## Two Killed In Collision Monday

### Three Seriously Injured In Wreck West Of Matador

Death from automobile collisions struck this locality for the third time in nine days following the fatal injuries received by Mrs. Rinda C. Middleton, 74, of Wichita Falls and D. J. Braizel, 68, of Vernon in an accident ten miles west of here Monday afternoon.

Charlie A. L. Berryman, 25, of Matador, died August 8th, from injuries sustained in a collision near Paducah, two days earlier.

The accident occurred when Mrs. S. T. Johnson of Dickens, driver of an International pick-up in which seven other persons were riding, attempted to pass a car pulled with a trailer. The vehicle collided with a De Soto sedan occupied by six persons, fatally injuring two.

Three Injured Seriously  
The three people riding in the front of the pick-up, Mrs. Johnson and daughter, Janice Ogle, 12, and Mrs. Leo Speer, also of Dickens, are still in the hospital here, but it is believed that they will recover.

The pick-up was going west on the Floydada highway enroute to a Baptist encampment at Ceta Canyon. Five girls riding in the back received only minor injuries. They were Elaine Parks, Ernestine Holley, Winona Reynolds, Jane Murphy, and Anne Murphy, all of Dickens.

Travel Bureau Car  
The sedan was a travel bureau car operating from Lubbock and driven by Rudyard K. Mitchell of Leuders, Texas, occupied also by G. B. Williams, a negro from Rogers, Texas, Rev. and Mrs. H. R. Cogdill of Goodlet, Texas, and the two who were killed, Mrs. Middleton and Braizel.

All of the victims of the wreck were brought to the Trawick hospital for treatment. Braizel died enroute to the hospital, and Mrs. Middleton died an hour after arriving. Her son, who was holding a revival meeting at the Church of Christ at Hobbs, N. M., was notified of her injury shortly before she died.

Identity Established  
Some difficulty was encountered in establishing the identity of Braizel. The only papers carried on his person was a bill.

## To Organize One Variety Cotton Group

In cooperation with farmers interested in raising and planting Watson cotton, county agent, J. Rufus Emmons has called a meeting to be held in the District court room at 2 p. m. Saturday for the purpose of organizing a One-Variety Cotton Organization in Motley county.

Mr. Emmons said that it is highly important that this organization be completed before September 1 as all reports and listing sheets must be in Austin by that time for farmers to receive the benefit of free marketing service, market quotations and free classification that are allowed members of such organizations altho the first planting may have resulted in failure.

Market News Service  
Two one variety groups have applied for the free classing and market news service from Motley County. All farmers from the Roaring Springs and Matador communities who have planted California Acala are eligible for this service, even if their original plantings were lost and some other varieties were planted. Officers of the Roaring Springs community are: Walter Keahey, president, R. E. Long, vice-president, Glenn Dobkins, secy-treas.; Officers of the Matador community are U. L. Willie, president, G. Springer, vice-president, and R. E. Donovan, secy-treas. Approximately 20,000 acres of 42,000 acres

## Call Mass Meeting On New Court House

### Tax Payers Must Make Disposition Of \$80,000 Bonds

The following telegram was received by County Judge W. R. Cammack last Thursday in regards to the court house project for this county:

"This administration is precluded by terms of 1938 act from making an allotment for any project. Moreover, Congress has adjourned without taking any action which would authorize us to make further allotments—E. W. Clark, acting commissioner of Public Works."

Taxpayers of the county voted last September 10 in favor of an \$80,000 bond issue to construct a new court house here, and it was thought that a PWA grant would be made to provide \$65,400 to complete the cost of the project. During this recent session of Congress, however, no action was taken in regards to the building.

A mass meeting is called by the Commissioners' Court for 3:00 o'clock Saturday afternoon at the court house. All citizens of the county, especially the taxpayers, are urged to attend this important meeting in order to determine what procedure will be taken in regards to the disposition of the bonds that have been issued, although not delivered.

The matter is being placed in the hands of the taxpayers, and this meeting Saturday will decide the outcome of the project.

Guests of the club included Tom Collum of Vernon and L. O. Buchanan of Austin. The delicious fried chicken luncheon was served by the Baptist ladies. Next Tuesday members of the local club will present a program at Floydada.

## 1940 Program For Ranges Is Outlined

### Tribute Is Paid Texas Ranchmen For Control Methods

Spokesmen for livestock producers of Texas, who went to a national conference in South Dakota and helped draw up the AAA range program for 1940, came home last week with feathers in their caps.

Out of the conference came two recommendations with a special bearing on Texas; one, that pasture mowing be added to the list of conservation practices drawing payment under the program, and the other, that the rate of assistance for furrowing of range land on the contour be sizably increased.

An avowed tribute to West Texas ranchmen who have popularized improved run-off control techniques, the furrowing recommendation would set the payment rate for that practice at 2 cents a hundred linear feet, instead of 50 cents an acre.

Mowing of pastures to kill useless weeds and brush, should earn 25 cents an acre, the conferees decided.

Both moves had been recommended earlier by the State Agricultural Conservation Committee, which had five representatives at the meeting.

Report of the conference, which called for no fundamental changes in the range program but did provide for a higher allowance of funds for deferred grazing, was expected to gain the ready approval of Secretary of Agriculture Henry Wallace, whose signature is needed to put the recommendation into effect.

## WARNING GIVEN TO MERCHANTS

The Commissioners' Court has issued a warning to all merchants of this county whereby no bills will be paid for items bought and charged to the county without a written order signed by a member of the court.

Merchants and clerks are requested to heed this warning, according to County Judge W. R. Cammack.

## Suicide Attempted By Jail Prisoner

### Man Found In Pool Of Blood After Slashing Throat

Lowell Wright, 28, of Cushing, Oklahoma, attempted suicide in the Motley county jail Friday night by slashing his throat with a razor blade. His body was discovered in a pool of blood early Saturday by Dempsey Harris, negro, according to District Attorney, John A. Hamilton, who helped to conduct the investigation.

Wright was convicted in district court here Thursday, and his punishment was set at five years in the state penitentiary. His partner, Glenn Padgett, received a similar sentence Wednesday, the conviction being for the robbery of Hubert Taylor near the Dickens county line in May, 1936. Taylor's new automobile and other property were taken and later recovered near Ft. Sumner, New Mexico.

Condition Critical  
The prisoner was unconscious and weak from loss of blood when discovered, and for some time his condition was considered critical. He had apparently lain down and slashed his throat with a razor blade and had then lain there for quite a while expecting to bleed to death, as evidenced by the large pool of blood.

## Baptist Meet Ends Sunday With Success

The most successful Baptist revival held here for more than a decade was brought to a close Sunday night with impressive baptismal services at the local church. Under the forceful preaching of Rev. Judson Prince of Cisco assisted in the singing by Volus Norsworthy of Vernon, forty-seven additions were made to the church membership, thirty-three of these by baptism.

Two young men, Vernon Chambliss and Norris Fuller, surrendered to preach; there were several re-dedications; and two others were converted who did not join the church.

Music Aids Services  
Tom Collum of Vernon, who played a violin, and Mrs. T. J. Stanford, Jr., of Childress, who furnished xylophone accompaniment, greatly aided the meeting last week.

Rev. W.M. Joslin, pastor, held the services at the Cisco church Sunday morning in the absence of Rev. Prince. He was accompanied there by his wife, and they returned here for the evening service.

The Baptist church is grateful to those who attended the services for the unusual response shown and for their contributions to the success of the meeting.

## New Farmalls To Be Offered Soon

L. C. Harp, manager of the Matador Hardware and Furniture Company has returned from Amarillo where he inspected the new family of Farmall tractors which is to be offered soon. Mr. Harp declared that the new tractors include many improvements in all three sizes and that he believes the new farm power units will appeal to the farmers of this section.

Announcement of the new tractors appears in this issue of the Tribune.

## NEW BOOKS

### Matador City Library

Is there a scientific way to tap the realm of infinite power that surrounds us for the benefit of your own life? Dr. Emmet Fox answers "yes" and shows you how in this amazing book.

Why are thousands of men and women packing the New York Hippodrome twice a week to hear what Dr. Fox has to say? Because he has a new message that helps them attain what they really want in life. Without a trace of sensationalism he reveals freely and fully the forgotten secret of personal power as used and revealed by Christ.

The amazing results, "miracles" some might call them, reported by those who have tried this new way brought Dr. Fox hundreds of letters from others who wanted to learn about it. For them he wrote his book, "The Sermon on the Mount." First printed privately, the book has now become a classic.

You have often wondered about the infinite Power, "It is," states Dr. Cox, "the real source of all things that exist. It needs only to flow into your being and transform itself into health, into true prosperity, into inspiration, or into anything else you may be needing. This Power is present everywhere. It belongs to nobody in particular because it belongs to all. It is waiting at all times for men and women to call it into use—not merely in crisis, but in every problem, however small every day of your life."
