More Names Being Added To Tribune Servicemen List

Many additional requests have been recorded this week that new names be added to the Tribune's list of servicemen to receive a weekly copy of the home paper. Every request is being filled as well as the usual large number of address changes. The Tribune welcomes the new names that it may continually increase the number until every man in uniform from Motley county is receiving his home newspaper. Greatest part of the subscriptions cost is paid for by voluntary contributions of readers back home. There is no cost or obligation of any kind to the man in service, or the person making the request for his subscription. No one has ever been solicited for a penny to keep the service in operation.

The Tribune urges all readers to check the office with the name of any serviceman where a doubt may exist as to his name on the subscription list.

The Tribune gratefully acknowledges the following unsolicited contributions made to the fund for sending every man in the armed service a gratis subscription for the duration, or while he is in uniform: A. D. Williams (Lorenzo) \$2.50, Joyce M. Smith (Roaring Springs) \$2, F. C. Dewbre (Bakersfield, Calif.) \$2.50, Mr. and Mrs. Earl Darsey (Muleshoe) \$2, G. A. Ray (Roaring Springs) \$1, T. P. Community's Civic Pride Is Mirrored In Clean-up

Town Sparkles With New Spirit Of Cleanliness As Drive Progresses

CIVIC PRIDE is being consistently reflected in the seven-day clean-up campaign now in progress throughout the business and residential districts of Matador. Sponsored jointly by the City of Matador and the Lions Club, the drive crystallized within the business perimeter Tuesday afternoon when business men charged unsightly areas with rakes, shovels, hoes, picks and their bare hands. Results of a few hours intensive work were mirrored in a sparkling new spirit of cleanliness. Piles of rubbish of every description were soon burning throughout the area.

Almost every place of business was represented in the work, with many managers and owners laboring with a zeal that could be inspired with no less than a sincere civic pride. Bottles, broken glass, tin cans, rags, paper and many other forms of rubbish were carried to designated points in each block for burning or loaded into private or the city-employed disposal conveyance.

Work In Residential Section

The spirit of clean-up was not confined to the business section. Homes in all sectors of the town were receiving treatment similar to the down-town area. The spirit of the drive was continuing to spread to more homes, streets and alleys yesterday and will probably last until the end of the week. Further aid to the appearance of the down-town area resulted from cleaning sand, paper and trash from the paved gutters by men employed by the city.

Plans for the drive were outlined by Boss Lion Elmer Stearns before his departure for Mexico City. Early attack against the young weeds is hoped to stem the need of another all-out clean-up of the magnitude made necessary by conditions last summer.

Directors Discuss Honor-Roll Plans

Plans for the honor-roll of Motley county men in the armed service was the object of discussion of the Matador Lions Club directors meeting in the Magnolia Cafe at 6:30 Monday morning. Lion D. E. Pitts, vice-president of the club served as chairman in the absence of Lion Elmer Stearns, now in Mexico City. A joint committee composed of members of the Lions Club and American Legion is working on plans for the honor-roll and a report is expected within a few days. Materials needed for the board are difficult or impossible to obtain at present.

Plans for the city clean-up drive were also discussed after it was decided to clean-up the business section at the conclusion of the regular club meeting held in the Methodist church basement, Tuesday at 1:30.

GO TO CHURCH SUNDAY

DFC Is Awarded To S-Sgt. LeRoy Nelson

S-Sgt. LeRoy Nelson, 21, was one of eleven Texans to receive award of the Distinguished Flying Cross, according to an announcement made Tuesday of last week by the War Department. The award was given to 213 officers and enlisted men of the Army 8th Air Force, the release stated.

S-Sgt. Nelson, son of Mr. and Mrs. L. A. Nelson of Matador, is stationed at a base in England. After completing his required number of missions over enemy territory, he was retained in England as ground instructor.

Mr. and Mrs. Nelson received advice some time ago from the war department, telling them of the award, and after last week's release they were uncertain as to whether this might have reference to the same one or to an additional award. Their son, of a retiring nature, has neglected to mention the honor in any of his recent letters. Neither did he acquaint them with the fact that he received the air medal with oak leaf clusters early last fall.

DATE NAMED FOR MATADOR SCOUTS COURT OF HONOR

Matador Boy Scout Troop 60 will hold Court of Honor on Thursday, May 4th, according to plans formulated at a meeting of the Scout committee held in the office of the Matador National Farm Loan Association, Tuesday evening. O. K. Reynolds, field Scout executive of Plainview met with Scoutmaster Tom Hamilton and other members of the committee. Court of Review will be held on Thursday, April 27. The Court of Honor will probably be held at the Methodist church.

Two new members of the committee were appointed to fill vacancies in the group. Earl Laughlin was appointed to the place of chairman of health and safety, formerly held by David Guest. Douglas Meador was named as finance chairman, place formerly held by R. E. Campbell, Jr. Other members of the committee include Lewis Eudy as chairman, H. H. Courtney as chairman of camping and activities and Vernon Doss chairman of advancement.

Mr. Reynolds expressed satisfaction in progress being made by the local Scout troop, which is sponsored by the Matador Lions Club. He said he would be here at frequent intervals and declared he looked forward to increased activities of the troop membership.

Price Control Shows Billions Are Saved

FIGURES just released by the Office of Price Administration in a circular, "Facts You Should Know", claims a saving of many billions of dollars in war costs through the operation of price control. The statement is as follows:

"World War 1 cost \$32 billion. Of this, \$13½ billion represented a charge for inflated prices of war goods.

"If prices had risen during World War 2 as they did in the first war, and there was every indication that they would have risen at least at the same rate, we would now be facing a bill for extra war costs, representing inflated prices, amounting to approximately \$65 billion.

"When Congress ordered the OPA to protect from the inflated prices the tremendous appropriations it voted to carry on the war, economic pressure was already far greater than in the last war. For example, in the first war only 25% of the nation's production went into military use, while today nearly half of what our factories produce is used by the Army, Lease-Lend, and in other military activities.

Cost Now \$156 Billion

"The cost of World War 2 has already reached \$156 billion. Each month seven and one half billion dollars are being added to the war bill. If price levels during this war had been permitted to rise only 20% more, the extra war cost alone would have amounted

REV. VERNER TO ASSUME BAPTIST PASTORATE SUN.

Morning services will be at the usual hour, 11:30, following Sunday School, and the evening service will begin at 8:30, following B. T. U.

Rev. Verner comes to Matador highly recommended by his former associates and friends at Lorenzo in many expressions of regret for his resigning as pastor there. The results of his work at Lorenzo during his pastorate there speaks highly of his zeal and enthusiasm and the influence which he wielded, both in the church and the civic life of the town.

The genial attorney general is candidate for his first elective term to the office to which he was appointed. Accompanied by county judge W. R. Cammack, he made a few hurried calls in the business section, as he stopped here enroute to Austin. He had been to Plainview attending the Panhandle-Plains Dairy Show, where he received an urgent call to return to his office.

Face Lifting Job Now In Progress At Tribune Office

A badly needed face-lifting operation is now in progress at the Tribune office. Windows of the building are being re-modeled. The old and broken plate glass is being removed and modern glass brick used as a base, four bricks high. New and shorter plate glass will be installed above the glass brick base. The windows, when completed, will match the south window of the Matador Variety store. Work is being done by Pat Patterson for the Matador Masonic Lodge, owner of the property.

W. I. Rushing Is Candidate For Commissioner

The Tribune is authorized to announce the name of W. I. Rushing as candidate for the office of County Commissioner, Precinct Number One, and subject to the action of the Democratic primary, July 22, 1944.

Mr. Rushing needs no introduction to the voters of this precinct where he has made his home for many years. A progressive farmer and stockman, Mr. Rushing is well known for his leadership in farm advancement work, civic and religious activities.

Regarding his announcement, Mr. Rushing declared, "I feel qualified to fill this office to which I seek election. In event a majority of the voters in this precinct find it possible to elect me, I promise to devote my best abilities to the duties which it requires. I earnestly solicit the vote and support of everyone during this campaign and tender my appreciation in advance for any favors shown to me."

 applications for purchase of new farm trucks and pickups were approved.
 Purchase permits were issued for 55,769 board feet of softwood lumber. Recommendations were made in 53 cases involving military deferment of agricultural workers. Certificates were issued for 16 of 44 applications received for pressure cookers. Grassland deferred was 71,967.7 acres. A total of 39 farms were represented in the summer following of 1,719.8 acres. As a protection against wind erosion, 46,141.7 acres of feed stubble and stalks on 356 farms were left until March 1, 1944. Dug or drilled wells on six farms totaled 20,852 feet.

Two ranches built 21.53 miles of fireguards during 1943. Gardens containing as much as one half acre and planted in no less than 10 different vegetables, totaled 326. With the single exception of soy beans all 1943 crop goals were exceeded.

Roaring Springs Laundry Purchased

A deal was culminated at Roaring Springs Monday, in which Mr. and Mrs. W. H. Nichols, former residents, who have been making their home in Lubbock, purchased the Help-Self laundry from Mr. and Mrs. Ed Wolters. The laundry was originally established several years ago by Mrs. John Smith, who operated it until recently.

Mr. and Mrs. Nichols are planning to install two additional machines, in order to serve the patrons more efficiently.

They will assume management of the business Monday, April 17, they announced.

Wounded Kwajalein Veteran Receiving Tribune Regularly

Wounded in the Kwajalein Island battle of the Marshalls, Pfc. John G. Garrison writes that he is receiving the Tribune regularly. Excerpts from his letter, written in Hawaii March 29, are as follows: "I am writing to let you know I am still getting the Matador Tribune regularly, but I wish to correct a slight error in my address, so that it won't be delayed in reaching me. I have had some more experiences in actual combat since the last time I wrote. I was in the battle of Kwajalein Island which is located down in the Marshall group. The Japs put up a pretty hot fight for a while, but as you know, they just can't hold out long when the American forces hit them.

"Well, I saw quite a lot of excitement and was in some pretty tight and dangerous spots during the battle down there, and was slightly wounded, but even at that I think I was very fortunate. I am back on duty now and doing fine. "I see in the paper that the people of Motley county are doing a fine job on the home front, towards helping the war effort, and I think it is wonderful that they are backing the boys in service so willingly. Thanking you again for the paper, I remain, Sincerely,"

The Tribune wishes to acknowledge with sincere appreciation, the following unsolicited contributions, which aid in making possible its policy of sending the home newspaper to Motley county boys in the armed service: Mrs. Joe Jeffers (Spur) \$2, Kim Wilkinson \$1, Mrs. John Stotts \$1, Houston Patton (Wichita Falls) \$1, Mrs. O. Callaway \$1, CRT, Antone Freeman \$5, I. F. Reed (Quitaque) \$1, Mr. and Mrs. Freeman Thacker \$2, Robert Collier (Idalou) \$2.50, Claud Sanders (Muleshoe) \$5, Odis Crowell (Torrance, Cal.) \$5, M. "An achievement of such proportions as was reached in this drive, makes me proud of my country and of the people of my county," Mr. Tunnell concluded.

Mr. Tunnell neglected to attribute any claim for the success of the drive to his own efforts as chairman. Those familiar with his interest in the drive are aware that much of the success attained, resulted from his tireless efforts in organization and his sincere zeal. It was without question, one of the best organized campaigns ever attempted in the county.

Electric Power!
 is
 Fighting Power!

WHEN our soldiers go into battle they carry with them little packages of food—each one a square meal. Those packages contain very special foods—dehydrated and concentrated—calories and vitamins carefully counted, but complete from soup to coffee. It gives fighting men reserve power they need to keep going when other supplies are cut off.

Reserve power is just as vital in war production as it is in military operations. Tank factories, plane plants, and ordnance works are eating up more and more electricity every day, and the "reserve rations" to keep them going have been ready. Why? Because those reserves were built up in advance by the trained men

who manage America's Electric Power Companies, such as the West Texas Utilities Company. The reserves are more than enough to meet every essential need. Because of carefully planned inter-connected systems large quantities of electric power are available almost anywhere.

Electric power is able to do its job promptly, efficiently, and economically. Electric power is the reserve power that keeps our fighting power going.

 Mexia field. He also added to the production of old wells in the Burkburnett field in addition to drilling new ones. After purchasing older wells he would clean them out, increasing the production and sell them. Thirty-five wells in the field were so treated.

"Carter drilled the first successful wells in the Ada, Oklahoma field, reaching production sand after hope had been abandoned by most operators for successful drilling in the vicinity.

"Carter was born in Ravenu, Texas before coming to Wichita Falls in 1918.

"Among the partnerships formed by Carter was in the association with several Wichitans in the irrigation development on the Seymour road known as Rancho Vista. In the company in addition to Carter were George Ray, J. A. Kemp, J. T. Harrell and Dr. J. H. Massey all early day civic leaders in Wichita Falls. Carter was a member of the First Baptist church and an active member of the Chamber of Commerce."

Mr. Carter was married to Miss Jessie Simpson in Matador about 1912. He was widely known for his philanthropic nature which prompted him to aid many less fortunate than himself, especially orphaned children. Orphaned himself as a child, he never forgot his early struggles and the sympathies of his benevolent nature responded whenever it was possible for him to render service. Denied the benefits of education by the circumstances of his early life, he provided schooling for a large number of youths.

Funeral services were attended by Mr. and Mrs. Harry Carter and their daughter, Mrs. John Stotts.

Sheppard Field

Dear Ben:
Just a few lines to let you know my new address. I am at good old Sheppard Field. You know, the place where the cadets either go down the wash or over the top. The most of them usually wash up in a drift and find that they are tail gunners. Well, what if they are gunners—anybody should be proud to get a crack at a Jap. I would like for you to say hello to all my friends.

Sincerely yours,
E. D.

MAYBE... Pressing-the-Button will Jack Up future cars

BUT... OIL-PLATING YOUR ENGINE is like outdoing the future—today

An optimist can still hope to trade his car for a 1945 model—with "wild" or mild advancements.

A realist might do the same. But he'll "cast an anchor to windward" by changing to Conoco Nth motor oil for Spring, at once adopting that big inexpensive advance—an engine internally OIL-PLATED.

Be a realist! Realize that any engine's explosions always form real biting acid inside. Realize that long trips, heating at least some acid away, went out of style as rationing started. Realize that limited driving—incomplete engine heat—has been endangering engines not OIL-PLATED. Too bad; any harm that's been done is done. But with Conoco Nth oil, and all the acid-resistance of OIL-PLATING, you're in shape to discontinue extreme acid damage, starting now.

Patented Conoco Nth oil—popular-priced—includes a pioneer synthetic, with the advanced "magnet-like" ability to surface inner parts with OIL-PLATING. That's why you can really be an optimist about your engine's future, after changing to Your Mileage Merchant's station for Conoco Nth oil. Continental Oil Co.

Harmony Discussed At P-T.A Meeting

The Matador Parent-Teacher Association held its regular meeting Wednesday afternoon, April 12, in the library of the grade school building. Mrs. Chas. Keith, vice-president, presided in the absence of the president, Mrs. Tom Tilson, who is a patient in Quanah Hospital.

Mrs. U. L. Willie, chairman of the lunch room equipment committee reported that she felt certain the organization would be able to obtain a butane gas plant, stoves and hot-water heater, so badly needed in the lunch room.

The program consisted of a piano solo, "The Storm" by Jolene Bloodworth, and a discussion on "How closer harmony between parents, teachers and pupils can be obtained" by various members.

In the discussion, it was pointed out that pupils should receive more help at home; children, whose parents take a personal interest in them are apt to receive more attention from the teacher; parents should cooperate with teachers and try to understand the teachers' side as well as the pupils' side and not visit school often enough and that children who are well-trained at home seldom give teachers trouble.

A committee composed of Supt. B. F. Tunnell, Mrs. Vernon Doas and Mrs. J. S. Stanley was appointed to draw up By-laws and Constitution for the Association.

The second, fifth and tenth grades won the pictures for attendance.
