MC MATADORS are all fired up and ready for the season to begin. They are pictured here in downtown Matador, near the Courthouse, doing their calisthenics, part of their 2-a-day workouts. The Matador and Coaches ran to town from the Football Field, and drew a crowd. This was a treat for those that work downtown. After this workout, they were treated to watermelon by the Coaches wives. The Matadors will have their first scrimmage, against Clarendon, here, Friday, August 21, at 6:00 p.m. *************************

FAT-FREE PRODUCTS... Cakes, cookies, frozen desserts, salad dressing, sour cream, and mayonnaise are some of the foods that are now avail-able in fat-free or reduced fat versions. You may enjoy trading traditionally high-fat items for their non-fat or low-fat counterparts, but it is important to keep in mind that the abundance of reduced-fat products in supemarkets is not the key to a balanced diet. These new products can help lower fat intake, which makes them extremely valuable; but they are not the answer for making the diet more health-fet.

nothing of worth to offer. Why? Because it is temporal. It is only temporary.

The apostle John closes this thought in chapter two by saying that these un-

controlled lusts or "disproportionate yearnings" are not of the Father. They

have their origin in this world and they will pass away with this world. John

has presented very clearly for us the three avenues by which all temptations come. Notice the account in Genesis, the book of beginnings: "And when the

woman saw that the tree was good for food (lust of the flesh), and that it was

pleasant to the eyes (<u>lust of the eye</u>), and a tree to be desired to make one wise (<u>pride of life</u>), she took the fruit thereof and did eat." (Gen. 3"6). Now compare

Luke 4:3-13 and you will see the same three temptations. Our Lord Jesus over

came these by the words, "It is written." The use of God's Word today will

assure our triumph also over temptation.
