

## Federation Day Program Today Opens Current Year For El Progreso Club

The current year for El Progreso Study Club opens this afternoon, with a tea in the home of Mrs. L. C. Harp, with Mrs. O. B. Jackson of Plainview, Treasurer of Texas Federation of Women's Clubs, as guest speaker.

Mrs. Frank Pohl, president, will serve as leader, and following the Club Collect, music will be furnished by the music committee. Serving on the tea committee will be Mesdames Dick

Groves, Willis Cooper, J. Farris Fish and John Hamilton.

Deviating from the custom of miscellaneous programs, the year book committee, headed by Mrs. H. H. Schweitzer, this year chose a course of programs centered about community improvement. Aim of the opening, or "Federation Day" program is to create interest in community improvement.

Following this trend of thought next program, which will be on

October 13, has for a subject, "Our Community", with the aim to review community projects. Leaders of the various civic and auxiliary organizations have been invited to submit plans for community betterment. These will include representatives from Home Demonstration Club, Parent Teacher Association, Co. Agent's office, American Legion and Auxiliary, V. F. W. and Auxiliary, Lions Club, Boy Scouts and Girl Scouts. Hostess for the meeting will be Mrs. Forrest Campbell.

To make the community more Bible conscious will be the aim for the second meeting in October. Mrs. Harry Willett will lead the program, Miss Amy Glenn will review, "One Even-

ings Reading", and Mrs. Johnny Stevens will furnish organ music.

A library and book review program is scheduled for November 17, with the aim to re-awaken interest in the club's project. Although the library has been donated to the school, since this program was planned, a book review will nevertheless be given.

As customary, a Thanksgiving recess will adjourn the club until December 15, when Mrs. G. E. Hamilton will be hostess for the annual Christmas program and tea. This will be followed by the Christmas recess which is also customary.

The club will reassemble on January 12 for a program on "Health", with the aim to arouse interest in community health. Hostess will be Mrs. U. L. Willie, who will also have charge of the program. Mrs. Willie is County Chairman of National Foundation for Infantile Paralysis, and Division Commander for Cancer Control. Program leader will be Mrs. Ralph Stapleton.

For a program on "Women", on January 26 in the home of Mrs. Harry Willett, the aim is stated: "To acquaint us with our opportunities and responsibilities." Mrs. Joe Bloodworth will be leader, and "Women's Opportunities and Responsibilities" will be discussed in this order: As Parents, Mrs. Forrest Campbell; As Community Leaders, Mrs. John Hamilton; and In National and International Affairs, Mrs. J. R. Emmons.

Youth Conservation, with the aim: Conserve our youth to conserve our community, will be the program subject for Feb. 9, when Mrs. Ben Keltz will be hostess and Mrs. L. C. Harp, leader. A forum, "Tomorrow's Citizens", will be led by Mrs. J. E. Edwards, and participants will be Mesdames L. B. Campbell, Dick Groves and W. N. Pipkin.

To build a safer community will be the aim of a "Safety" program scheduled for February 23, and a Highway Patrolman will be guest speaker. Safety in the Home will be discussed by Mrs. Freeman Thacker and World's Safest Drivers will be given by Mrs. Ralph Stapleton. Hostess for this program will be Mrs. Willis Cooper, and Mrs. John Hamilton will be leader.

A program on "Texas" will be given March 9, with Mrs. J. Farris Fish as hostess and Mrs. G. E. Hamilton, leader. ## LOOPHOLES in the Law

By WILL WILSON

District Attorney of Dallas County

(EDITOR'S NOTE: This is one of a series of short case histories all taken from court records, showing how legal loopholes often enable criminals to escape punishment in Texas. Will Wilson is chairman of a special steering committee of the State Bar, which is working for revision of the antiquated Criminal Code and Code of Criminal Procedure in order to eliminate these loopholes.)

The Big Boss of the slot machine racket, in one of Texas' largest cities where gambling is

prevalent, was very unhappy when law enforcement officers raided his warehouse and confiscated 150 of his one-armed bandits. He was indicted for keeping and exhibiting slot machines for the purpose of gambling.

But when the Big Boss came to trial, he was happy, for he gained a prompt acquittal.

The Texas law prohibiting slot machines provides that the machines must be actually exhibited and accessible to players before there is a violation of the

## ATTENTION!

The Annual Stockholders Meeting of the Matador National Farm Loan Association will be held in the District Court Room in Matador, Saturday, September 24, at 3:00 o'clock p. m.

Stockholders are urged to attend and the general public is invited to attend. A 10 per cent dividend will be disbursed to stockholders of record June 30, 1949. This is the ninth dividend paid since May 23, 1944, making a total of 55 per cent or \$18,562.50 that your association has disbursed to stockholders during this time.

law. It was held that the slot machines stored in the warehouse were not being used or exhibited, and thus the law was not violated.

This places an added obstacle in the way of law enforcement agencies. They have great difficulty in stopping the traffic in slot machines when they can confiscate and prosecute only when the machines are actually exhibited. This is a legal loophole that ought to be plugged up.

If the State Bar of Texas succeeds in its efforts to bring about revision of Texas' criminal statutes, criminals will find it more difficult to escape punishment for their misdeeds, and society will receive more adequate protection.

## Sufficient Sleep Is Protection For Minds And Bodies

Sleep is a necessity of life and health, according to Dr. Geo. W. Cox, State Health Officer, and mental loss of sleep will tend to retard the body's recovery from fatigue of the day's activities.

"We may be able to go without sleep for a night or two, but too little sleep for a prolonged period will undermine the health of a rugged person and turn a cheerful individual into a cross, irritable one," Dr. Cox said.

"When good health can be protected to such a large extent merely by sleeping, and thus allow over-taxed bodies and minds to secure the proper rest, it is hard to understand why so many persons are heedless of this important health measure."

Some individuals require more sleep than others. How well we sleep is as important as how long we sleep. A good night's sleep means a sufficient number of hours spent in sleep to enable each person to feel well, do efficient work, and to keep in a cheerful humor the next day.

"Some outdoor exercise each day, a comfortable bed, and fresh air in our sleeping quarters," Dr. Cox said, "will help us to sleep soundly at night. Do

When you arise each morning, rested and with a feeling of general well being, you will be amply repaid for your thought in planning a good night's sleep."

# WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

Over twenty years ago, the Congress of the United States passed the Railway Labor Act. It was hailed by union leaders as a model for the settlement of labor disputes.

efficiently or economically if the leaders of the unions ignore agreements or laws.

**Provisions of the Law which are Disregarded**

There are five ways under the Railway Labor Act to settle disputes over the meaning of contracts:

- 1—Decision by National Railroad Adjustment Board.
- 2—Decision by System Adjustment Board for the specific railroad.
- 3—Decision by arbitration.
- 4—Decision by neutral referee.
- 5—Decision by courts.

The Missouri Pacific Railroad has been and is entirely willing to have these disputes settled in accordance with the requirements of the Railway Labor Act. Regardless of this fact, the union leaders have shut down that railroad.

**Innocent Bystanders Suffer Losses and Hardships**

There are about 5,000 engineers, firemen, conductors and trainmen on the Missouri Pacific. They are known as "operating" employees, and are the most highly paid of all employees on the nation's railroads, but their strike action has resulted in the loss of work to 22,500 other employees of the Missouri Pacific. In addition, they have imposed great inconveniences and hardships upon the public and the communities served by that railroad.

The Railway Labor Act was designed to protect the public against just such interruptions of commerce.

If these men will not comply with the provisions of the law for the settlement of such disputes, can all thinking Americans regard the question, "What is the result?"

**THE LEADERS** of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, Order of Railway Conductors, and the Brotherhood of Railroad Trainmen on the Missouri Pacific Railroad have refused to avail themselves of the peaceful means provided by this Act for settling their disputes. They insist that they be the sole umpire of their own disputes over the meaning of contracts.

### President Truman's Board Condemns Strike

There is an established legal method for handling disputes involving existing written contracts—just as there is such a method of settling any contract dispute which you may have in your daily life.

The President of the United States appointed a Fact Finding Board to investigate and adjust the Missouri Pacific dispute. This Board reported, in part, as follows:

... It is with a deep sense of regret that we are obliged to report the failure of our mission. It seems inconceivable to us that a coercive strike should occur on one of the nation's major transportation systems, with all of the losses and hardships that would follow, in view of the fact that the Railway Labor Act provides an orderly, efficient and complete remedy for the fair and just settlement of the matters in dispute. Grievances of the character here under discussion are so numerous and of such frequent occurrence on all railroads that the general adoption of the policy pursued by the organizations in this case would soon result in the complete nullification of the Railway Labor Act...

Obviously the railroads cannot be run

### There is no Need for Strikes

With all of the available methods for the interpretation of contracts, there is no need for a strike or even a threat of a strike, but the leaders of those railroad unions have ignored the ordinary procedures established by law and insist upon imposing their own interpretations of their contracts by means of a strike.

The wheels have stopped rolling on the Missouri Pacific. They may stop rolling on other railroads at any time. Recently the Washburn Railroad was forced to discontinue operation for several days under similar circumstances.

### What are These Strikes About?

These strikes and strike threats are not about wage rates or hours. They result from disputes over the meaning of existing contracts. They cover claims for a full day's pay for less than a day's work, or for payments for services performed by others who were fully paid for the work done.

**How Heavy IS WATER?**

The average bucketful weighs 29 pounds. Wash day takes between 12 and 20 buckets, scrubbing and cleaning about the same amount. Routine kitchen work demands about 200 pounds of water every day. Water can be very heavy... if you have no pump and carry every drop you use. But running water—delivered by a Dempster Water System—makes light work of all your chores.

### Age News:

Kids!  
This new school year was  
started off with a bang. Even  
rain doesn't stop these Matador  
kids. At least it didn't  
Thursday night.  
Seen at the show was Billy P.

and Wanda. Also Gene and  
Doris. Accidentally showing was  
"Little Women". Good show so  
I heard?

Also sporting around was  
Grady and Shirley P. Accompanying them around was Jerry  
E. and Barbara S.

Albert and Joyce are getting  
to be on the steady list. A swell  
couple of seniors.

I don't know why all the seniors  
were so happy Tuesday. I  
think it was because of those

pretty rings, tho. More exchanging  
going on.

I hear that Mr. Gilbreath has  
a lot of trouble with his geometry  
class. Especially with all of  
these books falling out of the  
lockers. It may be this, they just  
fail to get in the lockers instead  
of falling out, when the bell  
rings.

Man Oh Man! Did you see  
how that Bonnie was stepping  
around Friday nite. I just  
wonder why?

I wonder who was the cute gal  
that Tom was escorting around  
after the game Friday nite?  
Maybe Marlene L. can help us  
out a little.

Joy was sure happy about  
something Friday nite. I wonder  
if Leo could be the cause of it  
all?

Melba and Garland are sure  
stepping around here lately. I  
believe we are needing to look  
into this. Don't you?

Daisy's eyes were sure sparkling  
about something. Reckon it  
was those brown eyes from  
Roaring Springs?

If these freshmen aren't on the  
job, I hardly know what to  
think. Seem's like some little  
freshmen was sure showing  
Sappo around Friday nite after  
the game.

My! If Wynelda isn't getting  
around here lately. Friday nite  
she was with Jody. Saturday  
nite with R. L. Boy's I believe  
you are needing to get together.  
What do you say?

BOY! Did those Matador Matadors  
fall in line Friday nite? I  
have always heard that dynamite  
comes in small packages  
tho. I guess the score shows that.

The M. H. S. students are very  
proud of our coach and team.  
Especially when they came up  
with scores like last Friday nite.  
Just keep up the good work is  
all we say and we will be behind  
you.

## THE Sad STORY OF TEN LITTLE FREE WORKERS

(It is later than you think... it can happen here!)

THESE ARE THE WORKERS  
REDDY DOCTOR RAILROADER MINER STEELWORKER FARMER LAWYER GROCER SALESLER REPORTER

Ten little free workers in this country time and fair.  
But if you cherish your freedom—worker have a care!  
Ten little free workers—Reddy was doing fine  
Until the socialists got him—then there were nine.

Nine little free workers laughed at Reddy's fate  
Along came federal medicine—then there were eight.

Eight little free workers thought this country heaven  
But the government took over the railroads, then there were seven.

Seven little free workers—till the miners got in a fix.  
Uncle said coal's essential and took over leaving six.

Six little free workers 'till the day did arrive  
The steel mills too were federalized—then there were five.

Five little free workers—but the farmers are free no more  
The farms have been collectivized—that leaves only four.

Four little free workers till the government did decree  
All must have free legal advice—then there were three.

Three little free workers—the number is getting few.  
But with government groceries selling food—then there were two.

Two little free workers—our story's almost done.  
With clerks at work in federal stores—that leaves only one.

One little free worker—the reporter son-of-a-gun  
Musta' criticize government—so now there are none.

Ten little workers—but they are no longer free  
They work when and where ordered, and at a fixed rate you see.  
And it all could have been prevented if they'd only seen fit to agree  
And work together instead of saying "it never can happen to me!"

Does the fear of punitive action of government bureaucracies prevent your action  
in defense of the freedoms for which our forefathers toiled and fought... or is such  
action just too much personal trouble?

# Good Ginning Is Not Enough!

EVERY COTTON FARMER has a right to expect good ginning but good ginning alone is not enough. He pays for a service which can be produced by any group of experienced ginners operating efficient equipment. But the cotton producer has a right to expect his ginner to help him market his product to the best advantage, so that when the end of the season arrives he will have earned the largest possible profit.

He has a right to expect his ginner to provide service which will save him as much time as possible through the busy harvest season. He must depend on his ginner to provide the best cottonseed for the next season . . . that he may improve the quality of his cotton.

He must also look to his ginner to provide the best possible market for the seed which he has to sell. Even more important, he must look to his ginner as a partner, a neighbor and trusted friend to whom he can turn for any favor.

Our ginning plant is known as a model of modern equipment, now in complete condition to render you the best possible service. Our years of experience have convinced our customers that we are truly their business partners . . . that our success depends on their succeeding. We are grateful for the loyalty of our customers and we strive to justify their loyalty with better ginning and the intangible services with which lasting friendships are built.

MATADOR TEXAS

### TRAIL DUST USED AS FEATURE FOR SHRINE MAGAZINE

Trail Dust, column written by Tribune editor, Douglas Meador, and a feature of the Matador Tribune since its origin, is now being used as a feature of "Khiva Caravan", Shrine magazine edited by John McCarty of Amarillo.

The column was used as a Sunday feature for six years in the Amarillo Globe-News when Mr. McCarty was editor of that publication, and more recently in the Christian Courier on the Laymen's League page, edited by Harry Hines, of Dallas.

Editor Meador is deeply grateful for this latest recognition of his column, and especially for Mr. McCarty's note of introduction, which is as follows:

"Years ago the editor of Caravan when editing The Globe-News was one of the first outsiders to discover the beauty and philosophy in the everyday column of Douglas Meador, editor of the Matador Tribune. His work was later issued in a book under the title Trail Dust. In our opinion it continues to improve and his star rises higher and higher as he goes about his job of editing a country weekly. We have asked him to let us reprint some of his columns in Khiva Caravan because we thought Douglas Meador deserved the wider audience in the Panhandle which Caravan can give him and because we thought Caravan readers deserved to know Douglas Meador's work better."

### LOCAL RESIDENTS ATTEND FLOYDADA FLOWER SHOW

Clements, Mrs. Freeman Thacker, Mrs. B. M. Eubank, Mrs. W. H. Jernigan, and Mrs. Leonora Luckett; Mrs. Harry Carter and Miss Amy Glenn.

### Spirella Garments To Be Sold Locally

Mrs. Frankie Lambert of Eastland, Texas, was a Matador visitor the past week, during which time she trained Miss Maggie Bryan as corsister for Spirella foundation garments. Miss Bryan will serve as representative

for the company, in this county. "We are very happy to have Miss Bryan as our representative in this locality," Mrs. Lambert declared. "I feel that she is very competent to serve in this capacity, having had many years of merchandising experience locally in one of our leading dry goods stores."

A demonstration was conducted Monday afternoon in the home of Mrs. Ed Cammack, which was attended by a number of local women.

### LIONS GOVERNOR . . .

(Continued From Page 1)  
coffee, prepared by Lions Henry Pipkin and Curtis Graham, and served by members of the high school home economics class, received immediate attention of the crowd following the brief meeting in the church auditorium.

District Governor Cryer, who is superintendent of the Borger school system and president of the Phillips Junior College at Borger (not Pampa as erroneously reported in previous issues of the Tribune), said he felt at home and among friends in Matador. His address was packed with terse epigrams.

"America was a great land before the arrival of Columbus," he declared, "but it became a great nation because of great men's leadership."

Striking directly at Lions who may possess a membership in the civic club, for business reasons, he declared: "Lionism is not a commodity. It is something you can obtain; it is something you give to your community . . . there are no office hours for leadership. Lionism is coordinated effort."

Referring to the religious aspect of Lionism, he said: "God pity the man who does not have individual relation with creation . . . what the people of Matador want, what the people of all the free nations of the world want, is a philosophy of life that can surpass communism."

"There is no defeat in Lionism except failing to purpose . . . Lionism offers a practical and sensible avenue to civic expansion . . . it is religion without fanaticism . . . it is pomp and splendor without vanity . . . it is culture without exclusiveness . . . it is directed energy without coercion."
