## Roaring Springs Community Volunteers Receive Building and Donation from Masons

The Roaring Springs Community Volunteers met September 10, 1992 with President Pauline Hand presiding. Everyone was elated that the Roaring Springs Volunteers float had won first place in the Old Settlers parade for the second year. Elation was even more enhanced when Bill Peacock, Secretary of the Roaring

Springs Masonic Lodge read the deed giving the Community Volunteers the Roaring Springs Lodge building for use of the Community Volunteers, along with a \$500 cash donation from the Lodge. The Volunteers have "dared to dream" and their dreams are being fulfilled. The Volunteers appreciate this and wish to

publicly thank the Roaring Springs Masonic Lodge #1178 and the Matador Lodge #824 for their thoughtfulness as they made the decision to give this building back to the community. A City-wide garage sale will be held at the depot in Roaring Springs, Saturday, October 10.

A Mexican Food supper and game night is planned for Saturday night, October 24 at the Kountry Kitchen Cafe. Put these dates on your calendar and plan to attend.

Volunteers who have continued to work on the fence on the property the past weeks are Bill Peacock, J.N. Fletcher, Jr., Teddy Sedgwick, and Steve Byrd.

## County Commissioners Meet

The Motley County Commissioners Court opened their meeting, Monday, September 14, with Judge Boyce Hart giving the invocation. The minutes and bills were read and approved.

The Reports read were as follows: Treasurers, Sheriff and Tax Collector, Library, and County Extension Agent. The J.P. report of fines collected for August were, Precinct 1, Place 1 - \$2250, and Precinct 1, Place 2, \$52.

Other items on the agenda which were discussed and voted on are as follows: \* Opened bids for insurance on the courthouse, from Pipkin Ins., and Long Ins. Agency. Long Insurance received the bid with the lowest bid.

\* Russell wanted to give the Precinct employees a raise. Motion was made to leave salaries the same as last year. After discussion, court voted 3 for and 2 against, setting salaries same as last year.

\* Commissioner Jameson requested that Debbie Seigler replace his alternate Election Judge, who is moving.

\* Court discussed and elected to give Judge Hart authority to sell the outdated radios in a legal manor. Judge Hart ex-

plained the County is getting new radios through the CJAD (Criminal Justice Assistance Department).

\* Clerk Lucretia Campbell read the current Sheriff fees and after comparing to other counties the Court elected to leave as last year.

\* Court discussed re-embursement of meals paid by Sheriff for extra law enforcement help during Old Settlers. Commissioners feel this is something they need to discuss further with the Old Settlers Board.

\* Court acted to transfer money to Public Property Finance fund from the Lateral Road fund.

\* Court discussed the need to give authority to Judge, County Treasurer, and one Commissioner, to borrow funds to pay bills if the tax funds aren't sufficient at the end of the fiscal year, in September. They hope this will not be necessary, but due to complications in the Appraisal Office, the taxes could be late going out, again this year.

\* Commissioners discussed letter of request from the Texas Department of

Transportation, wanting them to name a request for a new Farm to Market road in Motley County. To qualify it will be one that best served the public industry, postal route, or school bus route, etc. Each Precinct designated a priority road and then they drew out of a hat for the order to be chosen. Precinct 2, from North County line, south to Folley school intersection, (2.4 miles); Precinct 3, from Whiteflat, east to Four Corners intersection (2 miles); Precinct 4, from pavement end #684, to pavement end #1045, approximately 3 miles; Precinct 4, from Tee Pee Flat Road, east edge of Matador City limits, south to McDonald Pasture, 2 1/2 miles. Also a request for a bridge replacement on an off-system road was selected.

\* Court looked over the list of prospective automobiles for the purchase of a new Sheriff's car. In the past, the Sheriff has owned and maintained his own car, with an auto allowance. The Court has elected to purchase and maintain the Sheriff's and Deputy's car in the future. This was tabled until further study.

Meeting adjourned.

If you would like to write a check you may contact one of the 4th, 5th or 6th grade students or their teachers and they will come to your home. We will appreciate your support for this worthy cause. All donations will be welcomed.

## Motley County PTO To Hold Book Fair

Motley County PTO will sponsor a Scholastic Book Fair, September 21-25, presenting a wide variety of books for students at all reading levels.

According to the Barbara Bush Foundation for Family Literacy, when parents and teachers work together to introduce children to the world of books, the results can be dramatic. Children who read more become more successful readers...and, in turn, successful readers read more books. This happy cycle is encouraged when parents, teachers and friends come together to share and explore new publications at events such as a Scholastic Book Fair.

Motley County ISD Book Fair will display hundreds of titles, including award-winning favorites, classics, how-to books, biographies, mysteries, adventures and the latest works of popular authors. All are offered at reasonable prices, so that students can choose books that appeal to their personal interests and parents can add to home libraries or purchase gifts for their young readers.

Proceeds from the fair will benefit PTO, but the real profit lies in introducing children to the "magic" of the books and in encouraging them to be lifelong readers.

## What's Up Doc?

by Marisue Potts

Many "new" things of a historical bent are being added weekly to the collection of the Motley County Museum. Since the museum building was originally a private hospital, perhaps one of the most unique exhibits for a regional museum pertains to the medical history of the area. Prepared by Joyce Campbell with the cooperation of the hospital district and the assistance of Janice Campbell, Donnie Jenkins, Sam Campbell, Charlie Johnson, and Tony Rose, three rooms capsule the state of the medical arts in 1928 and the years following.

In the doctor's office, a page from an actual day book commands the grand sum of one dollar for an office visit while a medical book documents that Dr. A.C.

Traweck, Sr., received his medical license in 1897. His coat hangs on a rack nearby the wooden wheelchair. On the wall is a picture of a nurse that visitors recall hung in the lobby waiting room.

An array of medical instruments and equipment in the treatment room heralds an age when over two hundred appendectomies were performed at the hospital in one-year and tonsillectomies were a standard part of growing up.

A hospital patient's room details the spartan conditions of those early days when nurses lived-in and dedicated themselves to performing all sorts of mental tasks while nursing people back to health.

In the hall awaits a crib from the Stanley Hospital, where Dr. J.S. Stanley delivered well over 2,000 babies in twenty-

## School Board Meeting Report

\* Minutes were accepted  
\* Approval of financial statement and bills,

\* Superintendent Blanch explained the State has dropped FOM and Consumer Math courses from the required list and he had to request for a waiver for Algebra 1-A and Algebra 1-B with pre-Algebra or a third math, to replace the dropped courses. This passed.

\* Bids were opened and awarded to Ben E. Keith and White Swan for the purchase of food and non-food items for the cafeteria. Giving the food selection Betty Bearden, Kitchen Manager.

\* Board went into executive session, with no action taken.

\* Vann Francis, Board member and representative to the Motley County Appraisal Board for the School Board, gave a report that the Appraisal Budget had been accepted at the Tuesday night meeting.

Meeting adjourned.

## City Council Meeting Report

The Matador City Council met for their regular monthly meeting Thursday, September 10, with several items being discussed.

The Council discussed at length the Motley County Appraisal District Budget. Travis Jameson, representative to the Appraisal Board from the City Council explained that on Tuesday, September 8, the Budget passed by one vote.

Since that meeting Jameson has read the Appraisal District Operators Manual. In this manual Jameson found a paragraph saying that the hospital district should not have a member on the Appraisal board. When the Appraisal Board was established in 1979 or 1980 the County set up the Board with the five tax entities each having a representative on the board. This has been the makeup of the board since that time.

At the close of the council meeting Jameson called the State Comptroller's office in Austin to ask for a ruling on this

paragraph in the Operator's Manual. The Comptroller's office verified this ruling, saying the Hospital District should not have a member or a vote on the Appraisal Board. This rule changed in 1990.

Other items on the council agenda were as follows:

\* Minutes and bills were read and approved.

\* Discussion of cost of the Night Watchman's new radio.

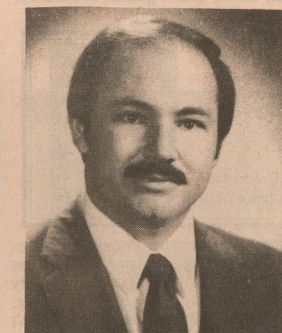

\* Budget amendments were made and passed.

\* 9:00 a.m. was the time set to open bids to purchase the rent house belonging to the City. No bids were presented.

\* Bill Jameson reported several more lots had been cleared of old houses and buildings.

\* All members of the Council were present, with the exception of Ed Lawrence

Meeting adjourned.

blowing your own horn."

Time is a precious resource for Senator Carriker: He is the only member of the Senate making his living as a farmer. he and his wife Kathy, a school teacher, live on their 2000 acre cotton and livestock operation with their three children. As a full-time father, a full-time farmer, and a nearly full-time legislator, the 41 year-old first term Senator carries a full load.

Carriker has risen rapidly in the 31 member Texas Senate and now chairs the Subcommittee on Agriculture and also Elections and Ethics. He has been active in economic development and public safety and is the recognized Senate leader on senior citizens issues and rural health care.

During his first senate term he passed the first-ever reduction in the oil server-

ance tax, authored a rural doctor training program, wrote the "Options for Independent Living" program to provide vital assistance for the state's elderly, passed legislation to give doctors and health clinics a break on malpractice insurance, and carried Governor Richard's initiative to regulate the dumping of hazardous waste...in all Carriker has enacted some 100 pieces of legislation as a freshman senator. Many among those 100 bills and solutions have been repealers of antiquated statutes and bills eliminating or consolidating six state agencies.

Carriker is preparing legislation for the next session on water rights, crime victim protection, and protection of retirees from out-of-state income taxes, as well as several Sunset bills.

## "Wheels For Life" Bike-A-Thon to be held in Roaring Springs

St. Jude Children's Research Hospital announced today that Karen Brown will serve as coordinator for the Roaring Springs "Wheels For Life" Bike-A-Thon with October 3, 1992 set as the date of the event.

St. Jude Children's Research Hospital, which was founded in 1962 by the late entertainer, Danny Thomas, is America's largest childhood cancer research, treatment and education center. The Memphis based hospital has a local impact because it freely provides area doctors and hospitals with assistance in diagnosis and the latest information for treatments and procedures.

The non-sectarian hospital currently follows over 4,500 active patients. Because treatment is provided to all patients

regardless of their family's ability to pay, it costs St. Jude Hospital over \$215,000 per day to keep its doors open. These funds come primarily from public donations.

This year's Bike-A-Thon is dedicated to Ryan Martin of Waxhaw, NC. Ryan was diagnosed in June 1986 with a Wilms' tumor on his left kidney. The kidney was removed and Ryan was given 6 months of chemotherapy at St. Jude. When he was 2 1/2, he developed a Wilms' tumor on his right kidney. Ryan again received chemotherapy and his doctor discovered during surgery that nothing remained of the tumor but scar tissue. Today, Ryan is cancer free and only has annual check-ups.

For more information about the Bike-A-Thon, contact Karen Brown, 348-7277.

## Letter to the Editor

I just returned home after a vacation in Matador, where I was visiting my daughter and son-in-law, Debbie and Mark Seigler.

I wanted to let you know what a wonderful town you have, and I believe the friendliest people I have ever met in the state of Texas. Matador is surely God's

country. I am looking forward to another vacation next year, and another visit to your lovely town.

### CONSIDER YOUR CHILD'S CARE

Is it time to reconsider your child's care arrangements? For parents of young children, the start of the school year is a good time to look at options for child care.

Many preschool programs operate on the school year calendar, beginning in the fall. Other programs that provide child care may time a redirection of their program to coincide with the start of the school term. In addition, changing family arrangements affect enrollment at the beginning of a school year, resulting in openings in programs that may have been filled to capacity earlier.

Choice of child care or preschool arrangements has lasting effects. Learning that occurs in daycare or preschool will affect parents and child for many years, even after the child has moved on to elementary school.

Whether toddlers are currently being cared for at home or outside the home, parents can use the start of a new school year to re-evaluate whether their child is participating in developmentally appropriate activities in his or her current arrangements. For parents who need help in identifying appropriate activities, county Extension home economics agents can help identify activities right for your child's level of development. It may be time to change to a program which suits your child's needs better.

When looking at preschool or childcare arrangements, consider the following:

— What does your child need - mentally, physically, and emotionally? What actions have you noticed that suggest your child may need more guidance in certain areas? In what activities does your child exhibit the most interest? Do these current arrangements address both these areas?

— Are activities at the current location, even if it's home, meeting the needs of a child the age of your child?

— What costs are associated with your current arrangement and potential new arrangements? How does the cost or change in cost fit within the framework of the family budget?

— How will your schedule accommodate any new arrangements? If your child changes to a preschool setting which does not provide full-day supervision, will you be able to get your child to another place for the rest of the day?

— How will your child handle going to several different caregivers each day or from day to day? Does he or she handle change well or need stability and routine?

— Is your child happy with current arrangements? Let your child spend some time in the new arrangement before making a final decision on a change.

For parents who decide to investigate a change in arrangements, choosing the best facility can be a challenge. When looking at alternatives for young children, consider the following:

— A positive response from your child to the new situation,

— The experience and training of staff and caregivers,

— The friendliness of caregivers and their affection toward your child,

— An adequate number of caregivers in relation to the number of children,

— How many hours per day and days per week the facility will care for your child,

— References from parents whose children have attended the facility,

— A safe and healthy environment for your child,

— An appropriate schedule for activities, naps and meals,

— Provisions for cases of illness or emergency,

— Communication between caregivers and parents.

Making sure you are providing the best experiences you can for your child is one of the most important contributions you can offer as a parent. Taking time this fall to consider your child's current arrangements may make a continuing difference in his or her ability to excel throughout life.

\*\*\*\* Educational programs conducted by the Texas Agricultural Extension Service are for people of all ages regardless of socio-economic level, race, color, sex, religion, handicap, or national origin.

\*\*\* THOUGHT FOR THE DAY: No one is ever old enough to know better.

## Public Notice

Southwestern Bell Telephone Company, in accordance with the rules of the Public Utility Commission of Texas (PUC), hereby gives notice of the Company's intent to implement a new schedule of telephone rates in Texas for optional Custom Calling Services and Touch-tone service, effective March 15, 1993, unless otherwise determined by the PUC.

These proposed rates will not increase or decrease the Company's overall revenues; the net effect will be neutral to the Company's annual revenues.

The Company proposes to decrease the rates for Touch-tone service for residential customers from \$1.00 to 68 cents, and also to reduce the Touch-tone rates for business customers from \$1.75 to \$1.70. In addition, the Touch-tone rates for business PBX trunks will be reduced from \$3.15 to \$2.18.

This proposal to decrease the rates for Touch-tone service does not change the commitment that the Company made in the Docket No. 8585 Stipulation to reduce the rates for Touch-tone service in 1993.

The Custom Calling Services affected by the Company's application are optional telephone service arrangements that provide the following features: Call Waiting, Call Forwarding, Three Way Calling, Speed Calling-8 and Speed Calling-30. Following are the feature combinations and their current and proposed rates.

	Residence		Business	
	Current Rate	Proposed Rate	Current Rate	Proposed Rate
<b>One Feature per line</b>				
Call Waiting	\$2.10	\$2.85	\$2.65	\$3.25
Call Forwarding	2.10	2.10	2.65	3.50
3-Way Calling	2.10	2.10	2.65	2.50
Speed Call-8	2.10	2.10	2.65	2.50
<b>Two Features per line</b>				
Call Waiting, Call Forwarding	3.75	4.25	4.75	6.00
Call Waiting, 3-Way Calling	3.70	4.25	4.75	4.75
Call Waiting, Speed Calling-8	3.70	4.25	4.75	4.75
Call Forwarding, 3-Way Calling	3.70	3.50	4.50	5.00
Call Forwarding, Speed Calling-8	3.70	3.50	4.75	5.00
3-Way Calling, Speed Calling-8	3.70	3.50	4.75	4.00
<b>Three Features per line</b>				
Call Waiting, Call Forwarding and 3-Way Calling	5.30	5.65	6.90	7.50
Call Waiting, Call Forwarding and Speed Calling-8	5.30	5.65	6.90	7.50
Call Waiting, 3-Way Calling and Speed Calling-8	5.30	5.65	6.90	6.25
Call Forwarding, 3-Way Calling and Speed Calling-8	5.30	4.90	6.90	6.50
<b>Four Features per line</b>				
Call Waiting, Call Forwarding, 3-Way Calling, Speed Calling-8	6.90	7.05	9.00	9.00
Speed Calling - 30 code capacity	3.20	3.20	4.25	3.20

Most of the Company's residence and business customers who subscribe to Custom Calling Features and Touch-tone service will be affected by the proposed rate restructuring.

It is expected that the restructuring of Custom Calling Features will result in a rate increase for approximately 2.9 million residence customers and 280,000 business customers. The reduction in rates for certain Custom Calling Services and Touch-tone Service will affect approximately 4.3 million residence customers and 1.7 million business customers.

This rate restructuring is expected to have a "revenue-neutral" effect on the Company's annual revenues. The proposed rate restructuring of Custom Calling Services will increase the Company's annual revenues by \$19.8 million; while the reduction in Touch-tone rates will decrease the Company's annual revenues by \$19.8 million.

This proceeding has been designated Docket No. 11392. Persons who wish to intervene or otherwise participate in this proceeding should notify the PUC as soon as possible. The deadline to intervene is October 30, 1992. A request to intervene, participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the PUC Public Information Office at (512) 458-0256 or (512) 458-0221, teletypewriter for the deaf.

## Mental Health

by Ron Trusler, M.Ed., L.P.C.  
Assistant Executive Director Central Plains Center for Mental Health, Mental Retardation and Substance Abuse.

### INGREDIENTS TO BEING AN EFFECTIVE FAMILY

What is your family like? Is it effective in meeting the needs of its members? The first five listed are from last week's column, which had a brief explanation.

1. They have a chief.
2. They have a switchboard operator.
3. They are much to all their members but everything to none.
4. They are hospitable.
5. Trouble is dealt with quickly and openly.
6. They prize their rituals - they observe holidays together, family celebrations and traditions, grieve together and in other ways have a sense of connectedness.
7. They are affectionate - they hug, kiss, and are genuine when expressing feelings. They frequently demonstrate love and caring.
8. They have a sense of place - there is some house or town that is special to them. It is a sense of 'this is where I'm from'.

They connect with posterity - there's a feeling that something came before them and there will be something left after they're gone. They feel linked to something.

10. They honor their elders - grandparents and other elderly relatives are respected and cared for. Their experience, wisdom, and personalities are valued.

If you look at your family and think it's

not meeting everyone's needs in an effective way, don't place blame. See what can be done to change things so more family members needs can be met. Remember, there will always be someone who doesn't feel their needs are being or were not met. There are not "Super Families" that produce super men and super women that can be all things to all people. Sorry.

## God Bless You

## THREE GOOD REASONS TO GO THROUGH CD WITHDRAWAL

### 1. RATES 2. RATES 3. RATES

How do you feel about locking in an interest rate when rates are at a 26 year low? In fact, when you consider inflation and taxes, the real return on your CD can be negative. With Delta tax-deferred annuities, if the rate Delta earns on your money goes up, the rate you earn goes up. Guaranteed.

# As Homecoming Nears Exes Correspond

NOTE: The following letters from ex-students and ex-teachers were received by Homecoming co-secretary Hazel Donovan.

Dear Hazel,  
We just received the letter about the school reunion and would so much love to attend, but we had not heard when the reunion would be this year and unfortunately had made other plans for that weekend. Consequently we will be unable to attend this year.

J.C. is feeling much better and we just returned from a 4000-mile trip through Washington state and Oregon in our Motor Coach. We saw lots of beautiful country and enjoyed it throughly.  
I am enclosing a check for \$5.00 for dues and contribution. Also please note that we have a new address. Your letter went to the old address and the people were kind enough to bring it over to us.  
Good luck and best wishes for a most successful reunion.

Sincerely,  
Joel and Arline Murphy

Hazel,  
I plan to be at Homecoming.

Sherril Rigbsy  
Hale Center, Texas

My Dear Friends in Motley County,  
Thanks for remembering an old friend! Matador gives me many rich memories, and I'm sorry I'm too old to ever come to your celebrations. Use the enclosure for your friends.

Sincerely,  
(Mrs. J.B.)  
Bess Seale Nash  
San Antonio, Texas

Note: Mrs. Nash was one of our earliest teachers. We regret that she is unable to be with us.

Dear Hazel,

Thanks for the notice of Homecoming. I'd love to come, but am not physically able, and too, most all my pals have passed away - Beryl Williams, Lucille Traweck, Olive Moore; don't know about Josephine Seay, Katie Eubanks and Marie Luckett.

I hope the enclosed check helps you with some activities.

Love,  
Elizabeth Black  
Bethel Springs, TN

Motley County Ex-Students Assoc.,  
Thank you for sending notice of Homecoming. I know it will be great, and I would love to see everyone. However, I

will not be able to come, as we already had commitments for that time. It would be great to see all.

I appreciate the time you spend so that the reunion is possible. Have a great time. I love you.

Mary Echols West  
Georgetown, Texas

Homecoming Assoc.,

Contrary to rumors I am coaching and teaching at Bangs High School in Bangs, outside of Brownwood. It looks like a set-up for me. I will be coaching varsity girls basketball and teaching history, which was the same thing I was doing at the High School in Matador.

Tony Raffaele

Ex-Students Association:

I wish I could be with you October 2-3 for Homecoming. I have reached the age of 87 and don't do any more traveling. The class that I was in celebrated our 50-year reunion in 1976, and I have been to two Homecomings since then.

I would like a paper after this Homecoming to see if any of my classmates of '26 were there, Josephine Hamilton, the Gaines girls of Lubbock and others.

Have a great time. I will be with you in spirit.

H.L. Winter  
Ft. Worth, Texas

Dear Hazel,

My sister, Charie, and I had planned on coming out there for Homecoming this year, but life has taken us down a different road. I know all of you have prepared an enjoyable program and I'll miss being there.

Enclosing this years dues, last years, and a little extra, plus the love in my heart for all of you

Barbara Ketchersid Tilson  
(Mrs. Raworth D.)  
Lubbock, Texas

Dear Hazel,

Thanks ever so much for sending Bert Ezzell's address. He and Zona Beth Faulkner were so good as class sponsors of the class of '42.

After WWII started, gas and tires were so hard to come by, but our class had worked hard for a class trip. Somehow they managed to hire Omar Watson to "haul" us in his truck to Cisco State Park for the day. One the way back home, we stopped in Abilene and saw a movie, *Fantasia*.

It doesn't seem like 50 years ago, but it was and time flies fast when you are having fun. It will be great to be with classmates, teachers and friends.  
Thanks again for your help.

Sincerely,  
Dorothy Wason Campbell

His men were hungry, poorly supplied, and sick. Robert E. Lee was forced to meet U.S. Grant and ask for peace.

"Keep your horses," said the northern general. "You'll need them for plowing."

"What are your terms?" asked Lee.

"Unconditional surrender," said Grant.

The Lord is merciful and tender. He's full of kindness and love. But before you can experience His unlimited salvation, He must have your unconditional surrender.

## PEOPLE AND PLACES

by Frances A. Ellis

NOTE: Mrs. Ellis is an aunt to Barbara Armstrong. She writes for *The Paris News*, Paris Texas. She recently returned from a trip to Russia.

The last day in Prague, Czechoslovakia during the August "People To People" International Communications Consortium provided opportunity for two walking tours of historic areas, visit to the Prague Castle and to dinner in a restaurant in the castle that evening.

Dinner the evening before followed a buffet reception on board the steamship "Moravia," while cruising on the Vltava River with guests we had visited with at the Czechoslovak TV station and the Charles University Department of Journalism. Senator Claiborne Pell of Rhode Island with George Mitchell and Warren Rudman were also on board.

The Vltava is a tributary of the Elbe River and has 16 bridges, dividing Prague with the Slovaks on one side and the Czechs on the other. We enjoyed the scenery on both sides of the beautiful river including the old Benedictine Monastery damaged by World War II bombs; the industrial district where the characteristic chimney of the Staropramen Brewery stands high; the Vysehrad citadel on a high cliff and the newer housing estates, tv and radio stations. The river is popular for smaller boats, too.

The morning walking tour began in Old Town through winding streets with Renaissance and baroque palaces, stately churches, taverns and antique houses with their ornamental signs. Houses do not have street numbers but ornamental statues or sculptured markers. The Town Hall, with its "horologe" is an important stopping place for crowds to watch the hourly display of the clock made about 1410 by Nicholas and astronomer Jan Sindel. Three independent parts - the musical box with revolving figures of apostles on the hour, the circular sphere measuring time and the calendariums with the coat-of-arms of Old Town and medalions by Czech painter Joseph Manes, still function.

Walking to the Jewish Ghetto is like stepping back into time. We enjoyed visiting the Old-New Synagogue and the

old Jewish Cemetery with 12,000 graves placed there from the 15th century until 1787. Our friends, Sid and Bert Kruger Smith of Austin, took all this in carefully as well as the museum. She is an important member of the Hogue Foundation for Mental Health, Austin, and we have worked with her on the aging program. She has spoken in Paris, and writes books on geriatrics.

The old synagogue is the oldest in Europe. It was interesting to see that people would leave little notes on paper and place them under rocks on the many markers.

The chefs at the underground Slate Study Restaurant outdid themselves that day, and their ice cream dessert was delicious and welcome, for ice cream, there is a treat in restaurants and on the streets from the little vendor shops.

One of the main features of Prague is the Charles Bridge built by Charles IV who also built the University in 1357. The Old Town Bridge Tower is one of the most beautiful Gothic buildings in Europe, has sculptured portraits of Charles IV and Wenceslas IV. The bridge of sandstone ashlars, has 16 arches which are 516 metres long and 9.5 metres wide.

The Prague Castle is the pride of the community for when you walk into its courtyard you can look down from the hill top on to the spired city with many colored roof tops and exciting structures. St. Vitus Cathedral is in the castle area, standing out with its great tower and twin towers. The southern facade with the Golden Gate (1366-67) named for it has the mosaic of Bohemian glass of the last judgement over its portico. The western facade has the twin towers founded in 1892 with the big rose window filled with stained glass, representing the creation by Kysela in 1921.

The group traveled back by bus to enjoy the farewell dinner at the Bikarna Restaurant in the Prague Castle.

We're Fighting For Your Life.

### NEEDED.....

.....The person who will live the Christian life everyday of their lives. (Revelation 2:10). Of course this will not be easy but the end result will be enjoyable, and what a blessing such a one would be to the community.

.....The person who will accept God's Word as their standard. (Psalm 119:105). This person's rule of life would be to comply with the wishes of the Lord, that their days may end in glory.

.....The person who will worship God every Lord's day. (Acts 20:7 and Hebrews 10: 24-25). This individual would be hindered only by the things over which he or she has no control, and all of heaven would delight with this practice.

.....The person who will expect to help instead of expect to be helped. (Romans 1:11). This person would view themselves as part of the solution and not as part of the problems which are plaguing our communities today.

The person who will have a ready mind rather than hold a prize opinion. (I Peter 4:11). Prizing opinions makes for prejudices which close the door to more truth. Our world has enough of prejudices already.

Needed.....Restored devotion and consecration of Christian men and women to Biblical principles, and the pattern of life demonstrated by New Testament Christians.

## Public Notice

Southwestern Bell Telephone Company has asked the Public Utility Commission of Texas (PUC) for approval to offer new optional call management services called Caller Identification Service (Caller ID) and Anonymous Call Rejection (ACR).

Caller ID is a new optional phone service which allows subscribers to see the phone number and/or name of most local calls before they answer the phone. Caller ID also allows the recording of the date, time, name and/or phone number of calls. Currently, Caller ID would work only on most local calls, not long distance calls. It would also require that a separate display unit be connected to the telephone. These units that attach to the telephone will be available from various retail vendors, including Southwestern Bell, at a cost starting at approximately \$50.

Southwestern Bell is also proposing that all customers be able to "block," or stop their name/number from being transmitted and displayed on a Caller ID device, free of charge. You will have this option of "blocking" your name/number on each call free of charge. There would be no need to subscribe to this service. All customers would have this capability when Caller ID is introduced in their area.

If you want to block your name or number, you need only press \*67 on your touch-tone pad (or dial 1167 from a rotary phone) before dialing the telephone number. The person you're calling would see displayed a message such as "private" or "anonymous" on their Caller ID display unit.

Southwestern Bell also proposes that qualified domestic violence and law enforcement groups have the option of free per-line blocking, or free per-call blocking.

Anonymous Call Rejection (ACR or "block the blocker") allows subscribers to automatically reject all calls that have been marked anonymous, or "blocked" by the person calling. It is not necessary to subscribe to Caller ID Name/Number to subscribe to ACR. With ACR, your telephone will not ring if the person calling you has "blocked" his/her name or number. The person calling whose identification is blocked will receive a message to hang up and call back with caller identification unblocked. Following are the proposed monthly rates for Caller ID and ACR.

Proposed Rates (monthly)*	Residence	Business
Calling Number only	\$6.50	\$ 8.50
Calling Name only	\$6.50	\$ 8.50
Calling Name & Number	\$8.00	\$12.00
Anonymous Call Rejection	\$3/\$1**	\$3/\$1**

\* These rates are in addition to the initial installation charges and monthly basic service rate. For residence customers, installation charges are \$2.70 per feature, with a maximum charge of \$5.40. For business customers, the charges are \$5.40 per feature, with a maximum charge of \$10.75.

\*\* Anonymous Call Rejection is \$3 per month if purchased without Caller ID and is \$1 per month when purchased with Caller ID Name or Number.

This proceeding has been designated Docket No. 11362, and a hearing on the merits has been scheduled for November 16, 1992. The PUC has jurisdiction to consider this matter pursuant to Sections 16, 18, 37 and 38 of the Public Utility Regulatory Act (PURA). This application was filed pursuant to the provisions of the PUC's Substantive Rule 23.24. Among the issues that will be addressed in this proceeding is the legality of the Caller ID device and service under Texas wiretap laws.

Persons who wish to intervene or otherwise participate in these proceedings should notify the PUC as soon as possible. The deadline to intervene is October 26, 1992. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the PUC Public Information Office at (512) 458-0256 or (512) 458-0221 teletypewriter for the deaf.
