Romance In Song By MEXICALI ROSE

Sweetheart Darling," as I write 'My Last Letter To You" I can't help feeling "Lonely and Blue." I keep thinking of your "Sparkling Blue Eyes" and the night you promised to be "Nobody's Darling but Mine." I just can't stop "think-ing of the Days Gone By" "When You and I were School Day Sweethearts." I remember that old "Ram-shackle Shack" "In the Valley of The Pines" "Where the Old Gang Used To Meet" and "You and I" stole away to "The Maple on the Hills" and there "In the Valley of the Moon" "Down by the Sleepy Rio Grande" you called me your "Dark Eyes" and asked me to be your "Own Sweet Darling Wife." I promised to be "Forever Yours" and whispered 'You'll Never Know How Much I Love You" and I want us to be "Together" "Forever and a Day" But "Just a Year Ago Tonight"

there came a "Beautiful Lady in Blue" and took you from me when she whispered "Oh Johnny" "I Want You---I Need You!" I can't forget our "Broken Engagement" and how "I Cried When You Said Goodbye." I have tried to "Forgive and Forget" but somehow I'm just "A Broken Heaped Lover" and can't keep from say ing "The Words That Are In My Heart," "I Love You Truly," and though you may think I'm just a "Scatterbrain" "You're The Only Star in My Blue Heaven," and I can't help feeling "Sorry For My-self." But "It Makes No Differ-ence Now" for tonight "I'm South rr. Building Supplies and Hardware of the Border" and you in "Beau-

wild mountains of the island's interior. Night after night, men like this tough Anzac private, shown as he arrived in Crete after the evacuation of Greece, swoop down from the mountains on German and Italian outposts and annihilate small detachments of the forces of occupation. By daylight, they are once more hidden, subsisting on their loot of the night before and on the meagre supplies which the loyal natives can spare them. The trouble caused by these Anzac erillar has been so serious that the German-Italian Command is ow offering a reward of 1,000 drachmas (\$20) for information leading to the capture of every private, 10,000 drachmas for each officer But in spite of the fact that these sums represent almost staggering wealth to the poverty-stricken mountaineers of Crete, not a single Anzac has been betrayed to the Germans by a native.

THE RECORD .... Facts That Concern You

# "THIS BOOK ISN'T WORTH READING ... tear down the Library!"

One bad book doesn't make it a bad library. You wouldn't destroy the library to get rid of a few bad books.

A similar situation holds in the beer industry. The vast majority of beer retailers operate clean, decent law-abiding establishments. Now and then an occasional "black sheep" retailer turns up who violates the law or permits anti-social conditions.

The Beer Industry is now actively working to eliminate such retailers. We want to protect your right to drink good beer and our right to make it.

We also want to protect the economic

**BEER...a** beverage of moderation

benefits of beer. Right here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,-968.64 last year in state taxes.

This state, too, has an important stake in Beer's purchases from more than 100 industries supplying the brewing industry with materials, equipment and services.

You, too, can help the cause of moderation by (1) patronizing only the reputable places where beer is sold, and (2) reporting any law violation you may observe to the duly constituted authorities.

nell while on furlough from Chanute Field, Ill.

M. M. Stallings of Lubbock, Texas Unemployment Compensaion Commission, was visiting in Matador Tuesday.

Miss Mable Baker of Morton is visiting here in the home of her sister and husband, Mr. and Mrs. Noble Groves.

Bailey Malone, Vice President of the Mercantile National Bank, Dallas, visited here Tuesday with officials of the First State Bank. Mr. and Mrs. R. A. Day visited

in Silverton Sunday, and were accompanied home by their daughter, Mrs. Ware Fogerson and children, who returned to Silverton Wednesday.

### CORRECTION:

W. O. Cox, who attended funeral services here last week for his father, L. L. Cox, is a student in San Angelo College, San-Angelo, instead of Hardin-Sim-mons University, Abilene, as was erroneously reported.

AMERICAN WAY **VOTE 'YES' FOR** 

# COUNTY ROAD BONDS, SATURDAY, OCT. II

This is still America where justice is the most important thing on earth. Property owners are fair-minded and will vote to correct impartial situations when the facts are understood.

DO YOU KNOW that the road condition is so serious in the Flomot community that school busses are being forced to drive as much a 25 miles off the regular route each day? Do you know that the Roaring Springs school bus is often required to drive 16 extra miles in order to complete its regular runs? Do you know that two Flomot mail routes must also drive 25 extra miles because the roads are destroyed or damaged? Do you know that Flomot may possibly lose its high school because it is impossible for students from north of the Quitague river to attend? Do you think it is fair that property owners in these districts should pay the same taxes as you pay and still be deprived of the benefits of adequate country roads? If you feel that your neighbors and friends deserve equal benefits, then you will vote yes', Saturday, October 11.

will be able to transform five

ing books. (Oh yeah?!)

Plainview visited here Wednes- heard each Saturday from 10 to

### Here is the way the proposed \$70,000 Road Bond Issue will be spent ...

Precinct No. 1 (Matador) \$10,000 Precinct No. 2 \$30,000 FLOMOT, WHITEFLAT, BARTON COMMUNITY, FOLLEY

Precinct No. 3 (Northfield) \$10,000 Precinct No. 4. (Roaring Springs) \$20,000

Approximately \$15,000 will be spent for new and seriously needed road ma-

chinery. to be used by all precincts. Do you know how much it will cost to help your neighbor?

The issue will require an extra 10c tax on the \$100 valuation. If you pay taxes on property rendered at \$1,000 valuation, it will cost you only \$1.00 extra per year. If your valuation is \$3,000, it will cost you \$3.00 per year, etc.

Do you know that 55% of all property in Motley county is owned by non-residents? Help Your Neighbors ... Vote 'Yes' For The Road Bonds

was no time to duck or dodge the facts. So we didn't try.

Instead we said - these being the materials critical in the defense program, we'll do our planning for 1942 with that foremost in mind.

Not merely for an "acceptable" car - certainly not for any "ersatz" number.

We had to have a real and representative Buick. One able enough, active enough, durable enough to serve till annual new models are the rule again.

We resolved on a 1942 automobile of such merit as could carry and cherish the Buick reputation without fault until other new Buicks, however far off, could come along to refresh it.

"BETTER BUY BUICK"

EXEMPLAR OF GENERAL MOTORS VALUE

Matador Buick Company

MATADOR, TEXAS

Now we're announcing those 1942 cars.

Why waste words telling you how good they are! You can't put language in the gas tank and learn either how many or how enjoyable are the miles you'll get per gallon.

here's a better answer-you drive these cars themselves. Come on, do that! Put your own yardstick on their quality.

It would be a shame, for you and for us, to have you miss the dreadnaught Buick we've built to stand up successfully to the toughest job in years.

FIREBALL STRAIGHT-EIGHT VALVE-IN-HEAD INGINE + COMPOUND CARBURETION (standard on most models) \* OIL-CUSH-IONED CRANKSHAFT PINS AND JOURNALS \* STURDI-LITE CONNECTIN RODS + STEPON PARKING BRAKE \* BROADRIM WHEELS \* FULLY ADJUST. ### Luncheon Club Meets Wednesday

Mrs. Charlotte Hunsucker en tertained the D. E. Club Wednesday at a luncheon, followed by several games of bridge during the afternoon.

High score was won by O. B. Rowand, and Mrs. Gus Bird received second high.

Others present were: Mesdames J. R. Emmons, Harry Campbell, Farris Fish, C. E. Long and J. S. Stanley and Mrs. A. L. Fryar of Plainview and Mrs. O. F. Bates of Fort Worth

### ENTERTAINS FRIDAY

Mrs. Hunsucker was also hostess last week to the Friday Club with three tables of members and guests present.

Mrs. Alvin Stearns held high score and Mrs. Farris Fish, second high, at the conclusion of several progressions of bridge.

Also present were: Mesdames D. E. Pitts, Harry Campbell, L. J. Barkley, T. , Daffern, B. F. Tunnell, Robert Collier, W. W. Clements, E. F. Springer, M. J. Reilly and J. R. Moore.

### Sorosis Club Meets With Mrs. Frank Pohl

The Sorosis Study Club met Wednesday afternoon, October 1 with Mrs. Frank Pohl. Roll Call was answered with facts derived from the September Reader's Di-

Mrs. Antone Freeman discussed "Mill-town Miracles and Common Sense in County Government" Mrs. John Hamilton discussed "America's Great Mistake and World or Nothing."

The following members were present: Mesdames Harold Jones, Antone Freeman, Elbert Seigler Ben Edwards, Henry Solomon, Mike Hoyle, Freeman Thacker, John Hamilton, Elbert Reeves and Miss Zona Beth Faulkner.

THERE'S a frosty freshness to this hand-crocheted bedspread, appro-priately named "Jenny Lind." Its design is based on a single motif, which is simple to do, and costs just 2¢ to make. Working from the center outward, a combination of single and double crochet is used to form the spike and petal design. To bring out the beauty of the design and for long wearing qualities, use mercerized crochet cotton with a high lustre, in white or colors. You can also enter the finished spread in the Fifth Nation-Wide Crochet Contest this Fall, where bedspreads will occupy an important place in the final judging. Directions for crocheting this spread and details of the Contest may be obtained by sending a stamped, self-addressed envelope to the Needlework Department of this paper, specify-ing design No. 681.

he chemical laboratories of the petroleum industry are now laying the foundation for industries of the future.

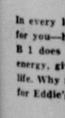

Out of their research are being created new products and more efficient ways of making old ones. Synthetic rubber, plastics, explosives, basic chemicals and scores of other essentials developed in petroleum laboratories are already being made on a commercial scale.

These scientific discoveries of materials vital to peace-time needs, as well as National defense, are opening up new fields of industrial activity.

Texas as the leading oil State is playing an important part in the creation of these new American enterprises. As a result, many young Texans now preparing themselves in our schools and colleges will find places in the industries resulting from this research.

The test tubes of today make the jobs of tomorrow.
