Famous Portraits To Be On Display During State Fair

Portraits of all 33 presidents of the United States will be exhibited at the Dallas Museum of Fine Arts during the 1956 State Fair of Texas, Oct. 6-21, in one of the first collections of its kind ever assembled.

The gallery of presidents, which also will include pictures of some of their first ladies, will consist of more than 60 paintings and pieces of sculpture, providing an unusual educational and artistic opportunity as well as an entertaining history lesson. Admission to the exhibition will be free.

Highlighting the display of portraits, which will come from art galleries and private owners all over the country, will be a rare series of paintings of George Washington, Andrew Jackson, Abraham Lincoln, Franklin D. Roosevelt and President Eisenhower will also be represented in several works of art.

One of the best-known pieces of sculpture will be the bronze model made by Daniel Chester French for the famous statue of "Lincoln Seated", the focal figure in the Lincoln Memorial in Washington, D. C.

Among the first ladies pictured will be Martha Washington, Dolly Madison and Eleanor Roosevelt.

Chandor Oils In Group

The works of some of America's finest portraitists will be shown, ranging from the colonial painter, Gilbert Stuart, to the late Douglas Chandor of Texas, whose fine oil studies of President Franklin Roosevelt and Mrs. Roosevelt will be shown.

Chief contributors to the collection will be the National Gallery of Art and the Corcoran Gallery in Washington, as well as the National Collection of

ELECT EARL RUDDER COMMISSIONER OF THE GENERAL LAND OFFICE

EARL RUDDER:

- Rancher. Businessman. Citizen soldier. Former teacher-coach. Married. Father of five children.
- Took over as Land Commissioner and Chairman of the Veterans' Land Board in January, 1955. He has cleaned up the Veterans' Land Program and runs it for the Veterans, not the slick promoters!
- He is preserving and restoring the records of the Land Office.
- Was a battlefield soldier in World War II, twice wounded in action, decorated for bravery seven times by three nations: United States, France, Belgium.
- He is a VETERAN in a VETERAN'S JOB!

A Vote For Elbert Reeves is A Vote for Good Government!

BECAUSE of Representative Elbert Reeves and other representatives who share his honest, impartial views, West Texas is no longer a "colonial possession" of the Lone Star State. West Texas has a voice in Austin - a voice that is heard with respect and dignity.

CHECK Rep. Reeves' record. No member of the Legislature has contributed more to the welfare of Texas during the period he has been in office than our own native son, Elbert Reeves. He has richly deserved the title of statesman. ALL OF TEXAS KNOWS that Elbert Reeves stands for and defends the principals of honesty, fairness and integrity.

His work in the Legislature is a symbol of good government. He has been fearless in defending right, and destroying the substance that sustains political parasites. Elbert Reeves' record is one of action, courage and brilliance; devoted to the welfare of his state in general and his district in particular.

We who know Elbert Reeves best, know that he is dedicated to the service of the people who elected him and to the people of Texas. We know that he has served in the office of Representative at a personal sacrifice in time, money and effort - that he seeks no reward except the satisfaction of having served well.

Because of his SENIORITY in the House of Representatives, we have a voice that is heard. We have an investment in his experience and his influence that deserves our wholehearted support. A vote for Elbert Reeves is a vote for good government; progress with dignity for the state of Texas.

AUSTIN—Reunions, Rodeos, Fishing trips. From now until school starts, vacationing Texans will take to the highways by the thousands.

They are likely to find the roads more crowded than at any time in the state's history. From year to year, total traffic volume has climbed steadily. Highway Department surveys

show. In addition, vacation months bring a steep jump. August especially is a headache for the Department of Public Safety. Accident rates climb sharply. During the past five years August accident rates have been from 3 to 27 per cent higher than in July.

"People try to over-drive on a long vacation trip," says Asst. Chief C. G. Connor of the Texas Highway Patrol. "Fatigue is a particular problem. Speed is another."

They can't do much about people who drive when they're too tired, Connor admits. But something can and has been done about speed.

"Installation of radar detection devices has had a tremendous impact on driving practices," said Connor.

Studies made before and after radar use was begun on state and federal highways in November, 1954, show: (1) excessive speeding dropped from 21 to 15 per cent, (2) accidents dropped 3.4 per cent and (3) deaths drop-

ped 1.9 per cent. During the same period accidents on the non-radar-patrolled stretches—farm to market roads, city streets, etc.—climbed 13 per cent. A similar increase could have been expected on the state and federal highways, Connor believes, especially since total mileage increased also—nearly 5 per cent.

Had normal trends continued, 181 more lives would have been lost in 1955.

Operation Alert Scheduled
Would Texans know what to do if atomic bombs fell? To find out, a full-scale drill will be held July 20.

Five key areas—Houston, El Paso, Austin, Waco and the Fort Worth-Dallas area—will be assumed hit by bombs between 11 a. m. and 1:30 p. m. that day.

Smaller towns and rural areas also will participate in Operation Alert. Many have been designated as reception centers for evacuees from cities.

State Civil Defense and Disaster Relief Headquarters in Austin has asked all mayors, county judges and other local civil defense officials to cooperate.

Strategic industrial centers, such as Beaumont Port Arthur, will practice vacating plants and schools. Military bases will test their full-scale emergency measures.

Purpose of the drill is to show up any flaws in the plan where by federal, state and local officials and trained volunteers would cooperate to cope with a major catastrophe.

Nationally, Operation Alert will presume 52 cities bombed. FCC has ordered all radio and TV stations off the air at 3:10 p. m. July 20. Special civil defense frequencies, 640 and 1240, will be used for test broadcasts of disaster instructions.

Physical Ed Teachers Reassured
Physical education teachers won't be out of jobs if proposed new high school graduation requirements are adopted.

Commissioner of Education J. W. Edgar clarified the plan for alarmed teachers. Physical education and health courses still are required by state law, he said.

A State Board of Education study committee recommended they no longer be counted among the 16 units required for graduation. Committee sugges-

Cotton Acreage At 76-Year Low

Washington, July 19—The Agriculture Department reported Monday that the acreage of cotton in cultivation on July 1 was 16,962,000 acres, a reduction of 3 per cent from last year's 17,506,000 acres and the smallest acreage since the early 1880's. Texas acreage at 7,175,000 was off 1 per cent from last year.

This represents a cutback of about 23 per cent from the 10 year (1944-54) average of 22,746,000 and reflects reductions brought about largely under federal crop control programs.

Conditions were part of an overall effort to strengthen high school curricula academically, especially in scientific studies.

Vaccine For Adults Seen Soon
Texans over 20 may be able to get polio vaccinations within "a month or two."

But, said State Health Department officials, this is still "purely speculative." Actual timing will depend on when the vaccine supply exceeds that needed for youngsters and expectant mothers.

In Texas, polio takes its heaviest toll among tots under four years old. They have 51.2 per cent of all cases, 69.1 per cent of paralytic cases.

Persons over 20 account for only 17.4 per cent of total incidence, 6.8 per cent of paralytic cases.

Forty-one new cases were reported in the state last week, bringing the '56 total to 440.

Worse And More Of It
More and more Texans have less and less water. In its monthly report, the State Water Board listed these gloomy details.

Texas reservoirs were down 17 per cent, and observation wells and springs were at all-time lows.

Storage in Trinity River basin lakes was at 27 per cent of capacity; in Red River lakes, 55 per cent; in Lake Texoma, 51 per cent.

Famous Comal Springs near New Braunfels ceased to flow for the first time in history.

Ground water levels, below average in almost all areas, hit record lows in four areas.

No general area of the state could claim normal rainfall. Statewide precipitation was 46 per cent of normal.

Short Shorts
Texans had approximately 7 million acres of cotton under cultivation as of July 1, reported the U. S. Dept. of Agriculture. This was one per cent less than 1955, 20 per cent less than the 10-year average. . . . Though the primary election is not until July 28, thousands of Texans already have had their say on who goes into office next year. Absentee balloting began July 9, continues through July 24. . . . Texas will get a 22 per cent increase this year in funds for its public school lunch program, announced the U. S. Dept. of Agriculture. . . . The state acted to make Duval and Jim Wells counties safer for voters on election day. Three rangers were stationed at Alice after boss George Parr stormed into the Duval Co. courthouse, armed with a rifle, in search of his political foe, Tom Molina. He was disarmed and faces a misdemeanor charge.

Mrs. Roy Mitchell Attending Wayland

One Matley County student, Mrs. Roy Mitchell, is enrolled in Wayland College's first nine weeks summer school.

Mrs. Mitchell, Whiteflat, is a graduate of Spur High School and is seeking the B.A. degree at Wayland with a major in education and minor in English.

In the change over to the nine weeks summer term, Wayland has also scheduled its first summer commencement for Aug. 5.

Miss Eula Mae Henderson, executive secretary of the Wayland Missionary Union of the General Convention of the United Methodist Church, will address the August 5 convocation.

Wayland's summer school attracted students not only from Texas but from four foreign countries, including Nigeria, Brazil, and Canada. From 10 states, Pennsylvania, Tennessee, California, Louisiana, North Carolina, Florida, New Mexico, Oklahoma.

Born At Matador

Doc Elliot Williams was born and reared in Matador, a son of the late Mr. and Mrs. Harrison Williams. He moved from here over twenty years ago, and is a veteran of World War II. He was a member of the Baptist Church.

He is survived by two daughters: Mrs. Frank Palasota of Kingsport, Tenn., and Kay Williams of Billingsly, Montana; an adopted son, Chuck Williams of Billingsly; two brothers: A. J. Williams of Bowie, Texas and Walker Williams of Matador; and six sisters: Mrs. Mary E. Martin and Mrs. T. B. Harris of San Antonio; Mrs. Ethel Bird of Midland; Mrs. Ed Bishop of Dalhart; Mrs. Edith Sanders of Lubbock; and Mrs. E. F. Springer, Matador.

Funeral services were held Friday at 1:30 p. m. at the Charles Hanavan Funeral Home in San Antonio, and were conducted by Rev. Tally Williams, pastor of the North Side Baptist Church of that city. Interment was in Fort Sam Houston National Cemetery.

Attending from here were Mrs. Springer and Walker Williams, accompanied by their sister, Mrs. Edith Sanders of Lubbock.

SOIL GROUP . . .

(continued from page one)

Williams, included Bryce Marshall of Cee Vee, and James H. Priddy, local work unit conservationist of Matador, who also met with the Lubbock soil conservation leaders.

Lee York, a vice-president of the Lubbock First National Bank, will head the campaign. He plans to call a meeting this week in which committees composed of businessmen and SCS employees, Extension Service personnel and other agricultural representatives will be appointed and will work on the campaign.

Purpose of the cover crop campaign is to encourage the planting of legumes and other cover crops for the protection and building of soils.

Ever see an electric day bed?

You will soon. The first one is already on the market.

One minute it's a sofa. Then press a button and it unfolds into a bed—automatically. Press the button again and it folds back into a sofa.

This is just one of many new ways that electricity will be working for you in the years to come. Electricity will heat your home in winter, cool it in summer... cook your food in seconds instead of hours... open your garage doors at the approach of your car.

You'll need plenty of power for this new electric age—and it will be waiting when you want it. Independent electric companies like this one build ahead of your needs so you will have plenty of electricity always!
