Baptist Meeting Sets New Record

Climaxing one of the most successful annual meetings ever held by the Floyd County Baptist Association, the afternoon program Wednesday brought the assembly to a close, after out-of-town delegates numbering 215 had registered Tuesday morning.

Maladors Lose In Game With Olton

Outclassed by the Olton high school grid team, the Matador Matadors lost their second 1941 contest at Olton Friday night with a score of 51-18.

Fighting one of the strongest Class A teams in District 2, the Matadors held the last quarter to an even score on the water-soaked field, while a small crowd braved the rain and mud to witness the game. Local school officials said that no excuse is made for the Matadors, nor is any needed. Four of the top players remained on the bench thru much of the game because of injuries, while the less experienced 11 battled a recognized superior team composed of either lettermen or 1940 reserves, that included the outstanding 185-pound Hedges twins.

Expensive Coyote Caught By Trapper

Walter Bain of Northfield, declares Federal trapper H. W. Fite is thoroughly skilled in his work and doing a very efficient job of removing expensive coyotes. Proof is contained in a statement made to the Tribune by Mr. Bain, late yesterday.

Minstrel To Be Tomorrow Night

The Negro Minstrel which was scheduled to be given last Friday night will be presented tomorrow night instead. The postponement was made because of the illness last week of the director, Mrs. G. E. Hamilton.

MEAT CASE INSTALLED

A modern electric 6-foot Viking meat case was installed by the Turner Grocery here Wednesday. John Turner, manager, declared he would stock a full line of both fresh and cured meats as soon as his first order could be received from the packing house. He said the stock would probably arrive Friday. Mr. Turner will specialize in baby-beef so long as the quality can be secured.

Defense Speaker

Senator Tom Connally of Texas, above, will deliver the principal address for National Defense Day at the State Fair of Texas on Sunday, October 12. Senator Connally will come from Washington for the event, which is to be the greatest patriotic demonstration ever held in the Southwest. Ceremonies will begin at 3 p. m. in the huge Cotton Bowl and more than 50,000 persons are expected to hear the address.

\$16,000 More Parity For Motley Farmers

An additional \$16,000 in parity checks arrived here this week to be distributed to Motley county farmers, according to a statement made by M. J. Stacy, AAA assistant, late yesterday.

Amarillo Station Plans New Program

Panhandle newspapers and the people of the various towns will be featured in a 15-minute radio program over KGNC, Amarillo, commencing Sunday morning, September 28, at 7:45 o'clock. The program, known as The Exchange Editor, will be heard every Sunday morning. Lewis Nordyke, a staff writer for the Amarillo Globe-News, will conduct the program. He will obtain much of his material from the region's newspapers. The station said the program was offered as a sort of regional announcement service, that the various community projects would be publicized. An effort will be made to cover the Panhandle on each program.

Death Flirts With Kansas Car Driver

Death made overtures toward Charles E. Christy of Wichita, Kansas, at the Ballard Creek bridge on Highway 18, Sunday night. In a terrific impact, his Ford V8 coup was reduced to scrap metal when it struck the bridge but Mr. Christy escaped without injury and returned to Pampa where he is engaged by an oil company.

Improved Conditions Are Reflected By Land Bank

Conditions in Texas are improving. While west Texas crop prospects are above average, some sections of the state are reported spotted by the Federal Land Bank of Houston, at a meeting of 17 National Farm Loan Association secretary-treasurers, in Lubbock, Monday.

WALTER CARPENTER GETS RATTLED; SUFFERS BURN

Walter Carpenter, prominent farmer of this section, has a plan for exterminating rattlesnakes he has proven successful. However, it almost operated like the certain cure for tonsillitis, achieved by decapitation. Discovering the den of rattlers in a brush pile on his farm northeast of Matador, Mr. Carpenter poured gasoline over the brush, set it afire and retreated with a can still containing some fluid, to what he believed a safe distance. Flame followed spilled gasoline to the can which exploded with the result of painful burns on the hand and arm. Medical treatment kept the injured hand in bandages for a few days but he declared the burns to be healing rapidly. Mr. Carpenter said that he destroyed the snakes, including one or more adult reptiles and several young ones.

Public Welfare Department Is Established Here

New Loans Up 40% Over 1940 Period

The Federal Land Bank has improved collections this year. It has been able to reduce its inventory of real estate during the past 12 months, due to an increased demand for farms.

One Fourth Paid In Full

It was pointed out at the conference that the Federal Land Bank of Houston has extended a total of \$411,000,000 in long term farm mortgage credit thru land bank and land bank commissioner loans in the 24 years it has been in operation. More than one fourth of the borrowers have repaid their obligations in full, proving the success of the land bank system goal of helping farmers and ranchers pay out of debt.

INSULATING COMPANY WILL EXHIBIT GIANT LOG AT ANNUAL AMARILLO FAIR

HUGE REDWOOD 1,500 YEARS OLD

NOTE—The following announcement appeared in the Monday Amarillo News-Globe, with regard to the Cotten Insulating Company, which has serviced a number of homes and business buildings in this section with Palco insulation.

In the booth of the Cotten Insulating Company visitors at the Tri-State Fair this year will see a Redwood log one foot long and five feet in diameter weighing approximately 600 pounds. Visitors will also see a huge piece of Redwood bark that is 1,500 years old.

Both the log and the piece of bark will have been shipped to the Tri-State Fair by the Pacific Lumber Company.

Why has the Pacific Lumber Company taken the trouble to ship these huge samples to Amarillo and the Tri-State Fair? The answer is simple. The Pacific Lumber Company and the distributor of their product Palco Wool are interested in the homeowners of the Plains region knowing something about why the Redwood is the oldest living thing in the world.

Has it ever occurred to you to wonder why the Redwood trees have managed to survive forest fires for centuries while other forests have been burned to the roots many times during their lifetime?

The reason is that these huge trees are protected by a fireproof bark that is impervious to insects, wood rodents and to moisture decay. In other words, Redwood bark is the natural insulator.

Pacific Lumber Company and its Plains distributor, the Cotten Insulating Company, figure that if they can demonstrate to the average home owner that here is a

SPEED-UP OF AAA ALLOTMENTS FOR 1942 IS ASSURED

Speeding up AAA work in the county to meet the demands of the defense campaign for greater food production, the AAA office promises that all farmers in the county will receive their 1942 allotments by November 1.

During the month of November, the farm plan, incorporating a survey of food production in 1941 and pledges on food production in 1942, will be presented for the consideration of every farmer in the county in a farm-to-farm canvass. W. I. Rushing, chairman of the county USDA Defense Board and County AAA committee, said,

Definite plans for the food production sign-up have not been made, Mr. Rushing announced, but, according to Secretary of Agriculture Claude R. Wickard's recent announcement of food production goals, the campaign will be completed by December, and every farmer in the nation will be asked to do his part in meeting the food needs of this nation and the nations fighting aggression.

Allotment notices for Cotton, wheat, peanuts, rice) will be in the hands of producers before November 1, so that they can make definite plans as to how best they can do their part in the food drive. No allotments will be issued this year on vegetables or general crops.

not only some of the infections and influenza that impair health or destroy life in middle-aged and older groups but against a number of the communicable childhood diseases, in which latter class diphtheria is an example," states Dr. Geo. W. Cox, State Health Officer.

"Toxoid immunization is available in Texas practically to all children, either thru the family physician or at clinics arranged by physicians for those who are unable to pay the usual fee for this service.

"While the number of Texas children who have the benefit of this protection is large, evidently there are many who, because of parental misconception or unconcern, have not been made invulnerable to an attack of diphtheria thru this simple and practical procedure.

"Perhaps the decided drop shown in the diphtheria illness and death rates during the last thirty-five years has developed an unwarranted sense of security on the part of too trusting parents. Nevertheless, whatever the cause, the fact remains that diphtheria manages to continue a steady massacre of young lives, with ample weapons to prevent it; and these to be had only for the asking.

"Consequently, not only a large number of parents, but every parent, should be acutely aware of diphtheria's potential killing power and take the necessary steps to eliminate it.

"Almost all diphtheria deaths that will occur in Texas during 1941 will have been preventable. With intelligent parental cooperation, most of these deaths even yet can be avoided. Science, thru toxoid, eminently is fitted to afford this protection. But it is largely the parents' responsibility to see that the child obtains it."

The earth's crust was formed about 1500 million years ago and the interior much earlier, according to scientists.

Charles A. Duryea invented and operated the first successful automobile driven by a gasoline engine in America.

Too many drunken drivers confuse license and liberty. A careful motorist doesn't have to worry about his driving. It's the reckless, indifferent driver that brings on the strain. A standard driver's license law will be an added protection to the driver who is interested in safety for self-protection.

It's the "dangerous few" drivers that need to be curbed for the safety of the rest of us. A standard driver's license law that can be enforced would leave more room on Texas highways for the safe motorists.

No one wants a destructive, death-dealing driver on the highways. The habitually reckless ones would be removed under the provisions of a standard driver's license law if Texas had such a law.

One out of every four fatal accidents on our streets and highways are attributed to drunk drivers or pedestrians.

Watch where and how you walk! Two out of every five traffic deaths are pedestrians.

The invitation of the open road often proves to be an invitation to greater chances for death and injury. Last year the accident rate in cities and towns decreased, but accidents in rural areas and on the open road jumped at an astounding rate.

Money Savers

Seeking to save department store losses running into thousands of dollars annually, a Memphis woman called on King Cotton for aid. Result is a simple cotton try-on jacket which the customer slips into before trying on dresses. The jacket absorbs perspiration and prevents stains on dresses. Low cost of the try-on enables stores to provide a freshly laundered jacket for each customer.

Pied 'Pisions' BY MRS. M.

Patrons of the Magnolia Cafe are going to miss the unobtrusive presence of Miss Madge Nichols, who has patiently and skillfully served the public for the past year and half. In a quiet unassuming manner, she has succeeded in debunking the general supposition that those of that profession need be a "wise-cracker" in order to be a success.

A good sport, she received the friendly banter tossed in her direction, with a smile, but rarely if ever, retorted in a smart vein.

Her friends all believe in her ability to succeed, and are glad with her, in her new position.

Do you know your neighbor? In looking about recently, I discovered that local citizenry have been doing quite a bit of moving around, and that I didn't know who lived where.

Mayor and Mrs. George Edwards are now residing in the Rosa Cammack home in south Matador, and Mr. and Mrs. Ward Rattan, who did live there, have moved into the Eddie Russell property recently vacated by the W. R. Moffett family, who returned to Sylvester to make their home.

Mr. and Mrs. Edwards rented their home in north Matador, to Dr. J. G. Ketchersid and his family, and Mr. and Mrs. Maurice Campbell, who have been living in the Edwards' apartment are now occupying the Whitey Bishop home.

The Wiley McGowan's are now living in the house formerly occupied by Mr. and Mrs. Fred Clowers who recently purchased the former A. L. Fryar home in south Matador.

J. A. Mullins of Lubbock is the author of a new song, titled, "Let's Get Behind Our President," with music by C. Kyle and W. H. Galloway.

Mr. Mullins for the past several years, has been writing poetry as a hobby, and is now branching out into the song-writing field. This piece, as the title signifies, carries out the patriotic theme.

Friends and acquaintances are always pointing out the resemblance which Mr. Mullins bears to the late Will Rogers, and the similarity in speech and unstudied mannerisms.

Comes now that hectic period of the year when organdies seem slightly unseasonal and the weather is still too hot to take to corduroys, velveteens and other fall materials; and the business women are ever confronted with the problem, what to wear. We look with envy on the home manager, who is comfortable as she goes about her daily tasks, in crisp cotton house dresses or slacks, according to choice.

The solution of course is simplified in some instances if the size and contents of one's wardrobe are taken into consideration. Anyway, I was measured today by a green measuring worm, for a new suit, and now all I have to do is wait for it's delivery. The source is still a deep, dark mystery.

"Contentment" is the title of the following by Arthur Gulterman, in the current issue of Saturday Evening Post:

"When spring arrives and lilacs blow I'm not compelled to shovel snow. In summer no one bothers me To feed a fire, nor skate, nor ski. In autumn no no longer needs To waste the morning pulling weeds. And winter brings no dewy dawn When I must rise to mow the lawn.

So I am glad the seasons thru For what I do not have to do.

Drug Store Liquor Sales Are Halted

AUSTIN—The flood of liquor through drug stores in dry Texas areas has been reduced to the barest trickle by September as a result of the liquor control board's enforcement of house bill 373, the "drug store liquor" law.
Records of the board show: 449,288 liquor prescriptions filled in August, 1940, as compared with 3,592 in August this year, a reduction of 99 per cent.
43,147 gallons of liquor sold on prescription in August, 1940, as compared with 445 in August this year, also a reduction of 99 per cent.

THE RECORD... Facts That Concern You

No. 31 of a Series

SOME PEOPLE NEVER LEARN... but most of them do!

There are always a few "smart alecks" who want to stand up and rock the boat. But most people try to keep out of trouble.

The same sort of thing happens in the retailing of beer. The great majority of beer retail establishments are clean, law-abiding and wholesome. But occasionally you may find a "smart aleck" retailer who violates the law or permits anti-social conditions.

We of the brewing industry want these anti-social retailers wiped out! Because they imperil your right to drink good beer...and our right to make it.

We want to protect the benefits that beer has brought to Texas—employment for 31,165 persons since legalization, an annual payroll of \$22,076,182 and taxes of \$2,273,968.64 paid to the state last year.

This state, too, has an important stake in Beer's purchases from over 100 industries supplying the brewing industry with materials, equipment and services.

You can help us in our public-spirited program by (1) patronizing only reputable and legal beer establishments and (2) by reporting any irregularities you may see to the proper authorities.

Student's Opinion

We've decided to ask a few questions and find out all about the students of M. H. S. The question for this week is: "What do you think of the teachers of M. H. S.?" We received some swell answers. Below are a few of them. Catherine Daffern: "I think they are all very nice, especially Mr. Ezzell."

Junior Pitts: "I can talk more freely when I graduate."
 Billy Jo: "At least they give us a little freedom."

Tom Ed: "They were just fine, but they are showing changing."
 Johnnie Bell: "I think we have a pretty good faculty, but they are rather strict."

Morris S.: "They would be O. K. if they would let you pick apples to get out of class."

Estelle Morriss: "I think they are rather amusing, but I like them very much."

Bobby Harp: "Aw, they are all right, I guess."

Norman Merle: "I don't like them as well as I did last year, but they are O. K."

Name—Dorothy Wason.
 Age—16.
 Color of hair—Dark brown.
 Color of eyes—Hazel.
 Favorite song—"Because of You."
 Favorite food—Tuna fish sandwiches.
 Ambition—Undecided.
 Pet hate—Bragging.
 Weakness—Good-looking boys.

THE SENIORS PICK APPLES

You should have seen the smile on all the seniors' faces Monday when they found they could skip last period and go pick apples; but the football boys were greatly disappointed when they found they couldn't go on account of their work-out.

The seniors are selling delicious, mellow cooking apples for a dollar per bushel. If you wish to buy some, see the senior class sponsor Mr. Ezzell, or the students in the senior class. Those who have put in an order for apples and don't have them yet, don't feel slighted for we will get them to you as soon as possible.

The seniors all seemed surprised to see so many nice apples and of all the grass burs! If you have never been in a bad grass bur patch just go down to Aunt Patt's place. It seemed as though we spent more time picking grass burs than apples.

As the old saying goes, "When one gets thirsty, the whole gang is thirsty." There was no drinking water close by so we went down to the river. You don't know what you've missed if you've never drunk out of a river. The water really tastes good if you're very thirsty.

Well, we went back to the orchard and grass bur patch to pick some more apples. After gathering about forty bushels, we decided that was enough for the first time. We suppose Mr. Ezzell knew we would be tired of apples, for he took nine watermelons. Boy! were they good! especially

After drinking the water out of the river. It was nice of him to think that much of us. Wasn't it?

Since it was getting late, we decided we had better leave for home. It wouldn't have been nearly so much fun if it hadn't been for all the rough crooked roads. What rough places we missed going down, we hit coming back.

There was only one exception to our good time. We just ate too many apples. I believe it affected Pat Sheridan more than anyone.

Before we left, Mr. Stephens asked Pat what was wrong with him? Pat replied, "Well, the first bushel tasted pretty good." But we all lived over it, and I don't think anyone regrets the apple picking

Kampus Klatter

Yes, it's me again and I've got loads of gossip I'm just dying to tell; so lend an ear, students, if you want to hear the latest gossip on these old and new romances.

Maybe we should all dye our hair red. Ruby seems to have captured Billy Wason's heart. Norman Mezie just says he prefers Bernice Ruth just as she is. They reported a swell time at a party Monday night.

What's this we hear about Lavene getting letters from Abilene? Doesn't Walter live there? Poor Bennie?

Raldo and an ex-senior seemed to be doing pretty well at the picture show last Wednesday night. Johnnie Belle and Phil still seem to be going O. K. despite the fact that Guy seems to envy Phil's luck.

Do these Freshmen get around? Harry Louis and Rachel—don't they make the cutest couple?

Well, folks, June has just realized that there is more to Austin than the state capital. Gladys and Alton seem to enjoy the Geometry class immensely. Could it be Geometry they enjoy or just the fact that they sit by each other.

Why don't some of you freshmen girls take pity on Gene so he won't have to spend 3c writing letters to Roaring Springs? Who's the lucky girl, Gene?

Now, just what does Mary Ruth see in Dougherty? A blonde? Maybe.

Oneita is roaming around moaning "Woe is me," these days since James is leaving the 22nd. While the cat is away the mice

will play. Or should we say while Marie is away, Billy and Janelle will play?

Bennie, you had better watch Ross and Ruth Evelyn. She all ways manages to get the seat next to him in the class rooms.

Betty Sue and Dorothy Jean moved to the back of the study hall. Just what could be back there that attracts their attention?

When that look comes in Estelle's eyes who is she thinking of? We wonder.

Joyce, who was that handsome boy you were seen with the other night? Let's don't try to keep any secrets now.

I understand Frank Price is learning how to dance. Keep up the good work, Frank. You'll make some girl a swell partner at the foot-ball pep squad banquet.

Can you imagine—Dorothy Nelson not wanting to go to Roaring Springs.

Billy Jean when she isn't giggling.

Billy Wason asking Katherine for a date.

Mary standing a certain Sophomore boy up.

Glenda seems to be sorta jealous because a certain Freshman boy prefers someone from Roaring Springs. Isn't it awful, tho!

What's Roaring Springs got that Matador hasn't got? We sometimes wonder.

That's all for this week, folks. So long!

Mr. Ezzell: "What did Paul Revere say at the end of his famous ride?"

Avis: "Whoa!"

Mr. Ezzell: "What was the Age of Pericles?"

Algie: "I'm not sure, but I think he was about forty."

Have You Noticed The Charm Bracelets

From Rotan, Lawton, Lubbock, Paducah, Carlsbad, Ft. Worth, Big Spring, Quanah, Tulsa, Vernon, and all parts North, South East and West come the little silver hearts for the charm bracelets of the M. H. S. students. In any classroom one may hear the melodious jingle as the girls write or move their hands about. During examination week there is such a clatter and jingle that the teachers are often forced to complain, as the noise disturbs both the teacher and the students. However, we think they're cute; and we hope the teachers don't object too much.

Grade School News

Clara Belle Jameson of the third grade is ill and Melvin Martin is back after having his tonsils removed.

Eldora Jameson and Geraldine Waybourn of the fifth grade were appointed to gather news about their room work and activities. The pupils seemed to be rather thrilled over a health chart that is in progress.

The sixth, seventh, and eighth grades are studying art this week. Their drawings are to be of birds and animals in their natural colors in real life. These drawings are to be fitted into oblong circles. On certain days of the week the classes of the sixth and seventh grades will knit beanie caps for the Red Cross. The class wishes to welcome another new pupil, Bobby Frank Berry,

formerly of California.

ORGANIZED CLASSES
 The seventh grade sponsored quite a thrill from electing officers, who are the following: President, Rosemary Edwards; Vice-President, James Price; Secretary and Reporter, Charles Ketchersid; Treasurer, Ruth Mrs. Jones stated that classes will soon organize English Club.

The seventh grade is also proud of their new comer, Mary Kaine Martin.

The eighth grade have new class officers: President, Gene Russell; Vice-President, Mary Ann Thacker; Secretary, Duane Henderson. Mesdames Fish, and Harris have been as room mothers.

Even in Fort Worth where something of a model city ordinance has been in effect since 1937, the high-rate lenders are exacting a toll from thousands of persons, declares J. L. Pritchett, Better Business Bureau manager.

Surprising, too, are many of the borrowers who are in the toils of loan-sharks, for their number includes firemen, policemen, and school teachers. Many are wives who have borrowed without the knowledge of their husbands and are forced to stint on the household budget for food and clothes for their families in order to pay 100 per cent interest or more.

The ordinance requires that the loan companies take out a license, give a bond and keep records which can be inspected by the city. Some features were held unconstitutional, however, and this leads many who have studied the problem to believe that only thru a Constitutional amendment and thru State regulation can the situation be controlled.

There are some 35 concerns lending money at usurious rates in Fort Worth. Most are chain-owned with the management conducted by remote control from Memphis, Tenn., New Orleans, Atlanta or some other out-of-State city and the local manager is able to shift responsibility and, in the rare instances of legal steps, relief is difficult to obtain.

Some of the companies will pay \$1 to persons turning in a name of a new customer. To entice a prospect, they will make a loan absolutely without interest if repaid in 30 days. There's the catch, of course, because in most instances, the borrower cannot pay off the loan that quickly. And as many of the loan sharks will not accept partial payments, the borrower may remain in their clutches for years.

So many folks have asked for more information about ice hockey (which will be played for the first time in Texas this winter in Fort Worth) that here are a few facts about the sport: It is played of course on ice and the players wear skates; they skim over the ice at a speed of 40 miles an hour; there are no time-outs for substitutions, players leaving and entering the

Some fellows can get away with anything. There's one in our neighborhood that does.

Morals don't mean a thing to him. He's unmarried, and lives openly with a woman he's crazy about; and doesn't care what the neighbors say or think. He has no regard for truth or law.

The duties of the so-called good citizen are just so much bunk as far as he's concerned. He doesn't vote at either the primaries or the general election. He never thinks of paying a bill.

He won't work a lick; he won't go to church; he can't play cards, or dance, or fool around with musical instruments or the radio. So far as known, he has no intellectual or cultural interests at all.

He neglects his appearance terribly. He's so idolent he'd let the house burn down before he'd turn in an alarm. The telephone can ring itself to pieces and he would not bother to answer it. Even on such a controversial subject as the liquor question, nobody

knows exactly where he stands, because one minute he's dry, and the next minute he's wet.

But we say this for him, in spite of all his faults he comes of a darn good family.

He's our neighbor's new baby.

Fighting for a New Europe

By sea, by air and by land, the Allies—Australians, Belgians, the British Commonwealth, Czechoslovaks, Free French, Greeks, Luxemburgers, Netherlanders, Norwegians, Poles and Yugoslavs—fight side by side in their struggle for freedom and against forces that now have many of the nations of the world under their domination. Above, a Pom Pom crew of the Polish destroyer Piorun mans a gun against raiding dive bombers. The Piorun, first to contact it, was cited for its action against the Bismarck.

far eclipse any prior event here. Unusually fine agricultural and livestock exhibits are anticipated due to very favorable conditions, and this is expected to be proportionately reflected in all other departments.

Increase In Premiums Heavy increases in cash premiums in the Dairy Cattle division have been announced, particularly in Jerseys and Holsteins. Premiums in other departments remain substantially the same, for a total cash distribution to exhibitors of approximately \$6,000.

Cash awards of about \$3,000 are being posted for contestants in the big six-night rodeo program, perhaps the most ambitious program of this kind ever attempted in West Texas. About 200 animals are under contract—many of the roughest and toughest known to rodeo rings. Some of the nation's best rodeo artists will compete with these animals in riding, roping, and bulldogging. A fine and highly entertaining program of artistry will be given each afternoon before the grandstand, without cost to spectators.

On the midway will be the Beckman & Gerety Shows, one of the nation's largest and cleanest carnivals, with a variety of attractions that will appeal to old and young.

LIONS URGED TO ENTER POLITICS

(Fl. Worth Star-Telegram)

A radical change in the policy of Lionism—a change that would advocate the participation of the organization in national politics—was urged Tuesday by Morris Rector, speaker at a luncheon at Hotel Texas which served as the silver anniversary celebration for the local Lions Club.

The talk came after pioneers in the organization were accorded special recognition and the 25-year history of the club depicted in song.

"Lions Clubs, as well as all other such civic organizations, are going to have to break their dignified silence or face the prospects of a minority dictatorship in this country," Rector said. "I am not afraid of a one-man dictatorship resulting from the present crisis, but I am afraid that a dictatorship of a minority is in the offing unless the middle class of

the Nation, like ourselves, get into politics.

Predicts War Victory "I believe that we will win this war—and we are already in it—but if in winning we lose our form of Government, then the victory will prove a fearful defeat," he continued. "We must co-ordinate our votes and demand that our Government work for all of the people. We must get more votes than some irresponsible minority."

"I am not speaking of petty politics. I am speaking of national politics wherein we elect the men who form the laws and policies of our country. At this time it behooves every club and

every organization to cast aside political isolation.

"This idea may sound like a radical change but we must remember that we are living in a time when many drastic changes are taking place."
