## Income Tax Deputy To Be In Malador

Deputy Collector of Internal Revenue James F. Newth of Dallas will be at the First State Bank here one day only, February 27, from 8:30 a. m. to 5:00 p. m., according to an announcement made by the Dallas Internal Revenue office. Many thousands in the district will be required to file income tax returns, who have never been required to file before, because of the 1941 reduction of personal exemption. For this reason, Mr. Newth will visit Matador to assist local citizens with their income tax problems. Existing laws do not impose the duty of aiding in making returns but the Internal Revenue department feels obliged to assist whenever possible. The advice and assistance is extended purely as a courtesy and without cost. Only one visit can be made to Matador before the end of the current filing period on March 15, 1942.

## Eloquence Of Speech Inspires Youngsters

### "Diz" Keeps His Promise To Matador

Driving from Houston to keep his promise to attend the Matador Father-Son banquet Thursday night, "Dizzy" Jerome Dean, famous baseball star, above, left, departed for Hot Springs, Arkansas immediately after the meeting was over. In his brief address the diamond star said, "We have driven all day to attend this meeting... I like this country and the people here are the 'friendliest' people in the world, besides I wanted to eat some of Henry Pipkin's chuck-wagon cooking... believe me it was worth it." At right in the above picture is J. C. Edwards, Mayor of Lancaster, Texas, where "Dizzy" Dean's home is located. Herbert "Colonel" Garth of Matador, center.

## Ralph Brock Wins Place In Hearts Of Father-Sons

Nothing but the outstanding oratorical genius of Lubbock County Attorney Ralph Brock could have overcome the handicap of competing with a national celebrity for the dominant position on the fifth annual father-son banquet program held in the Baptist church basement Thursday evening. Jerome "Dizzy" Dean, hero to millions of baseball fans and boys over the nation, listened with the same attention as youngsters, fathers and adopted fathers while the gifted speaker climaxed what is acclaimed the most successful meeting ever sponsored by the Matador Lions Club. Following the splendid chuck-wagon feed directed by the master of ranch culinary art, Henry F. Pipkin, distinguished guests were introduced and each father or adopted father rose and introduced his guest for the evening. "Diz" Keeps His Promise Arriving as the program started, "Dizzy" Dean accompanied by J. C. Edwards, Mayor of Lancaster Texas, kept his promise to attend the banquet altho it required his driving all day from Houston. He departed for Little Rock immediately after the program was concluded, driving over 600 miles off his route to be at Matador Thursday night. Easily capturing the confidence of his audience with his ready smile and slow drawl, Mr. Dean sketched briefly his struggles in early life, his sudden rise to fame and concluded his remarks with baseball jokes. He was introduced by Lion Henry F. Pipkin. Scout Bobby Harp was Master of Ceremonies and Norman Merle Pitts made a brief address. Music by the "Sage Brush Trio" composed of H. H. Schweitzer, Vernon Doss and Marvin Patton, received many encores from the entire audience. Talk Based Upon Religion Introduced by his friend, Motley County Attorney Howard Traweek, Mr. Brock started his address with a series of jokes involving members of the audience. Changing the trend of his words abruptly he depicted graphic examples of religion's unfailing (See BANQUET Back Page)

G. Keahey, sang "Remember Pearl Harbor." lotment deduction plan. The company recently announced purchase of \$50,000 in U. S. defense bonds subscribed on a pro rata basis in the various communities it serves.

It also was announced that no payroll deductions would be made since it appeared unnecessary inasmuch as such a large percentage of employees had made their plans to buy bonds and stamps and that the organization would be far above the average in "real support" of the defense program in all the communities served.

The announcement was accompanied by a rush to selling agencies to "catch up" on bond purchases. One employee, it was learned, drew savings of \$375 from the bank, investing the entire amount in the bonds.

"Including the loyal support of the men and women of our organization, and the \$50,000 subscription by the company, we are indeed proud of the part taken by our West Texas Utilities in the defense program and challenge any similar institution, even a fraction of its size, to surpass our record", Mr. Brewer said.

Over 40 employees of the company, he added, now are serving in the armed forces with a dozen others expecting immediate call.

**FARMERS URGED TO CONSERVE BURLAP BAGS FOR FUTURE**

Conserving burlap sacks as a safeguard against a probable shortage, Mr. W. I. Rushing, Chairman, County U. S. D. A. War Board, urged Motley County farmers this week.

Shipping between the United States and India, from which burlap is imported almost exclusively, has been reduced because of war in the Far East, the chairman pointed out.

"At the same time buying for burlap has been reduced, our uses have increased," Mr. Rushing said. New uses include the packaging of foods for the army and navy, certain chemicals, and other articles, as well as items shipped abroad under the Lend-Lease act.

Approximately 80 per cent of total burap imports go into manufacture of bags and about three-fourths of all burlap bags are

J. A. BREWER

Nearly a thousand West Texas Utilities Company employees in 166 communities are getting organized to help lick the Japs and the Germz with dollars—as well as killowatts.

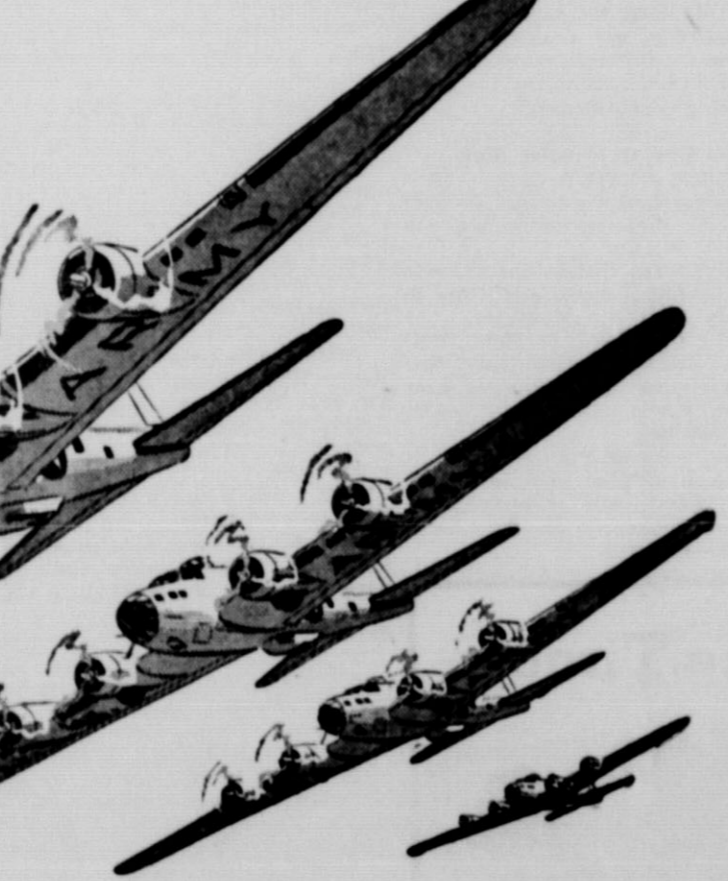

Results of a survey were announced today by District Manager J. A. Brewer, in which it was learned that 79 per cent of all WTUers already are buying defense bonds and stamps.

Hoping to enlist the other 21 per cent in a "Hundred Per Cent Volunteer Club," it was announced that "employees who desire to purchase bonds or stamps on a regular monthly savings basis may make deposits with local WTU cashiers" and that bonds then will be issued when sufficient deposits have accumulated.

Organizations are being formed in the nine districts with the chances described as "good" that 100 per cent of all regular employees will, sooner or later, voluntarily join in a systematic purchasing program. A preliminary survey indicated that only six or seven were so far undecided as to their plans, mostly men expecting immediate call to the armed forces or holding part-time jobs.

Mr. Brewer said that participation will be strictly on a voluntary basis and that the program will supplant a payroll al-

**Eclipse of the Rising Sun!**

● CHALLENGED in two hemispheres, America faces a tremendous test. But the fighters and bombers that will blot out the Rising Sun—the tanks and guns that will help smash the Swastika—are pouring off our production lines.

The biggest industrial job in history is being done because America has the electric power for the job!

The electric industry was ready when the crisis came. The business men who manage the nation's electric companies had built up power reserves in advance—and interconnected company systems so that power could be delivered almost anywhere overnight.

They were ready, too, to meet new demands with new construction. They added enough power in 1941 to light one-fourth of all the homes in the U. S. A.

We're glad that the electric industry has been able to help make Uncle Sam so powerful. We're determined to stick to the job until the blood-red sun has set and a new day follows darkness!

**Worry And Gloom Declared As A Form Of Sabotage**

AUSTIN, Texas—"Indulging in worry and spreading gloom is a form of sabotage," Dr. Geo. W. Cox, State Health Officer, said today in commenting on the necessity for cheerfulness and courage in face of our national crisis.

Dr. Cox asserted that failure to rise and meet our difficulties with determination and cheerfulness will undermine our national strength more seriously than can the enemy acting from without.

"It has been proved in industry that a gloomy, worried mental state is conducive to accidents, and the President has issued a proclamation declaring the reduction of accidental injuries as essential to national strength," Dr. Cox stated.

"Your State Health Department stresses a warning against worry that is carried to the extreme. If you notice a growing tendency to worry, try by the exercise of your own will to stop this futile, de-vitalizing habit," he urged.

Dr. Cox pointed out that these are troubled times, and it is natural that we should feel concern about national affairs. It is one thing, he pointed out, to feel this concern and do whatever we can that may be constructive in solving our difficulties, but it is worse than folly, he added, to abandon ourselves to the ravages of worry and fear.

Rapidly Changing Era Cited By Mrs. J. W. Walker In Banquet Address

Annual Affair Is Attended By More Than Two Hundred

Speaking before a group of about two hundred and fifteen mothers and daughters of this community, Mrs. J. W. Walker, state president of Texas Federation of Women's Clubs, centered her remarks around "The Future" as she brought the principal address at the fifth annual Mother-Daughter banquet here Friday evening in the Baptist Church.

Pointing out that we are living in a rapidly changing era, with social and economic revolutions more drastic even than those witnessed during the past generation, Mrs. Walker stressed the urgent need of preparation to meet these changes. "We can no longer measure tomorrow in terms of yesterday," Mrs. Walker declared, as she enumerated the ways in which the tomorrow's might be faced.

In directing her remarks to the girls in attendance, Mrs. Walker admonished self-discipline as the primal factor toward success, quoting John D. Rockefeller, Jr., who said, "Success comes to the man who does the common tasks of life uncommonly well." Continuing, Mrs. Walker advised her youthful listeners to be "trained first of all for your job, and then be willing and capable to assume responsibilities and leadership; to be spiritual, and to seek beauty, both in personality and soul, and to do everything with enthusiasm."

Speaks Of War Crisis Digressing from the Mother-Daughter theme, Mrs. Walker also brought a timely message to her adult audience, with information gleaned in Washington, where she recently attended a Board meeting of the General Federation.

She outlined the part that women will play in winning the war, and stressed the necessity of awakening to the realization that each woman has a personal contribution to make, through her services; that we should refrain from racial hatred and to keep such hatred out of our homes, substituting instead, the rightful attitude that the nation is fighting to preserve the great American principle of freedom; and that the country needs most of all, a spiritual re-awakening with a return to religion.

Introduced By Mrs. Willie Mrs. U. L. Willie, who has known Mrs. Walker for a number of years and has been associated with her in various phases of club work introduced her to the assemblage. Mrs. J. K. Crews of Plainview, formerly of Matador, who accompanied Mrs. Walker here for the occasion, was also introduced, and made a few remarks.

Singing of the "Star-Spangled Banner" followed by the invocation by Mrs. Fred Simpson. In the church auditorium, opened the meeting.

Mrs. J. R. Whitworth was toastmistress of the program which was given at the banquet tables in the basement.

Pupils of Miss Mable Jameson entertained with the song, "Dear Mom," which was followed by "Greetings of Welcome" by Mrs.

MELVA JO SPEER OF FLOMOT MARRIES GEORGE CONKLIN IN CANYON CEREMONY

Announcement is made of the marriage of Miss Melva Jo Speer, daughter of Mr. and Mrs. J. L. Speer of Flomot, to George Conklin of Hereford, in a ceremony Saturday evening, January 31st, at 6 o'clock, in the Presbyterian Church of Canyon, Texas. The Rev. Alfred M. Dorsett officiated in the single ring ceremony.

The vows were said before a background of palms and white candles in candelabra. For pre-nuptial music, Mrs. J. D. Barker played Schubert's "Serenade". The bride entered on the arm of her father as Mrs. Barker played the Wedding march from "Lohengrin". She wore a white satin dress with floor length veil and carried a bouquet of white carnations.

Maid-of-honor was Miss Elvia Speer of Canyon, cousin of the bride, who wore a floor length dress of pale blue-green and carried an arm bouquet of white carnations. Other attendants of the bride were her two sisters, Misses Alyce and Jimmie Lee Speer of Flomot. The former wore light blue and the latter light pink, and each carried an arm bouquet of pink carnations.

Merlyn Conklin of Hereford, brother of the bridegroom, served as best man. Ushers were James Speer and Don Conklin.

Attends West Texas State Following her graduation from Flomot High School, Mrs. Conklin attended West Texas State College, Canyon, majoring in art. She received her bachelor's degree between semesters this year. She was a member of the Art Club and Alpha Chi, national honor society.

Mr. Conklin, son of Mr. and Mrs. Lee Conklin of Hereford, was graduated from Hereford High School and Texas Technological College, Lubbock.

The couple is at home in Amarillo, where he is a bookkeeper at the helium plant.

Reception Is Held Following the ceremony, a reception was held in the home of Mr. and Mrs. J. B. Speer, uncle and aunt of the bride, who, together with the newly married couple, formed a reception line for the guests.

Miss Alyce Speer presided at the crystal punch service, and Miss Elvia Speer served the three-tiered wedding cake, after the

Houston Schweitzer, and "Salute to Mothers," by her daughter, Frances. Two songs, "White Cliffs of Dover" and "Rose O' Day," were sung by a girls sextette, composed of Marjorie Ann Thacker, Jolene Bloodworth, Frances Schweitzer, Earlene Laughlin and Betty Price. In the first group were Ann Harp, Rosemary Bloodworth, Eldora Jmeson, Billie Frank Skaggs, and Sarah Frances Springer.

Following Mrs. Walker's address, the program closed with the song, "God Bless America," by the assemblage.

The Matador Child Welfare Association, sponsoring organization of the banquets each year, realizes but little profit from the affairs, having as principal motive, the entertainment of the daughters of the community.

bride had cut the first slice. Guests served themselves to sandwiches and salad from the table, laid with a hand-crocheted cloth. Guests at the wedding and reception were: Mr. and Mrs. G. N. Hudson, D. H. Alexander, Lee R. Conklin, Merlyn and Caren Conklin, Arch Conklin and family and Mrs. G. R. Conklin, all of Hereford; Mr. and Mrs. J. L. ENGAGEMENT IS ANNOUNCED AT DINNER SUNDAY

The engagement of Miss Mavine Russell, daughter of Mr. and Mrs. L. L. Russell, to Ernest E. Cullison of Fort Bliss, Texas, son of Mr. and Mrs. J. C. Cullison of Houston, was announced Sunday at a dinner given by Mrs. Russell and her daughter, Mrs. J. C. Adams.

Blue and white, favorite colors of the bride-to-be, were used in the table decorations, and small announcements, tied with blue ribbons, bore the names of the couple, the date and place of the wedding. The marriage will take place June 13, in El Paso, Texas.

Center of attraction was a white cake, decorated with a miniature bride and groom. This was cut in the afternoon and served with ice cream.

Guests for the occasion were: Misses Ida Belle Armstrong, Elsie Cook, Wanda Nelson, Bennie Marshall, Dorothy Wason, Fannie Fite and the Honoree.

World Prayer Day Has Interesting History Since 1887

The World Day of Prayer, which will be observed with a program here tomorrow afternoon, had its origin in 1887, when Presbyterian women in United States gathered at the suggestion of Mrs. Darwin R. James, president of the Women's Board of Home Missions of the Presbyterian Church, to pray for Home Missions.

Interest in the movement increased, and through the effort of Mrs. Henry W. Peabody and Mrs. Helen Barrett Montgomery, the Foreign Mission Forces chose a day for united prayer in the early nineties, and in 1920, both in Canada and the United States church women of all denominations united in prayer, the first Friday in Lent being selected as the Day of Prayer for Missions, both home and foreign.

In numberless places around the world, from missionaries returning from the homeland, the thought of a day of prayer spread until at the request of many far-away friends, a World Day of Prayer was first observed in 1927. In 1936 Christians of more than fifty countries kept the day together. In America, one million calls are printed and three-quarter of a million programs.

Pied Pinions BY MRS. M.

About the most tiresome, but perhaps necessary, attribute of human nature, is repetition; unless it be a recitation of self-praise by one laden with vanity.

Just as we had about decided that the attitude of apathy with regards to the war situation was a local situation only, we learn that it is pretty general, and community leaders are wondering just what it will take to arouse the public to the real dangers at hand.

We believe speakers such as Mrs. J. W. Walker of Plainview, state president of Texas Federation of Women's Clubs, will contribute a great deal to the general awakening. Without a suggestion of the alarmist in her remarks, Mrs. Walker, who spoke at the Mother-Daughter banquet Friday evening, brought vital information which inspired many of her listeners with the desire for immediate action.

And what do you think of the women she mentioned, who had rushed out and purchased fifty dollars worth of cleansing tissue, in anticipation of the imminent shortage . . . well that's what we thought too.

We wonder (cautiously) if what some men need instead of brakes, isn't brakes.

The sudden drop in temperature to what felt like a thousand below, Tuesday night after many days of lovely though premature spring, is a fair example of the capricious manner in which Texas shifts the scenery.

John Gould in the Wichita Falls Times tells of a soldier at Shepard Field, unaccustomed to the whimsical nature of Texas weather, wrote home to his Pennsylvania folks about the mildness of the winter here, with only one honest-to-goodness cold spell so far, and March not very far away.

His father, who was at a training camp in Texas in the world war, answered, telling him to stick around, that he probably would get all the Texas winter he could take, in due time. "Which is probably true enough," Mr. Gould observed, "The more mild weather there is in December, January and February, the more vigorously March, and maybe April, try to even up the count. Sooner or later, winter gets in its ticks, in these parts. There isn't anything consistent about it except its inconsistency."

Although this correspondent has never suffered the pleasure of bicycle riding, a true picture of her efforts, should she ever attempt it, is contained in the following gem clipped from Otto Bordenkircher's Vignette's (Star-Telegram), he having lifted it from the Slaton Slatonite:

 Chairman Of Local

 Mr. Chairman:  
 process of perfecting  
 al Civilian Defense or-  
 g, you are undoubtedly  
 ing or preparing to dis-  
 questionnaires. Beyond a  
 someone on your Commit-  
 suggest that registration  
 Defense Committee of  
 vely owned firearms in  
 munity would be a good  
 less you think twice about  
 er, you may request such  
 on as a part of your  
 naire. For the best inter-  
 our community, do not do  
 a registration will con-  
 nothing to defense and  
 ve as a very dangerous  
 ng.  
 yourself what you would  
 you had indexed these  
 In an emergency, would  
 for the loan of these guns  
 ution among the volun-  
 your various defense  
 If that is the thought that  
 in the back of your mind,  
 self what value these bor-  
 ns would have in the  
 untrained civilian defense  
 Would you want to have  
 which you had never seen,  
 which you did not even  
 ow to load, suddenly thrust  
 ur hands with instructions  
 at and face a mob of des-  
 otors or a hard-bitten  
 olumn raiding party? A  
 untrained hands is more  
 nace to a man who holds  
 to his law-abiding com-  
 than to the law-break-  
 ursive agent.  
 Perhaps the person who

suggested the registration of fire-  
 arms had in mind listing the citi-  
 zens who own guns, so that in case  
 of an emergency they could be  
 utilized as armed defenders for  
 the community. That idea is prac-  
 tical—provided the men who do  
 know how to shoot are properly  
 organized. In other words, what  
 you need to know is not where  
 the guns are, but where the men  
 are who are capable of properly  
 using their guns. These are the  
 men, obviously, who should be  
 first approached with the request  
 that they volunteer their services  
 as members of the civilian defense  
 auxiliary police unit.

The question, then, which you  
 should ask on your questionnaire,  
 is: "Are you thoroughly familiar  
 with the safe and accurate hand-  
 ling of firearms and, if so, will you  
 volunteer as a member of your  
 local auxiliary police group?"  
 The registration of privately  
 owned firearms can prove to be  
 a dangerous boomerang. It must  
 be borne in mind that, war or  
 no war, we still have criminals in  
 our communities. Small groups  
 of three to five criminals have on  
 numerous occasions swooped down  
 an state and municipal police sta-  
 tions and have taken command of  
 the station long enough to ap-  
 propriate to themselves arms and  
 ammunition belonging to the  
 police. Had there been available in  
 those police stations registra-  
 tion lists of the privately owned  
 firearms in the community, the  
 criminals would have had a card  
 index showing just what home to  
 "visit" in order to obtain any par-  
 ticular type of gun which they  
 wanted for their "business."  
 Normally law-abiding England  
 has had unpleasant experiences  
 with her criminal element dur-  
 ing emergency incidents. It is only  
 common sense to anticipate that  
 our criminals will also seize upon  
 emergency incidents to ply their  
 trade in American communities.  
 We certainly do not want to help  
 them, and firearms registration  
 lists could help them!

Another fact to be borne in  
 mind is that the accepted Fifth  
 Column technique calls for raids  
 on the homes of citizens who  
 possess firearms. Such raids may  
 be in the form of burglaries—  
 to more adequately arm the Fifth  
 Column group while at the same  
 time reducing the ability of the  
 citizens of the community to de-  
 fend themselves. Such raids may  
 also take the form of a swift, un-  
 expected attack for the purpose  
 of destroying manufacturing,  
 communication or public utilities  
 installations. In this case fast-  
 moving two-man teams will seek  
 to confiscate privately owned  
 firearms in the area under attack,  
 or to "mobilize" the men who  
 own those guns. Centralized regis-  
 tration lists of privately owned  
 firearms have been of great as-  
 sistance in Europe to the Fifth  
 Column groups. Had such regis-  
 tration lists been available to the  
 Fifth Column in Hawaii the story  
 of December seventh might have  
 been even more sanguinary!  
 It is unpleasant to contemplate,  
 but a fact nevertheless, that in  
 setting up your Civilian Defense  
 organization you are dependent  
 on volunteer workers. Such a  
 situation provides a happy hunt-  
 ing ground for the trained Fifth  
 Column operator. And if you were  
 to undertake the registration of  
 privately owned firearms, it  
 would be impossible for you to  
 assure yourself that the lists were  
 not in the hands of subversive  
 agents almost as soon as they were  
 in the hands of your Committee.  
 The fact that the registration  
 might be handled by the local  
 police is not an adequate answer  
 to these objections. Police stations  
 have in the past been taken over

 Motley County farmers this week.  
 "Fighting in the Pacific has cut  
 off shipping, so far the first time  
 in history we must produce fats  
 and oils or do without," the chair-  
 man said, but pointed out several  
 precautionary measures Motley  
 County farmers should follow  
 when growing peanuts.  
 Adapted conservation practices  
 include leaving drainageways now  
 protected with native vegetation,  
 and seeding sudan or sorghum or  
 sodding bermuda in unprotected  
 drainageways or washes.  
 In addition to the above con-  
 servation practices, one of the fol-  
 lowing alternative combination of  
 practices should be carried out to  
 prevent further water erosion  
 damages: farm on the contour,  
 grow adapted winter cover crops  
 of small grain after peanuts, use  
 three year rotation system con-  
 sisting of two years peanuts and  
 one year fibrous rooted crop  
 such as cane, grain sorghum or  
 sudan for soil structure improve-  
 ment with no stalk harvest.  
 The second alternative combina-  
 tion of practices include: delay  
 land preparation until late spring  
 and prepare land so as to leave  
 vegetative residue on surface  
 farm on the contour, use wide  
 rows of 42 inches or more, and  
 leave grass middle undisturbed,  
 and use three year rotation sys-  
 tem.  
 "Another easy way to work the  
 rotation system in both alterna-  
 tive practices is to plant four rows  
 of fibrous rooted crops and eight

**PARLOR DATES  
 ARE BACK IN  
 STYLE AGAIN**

Junior doesn't get the family  
 car any more—except on special  
 occasions—because the tires  
 and the car are going to have to  
 last for no one knows how long.  
 That fact is going to change the  
 dating habits of Young Miss and  
 Mr. America.  
 The "parlor" is going to come  
 back into its own as the place  
 where young folks get acquainted  
 and do their romancing.  
 Miss and Mr. America—used to  
 spending their evenings on the  
 highways and parked on side roads  
 —may not like the situation so  
 well, feeling it a bit crowded and  
 confining. But mama and Papa  
 are going to love it.  
 No more waiting up for daugh-  
 ter or sleeping with one ear awake  
 for her key in the latch. No more  
 arguing every night she has a  
 date over what time she is to get  
 home.  
 Unless she goes to a corner  
 movie or to a local "jelly joint"  
 for a coke and dancing, she'll  
 probably be entertaining her  
 young man right in the living  
 room—the way Grandma used to  
 do.  
 Since it is such a break for them  
 parents—especially the parents of  
 daughters—ought to cooperate and  
 help the young folks make the  
 change from automobile to parlor.  
 To begin with, it's going to be  
 more important than ever that a  
 girl have a place to entertain her  
 young man—or young men. It  
 didn't matter much if a girl lived  
 in a crowded apartment with no  
 privacy at all so long as she put  
 her coat on as soon as her date  
 was inside the front door and  
 spent the evening away from  
 home.  
 But now a girl is going to need  
 the living room—cleared of the  
 family—when she has a date. And  
 she is going to care more than ever  
 how the living room looks.  
 Also, Mama and Papa, if possi-  
 ble, ought to see that she has  
 some way to entertain. If she has  
 a victrola and some dance records  
 and the family isn't too concerned

with the condition of the floors in  
 the living room she can invite the  
 gang in for an evening's fun once  
 in a while.

And if Mama will see that there  
 is always something to eat in the  
 ice box, daughter's popularity will  
 practically be assured.

Any kind of game equipment  
 that can be provided—like a ping  
 pong table—will help out, too, and  
 should be added to the household.  
 All a girl used to need for dat-  
 ing was some pretty clothes. Now  
 she is going to need a place in  
 which to entertain—and it's im-  
 portant that she have it.

Old Man Texas has sharpened his pencil. There's a job to be done.  
 Uncle Sam has a war to win and it will be paid for by you and me.  
 Our big job is to meet rapidly increasing federal taxes and buy defense bonds. And added to these are the costs of our local and State governments, including bond issues. The money to pay for them must all come out of the same pocket.  
 To make the bill fit our pocket, we're going to have to cut out some of the things we can do without. Among these are new bond issues, new State and local taxes and nonessential spending in every branch of government.  
 Old Man Texas is looking to taxing officials all over the State to be on the alert to effect economies.  
 Every local tax dollar saved for Texas taxpayers is another dollar available for victory.

## ANNUAL FOOTBALL-PEP SQUAD DANCE PROVES TO BE VERY SUCCESSFUL

The dance of Friday 6, was a successful and gala affair. The gym was tastefully decorated with red crepe paper, ribbons, and red cardboard hearts, entwined with beautiful English ivy vines. The punch bowl, which adorned the north corner of the gym, was a three-hundred pound block of ice with red and blue reflecting lights behind it. The base of the bowl was surrounded by English ivy.

The coronation of the football queen and football sweetheart was a breath-takingly beautiful affair. Edna Mae Martin, Freshman representative, and escort, Vance Campbell, led the procession, followed by Alene Bloodworth. Sophomore representative, and escort, Norman Pitts. Wanda Nelson, Senior representative, came next with escort, Jr. Pitts. The football sweetheart, Janelle Jackson, came next escorted by Billy Tunnell. Ending the procession was the Queen, Onieta Whitaker, escorted by Tom Ed Jameson. They walked to the soft melody of "Intermezzo," played on the piano by Miss Whitten.

The Queen was seated on a gold colored throne, and the crown of gold was placed on her head by head by Superintendent B. F. Tunnell. The Queen was dressed in a pink taffeta evening dress. The Football Sweetheart was crowned with a football helmet by Coach Don T. Martin. The Sweetheart wore an evening dress of American Beauty taffeta. A matching velvet cape was adorned

with a white carnation. After the coronation of the Queen and Sweetheart, the floor was cleared and the dance began with the music of "Elmer's Tune."

## High School Press Conference Has Successful Meet

Have you ever attended a High School Press Association? I had this experience a few weeks ago, and I was quite thrilled. Now, you may be wondering what goes on, etc., and what it was that thrilled me so.

First when we arrived, we registered in the Education Building and met many new faces. Then we were escorted to the auditorium where we waited for the first session to begin. Everyone was talking and meeting new people and then all of a sudden a curtain was raised, and a Mr. Kinkle began to talk. After the introduction of the president, vice-president, and sec-treasurer of the press meeting, Mr. Joseph B. Cowan, the principal speaker, of Texas Tech was introduced. I'm sorry but I have forgotten the title of his speech. When he finished his address the sponsors of each school had the privilege of asking questions in regard to the publication of its own paper. After this meeting was adjourned and we were then escorted to the auditorium of the Administration Building.

It didn't take long for everyone to get placed and seated, until Dr. J. A. Hill began introducing the distinguished guests. Our principal speaker of the meeting, Frank King, was introduced. His speech was very interesting, since he has been well acquainted with the newspaper work for quite some time. The meeting adjourned, the delegates were divided into two groups for dinner. For awhile I thought we weren't going to get any dinner but someone felt sorry for us, and then we ate.

Next on our program was a visit to the museum. My, my, I could retrace my tracks for two whole days and I wouldn't cover that small track of land. It has everything from old marriage licenses to those bicycles built for two, and I must add those prehistoric animals. After this tour, our day of the press meeting was over. We regret we were not able to attend the rest of the meeting, but you know we had to do some shopping and this takes time. We might add that our trip to Amarillo was rather interesting instead of those dry speeches which some people think are so boring. Now I hope I have made myself clear so you will have an idea of what goes on in a press meeting.

## DOZEN SENIORS GAIN HONORS

Out of the Senior Class, twelve members have honor grades for the first semester. Those who made the distinguished list for the semester are: Ida Belle Armstrong, Bennie Wayne Marshall, Frank Price, Dorothy Wason, and Johnnie Belle Willis. Those who made the honor roll for the semester are: Elsie Cook, Janelle Jackson, Wanda Nelson, Mavinee Russell, Laverne Smallwood, and Helen Standfield.

Chap about to wed was nervous: To the young best man he cried: "Tell me it is kismetary For the groom to cuss the bride?"

Now I lay me down to sleep. The lecture dry, the subject deep. If he should quit, before I wake Give me a poke for goodness sake.

## Matador Seniors Buy More Defense Bonds

The Matador Seniors are being patriotic. All money made by the Seniors for the school gift will be spent for defense bonds. The Seniors have also paid for half of their annual in defense bonds. The Matador Senior Class hopes to set an example for other schools.

## WHO'S WHO

In choosing the Who's Who for this week we have chosen Bennie Wayne Marshall. She is a very good student. She has had the highest grade of the senior class for three six weeks and has been honored by getting to eat with the Lions Club. Bennie has blonde hair and blue eyes and fair complexion. Her hobby is collecting match folders and also studying. Bennie's favorite food is lettuce, and her ambition is to be a Home Economics teacher. She is business manager of the 1942 annual. It seems that her likes are greatly turned to Guy Kimbell, Jr., and she dislikes dancing.

For the boys of the Who's Who we have chosen Frank Price. He is a very intelligent boy. Frank has brown hair and gray eyes. Frank dislikes flirty women (Frank, remember it is a sin to lie.) His hobby is playing a guitar. Frank showed much action in his backfield position on our football team. His favorite food is hamburgers and pumpkin pies. It seems as if Frank has decided to be a soldier because of the great needs of Uncle Sam.

**Who's Who in Matador High**  
**ALGIE DURBIN**—He's just a slap-happy fast-running football lad, who finds his match in Coach Don T. Martin.

**JOYCE DANIELS**—She's blonde has beautiful teeth, and likes to sit by Algie during classes.

**BILLY TUNNELL**—He's well built, has wavy dark hair, likes girls in general, but favorites seem to be Wanda, Dorothy, Glenda, and Janelle.

I look on that man as happy, who, when there is question of success, looks into his work for a reply.—Emerson.

## JUNIORS BEGIN PLAY PRACTICES

(Delayed from last Week)  
Since many of the people are so worried about the war, we Juniors think that we have a plan to make you forget all of your troubles. We have a play well under way and hope to present it sometime next month. It is a three-act comedy entitled "In the Light of the Moon". The characters are: Hope Hathaway, Betty Greene; Barney Hathaway, Norman Pitts; Della, June Barton; Robert Barrett, Mack Jacobbs; Bess Barrett, Ruth Evelyn Keith; Cynthia Sears, Onieta Whitaker; Miss Becker, Rachel Carpenter; Rodney Rogers, Tom Ed Jameson; Jake, Sonny Russell; Claudette Claverton, Joyce Daniel; Dr. Burns Bill Rushing; and the gipsy, Fausteena Fulfer. The play will contain romance, adventure, comedy, and we will assure you there will be plenty of excitement. Neither a definite price nor date has been set.

## Kampus Klatter

The dance last Friday night was the promoter of several new romances. Outstanding among these were the cases of Juanita and Vance and Janelle and Algie. Both girls got themselves football heroes, but they didn't know the boys could sing so well. Oh, yes, I almost forgot Virginia and Raldo! (Ral said he was going to take singing lessons from Vance and Algie.)

Hard luck, Reatha. Hope Joe won the ball game that caused him to miss the dance—Onieta, escorted by the gashing Jameson boy, enjoyed the evening very much. Better watch her Ruth E. Many admiring and envious glances were cast toward Alene and her good looking escort—Norman and Morris have gone "Roaring Springs" on us. They claimed the attention of the Roaring Spring's beauties, Dale Prather and Marion Alice Mitchell.

I guess everyone noticed Mann and Margie, especially when they jittersbugged—J. C. and Paula didn't gape much. (They were too busy gazing at each other.)

When that guy from Turkey walked in, handkerchiefs started dropping, but he was too interested in Dorothy to even notice—No more green eyes, now Ruby, Billy's yours, and we all know it—Had there been a prize given for the cutest couple there, Wanda and Sonny would surely have walked away with it—Edna Mae sat on the sidelines much of the time, but—well, did you see who she was talking to?—Mary Ruth enjoyed the dance; but the trip home was also lots of fun.

Well, here's hoping the old romances continue and the new ones last.

(Delayed from last Week)  
What's happened to that Garth-Patton affair? Not already? We were counting on another week anyway.

Why, oh why, can't Jr. and Spot transact Paducah business somewhere beside English class?

Boy, it really causes a stir when that ex-senior walks in the study hall.

There oughta be a law agin' it. What? Why the way Billy uses the same line on all the girls? Say, we wonder if Buster still goes to—? We heard she was pretty cute.

Gosh, wish I had a handsome Eddy to write letters to me like a certain Senior does. He's in the army, too. Talking about Army, have you seen Mavinee's heart-throb I think his name is Earnest.

Don't try to keep secrets, Fausteena. We want to know—in detail—just what causes all the disturbance in study hall.

Is this a new romance budding in M. H. S.? Looks O. K. to me. Kathryn and Bert enjoyed each other's company last week, especially at the dance.

Turkey! Turkey! Turkey! One would think it was Thanksgiving instead of Valentine the way these girls go "round talking "Turkey" Really, I think you owe it all to Mr. Ezzell.

Boys In Service

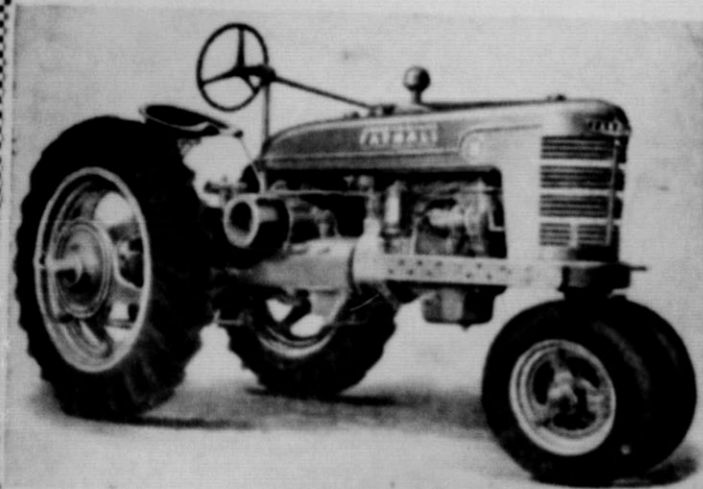

Btry A 105th B. N. C. (AA) Feb. 15, 1942.

Dear Ben, I have been assigned to this battalion. It is a separate Bn. most usually spoken of as the General Army. It is a reinforcement Bn. Ben, as I have read the ways other boys from camps have tried to express their appreciation for receiving the Tribune, none of them can find the word that really does express our appreciation. I read every line in the paper and wish there were more; and I will say "thanks a million for the paper." My new address is...

power. He cited the grave need today, more than ever before in the world's history, for faith, truth and righteousness. In careful but compelling words he outlined a course for the future men within his hearing, as well as the parents and adopted parents. Youngsters and their elders remained absorbed in the masterly discourse. Almost without exception every member of his audience approximating 300, expressed admiration both for the appropriate selection of subject and outstanding delivery of the address.

Further success of the meeting was disclosed Monday in a report from the banquet treasurer and financial manager Elmer Stearns. Total receipts amounted to \$176.55 less expenditures of \$150.19 including \$16 for federal tax on tickets, leaving a net profit of \$26.36. Mr. Stearns said that it was probable that the tax would not be required, thus bringing the profits to a possible \$42.36. The net proceeds will be placed to the account of the Matador Troop 60 of American Boy Scouts.

trampling the flag under their feet," he declared. "We in this country and elsewhere throughout the nation are witnessing young men being conscripted into service to defend our country. They are being torn away from homes, families and their own soil to place their lives at the enemy's mercy. They have no say in the money they are paid. They do not complain. They are loyal Americans and America is in its greatest peril."

"Yet a striking worker, who is responsible for making a gun or other needed implement of war, walks away from \$8, \$10 or \$15 per day because it is not enough. He lives in his home, remains with his family and is well paid for the time he works, yet there is no legislation to compel him to make the gun—something is drastically wrong with this democracy which loyal Americans are proud to defend. We are glad to sacrifice our accustomed luxuries, to work in any way possible, to fight for any wage but we cannot work or fight

or produce foods without tools ... Hitler or the leaders of the Japanese empire are better satisfied when this government tolerates a walk-out in defense plants than if their fliers dropped bombs on Washington."

DIZ SAYS HE'S NOT THINKING OF COMEBACK

HOT SPRINGS, Ark., Dizzy Dean said Monday he had "given up any comeback notions."

The ex-National League pitcher said he did not come to Hot Springs to have his pitching arm worked on.

"I'm just here to visit some of my old 'ramping grounds again," Dean said. "Nobody is going to work on my arm. I've given up any comeback notions."

And then he added: "If I did happen to pitch again it would be for the Chicago Cubs. I have a standing offer to come back there any time."

Dean said he intended to go back to his sports announcing job in St. Louis in April.

The St. Louis Cardinals, he said, are "a cinch" for the next National League pennant "if the draft doesn't tear 'em up too much." Of the Brooklyn Dodgers, he opined, "I don't even think they have a good ball club." He gives the Giants little chance in 1942, and doesn't profess to know about Cincinnati.

The Pittsburgh Pirates, Dean said, are the "real dark horses."

SEVERE BLIZZARD HITS THIS AREA

One of the most severe blizzards of the winter struck this area suddenly Tuesday about sundown. Following a sandstorm of moderate velocity, the cold wave dropped thermometers approximately 20 degrees within an hour. At an early hour yesterday morning the mercury stood at 10 degrees above zero.

The blizzard approached with a scattering of snow which soon melted on the warm earth.

W. A. Rattan Pays For Boys' Papers

Tribune subscriber W. A. Rattan of Flomot backs his sentiments with more than words. Last week he approached the publisher with a \$5 greenback, saying, "You are sending the Tribune to all boys in service and I know it is costing you money. I know these boys appreciate the home paper above everything else and I want to help you with the expense."

The Tribune appreciates Mr. Rattan's attitude and the five dollars. We were one of the first weekly newspapers in the nation to offer to send the paper to boys in any branch of the armed service without charge. We had no personal gain in mind except the appreciation of the boys, which has exceeded all expectations. We merely desired to contribute our part to the best of our means and ability. If the Tribune lightens one hour for the boys each week, we are grateful for the opportunity of service. We thank you, Mr. Rattan.
