Butane Bottle Is Miniature 'H-Bomb'

Joe Speer of Flomot is a one-man chamber of commerce and community booster. With the H-Bomb being exploded in the Pacific and the State Democratic Convention exploding in Dallas, attention was diverted from Flomot.

But Joe Speer is resourceful. He exploded a butane bottle on his farm. He doesn't know what caused the steel bottle to explode but he does know it resulted in several hundred dollars damages to his house.

The farm house was unoccupied. Mr. Speer discovered the damage when he visited the farm Wednesday morning.

A group of women from Spur, who attended the show included Mrs. M. L. Thurmond Moore, J. M. Williamson, C. H. McCulley, W. F. Godfrey, Dick Sampson, F. P. Baird, A. M. Jones and E. H. Martin.

McWilliams, Dorothy Plyler, Mickie Steen, Pina Sturdivant, Rachel Craven, Sara Carson and Stanley Neighbors.

In the year of 1952-53 our class embarked on one of the greatest adventures of our school days. We entered high school, some of us with high expectations, some of us with misgivings.

That year our class numbered twenty-one. We had lost Linda Boring, Clifford Britton, Betty Hines, Nancy Hibbard, Gayle Miller and Glenn Moalton during the summer; and had gained Teddy Alsup. Our class sponsor was Mrs. Beth Martin. Three classmates dropped out during the second semester. They were Jeanie Bearden, Franklin Glasscock and W. E. Russell.

Our sophomore year, 1953-54, found Coach Ray Hopkins as our class sponsor. We had lost Barbara Casey, Chester Cooper and Gail McWilliams, and had regained W. E. Russell. Dorothy Plyler left our class at the beginning of the second semester, leaving us a class of fourteen.

At the beginning of our junior year we had lost no one and had gained Clinton Holiman. We now had fifteen in the class. Mr. Bill Moss was our sponsor that year.

Then came our final year—the most exciting of all the years of school. At last we were seniors! During the summer we had lost Sara Carson, and had gained Maurice Cox and George Pitts, who dropped out after three weeks. Our class roll now reads: Melvin Cooper, Maurice Cox, Richard Hamilton, Clinton Holiman, Royce Kirby, Alvin Lynn, Stanley Neighbors, W. E. Russell.

Mike Shanks, Frank Traweck, Linda Chambliss, Rachel Craven, Lucretia Edwards, Mickie Steen, Pina Sturdivant. Our senior class sponsor is Mr. Garland Rattan.

Those who started to school together in the first year were, Rachel Craven, Lucretia Edwards, Mickie Steen, Stanley Neighbors, Frank Traweck and Maurice Cox. Rachel Craven moved away during the second grade, and rejoined the class in the eighth grade. Maurice Cox moved away in the sixth grade, and returned here last year in time to rejoin the class and graduate with his old classmates.

The long hard twelve years are over now, and our entire class is happy. But is there anyone of us that does not feel a twinge of regret?

Seniors Look Into Future To Discover Many Changes During Next Twenty Years

Here it is 1977 and I have been looking through an old "Matador" scrapbook and ran across our 1956 M. S. Senior class picture. Seeing I wondered what had become of everyone, so I got busy and here is what I discovered.

Our dear old class president, Stanley Neighbors went to South America to get rich but his heart yearning for Matador and a certain girl whom he had dated several times in high school, Kay Sherman. They soon married and went back to South America the time they made a fortune, but it was a good thing, I could only find out four of the boys names, Clayton, Buddy, Speedy Jr., and Speedy III.

Our vice-president, Alvin Lynn always did like rattlesnake better than girls, now has a huge rattlesnake farm and attends the Rattlesnake Round-up in Oklahoma. While there Alvin discovered a Matador girl who also had rattlesnakes. He and Mary never decided to make a permanent partnership. Each year they attend the Rattlesnake Round-up in Okene and celebrate their anniversary.

Rachel Craven, our senior secretary stayed around Matador for a year, anyway until Charlie and she finished high school and then after two more years they married. They attended Wayland College at Plainview where she played basketball for the "Flying Queens" and Charlie played a saxophone in the band.

The class treasurer, Mickie Ben, who always had so many boy friends has finally settled down. While making her career as a nurse she fell in love with the most handsome doctor in our class, Frank Traweck, who has really been a success. They are

running a medical clinic in New York City which is larger than Mayo Brothers and at the present have three little MD's.

The old bachelor of our class, Clinton Holiman is now living in Northfield and has been married four times. After he finished high school he made the wheat harvest and married a yankee. He then came back to Matador and married one of his old flames, Christene Green. They separated and he married a cute blonde from Childress. It seems this did not work out either so Clinton is now married to Carolyn McGee. They seem to be perfectly happy as they have been married for five years and are still living together.

Royce Kirby is still working for Bob Stanley, it seems that Royce could not leave his dear old job that he had all during high school. While working there he also got very attached to Linda Matthews and now they are both working at Stanley Pharmacy saving for that sweet little cottage.

Mike Shanks is still cowboy-ing, but he has bought him and his wife a nice little ranch from the Matadors. By the way, his wife is Frances McMahan and I hear they have adopted three little cowboys. Mike is doing very well for himself, he rode in Madison Square Garden last year and I hear he has entered the big Old Settlers at Roaring Springs, Texas. Good luck, Mike.

Pina Sturdivant and W. E. Russell are now happily married. W. E. is still working at Bennie's and driving his old billy-goat Dodge and Pina is working at Charlie's to help support their five sets of twins. W. E. and Pina had a very hard time finding each other, but finally did by the watermelon patch when Pina

caught W. E. getting her Dad's watermelons.

Melvin Cooper played hooky so much in high school that he is still staying in after school everyday. He has never married but has several girl friends. By the way after Melvin finished school he became a Highway Patrolman and loves his work. He also speaks to many schools on the importance of highway safety.

Linda Chambliss went to work in the bank after she graduated and one summer on her vacation she went to Central City, Colo., and was spotted by a talent scout there. She has since become one of the nation's favorite actresses. When we were in school Grace Kelly and Marilyn Monroe were very famous but now the name of Linda Chambliss puts them both back in the shade. Her latest movie is very good and it pleases all of us who went to school with her to have known some one like her.

Duck Hamilton, who was so deeply in love with Patti Craven in high school, fell in love with Amelia Alexander, 340 pound circus lady. She and Duck were married and now they travel with Ringling Brothers, Barnum and Bailey Circus. Richard feeds the monkeys and the elephants every morning and night.

Right after Joan and Maurice Cox finished high school, they moved to Lubbock where Joan went to Draughn's Business College and Cotton worked. The next fall they moved to Dallas where Cotton studied to be a mortician. Now they are running a funeral home in Whiteflat. Also, they have three little Cottons.

Our sponsor and his wife, Mr. and Mrs. Rattan went back to Boys Ranch. We lost contact with them for a year. But finally Mr. Rattan sings at the Coconut Grove and Mrs. Rattan has directed several movies.

And I, Lucretia Edwards went to Texas Tech for four years. I majored in music and speech. I now have my own TV show, featuring my husband, Harold Dean Martin, who is recognized as the successor of Elvis Presley. The show originates from our farm home in the Barton Community. We now have seven boys. They are, Dean Jr., Alvin, Glenn, J. N., Bill, Gary and Ben.

VALEDICTORIAN of the 8th grade graduating class at America's First Boys Ranch, Amarillo, Texas, is Tommy Simon. Tommy and 32 other Ranchers will receive diplomas on May 25.

First Graduating Class This Year From Boys Ranch

New school at America's First Boys Ranch, Amarillo, will have first and largest graduating class this year. The school has just been completed this year.

Thirty boys will finish the 8th grade and three seniors will receive high school diplomas on May 25 at 8:00 PM.

The boys will have as their special guests at the exercises the Peace Officers of America and other friends who helped to make the school possible.

According to Cal Farley, Ranch Founder and President, the boys' grades have improved 15% since they have had the new building due to their pride in it and their school work.

The three seniors, Leonard Schmida, J. T. Brown, and Martin Rasmick, are hoping to go on to college next fall. The boys who go to college borrow from the Ranch Educational Fund and later repay it so that another boy may have the opportunity to go to school. Four boys from Boys Ranch are attending colleges over the nation this year.

The boys graduating from the

8th grade are looking forward to entering high school next fall.

Speaker for the boys graduation will be Sheriff Hugh Anderson of Borger who is the new president of the United Peace Officers of America. The Peace Officers are continuing to help the building program at the Ranch.

The Diary of Mary White

(continued from last week)

February 24, 1956, Friday

Cleaned boards, bookshelves, and walls in the schoolroom today. The children did such a nice job. You know how one clean spot can show up all the other dirt? Well the floor looked terrible. We had scrubbed it about two weeks ago but all the finish is gone. Resolved not to scrub it again until it could be redone. Tonight was elected. So with scrub brush, hot soapy water, and elbow grease we covered the entire floor. It was several shades lighter by nine o'clock. Our knees were shaky and other joints were complaining so we left it to dry and limped wearily off to bed.

Snow is still falling and still no wind to pile it in drifts.

February 25, 1956, Saturday

Arose early to put first coat on the school room floor. One look after it had dried revealed a sad condition. Spots were still not clean. So, down on the sore knees and scrub the entire area again. By noon it was dry and we put on a coat of sealer. Directions said let it dry twenty-four hours but Monday morning was crowding us so we decided it was dry enough and we put on a coat of varnish about nine to night. Heard today that auditor is to be on the next plane. What day that may turn out to be in this kind of weather is anyone's guess.

February 26, 1956, Sunday

That snow storm has gone back to the north Pole or down Texas way one for we have nice clear weather this morning.

Bush plane came for the patient but no mail. They are taking mail runs in order. That means we are last for our day is Friday. Oh, well, no mail plane no boarder. Another coat of varnish on the floor and it was very evident that it would not dry in time for Monday morning. Sent a note so it would be announced in church that there would be no school. Tried to accomplish other tasks today but scrub brush and paint brush had about used up all the energy in this White family so we have nursed our musings today. Did not go to church. This clear weather is cold and the church floor is first cousin to a glacier.

February 27, 1956, Monday

Had planned to put the furniture back in the school room about four o'clock. It is stacked in the wash room, clinic room and front hall. Doors will barely open and one has to be the Thin Man to get around. Eleven o'clock brought a plane. Oh boy, mail! Nuts! It came from the east has no mail and what's worse has that auditor aboard. Couldn't get his baggage in the front door but did squeeze him through. He is a Thlingit Indian from Haynes Alaska. Interesting to talk to but the man was hungry, it was lunch time and you guessed it—I had nothing started for lunch I opened the can, heated and filled his soup bowl about three times and let him finish on bread and jam with a promise to do better at the evening meal.

The conversation tonight centered in southeastern Alaska. Our guest is a grandson of the chief of his tribe and many are the strange customs that he described to us. The uncles rear the sons in a family. The father might be too lenient. This is also one of the tribes who practiced pot latches. Interesting little side light on the human art of bragging. He, of course, is quite well indoctrinated with our kind of thinking, having been educated in Seattle. He plans to marry an Indian girl soon. It would be interesting to know just what he will teach his sons.

February 28, 1956, Tuesday

Back to school today on the shiny new floor. By ten o'clock I was sick and disgusted. Every time a chair was shoved back it

scarred the varnish. It wasn't as dry as we thought evidently. Before long the floor resembled a victim of smallpox. I could reason with myself that children had to move and it wasn't their fault that we had thought it dry when it wasn't so I didn't scold about the scars they made as they "bit their heads off" in just about every lesson they had all day. My reason pushed my re-cremating frustration off the main highway but it took a side road and traveled right along. Oh for an antidote for such noxious behavior! And all on account of a little floor varnish. Just part of the high standard of living of which we stateiders are so proud and for which we pay a high toll in nervous tensions.

February 29, 1956, Wednesday

The floor received no fresh marks today so we could relax. My boarder really got a makeshift meal for lunch. I fed the children oatmeal for their hot dish and he didn't care for a dish I baked reminder with potatoes and onions and a fruit cobbler tonight so maybe he will forgive me. He had never before heard of a cobbler or eaten anything similar to it.

I did not get to eat with the others. As I was putting the meal on the table here came a mother with an eight year old daughter. The jaw was swollen around a decayed tooth. The mother wanted penicillin and the daughter did not. I waited patiently while the mother coaxed. Then the mother left the room telling the daughter I would talk to her. The surprise was all mine. I suggested a few things that Sonya promptly vetoed so I washed my hands. The mother then lost her patience and proceeded to sit on the unwilling subject. To insure delivery of the medicine to the desired place I had to sit also.

March 1, 1956, Thursday

In like a lion; thirty-five below and the wind howling. Our auditor is finished and a bush plane came in today going his way but he insisted he was too broke to get aboard. Nuts! I thought the Whites were the only people in Alaska who were that broke.

Had our first round with frost bite today. Roger and some little boys were having fun riding the sled off the cliff. I called him once to come in but he did not hear me. Dark drove him in and when he pulled off his mukluk his big toe was white. The Thlingit Indian said all they ever used was kerosene so we put kerosene on it and let it thaw at room temperature. The latter was a mistake, of course. He could not eat his supper it was hurting so. I gave him an aspirin which didn't seem to help. By nine o'clock we were so exhausted by his screaming and crying that I

gave him a phenobarbital tablet. He fell in to a moaning sleep and the rest of us gladly fell in.

March 2, 1956, Friday

Lovely sunny day with no wind but bitterly cold. Mail on schedule for a change and I didn't get to read any until after school. Then I parked myself at the dining table and scowled away anyone who dared come near. My what an avalanche of letters. Everyone decided to write at the same time and this White family really had a feast.

Heated the various cans for supper then went to the movie, "Passion" starring Cornell Wilde. We did not ride 'em and shoot 'em tonight. We rode 'em and slashed 'em with knives, Spanish style.

Was glad to crawl into my bunk and the thought that tomorrow was Saturday helped to induce speedy relaxation and sound sleep.

March 3, 1956, Saturday

Well Alaska Airlines finally picked up my little Indian and instead of going to work, the children went out to play and R. W. and I settled down amidst the week's debris and thumbed through new magazines. There were new books too and that plus eating twice today just about tells the story.

I hid the money that I got from the meals I served the boarder. I am beginning a camera fund. I want a really excellent slide camera. There is a nurse, a T.B. Survey team and a dental team yet to come this year so I'm hopeful. We are allowed by ANS regulations to charge them \$3.00 per meal and \$3.00 for each night they stay. Now, don't you in the States start feeling sorry for them.

They get \$15.00 per day travel expenses plus their regular salary and the plane tickets are furnished.

March 4, 1956, Sunday

A lazy morning. My bread cook came to bake bread. She announced that Thursday would be her last day. I was dismayed and asked her why she was quitting. Then she helped immensely by saying she wasn't quitting but would be gone for two weeks. She had been summoned to jury duty in Nome and notified that a plane would pick her up on Saturday. After leaving her for a few minutes I discovered she was mortally scared of this venture into the unknown—for that is what it amounted to for her. She is very intelligent and will learn quickly but it is a human trait to fear the unknown. Only the boldest of spirits willingly launch out. The rest of us have to be dragged out by duty or tossed out by circumstances. (to be continued)

The meaningful emblem  of Body by Fisher

When you see "sterling" on silver you know what it means—solid silver, all the way through.

And when you see the medallion "Body by Fisher" on an automobile it means much the same thing—quality all the way through, in things unseen as well as on the

visible, gleaming surface.

Only one who has owned a Chevrolet for several years can fully know the satisfaction this emblem pledges. For only Chevrolet in the low-price field is entitled to wear the small, proud plaque that proclaims "Body by Fisher."

SENIORS MAKE LAST WILL AND TESTAMENT LEAVING TALENTS AND ABILITIES BEHIND

This our beloved audience, is the last will and testament of the 1956 Seniors who are leaving behind dear old MHS.

First of all we would like to leave to each of you the ability of whatever it may be to get this far in school. Also we leave you the Senior section of the study hall. Those are good deals we left, so be sure and take good care of them.

Our president, Stanley Neighbors leaves his pretty western shirts to his little sister Betty, he knows she will wear them anyway. To Johnny Shanks he leaves his good humor and to Spencer Dixon, his football ability. He leaves his class presidency to the one and only Norman Brauchamp.

Rachel Craven leaves her quinine to Joanne Darsey, we all think she can use it. She leaves her bookkeeping ability to Carroll Cooper. To Charles Renfro she leaves her romantic moods and her love. Her brown hair and blue eyes she leaves to Doria Canon.

Mike Shanks leaves all of his girl friends to Clay Jameson and expects him to love them as he did. His cowboy ability he leaves to Bill Fish and hopes he has more luck in the bronc riding than he did. To Lewis Fair he leaves his beloved Ford pickup and we hope Luper won't run it as fast as Mike did.

Mickie Steen leaves her ability to get along with people to Morris Burke, and her steady boy friends from Paducah to Rosemary Shanks. She leaves her chemistry answers to Frank Thrasher, though I doubt if he needs them. Her pretty clothes she leaves to Kay Stanley.

Alvin Lynn leaves his football

captaincy and scholarship to Kent Gray, good luck Kent. The presidency of the FFA and student council he leaves to Donald Green. He wishes he could leave his girl friend but that is impossible, no getting away. Alvin. The twinkle in his eyes he leaves to Gregory Smauley and hopes he gets by with as little office work and time as Alvin did. To Sherril Rigby he leaves his height and build.

Pina Sturdivant leaves to Barbara Waybourn her love of horses. Her maid part in the play she leaves to Karan Burns and her speed to Martha Cooper. She leaves her temper to Karmen Jenkins. Pina leaves her naturally curly hair to Rosemary Shanks and her height to Nelda Lipham.

Frank Traweck leaves his ability to study and make hundreds on all the test to Dayton and Shelby, no doubt they need it. He leaves the annual to Leon Hughes and his piano playing to Arvin Ellithorp to serenade Darlene with. His ambition to be a doctor to A. B. Simpson. The valedictorian honor he leaves to Clay Jameson.

Clinton Holiman leaves his room at Steen's to Roger Seaff, his F.H.A. Beua to Johnny McNelly, together with his ability in football and also the one to get along with certain red heads to Bobby Cross. Clinton's track ability he leaves to Garland Cartwright. Clinton's hard job we leave to Jimmy Jameson, please don't strain yourself. That wolf whistle of his he leaves to Pat Groves. His position as reporter of the senior class he leaves to Christene Green and hopes she turns in more assignments than Clinton did. Incidentally, Clinton didn't turn any in.

W. E. Russell leaves his dear old billy goat Dodge to Sue McCaghirn so she won't have to walk to school every morning. Poor Sue. His timid ways leaves to Ronald Bailey, his pretty brown hair he leaves to Frank Thrasher and hopes he does not use bleach or such on it. W. E. leaves his love for onions to Charlie Renfro and for goodness sake don't eat them before picking up that date.

Royce Kirby leaves his part of the annual to Betty Matney. Hope she's good in math. His meekness and quietness he leaves to Bobby Williams, and if that isn't okay he said Linda Matthews could have it for she needed it so much worse than Bobby. His job at the drug store he leaves to Manuel Nichols. His car he bequeaths to James Stanley, no ditties now James.

Duck Hamilton leaves his pretty girl friend or sweetheart to Mike Groves. Hope they will find the parking place behind the lumber yard. His curly hair he leaves to Sherril Rigby and his pretty teeth to Coach and hopes he doesn't need them next year. To Gerald Pipkin he leaves his football ability and his love for hunting rattlesnakes. Better watch it, Gerald. His mean part in the senior play he leaves to Mary Lois Watkins.

Maurice Cox leaves his job at the funeral home to Shelby Jackson, we hope that he doesn't do too much digging. Also he leaves his being a fire boy to Johnny Shanka, we hope that

Cy Courtney Has 2nd Heart Attack

H. H. "Si" Courtney, former Matador county sheriff, now associated with the Dallas (Farmer's Branch) police department, suffered a second heart attack Friday evening.

Recuperating from the initial attack about six weeks ago, he was at the home of his son, Hal Courtney, in the Northfield community. The former sheriff was rushed to a Childress hospital and a report Tuesday said his condition was favorable.

Mr. Courtney was in Matador last week and said he felt improved and hoped to return to work in September.

Stores To Close
Although the First State Bank and a few other places of business have announced that they will observe the holiday, no general closing plan of business places has been announced. The several grocery stores in the community will remain closed, it was announced and it is probable that other merchants, with the possible exception of cafes and filling stations, will join in the movement to observe the holiday.
Business places in larger cities usually observe Memorial Day, May 30, by remaining closed.

AMMO-PHOS FERTILIZER

is water soluble . . .

Experiments prove that crops take up more phosphate from water soluble Ammo-Phos fertilizer than from common mixed fertilizer.

MAKE THIS EASY TEST
Place one-half teaspoonful of the fertilizer you are now using in a glass of water. Then place a similar quantity of Ammo-Phos in another glass of water. Stir both mixtures for several minutes. Notice how water soluble Ammo-Phos goes into solution while the mixed fertilizer collects at the bottom of the glass. Even if left for several days, the ordinary mixed fertilizer will not dissolve completely.
With Ammo-Phos your crop gets what you put in the ground.
