Change In Climate Brings New Leaves To Cotton Stalks

Never sell a political campaign promise short. The Republicans promised a change and even went to the trouble of including West Texas climate.
Ozell Myers who farms immediately north of the Matador township doesn't know whether to plant a new cotton crop or merely start cultivating the stalks in his field. They are sprouting new growth at the top of the ground since the mild winter failed to kill the roots.
Except for the problem of water Mr. Myers has considered cutting up his farm for citrus plots. He is waiting, however, to see if the change in administration can bring about a change in the drought situation.

Matador, Estelline Tie In District Track Meet

In speech events held at Matador, Matador won three first places and one second, from the four entries. Jimmy Graham and Bette Frazer Montgomery won first place in senior girls and senior boys declamation, and will receive Fleming Post No. 337 American Legion medals for these honors. Carol Gordon took first place in senior girls extemporaneous speaking, and Gail McWilliams won second in junior girls declamation. They are pupils of Mrs. J. R. Whitworth.
Another first place winner was Eleanor O'Kelleigh, who won in the Ready Writers contest. Neil Pipkin placed third in Number Sense.

Salt Water Well Showing Up In Motley Oil Test

Excellent site for a pickle factory is being developed in the northern part of Motley county. It is the Lion Oil company's No. 1 Shoe Nail 8,000-foot wildcat. It has 3,250 feet of salt water.
An item in the Tuesday Lubbock Avalanche said a drillstem test at 7,190 in granite wash showed no oil or gas at 7,190 feet (Pennsylvanian). Recovery was 150 feet of slightly mud-cut salt water and 3,250 feet of salt water. More hole is being made below 7,295 feet in lime and shale, the item declared. The well is 14 miles southeast of Turkey.

Scholarship Available For Student

A former superintendent of Matador High School, A. J. Spangler, now with the division of agriculture, Tarleton State College at Stephenville, (with Mrs. Spangler) has made available a \$250 scholarship and designated a graduate of Matador high school be the recipient.
The gift was made public in a letter to bank cashier J. R. Whitworth in which he asked for a list of high school seniors (boys) interested in the field of agriculture.
Mr. Spangler's letter in part said: "... Mrs. Spangler and myself are giving the scholarship to a graduate of the Matador high school, for the school year, 1953-54... the scholarship is being given for a student enrolling in the two-year course in practical agriculture, which I was instrumental in organizing and teaching here for four years.
Course is Practical
"It is listed in the catalogue as General Agriculture Vocational. It is so called because it is designed for the farm or ranch boy who intends at the end of two years to return to the farm or ranch and who already has some financial interest in farming and ranching. This scholarship is not available for a student who desires to take the regular four-year curriculum which leads to a degree. Few boys who graduate from a degree course in agriculture ever return to the farm or ranch."
"This curriculum (scholarship) contains no biology, chemistry, botany or algebra. It resembles the vocational agriculture the boy had in high school. It teaches him how to do and what to do without going into all the chemical or biological theory behind it."
The scholarship provides tuition, matriculation and student activities fees, room rent in one of Tarleton's dormitories and book allowance.

Funeral services will be at 4 p. m. today, in the Whiteflat Methodist Church, with the pastor, Rev. L. W. Baker, officiating. He will be assisted by Rev. H. T. Harris, Baptist pastor.

Della Kimbell was born at Georgetown, Texas, March 17, 1880 and died April 15, 1953, at the age of 73 years, 28 days. She came to Motley county in March 1890, with her parents, the late Mr. and Mrs. E. B. Kimbell, who homesteaded at Whiteflat, and was married May 7, 1927 to Charles Harris, who preceded her in death last August.
Mrs. Harris had been a member of the Methodist Church since early childhood. She was an early-day school teacher in the county, and was a charter member of the Motley County Singing Convention, oldest organization in the county.

Boots Polished As Cattle Horse Show Makes Final Plans

Rodeo fans are polishing their boots and rubbing the lardish from their spurs. Out ahead in the season is the 11th annual Cattle-King (counties) Rodeo Association's horse and colt show which warms up with a big dance tonight for two days of cattle-country fun.
The annual event has everything, including a talent show for amateur entertainers scheduled for five p. m. this afternoon. The dance tonight is designed to get everyone "in the spirit" for the official beginning tomorrow. Son Propps and his Western Swing Band of Vernon will play.
The formal western parade is Friday morning. It will be led by Paul Waggoner, scion of the famous Texas ranching family, and will include riders, boys and girls, men and women from the entire area. Colorful riding clubs will take part in the pageant.
Joe R. Meador, parade marshal has announced that the parade will start forming at 10 o'clock Friday morning, on the street north of the Cattle Hotel, and will start moving promptly at 11 o'clock, to the rodeo arena. Everyone is invited and urged to ride in the parade, singly, or in clubs.
Two dances and two rodeos are scheduled in the program. First 500 buyers of rodeo tickets will get reserved seats at no extra cost. Prizes of all kinds will entice riders to offer their best performances. The horse and colt show is sandwiched in between the two days program.

Senior Class Play Cast Is "All Star"

An "all-star" cast of seniors Tuesday night presented annual senior class play before a highly appreciative audience in a well-filled auditorium. Selection of any one outstanding performer would be difficult.
The three-act comedy, "A Ready-Made Family" furnished hilarious entertainment from curtain to curtain, and at times laughter was so prolonged that it was difficult to hear the players' lines.
The marriage of Agnes Martyn a widow (Betty Ruth Spray) to Henry Turner a widower (Charles Keith) and the reaction of their children and a neurotic sister-in-law, furnished the plot for the action. The Martyn children were, Bob, Gary Laughlin, Marilee (Marlene Bailey) and Gracie (Eleanor O'Kelly). Miss Lydia, Mrs. Martyn's neurotic sister-in-law was played by Carol Gordon. The Turner children were, Doris, (Emmie Lee Carson) and Sammie, (Pat Reeves). Begonia, the Martyn's darky cook, (Frances Traweek) and Nicodemus, the colored handy man (Cecil Shelton) completed the well-chosen cast, each of whom turned in excellent performances.
Mr. Bill Word, class sponsor, directed the play, proceeds of which will be used to defray expenses of a senior trip in the near future.

Post-Easter Spell Expected To Bring Freezing Weather

SECOND cold spell in a week is forecast to strike this area early this morning. Snow in the Rocky Mountains and shifting low-pressure areas put weathermen in a dither yesterday as they began stressing the possibility of frost as far south as Plainview and Childress.
The forecasters warned that plants and shrubs should be protected to avoid possible damage. It will be the second time within a week that winter has gotten back into the act while spring is trying to make a dramatic entrance.
A warm standstill Saturday afternoon changed abruptly to a sandy norther shortly before sundown and spread a blanket of cold aid down across the Panhandle. Official mercury reading here was 32 degrees Sunday morning according to Walter Superintendent Lee Burns. The cold weather remained until Monday when southwest winds moderated the temperature to near normal. Mild weather Tuesday and until a late hour yesterday gave promise to a return of spring.
Gloomy Forecast
More significant than the cold wave warning yesterday from the Amarillo weather bureau, was the 30-day weather forecast. It gave little promise of needed rainfall. The forecast was "subnormal temperatures and subnormal rainfall during the next 30 days."
Long-time observers here, however, were skeptical in accepting a 30-day forecast of West Texas weather. They believe factors which govern weather in this area are so erratic "that anything can happen and usually does."

Editor Is Asleep While Broadcast Pays Him Tribute

Ever go out for a package of cigarettes while some pretty girl decides to kiss every man in the room? The same kind of fate follows Tribune editor Douglas Meador. The conditions were different, however, Sunday morning when Meador was blissfully reposing in the arms of Morpheus.
It was a dismal hour (about eight o'clock) when he was shaken out of his sleep by the thunderous bells of a telephone. "Did he hear the program by Laura V. Hamner from Amarillo radio station KGNC?"
"Sorry."
"It was all about you and it was wonderful. She said so many nice things about you... that you were a rare genius... a volunteer public servant..."
Meador went back to bed. Presently the telephone rang again. "No, he did not write the script... he had given Miss Hamner some information about himself last summer... and had forgotten about it. Didn't know when it would be broadcast."
The telephone rang a number of times. Finally Meador went back to sleep and dreams, vindictive dreams in which telephones are pulled loose from the moorings and radio stations giving continuous weather reports.
"Said nice things about me... it would have been nice to hear and a change... Miss Hamner is a wonderful person... sorry... some other time, perhaps..."

32% Jump in Volume Makes Price Cut Possible!

DETROIT: In announcing lower truck and car prices, L. L. Colbert, president of Chrysler Corporation (builders of Dodge, "Job Boy" trucks, and "Job Boy" cars), said: "Since the first of this year, Chrysler Corporation has built 32% more automobiles and trucks than we were able to turn out in the corresponding period last year under government controls. With the spring selling season just beginning, our dealers are already writing a pace more than 30% ahead of last year."

"We are very pleased that we can take this action so shortly after the administration's prompt ending of price controls, and restoring to the automobile industry freedom to build the cars and trucks for which materials can be obtained in a free competitive market."

"These lower prices indicate Chrysler Corporation's confidence in the wholesale market of these items," he said.

"Now that higher volume is being achieved and we may reasonably expect it to continue, we are lowering prices accordingly."

Kampus Klatter

The Juniors and Sophomores were all smiles last Thursday morning when they heard the man was here to take the orders for the senior rings and junior pins. But wait till school starts next year, the smiles will really come, because then they will

arrive and will be ready to wear. This past week, the Freshman class had try-outs for a one-act play which they are going to give pretty soon. Mrs. Andy Hurst is their sponsor.

We were glad to see some of the Matador Exes around the campus last week. Ruth Marie Stanley visited school some while she was home for Easter holidays. Others seen around the campus lately were R. L. Holt, Joe Spray and Beatrice Brogdon.

We are quite proud of Matador students who entered in the Interscholastic League events this year. Everyone came out very good. Not everyone got first place, but there were a majority who did.

Calvert Completes Heavy Drop School

Fort Campbell, Kentucky, 8 April 1953—Corporal Ollie D. Calvert Jr., the son of Mr. and Mrs. Ollie D. Calvert of Flomot, Texas, recently completed the Heavy Drop School. This Airborne School teaches the latest techniques in dropping heavy equipment, such as his 105mm howitzer, from flying aircraft. These techniques will be utilized by Corporal Calvert and his section in various airborne demonstrations which he will participate in throughout the country. A typical maneuver employed by the "up-and-coming" Corporal is to drop his howitzer from a C-119 Aircraft and then parachuting, followed by his personnel, onto the same drop zone.

Corporal Calvert is currently Chief of Section of a 105mm howitzer section in the 457th Airborne Field Artillery Battalion of the assault 11th Airborne Division. Because of his position the Corporal is in command of his section of eight men and is accountable for some \$35,000 worth of United States Army equipment.

A graduate of Flomot High School in 1949 Corporal Calvert enlisted in the Army in January, 1951 and volunteered for the elite Airborne Corps in July, 1951.
