

# Crowds Jam Matador for Armistice Festival

## Matador Tribune

VOL. 20, NO. 34

MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, NOVEMBER 14, 1946

PRICE 5c

### TRAIL DUST

By DOUGLAS MEADOR

It is my devoir to pay lip service to a certain quality of acquaintances who demand from my time and energies too much for their dull stories and pointless laughter. Yet so they are made rich by many incidents and the most tasteless and is that which knows too much about a few things.

There was a torn place in the clouds that exposed the winter moon like a poor man's ragged coat which fails to cover all of his flesh. A chaste wind covered the rent with a remnant of shadows, as if ashamed in the abundance of sky, there should exist a poverty of darkness.

When fate reaches the thrum in weaving our separate destinies, our frail dreams come to the whipping post of reality and place their little hands in the shackles. They must not escape when truth strikes.

There are no monuments to a thousand fields of golden grain to feed and nourish man; fields are plowed with a share. We place our tributes of bronze and granite on battlefields served with cannons that have served for man's destruction.

Between the gate and windmill, low clouds swept the rider's trail as he advanced into the cold, hyetal night. His hands were numb and the feeling had drained out of his toes pressing worn boot soles against its stirrups. His horse tugged at the reins when he neared the water trough and he released them. While the animal drank, the man stepped to the ground and pulled his Winchester out of the scabbard, slowly forcing a cartridge into the firing chamber. He held the gun in his hand as he rode away. A mile farther he dismounted, tied his horse to a scrubby hackberry bush and walked cautiously toward the house. He could see a shaft of yellow light on the picket fence as he approached. The window was wide and clear. A man was seated at a table before a bright oil lamp. The watching man raised the gun slowly and pulled the hammer back with his thumb. The man at the table looked up and a tiny girl leaped into his arms. He held her close and fondly. The gun lowered slowly and the hammer released without striking the firing pin.

Hate can perish as quickly as it is aroused.

Stars twinkled like harbor lights piloting the great truck through a winding channel of hills while its wheels groaned like propellers churning the sea of darkness. Cattle bawled and pressed their wide, soft eyes against the slatted sideboards, afraid of fear impossible to escape. Two red tail lights wiggled and vanished when the truck reached the open sea of plains. A white scar of moon hung to the breast of western hills and coyotes bayed phantoms of the night. The cargo of cattle, like condemned prisoners granted reprieve, sped on, back to lonely ranges as peaceful as those from whence they had come; back from the very portals of eternity.

As citizens we sometimes forget that an imperfect model may result in erroneous conclusions. We should not expect others to measure up to our own faults.

Gratitude is the gold with which the heart discharges its obligations.

Trees don't go anywhere but they always seem more contented than the clouds and restless winds that have no roots in the soil.

### Engineer is Employed for County Courthouse

Frank Beauford architect with the firm of Wyatt Hedricks, Ft. Worth, has been employed by Motley county to prepare plans and specifications for the county building approved by voters in November 1945. Amount of the bond issue was \$175,000.

Employing of an architect by the commissioners court meeting Monday will have no bearing on the time when construction of the new courthouse is started, County Judge Wm. H. Cammack declared. He said that county officials and the architect believe that the building should not be started at the present time because of the shortages of labor and materials and also because of the advanced costs.

### Matadors Set For Lockney

Matador's final home football game, scheduled for 7:30 p. m. Friday, is likely to resemble an aerial circus.

Coach Doyle Ford's Lockney Longhorns favor passing strategy and are in a nasty habit of snatching pass-through pigskins with an alarming frequency.

And the Matadors occasionally take to the air, particularly when the going gets rough.

Both Matador and Lockney have been beaten by the mighty Floydada Whirlwinds, but Lockney came off three points better than did the Matadors. (See Matador-Floydada game elsewhere in this Tribune issue.)

Floydada won over Lockney 56-19 and downed the Matadors 40-0. It was those accurate Lockney passes that kept their Floydada date from being a 56-zero affair.

On the other hand, Ralls, a team which Matador beat 33-6, grabbed an 18-6 win over Lockney and thereby came out 15 points worse than their Friday night opponents.

But Coach Brady Thomas says that you can't prove anything by gridiron statistics. The game is played on the field.

Lockney has a peculiar situation in the weight department. Their backfield and line tip the beam at the same weight average—149 pounds. Matador's line also averages 149 pounds per man, but a 169 pound backfield average gives them a 20 pound advantage over the Longhorn backs.

Matador's entire unit will outweigh the Longhorn crew by 159-149 pounds per man.

The toughest assignment of Friday night's contest will either go to Don Bradley of Garland Rattan, whichever takes over Hal Courtney's left tackle position.

Courtney is currently under suspension.

### MOTORCYCLE RIDE TURNS OUT FATAL

Two Paducah youths were fatally injured at 7 p. m. Tuesday when the motorcycle they were riding collided with a horse on the Crowell Highway about a mile east of the town.

Dead are Troas Taylor, 22 and his companion, Allen Tomerlin, 18.

Taylor died early Wednesday morning, and Tomerlin died shortly afterwards. Funeral arrangements were incomplete last Wednesday.

### Terminal Leave Pay Sent To Motley Vet

W. H. (Buck) Marshall, Teepee Flat, has received his enlisted man's terminal leave pay, according to Dick Groves, county service officer.

Marshall is a Navy veteran. He received \$9.50 in cash, and \$250 in five-year bonds.

### Amendments, Worley Get Voters' Nod

Motley County experienced its lightest voting in many years last week when two state elections were held. Approximately 22 per cent of Motley's qualified voters participated in the general election, and only about 10 per cent cast ballots in the veterans' land fund proposal, according to Dick Seay, county clerk.

In the congressional election Motley residents gave veteran Gene Worley their approval by a 290 to 10 defeat over Frank T. O'Brien.

Two amendments carried in Motley County. Motley approved Amendment 1, the proposed cancellation of debts incurred by John Tarleton Agricultural College, by 176 to 63.

Proposed amendment two, calling for retirement, disability and death compensation funds for state and county appointive officers, was voted down by a 128-117 vote.

Amendment three, the good roads proposal, carried 290-42.

The fourth proposed constitutional amendment, that of providing a \$25,000,000 fund to procure lands for World War II veterans, carried 106-34.

### Farmers To Get Election Notices

Farmers in Motley County will receive notices within the next few days about annual elections of community and county farmer-committees, W. L. McWilliams, Chairman of the county Agricultural Committee said today.

Each of the county's five farming communities will elect three committeemen and two alternates, as well as a delegate to the county convention where a three man county committee will be elected.

McWilliams said that approximately 600 farmers are eligible to vote in the elections this year. Eligible farmers are those who are participating in the 1946 Agricultural Conservation Program or the sugar program, or who have a contract with the Federal Crop Insurance Corporation.

This includes owners, operators, tenants, and sharecroppers on farms where the conservation or the sugar program is being carried out. Because of the community property law in Texas, the wife may vote if the husband is eligible whether he be landlord, tenant, or sharecropper.

"Since the committeemen are responsible for developing, adapting, and administering national farm programs to meet local problems and needs, it is important that the men elected really represent the choice of the majority of the farmers in the community," McWilliams said.

Mrs. Baumgardner to MAKE HOME HERE WHILE HUSBAND IS OVERSEAS

Mrs. Haynes Baumgardner, who has been with her husband Captain Haynes Baumgardner at Carlisle Barracks, Pennsylvania, returned here Friday to remain indefinitely. She was accompanied by her husband, who left Thursday for New Jersey, and from there will be sent to an overseas post.

While the captain is overseas, Mrs. Baumgardner will make her home with her parents, Mr. and Mrs. L. J. Barkley, until she is permitted, under military regulations, to re-join her husband overseas.

YOUTH TREATED AT CLINIC

Wayne Boling, 10, son of Mr. and Mrs. L. B. Boling, Roaring Springs, was taken to Stanley Clinic Monday in a McDonald Ambulance after suffering an attack of appendicitis. He was discharged the next day.

GRIDMAN IN HOSPITAL

Hal Courtney, son of Mr. and Mrs. H. H. Courtney and left tackle on the Matador High School football team, was admitted to Traweck Hospital this week for treatment of an infected leg. Latest reports indicated that he will not be able to play in the Lockney game this Friday.

### First Vet-AG Class Enrollments Signed

Three Motley County veterans of World War II have signed up for the veteran's administration's vocational agricultural school, according to Dick Groves, county service officer.

The men are Jeune Turner and Doyle Barham of Flo-mot, and John T. Smelser of Whiteflat.

Last week, county officials announced that the school, sponsored by the G. I. Bill, was ready to begin as soon as enough students had enrolled. Groves said that 15 more enrollments are needed to complete the first class.

Veterans may obtain application blanks from Dick Groves at Matador Auto Company. He said that he would help veterans fill them out and that the blanks would later be sent to the veterans' administration office in Lubbock.

### Floydada Man Being Tried For Slaying Of Matador Citizen

Bill Queen, Floydada farmer, went on trial at Floydada Tuesday in connection with the slaying of C. O. Patton, 31, until his death a resident of Matador for six months.

Patton was slain on the Queen farm while he was visiting his estranged wife there. Queen surrendered to sheriff's deputies after the shooting.

Patton lived one mile east of Matador on the old Scott Bolton farm. He came to Matador from Goose Creek.

### New Auto Agency To Open Here Soon

Work on a 30 by 75 foot fireproof brick building, which will later house a Kaiser-Frazier automobile agency, went into its second week this week and the partners in the enterprise, Howard Traweck and Cecil Shelton, announced that they would soon begin a waiting list for the new automobiles.

The building will be just west of the Schweitzer Saddle firm and will contain a small parts room and a repair shop, according to Traweck.

### MHS Rummage Sale Set For Saturday

A rummage sale of clothing will be held by the senior class of Matador High School Saturday in some downtown location, class officials have announced.

The sale will last all day, and money taken will be used by the class to absolve a debt on their new motion picture and public address equipment.

The seniors are seeking donations of clothing and other articles from residents of the town in an effort to accumulate the stock for the sale.

ATTENDS CONVENTION

Rev. Clifford Potts, pastor of the local Baptist Church attended the Baptist General Convention in Mineral Wells this week. He accompanied Rev. L. A. Doyle, pastor at Floydada, in making the trip.

Week end visitors in the home of Mr. and Mrs. Roy Smith were his mother, Mrs. Nora Berry of Rotan and his sister and family, Mr. and Mrs. A. L. Thompson and daughter Ruby Lee, of Anson.

Mr. and Mrs. Earl Vaughn of Lubbock visited here over the week end with her parents, Mr. and Mrs. L. A. Nelson.

Misses Elwanda Martin, Dorothy Nelson and Leona Martin, Tech students at Lubbock, spent the week end here at their respective homes.

### Veterans of Two Wars Meet Here and Share Experiences

#### SPUR MAN GETS VFW'S NEW CAR

R. A. Gilcrease, Spur, a recently returned veteran and a new owner of an automobile supply house in Spur, was awarded a 1947 Chevrolet by Motley County's VFW Post last Monday during Motley County's American Legion observance of Armistice Day.

Some 3,500 tickets to the VFW's part of the observance had been sold, and Gilcrease received ticket number 1096 after he had donated one dollar to the post. It was Gilcrease's only ticket, whereas some persons had obtained as many as 100 tickets.

Tiny Lucretia Edwards, daughter of Mr. and Mrs. Ben Edwards, was in charge of the principal feature of the VFW's program.

#### 220 VETS PARADE THROUGH STREETS

Matador was a jammed town last Monday during Fleming Post's American Legion full day observance of Armistice Day.

Two of the many veterans who met to spin yarns were Leslie Smith, Roaring Springs, the first Motley County resident to answer the call of World War I, and Robert Birchfield, Teepee Flat, the first Motley County resident to be called for World War II.

The day's activities began at 10 a. m. when 220 uniformed veterans of both world wars paraded from Bob's Oil Well and marched up Main Street to the First Baptist Church. Leading the parade was the Ralls High School band which was under the direction of Miss Ruth Willis.

It was at the church that Col. Meade F. Griffin, Lubbock attorney, delivered the principal talk of the day. Colonel Griffin is a veteran of both World Wars, and was chief of the subsection of the war crimes bench in World War II.

He advocated that public schools teach their students practical subjects, such as foreign languages and European history, so that the future generations would know how to deal with the old world.

"Americans must realize their obligations to the world and to their own country," he said.

Vance Gilbreath was master of ceremonies at the program. Rev. G. C. Tiner, Roaring Springs, read the scripture and led the gathering in a prayer; Miss Chareen Ketchersid gave a reading, and Colonel Griffin was introduced by John A. Hamilton. The program included selections by a chorus of the Matador High School Pep Squad under direction of Roy Reeves. Judge G. E. Hamilton ended the church program with a benediction.

#### Lions Directors To Meet At Marvin's

A meeting of the Lions board of directors will be held at 6:30 a. m. Monday morning at Marvin's Cafe, according to Club officials. The regular Lions Club meeting will be held Tuesday noon in the basement of the Methodist Church.

#### Four Nominated For Grid Queen Honor

Four candidates for Matador High School's football queen were elected Wednesday by members of the four classes.

Miss Jerry Hays is the senior nominee, Miss Charlene McDowell is the junior choice, Miss Anh Harp was chosen from the sophomore class, and Miss Ollie Sue Lancaster is the freshman nominee.

Voting will be by penny ballots and the boxes will be set through the town at a later date, the class officers said. Winner of the contest will be presented at the football banquet to be held on December 6.

Also to be presented at the banquet will be the football sweetheart, who is to be elected by Members of the football squad.

Home On Furlough

Pvt. Herbert Smallwood and Pvt. Lee Thomas, both of San Antonio, spent the week end here on furlough, visiting friends and relatives.

VISITORS HERE

Rev. and Mrs. Murry O. Johnson and their 8-months old son, Albert Powell, of Pleasanton, were visitors here this week in the home of Mrs. Johnson's parents, Mr. and Mrs. Homer Sheats. They will leave Saturday to visit in Arlington, and will go to Oklahoma to visit his relatives before returning to Pleasanton.

Tex Litteral of El Paso, visited friends and relatives here the past week.

Miss Elsie Stone, daughter of Mr. and Mrs. Elzie V. Stone, returned to Matador this week from a week's stay in Amarillo with her brother.

Mr. and Mrs. Gene Luker of Lovelland, former Matador residents, visited here a short time Monday as they were enroute home from Pampa, where they attended Northwest Methodist conference.

#### FIRST FROST OVER AREA

The Matador area resembled an icy wonderland last Sunday night as the year's first killing frost rolled in.

Most farmers of the area welcomed the frost and began harvesting which was hastened by the kill. Most nearby fields took on new life as grain sorghums were quickly harvested to provide a heavy and late crop.

A few farmers lost crops because of row crops which were not mature enough to take advantage of the late cool snap.

"Americans must realize their obligations to the world and to their own country," he said.

Vance Gilbreath was master of ceremonies at the program. Rev. G. C. Tiner, Roaring Springs, read the scripture and led the gathering in a prayer; Miss Chareen Ketchersid gave a reading, and Colonel Griffin was introduced by John A. Hamilton. The program included selections by a chorus of the Matador High School Pep Squad under direction of Roy Reeves. Judge G. E. Hamilton ended the church program with a benediction.

Next, on the courthouse square came a concert given by the Ralls High School Band, which was followed by a barbecue for veterans, their families, and gold star mothers.

L. R. (Bob) Robertson, general manager of the Tribune, is the author of this column.

#### REV. OSCAR BRUCE IS NAMED NEW METHODIST PASTOR

This Sunday's sermon at the Methodist Church will be preached by Rev. Oscar Bruce, former pastor of the Lockney Methodist Church, who was assigned to Matador by the Northwest Texas Methodist Conference which met at Pampa last week in their 37th annual gathering.

Rev. G. E. Turrentine, pastor of the Matador Methodist Church since November 10, 1943, was scheduled to leave Thursday for his new pulpit at Abernathy, which was formerly held by Rev. Frank M. Beauchamp. Rev. Beauchamp, speaker in Matador on several occasions, has been transferred to Dumas.

Rev. Turrentine came to Matador from Muleshoe.

In nearby communities other changes occurred. Rev. E. N. Scarlett will have the Paducah pulpit, Rev. J. R. Plant will have the Paducah circuit, and ministers will be named later for the Roaring Springs-Afton churches, which are in the Stamford District. Rev. E. N. Goode will remain as pastor of the Whiteflat-Flomot churches.

Among other action taken by the conference was the placing of Matador into the Vernon district. It has been in the Plainview district.

District Superintendent of the Vernon district will be W. M. Pearce. Rev. E. A. Reed was named as district missionary, and Rev. D. D. Denison, former Matador pastor, is secretary of evangelism.

Rev. Bruce has been minister at Lockney for two years. Moving to Matador with him will be his wife, his two sons and a daughter. Eugene, 7, is the oldest child. Their daughter Carolyn is five and their youngest child, Joe, is three.

**NURSE'S TRAINING**  
 Bessie Clifton, daughter of Mrs. L. H. Clifton of the Flat, has begun nurse's training at Stanley Clinic, hospital officials announced this morning. Miss Clifton attended at Roaring Springs.

**FORMER RESIDENTS VISIT**  
 Mr. and Mrs. J. P. Smith and son Butch, of Clovis, former Matador residents, visited here Monday, having accompanied Mr. and Mrs. Clyde Gilbert and daughter Marcia, home from a visit in the Smith home Sunday.

Mr. and Mrs. Joe Hall and small daughter of Paducah, visited friends here Monday.

**FIXING UP the HOME**  
 By Diane Greeter

**L.P.-GAS HOUSEHEATING**

HAVE you ever wished for some method of taking the chill off the house or, perhaps, only a single room, in the morning or evening? Too often you find that ordinary sources of heat are so slow that the need has passed before warmth is obtained.

Gas, the fast, clean, modern fuel, can solve this problem for you at comparatively small expense. A space heater or floor furnace fueled with gas reaches peak heat-giving efficiency a few seconds after it is ignited. Temperatures can be regulated to suit needs and individual preferences.

Residents of the more temperate climates have found the space heater operated with liquefied petroleum gas—"tank" or "bottled" gas—ideal for home heating the year round. In other sections of the country the convenience

and controllability of the space heater have made it popular for "between-season" heating.

If you're planning to build a new home or remodel your present home, you can enjoy the kind of heat you want at whatever time you want it whether you live in the city, in the suburbs, in the country or on a farm. Liquefied petroleum gas—"bottled" or "tank" gas—delivered by a local dealer to operate your range, refrigerator, and automatic hot water heater, can give you modern comfortable space heating suited to the seasons and to your individual needs.

**Treatment For Tree Bores Is Emulsion**

Masses of gum, mixed with bits of sawdust, on the bark of a peach, plum or apricot tree is an unmistakable sign of peach tree bores.

Entomologists of the Texas A. & M. College Extension Service say that the peach tree borers, small white worms with brown heads, can cause the death of a tree by eating out the living tissues in the trunk.

Cases of such infected trees have been reported on trees owned by Joe Bloodworth, Judge G. E. Hamilton and trees of Roy Bishop, according to Rufus Emmons, county agent.

There are two species of borers—the peach tree, or base borer, which feeds on the tree trunk, and the lesser borer which feeds under the bark of large branches or on the trunk where the limbs fork.

For fall treatment of both the borers, the Extension entomologists recommend ethylene dichloride emulsion, which has been found effective at low soil temperatures.

The emulsion treatment requires very little preparation of the soil before application and can be applied either by spraying or pouring. In some cases, cupping the soil to prevent the liquid from running off, or loosing the earth around the base of the tree to allow it to soak in, will give better results.

Too much of the emulsion can prove harmful to the trees, and extension service officials recommend tree owners to obtain a pamphlet on the subject.

Mr. and Mrs. Norman Harp of Lubbock were week end visitors here with his father, A. A. Harp. The couple was married on November 2, at Hobbs, New Mexico, and both are attending Texas Tech, Lubbock. The bride is the daughter of Mr. and Mrs. William J. Powell of Lubbock.

**Supply Of Sudan Seed At New Low**

Current supplies of sudan seed for the entire nation are 34 per cent smaller than the 1945 supply, and the Texas A&M Extension Service are recommending that farmers hurry to obtain what supply there is left.

Production of sudan seed for Texas this year is the smallest since 1929, according to the Bureau of Agriculture. The yearly average for the past 10 years has been 27,490,000 pounds but the 1945 supply will be 9,000,000 pounds, which is approximately twice of the 1946 supply of 5,200,000.

Glenn Woodruff, student at Texas Tech, Lubbock, was accompanied home Saturday by seven friends who were house guests in the home of his parents, Mr. and Mrs. J. L. Woodruff, and of his aunt, Miss Amy Glenn. The young ladies, Misses Dorothy Ray Bivens, Joy Sawyer, Kay Parrish and Beverly Bisancom, were guests of Miss Glenn. The young men in the party, Bruce Pipkin, Donald Zeleny and Tom C. Haley, were guests in the Woodruff home.

### Roaring Springs NEWS

By LULA M. SWIM

Mr. and Mrs. George Hensarling are visiting relatives in Nacogdoches and Mississippi this week.

Miss Lula Mae Swim made a business trip to Paducah Sat. evening.

Gus Cooper made a business trip to Wichita Falls Monday. Mrs. S. C. Phipps returned home Saturday after a visit in Amarillo.

Mr. and Mrs. J. D. Mitchell and Mrs. Frank Mitchell and daughter made a business trip to Lubbock Friday.

Emmett Jackson of Spur visited his mother Mrs. Virginia Jackson over the week end.

### New Laws Open Up Wild Game Season

(Delayed)

Motley County's duck hunters will be faced with a reduction in game limit this year, according to Cecil Fox, state warden from Spur, who visited the Tribune office Tuesday.

Because of a light crop of ducks this year, the quota has been changed from 10 to 7, he said. According to state game laws, no more than two day's possession may be kept by any hunter.

Hunters who stay within the county will be required to buy a one-dollar license, which may be obtained at the post office, Fox said, but out-of-county hunters must have a two-dollar license which may be obtained at sporting goods stores.

The first season to open will be that of deer and bear. In both instances, the open season will be from November 16 to December 31, inclusive, the exception being on bear and deer hunted west of the Pecos. In that case, the season will be from November 19 to November 24, inclusive.

The limit on bears and deer is one per season, except a two-per-season limit for pronghorn deer.

The turkey (gobbler) season runs from November 16 to December 31 inclusive, with a three

per-season limit, Fox said. For game birds, the gun plug rule (plugged to three shells) remains the same.

Numerous other game laws are listed in the state publication, "Digest, Game Fish and Oyster Laws," the five-dollar license fee required for antelope being one of the many.

Warden Fox advised hunters to obtain a copy of this book from local wardens before beginning their hunts, but at least to see their local wardens before going hunting.

per-season limit, Fox said. For game birds, the gun plug rule (plugged to three shells) remains the same.

### Food Picture Dark For World Despite Production Jump

Washington—The Agriculture Department said recently world food production for the 1946-47 crop will be about seven percent above last year's low level and may even edge above the pre-war average.

But the report warned there still is danger of an "acute" shortage next Spring unless available exports are carefully used. It explained that devastated areas still need large imports despite their own sharply increased food production.

The world came up this year with the largest corn output on record, the department said, but it produced the smallest cotton crop since 1923, with the exception of last year.

Corn, estimated tentatively at about 5,500,000,000 bushels, or about eight per cent above last year and 15 per cent above the 1935-39 average.

Cotton, estimated tentatively at 22,050,000 bales of 500 pounds gross weight, compared with 20,440,000 last year and a 1935-36 pre-war average of 30,875,000.

Population increases is a factor to be considered in the world food situation, the department noted. It is seven percent above the pre-war figure.

Therefore, on a per capita basis food supplies for the 1946-47 consumption year are about five per cent below pre-war.

The 1946-47 demand for food exports promises to be nearly as great as during the past year reflecting a desire of many low-consumption countries to rebuild reserves and to raise nutrition standards.

The most pronounced production increases occurred in war-devastated countries and in areas stricken by drought last year. Nevertheless, the output in many of these areas still is far below average.

The department said that because much of the increase in production this year is in areas where supplies are not readily available for shipment, exportable supplies, in terms of energy value, may be no longer than during the past year.

T. C. U. students have been wondering at the courage of a veteran who comes to classes in a wheel-chair.

But he wasn't injured in combat. He fell out of a pecan tree!

"I went thru the war with only one small leg injury that I scarcely felt," Austin relates.

"Then, eight days after I got home, I fell out of a pecan tree and broke my back."

For game birds, the gun plug rule (plugged to three shells) remains the same.

Numerous other game laws are listed in the state publication, "Digest, Game Fish and Oyster Laws," the five-dollar license fee required for antelope being one of the many.

Warden Fox advised hunters to obtain a copy of this book from local wardens before beginning their hunts, but at least to see their local wardens before going hunting.

Numerous other game laws are listed in the state publication, "Digest, Game Fish and Oyster Laws," the five-dollar license fee required for antelope being one of the many.

Warden Fox advised hunters to obtain a copy of this book from local wardens before beginning their hunts, but at least to see their local wardens before going hunting.

Surplus barracks from Camp Barkley are now being erected on the T. C. U. campus here, to house 200 student veterans. The building will be ready for occupancy by Feb. 1, when the spring semester opens.

Government approval has also been received for the transfer to the T. C. U. campus of additional surplus camp buildings, to be used for classrooms and offices. These will be allotted to the Veterans Guidance Center, and to the School of Business, science departments and mathematics and pre-engineering courses, in all of which there is a heavy veteran enrollment.

Modern autos carry a minimum of five control gauges on the instrument panel. There is a gauge for fuel, oil pressure, heat, electricity, and speed.

**From where I sit... by Joe Marsh**

**How to Handle a Fortune**

Some months ago I reported in the *Clarion* how Mel Bate's uncle died up north, and left him with a tidy fortune.

Naturally, our town was curious to see how Mel would spend it: Traveling around the world... getting a new house or car... wearing fancy clothes... or dining on old pheasant and champagne...?

We can now report, Mel hasn't changed a bit! Drop in on him any night, and you'll find him in his shirt sleeves by the fire, chatting with the Missus, sharing a mellow glass of beer with friends.

From where I sit, Mel has learned the art of handling money—as well as handling people. You don't let cash-in-the-bank push you around any more than you let people push you around. If you like the simple, homey life; companionship and quiet ways; a glass of beer and friendly talk—that's worth a fortune, after all!

**THESE ARE THE BENEFACTORS**

★ One of the greatest accomplishments of civilization has been the remarkable progress made in increasing the average life expectancy. In the Middle Ages the average life span was twenty years. In the seventeenth century it had advanced to twenty-five years. Through the years there has been a steady increase until, today, the life expectancy is sixty-three years for men and sixty-six for women.

Authorities agree that the most productive years of life lie between the ages of forty and sixty. Medicine and the allied sciences have thus been indirectly responsible for all progress. Good minds that had sickened and died before reaching their zenith now live to apply the judgment and experience of maturity. As pharmacists, we are proud of our function in the distribution of lifesaving medical supplies.

**MORE For Your Money**

A dollar is always a dollar, but, every one knows it doesn't always buy the same amount of what you happen to want at any given time. Sometimes it buys more, sometimes less. When the supply of things outweighs the supply of money, your dollar goes a long way; when things are scarce and money plentiful, the buying power of your dollar shrinks. Because this is a law of economics that is constantly at work, almost anyone can turn it to his advantage. How? Simply by laying away as many dollars as possible when prices are high and buying when dollars will buy the most. Yes, it can be as simple as that. The trick is to make up your mind to follow that program and then STICK to it. Many people who do, accumulate their money in an account at our bank.

# Matadors Hold Whirlwinds To 14 Points For Three Quarters; Final Score, 40-0

## Nelson Gets Loose For 65 Yard Threat

For three quarters of play the score stood 14-0 in favor of the Floydada Whirlwinds last Friday when the Matadors went to Wester Field to do battle. It came the final period and nothing happened — nobody knew just what.

As far as Coach L. F. Gresham's men are concerned the fourth quarter was a matter of setup ball playing on their part, but Matador fans point to several bad breaks that Coach Thomas' Matadors underwent. It was a combination of things.

In any event, history says that the Whirlwinds cut loose in the last quarter and boosted the score from 14-0 to 40-0.

The Matadors drove to the Whirlwinds' 24-yard-line once, but were stalled at these points. Halfback Bonner Nelson returning the second half kickoff to Floydada's 24 in a nice 65-yard dash for the only serious scoring threat of the Matadors.

To the Matadors the post-game effect of Friday's disaster will mean a more intensified series of afternoon drills, according to Coach Thomas. The Matadors have two more games to play and would like to finish the season with a four-out-of-five victory record for this season.

To do this, they will have to beat down Lockney this Friday at Burleson Field, and will have to slay the Paducah Dragons at Paducah on November 28.

**Matador-Floydada Game**

Fate smiled on the Matadors momentarily during the earlier moments of their contest with Floydada. Fullback Billy Joe Stephens opened the game with a kickoff to the Whirlwinds' quarterback, Bill Hale, who took the pigskin from his 10 to his 20, where he was nailed by Leo Archer.

Two plays later, Nelson intercepted a pass and made it to Matador's 42-yard-stripe before being stopped. The Matadors were able to work up to the mid-field marker before Stephens got off a fourth-down punt.

Floydada's Bill Womack returned the boot to his own 30 and the Whirlwinds began their second series of offensive downs. Bill Womack darted around right end on the first ball-snap to pick up a first down, but the Matadors then buckled down and held their opponents on the next down series.

Floydada lost ball possession on downs and the Matadors took over on their own 46. It was then that fate stopped smiling at the Matadors.

Halfback Tom Rufus Edmondson was smothered for a 17 yard loss on his own 29-yard line when he had to race back and cover a pass from center which zipped over his head. Nelson was pushed back to the 25 on the next play, and Stephens was nabbed on the 21 on down three.

Floydada set up their first touchdown drive on their own 45-yard notch, the point where Bill Womack had returned Stephens' fourth down kick.

Right half Glen Carmack got to Matador's 49 on the first down, and the Whirlwinds landed on the 43 for a first down on the next ball snap.

Carmack picked up another first down on the next play with an 18-yard gallop which

was terminated by R.C. Giesecke just 25 yards from the Matador goal line.

Bill Womack dropped a yard on the next bit of strategy, but a pass from Carmack to Womack was good for the first tally of the game on the second down. Bruce Womack converted and the score stood Floydada 7 Matador 0, in the first 11 minutes of play.

It was the only tally made in the first quarter.

**Second Quarter**

At the beginning of the second quarter Matador had ball possession on Floydada's 38 yard line, where Left end Walter spray had pounced on a fumble of Floydada's Bill Womack. The Matadors then made two first downs, but lost the ball on downs on Floydada's 24.

Floydada then took over and marched down field for three first downs, a 15-yard penalty against the Matadors giving Floydada a fourth first down on Matador's 20-yard line.

Carmack was held to scrimmage on the first play, but the Whirlwinds picked up another first down on the next ball snap when Bill Hale shot a pass to Bill Womack which set the pigskin on Matador's 10.

Carmack then went to Matador's 5, but was held to scrimmage on the second down. Carmack's third-down right end was good for the game's second score, and Bruce Womack added the extra point to send the score 14-0 in Floydada's favor.

The first half ended shortly afterwards.

**Third Quarter**

There were no scores made in the third quarter, but two outstanding plays, and the thwarting of another Floydada touchdown made the period one of the game's most exciting.

Bonner Nelson nabbed Bill Womack's second half kickoff on his 10, fell in behind a solid wall of blockers and scattered 65 yards to Floydada's 25 for the nearest and longest run of the contest.

Only Glen Carmack stood between Nelson and the goal on this run and Nelson deftly sidestepped this loan interference. However, in doing so, Left half Kelly Hagood had time to catch up with the shifty Nelson and nail him on Floydada's 25.

Matador managed to work down to Floydada's 19-yard stripe from this point, and Floydada took over ball possession there.

The second outstanding play of the third quarter came three downs later when Bill Hale shot a pass to Left End Leonard Grigsby which netted a 50-yard gain and put the Whirlwinds on Matador's 15. Stephens tackled Grigsby and kept the play from being another tally getter.

Floydada worked down to Matador's 5 yard stripe for a first down, but a timely 15-yard penalty against the Whirlwinds set them back on the 20, and the Matadors later got ball possession on their own 15.

From the 15, Matador made one first down and Floydada later took over on the mid-field stripe. Floydada worked the ball down to Matador's 19-yard marker on the next series of downs, and the third quarter ended.

**Fourth Quarter**

Once again the Matadors tightened up on defensive play and the Whirlwinds lost the ball on downs just nine yards from pay dirt.

Matador was able to pick up a first down to their 21. A pass from Edmondson was then intercepted by Center Thomas Amburn and Edmondson halted him on Matador's 15.

Floydada pick up one yard on first down, then Kelly Hagood streaked inside left end for another touchdown to set the score 20-0 and to begin the wild scoring session which lasted through the final quarter. The attempted field goal was no good.

A bit of gridiron strategy was uncorked by Floydada on the following kickoff and the Whirlwinds retained ball possession. Bill Womack attempted an off-side kick, the officials ruled that the pigskin had traveled 10 yards, thus a recovery by Floydada gave them ball possession on the 50-yard marker. The Whirlwinds then picked

up two first downs and landed 21 yards from the goal for another first down. An incomplete pass ate up the first play, but a pass from Hale to Womack was good for a score on the next down. The attempted conversion was no good and the score remained Floydada 26, Matador 0.

Edmondson was able to return the following kickoff to Matador's own 35, where only three yards were gained in three downs. On the fourth down punt attempt of Stephens the snap from center was too high and Stephens was smothered on Matador's 10 when he attempted to turn the kick into a run.

Carmack took the first ball snap and was stopped by Nelson on Matador's 3, and the Whirlwinds dropped a yard on the next play. It was on the third down that Carmack made the next tally, and Bruce Womack's field goal sent the score up to 33-0 for his team mates.

Bill Womack again kicked off and Nelson returned the ball from his 10 to his 35. Three passes were attempted but all

were incomplete, so Stephens punted out on the fourth down. Edmondson killed the ball on Floydada's 40, and it was from this point that the Whirlwinds picked up two first downs and began another down field march, finally ending up on Matador's 20.

It was from the 20 that Carmack crashed right end for the final score of the game. Bruce Womack's place kick was good, and the score was 40-0, with the Matadors on the short end.

The game ended shortly afterwards, after both teams had seen ball possession. Floydada was able to pick up one first down in the fading moments of the contest.

It was from the 20 that Carmack crashed right end for the final score of the game. Bruce Womack's place kick was good, and the score was 40-0, with the Matadors on the short end.

The game ended shortly afterwards, after both teams had seen ball possession. Floydada was able to pick up one first down in the fading moments of the contest.

**DID YOU KNOW?**

That time is running out between the impending pincers of an increasing population and a dwindling area of productive land.

**WE CAN HELP YOU WITH YOUR BUILDING PROBLEMS**

Poor farm buildings definitely lower profit on the farm. It's good business to invest in properly constructed buildings that combine utility, durability and flexibility! Lumber is the ever-modern material for farm and home building, easy to work with, to alter, to enlarge.

**ATTEND LUBBOCK DANCE**

Visitors at a dormitory dance at Texas Tech recently were Charles Ray Cox, son of Mr. and Mrs. B. C. Cox, and Chas. Bird, son of Mr. and Mrs. Glen Bird. The pair were guests of Misses Elwanda and Leona Martin. Mr. and Mrs. Cox also made the trip.

**COME TO CHURCH SUNDAY**

Unusually heavy demands keep building material stocks low, but more and more lumber is being produced. As it is received, we will do our best to take care of your needs.

We are eager to help you solve your farm building problems. Let us get together and talk over your plans.

**BURTON-LINGO COMPANY**

**WE CAN NOT Insure THE ASHES!**

IT is too late to buy insurance after the fire alarm has sounded, nor can we pay you for the ashes if you have neglected properly to insure your property.

Prepare for that dreaded possibility—FIRE. Let us help you with your insurance program to cover your home, auto, farm buildings and crops. There is only one time to insure—NOW!

**THERE SIMPLY ARE NOT ENOUGH NEW CHEVROLETS TO GO AROUND**

We are getting our fair share of the current production of new Chevrolet passenger cars and trucks. And as strikes and shortages decrease, as the Chevrolet plants are able to produce more and more new passenger cars and trucks, we'll get more and more of them to deliver to our customers.

Meanwhile, as long as shortages do exist, it is our purpose to apportion our share of the new Chevrolets available fairly and justly among the many customers, new and old, whose continued friendship and patronage are the keystone of our business.

So that you may have no doubt as to our method of distribution of new Chevrolet passenger cars and trucks, we make the following—

**DECLARATION OF POLICY**

- PRIORITY OF DELIVERY**—New Chevrolet cars and trucks will be apportioned on the basis of: (1) essential public services, (2) veterans' occupational requirements, (3) priority of date in placing orders.
- PRICES**—All new Chevrolet cars and trucks will be sold at the authorized prices current at time of delivery.
- TRADE-INS**—No trade-in will be required from any customer who does not have a car to dispose of at the time of the transaction. Customers who do have cars will be given allowances based on honest appraisal and fair value at the time of delivery.
- ACCESSORIES**—No customer will be asked to purchase accessories as a condition of securing delivery.
- STATUS OF ORDERS**—Customers will be informed, upon request, of the true status of their orders in our files.
- NEW ORDERS**—We welcome your order for a new Chevrolet at any time.

**CHEVROLET**

**WE THANK YOU FOR YOUR PATIENCE AND LOYALTY IN AWAITING DELIVERY OF YOUR NEW CHEVROLET**

 Under the above heading in this column we have given much information on the use and functions of the agricultural conservation program. We feel that much good has been accomplished but much remains to be said in the way of explanation. First of all the program is an association of farmers for the purpose of maintaining and restoring the soils of the county. The association is backed by the Federal Government with federal funds—such funds to be used by members of the association for carrying out needed soil conservation measures on their individual farms. The association is not in the business of construction of terraces, earthen dams, or selling austrian winter peas or superphosphate as some have led others to believe. We have several individuals in the county who take care of this part of the job, from two viewpoints: first for financial gain as it is their particular job and line of work and second, they, as others, see the need for such in the county. These people, the regulations of the association term as vendors. This county has several vendors who are

**Tax Office Gets '47 License Sample**

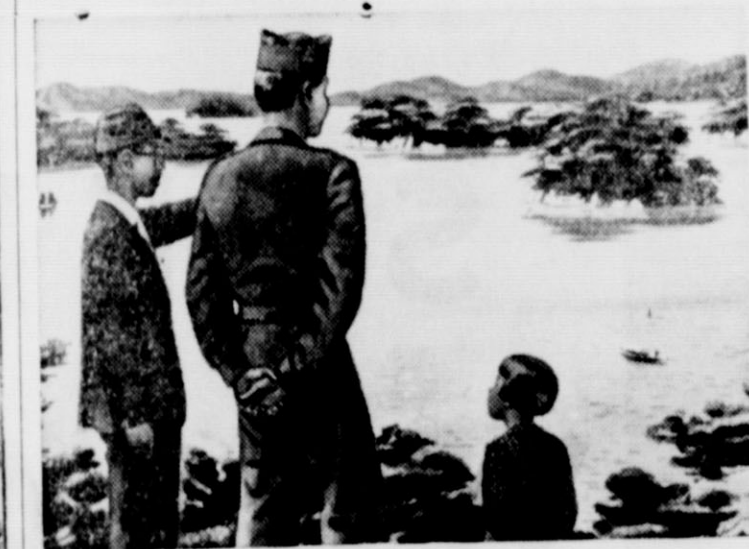

A sample of the 1947 automobile license plates has been received by the sheriff's office according to Miss Rachel Patton, deputy in the tax department.  
 The new plates will be black with white numerals and about 1,000 will be issued to Motley County residents, Miss Patton said. For the first time since the war, plates will be issued for the front and rear of vehicles.  
 The new plates will arrive at the sheriff's office sometime in January, but will not go on sale until February 1, Miss Patton declared. However, the plates must not be put on automobiles until March 1, and they must be on by April 1.

Mr. and Mrs. Howard Amick of Bellflower, Calif., spent Saturday night in the home of Mr. and Mrs. R. W. Amick.  
 Everyone is urged to attend the community singing to be held at the Methodist church Thursday night, November 28. A short business session will be called for the purpose of electing new officers for the cemetery association.  
 Mr. and Mrs. Alton Anderson of Phillips visited in the home of Mr. and Mrs. Harmon Mosely over the Armistice holidays.  
 Parks of San Angelo visited W. A. Kirkland over the week end.  
 Joy and Geneva Tanner and Orville Washington spent Saturday night and Sunday in Canyon visiting Ima Nell Gunn.  
 Mr. and Mrs. B. W. Gunn and Mrs. Pearl Martin attended a birthday dinner in the home of Mr. and Mrs. Raymond Irby of Floydada, last Sunday, given in honor of Mrs. Martin.  
 T. J. John F. Speer arrived home Saturday morning on terminal leave. He has been in service 22 months and spent 14 months in Korea with the occupational forces. He will receive his discharge in December.  
 Guests in the home of Mr. and Mrs. J. L. Speer Sunday were Mr. and Mrs. Wayne Hunter of Denton, Mr. and Mrs. John Speer of Lubbock and Burton Garrett of Fort Worth.

**SORE THROAT—TONSILITIS!**

For quick relief from pain and discomfort try our **Anaesthesia-Mop**. It is a doctor's prescription that has given relief to thousands. Guaranteed superior or your money back. Generous bottle, with applicators on, 50c at MATADOR DRUG STORE

**The Army Ground Forces offers you A NEW LIFE OUT THERE**

Look toward Korea and Japan! A thrilling new job and a new life—with interesting work, sports, entertainment and travel opportunities—can be had for the asking by qualified young men who volunteer for the 1st Cavalry, 11th Airborne, 6th, 7th, 24th or 25th Infantry Divisions.

What an opportunity... what a job! Training in one of these crack units will stand you in good stead wherever you go. Study a foreign language. Learn the fascinating details of Military Government—so vital to future peace and prosperity. Japan's "Isles of Pines" are but a sample of the attractions of an Army career in the Far East. The Army has reopened comfortable hotels, theaters, swimming pools, tennis clubs, golf courses, ball parks. These—familiar haunts of pre-war tourists—and many new developments—provide a broad choice of recreation.

Not everyone can measure up to this job. Only 3-year enlistees who meet prescribed physical and mental standards can enjoy the benefits of such a job. High overseas pay, good food and lodging and a generous retirement plan make your future in the Army Ground Forces too good to miss! See your nearest Army Recruiting Officer for full details.

**Services Held For Former Afton Man**

Funeral services were held Monday at Cleveland community for Clem Scott, 80, retired railroad employee and former resident of Afton for seven years.  
 Mr. Scott died Sunday at the home of his daughter, Mrs. M. F. Blanton, Santa Ana. He was the grandfather of David Campbell of Matador.  
 While living at Afton, Mr. Scott lived with a granddaughter, Mrs. Turner Hunter, and was well known by Roaring Springs residents.  
 He was employed by the Santa Fe Railroad for 20 years, and at one time was a section foreman. Mr. Scott also farmed and did ranching work at Lawn. He was a Mason and a member of the Methodist Church in his home town, Cleveland community, seven miles south of Santa Ana.  
 After his residence in Afton Mr. Scott lived for one year in Floydada with another daughter, Mrs. W. A. Campbell.  
 Other survivors include a daughter, Mrs. Lonnie Woodard Pecos; a son, Bill Scott, Santa Ana; 19 grandchildren and 17 great-grandchildren.  
 Those from this area who attended the services were Mr. and Mrs. David Campbell, Matador; Mr. and Mrs. W. A. Campbell, Floydada; and Mr. and Mrs. Turner Hunter and small daughter, of Afton.

Tribune, Matador, Motley Co., Texas, Thursday, November 14, 1946

**If Isabella had ice cubes...**

Christopher Columbus would never have discovered America!  
 Isabella, Queen of Spain, had caskets full of jewels. She had velvet robes and silken gowns and handsome hand-made shoes. But she had no electric refrigerator! So the jewels were pawned. Three little ships set out against the sea. And Columbus happened on America back in 1492.  
 Fantastic? Not really. In Isabella's day, they tried to keep food from spoiling by spices brought overland at great expense from India. Columbus believed he could reach the Indies by sailing westward on the unknown Atlantic. The rest is in history books.  
 Poor Isabella, with all her clumsy luxuries, never dreamed of ice cubes—nor any of the miracles of modern electric living!  
 Though electricity plays such a great part in today's comforts and conveniences—you're scarcely conscious of electric service. That's because it's always on hand—all you want—at little cost.

## FRANCES BOSTICK BECOMES BRIDE OF ELDEN L. REEDY

In a candlelight ceremony performed at 10 o'clock Sunday morning, November 10, Miss Frances Bostick became the bride of Elden L. Reedy of Dumont, in the home of her parents, Mr. and Mrs. G. B. Bostick of Matador.

Yellow and white mums and lace fern formed the background for the double-ring ceremony, which was read by Rev. R. L. Jameson, Methodist minister, of Whiteflat.

The bride, given in marriage by her father, wore a moss green wool suit, with brown accessories. Her corsage was of sweetheart roses. Her sister, Miss Ruby Bostick was Maid of Honor, and her brother, Lewis L. Bostick, served the bridegroom as best man.

For her daughter's marriage, Mrs. Bostick wore a blue gaberdine suit with a corsage of gardenias.

Mrs. G. E. Hamilton, organist, played a special arrangement of "Some Sunday Morning," and traditional music, being the Bridal Chorus from Lohengrin, and Mendelssohn's Wedding March.

The bride was reared here and in Floyd county, and is a

## BAPTIST CIRCLES HOLD MEETINGS

Members of Burleson Circle of the Baptist Church met Tuesday afternoon at the church and packed a box of canned goods consisting of vegetables, fruit and preserves, for Buckner Orphan Home. The shipment consisted of 110 quarts of food.

A Bible lesson was brought by Mrs. H. S. Watson.

Those present were: Mrs. R. E. Campbell, Mrs. T. E. Campbell, Mrs. L. Rattan, Mrs. J. A. Groves and Mrs. Velma Fulfer. Seven members of Henrietta Shuck Circle met Tuesday night with Mrs. Burrell Tipton. A Bible lesson was given by Mrs. Farris Fish and others present were: Mesdames C. Warren, Bill McCaghren, J. L. Woodruff, Dick Groves and Ben Meador.

Due to inclement weather, only four members were present at last week's meeting, which was in the home of Mrs. J. L. Woodruff.

**General Meeting**  
A box of used clothing will be packed for the Mexican Orphan Home, at general meeting of the W. M. U. next Tuesday night at the church, it was announced.

The meeting will start with a covered dish supper at 7 o'clock and the Henrietta Shuck Circle will be in charge of the program to follow.

All ladies of the church are urged to bring contributions of good, used clothing to be sent to the Mexican orphans.

Miss Chloey Fulfer of Lubbock visited her mother, Mrs. Velma Fulfer and other relatives over the week end.

Mr. and Mrs. R. C. Shilling of Dallas, were week end visitors here with her mother, Mrs. Etta Reeves, and other relatives.

## Irish Linen Is Thanksgiving Choice

A BEAUTIFUL tablecloth, a beautiful centerpiece and the attractiveness of your Thanksgiving table setting is assured. Begin with Irish linen, gleaming white and smooth as kidskin, in an elaborate patterned damask as you desire. The pattern adds to its richness without conflicting with the colorful design of your gayest dinner plates. Finish with a centerpiece of fresh fruits, chrysanthemums and any combination of dried floral material available arranged on a light polished wood top.

## RECENT MARRIAGE IS ANNOUNCED BY BRIDE'S PARENTS

Mr. and Mrs. J. C. Rattan are announcing the marriage of their daughter, Ruth, to Mr. Paul Christman, son of Mr. and Mrs. R. Christman of Salinas, California.

The ceremony was performed October 18, at Virginia City, Nevada, and accompanying the couple were an uncle and aunt of the groom, Mr. and Mrs. Tom Lyma.

The bride is a graduate of the Salinas Union High School, of Salinas, California, where she was reared. She also attended Junior College at Salinas, and after moving here with her parents last year, she attended Texas Technological College, Lubbock. She returned to the west coast this summer, and at the time of her marriage, was employed in the office of Dr. Hilton F. Smith of Salinas.

The bridegroom is also a graduate of Salinas Union High School and for the past two years has been in the service of the Merchant Marines. The couple is at home at 2159 Perkins Way, Sacramento, Calif.

## COCHRAN COUNTY GIRL TO ATTEND 4-H CONGRESS

Ella Katherine Keith, senior 4-H club member of the Whiteface (Cochran County) 4-H club has been awarded a trip to the National 4-H Congress in Chicago, according to an item appearing in last week's Morton Tribune.

Expenses of the trip will be paid by the Santa Fe Railway company, who awarded seven trips to outstanding 4-H club girls in counties that their railroad crossed.

Miss Keith will leave for Chicago November 29 with a delegation of other 4-H club girls and the state 4-H club specialist. This will be Texas' first year to send a delegation of girls to the Congress.

Miss Keith is the daughter of Mr. and Mrs. G. C. Keith of Whiteface. Her father was reared in Motley county, and she is a niece of Mrs. M. S. Patton, Miss Mary Keith, D. P. and Charlie Keith of Matador.

## FIXING UP the HOME By Diane Geeter

**HOW TO CLEAN OVEN**  
KEEPING a new range clean, or cleaning up an old one, has always been a major problem for most housewives. Meat cooked without fat is almost always tasteless. Meat baked slowly will get tough. When fat is subjected to this fast cooking process it will splatter and splash over the inside of the oven. The result is a coating of grease which must be removed as soon as the oven is cool if one is to keep the appliance clean.

Do not use any abrasive material in cleaning any part of the range. The manufacturers put on a surface which is a first cousin to glass. If you scratch tiny lines into this surface, it will produce fine cracks or check marks later. A good strong soap solution will remove the grease easily, but do not use it until the range is cool. Putting cold water on this surface will break it, just as your glassware will break if you put it in boiling water and then into ice cold water. If the grease is not cleaned off and successive coats are allowed to remain, the whole will bake into a new and dirty surface as hard as baked enamel. To remove this, put a cup of strong ammonia in the oven overnight with the door tightly closed. In the morning most of the hard grease will be loose and can be easily washed off.

### Armistice . . .

(Continued From Page 1)

al chairman of the program, said that over 1,200 persons were fed at the barbecue and that 750 pounds of beef and 450 loaves of bread were consumed.

Also on the courthouse square were various concessions, which grossed the Legion \$719.15. Robertson said that \$150 was earned by the carnival and that the total expenses was \$500 for the entire observance.

The carnival lasted through the day and a street dance was given later that night. Among the many uniforms seen that day was a sprinkling of the garb of Matador's Boy Scout troop.

At 7 p. m., a 1947 Chevrolet was awarded by Motley County's VFW to R. A. Gilcrease, a returned veteran of Spur.

Robertson told the Tribune that he wanted to express his appreciation to those who assisted in any way in putting on the program, and also to the response of the general public.

The Ralls High School Band directed by Miss Willis, presented a sparkling program from the band stand on the courthouse square. Included in their selections were several brisk march numbers which held the attention of the crowd.

### Lockney . . .

(Continued From Page 1)

going treatments at Traweck Hospital for an infected leg and will probably be out of action for the Longhorn fracas.

This means that Bradley or Rattan will be facing Lockney's right tackle and heaviest man,

223-pound Delbert Sherer. About the only thing at stake in Friday's game will be Matador's home field record. They have dropped two and won two on Burleson Field, so the best that they can do is to come off with a three-to-five victory sheet in the home game department.

### Local Items

Morris Gates of Lubbock, was a Matador visitor today. Gene Perkins, who has been taking treatments at a clinic in Lubbock, spent the week end here with his family.

Miss Evelyn Shelton, student at Wayland College, Plainview, spent the week end here with her parents, Mr. and Mrs. Cecil Shelton.

Miss Dorothy Jean Henderson of Wayland College, Plainview, visited her parents, Mr. and Mrs. Floyd Henderson over the week end.

Mr. and Mrs. Jimmie Joe Latimer of Lubbock, spent the week end here visiting their respective parents, Mr. and Mrs. Vernon Latimer and Mr. and Mrs. C. Warren.

Recent visitors in Matador were John Ketchersid, son of Dr. and Mrs. J. G. Ketchersid, and his room mate at Texas Tech, Earl Bryant, Jr., son of Mr. and Mrs. Earl Bryant, Big Spring.

### State NAA To Meet In Lubbock Friday

The annual convention of the Texas State Council of the National Aeronautics Association will meet in Lubbock November 22, 23, and 24, according to F. H. Lindall, San Angelo, president of the council.

Among the topics to be discussed by the convention is the establishment of a state headquarters for the Council with a paid manager to coordinate the activities and efforts of, and to serve the local groups. Adequate financing of such a comprehensive program will also be taken up. Other topics which will be brought before the gathering are examination of proposed state legislation pertaining to aeronautics, adoption of a policy of action of the part of the council in this legislation, discussion and formulation of plans for a proposed State Aviation organization designed to combine the activities and strength of all Texas aviation organizations, promulgation of a uniform aviation effort for the common good, and election of new State council officers for the coming year.

Each chapter in the state will elect or appoint a delegate to vote and speak for the group.

### Farm Co-ops Set For Nov. 18 Meet

Plans are nearing completion for the annual meeting of the Texas Federation of Farm Cooperatives to be held November 18 at the Jefferson Hotel in Dallas, according to Donald W. May, Amarillo, chairman of the program committee.

Speakers for this meeting include Raymond W. Miller, president of the American Institute of Cooperation, Washington, D. C.; Walter L. Bradley, chairman, American Society of Accountants' committee on co-

operatives, Buffalo, N. Y.; Dr. William A. Nielander, professor of Business Administration, University of Texas, Austin; and J. D. Prewitt, vice-director, Texas A & M College Extension Service, College Station.

The newly appointed executive secretary of the Federation, George B. Blair, will be presented at this meeting.

Plans for the coming year's activities will be formulated and the mechanics for the execution of these plans will be set up when the delegates convene at Dallas on November 18.

The Texas Federation of Cooperatives is the state-wide organization of farm cooperatives which number more than 900 and represent more than 60,000 Texas farmers. Cooperative gin associations, cotton associations REA-co-ops, cooperative hospitals, purchasing associations, produce and fruit growers are all a part of the Texas Federation. —Texas Spur.

### Texas Due For Mild Weekend Weather

Clouds are piling up over Texas, but the state's temperatures continued to rise and the weatherman views a week-end picture of mild weather.

Large banks of clouds dominate skies, and the U. S. weather bureau believes that more would accumulate Friday, possibly foreshadowing a week-end to which Texans are becoming accustomed after the past several weeks.

Fair skies were reported from the West Plains north into the Panhandle.

But the mercury was also rising, after temperatures dipped to the freezing mark briefly Wednesday night only at Salt Flat. Other lows were Amarillo 36, Pampa 38, El Paso 39, Sulphur Springs 42, Texarkana 43, and Big Spring 47.

Fog dense enough to be cut with the traditional knife was served up to residents of New Mexico's Rio Grande valley Thursday. The Santa Fe-Albuquerque area reported thick accumulations of fog and heavy clouds were hanging over northern New Mexico. —Lubbock Evening Journal.

### OPA Is Considering 15% Boost In Rents

The OPA says that it has "under advisement" a proposal of its housing rent industry advisory committee for a 15 per cent increase in rents.

The committee, having met at Atlantic City, presented four proposals to OPA.

1. Immediate elimination of rent ceilings on new construction and on rental property being converted from non-residential to residential use.

2. Systematic removal of individual properties from rent control where owners offer tenants a lease not more than 15 per cent above current rent ceilings.

3. An immediate 15 per cent over all increase in rent ceilings.

The committee offered to help OPA carry out the proposals promptly.

The National Association of Real Estate Boards, also meeting at Atlantic City, favors the committee proposals.

Price Administrator Paul A. Porter already has pledged that rent ceilings "will hold," but it is expected some increases will be given landlords who can show they are in an unfavorable profit position as the result of the end of the price controls.

OPA now is making two nationwide surveys of rental homes, apartments and of ho-

tels, tourist camps, boarding houses, rooming houses to determine landlords' current operating costs.

These surveys are expected to be completed by the first of the year. They are expected to furnish the basis for further industry requests either for higher ceilings or for decontrol.

The OPA's housing rent industry advisory committee is made up of landlords whose function is to present the industry's views to the agency.
