

Public Apathy Endangers Freedom' - Izzard

PUBLIC APATHY to government controls may surrender the nation's precious liberty to a despotic condition with the people doing the thinking, according to West editor of the Amarillo News who Tuesday night here to an appreciative District court room audience was guest speaker of a progress club and the meeting thrown open to the public.

Mr. Izzard said, "that I had scared the life out of him in a radio talk in which I had declared that Washington is already doing much of our thinking... telling us what to do and when to do it... but this friend said he was more disturbed over the fact that he liked to be relieved of the trouble of thinking... I don't know the answer," Mr. Izzard declared, "but I do know that every time we accept a new control we surrender that much of our personal liberty... perhaps the people are thinking more seriously now and this year's elections may show that they want to change the trend from socialism..."

After tossing a few oral oracles at Tribune editor Douglas Meador who introduced him, Mr. Izzard commented that the meeting looked like a father-daughter affair, with so many attractive, young-looking women accompanied by as many elderly-looking men. He paid high tribute to Matador and the friendly people of this area. "They are good people," Mr. Izzard said. "And the Russians are good people. The great masses of the people of the world are good people. I was stopped by Russian soldiers while on a train during a trip to Europe last year. I could not speak a word of their language nor could they speak a word of mine. But they were good-looking young men from the Russian Ukraine. They were interested in America. They had a sense of humor and I think we might have found many things in common if we could have understood each other's language... I think we should fight Russia with the same methods Russia is employing... we should supply arms to the parts of Russia which might see possibilities in revolt... those people of the Ukraine, the great level wheat lands of Russia, will be the first to ferment into revolt, if given a chance... there are also an estimated 15 millions of people in Russian slave labor camps... if arms could be supplied to them they could defeat the Russian communist oppressors from within the Soviet Union... it would cost only a fraction of the great amount of money we are spending on our war machine... and what are we going to do with our 150 billion-dollar war machine when it is completed?... are we going to fight Russia or are we going to dismantle it and tell our soldiers to go home?"

Reception Held
Following the program at the courthouse, Mr. and Mrs. Izzard were guests of honor at a reception in the home of Mr. and Mrs. G. E. Hamilton, with members of El Progresso club, their husbands and several others, in the guest group.

Hostesses for this affair were Mesdames Freeman Thacker, L. C. Harp, Forrest Campbell, R. E. Campbell, Jr., Robert Darsey and A. C. Traweck, Jr.

Hot spiced punch and tea cookies were served, with Mesdames Thacker, Darsey and Forrest Campbell alternating at silver services. Red and white, two of the club's colors, were used in decorations.

Matador cafes this week have conducted "coffee on the house" drives, each cafe giving all the money received one day from the sale of coffee to the drive.

Bill Waybourn, manager of Waybourn's cafe said contributions were lighter than last year but that many patrons paid \$1 for a cup of coffee. He said that all waitresses in his cafe also gave their tips for the day to the drive.

Amount raised to date is approximately one half of the total raised in the county last year.

Surprise Visit Is Paid Northfield

TWO TALL MEN dressed in hunting clothes Monday afternoon entered a class room in the Northfield rural school. The students were not at first impressed until Northfield Commissioner Boone Simpson tapped Superintendent G. F. Yeates on the shoulder and said, "This is Governor Allan Shivers."

In a few minutes the school of approximately 40 students was brought to assembly and the genial Governor made them an address.

Previously Mr. Simpson told a Tribune reporter the children had learned that Texas' highest official would be in the community during the day on a quail hunt and had expressed hopes of being able to at least see him.

During the noon recess of the hunting party at the Simpson ranch home, Mr. Simpson asked the Governor if it would be possible to visit the school. Governor Shivers readily consented.

So Northfield school students were honored with the Governor's visit and address. Altho the visit was entirely informal Monday will probably remain as one of the most eventful days in Northfield's history. Governor Shivers was the first governor ever to visit the remote Motley county community.

But he liked the hunting, the Simpson ranch cooking and the friendly reception he received and has asked to return next season.

"Cancer is not a hopeless, incurable disease. It is not contagious or in itself hereditary. There are thousands of men and women in this country who have been successfully treated for cancer. The great hope of cancer patients lies in their having treatment during the first stages of the disease. Cancer announces itself by symptoms that are frequently painless and apparently trivial, thus giving the disease an unseemly advantage. Early diagnosis is the one powerful antagonist.

"The danger signals can be classified as follows: Any lump in the breast or other part of the body; any persistent sore, particularly on the face or mouth; any unusual discharge or bleeding from any part of the body, such as vomiting of blood, passage of blood from the bowels, or unusual bleeding of any bodily passage, especially after micturition. These symptoms may be from some other cause but should be diagnosed by a physician.

"Two main rules should be followed in cancer treatment. First have an annual physical examination by a reputable physician. In this way incipient cancerous conditions can be discovered and by proper treatment the disease can be conquered. The second rule is to mistrust high promising statements of 'amazing new discoveries'."

Mr. and Mrs. Melvin McAdams of Sudan, visited here during the week-end with her sisters, Mesdames Eddie Russell, C. M. Barton and Alfred Barton, and with other relatives.

EARLY TREATMENT OF CANCER VITAL

"While the span of human life has been lengthened 10 years during the last four decades, the disturbing fact remains that there has been a marked rise in death from cancer during the same period," declared Dr. Geo.

AGGIES LEARNING LEATHER TOOLING

The Aggie classes of Matador High school have gone strictly artistic in the past six weeks. They are learning leather tooling. Each boy made from one to three belts and billfolds.

The process by which the belts are made is as follows: First,

Mr. Moss cuts off a strip of leather the desired length, then the student cuts the tapers and puts the border on. If he wants to put a name or initials on his belt he traces the letters off on a piece of paper and then transfers from paper to leather. After this is done he chooses a design from the group of designs on hand. When he has done this he traces it off on paper as he did the letters.

The next step is to put the paper on the belt; then take a modeling tool and trace over the design. The next step is to take a background tool and a mallet and beat in the background. Next you shape the flowers and the leaves and put in the finishing touches. Then if you want to dye it you have a choice of these colors: red, yellow, brown, green and black. When you have finished dyeing you put lacquer on your belt. Then put your snaps on and cut the holes; then the buckle set. This finishes their work for the first semester.

THREE MATADORS ON ALL-DISTRICT

The Matador High school's 1951 football team had three all-district players on it. Out of the starting lineup, Dewayne Martin made the first team all-district halfback, Jimmie Graham made the second team all-district tackle, and Kenneth Dunning rated in the second team at defensive end.

All three boys played an outstanding game of football all season with the help of the rest of the Matador team.

The Matador football squad loses only two of its lettermen this year, Jerry Edwards and Kenneth Dunning.

HOME EC GIRLS TO STUDY CLOTHING

The girls of the Home Economics department consists of Juniors, Sophomores and Freshmen girls. They have cooked the past semester. The girls have prepared and served the trustees, their mothers and other guests. They also cooked Christmas candies for a Christmas party.

County Home Demonstration And 4-H Clubs Reach New High In Achievements In 1951

In January, 1951 the home demonstration clubs of the county reported their plans and goals for the new year, as follows: Matador, to beautify the cemetery; Folley, help 4-H club boys and girls; Roaring Springs, continue work on the city park; Flomot, add a new rock fence to the arch built at the cemetery in 1950; Whiteflat, continue work on their club room and kitchen; Toreador, help needy people in Matador; Northfield, repair the cemetery.

Each club accomplished its plans for the year, according to Miss Marie Rea, county home demonstration agent. At the close of 1951, Matador club reported a new cemetery association had been organized with some of its club members as officers.

Folley has helped the 4-H organizations and took fourteen

girls and boys to the South Plains Fair in Lubbock; sent a girl to the district 4-H encampment and one girl to the 4-H Roundup at College Station, Texas.

Whiteflat bought 14 chairs and a store, and upholstered a chair for their club room. The money for these purchases was made by charging a small fee for their community "42" parties.

The Toreador club gave baskets of food to families at Thanksgiving.

Northfield club cleaned the weeds and trash from their cemetery and repaired a fence around the grounds.

Roaring Springs club planted ten shade trees, eight cedars and two beds of flowers in their city park, and set up swings, one slide and a basketball goal for the children of Roaring Springs.

Flomot club raised money to

construct a rock fence all around their cemetery and had enough money left to remodel the Flomot school lunch room.

Committees Report

The committee chairman report the following progress:

Finance and Marketing, budgets carried out as planned, and aluminum trays, reed baskets and iron rests ordered.

Yearbook committee planned the new program of work to be taken up, which will be clothing and have the new yearbook printed and ready to begin 1952.

The E. E. E. worked on the project of getting a new exhibit case which the Commissioners' Court has purchased and which now holds educational exhibits in the lobby of the courthouse.

The 4-H Committee reported 65 girls entering the county dress revue; a county 4-H committee was organized; 60 girls and leaders attended the 4-H club encampment and 70 girls and leaders took the educational tour to Amarillo. The girls netted over \$300 on a baby show held in the fall, all of which will be used for educational purposes.

4-H Girls Increase
The County 4-H girls clubs have increased their enrollment from 56 to 135, and number of clubs from three in 1950 to five in 1951.

A committee for the county

has been organized and the girls are making excellent progress in cooking, sewing, gardening, landscaping, and remodeling bedrooms.

"The public can help and encourage the girls by backing our 4-H clubs in each of their undertakings in 1952", Miss Rea stressed.

Accurate . . . Dependable . . . Reliable

The longer average life span today is best proof of the fact that more people call their doctor without delay when ill. It is just as important to see your doctor WHEN YOU ARE WELL — for a regular and careful checkup twice a year. He can thus treat minor ills before they become chronic or serious and help you live longer.

Your doctor and your druggist form a team—working together at all times to keep you well. Just as it is your doctor's province to diagnose your ills and treat them—so is it our work to fill your doctor's prescriptions — accurately and carefully.
