What Does It Mean to You—
The Constitution of the United States?

"We, the people of the United States..."
One hundred fifty-six years ago, these simple words began America's warranty of freedom.
Today we are deep in war—so that this warranty may endure. Should we win—and win we must—whom will it profit?
Are you a West Texas farmer, and do you love your land? Are you a worker, and do you cherish your hard-bought home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.
Do you worship God in a church, or in a synagogue, or in the secret places of your heart? It will profit you that no heathen hand can desecrate your altars.
Do you impart the truth to the printed page—or do you seek it there? It will profit you that the presses will not be shattered in the night.
Do you talk with your neighbors on

the street corner—or meet on the steps of the City Hall? It will profit you that no bludgeon can drive you into secret meetings.
Our Constitution assures us these things. And these we fight for.
In many ways we fight. Some in small, silent ways—when sons have gone. Some in large, heroic ways—in the roaring of wings, the firing of guns, the sailing of ships. Farmers fight in their fields; ministers from the pulpit's height. Others are making the weapons of war... and some are supplying the power with which to run the machines.
We are proud to be among the men and women of industry, fighting, too.
And we join with the freedom-loving people of West Texas in asking that Washington's bureaucrats forego their political activities for the duration and concentrate on the fight... and that they cease their endeavors to permanently change our Constitution—a threat to the freedom for which we are fighting.

Much Resentment Followed Veto Of Anti-Strike Bill

By Hon. Eugene Worley

There was deep-seated resentment in both House and Senate when the President vetoed the anti-strike bill. There are many members of this body who served in the last war, others who have sons and relatives in this war and several members who have seen active duty in the present conflict. All of them know how deeply the

Roy Burleson INSURANCE BANK BUILDING Matador, Texas

boys on the battle front resent strikes which will curtail the supply of weapons they must have to protect their own lives and to vanquish the enemy. These members profoundly believe that the anti-strike bill will meet the labor crisis.

In brief, the bill provides a prohibition against any strikes in any government held plant. Anyone instigating or aiding such a strike can be fined \$5,000 or receive a one-year jail sentence. A 30-day notice of a strike in a private war plant and a secret strike ballot of all employees is made mandatory. If the workers then strike the government takes over the plant but is directed to return it to private operation as soon as the trouble is over.

Congress as a whole, and the nation as well, appreciate the excellent work which the very great majority of labor, organized and unorganized, is doing in the war. Provisions of the bill were not aimed at these loyal and conscientious workers but at the few who were causing all of the trouble.

It is interesting to note that as weapons become deadlier armies fight farther apart. Major General James Magee, surgeon general, states that in the Civil War soldiers generally fought 100 yards apart, now they are fighting 15 miles apart—hand to hand combat of course, is another matter, says General Magee.

The new pay-as-you-go tax plan goes into effect July 1. I am sending an official analysis to your

newspaper editor which should be of help in answering many questions about the provisions of the bill.

Campaign Against Holiday Accidents Launched in Texas

Put victory first on the Fourth! Texas Safety Association makes that appeal to patriotic Texans in launching a statewide campaign against fourth of July accidents that waste manpower, material and time vital to victory.

Thirty-eight statewide organizations are joining with the Association in the greatest mass attack on holiday accidents ever made in this state.

Public officials, safety leaders and citizens throughout the state are being asked to enlist in this holiday campaign in a united effort to prevent accidents which last year took a toll of 87 lives in July alone.

The Association made these specific holiday safety suggestions:

1. Stay close to home. Don't drive unless you absolutely have to.

2. Don't take any trips unless you have to, even on a public conveyance. Crowds on trains and buses increase travel hazards.

"This year," said R. B. Rooper, president of the Association, "we are not only celebrating our independence, but are fighting to preserve it. Let us not jeopardize our independence by causing accidents which impede our fight to maintain it."

Miss Mildred Evans of Amarillo is visiting her aunt and uncle, Mr. and Mrs. Hubert West. Mrs. West's mother, Mrs. Evans of Childress, is also visiting in their home.
