> Thanks a lot for the paper. Pvt. Odell (Fuzzie) Meyer.

> > June 24, 1944

Well, I finally have an address again, so I guess it's about time I get it changed. I haven't received but one Tribune since I was home, and believe me I miss it. .

I arrived here last Tuesday night from Lincoln. Mrs. Skaggs arrived Thursday night. We will be here about two and a half months, which will complete my training on this side.

All of my crew is here except the Navigator. We will pick him up later on in our training here. They all seem like a nice bunch of boys, however only three of us are from Texas. I guess we can all get along though. Everyone here says a crew wouldn't be complete without a Texan on it. I don't think it would either! The Copilot is from Goldsburg, N. C. I believe that is where Raymond Rattan is stationed. The pilot and bombardier are both from Houston, Texas. I am the tail gunner

I don't have any more news today, but sure would like to have some news from good old Matador. Not any of you have any idea Hoping to be home again soon,

> Sincerely yours, Pfc. and Mrs. McElton Skaggs 420 Columbus Street Rapid City, South Dakota.

try to corrode an engine's inside finish, but OIL-PLATING furnishes special protection. A synthetic in Conoco Nth oil, I've learned, behaves almost like magnetism. This makes the working parts attract OIL-PLATING, and hold on to it. It's fastened as closely as chrome plating to keep metal under cover from acids. That would certainly be a check on corrosion, from the minute you switch to an OIL-PLATED engine. So just get Conoco Nth motor oil.

Swing low Sweet Kilowatt!

The cost of living has gone up like this -

But the price of electricity has come down like t

Nobody needs to tell you that the cost of living has been soaring toward high C.

But maybe you do need a reminder that the cost of electricity has been sliding down.

If yours is an average household, you're getting about twice as much electricity for your money today as you did 15 years ago. And 1944 government figures show that the average price has continued to ease off a little -even since war began. That fact ought to be music to your ears!

Getting prices down and keeping them down is one of the electric industry's greatest achievements.

It took a lot of planning, perspiration and practical business management to do this job in wartime. All our people helped.
