

Bank Deposits Gain By Half Million Dollars

are in good shape, financial outlook. Although the 1950 census shows less than 4,000 of us in the entire county, we each have an average of over \$1,000 in the First State Bank of Matador. (There must have been an error in our statement.)

close of the business year, \$4,235,000, the largest deposit ever recorded in Motley county and approximately \$500,000 more than a year ago. The good cotton crop and high-priced livestock are the contributing factors in the county's prosperity accord-

ing to Executive vice-president Elmer Stearns. The profitable 1951 cotton crop was reflected in Christmas retail sales in Matador and Roaring Springs. Merchants in most lines declared purchases reached an all-time high.

While the large bank deposit reflects the general prosperity and economic soundness of the county, much greater prosperity is supported by the increased value of farm and ranch lands and all types of livestock. Much of the land that could have been purchased for \$10 or \$15 per

acre ten years ago, is not for sale at five times that amount. Livestock values have also increased in a like manner. Another latent indication of general prosperity in this area of West Texas, is the great improvement in all types of farm and urban homes. Many fine,

modern homes have been built throughout the area and almost without exception, homes have been remodeled and improved. Beyond that they are equipped with modern conveniences, including electrical and gas appliances. New and near-new

automobiles and trucks in the county represent another great investment. It is probable that no time in the entire history of Motley county has it reached such a high average of prosperity as the beginning month of 1952.

The Tribune Supports A Veteran For Office

Motivated more by principle than policy, the Tribune considers it a privilege and a duty to support Fred G. Simpson, Jr. for the office of County Judge and Ex-officio County Superintendent. The Tribune recommends without reservations, the candidacy of this combat veteran. He is alert, educated and especially qualified for the office. He is fair and honorable in all his dealings and he possesses the character, conscientious dignity and high regard for responsibility which the office commands. If elected he will bring to the office a wealth of natural ability, mature evaluation in all decisions (he is 32 years of age) and an honest desire to serve the people of his own, native Motley county in such a manner as to completely justify their confidence. Despite his extreme modesty and reluctance to mention his war record (this recommendation is written without his knowledge), the Tribune feels that the people of Motley county will not object to being reminded that he served four years, and was released from service as an Air Force captain. He has flown great planes to almost every place on the globe and served in preserving the American way of life, which includes keeping open the doors of churches, schools and courthouses. His schooling was interrupted by army service, but later completed after the end of the war. He is a graduate of the University of Texas Law School and has a license to practice law in Texas. The Tribune asks your support in giving this veteran the opportunity for which he is eminently qualified and richly deserves.

Needed Moisture Brightens Hopes

Hopes of farmers and stockmen (and businessmen) were brightened by last week's winter storm which relieved the critical drought condition. Moisture received here totaled 1.26 inches, including rain, sleet and snow, according to the U. S. rain gauge maintained by city water Superintendent Herman Stanfield. Roaring Springs recorded .95-inch and in the Flomot community some measures showed as much as 1.75 inches of precipitation. Due to the nature of the storm (freezing rain, sleet and snow) it was difficult to procure an accurate measurement. Wheat conditions have been greatly improved, farmers declare and the immediate drought conditions have been removed. Farmers declare the nature of the moisture-fall was ideal since the "every" drop soaked into the ground. It is also declared that the ground-freezing weather will aid in eliminating many insect eggs, which in turn benefits the general prospects. Much wheat in the county has shown improvement since the storm and a continuation of favorable growing weather will tend to further brighten the crop outlook picture.

Good Showing Made As Campaign Opens

FREDDIE WELLING IS REELECTED CHIEF BY MATADOR FIREMEN

Freddie Welling of the West Texas Utilities Company service department, Monday night was again named chief of the Matador Volunteer Fire Department. Chief Welling succeeds himself to hold the department's top office for five times. Election is by members of the department for terms of one year. Names of other officials of the volunteer fire fighting organization named at the Monday night meeting, include: Bert Schweitzer, assistant fire chief; Calvin Monk, secretary-treasurer; Billy Wason, first hose captain; Papp Price, second hose captain; E. A. Day, lieutenant; Brian Martin, lieutenant; and L. M. (Bugger Red) Cox, tailtwister. Collection for the county polio drive was made among the firemen and Campaign Chairman Jack Norman said generous donations were made by all firemen attending. Response was aided by effective, if slightly unethical methods employed by the department's "tailtwister" Billy (Poncho) Wason.

Contributions To Polio Fund \$800; Leaders Hopeful

EARLY contributions to the 1952 Motley county infantile paralysis fund drive, gave hope to civic leaders that last year total collections of over \$2,700 might be exceeded. Jack Norman, manager of the West Texas Utilities Co. office here, who is serving as county chairman for his second year, said last night that contributions of approximately \$800 had been received in the drive's opening week. He said the contributions had been made through personal solicitations here and that he had no report from other communities in the county. Cooperation of Matador cafe's has been promised next week with each cafe designating a certain day for "coffee on the house" campaign. No charge will be made for the coffee. All that is donated for the coffee will go to the polio fund. Last year some customers paid as high as a dollar for a cup of coffee, although the average was much less. Mr. Norman said churches of the county have agreed to aid in the drive by devoting a brief period of services in behalf of the movement. "We have found a wonderful spirit of cooperation," Mr. Norman declared "and I feel that Motley county will carry its full share of the burden of relieving little children (and many grown-ups) from the tortures of this dreaded disease. Anyone desiring to make a donation by mail or direct, may make it to Andy Hurst or myself."

More Time Sought In Auto Inspection Law

State officials hoped Tuesday they had found a way to extend the time for compulsory auto inspections and break a car jam at garages that has Texas motorists fuming. Whether the plan works depends on the answer to be given in a few days by Atty. General Price Daniel. The question will be whether Homer Garrison, Jr., director of the safety department and administrator of the law, can set a new inspection period. If he can, then the period will be extended to as much as next September 7. Meanwhile Motley county motorists are taking the new law calmly. One automobile agency

Cartoonist Hudson On Lions Program

Cartoonist H. H. Hudson of Amarillo whose outstanding post cartoons appear in many West Texas newspapers will appear on Tuesday (January 16th) Lions Club program. Mr. Hudson was secured through County Agent Rufus Emmons. The program is basically an explanation of the cartoon in relation to newspapers and graphic public relations. The regular meeting of the civic club will be held in the basement of the Methodist church. Since first scheduled 1952 meeting of the club fell on New Year's Day, it was omitted.

Hear Him!

One of the country's outstanding speakers, Wes Izzard, will make an address in the courthouse District Court room at 7:30 Tuesday evening. Mr. Izzard, whose appearance here is sponsored by El Progreso club, is editor of the Amarillo Globe-News and an authority on national and international affairs. His voice is familiar to hundreds of Motley county residents because of his news commentaries over Amarillo radio station KGNC. Mr. Izzard has not announced his subject, but the Tribune promises it will be interesting and urges its readers to hear him. Admission is free.

FIRST BABY OF YEAR BORN TO D. L. HALLS

First baby born in Motley county in 1952, so far as the Tribune has been able to learn, is Denver Loyd, Jr., who was born January 4 at 2:25 p. m. at Tra-week Hospital, to Cpl. and Mrs. D. L. Hall of Whiteflat. The father is a Korean war veteran, having returned to the states over a year ago, and is now stationed in Maryland. The mother is the daughter of Mrs. George Kendall of Whiteflat.

Abstract Firm Has Courthouse Office

Change of office location and management of the Motley County Abstract Company was announced in last week's Tribune. The firm has moved to an office in the courthouse (north-east corner, second floor, reached by east stairway).

ATTENDS CONFERENCE

Superintendent Bert Ezzell returned during the week-end from Austin where he attended a mid-winter conference of Texas school administrators. He said the greatest concern of school men was the proposed change in teacher certification laws and the proposed accreditation system for Texas schools. According to the Dallas News, Garrison, who has been harassed by protests that there are not enough inspection stations to inspect all cars by the end of March, said the proposed extension plan would be a solution. He declined to predict that plenty of inspection stations would be licensed for all motor vehicles to be inspected within the present period. Automobile men here believe it will be possible to inspect all the vehicles within the county if owners come in immediately for their inspections and do not delay to cause a "last minute" rush.

John B. Stapleton Seeks Re-Election As Dist. Attorney

The Tribune is authorized to announce the candidacy of John B. Stapleton for re-election to the office of District Attorney of the 110th Judicial District composed of Briscoe, Dickens, Floyd and Motley counties, subject to the action of the Democratic Primary, July 26, 1952. Regarding his announcement, District Attorney Stapleton said, "I am grateful to the people of the district for their past support and favors, and I appreciate far more than I can ever say the citizens of the district since I have been in the office. I also want to thank all of the jurors and grand jurors for their unselfish service. "I trust that my experience in the office better enables me to serve in the future and warrants my seeking re-election. If I am re-elected, I will continue the same policy of fair, impartial and vigorous prosecution, with courtesy and consideration for everyone. I will continue to devote my time and abilities to the affairs of the office. "I sincerely and respectfully solicit the vote and influence of every voter in the July 26th primary, and I assure everyone in advance of my deepest appreciation."

Office Opened In Theatre Building

C. W. Giesecke Agency insurance and real estate office opened this week in the Rogue theatre building, former location of the City Jewelry. Mrs. Giesecke is in charge. The office has been redecorated and office fixtures are being installed. Besides the insurance department, the office handles listings of homes, farms and ranches and rentals. Application has been made for a telephone and installation is expected to be made in the near future. Clocks and watches left with the City Jewelry for repair before the business moved, are available to owners at the office.

T. E. Long Enters Precinct One Race For Commissioner

The Tribune is authorized to announce the candidacy of T. E. Long of Matador for the office of Motley County Commissioner precinct one, subject to the action of the Democratic primary, July 26, 1952. In making his announcement, Mr. Long said, "I have had eight years experience as commissioner (precinct four) in Motley county, which I feel qualifies me for the office which I seek. I am in good health and not ready to retire. My business is such that I have ample time to devote to the duties of the office. I have been a continuous resident of Motley county since 1923. "If the people of precinct one elect me to office, I promise fair and impartial treatment to everyone, with faithful obligation to the best interests of the people. "I will appreciate the vote and support of everyone in the July primary and pledge my very best efforts to justify the confidence placed in me."

Many Locals Omitted In Last Week's Issue

Although the Tribune last week used more locals and names of people than it has in a single issue in a number of years there were many locals left over which are used this week as delayed items.

County Treasurer, Mrs. Velma Fuller Seeks Re-Election

The Tribune is authorized to announce the name of Mrs. Velma Fuller for re-election to the office of County Treasurer, subject to the action of the Democratic primary, July 26, 1952. Mrs. Fuller expressed her appreciation to the voters of Motley county for their support in the past and declared she felt her experience in office warranted her seeking re-election. "It has been a pleasure to serve in the office," she declared, "and if the people re-elect me, I promise a continuation of my very best abilities to fulfill the duties my office commands with sincere effort and diligence. "I will appreciate the vote and support of everyone in the July Primary and thank each one in advance for any favors extended in the interest of my campaign."

C. B. Glenn Enters Commissioner Race In Precinct Four

The Tribune is authorized to announce the candidacy of C. B. Glenn of Roaring Springs for the office of Motley County Commissioner, precinct four, subject to the action of the Democratic primary, July 26. In making his announcement, Mr. Glenn made this statement: "Upon the solicitation of a vast number of friends in precinct four to submit my candidacy for nomination and election to the office of County Commissioner (precinct four) I have decided to submit my name to you for that office. "I have lived in this precinct for 31 years. I have helped build roads all over the southern part of Motley county. I own my own farm and I have kept my taxes paid on a sizeable farm. I believe that I am thoroughly familiar with the problems of maintenance of roads and the problems of county government. "If you can conscientiously support me, I want to assure you I will most sincerely appreciate both your vote and your influence, and shall do my utmost to make you a county commissioner that will be acceptable to the majority of the voters in precinct four."

Water Consumption In City Jumps 30% During Past Year

Water is a mighty popular beverage in Matador, however it is hardly probable the 52,494,455 gallons pumped through the municipal water system during 1951 could be attributed to addicted water-drinkers.

Use of water by the citizens of Matador jumped over 30% last season, or from 40,182,000 gallons in 1950 to the above figure, a gain of 12,312,455 gallons.

Water Superintendent Herman Stanfield keeps a daily check of the amount of water pumped through the master meter at the city wells. July placed the greatest strain on the water system to supply the demand for 8,552,400 gallons with a daily average of 275,884 gallons. By comparison the demand for water in July 1950 was only 3,526,000 gallons and the daily average was only 113,742 gallons.

Altho 1951 was unusually hot and dry, the all-time record for water use indicates a substantial growth in the community.

Except for the 100,000 gallon water storage tank completed in 1949, it would have been impossible to supply the heavy demand.

By way of contrast in water use over 12 months, in the month of January 1951, only 2,129,200 gallons were required with a daily average that amount to only 71,910 gallons.

Victim Of Accident Used Assumed Name

Man buried here December 19 as Thomas Wagoner, victim of an accident on the Northfield road when the Jeep which he was driving struck an embankment, was Edmundo Escajeda.

Fingerprints made by FBI men out of Lubbock of the dead man were sent to Washington and Sheriff John Stotts last week received the following telegram signed by J. Edgar Hoover: "Fingerprint Tom E. Wagoner alias Ed Clapp, deceased, killed in car accident your county December 15, identical Edmundo Escajeda, alias Thomas G. Wagoner, Curtiss Earnest, FBI number 82931. Born Granbury, Texas, April 24, 1903. In February 1921 sentenced to San Quentin, California prison for five years for burglary."

"In May 1932 sentenced to life in Lansing, Kansas state penitentiary for first degree robbery. Discharged in June, 1950. No address or relatives listed our identification files."

Another reply which Sheriff Stotts received from the Lansing, Kansas prison, said Escajeda had served 17 years of the life sentence and had been released. Two pictures were identical to the cowboy known as Tom Wagoner here. He was employed on the Seigler ranch at the time of the accident and had previously worked on the Matador ranch.

His conduct here was without reproach as far as was known

From where I sit... by Joe Marsh
It's Slim's For An "Honest" Meal
Most people thought Slim Benson would probably go broke when he first started his system of letting customers figure out their own checks over at his big diner on the highway.
Slim trusts them to pay for as much as they eat — you simply tell Sally, his cashier, the amount of your bill. It works, too. Take the other day when Buck Harris told Sally his bill was 35¢.
Now I was right there with Buck and I knew all he had was coffee and pie which comes to a quarter. "How come thirty-five cents?" I asked Buck. "Had an extra cup of java the other day, Joe, and forgot all about it — 'til now," he says.
From where I sit, most people are basically honest — and that goes for their opinions, too, even though they may be different than our own. I like a glass of beer with my dinner; you may prefer something else... but we all ought to be allowed to "figure it out" ourselves.

attempted biscuits which didn't rise to our expectations, and Fred, meaning to be gallant, we know, insisted that he liked biscuits with body to them!

Biggest thrill of the year came when we received an orchid on our anniversary.

Most enjoyable event of 1951 was the short vacation trip to California, visiting our friends, Adolph Faylauer and Elaine Niehaus, and having the pleasure of meeting the Will Connell family.

Suppose the reason we didn't suffer any great disappointments during the year was that we hadn't expected too much of anything, and so everything that came our way was gratefully received and appreciated.

For a small community, Matador has a fair number of young geniuses. Every since Frank Traewek was quite small, he has entertained at various affairs with his piano abilities, and now comes another pianist, Mike

Linda's big sister Frances, now Mrs. James Folmar, was one of our favorite intermediates when she was growing up, and now she has a youngster of her own, Sally Lou, who is 4. Before Christmas, when anyone asked Sally Lou what Santa was going to bring her, she spelled out, a d-o-l-l, "But don't tell me what it is", she would add.

50,000 Miles—No Wear!
 Proved Here—

After a punishing 50,000-mile road test, with proper crankcase drains and regular care, engines lubricated with Conoco Super Motor Oil showed no wear of any consequence... in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. Amazing proof: factory finishing marks were still visible on piston rings.

AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as or the first 5,000! Proof that Conoco Super, with its OIL-PLATING, can make your car last longer, perform better, use less gasoline and oil.

stantial meal for 25c, even with 240 regular customers. During September the lunchroom lost \$380 in operation. October and November were also losing months but the lunchroom showed a profit during the month of December.

A state-issued lunchroom bulletin shows some of the reasons it is difficult to keep a lunchroom on a paying basis. Since 1946 grocery prices have advanced as follows: Milk 39%, Oleo 51%, bread 48%, beans 37%, cheese 43%, eggs 38%, ham 85%, liver 126% and beef 155% (lunchrooms receive some state and federal aid).

Mrs. Ida Fair is in general charge of the Matador schools lunchroom. The hot meals are

served by Mrs. W. M. Clifton, Mrs. J. C. McBride, Mrs. Bill Wason and Mrs. S. H. Allen.

Self-Employed To Receive Benefits

Many self-employed persons do not know that the 1950 amendment to the Social Security Act extends coverage to them, according to John G. Hutton, manager of the Lubbock social security office.

This change became effective on January 1, 1951. Self-employed persons now have the same rights to benefits on behalf of themselves and their families as employees.

Self-employment includes individual store owners, partners, pulp-wood operators, owners of shoe shine stands and numerous other business activities. There are 14 specific exceptions for professional people, among them doctors, lawyers, optometrists, architects, veterinarians, professional engineers, accountants, funeral directors and farmers.

A representative from the Lubbock Social Security office will be in Matador at the First State Bank on Wednesday, January 16, at 11 o'clock to assist persons in Social Security matters.
