Churches United to Save Dry Law

"Ghosts of Hilo" Given Applause of Large Audience Friday Evening

"Ghosts of Hilo" presented by the High School Glee Club, under the supervision of Miss Allie Tra-
week last Friday night won the praise and applause of a large, enthusiastic audience.
Originality in treatment of the theme was beautifully planned and displayed. The haunting lure of Hawaiian songs, the charm of the native costumes gave a sense of reality second only to an actual visit to the tropical islands.

W. M. S. Meets

The Women's Missionary Society of the Methodist church met Monday afternoon, Feb. 6, at the church in their regular Leaflet and World Outlook Program.

The program being on Christian Social Relations for this month. Mrs. Albert Hodges had charge as leader, she being Supt. of that part of the work. The theme for the day centered around our Scarrett College in Nashville, Tenn. It being its beginning when a group of women banded themselves together in prayer for the purpose of building this College. The opening song was, "Sweet Hour of Prayer," with prayer by Mrs. C. B. Cargile. Mrs. Hodges conducted a short devotional using Philippians 3:7-14 as scripture lesson. She then gave a short sketch of the life of Miss Marie Laying Gibson, she having spent 30 years as Principle of Scarrett and Bible Training School.

Mrs. Campbell spoke on "How the School Had its Beginning" through the help of Bell H. Bennett.

Mrs. Freeman lectured on "Scarrett College and the World's Work." "Entering into an Enlarged Life of the Scarrett College" was given by Mrs. McBrayer. At the close of the Scarrett program all stood and gave a chain of prayers for the great work being done there.

Items of interest were given from the Missionary News by Mesdames E. S. Faver, Elmo Woods and Mother Cargile.

The President took charge and conducted a short business session.

Mrs. A. Freeman was elected Vice President to take the place of Mrs. M. H. Costolow who has moved to Spur to make her home, we regret very much in losing her, but out loss is Spur's gain. We wish them well.

It was also decided that during this week we would piece one quilt top and have it ready by Monday so as to be ready then to put up two quilts on Monday, Feb. 16. We want to get these out soon as possible so we can get some much needed things at the parsonage.

Plans were made for a large number to attend the zone meeting at McAbo on Tuesday, Feb. 7, but the bad weather has hindered and has probably been put off until later. Mrs. Freeman dismissed us with a prayer.

Supt. Publicity.

MATADOR DRUG STORE DESTROYED BY FLAMES EARLY MON. MORNING

NEAR TOTAL LOSS SUSTAINED, ORIGIN UNKNOWN

Fire of unknown origin was discovered in the Simpson Drug Store in Matador near three o'clock Monday morning by night watchman, Jess McBride, who immediately sounded the alarm. By the time the fire department reached the scene, the fire had gained such headway that only desperate efforts confined it to the drug store.

Manager F. G. Simpson stated that the loss from fire, smoke and water would be almost the entire value of the stock and fixtures. The loss was only partially covered by insurance.

Efficient work of the Matador Fire Department is to be commended for possibly saving the entire business block which was in increased jeopardy because of a strong wind.

Church of Christ

"The lectures you deliver may" be very wise and true. But I'd rather get my lesson by observing what you do."

Sunday's services were fine, the membership is active and alert, interest is good. This church and preacher have dedicated themselves to study, teaching and preaching the Word of God in the spirit of love. We believe many people have been driven from the churches by the church spending most of its effort attacking the innocent amusements people find for entertainment, and overlooking the weightier matter of outlining the beauties of consecration. Sin is a curse to any one but "where sin abounded grace did Much More abound" — Romans 5:20. There can be no gains without pains. There is more good than evil in nearly everyone.

All the Christian people in every town should endeavor to harmonize into unity of purpose. Only in this way can the spirit of the Master prevail. We should be fire extinguishers instead of starting new fires; keep the peace instead of disturbing the peace. "Blessed are the peacemakers for they shall be called the children of God" — Matt. 5:9. Emphasis should be placed on our agreements, not on the thing that divide us. Christ in his valedictory prayer urged that all believers might be one. — Jno. 17:21. This church is dedicated to this holy purpose.

Next Sunday, 10:45 a. m., "The Sower" — Luke 8:4-15.
7:30, "The Successful Failure" — 1 Kings 8:18.
7 p. m., Mr. Johnston's committee will have a good program. The Johnston quartet will sing.
BEN WEST, Minister.

SHERIFF CAPTURES STILL DISTILLER AND EVIDENCE IN MIDNIGHT RAID HERE

NEGRO IS ARRESTED AND PLACED IN COUNTY BASTILE

Sheriff J. E. Skinner headed a raiding party here last Thursday night, capturing an improvised still located in the negro section of town and arrested a negro, John Stroud, who was taken to Matador and placed in the county jail to await the action of the grand jury.

The still, its boiler being a five gallon coal oil can, was in full operation when seized. A quart of the product from the dripping coil was saved from the negro's frantic attempt to destroy it when apprehended by the officers.

The odor and appearance of the alleged whiskey indicated that fatal poisoning might result from its being used for beverage purposes.

Car License Extension

The Sheriff and Tax Collector's office received word from the Highway Department last week to grant a sixty day extension on motor vehicle license purchases. No penalty will be charged before April 1st.

If the automobile or truck has been driven any during 1933 a full years license must be paid.

Methodist Church

Since the beginning of the Christian movement, it has always been necessary for God's people and those of the church to live clean, consecrated lives, standing steadfast and unmovable against every form of evil. This pastor believes that in all history, there was never a time when it was more necessary than today. The church is being challenged with a mighty challenge today. Will it be able to meet it? That depends upon its membership. Each one must be true, loyal, consecrated and ready for service. Can I depend upon this membership?

Good attendance last Sunday at Sunday school and morning service. Several new faces, we were glad to have them. Hope the services were a help to you, come again. One addition to the church, on profession of faith. The evening services were dismissed because of the revival at the Baptist church.

If not in Sunday school elsewhere we give you a cordial invitation to come with us every age can find a class, taught by faithful and competent teachers. Come and worship with us in the preaching hour. Call upon this pastor if he can serve you in any way.

Please see the church announcement for a change in the hour of the evening services.

We urge you to join with us in our worship, that we may all together magnify the Lord.

"The Friendly Church."
T. MARVIN McBRAYER,
Pastor.

Texas School Problems

There is no agency in the entire public school connection which can compare with the school child himself when it comes to selling the schools to the public. Business houses are advertised and they prosper or fall, largely by the products they put out. The school is likewise advertised by the pupils through their parents or relatives at home. And above all they advertise the school by their own value to society after finishing school.

Had you ever thought why Texas is 37th from the top in public school education? Had you ever thought that it might be because Texas has not developed a sound public policy dealing with the question of higher education in this state? Had you ever thought that it might be because Texas was undertaking to make the tax payers bear the burden of the total tuition cost of higher education which was absorbing so much money from the tax-payers as to have so little to go into the public schools of the state? This year about \$16.00 (more likely to be \$12) per capita is going to the public schools while there are from three to four thousand dollars per capita going to the higher institutions from the public treasury.

Had you thought why it is that the states which rank the very highest in the educational world in this country are those that are putting the bulk of their tax money into the elementary and high schools, such states are putting a very small part of tax money in to higher education, requiring college and professional students to pay the larger part of the tuition cost of their education since they are the primary beneficiaries of such education, and leaving it largely to philanthropy and denominations to maintain institutions to take care of the great majority of such students. Did you know that there are twenty states in the Union that have provided only one degree conferring institution, ten of these have less than two thousand students each, while Texas, according to an editorial in one of the leading newspapers of the state, has the University of Texas and eighteen other degree conferring institutions. Among the states mentioned above are such states as Maine, Rhode Island, Pennsylvania, New Jersey, New Hampshire, Vermont, Wyoming, Arizona and others. I think that the advocacy of the Dallas News for the Consolidated Board of all higher educational institutions of Texas is good. This has been tried in many states and as far as I know, has proved a success, in every case. I think now is the time, during the period of this depression for people to re-think along the principles and policies underlying wise public administration of our higher education. Beyond a doubt I am a strong advocate of higher education but the problem now is to keep our public schools functioning so do your bit.

Supt. Grissom.

Organization Formed As Unit of National Movement

Mass-Meeting Will Be Held Sun. Evening Feb. 19

All Churches In The County Unite In Protest

Practically every church in Motley county was represented in a meeting at the Baptist church in Matador last Sunday afternoon to form an organization of the combined churches, that will protest any changes being made in the present prohibition laws. The meeting was a part of the nation-wide movement of the combined churches to protect the 18th amendment.

At the meeting Rev. J. F. Luker, Matador, was selected as chairman of the organization; R. E. Campbell, Matador, as secretary and G. E. Hamilton, Matador, to head the resolution committee.

A mass meeting will be held at the Baptist church in Matador at 7:30 Sunday evening Feb. 19. An attempt is being made to secure Dr. Sandefer, President of Simmons University, as speaker. The public is urged to attend.

M. H. COSTOLOW MOVES TO SPUR TO ACCEPT PLACE WITH LANDERS

M. H. Costolow, who has recently been connected with Landers Store No. 4 here and being formally employed by the G. C. Miller & Son Grocery firm for a number of years, moved to Spur the first of this week where he accepted a position with Landers Store No. 1.

Regarding his move, Mr. Costolow said: "It is with no little regret that I leave Roaring Springs altho I am extremely fortunate in securing the place with Landers Store in Spur. I am very grateful to the good people of Roaring Springs and surrounding territory for the extended pleasure of being able to serve them over so long a time. I am sure they will find in Mr. Johnston and his personnel, a sincere desire to serve them well and a wonderful store, well stocked and well conducted and prices that will save them money."

Mr. Costolow began work in the Spur store Monday.

City To Furnish Water For Trains, Tank Being Built

Work was started last week on a new water tank in the southwest part of town by the Quanah, Aene and Pacific Railroad to service freight and passenger engines.

Passenger agent, Gordon Jones stated that the new tank will supply water much faster than the system now in use, and save considerable on time.

Water will be supplied to the new tank by the City of Roaring Springs water department.

Millions Learn Wonders Crazy Water Crystals

During the past two years, mil-
lions of people have learned the
wonders of Crazy Water Crystals
by drinking Crazy Mineral Water
in their own homes. The demand
for Crazy Water Crystals is many
times today what it was a year
ago, and truly the people of Amer-
ica are rapidly coming to realize
the merit of Crazy Water Crystals.

For over half a century increas-
ing numbers of people have been
drinking Crazy Water for the
wonderful benefits they receive.
They have learned to drink their
way to health. By modern meth-
ods the Crazy Water Company now
distributes this water throughout
the world. In new and up-to-date
plants the mineral water is evap-
orated and the eleven body-building
minerals are left. These minerals
are known as Crazy Water Crystals.
The standard size package
of Crazy Water Crystals will re-
constitute approximately fifteen
gallons of water in your own home.
It costs only 10 cents per gallon
when you use the crystals to recon-
stitute the water, and this econom-
ical price makes it possible for peo-
ple everywhere to "Drink their way
to Health."

Crazy Water Crystals are recom-
mended for any ailment brought on
by faulty elimination, such as dis-
orders of the stomach, kidney, blad-
der and liver, rheumatism, lumbago,
gout, high and low blood pres-
sure. Remember Crazy Water
Crystals give perfect elimination
without irritation.

The Child Reader

by
MARJORIE BARROWS
Editor, Child Life Magazine.

I met Bill's father today.
"Bill's six years old," he said. "He's
a hard-headed
young man and he
treats fairy tales
with a withering
contempt. He likes
real stories. He
likes simple books
about how things
happen. Are there
any new books
that will fit Bill?"

I gave him the
names of several
new ones, for there
are lots of Bills in
America today and
many authors are
writing just the sort of books they
like.

Real Adventure Best.
If your Bill doesn't take to fairy
tales, to legends, to fables, don't force
them on him. Offer him instead Char-
lotte Kub's delightful "A Train, A
Bout, and an Island"—the story of a
real family's real trip to Bermuda.
Offer him Helmut Washburne's fas-
cinating "Letters to Channy"—a real
mother's letters of a trip around the
world written for her own little boy
back home. Offer him "The Pilgrim's
Party" or "The Cruise of Mr. Chris-
topher Columbus" by Sadybeth and
Anson Lowitz, two humorous and very
interesting picture books that acquaint
younger readers with stirring history.

Perhaps Bill wants to know more
about motemen and firemen and what
they really do. Mrs. Kub's books for
small children will help him out there.
Perhaps he would like "How It All
Began," a book that is delightfully
written and illustrated by Janet Sma-
ley. It will tell Bill how primitive
man watched the lightning and found
he too could make fire by twirling
two sticks around together. Later
man found other ways of heating and
lighting and at last we got our
matches, gas, oil and electricity. The
book goes on, in the simplest fashion,
to show the beginnings of messages,
of travel, clothing, houses. It is a
thrilling sort of real fairy tale that
particularly appeals to boys like Bill.

Travel Stories Are Good.
What happens to a real letter after
it gets posted also interest some
of our very youngest readers. Wil-
liam Siegel, a Russian artist, tells a
simple story about that in "Around
the World in a Mailbag." Bob and
Betty's letter to their father doesn't
reach him in San Francisco. So it is
forwarded to China, Russia, France,
and even to Egypt. But though the
various postmen do their best the let-
ter does not finally reach him until
he is back in New York again. The
pictures make this book especially at-
tractive.

Here are just a few of the new
books for fairy-tale strikers. Many
more are to be found in the libraries
and bookstores. Just exactly the book
your Bill is looking for is waiting for
him there. And it is just the right
book for him at the present time.

Take him along and let him help
and it!

PINEAPPLE TAKES NEW ROLE

Canned pineapple, familiar food deli-
cacy on the American table for so
many years, is seen today in a new
role. New food research has found
that canned pineapple is a valuable
source of five necessary minerals and
vitamins A, B, and C. Authorities
recommend two slices or an equivalent
amount in crushed pineapple or tid-
bits in the daily menu as an aid in
maintaining health. In addition to its
mineral and vitamin content pineapple
has been found to be a valuable aid to
digestion of proteins such as meat and

eggs and to the prevention and relief
of acidosis. A beneficial dietetic
change wrought by temperatures dur-
ing the canning process is said to
make these findings true of the canned
rather than the raw fruit. Smart
hostesses following the new dietetic
advice, are serving the new pineapple
cup made from the canned crushed
fruit or tidbits as the first course for
dinner or two slices for the break-
fast fruit, luncheon salad or for the
dinner dessert. And their guests pre-
claim it delicious.

Lucky Scrap Jelly

Chip up pieces of candied fruit—
you must have at least one-half cup-
ful and you can use twice that
amount if you like. If no candied
fruit is around, use broken nut meats,
or small bits of candy or raisins or
dates stoned and finely cut.

Make 2 cupfuls of lemon or orange
gelatine. Pour the gelatine into a
mould and, when it is cool and be-
gins to "set" add the diced candy.
When serving time comes, turn the
mould upside down over the serving
dish. Wrap it tightly with a cloth
wring out of very hot water and the
jelly will fall onto the dish.

A garnish of whipped cream or con-
densed milk, whipped, makes the dish
prettier.—Child Life Magazine.

Size of the Stars

How large are the stars? To the
average individual their size is hard
to comprehend, but Dr. Edwin B.
Frost, famous blind astronomer in
Child Life Magazine, solves the prob-
lem. The sun, he says, is 350,000
times as large as the earth, and yet
some huge stars are forty million
times larger than the sun.

The State of Texas

To the Sheriff or any Constable of Motley County—Greeting: You are hereby commanded to summon Alva M Combs by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Motley County, to be holden at the Court House thereof, in Matador, on the 4th Monday in Feb., A. D., 1933, the same being the 27th day of Feb., A. D. 1933, then and there to answer a petition filed in said Court on the 15th day of Oct., A. D., 1932, in a suit, numbered on the docket of said Court as No. 849, wherein Dora Combs is Plaintiff, and Alva M. Combs is Defendant, and said petition alleging that Plaintiff was legally married to Defendant on or about the 26th day of November, 1924 and continued to live with him as his wife until about the 25th day of December, 1931. Plaintiff has been an actual bona-fide inhabitant of the State of Texas, for 12 months and resided in Motley County where this suit is filed, for a period of six months, next preceding the filing thereof. That on or about the 25th day of September, 1931, Defendant left this Plaintiff and three small children in New Mexico, penniless and among strangers and she was forced to go to her father for a home at Roaring Springs, Texas; that Plaintiff has not since the 25th day of September, 1931, provided food or clothing for this Plaintiff or their three children, until this date; that on or about the 1st day of July, 1932, Defendant came to Roaring Springs, Texas, where this Plaintiff was living with her father, cursed and abused Plaintiff, got a pistol and threatened the life of this Plaintiff and did beat and abuse this Plaintiff; that he rendered one of her arms useless for several days; that said cruel treatment on part of Defendant toward this Plaintiff has rendered their further living together as man and wife insupportable, premises considered. During said marriage there were born to Plaintiff and Defendant three children, Grace Viola, a girl, age 7, Alva Eugene, a boy, age 5, and Bonnie Joyce, a girl, age 2, who are still living; Plaintiff is able to bring up and educate said children and is the proper person to have care and custody of said children; that Defendant is not able to educate and care for said children, in that, he is not educated, is without a profession or even a job, or a home to take said children and care for them; Wherefore Plaintiff prays

Combs is Defendant, and said petition alleging that Plaintiff was legally married to Defendant on or about the 26th day of November, 1924 and continued to live with him as his wife until about the 25th day of December, 1931. Plaintiff has been an actual bona-fide inhabitant of the State of Texas, for 12 months and resided in Motley County where this suit is filed, for a period of six months, next preceding the filing thereof. That on or about the 25th day of September, 1931, Defendant left this Plaintiff and three small children in New Mexico, penniless and among strangers and she was forced to go to her father for a home at Roaring Springs, Texas; that Plaintiff has not since the 25th day of September, 1931, provided food or clothing for this Plaintiff or their three children, until this date; that on or about the 1st day of July, 1932, Defendant came to Roaring Springs, Texas, where this Plaintiff was living with her father, cursed and abused Plaintiff, got a pistol and threatened the life of this Plaintiff and did beat and abuse this Plaintiff; that he rendered one of her arms useless for several days; that said cruel treatment on part of Defendant toward this Plaintiff has rendered their further living together as man and wife insupportable, premises considered. During said marriage there were born to Plaintiff and Defendant three children, Grace Viola, a girl, age 7, Alva Eugene, a boy, age 5, and Bonnie Joyce, a girl, age 2, who are still living; Plaintiff is able to bring up and educate said children and is the proper person to have care and custody of said children; that Defendant is not able to educate and care for said children, in that, he is not educated, is without a profession or even a job, or a home to take said children and care for them; Wherefore Plaintiff prays

Texas Wool Industry

By W. E. TALBOT

Editor's Note.—This is the eighth of a series of articles dealing with the possibilities of the wool industry in Texas. Colonel Talbot, managing director of the Southwest Industrial Development Bureau, is an acknowledged authority on the subject of industrialization for Texas.

STORY No. 8.

Copyright, 1932, Southern Life Insurance Co. In succeeding articles I am going to endeavor to point out how we may not only scour the wool, but manufacture the cloth and turn it into the finished products of suits, overcoats and dresses. But you must bear in mind that this may receive opposition from those who are interested in continuing to exploit our Texas people.

The idea that they will help us is an erroneous one. They are going to do everything they can to discourage us. I want to quote you from a man who is intimately acquainted with the woolen industries—in fact, he is one of the big men in it today: "In the first place, you must bear in mind that Eastern people are not so very anxious to see this industry go to Texas, where, no doubt, it rightfully belongs, because they desire to keep the trade in the East.

And, so long as Texas is satisfied to put up with trade conditions as they now exist, you will find no complaint from the manufacturers here.

"I have always wondered why Texas allows this unbalanced economic condition to exist, as Texas is the most important wool and mohair growing State in the Union, producing 50,000,000 pounds of wool and 15,000,000 pounds of mohair annually which is shipped to the East in the grease, made into cloth and then shipped back to Texas for the Texas people to wear. The amount of wealth lost to the State each year must be enormous. And it seems to us that the Texas people are lacking in progressiveness to allow this condition to persist year after year."

Remember that this man speaking is from the East, that his living depends upon the wool industry, yet he was frank enough to express an indictment that should cause us all to make up our minds immediately to eliminate this loss to our people.

—From The Dallas Journal.

Tomorrow: "Production."

that Defendant be cited to answer this Petition and that on final hearing, Plaintiff have judgment of divorce dissolving the marriage between Plaintiff and Defendant that Plaintiff have the care and custody of said children of said marriage and for such other and further relief as the court shall deem proper to grant, with costs of suit.

Herein Fail Not, and have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Matador this the 18th day of January A. D., 1933

Mary E. Jones, Clerk, District Court, Motley County.

By Mrs. Marlin Pounds, Deputy.

Every Young Person Should Finish High School

A business man remarked the other day that he would not employ a young man or woman who did not have at least a high school education, supplemented by a good business training in a reputable Business College. This gentleman expresses the sentiments of at least

nine-tenths of the larger employers. If there should be a young person on the verge of quitting high school before finishing, this man's remarks should be a solemn warning.

Now that business demands a high school education and all the schools of higher learning have their doors closed to a non-graduate, it makes him almost an outcast so far as his educational life is concerned.

This should be a distinct challenge to the youngster who wants to quit. For when the doors of all the colleges are closed in his face and business demands a high school education, this should cause a young person to think twice before he quits.

We are told that one of the outstanding business schools located at Tyler, Texas, is requiring for entrance into its more important courses a high school training. What, then, is there left to the non-graduate but to dig ditches and draw water?

This editor has always advised young men and women to finish their high school training even at this particular time, when the higher professions seem to be overcrowded, we think a business training in some good school like the Tyler Commercial College and School of Business Administration at Tyler, Texas, is about the most sensible thing for a young person to do after finishing high school of course.

If you are graduating from high school and will write this College for one of its catalogs, it will give you some valuable information about business training. We understand the catalog is free.

College Degree Worth \$100,000, Experts Find

Statisticians and research investigators have at last run down the elusive and much discussed dollar and cents value of a college education and have fixed it at \$100,000. Their survey reveals that the average untrained boy goes to work at the age of 14, earns less than \$1,700 a year, so that his income from 14 to 60 totals \$54,000. The high school graduate, they find, starts work at 18, reaches his maximum income of \$2,800 at 50 and by 60 has earned a total of \$88,000. The college graduate, they learned, starts his career at about 22, has caught up with the high school graduate by 30 and at 60 is earning from \$6,000 to \$8,000 a year with a total earning at 60 of between \$100,000 and \$200,000. Figures from the same survey produced by the statistical department of Union Central Life Insurance Company show that out of 1,000 children entering grade school only 23 graduate from college. Lack of funds is revealed as the main reason for leaving school and educational insurance is now advocated as a means of giving a higher percentage the "break" which a college degree assures.

MME JULIE, Paris style observer, months ago sent the maker of Humming Birds advance reports on the summer's hosiery styles. The delicately tinted silken beauties now on display here are the last word in style! And very moderately priced.

Mrs. M. E. Kehey of Hedley, Texas, is spending several days with Mrs. Sallie Phipps.

Fruit For Breakfast

EVERYBODY'S doing it—combining canned fruits with all sorts of breakfast cereals—and for more reasons than one. In the first place they taste good, in the second they are good for you, and in the third they have been found to combine in most succulent fashion with practically all of the innumerable varieties of breakfast foods which are now available.

A Problem Solved

Fruits, according to all medical text books, are a valuable component of the dietary. They are good sources of mineral salts and of energy-yielding foods, the sugars. Most of them contain the bulk or roughage necessary to stimulate intestinal action, and they provide materials that help to maintain the normal slightly alkaline reaction in blood and tissue. Moreover, they are a good source of vitamins, especially of the essential vitamin C.

The problem of the housewife who used to exclaim: "Oh, dear! everyone in the family wants a different fruit for breakfast," has recently been solved by the growing number of fruits which are now obtainable in the new 8-ounce size of cans.

Almost Any Kind

In this new individual size of container are to be found peaches, pears, apricots, pineapple, loganberries, blackberries, raspberries, fruits for salad and cranberry sauce. Fruits obtainable in other sizes of small cans are figs, grapefruit and prepared prunes. It never does any harm to open any sized can of apple sauce. It's all always used in the end. So you can now get in line by letting each member of your family choose not only the sort of breakfast food he or she prefers but practically any kind of fruit to eat with it.

YORK'S SERVICE STATION VICTIM OF TIRE THIEVES SUNDAY NIGHT BURGLAR

York's Service Station was entered by thieves sometime Sunday night and tires and tubes the approximate value of \$137.00 removed.

Entry was gained by breaking a window in the repair shop back of the Service Station, and then forcing the door, giving access to the tire stock. Manager E. D. York said the tires had been picked in most popular sizes which that whoever committed the burglary was familiar with.

It Will Pay You to Follow These Signposts

Two willing servants—the Electric Range and Electric Refrigerator—are waiting to lead you to better living. . . . And these modern servants require no salaries, either . . . for they pay their own way with the savings they make!

It will pay you to employ Electric Cookery and Electric Refrigeration. The modern Electric Range will give you more healthful, more appetizing and more attractive meals . . . at a great saving in food and fuel! The Electric Refrigerator will give you increased efficiency and dependable convenience. It will improve food-flavors, assure safe, healthful refrigeration and eliminate the waste and danger of food-spoilage. And, like Electric Cookery, the Electric Refrigerator also will save substantial sums for you.

Don't consider these modern and efficient automatic Electric Servants as longed-for luxuries . . . recognize them as dividend-paying necessities . . . for that's what they are! They pay for themselves!

We will be happy to arrange an interesting demonstration of proofs for you. No obligation, of course. Convenient Terms on one or both of these household necessities simplify immediate purchase.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?
