## 4-H Show Prizes To Exceed \$200

Over \$200 worth of defense stamps and bonds will be awarded the winners in the 3rd Annual Motley County 4-H Club Fat Stock Show to be held here on April 4th according to an announcement made yesterday by County Agent J. Rufus Emmons.

Mr. Emmons said that 40 boys will exhibit more than 80 calves and pigs this season and that the entries are in splendid condition despite the unfavorable weather and the poor class of feed which the boys have been forced to use.

Members of the 4-H Club requested that the prizes consist of defense bonds and stamps instead of cash as in past years. The annual show is sponsored by the Matador Lions Club.

**Interest Has Increased**

Mr. Emmons said that interest has increased in the pigs which

## Four Scout Troops To Meet Here Fri.

Breaks Plains district of the American Boy Scouts will meet in Matador, Friday, March 13, for first-aid contests. Troops from four towns including Roaring Springs, Dickens, Spur and Matador will participate, according to an announcement made this week from the Lubbock headquarters.

## Butane Truck Is Ignited

A traffic accident on the Peace river bridge north of Matador Friday afternoon terminated without serious loss, due to the courage and intelligence of the driver of a large butane gas truck.

The truck, which was owned by the Garner Butane Gas Company of Spur, was being towed by an automobile because of a breakdown.

Reports declare that about half way across the modern concrete bridge, two dual tires blew out on the truck, causing it to strike the banister of first one side and then the other.

In the accident a nozzle on the rear of the truck was broken, causing the gas to escape. Friction caused by metal striking or dragging on the concrete caused the gas to ignite.

**Drags Truck Off Bridge**

Despite the danger involved, the driver of the car continued his course until the truck was a safe distance south of the bridge. Observers believe the section of important highway bridge might have been destroyed had not the flaming truck been removed.

Aided by members of the Highway maintenance department, the fire was brought under control and a small grass fire started by the gas was extinguished. Several concrete posts and sections of banister were broken, but general damage to both bridge and truck was declared small.

Names of those driving the truck and car were not ascertained.

## Paul Fulfer Is Heard On Air

Local residents listening to the Kay Kyser weekly broadcast Wednesday night, experienced a pleasant surprise when one of the program contestants was introduced as Paul Fulfer of Matador, Texas.

Listeners declared that Paul was able to answer correctly, most of the musical questions, and after identifying a popular song hit of World War No. I, he complied with the request to sing a few bars of the song.

**Young Fulfer, whose present address is Berkeley, California, has been on the west coast for the past year and half. He was reared here and is the son of Mr. and Mrs. Elbert Fulfer, who moved to California during the fall.**

The popular radio program was broadcast from the Naval Training Station at San Diego.

## Lottery To Place Third Registrants

Motley county Local Board met Monday night to select the SERIAL number for 284 men registered February 16. The serial numbers will go into the famous Washington "Fish Bowl" drawing or national lottery in which it is estimated 9,000,000 men will be placed for ORDER number on Tuesday, March 17th. Place for order or call is determined through the lottery.

While Motley county registered 300 on February 16th, 26 claimed other counties or states as their homes. Only 9 were transferred to Motley county from other counties. (Kyle Kingery, who has received an honorable discharge from the Army has been recalled for placement with the third group of registrants, and his name was on the list furnished the Tribune, with the serial number (S-28).

Operation of the "fish bowl" drawing is simple. Numbers as high as 8,000 or 9,000 will be drawn from the bowl, Tuesday. Motley county will not be concerned in any number above 284. The first number drawn which is less than 285 will be number one in order number. The second number which is lower than 285 will be order number two, and thus each man in the third registration will secure his order position in the county.

**Serial Numbers For Drawing**

Registrants are instructed that the Serial number and the order of names published in this issue of the Tribune will have no meaning or value after Tuesday, March 17 drawing. They are only for the purpose of the lottery. After that date the registrants will be permanently established by ORDER number.

Monday night the registration cards were shuffled and drawn back up, then numbered as follows:

## Excess Allowance Of Sugar Must Be Returned To Store

Dates for registration of all citizens and the issuing of War Rationing Booklets Number One have not been set, according to information received this week by County Judge and Ex-Officio County Superintendent W. R. Cammack, issued by the Texas rationing headquarters at Austin, March 9.

Local newspapers are asked to warn the public to return excess sugar allowances to the stores from which it was purchased, with the following instructions:

"Those in possession of more sugar than can be allowed under the rules, which is two pounds per person, should return the sugar to the stores where they purchased it prior to registration time.

"This cannot be over-emphasized because the rationing booklets, but are general rationing booklets and may in the future be used for any number of things, such as hosiery, radios, bicycles, etc. Further, all citizens ought to be informed that they should register on registration day because without booklets they would not be able to secure articles other than sugar which may be rationed."

**6,000 Ration Books Arrive**

Motley county has received 6,000 Ration Books No. 1 but none will be issued until a date is set. On the date to be announced distribution will be made thru the schools of the nation.

In order that the public may become more familiar with the rationing program, the Tribune is publishing below excerpts from instructions for the use of war ration books, which will be issued complete when the ration books are distributed:

"Before the stamps of the War Ration Book may be used, the person for whom it was issued must sign as indicated in the book. The name of a person under 18 years of age may be signed by such person or by his mother, father or guardian... make and keep a record of the serial number of your book and the number

## Cemetery Clean-Up Is Arranged For Roaring Springs

All Roaring Springs residents and others interested in the community's cemetery, are asked to be on hand the morning of March 17 at 10 a. m.

At that hour an extensive clean-up drive will be started to continue until the work is completed. The community-wide affair is expected to continue until the afternoon and those attending are requested to bring basket-lunches, which will be served at noon.

## Local Boy Injured As Car Wrecks On Honeymoon Journey

A telegram notified Joe M. Gaines, manager of the West Texas Gin here that his son, J. D. Gaines, student mechanic in the aircraft school at Cochran Field, Georgia, had been injured Friday, in an automobile accident.

While details of the accident were vague, Mr. Gaines said yesterday that he had received a later message declaring that his son would probably be released from an Army hospital by today and able to resume his work.

Mr. Gaines said the accident occurred while his son was on his honeymoon journey to Florida. He was married to Miss Ruth Hill, daughter of Mr. and Mrs. Will Hill of Matador, in Macon, Georgia, Thursday.

Mrs. Gaines who had been attending an Amarillo business college, went to Georgia on the day following their marriage, the young couple started to Florida on their honeymoon. Both were graduates of the Matador high school. Mr. Gaines did not know where the accident occurred or other details. The young bride was declared only slightly injured.

## FIRST AID CLASSES ARE STARTED WITH LARGE ATTENDANCE

Much interest was shown in the starting of Red Cross emergency first aid classes under the direction of David Guest at the District Court Room Monday evening.

Approximately 40 attended the first meeting and included men, women, girls and young men representing a cross-section of employment and society in this west Texas county.

Interesting discussion of first lessons were conducted by Hugh Gray, science teacher of the Matador high school. Lessons will be held each Monday and Thursday evenings, starting promptly at 8 p. m. Beginning tonight classes will be held in the science room of the Matador high school.

Mr. Guest emphasized the importance of attending all classes in order to be eligible for certificates when the courses are completed.

## To Lead Meeting

MINISTER CLYDE B. SLOAN

Minister Clyde B. Sloan of Bowie, Texas, above, will conduct a Gospel meeting at the Roaring Springs Church of Christ, beginning April 1st and continuing thru April 10th. It was announced here yesterday.

Singing will be conducted by local Minister Roy E. Stephens. Services will begin each evening at 8:30 p. m. A cordial invitation is extended the public.

## Matador Lion To Talk At Floydada

Floydada Lions Club faces an ordeal that may lead to open mutiny. Lion Douglas Meador, first vice president of the Matador club and recognized as devoid of any oratorical talent, has accepted an invitation to address the neighboring club, Tuesday, March 24.

Subject of the address will be "The Country Editor". Arrangements were made last night by the Lion Homer Steen, editor of the Lion County Hesperian. Local Lions are expected to warn Lion Steen that he will be safer to book passage on the first boat headed toward Japan than to remain in his home town after echoes of the address pervade over the unsuspecting Great Staked Plains.

Matador Lion Club directors will hold their regular meeting at the Magnolia Cafe Monday morning at 6:30. The regular club meeting will be held at the Baptist church basement at 12:30 p. m. Tuesday, March 17.

## Rosa's Cafe Moves To New Location

Rosa's Cafe, located on Highway 28 has moved to a new location three doors west to the former Skelly Service station, recently built by H. W. McCary and recently purchased by Freeman Thacker.

Mr. Thacker will continue to operate his butane gas agency from his residence two doors farther west.

Mr. and Mrs. Frank Stafford, managers of Rosa's Cafe have announced that they will continue to operate the Skelly service station in connection with the cafe, selling gasoline and oils. The new location provides much more room, light and ample parking space.

Popular, home-cooked meals will continue to be served. A special daily lunch is announced at 35c including beverage and dessert.

## War Cuts Ranks Of Fire Department

Matador businessmen and all property-owning citizens are faced with a serious problem in the City's fire-fighting force which demands immediate attention.

Volunteers and draftees into the armed service have reduced the membership of the volunteer organization to a skeleton crew, with further cuts into the force in the immediate offing.

Fire insurance rates, which took a hike the first of this month, are certain to advance again if the shortage of manpower in the department is not immediately replaced.

The department is especially anxious to enlist new members who will be draft-exempt and solicit the consideration of all citizens in the war-time problem.

Tentative resignation of Fire Chief Roy Smith has been received and at present the department is without an authorized head.

## Delegate To Leave

G. N. Wilson has been selected as representative of the Matador IOOF Lodge to attend the Grand Lodge meeting to be held in San Antonio, Sunday, Monday and Tuesday.

Mr. Wilson will leave Matador Saturday morning by motor bus for Lubbock and from that point continue his journey by rail.

## Tribune Receives Two Contributions

Two additional Motley county citizens have made unsolicited contributions to the Tribune in support of the newspaper's policy of sending gratis subscriptions to boys in all branches of the armed service.

Last week Mrs. C. D. Bird contributed \$5 and J. R. Whitworth contributed \$1 to aid in defraying the increasing cost of sending weekly copies of the Tribune to boys anxious to keep up with the happenings at home.

New names are being added to the list each week and the Tribune pledges a continuation of its policy. There is no obligation to anyone but our most sincere thanks to Mrs. Bird and Mr. Whitworth.

## County Attorney Reports For Duty

County Attorney Howard Traweck, who reported for active duty in the Navy, at Dallas Tuesday, has been transferred to San Diego, California, according to information received here Wednesday by his parents, Dr. and Mrs. A. C. Traweck.

## War Delays Rural Electrification

Need for aluminum, copper and other materials vital to the war effort has delayed the rural electrification plans for Motley, Dickens, Kent and Stone wall counties according to advice received from officials.

James Salisbury, REA field representative from Washington has stated that the appropriation has been approved and will be held for immediate use in the post-war era.

Mr. Salisbury requested the Cooperative group to convey the Administration's appreciation for the splendid spirit of cooperation exhibited by farmers and ranchers in the four counties during emergency.

## Junior Class Play Scheduled Mar. 17

What are you looking for? Is it various kinds of people, laughs, or buried treasure? All of these and more are excitingly brought out in the comedy, "In The Light Of The Moon" by Lindsey Barbee, to be presented by members of the junior class next Tuesday evening, March 17, at 8:30 o'clock in the Matador High School auditorium.

The cast is headed by four capable players. Hope and Barney Hathaway, owners of the Inn, are played by Betty Green and Norman Merle Pitts. Cynthia Sears, a piece of modernity, is played by Onieta Whitaker; and the part of Rodney Rogers, a student—sometimes, is taken by Tom Ed Jameson.

Other characters are: Della, the maid, June Barton; Robert Barrett, Mack Jacobs; Bess Barrett, Ruth Evelyn Keith; Miss Becker, a long-suffering tutor, Rachel Carpenter; Jake, the man of all work, Sonny Russell; Claudette Claverton, an ex-chorus girl, Joyce Daniels; Dr. Burns, Bill Rushing; and a gipsy, Fausteena Fulfer.

## Local Boys Start New Enterprise

"Great Oaks From Tiny Acorns Grow." Launched with the enthusiasm of youth, Matador's newest enterprise, the King and Schweitzer Company, filled its first order Monday. The order consisted of two cards of leather handmade buttons and was delivered to W. F. Jacobs, manager of Matador Variety store, where the new products are now on sale.

The two boys, Leonard King and Bert Schweitzer produced their first samples in the Schweitzer Saddle Company shop last week and contracted the sale. Attractive cards on which the buttons are mounted were printed by the Tribune and thus an enterprise was launched. The public will appreciate the appearance and workmanship of the buttons which have a good chance of extensive popularity. They make a splendid, inexpensive gift to send some one who will appreciate something of the west—made in Matador, Capitol of the cattle country.

## HEAR A CAPELLA CHOIR

Miss Zona Beth Faulkner, accompanied by Miss Clarence Whitton and Burrell Tipton, drove to Childers Sunday afternoon, where they attended the concert given by the A Capella Choir of North Texas State Teachers College, Denton, that evening.

Accompanying them were Johnny and Edwina Crews, nephew and niece of Miss Faulkner, who had been visiting her here, and who returned to their home at Childers.

BOMBER DRAWS A BEAD

Passed by Censor

THE art of bombing isn't learned in a day. It is an art, and for it men have to be specially selected and must undergo weeks of constant, careful training. The job is usually that of the observer to whom is also entrusted the task of navigating the ship. He must also know how to handle the rear guns in a pinch and he must also understand enough about flying to bring the plane down safely if the pilot is put out of action. He is probably the least publicized and yet the most important member of a ship's crew. The photograph shows a young Canadian observer at the bomb sight in the belly of a Fairey Battle Bomber, one of the many types of machines which Canada is using in the greatest flying school in the world, the British Commonwealth Air Training Plan. Ten per cent of the men in training are Americans.

Carelessness Is Responsible For Many Accidents

AUSTIN—The general opinion prevails in America that home is about the safest place there is. However, the facts prove that, far from being the safest, it is often quite the opposite. A keener realization of this fact, plus amending the carelessness responsible for most of the home accidents, is a goal that can not be over-emphasized at this time when health and physical efficiency mean so much to the nation at large. In commenting on this urgent need for the protection of life and limb in the American home, Doctor Geo. W. Cox, State Health Officer, today declared that accidents in the home are the cause of more deaths than diphtheria, scarlet fever, whooping cough, and measles combined; of more than appendicitis; of nearly as many as diabetes, of over two-thirds as many as automobile accidents, and of over a third as many deaths as tuberculosis.

Electric Company Sees Rationing Of Appliances

Factories that once hummed busy as a bee turning out electric appliances today are roaring like a lion following conversion to the manufacture of war materials. Hence, the West Texas Utilities foresees a time when rationing will be applied to all appliances, in addition to refrigerators—a day when floor sweepers, irons and similar items will become as hard to get as a new tire or a hundred pounds of sugar. So the company is advising that you "be good to your electric appliances and they'll be good to you."

son. The 1941 crop of 10,976,000 bales was produced from a planted acreage of 23,250,000 acres. A substantial increase in the production of cottonseed oil would result from the planting of the full cotton acreage allotment, Wickard pointed out, adding that vegetable oils are badly needed. Assuming that the entire increase in production of cotton seed is crushed for oil, a 1942 crop of 13,500,000 bales would result in an increase of 250,000,000 pounds of cottonseed oil over the 1941 production.

World Dilemma Is Reflected In Old Chinese Story

(The following story is reprinted from "The Tackless Texan" by Gene Howe in the Amarillo Globe-News) There is an old Chinese story, according to Oscar Stauffer, the distinguished newspaperman visiting in Amarillo, about a community of soft, luxury-loving people captured by a horde of wild barbarians who seized their comfortable houses and drove the deprived owners into the hills to shift for themselves. A few weeks of very poor shifting, says Mr. Stauffer, convinced them they would starve unless something was done. So, when they heard of a sage who lived over the next hill, they betook themselves, sore, stiff and discouraged, to ask him how they could get back their pleasant homes and easy living. The wise man said: "Only one thing will win back your homes and that will require both strength and courage." The unhappy people chorused their willingness to endure any extremity. "Then," continued the sage, "go to the ends of the earth and gather up all the luxuries that man has invented. You will suffer toil and hardship and danger but never stop until you have brought them all—wines and silks and spices, peacocks, doves, music and dancing girls—and heaped them at the feet of your conquerors." There were confused murmurs of surprise. "But sir," said one, "we want them for ourselves, the wines and silks—" "You will have them, my son. When you have grown hungry and thirsty and cold, when you have grown hard from work and tough from sleeping under the stars—and when your conquerors have softened themselves on your luxuries—then you will exchange places again." "It is ironical," writes Zula Bennington Greene, "that the human race makes most of its progress in science and invention during or because of wars. We seem to be too lazy and sluggish to exert more than a fraction of our intelligence and energy unless some outside calamity forces us to fight for our existence. Then we call up amazing reserve power. "We may learn to walk again, to dress and eat differently, to enjoy simple pleasures, and if carried far enough and prolonged enough, it may toughen our soft hides. The human is a versatile

animal. He has survived because he can change his ways. He hates like the dickens to do it, but he can and will when he has to.

FARMERS TOLD TO PLANT FULL COTTON QUOTAS

Washington, March 4—The nation's 2,500,000 cotton farmers were told Wednesday by Secretary of Agriculture Claude R. Wickard that they should plant this year their full national acreage allotment of 27,400,000 acres. He recommended that as much of this acreage allotment as possible be planted in medium or longer staple varieties of cotton in order to assure adequate supplies of the qualities needed to meet military requirements. The Secretary explained that his call on the cotton farmers to plant their full allotment does not mean that the cotton acreage for 1942 will be increased, or that farmers are expected to exceed their assigned quotas. Farmers last year underplanted the national acreage allotment by 4,000,000 acres and the Secretary is anxious that there be no such underplanting this sea-

## Party Honors Two At Whiteflat Sun.

A birthday dinner party was given Sunday at the ranch home of Mrs. Luther Cox, by Mrs. Cox and Mrs. Bertha Garrison, honoring Mrs. Garrison's son, Alvin, and the former's daughter, Dorothy, on the occasion of their 14th birthday anniversaries.

Following dinner, the guests spent the evening at the sand hills. Guests were: Misses Alene Bloodworth, Bettie Sue Knoy, Dorothy Jean Casey, Estelle Morris, Faustena Pulfer, Elwanda Martin, Aurene and Melba Jameson, Peggy Jean Spray, Dorothy Lou Hill, Geraldine Waybourn.

Sweet and Jodie Jameson, L. M. and W. O. Cox, Sonny Russell, J. C. Titus, C. D. Garrison; Mr. and Mrs. Gerald Waybourn and small daughter Barbara, Bernice Garrison, Mrs. Bertha Garrison, Mrs. Luther Cox and Maurice Howell, and the honoree.

## Club Entertained By Mrs. Hunsucker

The Friday Club was entertained last week by Mrs. Charlotte Hunsucker, with three tables of bridge in progress.

Club high score was held by Mrs. W. W. Clements, with Mrs. Farris Fish receiving guest high. A courtesy gift was presented Mrs. Arvil Wells, as out-of-town visitor.

A salad course was served for refreshments.

Other ladies present were: Mesdames T. J. Daffern, J. S. Stanley, D. E. Pitts, B. F. Tunnell, L. J. Barkley, E. F. Springer, Alvin Stearns, A. C. Trawweek, Sr., Leonora Luckett and Margaret Newman.

## Legion Auxiliary Meets Tuesday

Members of the American Legion Auxiliary repeat their former invitation to the ladies of the community to meet with them each Tuesday evening at the legion hut, to do Red Cross work.

Several were present at the meeting this week, and work was continued of piecing scraps of flannel to be used for baby quilts. As soon as the Red Cross sewing room receives garments to be made, the auxiliary plans to assume a large portion of that responsibility.

Due to the lack of material, interest in the undertaking has been scant. However, it was pointed out that the organization is anxious to finish piecing the quilts tops so that they might be ready to do sewing and knitting when those supplies arrive.

Mrs. Lucile Cooper of Tulla visited here Sunday and Monday with her parents. Mr. and Mrs. Joe Meador and other relatives.

## Survey Gives Soldier's "Rules" For Good Morale In Army Camps

HERE are the American soldier's own specifications for good army "morale":

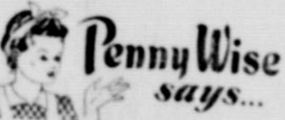

1. Fair treatment.
  2. Complete "freedom and variety" when on leave.
  3. Decent, hospitable attitudes among local townspeople near camps, making him feel he's "as good as anyone else."
  4. First class training and straight talk from his superiors on what the war is about, so he can feel he's getting something tangible out of his experience in the army.
- These "rules" are based on findings made in a dozen training camps and all sorts of places outside by Alden Stevens, widely experienced sociologist and writer. His report appeared in *Survey Graphic*.
- "The building of army camp morale calls for positive action now," Stevens declares. "You have to provide the conditions that make for good morale—then you will get it. No mere words cooked up in Washington are going to be effective unless the fundamental requirements for good morale are present."

### What's In A Name? Ask the Movie Stars

ACTORS think names are important. They like them simple to pronounce, easy to remember, short and sweet for display purposes.

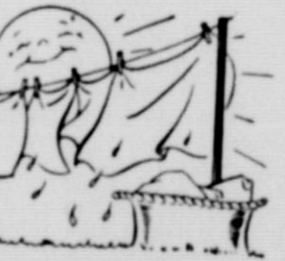

Greta Garbo's name, Mary Hamman reveals in the February Good Housekeeping magazine, was Greta Gustafsson. Robert Taylor's was Spangler Arlington Brugh. Barbara Stanwyck—Ruby Stevens before she went on the stage—says it was quite a jolt to realize, after she was married, that her real name was Ruby Brugh. Myrna Loy's name was Stevens, too—Myrna Stevens. She adopted Loy early in her career, when she was playing wily oriental ladies.

Brenda Marshall's real name, Ardis Ankerson, was too stagy, so, Miss Hamman explains, she chose another. The same is true of Branda Joyce; her real name, Grafine Leabo, sounded phony, so she switched. Joan Leslie was Joan Brodel. The Lane girls are really all Mullicans. Claudette Colbert began life as Claudette Chauheola. Carmen Miranda's name is Maria do Carmo da Cunha. And Anna Lee is Joanna Boniface Winastuhl.

"Skimp to Beat a Skunk!"

TO bleach yellowed linens, you may need nothing more than sunshine—if you leave extra moisture in the material, after final rinsing. The damper the fabric—the better the job Old Sol will do in bleaching!

Then buy DEFENSE SAVINGS STAMPS instead of new linens—that the sun will soon again shine on an America at peace!

GET acquainted with the cow! You'll save money if you know cuts of beef—their most economical and successful use. Your butcher can supply you with such information.

Spend the pennies you'll save for DEFENSE SAVINGS STAMPS—you can buy them for 10 cents, 25 cents, 50 cents, \$1, or \$5. Suggest to your husband that he enter into any pay roll savings plan his company may consider for Defense.—War Needs Money!

## Pied Pinions BY MRS. M.

Our quote of the week: "Another advantage of being a bottle fed baby these days is that it runs less risk of getting cigaret ashes in its eyes." From the pen of Bellamy Brooks.

Adolph Faylauler, Hollywood movie actor who has visited in Matador on several occasions, as guest of the Tribune family, will be seen soon in two pictures in which he is cast in prominent roles.

In November Mr. Faylauler completed a contract with the Hal Roach Company in which he played the role of a banker out on a western Dude Ranch. Playing opposite him as his wife, was in real life, the wife of Jack Mulhall the former screen star. Also in the picture are three sons of noted fathers: Russell Gleason, the son of the elder Gleason who did such fine work in "Here Comes Mr. Jordan"; another is the young son of Will Rogers. The young lady who plays the juvenile lead is Miss Marjorie Woodworth, whose picture is seen in most magazines advertising a well-known brand of cigarettes. Of her, Mr. Faylauler writes:

"She is very lovely, intelligent and democratic and a fine some girl... she looks like the late Jean Harlow, but not so sophisticated."

Since most of the action place on a ranch, Mr. Faylauler, literally speaking, rode a horse, and when the director him to "exaggerate and seem as if it were really for you to mount," he made no exaggeration was necessary. "I did not act at all," he said. "I just tried to get on."

His most recent contract with M. G. M. in which he played the part of a judge in a picture entitled "The Picture of Dorian Gray," starring Hedy Lamarr and William Powell.

The pictures, presumably, will be released in the near future.

World Dilemma Is Reflected In Old Chinese Story

(The following story is reprinted from "The Tackless Texan" by Gene Howe in the Amarillo Globe-News) There is an old Chinese story, according to Oscar Stauffer, the distinguished newspaperman visiting in Amarillo, about a community of soft, luxury-loving people captured by a horde of wild barbarians who seized their comfortable houses and grove the deprived owners into the hills to shift for themselves...

"Hey, Joe!"

... Wonder what we're worth on the hoof?

Just in case Joe doesn't know, it cost his country \$211 to equip him. Multiply that by an army, and you have a tidy sum of money. We ought to know. Over 2,400,000 Joes could be completely outfitted with the \$510,000,000 which America's electric power companies paid in taxes last year.

We're glad our stake in Democracy is so large. The freedom America's fighting for is worth whatever it costs. Even though our taxes have been going up, our rates have been going down. Today, the average household electric user gets about twice as much electricity for his money as he did 15 years ago. This record is directly due to the careful planning of the business men who manage the nation's electric companies.

They were prepared when the war emergency came. Prepared to power shipyards, arsenals and plane plants. And they'll stay right on the job of making America POWERFUL until a couple of million Joes go back to civilian clothes again!

**TITUS-ELLIOTT RITES ANNOUNCED**

Announcement is made of the marriage on February 28, of Miss Inez Titus of Flomot and Richard Elliott of Turkey, Texas, in a double-ring ceremony performed at El Paso.

Mr. Elliott, who has been in the United States Calvary for the past two years, is stationed at Ft. Bliss. He is the son of Mr. and Mrs. W. D. Elliott of Turkey.

The wedding vows were exchanged in a double ceremony which also united in marriage Miss Inez Reed and Pvt. George James, the two bridegrooms being buddies in service.

Mr. and Mrs. Elliott are at home at 1008 Magoffin Street, El Paso.

Over 10,000 children in approximately 4,600 families were aided in February by the state and federal governments under the Aid to Department Children program.

"Property losses from fire won't help buy defense bonds," says Marvin Hall, State Fire Insurance Commissioner and Fire Defense Coordinator. "Our best fire defense is fire prevention."

**Victory Book Campaign Is Introduced to Secure Adequate Reading Matter For Boys In Service**

Latest civilian movement toward contribution to the boys in service has been introduced in Matador as a "Victory Book Campaign" for the purpose of collecting gifts of books for our soldiers, sailors, and marines as a supplement to the library services maintained by the Army and Navy in forts, camps, posts, stations, and on ships.

Mrs. Leonora Luckett has been appointed Chairman for this district, and states that she will appreciate all assistance in securing books for this purpose. Anyone having books to contribute in this connection, are requested to leave their donations at the office of Judge W. R. Cammack, in the court house where they will be properly packed and sent where needed.

**Others To Benefit**  
The collection of books, in addition to serving the boys in service, will also be used to provide reading matter for the U. S. O. houses outside the camps and for the American Merchant Marine Library Association.

Further, if the supply is more than sufficient for these needs, they will be used to provide books for men, women and children in areas where industrial activities have increased population so that existing library resources are inadequate or nonexistent.

**Authors Suggested**  
As an aid to contributors in donating books, a suggested list of authors is provided. The following list includes only a few of the many well-known writers whose books are being requested:

Adams, Henry; Alcott, Louisa May; Allen, Harvey; Arnold, Matthew; Atherton, Gertrude; Audobon, John James; Bacheller, Irving; Baker, Roy Stawford; Bancroft, George; Baring, Maurice; Barrie, James M.; Beebe, William; Beerbohn, Max; Bellamy, Edward; Stephen Vincent; Benet, William; Rose, Bennet; Arnold; Bierce, Ambrose; Bradford, Gamaliel; Bradford, Roark; Brook, Rupert; Bryant, William Cullen; Burroughs, John; Butler, Samuel; Byrne, Down; Cable, George W.; Caldwell, Erskine; Carman, Bliss; Carroll, Lewis; Cather, Willa; Churchill, Winston; Clements, Samuel L.; Conrad, Joseph; Crane, Joseph; Dana, Richard; Henry; Davis, Richard; Harding, Day; Clarence; Deland, Margaret; Douglas, Norman; Doyle, A. Conan; Dreiser, Theodore; Dunbar, Paul Lawrence; Eggleston, Edward; Emerson, Ralph Waldo; Ferber, Edna; Field, Eugene; Ford, Paul Leicester; Freneau, Phillip; Galsworthy, John; Glasgow, El-

len; Greenway, Kate; Hardy, Thomas Harris; Joel, Chandler; Hawthorne, Nathaniel; Hemingway, Ernest; Henry, O.; Holmes, Oliver Wendell;

**PAINTING OF TEXAS SCENE THRILLS THOUSANDS**

A bit of Texas has been framed and hung on the walls of farm homes from coast to coast in the last few weeks.

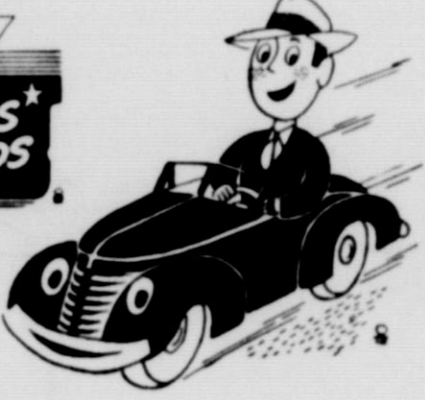

It is that bit of Texas that Georges Schreiber, noted painter, captured on his canvas, that then became a four-color cover of the January issue of Country Gentleman and since has caused that magazine's editor to be swamped with thousands of requests for reprints suitable for framing. In addition hundreds of readers have written saying that they framed the cover itself.

A Texas ranch scene was chosen for the initial painting for a series of covers which will be distinctive in the magazine field, inasmuch as this is the first time that 12 rural paintings by notable artists will have been presented in this way. Each painting in the series will deal with a different crop or phase of

agriculture and, in so far as possible, the series will cover the country geographically, by regions. Artists already assigned to do original paintings include John DeMartely, Paul Sample, Peter Hurd, Adolph Dehn, Hardie Gramatky, Thomas Hart Benton and others. When the January issue appeared with the Texas scene on the cover the demand for reprints ran at the rate of about 500 a week with indications that the available supply of a few thousand copies would be exhausted before all requests could be fulfilled. The reprints were made available to those who provided the mailing costs.

Next year, after the paintings have been published, the Texas canvas with the other originals will be loaned to agricultural colleges throughout the country for display at their farm and home weeks.

# I GIVE YOU TEXAS

by BOYCE HOUSE

There was trickery in David Crockett's day, too. In his autobiography, he thus explains his failure to be re-elected to Congress:

"I should have been elected if it hadn't been that, but a few weeks before the election, the little four-pence-ha-penny limbs of the law fell on a plan to defeat me. They agreed to spread out over the district and make appointments for me to speak almost everywhere to clear up the Jackson question. They would give me no notice of these appointments and the people would meet in great crowds to hear what excuse Crockett had for quitting Jackson.

"But instead of Crockett's being there, this small-fry of lawyers would be there with their saddle-bags full of newspapers and their journals of Congress and would get up and speak and read their scurrilous attacks on me and would then tell the people I was afraid to appear."

After losing the race, Crockett made a speech of farewell to Tennessee, concluding:

"I am done with politics for the present and you can all go to h--- and I will go to Texas."

Not the Mother Goose version: Jack and Jill ran up the hill To fetch a pail of water; Jack fell down and broke his crown

And Jill said, "Can't take it, eh?"

Says the Wood County Democrat, editorially: "Ralph Yarborough was born at Chandler, Henderson County, and was reared an East Texan. After he graduated from the University of Texas School of Law, he began the practice of his profession in El Paso and for four years lived the life of a West Texan. More recently, he served as Assistant Attorney General at Austin and later District Judge in the territory centering around Austin in Central Texas, East Texas, West Texas, Central Texas, Judge Yarborough is one of those rare men who can truly be called a citizen of all the State."

After mentioning that Yarborough was being urged to run for Attorney General, the Democrat added that he had made the race in 1938 and that "the has made many friends, and the more people he meets, the more friends he makes."

Two men in Longview were hotly discussing the merits of a book. One of them, a writer, said "No, Joe, you can't appreciate it. You never wrote a book yourself."

To which Joe retorted, "I never laid an egg either but I'm a better judge of an omelet than any hen in Texas!"

Speaking of authors, here are a few colorful bits from their lives:

Vachel Lindsey tramped across America, reciting poems in exchange for bread.

Francois Villon was a Paris pickpocket and murderer but he wrote lines that will never die—such as, "Where are the snows of yesteryear?"

## Let's All Pull Our OWN Oar

John Masefield, poet laureate of England, tended bar in New York.

Ernest Dowson died in squalor in the most wretched district in London. Does that mean nothing? He wrote the line, "Gone with the Wind."

Incidentally, your columnist is the only person in the United States who has neither read the book nor seen the movie, "Gone With The Wind." I'm waiting to see whether the story is a success.

Oldest farm in U. S. is at Ysleta, El Paso County, on the bank of the Rio Grande. The farm has produced crops since 1540.

Unusual names: In Llano you can find Idol's Cafe and Buttery Hardware.

A farmer (in Kansas) said to a friend, "Well, my son John has failed on the civil service examination."

"What was his trouble?" "Well, he was short on spelling and geography and he missed purty fur on mathematics."

"What is he goin' to do about it?"

"I dunno. Times is mighty hard and I reckon he'll have to go back to teachin' school for a livin'."

A busier-than-usual day: To the Fort Worth airport where your columnist boarded a plane at 9 a. m. and two hours and a half later alighted in Amarillo, a mere 350 miles; greeted by plump, ruddy, genial Mason King of the Amarillo News-Globe and whisked by auto to the hotel where 150 Kiwanians and friends kindly guffawed at a Texan's tale of Hollywood; thence for a view of Editor John McCarty's collection of 2,000 books on Panhandle history—(he has eight typewritten volumes on the vanished town of Tascosa alone, and will have seven more before completing his chronicle of the one-time "Cowboy Capital").

From there with Floyd Studer, famed paleontologist, and the architect, Guy Carlander for my first trip to the Palo Duro Canyon; then an all-too-brief visit in the West Texas museum at Canyon, and back to Amarillo for a supper with the Will Rogers Range Riders, including Bob Dow, former

Attorney General of New Mexico, who looks like Will. Then to the Amarillo airport to get aboard a ship at 8 p. m. and two hours and five minutes later, stepping on the ground at Fort Worth.

A man, meeting a friend in a battered condition, asked, "Who beat you up?" The bandaged one explained, "I took my girl to a restaurant and she found a fly in her soup. She called the waiter and said, 'Take this insect out of here.' So he threw me down a flight of stairs."

Says the Weatherford Democrat, editorially: "With a full-fledged war in progress, Texas, along with the entire United States, has plenty to do. Our state government can be of immense help not only to our own people but to the entire nation. It would seem to be the wise and sensible thing to do to keep Governor Stevenson in the position that he is filling so well. A vast majority of Texas folks are proud of his leadership and are glad to work with him in solving the difficult problems that confront us."

Speaking of graphic utterances: Ed Delehanty, the Babe Ruth of his day, was asked the secret of his success at bat and his answer was, "Hit 'em where they ain't."

And General Nathan Bedford Forrest, the Wizard of the Saddle, when asked the secret of winning a battle, replied, "Git thar fustest with the mostest men."

A collection of pipes, hundreds of 'em, is owned by Fred Jackson, Cameron cafe proprietor. He has been collecting for 16 years and values them at \$5,000. One, over 300 years old, belonged to Sir Walter Raleigh, who introduced the fragrant weed to Europe. Another, with a long curving stem, has a porcelain bowl with the picture of the original owner. Some are Turkish pipes, with flexible stem an water bowl; others are corn-cobs.

When I met Jackson, he was smoking—a cigar!

With the high-brows: Some books are to be tasted others to be swallowed, and some few to be chewed and digested. A foolish consistency is the hobgoblin of little minds.

The colored exhorter said, "Is thar anyone in de congregation dat likes sin? Ef so, stand up. Whut's dis, Sistah Jones—does you like sin?" She replied, "Excuse me, pahson, I thought you said gin."

"If wisdom's ways you wisely seek, Five things observe with care: Of whom you speak, to whom you speak,

And how and when and where." "Ah wants a ticket for Virginia, please suh," said the colored wpm-an to the ticket agent. "For what part of Virginia?" he asked. "Fo' all ob Virginia," was the reply. "dat's Virginia settin' on dat suitcase."

Although 3,412 persons were added to the Texas Old Age Assistance rolls during January, 69 were removed upon being found ineligible and 1,174 died, making a net increase of 2,169 to receive February warrants.

The state and federal government distributed \$3,206,966 among 106,079 recipients of Old Age Assistance in Texas during February.

The federal government, under the social security act, matches state funds dollar for dollar in providing Aid to Dependent Children, Aid to the Needy Blind, and Old Age Assistance. All three programs are administered by the Department of Public Welfare with offices in every county seat town.

# Frame Gardens Will Provide Vegetables For Motley Families

Value of frame gardens for growing early vegetables in the Farm Security Administration drive to produce "Food For Freedom, is outlined by Arvol D. Hays, of Floydada, rural rehabilitation supervisor for Motley county.

In a statement to the Tribune last week, Mr. Hays declared: "Almost every family in Motley County, in towns as well as the country, can immediately begin growing fresh vegetables in a sub-irrigated frame garden such as the one described above.

"Frame gardens are little expense. Most families have enough scrap lumber or tin about the place to build a frame which should be 4 or 5 feet in width, and of any desired length. The usual length is 20 feet, but this may vary with the size of the family. Frames 4 or 5 feet wide are better than wider ones because of convenience in cultivating and gathering from each side.

"The side walls of the frame may be 12 to 18 inches in height, preferably 12 inches on one side and 18 inches on the other, with strips 1 by 1 inch nailed across the frame every 5 feet apart to support a cover. A good grade muslin cloth should be tacked to one side of the frame and to a strip 1 by 1 inch the full length of the frame on the other side. The cover can then be rolled onto this strip to uncover the garden when desired.

**Cover For Protection**  
"A duck or burlap cover may also be provided for better protection at night but only the muslin cover used during the day. A net wire covering should be used to protect against small animals or chickens.

The soil should be fertilized with well rotten manure and spaded a depth of 8 to 10 inches.

"Old tin cans may be used in the place of tile for sub-irrigation. One or two rows should be laid the full length of the garden from 6 to 10 inches below the surface, depending on the nature of the soil. In almost every case sub-irrigation is much more effective than surface irrigation and reduces the amount of water necessary about 50%.

**Early Vegetables For Family**  
"An outstanding feature of the frame garden is the fact that fresh vegetables can be grown for the family tables long before the ordinary gardens are in production and for many weeks after the first frost in the fall, just doubling the growing period for fresh home grown vegetables for table use, which is a big step in increased production of fresh vegetables.

"An ordinary sized frame garden will produce all an average family needs for daily use; but don't neglect the family garden for growing all the other vegetables that the family can use and store or can for the non-productive months—and even a two years supply or more if it is grown because what if we should fail to raise a garden next year and there were no canned vegetables available on the market.

**Will Repay Costs**  
"Let's do our share in "Food for Freedom" production by having a frame garden; a family garden, and a field garden too.

"Even if you do not have scrap

materials available for building a frame garden, Mrs. James D. Eaves, who lives on a farm seven miles southeast of Floydada and does a wonderful job of producing food for her family, says, "The garden will pay for itself in one year. We bought new lumber and built our frame. We kept account of the value of the food that we consumed from the garden the first year and it more than paid for itself."

"Plant a frame garden and help win the war," says Mrs. Clifton, Home Management Supervisor for the Farm Security Administration.

### Loans Available

"Call by the F. S. A. office in the Court House and let us help you with any Food or Production problem. If you need garden seed, garden fence, the windmill repaired, cellar with adequate storage space, cooker, jars, or any other facilities for food production or preservation and do not have the finance, come and talk it over with us and perhaps we can help you. Or if it is another cow, sow, some pigs baby chicks and simple facilities for caring for such that you need we may be able to help you there too. We do have a special "Food for Freedom" loan which is available to farm families who do not have adequate facilities for producing maximum production on your particular farm.

"4-H Club boys and girls or boys and girls in Vocational classes in High Schools who live on farms may also obtain loans from Farm Security to finance any food or production project such as a calf, pig, poultry, gardening or canning."

### Teaspoon Wastes Are Challenge To Women Of Nation

Momemakers in this country are challenged to refute the old saying: "A woman can throw out more with a teaspoon than a man can bring in with a shovel."

Louise Bryant, Extension Service specialist in home management says it's largely up to the woman to avoid teaspoon wastes. Small losses multiply in 34 million homes can amount to wastes which stagger the imagination.

Here are some suggestions she offers to consumers. Plan shopping lists in advance and don't order by telephone or you likely won't get the best selections. Don't do all your shopping at one store. Read all labels carefully, and as often as possible buy official government grades fixed by the Agricultural Marketing Service. Notice cost per ounce as well as cost per can.

Buy fruits and vegetables in season, for out of season they are likely to be expensive and poor in flavor and quality. Instead of by the bunch or piece, try buying by the pound. Watch your own and the storekeepers' weights. Investigate the possibility of saving by buying in quantity provided you have available cash and ample storage room. Learn about the uses, food values, and limitations of food substitutes

DENTON, Texas—Blondes, brunettes, and red heads; tall girls, short girls; slim girls, fat girls; athletic girls and bridge table girls—all these types and more too the Service Sweethearts Corps of the North Texas State Teachers College promises to get for men in all branches of the fighting forces in the nation if they write their preferences to SSC headquarters at NTSTC.

The Service Sweethearts Corps, an organization of co-eds who propose to cheer up lonely soldiers who want pen pals, was formed on the campus recently by Jo Worley, center, when she received

z. deluge of fan mail from formed men when a press service sent her over the nation. In the she was shown mailing in which co-eds had written back private.

such as oleomargarine for butter, and cheaper cuts of meat for the more expensive. When food has been purchased there is still plenty of opportunity to prevent waste. Perishables should be put into the refrigerator immediately. Outer leaves of cabbage and lettuce should be saved and used. Potatoes and apples should be peeled thin or not at all. Homemakers should also save fats, bread crumbs, pan drippings, and

the liquid in which have been cooked. "Burned materials, food sential supplies, can't be sailors, soldiers, marines in fighting the enemy. waste by fire definitely our war production efforts serts Marvin Hall, State Insurance Commissioner and Defense Coordinator.

It's Time For a Clean-Up

(From the Lubbock Avalanche)

The Memphis Commercial Appeal, one of the truly great newspapers of the South, recently broke a policy of many years standing and used a letter from a reader as an editorial.

Characterizing the letter as "a document every citizen of the United States should read and ponder," and calling attention to its "sheer forcefulness, the Commercial Appeal presented the communication as follows:

"To The Commercial Appeal: "My only son was born while I was in France during the first World War. Today he is a member of the United States Marine Corps. He sailed from California the first of January, and we have heard nothing from his since. We know he is somewhere in the Pacific. We are anxious about him. Thousands of other parents are like us.

"The President says we do not have enough ships to send supplies to our troops, and that we must build ships in a hurry. Even as he spoke several hundred shipbuilders refused to work on Washington's Birthday because they were not paid double time.

"How can fathers and mothers of boys who are in the danger zone and who are being called upon to sacrifice their lives, feel any 'surge' of unity when the President and the Congress permit a bunch of shipbuilders and munitions workers to quit when they get good and ready?

"Do our boys at the front get 'overtime' and 'double time' in the fox holes of the Philippines? Do our sons who are giving their lives to protect the jobs of these and others like them quit on holidays? Like hell they do!

"One of my friends, who is a good mechanic, with a family to support, went to get a job in a munitions plant. Every day we hear on the radio and read in the newspapers that such men are needed to turn out munitions for our soldiers, sailors and marines. But this man was refused a job until he could get a union card. He could not get a union card because he did not have enough money to buy one.

"Is it the idea of our government that it is more important to preserve labor unions than it is to preserve the American Union? Why can't a freeborn American citizen get a job in a plant where the government needs workers without having to pay tribute to a high-powered labor leader?

"If our sons are to be drafted to give their lives for their country, why should not Labor and Capital be drafted to supply them with munitions of war? Why should Congress, which has the power to make laws, be so tender of the regard for laborers and management who work and prosper in safety while having an utter disregard for the lives of the boys at the front?

"We don't like it, and we don't mind saying so right out loud. Maybe it is time we were electing some senators and congressmen who will crack down and compel Capital and Labor to get into this war. And, come to think of it, this is election year, and we might as well get busy while we have the time and opportunity."

"JOHN C. SHEFFIELD," Helena, Ark.

The Editor of The Morning Avalanche for weeks and months has heard Lubbock and South Plains citizens voicing the same sort of opinion as given by John C. Sheffield in his letter to the Memphis Commercial Appeal.

We see similar opinions in "Letters-to-the-Editor" columns in newspapers from all parts of the country; and during a rather wide swing through the country as long ago as last October—prior to our entry into the shooting phase of the war—we heard people in all walks of life expressing identical views.

It is high time, we believe, for the members of the Congress, for the President and for all other elected and appointed officials to take cognizance of this situation and to clean up, once and for all.

The close-knit unity essential to a successful prosecution of the war will never be fully realized as long as the majority of our people are forced to bend the knee to a highly organized and ruthless labor minority.

We have the experience of France to chart our way in a direction the opposite of that traveled by the now luckless, subjugated, one-time ally of the democracies.

RECEIVES PROMOTION

FORT SILL, Okla.—(Special).—Special orders just issued by the Field Artillery Replacement Center here promote Staff Sergeant Harvey Wilson to the grade of 1st Sergeant.

Sergeant Wilson re-enlisted in the Army on April 25, 1940 and formerly was a resident of Matador, Texas.

MAKES HIGH RECORD

CANYON—Marjorie Ruth Campbell of Roaring Springs, a sophomore at West Texas State College, made an excellent scholastic record in the fall semester.

Dr. D. A. Shirley, registrar, announced that Miss Campbell received four A's and one C, or 18 grade points, for her work. Only four students equaled Miss Campbell's record. Of these, two were sophomores.

Property and materials essential to war-time production can be destroyed by fire just as easily as they can be destroyed by explosive bombs dropped from enemy planes. Fires can be prevented.
