, well known Texas citizen, and one time candidate for United States Senator will deliver the principal address before the convention at Plainview. The subject of Col. Ousley's address has not been announced but on account of his wide experience and knowledge in agriculture in Texas his address will be of interest to every farmer in West Texas. L. R. Campbell, Secretary of the State Federation has received definite advices from Col. Ousley that he will be present on Thursday morning the 20th.

In addition to Col. Ousley, Mr. Campbell has received advices from John T. Orr of Dallas, C. C. Moser, of Dallas, W. D. Farris, President of the Texas Farm Bureau Federation and F. L. McKay of Memphis, Tenn. that they will be in Plainview and take part in the program which is now being arranged. A definite announcement of the complete program will be made as soon as all the speakers have signified their intention of being present.

The District Convention at Plainview of the Texas Farm Bureau Federation is the first to be held in this section of West Texas. Two previous district conventions have been held, one at Beeville, this year and the other at Sherman, July 23-24. Both Conventions have drawn large crowds of farmers and arm Bureau members. The Plainview Convention is expected to surpass both of these from the standpoint of attendance and interest.

Entertainment features galore are being arranged for the visitors at the Convention. The evening of the first day will be given over entirely to entertainment features beginning with a basket picnic on the Court House lawn at six p. m., and ending with a community program at the spacious municipal auditorium where the convention headquarters will be.

"The District Convention at Plainview is of more vital concern to all the people of west Texas than the Rail Hearing at Plainview in July, even though not so spectacular," L. R. Campbell, Secretary of the State Federation said recently. "If the South Plains, and contiguous territory comprising the district intended to be served, rallies to the interest of the farmer as it did to that of transportation, it will go a long way toward providing more tonnage and traffic and more homes, roads, schools, and churches."

Motley County will be well represented at Plainview. The delegation will be headed by R. L. Robinson of Whiteflat and Herman Marshall of Roaring Springs, and arrangements are being made at Matador to see that a good delegation attends the convention at Plainview.

Mesdames Nannie Scott and Avey Spence.

Mrs. Avey Spence and son Garland, of Crowell were week end visitors here.

SCIENTIFIC HIGHWAY CONSTRUCTION.

There is a growing tendency to pay more attention to scientific highway construction. The initial surveying work to secure the best location for a road must be backed up by sound engineering principals applied to the construction of the hard surface itself.

With states, cities and counties spending hundreds of million of dollars on permanent paving, the taxpayers are learning that they can not afford cheap and imperfect construction. They find that it is always at their expense that so called cheap construction by incompetent and inexperienced contractors is carried on.

All over the country state highways, market roads and city streets that were not built by competent engineers, are breaking up under heavy traffic and in a few years have to be rebuilt.

Permanent highways can only be built with proper equipment and after the subgrade has been allowed time enough to settle. The contractor should have a good long record of experience and a reputation at stake. They have a time test service record at a low maintenance cost.

Gas on Stomach Made Mrs. Cook Nervous

"For years I had gas on the stomach and was nervous. Adlerika has done more good than anything," (signed) Lela Cook. One spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full bloated feeling. Don't waste time with pills or tablets but let Adlerika give your bowels a REAL cleaning, bringing out matter you never thought was in your system. City Drug Store.
