## Heavy Rains Blanket County

### Reduction Of Insurance Is Asked At Meet Rates Expected To Be Lowered By Ten Per Cent Soon

As a result of the facts revealed at the meeting of the State Firemen's Association at Harlingen, Texas, on June 13-15, the State Board of Commissioners is expected to compel fire insurance companies to reduce their rates by ten per cent.

An additional two cents is charged on the key rates of Matador because the city has no reserve hose truck. The Board of Insurance Commissioners, however, states that such a rate cannot be charged in towns with less than 1,500. Since Matador has a population of 1,300, it is being charged excessive fire insurance rates.

Several other requests were presented to the board, and these are expected to be granted soon. These requests affect each insurance buyer in Texas, and the firemen of Texas are hoping that each city and town in the state will join in the fight. The interest that the State Association is taking in insurance rates is a new service that it has inaugurated in behalf of the insuring public.

Local firemen, Clay Gilbert, Roy Smith, Charlie Berryman, and Harmon Mills, who attended the convention, report that they enjoyed it greatly. Next year, the association will hold its annual meeting at Houston.

### TERRACES WORK SUCCESSFULLY FOLLOWING RAIN

Syrup-pan terraces have conquered Ballard Creek! Monday saw the highest rise on the stream since four terraces were built across its channel more than two years ago on the U. L. Willie tract south of the Matador town section. All of the water was lifted out of the creek and completely covered the forty acre field to a depth of one to four feet, yet the terraces were not damaged. Excess water has already drained from the field without injury to the fine stand of sudan grass which is growing there. This thorough irrigation is expected to materially increase the production of the land for this season.

So successful has been this demonstration of water utilization, planned and built by Frank A. Buckley, County Agent, that Willie is contemplating the construction of several additional terraces to make use of the drainage which now passes through the system and goes to waste.

Several citizens driving on the highway east of Matador Monday reported observing the field of J. E. Jameson covered with water. The drainage from several hundred acres of higher land was distributed over the level field by the syrup-pan system of terraces built last spring according to specifications of the county agent. The young crop including a promising field of corn, was well irrigated without damage to the crop nor to the terrace.

Many of the more than thirty other syrup-pan terrace systems of the county were reported in successful operation, and no damage was observed.

Mr. and Mrs. F. F. Calhoun left Friday for Beaumont, where they will make their home. They visited here with her parents, Mr. and Mrs. A. L. Fryar, recently.

### Petition For Paving Vote Being Signed Voters Asking For Second Election On Street Bonds

A petition was being circulated in Matador late yesterday asking the city council to hold a second election in order to vote bonds for \$6,000 improvement on four blocks in the business section. The election is made necessary by a flaw in the wording of notice of the former election which made it impossible to derive a sufficient amount to retire the bonds within a ten year period. A total of 50 or more names of qualified property-owner voters is necessary to appear on the petition, it was declared.

Low Interest Rate The petition declares that the rate for the bonds will be 4 1/2% and the indebtedness will be paid within a ten year period.

The money will be used in connection with a WPA project in effort to aid the relief situation in the county. The WPA project of paving the four blocks has been applied for and it is expected that the paving work may be started within a short time in event the second election receives the same consideration of the voters as the former one.

The additional levy on property sufficient to finance the bonds is expected to be in the neighborhood of 12 to 15 cents per \$100 valuation, although no exact figure has been released. The date of the next election will be determined by the city council after the petition has been presented.

### County Wheat Crop Shipped

Most of Motley county's wheat crop has been shipped, according to Glenn Dobkins, grain buyer of Roaring Springs. Although this county raises but very little wheat except for grazing purposes, eight cars have been shipped from Roaring Springs and Mr. Dobkins expects to ship one or two more. He said Monday that the yield in the county would average 15 bushels to the acre, which is much better than some of the plains wheat-growing section. Mr. Dobkins said he shipped 15 cars of wheat from Roaring Springs last year.

### SPUR RODEO IS WELL ATTENDED

The city of Spur was normal again on Sunday after staging its first two-day Round-up and Rodeo. The celebration was highly successful, having a total paid attendance of 16,000 persons, and plans are now underway for an even larger one next year. Although a withering heat wave was waging during the event, the Spur folks and their visitors went ahead and enjoyed themselves to the fullest extent. Four rodeo performances were given in the huge Charles A. Jones Memorial Stadium, and prizes totaling \$2,500 were presented to the best of West Texas' amateur contestants.

Canadian Girl Wins Miss Sydna Yokley, Canadian ranch girl, won first prize in the sponsors contest that was entered by 30 girls. Matador was represented by Miss Reatha Rayne Robertson, daughter of Mr. and Mrs. L. B. (Bob) Robertson.

A large delegation from Matador attended the colorful two-day celebration.

HERE FROM DENVER John Mackenzie, of Denver, Colorado, general manager of the Matador Land and Cattle Company arrived here yesterday for an inspection of the company's holdings in this section.

### SNUFF DIPPERS CONVENTION SET

GRENADA, Miss. —Bona fide dippers of pulverized tobacco are getting their brushes and boxes in order for the annual snuff dippers' convention to be held here July 1. The convention will be open to the public, but those who are not regular dippers but wish to attend must brush some of the powdery essence of ease on their lips or be kissed by some feminine ad-dict. Nobody gets in unless, he or she, is displaying prominently about the lips the brown stains of snuff. Whether it is wet or dried and caked does not matter.

### Measuring Of Crops Begun On Saturday Work Is Started Earlier Than Usual; Delayed By Weather

Actual measuring of crops to check compliance with the 1939 government farm program was begun Saturday of last week. This is two weeks earlier than the work has ever been started in this county before according to Frank A. Buckley, Secretary of the Motley County Agricultural Conservation Association.

Four local performance reporters were started to work by Ernest McWilliams, County Performance Supervisor, in various parts of the county Saturday and Monday. Rainy weather has slightly delayed the measuring, but will ultimately speed it to completion, because planting could not be completed on many farms until the rains came.

Six more performance reporters will be employed as soon as all equipment is ready for service, Buckley indicated, so that all producers can be notified of their cotton acreage in plenty of time to destroy any excess. Two plainimeter operators in the county office will calculate acreages as fast as the maps are turned in from the field. Five other employees will prepare the necessary papers to submit to the State Office.

To Attend Meeting Representatives of this county will attend a meeting at Abilene Monday and Tuesday along with committeemen and county agents from a large section of the state. It is thought that the prospective program for 1940 will be discussed at length as well as problems in connection with this year's work.

Performance reporters who are now at work or will commence soon are W. T. Moore, Northfield; D. T. Martin and F. P. Faulkner, Matador; W. W. Keahey Jr., and J. A. Cooper, Roaring Springs; W. E. Smith and T. P. Perkins, Whiteflat, and W. H. Webb, L. A. Amick, and O. McReynolds, Flomot. Each reporter will select two chairmen of his own choosing subject to approval by W. E. McWilliams, county performance supervisor.

### Final Rites Are Conducted For J. W. Courtney

J. W. Courtney of Childress, an uncle of H. H. (Ci) Courtney, deputy sheriff here, succumbed at his home last Saturday. Mr. Courtney attended the funeral services that were conducted at Childress late Sunday afternoon. Mr. Courtney was formerly a resident of Northfield. Friends who attended the services from Northfield were Mr. and Mrs. Guy Ashford, Mr. and Mrs. Bill Bethany, Mrs. Nell Vaughn, Mrs. W. E. Thomas, Mr. and Mrs. Delmont Haye, Mr. and Mrs. A. B. Simpson, Mr. and Mrs. Boone Simpson, and B. F. Simpson.

### New Officers Take Helm Of Lions Club

Date Is Changed For July Meeting; Awards Are Made

Boss Lion Henry Pipkin assumed his position at the head of the Matador Lions Club Tuesday during the regular meeting held in the basement of the Baptist church at the installation of new officers. Declaring that opposition is essential to true success, Lion Pipkin asked that every member aid the future of the club by suggestions to further the organization's service. "I solicit the co-operation of every member during my administration," the new Boss Lion said, "and I assure each of you that I will give my best to continue the fine record that is already established."

Immediately following his installation Lion Pipkin appointed Lions R. E. Campbell, (chairman) L. C. Harp, and Howard Trawek, as members of the program committee.

Many 100% Attendance Perhaps the most unusual feature of the Tuesday meeting was the presentation of 100% attendance buttons to 15 members of the club for the past year. Four of the members had received three 100% attendance awards in succession, it was disclosed. Dr. A. C. Traweek, Sr., was presented with a Key membership and past-president Henry Ford was presented with a gold button for his year of exceptional service to the club. The awards were made by Lion W. F. Jacobs.

The directors of the club met in the Matador city park at 6:30 Monday for a picnic breakfast prepared by Boss Lion Henry Pipkin, where the date was changed for the first meeting to be held in July. Instead of meeting on the 4th, the meeting has been postponed until July 11, with the second meeting the following Tuesday, July 18th.

Two new members were welcomed into the club at the Tuesday meeting. They were Frank Wright and Rev. W. M. Joslin.

### Revival For Negroes Is To Begin Monday

L. H. Alexander of Abilene will begin a Gospel meeting for the colored people of Matador and the surrounding territory next Monday night, June 26.

An arbor is being prepared this week in the northeast section of town, and meetings will be held there. All colored people are extended a special invitation to attend these services.

A small section will be reserved for any white people who wish to attend, and there will be plenty of room around the arbor for any who care to sit in cars and hear the services.

### MOTOR BURNED BY LIGHTNING

A large three horsepower motor was destroyed by lightning at the Mission Gas & Oil Company service station Tuesday afternoon when a bolt hit the power line in Matador.

The motor was attached to an air-compressor in the repair department of the service station. Several men were in the garage near the motor when the bolt struck but no one was injured. The motor was declared almost a total loss.

MARRIED Miss Ella May Fowler of Gasolyn became the bride of Otis Lee King, also of that city, at the home of Rev. W. M. Joslin at 8:00 o'clock on Tuesday night.

### WPA Foremen To Train In School Here

Matador Is One Of Three Sites From Lubbock District

Matador, Lubbock, and Harlingen will be scenes of training courses for foremen of the Works Progress administration in Lubbock WPA district starting next Sept. 1 and continuing until June 1, 1940, according to information released in Lubbock Saturday by L. A. Rodenhiser, one of the six group leaders in Texas of foremen training.

They will be a continuation on an extended scale, he related, of similar courses which have been conducted during the past two years.

To Improve Quality Their general purpose he described as being to improve the quality of the direct supervision of the labor on WPA projects, thus promoting increased efficiency and economy in such work.

The general topic with which the approaching nine-months' course will deal, he said, is "Construction Methods."

Under that general heading will come: in road construction—blueprint reading, earthwork computation, grade alignments and the like; building plans—which will deal with construction of buildings from foundation until completion for occupancy, including installations of electric wiring, plumbing and other facilities; an extensive series of job planning.

(Continued On Back Page)

### SINGING MEET TO BE HELD

The regular monthly meeting of the Dickens County-Girard Sing-Song organization will be held at the Patton Springs School, Afton, Texas, next Sunday afternoon at 2:30 o'clock.

The big auditorium of Patton Springs High School is being arranged and prepared for the convention, and members of the Dickens County-Girard organization are planning to take care of 1,000 or more singers and listeners.

According to Moyné L. Kelly, president of the association, no one will want to miss this mighty chorus. There will be song leaders, quartets, duets, solos, and special singing groups from all parts of the adjoining territory.

The Dickens County-Girard Sing-Song association has been steadily growing since it was organized. Everyone is cordially invited to attend this singing convention to help make it the largest ever held in the history of the association.

### Signal Honors Go To Maurice Reilly

Maurice R. Reilly, son of Mr. and Mrs. M. J. Reilly, was signally honored at the eighty-first annual commencement exercises at Lake Forest Academy, Lake Forest, Illinois, last Sunday, June 18. He received the Merriott prize cup which is presented annually by Mr. T. B. Merriott of Glen Ellyn, Ill., a member of the class of 1913 at Lake Forest Academy, to the member of the junior class who is most proficient in scholarship and athletics combined.

He was also awarded the Kelley prize of \$10.00, which is maintained by Mr. Thomas H. Kelley II, of the class of 1934, as a memorial to his father. The Kelley prize is presented to that member of the lower class who, in the judgment of the faculty, exhibits the finest ideals and manners. Maurice also received a book prize of excellence in Spanish. He will return to the Lake Forest preparatory school in the fall.

### DROUTH SCARE VANISHES IN THIS SECTION

An equinoctial storm sweeping in from the south Monday afternoon offered the first relief from the serious drouth situation which has threatened this section during the past three weeks. A rainfall of 2.15 inches was recorded in Matador Monday afternoon, while much heavier rains were reported east of the city. At that time, however, Whiteflat had received only a sprinkle and no rain had fallen in other sections of the county. The condition was changed Tuesday afternoon when continued rains swept every sector of Motley county to a varying degree. When the sun broke thru at noon yesterday Matador had received 4.13 inches of rainfall within two days, while immediately east of town a much heavier precipitation was recorded. Altogether the report is not official, it is believed that possibly six or seven inches fell in the vicinity of Fairview with even heavier rains east on Teepse creek.

Reports received late yesterday indicated that Whiteflat, Flomot and Northfield had received rain although the extent was not determined. Roaring Springs has probably received three inches it was estimated.

Twisters On Plains

Three tornadoes were reported in the area of Lubbock late Tuesday by the Lubbock Avalanche yesterday. W. H. Jackson was reported killed when his home collapsed near Levelland. Half a dozen people were reported injured and considerable property damage also resulted. Rainfall of 10 inches was reported in the Shallowater area.

Mail Service Impaired

Matador was without mail until noon yesterday because of a washout on the Q. A. & P. railroad between Paducah and Quanah. It was reported that the east-bound train was unable to reach Quanah late Tuesday and returned to Floydada.

The rain storm started in Cottle county Sunday afternoon with good showers in the southern section of the county, but Monday afternoon and Tuesday much of the county was flooded. It was reported here that in the neighborhood of eight inches had fallen in some sections of the county, making it necessary to replant much of the cotton crop. Four inches of rain was reported at Amarillo at noon yesterday, with good rains at Dalhart, Plainview and many other points in the Panhandle.

No estimate of damage by washouts has been reported in this county but it is believed to be small generally. Some hail was reported north east of town Tuesday afternoon but no serious damage was done.

Range conditions were improved greatly by the moisture and most of the new dirt tanks constructed in the county are filled.

### West Texas Press To Meet In Pecos

PECOS, TEXAS.—The annual convention of West Texas Press association will be held here Friday and Saturday, August 11 and 12, according to an announcement by President Douglas Meador of Matador and Secretary J. C. Smith of Snyder.

In addition to the speaking program there will be an unusually attractive entertainment program including a joint session with the New Mexico Press association at Carlsbad and a trip through the Carlsbad caverns, a post-convention pilgrimage to Big Bend National park and visits to McDonald observatory, Sull Ross college and museum and many other points of interest.

Barney Hubbs, of the Pecos Enterprise is host publisher at this meeting.

—Publisher's Auxiliary

### TO TUCUMCARI

Mr. and Mrs. A. L. Fryar left Friday for Tucumcari, New Mexico, where they expect to remain for a month or longer. Mr. Fryar and his business partner, L. J. Barkley, also of this place, will be engaged in buying wheat and other grain during the season.

# Trees Are To Reduce Flood Damage

LINCOLN, Neb. (Special—President Roosevelt has proclaimed the week beginning May 31 as "Flood Prevention Week" and the thoughts of foresters are directed toward the role of trees in controlling flood waters. E. L. Perry, Assistant Regional Forester of the Prairie States Forestry Project, said here today.

"In the mountainous and hilly areas, which are the upper reaches of most streams and where floods usually originate," Perry said, "forests effectively lessen the rush of water from steep slopes and are an important factor in the prevention of floods. They are especially effective in averting 'flash floods'—the quick rises of streams following heavy downpours.

"On the Plains precipitous runoff is not so much a factor, and

the land is too valuable to devote to forest, but trees may be used to lessen damage from floods originating elsewhere," the Forest Service official continued. "A stream bank that is heavily vegetated will not wash out easily and dense trees growth along the stream course may help to direct the main force of the current along the usual channel.

"If, in addition to the trees along the streams, there are belts of trees extending away from them to the edge of the flood plain, they will act as brakes on the overflow water, reduce erosion to a minimum and prevent much other destruction. Since some of the overflow lands are sandy and subject to wind erosion, such tree belts may serve to prevent wind damage, in the same way that the field shelterbelts being planted by the Forest Service on upland farms do. A case in point is the Republican River valley in Nebraska and Kansas, where both floods and wind erosion have done much damage to river bottom lands. There are many places where engineering structures are needed and often they can be backed up by trees.

"The program the Forest Service advocates is manifold, but really

not difficult if everyone will take part," Perry concluded. "Of first importance is the preservation of the present native growth by stopping destructive grazing practices and by proper methods of cutting timber. Other measures include planting where trees are now lacking along the streams, planting of trees at the heads of gullies and at the headwaters of all streams to check the rush of little water to the main water courses, and planting tree belts leading from streams across the flood plains as a measure to prevent overflow waters from gaining momentum.

"Thus, while trees on the Plains may do little to reduce the likelihood of rising waters, they can do much toward dulling a flood's fighting spurs."

**OLD FEUD ENDS**

The oldest suit on the docket of the Texas Supreme Court—the land vacancy claim involving 28,000 acres of land along the 100th meridian, was wiped off Wednesday. A part of this land, formerly in Oklahoma, is now in Collingsworth County.

Inaccurate location of the meridian by surveyors in early days resulted in the claim.

—Wellington Leader

## The SNAPSHOT GUILD

CORRECT EXPOSURE

The right exposure—corrected for each situation—yields better pictures. For this average subject, on a cloudy-bright day, 1/25 second at f.8 lens opening is correct. On a sunny day, with the same subject, 1/25 second at f.11 is proper.

NOW that spring is here, the days seem brighter as well as longer. This apparent brightness may deceive some of us into shortening our outdoor exposures—but we should be cautious in so doing.

Underexposure is the most frequent fault in amateur snapshots. A picture printed from an underexposed negative has a harsh appearance. The shadows are too black and lack detail, and by comparison the bright areas appear excessively bright. If many of your pictures have this appearance, you should practice giving fuller exposure, either through choice of a larger lens opening or longer shutter time.

Modern films have broad exposure latitude, to take care of reasonable errors in exposure. But we should not ask too much, and we should remember that a correctly-exposed negative always produces the best print. When we are in doubt, it is usually wiser to give a full exposure rather than one that may be too short.

Here are typical correct exposures for the "chrome" type films that most of us prefer for outdoor picture taking:

**BRILLIANT DAY:** Average subject, 1/25 second at f.11 lens opening; open landscape, 1/25 second at f.16; water or beach scenes, 1/25 second at f.22.

**CLOUDY BRIGHT DAY:** Average subject, 1/25 second at f.8; open landscape, 1/25 at f.11; water or beach scenes, 1/25 at f.16.

**DULL DAY:** Average subject, 1/25 at f.5.6; open landscape, 1/25 at f.8; water or beach scenes, 1/25 at f.11.

With box cameras on dull days, a very short time exposure should be given, with the camera on a firm support. This exposure should be made with the second stop opening, and about as fast as you can work the shutter when set for "time." Snapshots can be taken with a box camera on any sunny day or well out in the open light on a cloudy-bright day.

Late in the afternoon, or early in the morning, light is weaker, and exposures should be lengthened accordingly. Form the habit of correct exposure, and your pictures will improve.

—John van Gulder

Pretty Bonnie Nolan drives through the famous...

### MORAN CAME UP THE "HARD WAY"

**DAN MORAN**  
President Continental Oil Company

The story of Continental Oil Company and its rise to prominence in the oil industry, is told in the current issue of Fortune Magazine. A striking feature of the article is a thumb-nail sketch of Conoco's President, Dan Moran:

"Born at Cygnet, Ohio, he picked up cash as an office boy and as a telegraph operator, earned his way thru the University of Dayton, and then had gone south. To Tulsa, where he saw the oil spout from the Glenn Pool strike, then to Port Arthur, where he signed up as an engineer for the Texas Co. From there he was sent down to Panama and to South America, and from South America he had trekked north

again into Mexico and to the States. He had spent seventeen days in a hurricane on an oil barge. He had helped repair the ravages of another hurricane, which, ripping thru Port Arthur, had floated away the oil tanks of a refinery there like so many toy ships. He had built refineries, drilled for oil, and had put up ocean terminals at Charleston, Savannah, Pensacola, Mobile, Key West, and in Cuba. And in the process he had learned something of men and something of the sweet-smelling stuff called crude."

**TO BID ADIOS**

The brightest spot at the New York Fair is Billy Rose's Aquacade. It seats 9,400 people. It shows several times a day at a top price of 98 cents, and it's making so much money that Rose says he will retire from the show business at the end of the season!

Gene Howe, Amarillo Globe-News

**FORMER MATADOR RESIDENT HONORED**

B. F. Harbour, who served as first vice-president this past year was chosen president of the Rotary Club for the term beginning July 1.

Mr. and Mrs. Harbour will leave Friday morning for Cleveland, Ohio, where the former will attend the thirtieth annual Rotary International in session June 19-23 as official delegate from the local organization.

Mr. and Mrs. Harbour plan to return about July 25; they have planned different itineraries for the trip there and return.

## Epworth League Elects Officers

Officers who are to serve for the remainder of the conference year were elected last Sunday night at the regular meeting of the Methodist Epworth League.

Members of the league who were elected to hold the offices were Mary Gaines, president; Kenneth Simpson, vice-president; Aileen Russell, secretary-treasurer; Elmer Gene Jameson, reporter; and Mrs. John Russell, pianist.

Activities for the league are steadily growing, and a new outline for programs has been put into effect. Great interest has been manifest in carrying on the work of the church in the young people's division.

A group of the young people greatly enjoyed a picnic and swimming party at Roaring Springs on Monday night.

## Mrs. J. D. Craven Is Club Hostess Thur.

The Thursday Club members were guests of Mrs. J. D. Craven on Thursday afternoon of last week, with four tables of bridge at play. Mrs. Jack Edwards and Mrs. Ben Meador were high score winners for guest and club prizes.

Members present were Mesdames George Gray, W. N. Pipkin, W. F. McCaghren, Frank Buckley, Stafford Forbis, Clay Gilbert, J. S. Stanley and Ben Meador. Guests included Mesdames Frank Pohl, Robert Collier, Jack Edwards, Jeff Daffern, L. R. Bishop, J. W. Drace, Alvin Stearns and L. J. Barkley.

## Club Meets Friday With Mrs. Birnie

Mrs. D. I. W. Birnie was hostess Friday afternoon to two tables of bridge for the Friday bridge club. Mrs. D. E. Pitts held high score at the conclusion of the games, with Mrs. Alvin Stearns holding second high.

Those attending were, Mrs. A. A. Harp, Mrs. J. S. Stanley, Mrs. W. W. Clements, Mrs. Jeff Daffern, Mrs. D. E. Pitts, Mrs. L. J. Barkley, and Mrs. Alvin Stearns.

C. A. Pitts attended a West Texas Utilities district meeting and picnic in Childress last Thursday night.

## NEW BOOKS ARE RECEIVED BY CITY LIBRARY

Several new books have recently been added to the shelves of the Matador City Library, according to Miss Mary Keith, librarian. Local readers are urged to take advantage of these new books and read them at once.

Books of fiction are "The Secret at Shadow Ranch" by Pearl S. Buck and "Remember the End" by Agnes Sligh Turnbull. In the non-fiction department are "Mary, Queen of Scotland and the Isles" by Stefan Zweig and "The Ramparts We Watch" by George Fielding Eliot.

A brief review of "The Ramparts We Watch" is given in this issue of the Tribune. The story of Queen Mary of Scotland is a biography concerning one of the most interesting characters in the history of the world. Stefan Zweig, who wrote Marie Antoinette, the book upon which the picture show was based, is considered one of literature's greatest biographers.

Two new books which have been obtained for the juvenile department are "The Secret at Shadow Ranch" and "The Hidden Staircase", both by Carolyn Keen.

Two books of drama have also been added to the library. These are "Of Mice and Men" by John Steinbeck and "The Best Plays of 1937-1938" by Burns Mantle.

## Plans Are Made For Revivals

Local churches are now making plans for the revival meetings that will be held during the summer. Some of these plans are incomplete but will be announced in the near future.

According to present plans, the Baptist meeting will be held from July 30 to August 13. Rev. J. M. Joslin recently announced that Rev. Judson Prince of Cisco would conduct this revival, and Rev. Volus Norsworthy, assistant pastor of the First Baptist Church of Vernon, will be in charge of the singing.

Rev. W. B. Vaughn of the First Methodist Church, Matador, will announce the pastor and singer for the Methodist meeting soon. The dates that have been set for this revival are August 27 to September 10.

Cecil Shelton made a trip to Dallas during the week-end, to accompany home Mrs. Shelton and their children, who have been visiting in Dallas and Denton for the past three weeks.

## Interest Shown In Daily Bible School

The efforts of local Methodist workers in regards to the Daily Vacation Bible School that is being conducted at the Methodist Church each morning are being met with much success and interest upon the part of some fifty children attending the session.

The school is operating under the direction of Mrs. W. B. Vaughn with the help of eight other workers. These are Rev. W. B. Vaughn, Mesdames John Russell, H. L. Willett, Victor Cliett, and A. J. Daffern, and Misses Marjoria Moore, Mary Gaines, and Dorothy Wason.

Carefully prepared lessons and programs for play are used to entertain the children. They also learn new songs, games, Bible stories, and various forms of handicraft.

Children who attend the primary and beginner classes are Charles Herbert Sanders, Doyle Dirickson, Claud Fletcher, Charles Fletcher, Lee Henderson, Allie Lucille Burk, Thelma R. Henderson, Winona Cartwright, Lela Ann Cartwright, Mary Lou Jackson; Patricia Ann Pipkin, Marilyn Fuller, Charles Pollock, Bonita Jones, Laverne Pollock, Frances Traweck, Dorothy Traweck, Julia Marie Sams, Ralph Wason, Chas. Ray Cox, Mary Ann Sain, Betty Bob Fletcher, and Bobby Wayne Martin.

Twenty-seven children are enrolled in the junior and intermediate divisions; and these are as follows: Frances Marshall, Frieda Jones, Ruby Vivian, Edna Marie Martin, Annie Lois Henderson, Stella Mae Donnell, Mary Cliett, La Nell Dunlap, Barbara Springer, Dorothy Wason, Billie Jean Dirickson, Mary Price, Betty Price, Ruby Burton, Juanita Cartwright; Gladys Marie Springer, Earlene McCain, James Cliett, Harry Louis Willett, Billy Wason, Helen Van Dyke, Frances Schweitzer, Billie Joe Archer, Hilda Ruth Burden, Verlin Wason, Hubert Basson, Elwanda Martin, Galan Cliett.

All mothers in the community who have children from four to fifteen years of age are cordially invited to send them to the Bible school. It is indeed an ideal method for a child to spend two weeks of his vacation, and he will also be learning how to associate with other children besides gaining much valuable training and knowledge.

## Roaring Springs Entertains Local B. T. U. On Sunday

The B. T. U. of the local Baptist church had as its guest last Sunday night a similar organization from the Baptist church of Roaring Springs.

The following program was presented: "The Christ of Galilee," a double duet sung by Elwanda Godfrey and Mrs. John Green, sopranos, and Ruby Beck and Lou Ida Fletcher, altos; "Dedication vs. Self-Exaltation," a discussion by Mrs. John Green; "Two Conquerors," a reading by Wreathel Long; and "An Evening Prayer," a song by the group.

Juanita Thacker was in charge of the program and also assisted at the piano. This unique and varied program was enjoyed by all who heard it.

Rev. W. H. Graham, Roaring Springs pastor, dispensed with his church services at that city; and his family and many members of his congregation attended services at the Baptist church here.

The local church greatly enjoyed having these people as visitors and invites them to come back at any time.

## Around The Circles...

### METHODIST CIRCLES

A joint meeting of the Methodist missionary circles was held at the home of Mrs. John Hamilton on Tuesday night. Refreshments were served to fourteen members present.

An interesting "World Outlook" program was given under the direction of Mrs. Frank Pohl. Mrs. Curtis King gave a talk, and Mary Gaines discussed the Methodist assembly recently held at McMurry College, Abilene. Jolene Bloodworth also gave an entertaining reading.

Next Tuesday afternoon, the Irene Eldridge Circle will meet in the home of Mrs. H. H. Schweitzer.

### BAPTIST CIRCLES

Due to inclement weather, the Baptist missionary circles did not meet this week. The Sunshine Circle, however, served the Lion's Club luncheon on Tuesday.

There will be a general meeting of all circles at the Baptist church next Monday afternoon.

### MOTHER SERIOUSLY ILL

Mrs. E. C. Stearns received word on Monday night that her mother, Mrs. W. W. Wilson of Abilene, was seriously ill. Mrs. Stearns and daughter, Frances, left on Tuesday morning for Abilene, but word had not been received yesterday in regards to Mrs. Wilson's condition.

## CLUB MEETS IN R. W. CUDD HOME

Mr. and Mrs. R. W. Cudd were host and hostess to the Laugh-A-Lot couple club Thursday night, with three tables of guests attending.

High score was held by Mr. and Mrs. Jack Edwards, with Mr. and Mrs. L. R. Bishop winning second high.

Those attending were, Mr. and Mrs. Jeff Daffern, Mr. and Mrs. Robert Collier, Mr. and Mrs. Earl Laughlin, Mr. and Mrs. Jack Edwards and Mr. and Mrs. L. R. Bishop.

## Sewing Club Meets With Mrs. Pohl

Mrs. Frank Pohl was hostess to the Young Women's Sewing club at a recent meeting, which was held on the lawn of her home.

Following an afternoon of needlework, refreshments of ice cream and cake were served to the following: Mrs. J. D. Craven, Mrs. W. N. Pipkin, Mrs. Bill McCaghren, Mrs. John Hamilton, Mrs. Robert Darsey, Mrs. J. S. Stanley, Mrs. Wayne Pursley, Mrs. Cliett, Mrs. H. M. Solomon and Mrs. W. W. McDowell.

### LEAVE FOR COLORADO

Mr. and Mrs. E. F. Springer and daughter, Sarah Frances, and Thomas Sanders, son of Mrs. Edith Sanders, left on Sunday morning for Lake City, Colorado, where they will remain for two weeks' vacation.

## Study Courses At Baptist Church End Successfully

The Baptist Training Union study courses that were conducted at the local Baptist Church last week proved to be successful, and much practical training and knowledge was gained by those who attended the classes.

Those taking the Senior B. Y. P. U. Manual, which was taught by Rev. J. M. Joslin, were Chloey Fulfer, Ruby Spears, Alla Mae Fulfer, Mrs. Earl Laughlin, Dee Cates, and Ruie Hobbs.

Mrs. R. E. Campbell taught the intermediate manual, and one student, Norris Fulfer, completed his work in this division. The junior manual, which was taught by Mrs. Elbert Seigler, was studied by Dorothy Woodruff, Annie Lois Henderson, Elwynn Fulfer, and Stella Mae Donnell.

It is hoped that new interest will now be taken in the B. T. U. following these inspiring study courses. Everyone in the community is invited to attend the services held each Sunday night at 7:15 o'clock.

## NEW BOOKS

Matador City Library

### "THE RAMPARTS WE WATCH"

Is America safe from attack? In answer to this vital question, Major George Fielding Eliot writes—from a lifetime of study—the most comprehensive survey of American military policy ever made. How big an Army and Navy do we need? Exactly how are they to be employed? Are our coast defenses adequate? Are we immune from air attack? On what strategy is Washington depending? Such are a few of the questions Major Eliot examines with the skill and brilliance that have made him our ranking military expert.

No superficial journalistic book-of-the-moment, this is the most complete analysis of America's position in an armed world since Admiral Mahan. The author explodes neat time-bombs under our complacent belief that America is impregnable. Self-sufficiency we are—more than any other of the Great Powers—but certainly not immune from attack.

Our coast defenses are inadequate (and 16-inch batteries do not spring up overnight!) Discipline in the Merchant Marine is lamentable. The duties of the National Guard are almost everywhere except defense. A surprise attack on Panama would cripple our lifelines of Naval control.

But the U. S. does possess "the priceless privilege of defending herself first upon the sea." We are reasonably safe from air attack. Control of the Pacific is aided by the defensive value of the Aleutians and the position of Hawaii as a springboard for attack on Japan. One of the Hawaiians, Oahu, is the most formidable maritime fortress in the world!

So Major Eliot presents our weakness and our strength. With war flaring in Asia and Europe, his bold and accurate book carries urgency and importance.

## Bride Is Honored At Kitchen Shower

Mrs. Don T. Martin, the former Betty Jo Simpson, was honored on Tuesday afternoon with a kitchen shower in the home of Mrs. J. R. Moore. Mostesses included Misses Jean Harp, Frances Stearns, Marie and Kara Hunsucker, and Myrnavae Barkley.

The bride received many useful kitchen gifts. Punch and cookies were served to Misses Marion Clements, Aileen Russell, Tom Nell Darsey, Laurissa Braton, Mary Ola Tipton, Frances Carpenter, Dorothy Wason, Lela Carpenter, and Mesdames Fred G. Simpson, J. R. Moore, and Charlotte Hunsucker, and the honoree, Mrs. Martin.

Mrs. R. W. Cudd and children, and Mrs. H. L. Dennis and children visited in Lubbock Friday.

### DON'T SLEEP WHEN GAS PASSES HEART

If you can't eat or sleep because gas bloats you try Adterika. One dose usually relieves pressure on heart from stomach gas due to constipation. Adterika cleans out BOTH bowels. At all leading druggists, in Roaring Springs by Freeman Drug Co.

## Friday Luncheon Is Enjoyed At Donovan Home

An enjoyable morning party was given last Friday with Mrs. R. E. Donovan as hostess. After playing bridge a luncheon was served to those present.

Mrs. Wm. O. Leach won the prize for the high score, and Mrs. E. C. Stearns won second.

The guest list included Mesdames U. L. Wille, Wm. O. Leach, Roy Burlison, D. E. Pitts, Margaret Newman, H. H. Campbell, B. F. Tunnell, E. C. Stearns, J. R. Moore, Tom Newman, L. C. Harp, and Frank Buckley.

Tuesday Club Meets  
Mrs. Donovan was also hostess to the Tuesday Bridge Club which met Tuesday morning with five members present. Mrs. H. H. Campbell held high score, and the prize for second high was won by Mrs. Frank A. Buckley.

Members present were Mesdames L. C. Harp, U. L. Wille, H. H. Campbell, D. E. Pitts, and D. I. W. Birnie. Three guests, Mesdames J. S. Stanley, W. O. Leach, and Frank A. Buckley, were also present.

### CAKES

#### That Win Approval

CAKE is such a satisfactory warm weather dessert that you'll want to increase your list of recipes for this delectable favorite.

#### GOLDEN ANGEL FOOD

Beat the yolks of 4 eggs very light with 1 tablespoon of cold water. Add 1 1/2 cups of sugar gradually and beat until smooth. Beat in 1-3 cup of hot water, then add 1 1/2 cups of flour sifted with 1 1/2 teaspoons baking powder and a pinch of salt. Add 1 teaspoon of vanilla. Lastly beat the whites of the eggs until frothy, add 1/2 teaspoon cream of tartar and beat until stiff. Fold them into the egg and flour mixture and bake in a tube pan for 1 hour or more in a slow oven. When done invert the pan until the cake is cool.

#### DUTCH PEACH CAKE

Sift and measure 2 cups of flour, then sift again with 2 1/2 teaspoons baking powder, 1/2 teaspoon salt, 1/4 teaspoon cinnamon and 2 tablespoons sugar. Cut in 1/4 cup shortening. Mix together 1 egg and 1 cup milk, beat well and add to dry ingredients. Stir quickly and pour into greased pan. Cover cake with quartered peeled fresh peaches and sprinkle with cinnamon and sugar. Bake in a moderate oven.

#### Molded Salads

SINCE salads of this type may be made ahead of time and as many of them are substantial enough to serve as the main dish for warm weather meals, the home maker approves of them. The family will agree with her.

#### MOLDED FRUIT SALAD

1 package lemon gelatin  
1 pint warm water  
2 tablespoons vinegar  
3/4 cup tart apples diced  
1/2 teaspoon salt  
1/2 cup celery diced and salted  
1/4 cup broken walnut meats  
16 cream cheese balls  
Dissolve gelatin in warm water. Add vinegar and salt. Chill. When slightly thickened fold in apples, celery and nuts. Turn into individual molds. Chill until firm. Unmold on crisp lettuce garnish.

with watercrust and cheese balls. Serve with mayonnaise.

**JELLIED CHEESE AND BEET RELISH SALAD**  
1/2 package lemon flavored gelatin  
1 package cream cheese  
1/2 cup chopped cooked or canned beets  
1/2 cup chopped raw cabbage  
1 tablespoon minced onion  
Lettuce, Cucumber, sliced  
Mayonnaise

Prepare gelatin according to directions on the package. Chill in the refrigerator until it begins to thicken. Divide the "jelly" in half. Into one-half beat the cream cheese. Do not beat smooth, but just enough to distribute the cheese particles. Rinse individual molds or a small round mold with cold water and fill half full with cheese mixture. Chill in refrigerator until set. Now to the other half of the partially thickened jelly add the beets, cabbage and onion. Pour this into the molds on top of the cheese mixture which has set. Chill in the refrigerator. When set dip molds in hot water and turn salads out on platters. Garnish with sliced cucumbers and mayonnaise.

#### BROILED FRANKFURTERS

These take a very short time to prepare and are delicious. Broil frankfurters lengthwise, open lightly with prepared mustard and generously with cheese—wrap a slice of bacon around each and skewer with toothpicks. Broil under a moderate flame until the bacon and frankfurters are done. This will take about 10 minutes. Serve hot with potato salad. May be prepared in advance and kept chilled in the refrigerator.

#### BAKED HAM

Get a center slice of ham at least 1 inch thick. Place in a baking dish and add 2 cups of pineapple juice. Bake without parboiling in a moderate oven for 1 hour. Remove and cube a medium size cucumber, add 1 tablespoon grated onion, 2 teaspoon salt, 2 teaspoons lemon juice, 2 tablespoons butter, 2 tablespoons water and simmer for 5 minutes. Stuff small tomatoes with this filling and bake for few minutes in a hot oven to serve with the ham.

**MATADOR LIONS CLUB**

Meets 1st and 3rd Tuesday of each month: Methodist and Baptist churches.

**FLEMING POST NO. 337 AMERICAN LEGION**

Meets 1st Monday night of each month at IOOF hall. All ex-members invited to attend.  
D. P. Keith, Post Commander  
Vernon Doss, Adjutant

**LODGE No. 824 A. F. & A. M. Matador, Texas**

Meeting Saturday on or before full moon of each month.  
W. I. Rushing, W. M.  
W. N. Pipkin, Sec.

**"I thought I knew all about automobiles!"**

A LOT of folks have had their eyes opened wide by a ride in a 1939 Ford V-8. They just didn't realize how much more value and how many improvements we've put in this car the last few years.

Today's advanced Ford is a product of progressive engineering, fine materials and honest

construction. It is backed by an experience of building far more cars than anybody else in the world.

One ride in today's Ford—with its smooth 8-cylinder engine, stabilized chassis, hydraulic brakes—will prove it's the modern car in the low-price field.

## Flies Spread Diseases...

They are reared in filth and through life make frequent trips from filth to food.

Every neighborhood raises its own flies. The number of flies in a community is an excellent index to the sanitary conditions of that community.

Modern sanitation and knowledge regarding the life history and habits of the house fly render possible complete control over the fly nuisance.

Get rid of your flies and you will help prevent typhoid, dysentery, tuberculosis and many other diseases.

CAREFULLY COVERED GARBAGE, WELL SCREENED HOUSES AND INSTALLATION OF MODERN SANITARY SEWERAGE ARE THE BEST PREVENTIVE MEASURES.

**Petroleum Cocktail For Motorists And Industry**  
**Constantly Refilled By Increasing Oil Reserves**

**PIONEER** oilmen of Pennsylvania who boasted of their ability "to drink every drop of oil produced west of the Ohio River," started a game that has been popular ever since. Periodically the nation is warned to prepare for an oil shortage.

The pessimistic Pennsylvanians made no attempt to carry out their boast. The motor car and other machines powered with internal combustion engines took over the job. In recent years the machines have been "drinking" about 1,000,000,000 bbl. of petroleum and its products annually. Yet to exhaust reserves of oil known to be stored underground and recoverable with today's methods, they would have to drink another 17,348,000,000 bbl.

Since the first prediction of no oil west of the Ohio River, about 20,000,000,000 bbl. have been taken from the ground. Almost 90 per cent of it came from the area west of the Ohio River! Known reserves, proved by actual drilling have been increasing at almost twice the rate of consumption.

**Prophets Confounded**

Petroleum technologists seem to take delight in confounding the prophets of doom and disproving their scares of scarcity.

**Commercial production of oil** began in Pennsylvania in 1859. Oil was located at a depth of 69 feet. By 1895 wells were drilled to a depth of 1,200 feet, by 1909 to 5,600 feet, by 1930 to 10,000 feet. In 1938 the world's first 15,000-foot well was brought in.

To make life more difficult for the exhaustion experts petroleum scientists attack the problem from several angles. Old fields are given

**Refiners Progress**

Petroleum refiners have joined in the sport of making the prophets miserable. They have developed scientific methods of manufacture which curtail the volume of crude oil needed for a given quantity of refined products. Only a few years ago they doubled the quantity of useful products so obtained, and still newer methods indicate that recently they have rung the bell

again. It is estimated that about 36 gallons of gasoline now can be obtained from a 42-gallon barrel of crude oil. About 20 years ago nine gallons was the average yield.

**Poor Guessing**

The score of those who have been courageous enough to predict the day of exhaustion has been incredibly poor. In 1914 imminent exhaustion was predicted. Only 5,000,000,000 bbl. was believed to be in reserve; 18,000,000,000 bbl. since have been produced. In 1925 only 5,000,000,000 bbl. were known to be available, but 12,000,000,000 bbl. have been brought to the surface since then. For January 1, 1939 reserves are estimated at 17,348,000,000 barrels, the greatest in history and actually proved by the drill as "oil in sight."

**ATTEND WORLD'S FAIR**

Mr. and Mrs. Forrest Campbell formerly of Matador and now of Stamford, left last Saturday for New York where they will attend the World's Fair. They were accompanied from Ft. Worth by Mrs. Annie Tudor, mother of Mrs. Campbell, who will visit with relatives in Washington, D. C.

**HERE FOR FATHER'S DAY**

Mr. and Mrs. Chas. A. Guy and children and Dr. and Mrs. Sam G. Dunn and Children of Lub-

bock spent Sunday in the home of Mr. and Mrs. J. R. Moore. They were accompanied to Matador by James Rufus Fish who had been visiting in Lubbock.

Mr. and Mrs. Farris Fish and son, John Farris, returned home from Lubbock Saturday night. John Farris recently underwent an appendicitis operation at the West Texas Hospital, and Mrs. Fish had been with him in Lubbock for the past two weeks.

**Roaring Springs NEWS**

J. T. Swim, Jr., visited in Happy Texas, last Thursday and Friday.

Cecil, Elizabeth, and J. T. Swim, together with Juanita Harmon, enjoyed a picnic with the Methodist young people at Afton last Wednesday night.

Miss Juanita Thacker and Lou Ida Fletcher visited in Lubbock on Friday. Miss Wileta Smith returned with them for a visit.

Mrs. Guy Sanders and children of Kalgary visited her parents Mr. and Mrs. Hardin last Friday and Saturday.

Mr. and Mrs. Odell Sanders of Kalgary visited here and at Darden Canyon during the week-end.

Miss Ruth Green of Lubbock visited her parents, Mr. and Mrs. Duff Green, during the week-end.

Ralph Cooper of Amarillo was a recent Roaring Springs visitor.

Mrs. Ollie Malory of Whitney, Texas, visited here on Sunday with Mesdames R. J. Murry and Sudie Duval.

G. B. Thacker, Jr., returned from Los Angeles, California, last week.

Mrs. N. T. Morrison and son George, of Garland, Texas, and Mrs. Jessie Roberts and son visited Mr. and Mrs. Garlin Murphy on Saturday.

Mr. and Mrs. George Gabriel and son of Spur, Mrs. George Malouff and daughter, and Miss Sadie Gabriel of Knox City visited their fathers here on Father's Day and during the week-end.

Mr. and Mrs. Garlin Murphy visited her parents, Mr. and Mrs. Albert Jackson, in Lubbock on Sunday.

Mr. and Mrs. Ed Whitaker and daughter, June, of Brownfield visited her parents, Mr. and Mrs. Charlie Brooks recently.

Mr. and Mrs. Jim Overton and Mrs. Hubert Gunter visited in Brownfield during the week-end.

**LOCALS**

Mr. and Mrs. Kenneth Jeffers formerly of Matador and now of Floydada, visited friends and relatives here during the weekend.

Harold Allen returned home on Sunday following a week's visit with relatives at Corsicana, Texas. He has accepted a new position at the Magnolia Cafe and began his duties there on Monday.

Mrs. Flora Shira of Lubbock, former Matador resident, visited here Saturday and Sunday with friends.

Mrs. E. B. Jones accompanied her sister-in-law, Miss Carrie Lou Jones on her return to her home at San Angelo, last week. Mrs. Jones will also visit her parents at Houston before returning home.

Mr. and Mrs. L. R. Bishop and son Billy, visited relatives in Quanah, Sunday.

Mrs. Webb Cammack and daughter, Mrs. Lloyd Zeller of Lubbock, visited relatives here Thursday.

Recent visitors here in the home of Mr. and Mrs. L. R. Bishop were Mr. and Mrs. L. D. Hartwell and daughters, Miss Hallie Hartwell and Mrs. Bill Palmer, all of Greenville.

Mrs. T. B. Bently of Paris, Texas, is visiting here in the home of her daughter and family Mr. and Mrs. W. H. Burden. Mrs. Burden, accompanied by her sister, Mrs. Ethel McEwin, of Pampa drove to Paris to accompany Mrs. Bently here.

W. T. Boggus returned from Dallas last week after five weeks as a student in the Diesel Engineering School.

Mrs. Albert Traweck and children, Dorothy, Frances, and Frank and Mrs. Charlotte Hunsucker and daughter, Marie, returned on Saturday from a week's visit to Dallas and other points. Mrs. Traweck and children attended a

family reunion while at Dallas. They were accompanied home by Miss Laurissa Bratton, of Brady, and niece of Mrs. Traweck, who will remain here for a visit.

**A Pistol, Darks, and Brew**

City Marshal Morris arrested a negro man, a bottle of home-brew and a pistol about 2 o'clock Monday morning. The "culud" gentleman, Joseph Jones, about 50 years old, was placed in jail until Sheriff Honea came down later in the morning and escorted him to Silvertown where he pleaded guilty to a charge of drunkenness and paid a fine for that offense.

The pistol and brew cases are pending.

—The Quitaque Post

**TRUCKERS HELP**

The boys who operate trucks out of Floydada are doing their part to help put the Gainesville Community circus over. Almost all of the trucks have "Gainesville Community Circus, Floydada, July 3-4" painted on their sides.

—Floyd County Hesperian

**Black and Gold Standard**

Ten-gallon hats and gold shirts trimmed in black were selected as the official regalia for the 1939 Hall County Old Settlers and Cowboy Reunion, which will be held in Memphis July 27-28.

### Circus Stars All Residents Of Texas Town

ENTIRE PERSONNEL MADE UP  
OF ORDINARY CITIZENS  
OF GAINESVILLE

The Gainesville Community circus which will be presented in Floydada on Monday and Tuesday July 3 and 4 is the only show of its type in the world according to the press and the people who have seen it from time to time.

The circus seems a bit from Alice in Wonderland, the story so many youngsters read and marvelled.

Complete three ring circus with bareback riders, trapeze artists, acrobats, tight wire performers, jugglers, trained animals and clowns—presented entirely by amateurs, for whom it is a hobby—that is the Gainesville Community circus of Gainesville, Texas.

That it is undoubtedly the only enterprise of its kind in the world is a claim that has never been challenged. For where else in this wide world may one find another community of only 10,000 population, where doctors, lawyers, public officials, housewives, school teachers, stenographers, students, delivery boys and clerks lay aside their daily tasks to don tight and ruff, to risk their lives in daring feats, under the big top, year after year, for the mere joy of participating in such an activity?

The beginning of the Gainesville Community circus was not auspicious. There was a fanfare of the band, it is true, but no one dreamed as the trumpets sounded that eventful night, that the burlesque circus sponsored by an amateur dramatic club would expand into an internationally famous amusement institution.

The Little Theatre of Gainesville was having difficulties back in 1929. Orphaned by the conversion of their playhouse into a talking picture theatre, the amateur thespians tried school auditoriums. But their facilities were limited, the new movies furnished impressive competition, and the Little Theatre which had been a thriving institution for several

### Gainesville Circus Twins are Aerial Stars

More alike than peas are these very attractive twin sisters, Ernestine and Imogene Kaps, who are aerial and tightwire stars of the Gainesville Community circus. These are only two of the many performers which put on some of the finest acts in the world for the show.

years, appeared doomed.

Then it was the directors decided to sponsor a burlesque circus. The Cooke County Fair had recently built an exhibit hall which had not been floored and would make an ideal coliseum. A circus it was anticipated, would have much more general appeal than heavy dramatic offerings, and with many more people in the cast, there would be more fond fathers and mothers, brothers and sisters, uncles and aunts, buying tickets.

That the directors acted wisely was reflected by the balance in the treasury after the circus engagement, which might have made it possible for the Little Theatre to balance its books and retire gracefully from the scene.

But the unexpected happened. The amateur circus performers who exchanged floodlights and scenery for sawdust and spangles were seized by the indescribable

intangible lure of the big top. They wanted to perpetuate the circus and learn more difficult acts. And so the transition of the Little Theatre into the Gainesville Community circus began. Membership in the circus is quite democratic. One must have three qualifications—he must be a bona fide resident of Gainesville, he must not have any professional circus experience, and he must have the desire to learn some type of circus act.

The only remuneration received by the performers is the applause of the audience, and the praise of fellow townsmen, who consider the circus one of the town's chief assets. And in addition, they furnish their own costumes and most of their rigging.

### FREAK DEATHS CLAIM MANY ON TEXAS HIGHWAYS

AUSTIN—Death moved in many ways to claim the lives of 90 Texans in April traffic crashes, a state police analysis of last month's toll revealed today.

An oil field worker was killed and his companion injured when their car hit the curbing on an "island" in front of the New London school.

In Bessemer, a man was fatally injured when his motor-propelled bicycle crashed as it failed to make a curve.

In Port Arthur, a bystander was killed on the sidewalk when two automobiles collided at an intersection. One of the cars was catapulted onto the man.

A doctor died as he hastened to a call. Excessive speed was blamed for his car's failure to make a slight curve.

When its driver went to sleep, a car hit a concrete bridge and crashed. A passenger asleep on the back seat never knew what hit

### ★ FASHION PREVIEW ★

THE princess line is charming for a sixteen-year-old and this imported Irish linen dress with scallops from throat to hem, edged in tating, combines practicality with prettiness. Shown in Good Housekeeping Magazine for June.

### One Out of Twenty

Next time your club meets, or you have a family reunion, list the names of 20 of those present. Let them be members of your family, relatives, close friends.

Look well upon their happy faces, for at the present rate one out of that 20 will be killed or injured in an automobile accident within the next five years.

It may be you, or your daughter, or your mother, or perhaps your sweetheart.

It may be a minor injury; it may be a crippling, disfiguring casualty; it may be death.

These figures are based on the

law of averages, assuming that the annual total of traffic deaths and injuries reported by The Travelers' Insurance Company for 1938 will not increase in any of the next five years.

Fortunately, you and your relatives and friends can evade the law of averages. You can beat it by being above the average in your walking and driving habits. If you and your group of 20 will walk and drive safely, the average injury probably will not strike in the next five years; it may not strike in the next 20 years; it may, in fact, never strike.

Vaccination For Typhoid Is Advocated

If you have not been vaccinated against typhoid fever within the last two or three years, go to your family physician and have him give you the three "shots" that will protect you against this disease.

This advice comes from the Texas State Health Department, and is addressed particularly to those persons planning vacations away from home or those who regularly go on camping, fishing or such trips.

Typhoid is contracted by way of the mouth. Each case comes directly or indirectly from some previous case. You eat or drink the germs that cause the disease, in food, water or milk contaminated by the discharges from persons who are ill with the disease or who have had it at some time.

Modern medical and public health practices have greatly reduced the occurrence of typhoid, but it is still a menace to those unprotected against the disease. Protection of public water supplies from pollution, pasteurization of milk, inspection and super-

vision of food supplies, improvement in household sanitation and hygienic habits, better sewage disposal and careful investigation of typhoid outbreaks to determine the source of the disease are measures which have contributed to the diminution of the incident of typhoid in Texas. But there are still sources of infection to which individuals are exposed, that cannot be reached by public measures and for which vaccination affords additional protection.

Health departments, state, city and country, are waging constant warfare against typhoid all the year. Special efforts are made during the vacation period thru the sanitary supervision of summer camps, parks, and public eating places to reduce any possible danger of vacation typhoid from such sources. But vaccination and sanitation are the only means to personal safety against the disease.

See your physician today for a vaccination and summer unmarred by typhoid.

HERE FROM NEVADA

Mr. and Mrs. Clayton Titus of Las Vegas, Nevada, are visiting friends and relatives at Flomot and Matador, having arrived on Tuesday, June 13.

Tribune Ads Pay

LEAVE FOR CALIFORNIA

Dr. Frank Cole left on Friday for Austin, Texas, where he will go before the State Medical Board and take his medical examination. Dr. Cole will leave soon for San Diego, California, where he has accepted a position as interne in the San Diego Naval Hospital.

This notice is published once each week for four consecutive weeks in each of the counties where the partnership has a place of business, as required by Article 6132 of the Revised Civil Statutes of Texas.

Dated at Quannah, Texas, May 31, 1939.

Quannah Cotton Oil Company, a partnership.  
By J. W. Simmons, Rebekah Simmons, G. A. Simmons, T. B. Simmons, Surviving Partners.  
John B. Wooten, Executor and trustee of the estate of R. K. Wooten, deceased.

Effie Wooten Siddons, Executor and trustee of the estate of R. K. Wooten, deceased, and as executor and trustee of the estate of Effie D. Wooten, deceased.

Annie Victoria Durand, Executor and trustee of the estate of Effie D. Wooten, deceased.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fall to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be sagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eye—a feeling of nervous anxiety and loss of pep and strength. (Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.)

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOAN'S PILLS

tion at Lubbock on Sunday. Mr. and Mrs. Frank Eiring of Plainview spent Monday in visiting with relatives and friends here.

WANTED—for afternoon rodeo, July 4, Lake Pauline, Quannah, Texas: 10 wild horses; 10 wild steers; 10 wild cows and 15 goats. Will contract for all or part. See, call or write Herman Brown, chamber of commerce, Quannah, Texas. 6-22

Jimmie Fulkerson left Monday for Hamlin, where he will have employment on a dam under construction near there. Mrs. Fulkerson plans to join him in the near future.

Mr. and Mrs. Van Wheeler and children, and Mrs. Kelley of Kirkland, also Mrs. Claude Furr and daughter, Jeane, of Plainview visited in the home of Mr. and Mrs. A. A. Harp Sunday.

Odus Crowell, who is employed with the International Harvester Co., of Amarillo, visited here Sunday.

WPA SCHOOL...

(Continued From Page One)

embracing such projects as parks and swimming pools; and construction methods, dealing with reductions of unit costs and work sequence.

Peculiar Problems Faced

The courses, Rodenhiser explained, grew out of the need for foremanship of a very specialized type because of the peculiar problems faced by the Works Progress administration. Much of its labor, he related, was untrained in the beginning in pick and shovel work. Many had been "white collar" workers. Many were farmers who, despite being accustomed to hard work, were untrained in the kind of labor needed on WPA projects. Then the very fact that they were on relief and that many long had suffered privation and strain reflected a need for direction on the job not encountered by the foreman of a labor crew in private industry.

Expect 15 Here

Expected enrollment in Matador for the course, Rodenhiser said, is approximately 15 foremen, with about 15 at Hamlin, and 40 in Lubbock. The course will consist of one session every second week during the nine months. He also will conduct similar classes in Amarillo and San Angelo districts of the WPA.

HOSPITAL NOTES

Ida Jo Meecham, eleven-year-old daughter of Mr. and Mrs. A. Meecham of Turkey, returned home on Tuesday after receiving treatment for a chest face bruise, and an injured leg. The child fell from a car on her home last Sunday afternoon, altho unconscious and bruised at first, she is now recovering nicely.

Mrs. A. J. Taylor of Quannah, Mrs. G. S. Evans, and Mrs. J. Fulkerson returned to their respective homes on Monday receiving treatment at the week Hospital.

Mrs. Curtis Graham, who recently underwent a major operation, has now returned home.

Miss Helen Simpson, who been employed at Houston, returned home Sunday. Her mother, Mr. and Mrs. Fred G. Simpson met her in Dallas and accompanied her the remainder of the week.

Baptist Church
