## COUNTY ENTRANTS ARE WINNERS IN QUITAQUE ROPE AND SADDLE CONTEST

Motley county was well represented at the Quitaque rodeo which was staged Wednesday and Thursday, July 30-31 of last week, those participating in the contests "brought home the bacon" in much of the prize money.

Miss Mary Elen Barton, daughter of Mr. and Mrs. W. B. Barton won first place for out-of-town sponsors, as well as first in calf-roping the second night. Quinn Martin took off three prizes in ribbon roping, winning first the first day, 3rd the second day, and first in the finals.

W. E. Burtleson split first with Nig Reid for first prize money in the calf-roping the first day. Norman Martin took 3rd break-away day money and Bobby Echols, 2nd break-away roping day money.

Melvin (Wild-Horse) Warren won second in calf-roping the second day of the rodeo.

## Drivers Cautioned Not To Cross Hose

Automobile drivers are again warned by Fire Chief Roy Smith, not to drive over a fire hose under penalty of \$5.00 fine. Chief Smith said that several instances have been reported and beginning immediately, the next offender will be fined.

"Fire hose cost over \$1.00 per foot," Chief Smith declared, "and a full 25-foot or 50-foot length is ruined when a car passes over it. We have repeatedly asked drivers not to follow the fire truck, either on practice or answering a fire alarm, but if they must follow the firemen, they will be compelled to respect the city's fire-fighting equipment."

Many drivers believe that due to the fact that an automobile tire is made of rubber, it will not damage a fire hose. The weight of the car breaks the hose so that it is soon rendered useless.

Hundreds of persons were gathered from Dickens and nearby counties for the first of a two-day celebration featuring a large carnival, the races, old time dances and contests with cash prizes.

Boner was a spectator at the race track half a mile south of Dickens. The event was the second of four races, and three two-year old colts were racing.

## LIONS RECEIVE PRECISE REPORT OF CONVENTION

Two Matador Lions International convention delegates, Past President G. E. Hamilton and Tail Twister Henry Ford, "told all" in a detailed report of the New Orleans meeting at the regular luncheon of the club held in the Methodist church basement Tuesday.

In the presence of their wives who were luncheon visitors and careful not to make conflicting statements, the two traveling representatives of the Matador civic organization, vouched for the success of the annual International convention. Lion Hamilton experienced some difficulty in understanding New Orleans' interplay of southern hospitality after he overpowered Tail Twister Ford and secured the dinner check as the quartet left a famous French cafe. However, both delegates said they were making plans to attend the Toronto, Canada, convention next year, and urged all members to make similar plans.

Senator Formby Is Visitor  
Senator Marshall Formby of Dickens was a visitor at the luncheon but gave his attention to a platter of fried chicken and made no address.

Other visitors included Mrs. Henry Ford, Mrs. G. E. Hamilton, Ecco Walter, district attorney of Abilene, Sheriff Bill Dunwoody of Anson, Jones county, Orville Wells of Washington, D. C. and Harold Faulkner of the U. S. Air Corps.

## BAPTIZING SUNDAY NIGHT ENDS MEET

Baptismal rites at the close of the evening services Sunday marked the close of one of the most successful revival meetings from a spiritual standpoint, ever to be held by the Baptist church here.

Rev. W. M. Joslin, local pastor, who preached the concluding sermons of the meeting declared, "We are truly grateful for the fine results of the revival. Rev. Cartledge's messages were very inspiring, and our song services, led by Rev. Dee Cates were never better."

Rev. J. I. Cartledge, pastor of the First Baptist Church of Nacogdoches, who was conducting the revival, had been released at the close of services Friday evening at his request, that he might return home to conduct the Sunday services there. Rev. Cates preached at the evening services Saturday.

## Pioneers Make Plans For Annual 2-Day Reunion

Local Women Rush To Buy Hosiery As Production Ends

Matador merchants experienced a "run" in hosiery Saturday after news broadcasts were made to the effect that the production of silk for domestic use would end at once.

Reaction of silk-stocking wearers was the same thruout the nation, with Los Angeles department stores reporting hosiery sales jumping to 500% over normal conditions. Other great cities reported similar sales. In many sections sales were limited to two, three and five pairs as women of America realized that war had suddenly menaced the source of the decorative leg garments.

Trade relations between Japan and the United States have been completely severed, with the result that the Empire of the Rising Sun is facing a financial crisis. The great wealth produced by America's love for silk has ended.

## Stores Enjoy Rush

While practically all Matador business places report above normal sales in all lines Saturday, the item of silk hosiery received the greatest demands.

W. F. Jacobs of the Matador Variety said that his hosiery sales showed increase of 30% to 75%. Harry Willett declared that spirited buying of hosiery in his store Saturday and Monday increased sales approximately 100% above normal. T. B. Edmondson, manager of the Western Dry Goods Company estimated that his stocking sales were in the neighborhood of 150% to 200% above normal. Mr. Edmondson said that hosiery sales were much greater Monday than during the week end.

## INJURED COWBOY OUT OF HOSPITAL

Sherill (Red) Payne, range wagon boss for the Matador ranch, was released from a Lubbock hospital Tuesday after undergoing an operation on his knee cap Thursday morning.

His knee is in a plaster cast, but he is able to be on the streets with the aid of crutches. Other cotton producers of Motley County are reminded that August 15 is the deadline for signing up for the free classification and market news service

## More Prize Money For Rodeo; Parade Will Start Meet

Two full days of continuous program were arranged for the 18th annual meeting of the Motley-Dickens Counties Old Settlers Association at Pioneer Park, Roaring Springs on Thursday and Friday, August 28-29, when officials of the organization met at the pavilion Monday afternoon.

President C. C. Halle of Afton, acting as chairman, declared the association had \$80.27 in cash on hand and had no unpaid bills. The surplus was provided for the rodeo committee to offer extra prize money in the free-gate rodeo events, which will start promptly at 2:45 p. m. each day of the celebration.

The rodeo committee composed of John Russell, Mervin Green, J. N. Scribner and Jack Luckett, Jr., declared that no professionals will be allowed and all entries must have known residence in either Dickens or Motley counties.

## Resolution On Dances

Important business included a resolution introduced and adopted to prohibit further use of the pavilion for dances, except for the benefit of the pioneers. However, the association will allow use of the pavilion for dances upon cash payment of 25% of the gross proceeds. It was pointed out that many members had complained of too many dances being held at the pavilion with no profit to the organization which built the structure. Also wear on the floor and extra lights have made additional expense.

To further defray expense of the 1941 Golden Anniversary Reunion, a dance will be held at the pavilion on Tuesday evening, August 26, with all net proceeds (See REUNION Back Page)

## METHODISTS ANNOUNCE REVIVAL DATE

The Methodist revival will begin Sunday, August 17, to continue for two weeks, it has been announced by the pastor, Rev. W. B. Vaughn.

Both Rev. Smith and Mr. Watkins are well-known in this community, the former having preached here on several occasions. Mr. Watkins assisted here in a revival meeting about seven years ago.

## Choir To Rehearse

Announcement has also been made that a special choir rehearsal will be held next Wednesday evening at the church, to practice evangelistic singing for the meeting. All members of the choirs of other churches in town are extended a cordial invitation to join in this practice.

Governor Stevenson To Attend Perryton Celebration, Aug. 22

PERRYTON—The United States Army may be the featured attraction along with Governor Coke Stevenson for the twenty-second birthday celebration here August 21-22 it was learned today following a telephone conversation between Mayor W. H. Lance of Perryton and Congressman Eugene Worley of Washington, D. C.

evening, it has been announced. On August 22, actual birthdate of Perryton, the colorful parade starts at 10 o'clock in the morning and indications are this year's procession will be the longest and most colorful of all parades since that August 22, 1919 when the town was founded and named for Judge George M. Perry, who still resides in this city.

The finals of the rodeo will be staged this date along with many other attractions now being scheduled. Governor Stevenson will head the procession, Mayor Lance has announced and will be followed by the Will Rogers Range Riders of Amarillo, if they can be secured for this date. Next will come the Army units and then floats and bands galore, Lance said. More than 35 bands have been secured for the day.

Dances each evening will be held up town and in the recreational building at Lake Fryer, just south of Perryton.

PEACH CAMPAIGN CONTINUED FOR ADDITIONAL TIME IN THE SOUTH

Success Prompts Extra Effort To Save Large Crop

Results of the initial drive just concluded, of the fresh peach cooperative campaign were gratifying, according to Mr. L. J. Cappelman, Regional Director for the Southern States, Surplus Marketing Administration, U. S. Department of Agriculture, Dallas, Texas. Starting August 7 through 15 a further intensive drive will be launched. This drive will preface a sustained cooperative effort throughout the remainder of the fresh peach season.

"In this public spirited drive the peach producer, wholesaler and retailer, in cooperation with the Surplus Marketing Administration are all working hand in hand for the benefit of consumer and producer. This campaign is an example of the outstanding results that can be achieved when a cooperative effort is made".

Mr. Cappelman continued, "The peach producer was faced with several important problems at

harvest time. First this year's crop of southern peaches is the largest in the past 10 years. Marketing time for fresh peaches is unusually short, and only thru a cooperative effort on the part of all groups handling the fruit could this bountiful crop be marketed with a fair return to the producer.

Health Building Values

"A further important aim of this cooperative campaign is to educate the consuming public as to the health-building value of fresh peaches. Not only are peaches delicious, but they contain certain vitamins so necessary in our daily diet. The program is proving successful in this two-fold problem of helping farmers move their crop into consumption, and improving diets of American families.

"In order to further increase our domestic consumption of this abundant fresh peach crop, and assist needy families in securing a more nutritive diet, peaches have been included on the list of health protecting foods in the Federal Food Stamp Plan.

"The peach producing industry, in cooperation with local Food In-

dustry Committees, Chambers of Commerce, as well as wholesalers and retailers are stressing the value of peaches in everyone's diet. American homemakers in turn are doing their share by purchasing and serving fresh peaches daily. Our reports show, not only are they serving more fresh peaches, but, the alert homemaker is canning and preserving peaches in order to serve them to her family all winter long."

In conclusion, Mr. Cappelman urged, the same spirit of cooperation shown during the first phase of the fresh peach campaign be continued through the final drive August 7 thru 15, and as long as the fresh peach crop is available.

Mayor Lance asked the Congressman for aid in securing some Army unit for the celebration program and was told there might be a possibility of securing such units from Fort Sill, Oklahoma and the Remount Station near El Reno, Oklahoma. "There would be no possibility of obtaining Texas units", Congressman Worley said pointing out these units would be in maneuvers in Louisiana at that time. ## Pied 'Pizions' BY MRS. M.

Regardless of how much work you have done before, or how much you will doubtless do afterwards, the boss, with uncanny precision, elects the exact moment you have snatched for a few seconds respite from the daily grind, and invariably appears on the scene just as you open the newspaper at the comic page. Or maybe it will be during that little space of time in which you are busily engaged erasing the only error you have made in an entire transcription.

About the time we get completely relaxed, having handed over the reins to our very able assistant, right-hand-man and associate editor, she ups and goes traipsing over the country on a vacation, and it becomes our sad duty to once again keep our nose pressed to the ground for any scent of news, our ears glued to all keyholes, to detect packing activities of any would-be-departers-on-trips in time to get the information before they leave, and our eyes wide open for the sight of suspicious looking characters who might be visitors.

One of the most irritating little things that can happen is to be about to do something, or have the intention to perform a certain task, and then have it suggested to you on the eve of fulfillment. It sounds so second-hand to aver that the idea had already presented itself.

Vacation experiences are always interesting, but sometimes the best jokes remain untold because they are on ourselves.

We have their word for it, however, that a group of local visitors to Colorado Springs last month got so cold one evening that they had to start the car heater in order to thaw out on the return drive from Manitou, only a few miles away.

Then we have an account from one of the delegates to the Lions Convention to New Orleans of a little episode which happened somewhere around midnight as they ascended the elevator to their hotel room to retire for the night. They were hailed by a slightly inebriated young woman with the question, "You're from Texas, aren't you?" And upon their admission, she replied, "I knew it! Don't you ever have anything going on up there to spend the evenings?"

And a prominent local couple received the surprise of their life on a recent trip east when they attended the show, "Louisiana Purchase," after electing to see it for its possible historical and patriotic theme. "It was awful," they said.

We met our Nemesis last year on our vacation when we parked the car at Morro Bay, just out of San Luis Obispo, to take some pictures of Morro Rock, an imposing peak rising out of the Pacific ocean at that point. Imagine our chagrin when we were ready to depart, at discovering all car doors had been locked, and the key left dangling from the dashboard. By the time we were able to pry a minute crack wide enough to insert the stem from the wind-shield wiper in an effort to open a window, a heavy fog came rolling overhead to obstruct all vision of lovely scenery the remainder of the day.

## Tasty Peach Recipes

### PEACH PIE

Delicious peach pie is a traditional dessert feature that is always popular at this time of year. Peach pie looks and tastes good and it brings any meal to a satisfying climax.

From the Georgia-Carolinas peach belt comes this new recipe. Try it.

First remove skins from peaches. This is easily done after allowing the peaches to stand in boiling water just one minute. Cut in eighths and cook until soft with just enough water to prevent burning. Sweeten to taste. Cool and fill crust previously baked. Cover with whipped cream, sweetened and flavored.

Below is a receipt for 6 pie shells to be used as needed:

### Pie Mix

6 cups flour.  
2 cups lard.  
4 teaspoons salt.  
Sift flour, measure and add salt. Cut lard into flour and salt until the crumbs are the size of dried peas, cover and place in refrigerator until ready to use.

### Pastry Mix

1 1/2 cups pie mix.  
2 to 4 tablespoons ice water.  
Add water to pie mix, small amount at a time, mixing quickly and evenly through the flour and lard until the dough just holds a ball. Roll on slightly floured board and line pie pan

and filling as directed. Pastry may be used for the blier and pan pie. (serves 8)

### FLOATING PEACHES

Something new in peach sensation is proving very popular this season—floating peaches.

1 cup milk, 1 cup crushed juice, 1 teaspoon grated rind, 4 tablespoons sugar, 1/2 spoon salt, 3/4 tablespoons starch, 1 egg, 18 marshmallows, 1/4 teaspoon almond extract, peaches halved.

Cook for 25 minutes, add slowly to the egg and beaten. Georgianna Thistle were married Monday at the home of the bride's parents, Mr. and Mrs. Alex Thistle, the Rev. Jones officiating.

"The groom is a popular young bum who hasn't done a lick of work since he got expelled in his junior year at college. He manages to dress well and keeps a supply of spending money because his dad is a soft-hearted old fool who takes up his scalawag son's bad checks instead of letting him go to jail where he belongs.

"The bride is a skinny little idiot. She paints like a Sioux Indian, sucks cigarettes and drinks mean corn liquor.

"The house was newly plastered for the wedding and the exterior newly painted, thus appropriately carrying out the decorative scheme, for the groom was newly plastered and the bride freshly painted.

"The groom wore a rented dinner suit and his pants were held up by pale green suspenders. His number nine patent leather shoes matched his state of tightness, and harmonized nicely with the axel grease polish of his hair.

"This is probably the last issue of this paper, but my life ambition has been to write up one wedding and tell the truth. Now that it is done, death can have no sting."

Haven't made up your mind where you'll spend your vacation? You might include a stay in New Braunfels, the quaint town with its old rock buildings and tin roofs, picturesque hills (almost mountains) surrounding it. Ranches are numerous and you can glimpse the abundant deer. There is a modern hotel, the Faust, managed by R. J. Grimsley; many new homes; a museum; two newspapers, the 50-year old Herald and the Zeitung, edited for 42 years by G. F. Oheim; a charming drive along the Guadalupe River; the State's shortest—but biggest, in volume—the Comal, which rises and ends in the city limits, and there are many attractive camps.

Walter Duffey, Fort Worth oil man, went through the famous Hogtown boom. His room was on the second story of the town's leading hotel and it jutted out over the sidewalk. "It's a wonder that some wild Westerner out for a celebration didn't blaze through the floor with a six-shooter," Duffey said. "I used to be awakened by the shouting of

the service-car drivers at 6 a.m. Most of them yelled, "Take you to Mingo and bring you back" but one of them varied this with "Take you to Mingo or break your back"—no idle boast, considering the condition of the roads.

Duffey also tells of the oil man who couldn't read or write but who was very successful. Whenever this man received a telegram, he would say to a friend, "What do you think about that? Just look at that." And the friend knowing that the operator could not read, would read it out loud.

There may be a place that could beat one county for colorful politics but I'm going to have to be shown—by-gone campaigns because the county has tamed down now. But back in the days when the biggest oil boom in history had "fallen down and gone boom", folks had a "morning after" feeling.

For instance, a peace officer with a record handed a card to a voter who said, "I'll be glad to help you. It was two blocks minutes later that he figured out what the man meant.

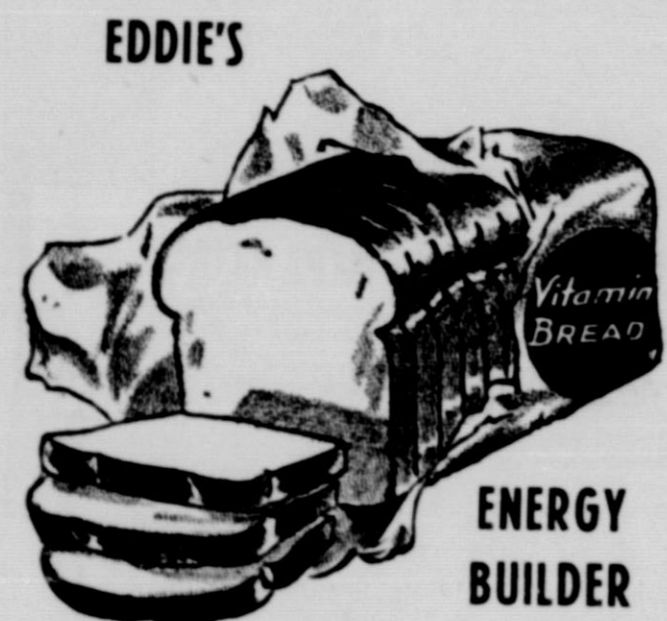

An unpopular officer shooting scrape but an indignant citizen a subscription to another fellow "for shooting"—and missing.

Yes, sir, they used to politics straight in the days in that county.

Members Receive Favors

As a departure from usual custom, each member received an east Texas pine burl and a pencil souvenir of New Orleans as plate favors. It was disclosed, however, that the favors were not provided by the thoughtfulness of the Lions delegates, but by their wives.

Interest in the club's attendance drive which will be climaxed by a chicken barbecue at the expense of the losing side, reached unusual intensity. Both sides claimed signal victories but no official attendance report was made.

Lion Rufus Emmons, ring-leader of the "Wild Cats" declared that his opposing leader, Lion Elmer Stearns, had gone to Washington in an effort to secure Congressional intervention in support of his unethical tactics.

In an exclusive interview, the untamed feline leader spoke in carefully selected phrases, declaring, "What other business would a banker have in Washington? The answer is obvious. None. But we are guarding all avenues of unethical practice. We have appealed to our personal Washington representatives who have already brought Stearns before the F. B. I. for investigation. I will not be surprised if he is detained until after the bewildered remnant of his followers have already been forced to pay for the barbecue." Asking for a cigarette and a match from the excited Tribune reporter the Wild Cat leader indicated that the interview had closed.

Popular Comedienne

DOLLIE YOUNG

Dollie Young, pictured above, is one of the clever and popular members of Toby's Comedians, a tent theatre, which is coming to Matador for a three night engagement starting Thursday night, August 14th, under the auspices of the Matador Fire Department. Toby's Comedians are not unknown in Matador, having appeared here in 1932, but have not been thru this section of the country since, and are not to be confused with shows of a similar title which may have appeared here since 1932. The company is headed by Billy "Toby" Young, comedian, who is surrounded with a young, capable and clever cast. The big tent is brand new, water-proofed and air conditioned and is said to be one of the finest of traveling tent theatres. No doubt, this popular amusement organization will be greeted by large audiences upon their three night engagement in Matador.

LOCAL RESIDENTS SPEND VACATIONS IN N. M. MOUNTAINS

Most popular of vacation spots in this section of the west seems to be Ruidoso, New Mexico, as local residents have fled the heat for higher ground.

Among those reported to be enjoying Ruidoso's mountain breezes are: Mr. and Mrs. L. R. Bishop, Mr. and Mrs. Frank Pohl, Mrs. Charlotte Hunsucker and daughters, Misses Kara and Marie Hunsucker, Mrs. A. L. Fryar, formerly of Matador, now of Plainview; Mr. and Mrs. M. S. Patton and son Keith, Mrs. W. W. Moore, Miss Ova Barton, and Henry Pipkin.

Mr. and Mrs. D. E. Pitts and sons, Norman Merle and Douglas Jr., however, choose even a higher and colder atmosphere as they vacation in their annual camping spot near Tres Ritos, New Mexico. They left Friday and will spend the month there at their favorite sport of fishing.

Also spending a fishing vacation in the Tres Ritos vicinity are Mr. and Mrs. Vernon Doss and children, Doris Ann and George, who left Monday. They were accompanied by Mrs. Doss' sister, Miss Lillian Mohan of De Leon, and by Mr. Doss' mother, Mrs. T. N. Doss and his brother, Emmett, of Brownwood, all of whom joined them here Sunday.

VISITORS HERE

Visitors here Sunday in the home of Mr. and Mrs. Joe Meador, were Mrs. Meador's brother, Bob Black, of Albany, County Treasurer of Shackelford county, who was accompanied by Mrs. Black and their grand-daughter, Miss Betty Sue Morris of Moran. Also here was Mrs. Lucille Cooper of Tullia, Mr. and Mrs. Meador's daughter, who spent the week end with them.

Letters From England

body in London carries on calmly the next day and just make a few remarks about the raid and the gunfire. You cannot imagine how terrifically loud the A. A. fire is.

When he Air Raid alarm or warnings goes nobody takes the slightest notice, especially in the day time. Gerry rarely gets as far as London in the daylight. In Tonbridge nobody ever dreams of sheltering because they have not dropped any bombs here, except once a long time ago and they did not do any damage worth mentioning. Sometimes some are dropped in outlying districts in the fields at night but I expect that is because Gerry is getting winded and wants to get rid of his load so he can run.

The younger children are not taught to put out fires at school, but they all know how. Some of us older ones have seen a demonstration and we all know how to work the stirrup-pumps and how to cover an incendiary bomb with a sand bag. Older children in London do as much as grown-ups, and there are boys of 14 who fight huge dangerous fires with firemen. Everybody who can do the job and is willing is a firewatcher and nearly everybody over 18 in England is a fire-watcher either full time or occasionally.

As I said before we have never had a raid on Tonbridge. Last August and September when the

Auction of the 11 Singer sewing machines and other equipment of the Motley county sewing room, netted an exact total of \$164.95, according to Sheriff H. H. Courtney, who conducted the sale Saturday afternoon, July 26. The sale was ordered after the project had been closed because of suspension of WPA funds.

Besides the 11 machines which sold from \$10 each to as much as \$20, a table, cabinet and water-cooler was auctioned. Some bidders purchased two of the machines.

sky was clear and cloudless we used to see battles or "dog-fights" as we call them, miles up in the sky. Tiny silvery planes diving and chasing and machine gunning one another. Once, now and again, a plane comes racing down in flames and perhaps a parachute will slowly drift down, looking like a tiny white speck. Once a barrage balloon from London broke loose and floated over Tonbridge. Spitfires went up to machine gun it and brought it down. Once we saw about 120 planes overhead and we thought at first that they were all Germans. You should have heard the barrage that went up. Another time I was out in the middle of a sports field with some friends and about three fights in different parts of the sky were going on at the same time with about 30 in each. We saw 5 planes come down and crash all around us each about one to five miles away.

London does look pretty bad but not so bad as some people say. I have seen only a small part of London as I rarely go there. Most people who work in London have steel helmets and everybody has a gas mask in Great Britain.

I was very much amused by your question "Do we have plenty to eat?" Of course we do. We get all we want for we grow all our vegetables and so do many other people. We are rationed for tea, sugar, milk, butter, margarine, cooking-fats, cheese, meat and eggs and jam, but we get enough of all these commodities. We never see bananas, and rarely see oranges. Tobacco is short but that is because everybody smokes 50%

more than they did before the war. Bombed areas are the places where food is lacking because it is destroyed by bombs. This does not mean that we do not need America's help in food for we really do, you know that Hitler is trying to starve us out.

In London, most people wait for the guns to get loud and bombs to drop and then they go to shelters. In our private shelter we take blankets down, a few valuables, gas masks, torches and some food. Some people have to stay out of shelters as in hospitals, where my father is, and vital places like fire stations, and telephone exchanges and trains and buses and trams and of course the A. A. men and Balloon Barrage men. On very bad nights the noise is terrific and one soon gets used to the screams of bombs and the drone of aeroplanes. Sometimes, if Gerry drops a lot of fire bombs, the sky becomes red from the reflection of fires and we can smell the smoke and burning oil. One night I counted 50 bombs dropping during about 2-3 hours and that was only within 2 miles of us. Then after what seems hours of noise it gradually dies away and we can see the first streaks of dawn. Of course I am not describing the very first raids when people were more cautious.

Not any of intimate friends or relations have been killed or injured but some people that I knew by sight and name, or only to say "hallo", to have been casualties in raids, either killed or injured.

No we do not advertise in the British Broadcasting Company programmes.

We talk a great deal about

America and many of us you will come in at the though you are doing much good by just sending material to us at present. We our appreciation of your Roosevelt, we're proud of and the way you're helping carry on."

We are so extremely busy we do not think very much you usually, but America gets a hearty cheer when mentioned in public to other people.
