Water is being hauled from Matador to Cee Vee and some was hauled to Turkey last week when the Turkey water system became impaired.

Richard F. Stovall

To The Citizens of Motley County:

The vote that I received in Motley county is one of the most gratifying experiences of my life and I find myself almost without sufficient words to express my appreciation, however I am convinced that a great part of the responsibility of expression lies upon Cottle county itself, since undoubtedly, a great part of that overwhelming vote was cast for, and in accordance with the good-neighbor policy that has long existed between our two counties.

I earnestly solicit the continued support of the people of Motley county and assure you that your comments and suggestions are very necessary to my successful administration of the duties of the office of representative.

I fully realize and accept my obligation to the people of the 121st District, comprising Motley, Holl, Childress and Cottle counties, and it is my sincere intention and determination to be a true representative of the people in the house of representatives at
