ADDRESS CHANGES, EXPIRATIONS NEED PROMPT ATTENTION

Neglect on the part of subscribers, to notify the editors of a change in address is proving expensive, and an appeal is made at this time for prompt notice.

Services will be held by Rev. Clifford Potts, pastor of the church, and pallbearers will be Forrest Campbell, Dick Groves, Ober Johnson, Lee Burns, N. J. Smalley and Noble Groves. Interment will be in Matador East Mound cemetery under direction of Eudy-Seale Funeral Home.

Oscar Vernon Latimer was born in Fannin County, Texas, July 20, 1898, and died at Matador, February 13, 1951, at the age of 52 years, 6 months and 23 days.

He was married in 1918 to Miss May Bell Preston, at Paducah, Texas, and they made their home there until 1924, when they moved to Matador. Mr. Latimer was employed at the Red Triangle Service Station for a number of years, and had been with Phillips Petroleum Company since March, 1941, operating both wholesale and retail business in partnership with his son, Loyd, until ill health forced him to retire. Dr. Boren Directs Much Of Speech To Listening Fathers

"Faith is a higher faculty than reasoning," Dr. James B. Boren told his audience in the principal address of the annual Lions sponsored Father-Son banquet held here Thursday evening. The religious and educational leader whose dynamic force has placed Midwestern University at Wichita Falls (he is president) among the foremost in the Southwest, began his address with his Bible, reading four minutes from the Book of Genesis.

He spoke more frequently to the fathers than to the sons. "What kind of footprints are you leaving on the sands of time for your boy?" he asked and added, "fathers should pray to be worthy of the stewardship of their son."

"I measure a man because he is honest, decent and sincere," Dr. Boren declared. "... it's what's inside of a man's heart that makes a dad and it's that which makes a son... and the first principle in life is to believe in God; all other things come after that... fathers, don't take your boy's love for granted. You've got to win him and deserve his confidence. It takes a red-blooded boy to do the right thing, the decent thing... it takes faith and prayer to accomplish worthwhile things in the world and faith alone can lead this world out of its present darkness... we are walking in the twilight today... a brighter era is in the offering."

Judge Introduces
Dr. Boren was introduced by County Judge C. W. Giesecke. His address followed an interlude of music by members of his party, musical students from the Midwestern University. The entertainers were: Shirle Myers and Alvin Moser, singers and Jean Kuykendall, pianist.

Beginning in the First Baptist church auditorium with the assembling of fathers and sons, Scout Sam Hines served as master of ceremonies. Following group singing, Lion Tamer Glenn Woodruff introduced the guests and after the invocation, the fathers and sons filed down stairs to the church basement.

When the first father-son banquet was held 14 years ago, it was in the Matador Methodist church basement but attendance was so rapid that it was moved to the First Baptist church because of larger space.

Scoutmaster and boys' leader Lt. Paul Eubank organized the banquet. Lt. Eubank went down with his plane in the South Pacific during World War II.

Talented Scout Frank Traweek in regulation uniform sat at the piano and provided music until all the fathers and sons were served. A large bouquet of flowers on the piano were a gift from Lt. Eubank's parents, Mr. and Mrs. C. W. Eubank of Dallas. Announced by Lions President Forrest Campbell, the group observed a moment of silent meditation in honor of Lt. Eubank.

SHOWERS GIVEN RECENTLY AT MATADOR NORTHFIELD HONOR MRS. EDDIE LEARY

Eddie J. Leary, the former husband of Mrs. Jim Dobbins, was honored at two recent miscellaneous showers, one given at Northfield and the other at the home of Mrs. A. C. Traweck, Jr., of Matador.

Hostesses with Mrs. Simpson were Mrs. Jim Dobbins and Mrs. Tom Casey of Northfield; Virginia Seigler and Mrs. G. A. Seigler of Childress. Guests were registered by Mrs. Charlie Lane, and Mrs. Nolan Thomas presided in serving of tea. Cake, of several varieties, was served with the tea.

Attending from Matador were Mrs. Curtis Graham and Mrs. Ed Edwards, mother and aunt of the honoree, and Mrs. W. D. Lipscomb.

A heart motif was used for decorations in the Traweck home Friday afternoon for the gift reception honoring Mrs. Leary.

An upright heart made of pink net and satin ribbon, flanked by tall pink tapers, was used on the mantel in the living room, and a similar arrangement on the buffet in the dining room was flanked by pink candles in triple branched candelabra. Double net and ribbon hearts centered the dining table, which was laid with an exquisite linen and lace cloth.

Dainty open-face sandwiches decorated with pink and green wedding bell mints, and pink napkins with the couple's names stamped in green, carried

out a pink and green color scheme. A silver tea service held hot spiced tea.

Mrs. Billy Dan Thomas registered the guests, and assisting with hostess duties were Mesdames Kenneth Jeffers, W. N. Pipkin, Melvin Meason, J. E. Edwards, Ed Whitaker and Ward Rattan, with Mrs. Edwards and Mrs. Meason pouring. Frank Traweck played several piano selections during the reception.

European Trip Is Reviewed For Club

A review of her trip to Europe last fall was given by Mrs. U. L. Willie at regular meeting of El Progreso Study Club, held in her home last Thursday.

Following a brief business session conducted by Mrs. Frank Pohl, president, which included reports from committees, the meeting was turned over to Mrs. Willie.

A detailed report covering the 14 countries visited, was given by Mrs. Willie, with particular emphasis placed on women's activities and club work, and their defense effort in Switzerland. Mrs. Willie explained how the women who made the trip were selected, how the expenses were paid (each personally paid her own way) and the results of the trip. One of the highlights of the trip was attendance at the Passion Play at Oberammergau. Interesting sidelight of the trip was the mode of travel by which

the group reached their destination.

Leaving the states by plane, they later traveled by boat, glass domed bus and train, and when they left Germany, it was in the private coach of Major John J. McClary, High Commander of U. S. occupational forces. Mrs. Willie was accorded personal recognition when she was asked to preside at a reception given by Mrs. McClary, and also in the fact that she was included in a small number from the group who was given an audience by the Pope at Rome.

Mrs. Willie believes this country is making a grave mistake in spending so much money to erect an expensive edifice to house the U. N. "All over the world you hear peace spoken of as something not possessed, yet longed for and ardently wished for — and unfortunately once again to be fought for," she declared. "We need something more definite and sound than a 'Peace Palace' to bring peace to the world."

At the conclusion of her address, Mrs. Willie exhibited a number of antiques and souvenirs of her trip.

Mrs. Willie will speak today at a meeting of the "Woman's Culture Club" at Sweetwater, following a luncheon in her honor. Accompanied by Mrs. W. D. Lipscomb, formerly of Sweetwater, she will be the guest of Mrs. W. A. Sweden.

Soil Conservation District Makes Gain According To Chairman In Annual Report

Much advancement has been made by the Upper Pease Soil Conservation District, according to the annual report, submitted by James E. (Doc) Taylor, chairman. The complete, unedited report, as submitted to the Tribune by Mr. Taylor, is as follows:

1950 Annual Report of Upper Pease Soil Conservation District No. 123

The Upper Pease Soil Conservation District has done more grass and legume planting in 1950 than in any previous year. The Board has bought more planting equipment for use in the District. A grass drill and an alfalfa drill were bought with local funds, and two grass drills and two alfalfa seeders bought with State grant money.

Mesquite control has been gaining interest this year in this district. Several ranchers sprayed some trial plots. Many are going

to spray more next year.

Interest in the work is pretty well indicated by the applications for help. One hundred ten applications were reported received on 48,510 acres. This brings the up-to-date total to 567 applications on 436,748 acres.

Farm plans were made on 104 farms in 1950. This brings the total farms and ranches planned to 465, covering 350,705 acres. The weather during the early part of the year was very favorable to terracing. District operators built 1099 miles of terraces to bring the total up to 3,348 miles. All of the newly terraced land was contour farmed. New acreage contour farmed was 19,892, which makes the total 74,160 acres up-to-date. Cover crops were planted on 5,238 acres and crop stubble kept on 19,975 acres. The total cover crop to-date is now 17,247 and stubble mulching is 79,849 acres. Range and pasture improvement have increased a great deal during the past year. Range improvement for the year was 66,800 acres, making the total 128,363 acres. Pasture improvement was practiced on 2875 acres, to bring the total to 3,020 acres since the District started. Permanent grass was established on 5,497 acres, to make the total to date 7,611 acres. ponds and 21 miles of field diversions were built. All of the above practices were done by cooperators who have completed their farm plan and were assisted by the Soil Conservation Service.

County Agents Grady Lane at Paducah and Rufus Emmons at Matador helped the District with educational tours and meetings. Both attended Board Meetings and advised with the Board on educational matters. Lane held several tours to observe mesquite control and grass planting tests. He took information concerning district organization and operation to all 4-H Clubs. Emmons took 30 ranchers to the Spur Experiment Station to see mesquite control work and helped to get control applied to 3,000 acres in the Upper Pease District. He spent 41 days helping apply conservation work on the land, including the running of 108 miles of terrace lines.

The Vocational Agriculture teachers at Matador and Paducah have taken more interest in the district. They attend meetings regularly and have accumulated some film strips on District operations which they are using in class and for adult education.

The Soil Conservation Service has been able to meet all demands for planning, making surveys and helping to apply practices at Paducah. Part of the year, they had only an aid at Matador. The work at Matador did not progress as well as at Paducah. The Paducah Work Unit has made excellent progress during the year 1950.

The greatest need for 1951 is for a bigger educational program, especially in the western part of the District. The people need more information about the District and how it works. Plans have been made to get some equipment for the County Agent and the Vocational Agriculture teacher to help them carry on this job and to publish the District Program, and District Plan, so all land owners can have a

copy. This should help the situation a lot.

The next greatest need is for more soil improving crops in the cropping systems of the farmers. Since fall weather has been so dry for the last four years, fall planted crops have not been doing well. Summer legumes and grasses look safer and will be pushed more in cropping systems.

The State Grant money has been used to buy two alfalfa seeders and two grass drills. These are all new and the funds and equipment will total the amount of the allotment.

The local fund is \$150.00 in the red. Money was borrowed to buy one alfalfa seeder in 1949 and one grass drill in March 1950. The total was \$920.00. Rentals have kept up the equipment and paid off all but the \$150. The grass drill has been used only one season so it should pay off very well in 1951.

A great many factors such as the drought, labor shortage, war conditions and cotton allotments make 1951 a hard year to predict. A lot of good conservation will go on in spite of these conditions.

What's its Power?

FIREBALL!

(Only Buick can make this statement)

BEND an ear to the deep baritone song of this marvel motor, and you'll know we aren't fooling when we call it Fireball.

What happens beneath that brawny Buick bonnet happens in no other car in the world.

Years ahead of the rush to high-compression valve-in-head engines, Buick was in there pitching for more power from every drop of fuel.

The result: a spectacular engineering phenomenon you feel the instant you touch toe to gas treadle. A rapid-fire sequence of tiny tornados, let loose their pent-up power every five inches a Buick travels.

If you could look inside that Fireball engine, you'd see why. Instead of the flat-topped pistons used in other cars, Buick uses a *turbo-top* piston, like this:

So the intruding fuel whirlwinds into a compressed ball that adds a super-urge to the downstroke of the piston.

And you get the thrill—and thrift—of this Buick "first" in every mile you drive.

More, you get a tried-and-true engine that's

been polished and perfected in every detail up through the years.

Again and again, compression ratios have been stepped up to keep pace with advances in fuels. Self-setting valve lifters contribute to silence. Micropoise balance and Hi-Poised engine mountings add two more Buick exclusives.

And the silken might of this Fireball's power has been made more beautifully obedient by still another "first"—Dynaflo Drive.*

So we list as a prime reason why "smart buy's Buick" this Fireball power plant—and a host of happy owners will say "Amen."

Better see your dealer soon.

The story of a faith that paid off

YOU KNOW IT'S TRUE BECAUSE IT'S HAPPENED TO YOU AND YOUR FRIENDS AND NEIGHBORS

PROBABLY YOU'VE never thought of yourself as a maker of history. But you are. And here is how you, as a citizen of the United States, are creating the greatest success in all history.
 Remember back in 1941 when the Defense Bonds you were buying suddenly had to become War Bonds? How you and your neighbors pitched in to buy them in ever-increasing numbers, to back our fighting men and to help achieve the victory of World War II? After V-J Day, when those bonds became Savings Bonds, you continued to buy them because you had learned how regular saving could build security and contentment for yourself and those you love.
 The face of the land has undergone some dramatic changes in those years since V-J Day. Now the landscape is dotted with new homes that Savings Bonds built. Thousands upon thousands of new automobiles travel the highways—Savings Bonds cars, bought with the product of individual thrift. On the farms, Bond-purchased equip-

ment has helped produce bumper crops and prosperous years. Everywhere in America, man's urge to get into business for himself has become a bright reality. So has the ambition of loving parents to send their children through college. Time and time again, Savings Bonds have made those dreams and many others come true.
 You KNOW they've come true, because it's happened to you or to some of your own friends.
 And this is only the beginning of the story. Even after accomplishing so much, millions of American families still enjoy the financial security of owning more than fifty billion dollars—fifty thousand million dollars in Savings Bonds. More than at the peak of war-time Bond holdings!
 How much money is that? It's enough to build a new \$10,000 mortgage-free home for every family in San Francisco—and Sacramento—and Salt Lake City—and Denver—and Kansas City—and St. Louis—and Indianapolis—and Cincinnati—and Pittsburgh—and New York City—and the whole state of Texas!
 And every week, everywhere in America, new millions of dollars are added to the total—as crisp new Savings Bonds are typed up with your name on them.
 Kind of a king-size success story, isn't it? Your success story because you and the millions of your neighbors are living it right now. Your own faith in America—your own desire for the warmth of family security and independence—have made the story of United States Savings Bonds the thrift miracle of all time.
 For your security, and your country's too, save now—through regular purchase of U.S. Savings Bonds

LEADER SAYS . . .

(continued from page one)
Lion chefs Henry Pipkin and Curtis Graham and their aids provided hundreds of pounds of prime barbecued beef, potatoes, beans, stew and apricots for more than 300 attending. A corps of "trained Lions" served the plates and filled cups and glasses with orange punch and coffee. The entire banquet moved smoothly and almost effortlessly as a result of the years of experience. Assistant to the chefs "Bud" Lowe reported that a gallon of barbecue sauce was lost in the transfer of foods from Lion Pipkin's barbecue pit to the church basement. He said some Lion must have driven away without knowing the sauce was in his car or pickup.
