## Northfield Pioneer Is Called By Death

RESIDENT of Northfield community for over 29 years, Mrs. J. A. (Aunt Katie) Tipton, 62, died at her home there about 9 a. m. Sunday morning. Mrs. Tipton had been in failing health for about four years. She moved with her husband to the community in 1915 and had made her home there continuously thereafter. Following the simple rites, interment was made in the small community cemetery, overlooking the red cliffs of meandering Pease river, with its splendid vista and purple haze which she had witnessed for close to a third of a century.

Her husband, J. A. Tipton has been post master at Northfield in the neighborhood of 20 years. The community of two stores, church and school building, is located in the northeast corner of Motley county and is little changed from the days of freight wagons and mail hacks, when it was an important way station between Childress and Floydada.

**Born in Illinois**  
Katie Crowell was born at Murphysboro, Illinois, December 12, 1881, and died April 30, 1944 at 9 o'clock, at the age of 62 years 4 months and 28 days.

She was married to James A. Tipton, October 20, 1901, at Gainesville, Arkansas, where they made their home until coming to Texas in April, 1915. To this union were born two sons, Ercel Lavern, who died in infancy, and Fay G. Tipton, who survives.

She leaves to mourn her passing, her husband and son; two grandchildren, J. W. and Gaynell Tipton; one brother, Leonard Crowell of Flomot; two sisters, Mrs. James Wild of Murphysboro, Illinois and Mrs. A. A. Tipton of Matador, and a cousin, Thomas Fulgham, who makes his home with the family at Northfield. These are joined by a host of friends, to whom she was known as "Aunt Katie".

Mr. Hill has been a resident of the county since 1917 and needs no introduction to the voters of precinct number one.

Regarding his announcement, Mr. Hill said, "I feel I am fully qualified for the office of commissioner. I have had many years experience in building and maintaining roads. I started building roads here in Precinct one, in 1920 working for L. A. Stearns, who was commissioner at that time. I have had a total of more than 15 years experience in the operating of road machinery.

"In the event of my election, I will do everything within my power to keep county expense at a minimum and to fulfill the office to the best of my ability. I sincerely solicit the vote and influence of everyone who may find it possible to support me in this campaign."

FIRST of World War two's young heroes has been returned to Motley county for burial. 2nd Lt. John Kenneth Simpson, U. S. Marine Air Corps, 21, son of Mr. and Mrs. Fred G. Simpson of Roaring Springs, who lost his life in a plane accident in the neighborhood of Jacksonville, Fla., on the afternoon of Monday, April 25, about 3:15 p. m. was buried in Matador East Mound cemetery, Sunday afternoon.

Funeral services were held in Matador Methodist church at 3 p. m. Sunday, by Rev. W. B. Vaughn of Lockney, former pastor here, assisted by Rev. G. E. Turrentine. The church auditorium was filled to capacity with friends and school mates of the popular young flyer, to pay last tribute to his short, promising life brought to a tragic end, only three weeks after he had been assigned to duties as an instrument instructor in Florida. Many estimated that the number of friends unable to enter the church was almost equal to that of those inside. Size of the crowd was one of the largest ever to attend a funeral in Matador.

**Lt. Lawrence Smelson Was Escort**  
Definite funeral plans were made late Saturday afternoon, following a telegram from 2nd Lt. Lawrence W. Smelson, of Lufkin, Texas, member of Lt. Simpson's flight, who escorted the body of his comrade back home. An escort from Matador met Lt. Smelson at Quanah.

## Salvage Pick-Up Arranged

If old newspapers and magazines accumulated about your home since the beginning of the war have created a fire hazard, a time and place of disposal is announced by J. R. Emmons, county paper salvage chairman. Tie your papers and magazines securely in convenient bundles and deliver them to the Farmers Gin before Saturday, May 13. The same depot is also designated for tin cans to be contributed to the salvage drive. Both cans and paper will be picked up by Army trucks from the Lubbock Army Air Field. Tin and paper are badly needed in the war effort and all who contribute these items will be aiding the cause of freedom. No payment will be made for salvaged items to be picked up by the one trip of the army trucks.

### To Pick Up Scrap Metal

Scrap metal will be picked up in rural areas provided it is deposited on a rural mail route, near mail boxes. The army trucks will follow the mail carriers and collect metal on the routes. All scrap metal must be placed near mail boxes not later than May 10th.

In event of pieces of metal too heavy to transport to mail boxes, a white rag is to be tied to mail boxes as a signal to truck drivers, who will then call and pick it up, or the county agent's office may be notified.

Motley county again has an opportunity to demonstrate its patriotism in the support of a war drive. Salvage materials are as essential to the war effort as guns and money. Remember the dates: Not later than Saturday, May 13 for paper and cans to be delivered at the Farmers Gin. Not later than May 10 for scrap metal to be left at mail boxes of rural routes.

## Final Rites Are Held Friday For Mrs. J. B. Watson

## Cold 'Sandie' In Wake of Rainfall

WINTER returned to the flower-decked stage of West Texas Tuesday afternoon in the form of a sandstorm from the north which brought the summertime mercury down below 50 degrees before midnight. The return engagement of winter followed two rains within the past 6 days.

Extended spring drouth was broken early Saturday morning when rainfall accompanied by an electrical display, registered .86 inch by George Springer's U. S. rain gauge. Northfield registered an official .82 inch and similar precipitation was reported from other areas of the county.

Another rain storm struck the county about midnight Monday, which registered only .17 inch here but was reported much heavier in some sections. Some parts of the county did not receive any rain Monday night.

The Saturday morning rain was general over the Panhandle and as far east as Dallas. Farm and ranch conditions here were greatly improved. Young wheat, much of it in critical need of moisture, was believed saved, provided additional rains follow in time. Grass on range areas has shown rapid growth since the rainfall.

If you think I do have I shall appreciate your active help. It is only through my friends that I can be elected. If you think I am the man for the job write your friends over these twenty-four counties and ask them to help me. The district extends from Cottle County west to the Mexico line, from Stonewall County to Big Spring and west from there to New Mexico.

"If elected I promise to fight for the interests of West Texas. I am making the race on my own money and if elected will not be obligated to any "special interest" group, but will be in Austin to represent the interests of the district as a whole.

"I am deeply obligated to you people for favors of the past. I have tried to give you efficient service in the offices which you have elected me. If elected to the office I now seek I shall render the best service of which I am capable."

## Lions Charge Off Loss After Report Of Trip To Mexico

After hearing conflicting reports from the two delegates who attended the Pan-American Lions convention in Mexico City last month, members of the Matador Lions Club charged-off the loss of money and confidence placed in Boss Lion Elmer Stearns and Lion Claude Harp, during the regular meeting held in the Methodist church basement, Tuesday. Lion Stearns was not only charged with dignity of the club and the responsibility of a delegate, his trip was partly financed through enterprising local Lions who hoped to cement the "good-neighbor policy" through the cultural influence of their leader.

Altho Lion Harp traveled on his own funds and with less responsibility, he carried credentials of a delegate. At the convention only Spanish was spoken, and since neither of the delegates had any knowledge of the language, they remained but a short while. They returned with a folder printed in Spanish and bearing the picture of a lion, which they claimed as the convention program. Freely translated, the folder proved to be a Spanish guide to a Mexico City zoo. Lion Harp learned to speak one word of Spanish, the equivalent of "water", but had little use for it.

### Fiction And Romance In Report

Fiction and romance added color to the report made by the delegates. Members of the local club chewed the ends of their cigarettes and shuddered at what the re-

# Seabee With False Teeth upsets Natives

An American Seabee equipped with false teeth has become the center of attraction for curious natives on a South Pacific island.

According to a letter written to Mrs. Cy Roane of 819 Copia Street by her husband, one Seabee in his battalion has received gifts of pigs and fruits merely by extracting his upper and lowers for the natives.

Natives first discovered the feat when the Seabee removed his teeth to clean particles of roast pig while visiting their village.

The next day, a procession of natives arrived at his tent. They stood around open-mouthed while

the toothless Seabee exhibited his dental plates.

Roane, a ship fitter, left for the South Pacific with the Seabee battalion in October. They are stationed on an island near Bougainville.

Mrs. Roane is employed as a clerk by Southern Pacific. She will make her home here until her husband returns.—El Paso Herald Post.

Mrs. Roane, who was reared at Matador, sent the above clipping as a news item of interest. She will be remembered by friends here as the former L. V. New, and is a sister of Mrs. C. T. Jinkins, who resides here.

stock-raisers. Public attitude rose rapidly against the OPA's apparent apathy in the case after sworn statements proving Mr. Kifer's innocence had been produced.

"I am grateful for the confidence of my neighbors and friends, who never doubted my complete innocence of the charges made against me by the OPA," Mr. Kifer declared. "During the period I was forced to refrain from selling gasoline, many people who had never been my patrons, came to my station and purchased candy, oil, or some of the few items I have for sale. I appreciate the fact that the OPA has stayed the order before the expiration of the 30-day sentence."

## LAKE CHILDRESS TO OPEN TWO WEEKS EARLIER

CHILDRESS, April 24—The Southwestern Panhandle's favorite fishing spot—Lake Childress—will be opened to anglers this year on May 1, two weeks earlier than last year.

The lake, located about eight miles west of Childress just off Highway 287, is well stocked with bass, crappie and channel cat.

Mirrows and fishing equipment are on sale and boats are available for rent at the lake. Fishing fees at the lake are 35¢ for civilians and 25¢ for service men daily, with season permits \$2.50 for a person or \$4.50 for a family.

## Robber Traced To Preston Household

The Preston household was in an uproar. Mr. Preston was a clerk in a jewelry store and Mrs. Preston kept boarders to help out. Daughter invited Mother's one-time sweetheart, now a millionaire for a visit. Mrs. Preston was horrified! Entertain the butter-king of America in her small place? She must have a butler, and she must have a maid, and she got them.

It was so simple. You see she just — but it didn't work out so good. The new butler was a robot, one of those mechanical men made of this and that and something else.

The jewelry store in which Mr. Preston worked was robbed, and "Big Jim" Mitchell traced the thief with the spoils to the Preston residence and — and — and — Anyway, the fun waxed fast and furious.

Take our advice and buy your tickets early for this mirthquake of riotous, good, clean fun. We promise you the best play of the season.

Don't forget, "The Automatic Butler", Senior Class play, May 2 in high school auditorium.

## Infants Declared Susceptible To Tuberculosis

Speaking of the susceptibility of children to tuberculosis, Dr. Geo. W. Cox, State Health Officer, said today that few people realize that babies and young children are very likely to become infected with tuberculosis if they are kept in rooms with persons who have the disease, use the same dishes, sleep in the same beds, or are handled and kissed by persons who have tuberculosis.

"Babies and young children pick up the germs of tuberculosis just as readily as they pick up the germs of measles or whooping cough, or of any other of the so-called children's diseases," Dr. Cox said. "But tuberculosis, unlike most diseases, has more than one form. Babies who get tuberculosis may not show the symptoms we associate with the disease in older persons. But the disease in most cases develops rapidly and is likely to end fatally. Tuberculosis in babies and young children is a very serious matter, although recent studies have shown that if young children are removed promptly from contact with the disease and given the necessary care, many lives can be saved."

Dr. Cox said that if the presence of tuberculosis is recognized in its early stages and if medical attention is secured promptly, a great deal can be accomplished whenever the disease develops, whether in young or old.

"Tuberculosis doesn't just simply happen. Nobody is born with the disease. Everybody who develops tuberculosis gets it from some other source, and children and young people who have been in contact with persons having tuberculosis are especially likely to contract it."

## NEWS OF HOME IS INSPIRATION TO MEN IN UNIFORM

Regularity of the Tribune bearing its important news of "all the little things that happen at home" is an inspiration to the man in uniform, declares Pvt. Norris W. Fulfer, now in the Yuma, Arizona Flexible Gunnery School, in a letter of praise to the home newspaper, dated April 26, 1944.

"After four months of college life the army decided they needed me elsewhere, so I am writing to advise of my change in address, and to give my thanks for the paper."

"I have received a paper every week on Monday until this week. I am sure the paper was at still-water last week. The trouble was that I was not there to receive it. I can say this: I did not know when I might receive a letter but I knew the paper would come as sure as Monday came. The boys say if they just knew all of the little things that happen at home, they wouldn't mind being away. I think if they only had a home town paper like the "Tribune" they would be much more satisfied with army life. To a country

## Thoughts Of Home . . .

Fighting men throughout the world are thinking of home . . . the home they dream of returning to . . . the home you keep for them. It need not be palatial or expensive. Perhaps it is a very simple little home, but they think of it often.

Why not keep it painted, repaired and comfortable for that day when they shall see it again . . . home?

### Mrs. Chas. Keith Elected District Vice-President At P-T Congress

(by Mrs. Curtis Graham)

Mrs. Chas. Keith was elected district vice-president at the 14th District of Texas Congress of Parents and Teachers Conference held in Littlefield, April 27-28, covering Hale, Floyd, Motley and Cottle counties. Other delegates who attended from Matador were Mrs. Mae McKenzie, Mrs. Curtis Graham and Miss Mary Keith.

The Matador Parent-Teacher association was highly commended for its excellent work and progress, and it was especially commended for having done so well with the school lunch program. The local lunch room was cited as an example to other schools not having a school lunch program.

One of the highlights of the conference was the address of welcome by District President, Mrs. H. G. Stinnett, who stated that "The accomplishments of the various units of this district have been many, towards the developing and making this country safe for our children and youth".

#### Chas. Guy Is Speaker

Another interesting feature of the program was a talk, "Education Within Four Walls" by Chas. A. Guy, editor of the Lubbock Avalanche-Journal. The four walls as designated by Mr. Guy were, the children, the patrons, the teachers and the trustees. Mr. Guy urged that all work together in an understanding, reasonable manner, and keep politics out of our schools. "If we raise these three walls, trustees, patrons and teachers, as they should be, certainly we can't find fault nor improve the fourth wall, children, by oratorical words", Mr. Guy stated.

Mrs. L. G. Byerly, state representative of P-T.A. discussed, "The Local Unit Ready to go into action." Love of all children should be uppermost in all our hearts, Mrs. Byerly stated, and children should be given a special place in the home and constructive part in our war effort. "Keep laughter in home; happiness means a great deal in homes today", she pointed out.

#### Outstanding Discussions

Two panel discussions were outstanding, one of which, on the subject of "Three Freedoms" by five Latin-American students from Texas Technological College Lubbock, was under the supervision of Dean Allen. The other discussion, "Youth Citizenship and its responsibilities" had as its leader, John W. Wilson, Probation

Officer of Lubbock, who with five others participants, discussed the problems of our youth. A pageant, "Our District Under Four Flags" was presented by the Littlefield P-T.A. A massed choir, composed of high school students from the various schools, sang under the direction of Miss Omega Nutt, Wayland College, Plainview.

One important thought which was stressed in all the talks, was the lack of religion in the average home, and that spiritual guidance is needed for success in any undertaking.

In closing session, Mrs. Justin L. Adams of Crosbyton, was elected president, Mrs. Tom Tilson, Matador, was named publicity chairman.

### Tom Ed Jameson Elected President Of Honor Society

LUBBOCK, May 1.—Tom E. Jameson of Matador is one of 16 freshmen men at Texas Technological college who has been invited to join Scroll and Key, newly organized freshman honor society for men. He has also been elected president of the organization, of which the purposes are to encourage and reward high scholastic attainment among men members of the freshman class and to apply for a charter in Phi Eta Sigma, national honorary society of the same type.

Jameson is the son of Mr. and Mrs. E. E. Jameson former Matador residents, and is enrolled at Texas Tech as a mathematics major in the division of arts and sciences.
