VOICE OF THE FOOTHILL COUNTRY Matador & O

75TH YEAR-No. 47

MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, JANUARY 27, 1972

PRICE TEN CENTS

TRAIL DUST

The hunchback was always smiling when he took part in our boyhood games. If the weather was cold he would watch us through a window in the old house that had never been painted. His thin, cheap coat could not be buttoned, but he never complained about his deformity. He was a handsome boy except for his back; long silken black hair and dark eyes that spoke of the joy he found in life. We shared our games with him and waited for his delayed movements, perhaps with the understanding that except for the grace of God, any of us might have been in his ill-fitting shoes.

Criticism is so easy to administer that many of us lose sight of the base which we can not possibly evaluate. So many secret factors are involved in the behavior of others that the power of judgement is left without a base. It is far better for the individual to omit an opinion than to plant weeds of doubt in a little garden which might otherwise bloom in the sunlight of tolerance that accepts less than perfection.

dreams that never fit the patterns the U.S. of actual life.

HOME FROM HOSPITAL

company her husband home. She limited to 10 students. time he was in the hospital.

POPULATION SHIFT — Above photo is a map of Modey County, indicating with dark plastic the area affected by the redistricting of Precinct One into Precinct Three (Northfield). The change was made by the August term of Commissioners Court and the purpose was to equalize more nearly the population of the two precincts. Before the change Precinct 1 had 55.8% of the population and 3 had only 3.9%. The approximately 10 sections of land affects Matador, with all residents north of US Highway 70, and east of State Highway 70, in Precinct 3. Precincts 2 and 4 were left unchanged. A new voting box will be located in north Matador.

The Go Ahead People

That's another good thing about Production Credit. Rolling Plains PCA has grown. The figures speak for themselves. And you can bet that our Rolling Plains PCA members, who are stockholders and sole owners of their credit source, have grown too.

Look at the growth rate. Loans outstanding and total amount loaned have more than doubled in the past 5 years. Association capital has increased almost 100 percent.

Still another good thing about Rolling Plains PCA is that all this time, we've been reducing the amount of difference between what money costs us and what it costs our stockholders.

You've seen us grow. Now find out how you can grow. Come in and talk to the go ahead people at any one of our offices in
