Church Of Christ Congregation To Build New Building

Fur Racket Ready To Spring On Big Spring Folks Soon

Fakirs Claiming to be British Sailors Hit Town With "Snide" Furs Herald Warns the Public

The racketeers are visiting Big Spring today. A Herald reporter caught sight of the "distressed British sailor" with his dunnage bag full of what he alleges are furs, "smuggled aboard in Vladivostok."

These fakirs hit town with a bunch of snide furs, bought in Hoboken for a mere trifle apiece, and make a personal canvass of the offices and places of business, where they make approaches generally to gullible youngsters. If they are successful they get anywhere from \$40 up for a garment, which they represent as "Russian Sable," or "Arctic Seal" or some other appellation and after they have blown out of town, the luckless purchaser finds the "imported fur" is common household pussycat.

Chief of Police E. A. Long informed a Herald reporter that he intended to see that these men were compelled to comply with every requirement of the law before they peddled a single piece of their goods, and Deputy Constable W. D. Hall said that the constable's department would exercise extra vigilance to see that the interests of the merchants of Big Spring were adequately protected.

If these men offer you any furs, do not purchase until you see the opinion of some reputable merchant as to their value.

Railway Improvements Are Coming Some Day

Every few days some one asks concerning the big improvement campaign the Texas and Pacific Railway company has planned for Big Spring but we are unable to secure any information relative to same. Getting in the automatic block system and a dozen other major projects is keeping the company so busy that the improvements here are due to be delayed. An example of the delay may be cited in preparing the specifications for the viaduct to be erected here, the engineering department has just too much work to complete the specifications for this needed project.

New shops, new freight depot and further enlargement of the freight terminals here to include the sidings at the refineries are among the improvements rumored. The T. and P. is doing more business than at any time in her history and with oil development due to continue the big business is assured for years to come.

FORMING A NEW INDUSTRIAL DIST.

Looks like we are going to have an extensive industrial district on South Scurry Street, just outside the city limits. Four lumber yards and a number of supply houses, boiler and tank works and manufacturing are now located there and more are clamoring to secure locations in this area.

RURAL MAIL ROUTE FOR OIL TOWN

To give residents of the oil field town of Forsan mail service the post office department has ordered that a rural mail route be established to go by way of Forsan and this service will be inaugurated on October 16.

DEVELOPMENT BOOSTS ROYALTY PRICES

Since starting drilling operations on the Quinn ranch about 8 miles west of Big Spring by the Group 1 Oil Corporation oil men are becoming interested in that area. As high as fifty dollar bids is being offered for oil royalty in that area.

Section of the Kenosha, Wisconsin, drum and bugle corps.

Richmond Welkin Rings As A I Smith Arrives

RICHMOND, Va., Oct. 11 (AP).—Governor Alfred Smith of New York, Democratic nominee for the presidency, arrived here today on his special train and was greeted with tumultuous cheering by an immense throng that filled every available space near the depot, as his train came to a standstill in the station.

Convict From Big Spring Makes Escape

R. L. Edwards given an eight-year sentence for assault with attempt to rob, and automobile theft here was one of the fourteen convicts who escaped from the Wynne State Prison farm Tuesday night. Edwards attempted to hijack Joseph H. Leach, special agent of the Texas and Pacific Railway at the corner of Runnels and Eighth streets but Leach refused to be hijacked and exchanged shots with Edwards. After being shot twice Edwards stole an automobile and made it to Westbrook before being captured. Leach was shot in the shoulder by Edwards.

Legionnaires Back Air Line Extensions

SAN ANTONIO, Oct. 11 (AP).—Recommendations that the American Legion push the extension of air lines by this country into Central and South America was approved by the National Convention organization here today, when the convention unanimously accepted the report of its aeronautics committee.

T. J. Tidwell Shows And Carnival Are Coming Next Week

The T. J. Tidwell show and carnival will be in Big Spring all next week. This big show company will be located on the Reed property, across from the old ball park in the west part of the city on the Bankhead highway. This is a big time show with 250 people in its company. A first class carnival is operated with all kinds of joy rides and every kind of concession imaginable. The Tidwell Show and Carnival will be in Big Spring from Monday October 15 through Saturday October 20th. Keep the dates in mind and take them in.

Library Hours To Be Changed To 3 P. M., 5 P. M.

Mrs. R. C. Hatch, librarian of the City Federation library, announces that the hours that the library will be open each Wednesday and Saturday have been changed to 3 to 5 o'clock. During the summer months the library hours were 4 to 6 p. m. but with winter coming on, earlier hours are considered advisable. Library members are urged to make note of this so that they will not be disappointed when they come to turn in a book. Come between the hours of 3 to 5 p. m. each Wednesday and Saturday afternoon.

Two Fleeing From Jail Are Caught

HUNTSVILLE, Tex., Oct. 11 (AP).—Two of fourteen men who broke jail here last Tuesday, were captured last night in hiding about five miles from this point. The two were W. S. Shirley, sentenced to two years for forgery and sent up from Johnson and Ellis counties and J. E. Brewer, doing two years for forgery from El Paso county.

An Inspector To Be Employed

A resident Sanitary Inspector is going to be on the job in Big Spring on and after Monday. Stricter ordinances relating to the handling of milk and meat will be enforced in the future to safeguard the health of our citizenship.

Dairy Cattle And Poultry Will Insure Prosperity

Dairy cattle and poultry can be used to bring permanent prosperity to Howard County. If every farm will add dairy cattle and poultry and give them the necessary care and attention the old crop mortgaging plan can be scrapped and our folks adopt the cash basis. These money makers insure you a regular weekly cash income. Surely that is more satisfactory than working an entire year on one crop in order to get your pay, as in the case of cotton. Surely it requires more time and trouble to take care of dairy cows and poultry but you are better paid and paid more regularly than you are when you depend on cotton. With the growth our city is now making there will be a greater demand and a better price for poultry and dairy products and we should bend every effort toward increasing the poultry flocks and dairy herds in our county.

Scouts Watching 2 Important Tests

Oil scouts are certainly watching the Taylor Link and the Louisiana Oil and Refining company tests to the south of Big Spring. These tests are north of the big well of the Henshaw production and if either comes in for production it will mean an important extension of the field. These tests are mentioned because they lack but a few hundred feet of being down to the horizon in which the Henshaw hit the big pay. Other important tests now starting will determine the extension of the field in other directions. An extensive drilling campaign is going to be underway in that area within a very short time.

Snow Covers Mountain Region

DENVER, Colo., Oct. 11 (AP).—The entire Rocky Mountain region lay in the grip of an unseasonable snow storm today. The garb of winter lay like a blanket over Montana and the territory around this point and threatened to cover parts of Wyoming, Colorado and New Mexico.

Hilo And Jay To Open New Super-Service Station

Hilo and Jay Super-Service Station, at the corner of West Fourth and Scurry streets, across from the First Methodist church, will be formally opened in this city on Saturday, October 20th, according to plans of the proprietors. Fine progress is being made on the attractive stucco building, and work is being rushed as fast as possible. The pumps, of the T-P Coal and Oil Products have already been installed, and it is thought that everything will be in readiness by Saturday week.

The proprietors are planning to have a big opening, and invite the public to visit them on this date. Favors will be given to every man, woman and child who visits the station on this date.

Hilo and Jay have enjoyed a big business at the Crawford Parking Station, and they will continue to operate it as long as they are permitted to stay there. But when the Crawford annex is started their station will have to be moved. They will give the same good service, if not better, at their new station, and wish to extend their friends a cordial invitation to pay them an early visit. Remember to watch for the opening announcement.

South Plains Bankers Asso. To Meet Here

Bankers Take Advantage of Columbus Day a Legal Holiday To Meet

The South Plains Banker's Association will meet in Big Spring tomorrow, Friday, October 12th. The bankers are taking advantage of a large holiday to meet and it is thought a big attendance will be on hand. The local Chamber of Commerce will be host to the visitors at a noonday luncheon, in the First Christian church to be held in connection with the regular noonday meeting of the board of directors of the Chamber of Commerce. They will also be given a complimentary drive over the city. Following is the program for the day:

Morning Session
Called to Order.....10:30 a. m.
at First Christian Church
Invocation.....Rev. Claude Wingo
Welcome Address.....C. T. Watson
Secy. Chamber of Commerce
Big Spring, Texas
Response.....O. P. Thrane
Address "Bank Revenues, Costs and Profits" H. C. Burks
Continental National Bank
Fort Worth, Texas
Lunch 12 Noon to 1 P. M.
Drive.
Afternoon Session
Meet at First Christian Church,
2:00 p. m.
Round Table Discussion.
Selection of next meeting place.
Adjourn at 5 p. m.

OFFSET RUMORED FOR HARDING TEST

There is a report that an offset is to be drilled to the well on the J. B. Harding farm south of this city but we have not had any official information relative to this new operation.

Proposed Air Service Line Takes In City

Carrying of Passengers Between California and Texas Starts Soon

That the Maddux All Lines of California will begin operation of an air passenger service from Los Angeles to El Paso on November 1, and seen thereafter on to Dallas by way of Abilene was the announcement yesterday of T. N. Carswell, secretary of the Abilene Chamber of Commerce, who returned Tuesday from an aviation conference in El Paso, where plans made for a transcontinental air mail route across the southern part of the United States.

Tri-motored 14-passenger Ford planes will be used on the El Paso-Los Angeles route, R. C. Diggins, traffic manager of the Maddux organization said at the meeting. Lockheed-Vega planes will be used for special flights, it was said. This new proposed route will connect Dallas with another proposed route from Louisville via Nashville, Memphis and Little Rock to Dallas, it is thought.

Peter J. Savage Talks To Home Garden Club

The Garden and Flower Club had a very interesting meeting yesterday, with about a dozen present. Fall planting was urged with a view to having a Spring Flower show. There are many hardy and colorful varieties which, if planted now, will make a charming spring landscape for your yard. Some of these are the German Iris, Hardy Phlox, Mixed Tulips and Peonies, and others with exquisite colors and fragrance, that are hardy, easy to plant and care for. More women ought to join and pay the yearly dues of 25c as well as to give and get inspiration to plant more flowers.

Peter J. Savage, New Mexico artist was a unique visitor and brought four of his pictures and gave a delightful and educational talk on each one. With rare artistic taste as to the appropriateness of things, the pictures were all in harmony with the garden and flower club idea.

The first picture shown was his "Blue Bonnets" a lovely study in blue, and he told how the Blue Bonnets grow in fields. The next one was a Mexican town-house in Socorro, N. M., with native plants in the foreground. The time was Spring and the picture was bathed in bright sunlight giving the trees a gray look.

The next one shown was a Mexican adobe farm-house with a sheet roof, between Socorro and the river. Strings of red pepper were hanging on the walls, the season was late, and the peppers were most gone!

The last one was a desert scene resembling the bleak hills along the road to Hot Springs, N. M. Mr. Savage said that a picture must not only have color but must have thought at the back of it and must leave reflection in the mind of the observer.

Cosden Refinery Work Underway

A large force of men are now at work on the site for the big refinery of Cosden and Company, Inc. east of Big Spring and considerable activity will be in evidence there until this refinery and two other refineries in that immediate area are completed. Away up in the neighborhood of a million dollars will be invested in these refinery plants.

Office Bldg. Contract To Be Awarded

Tomorrow is the day set for the awarding of the contract for the erection of the six-story office building at the corner of West Second and Scurry street. Quite a number of contractors are expected to bid on this big structure.

Brick Veneer Structure To Be On Main St.

Local Congregation Already Has Accepted Plans and Will Have Same In Hands of Bidders By October 20th

Modern And Artistic

Every Detail is Being Considered To Make This Structure a Thing of Beauty and to Fill Every Need

Big Spring is to have another new church. This good news comes as an announcement from Brother J. D. Boren, minister of the Church of Christ, who states that his congregation has already accepted the plans for the new building, and same will be in the hands of the bidders by October 20th.

The handsome new building will be located on South Main street, on the little hill just south of the High school building. The members of the Church of Christ have recently bought this property from L. S. McDowell. The new church will be artistic and beautiful and every detail will be considered to make it one of most attractive places of worship in the city, and to fill every need of the local congregation.

The structure will be of brick veneer, of light buff color. The basement of the building, 40 x 88, will consist of rest rooms, and an assembly hall. On the main floor of the building will be the auditorium, which will seat from 450 to 600 people, and also the pastor's study and two rest rooms.

The new church will be completed throughout with the newest and most modern church furniture, with opera chairs, installed in the main auditorium.

Especially beautiful and attractive will be the baptistry. A scene of a river will be painted to furnish the background, and from this water will actually flow.

Beautiful grounds will surround the handsome new building and a landscape artist will be employed to design the shrubs and trees, and flower beds, as they are to be worked out.

Every detail is being considered to make this building and grounds pleasing to the eye and a delight to the church goers; and it will certainly be an asset to the city of Big Spring.

The estimated cost of the building is given at \$15,000.

The Church of Christ tabernacle, and the lot, has recently been sold to E. E. Ribble of Lubbock, preparer of the plans for the new building.

It is Reported This Company Will
 Drill 9 Tests On 20 Acre Strip
 Offsets Henshaw Producer

Review Of The Week

Henshaw Moving Material On The
 Ground On Location South Of
 Big Producer

By S. F. VALENTINE

NEW DRUMRIGHT, Glasscock
 County, Texas, Oct. 4.—The devel-
 opments during the past week in
 the Howard-Glasscock field have
 been of great importance to the
 oil fraternity and to the field. The
 performance of the Henshaw Oil
 Corporation's No. 1 Settles in sec-
 tion 6 on the west side of the field,
 when it was deepened from 2210 to
 2230 feet more than met the most
 optimistic opinions that had been
 expressed on this western area. The
 volume of its production together
 with the grade of the crude has
 attracted the attention of the en-
 tire oil fraternity.

The field had four completions,
 one from the deep lime pay; two
 from the 2500 foot horizon; one
 from the 1800 foot depth. In the
 wildcat area nothing of importance
 happened from development, tho
 some locations were made that will
 be drilled at once.

On Tuesday the Henshaw No. 1-
 A Settles was deepened 10 feet
 and on a 24 hour gauge made 3625
 barrels. The well was then drilled
 10 feet deeper to a total of 2230
 feet and the production jumped to
 2552 barrels an hour for a two hour
 and forty-five minute test. As the
 storage was limited the well was
 then pinched down to about 2600
 barrels daily. There are two 27,500
 barrels steel bolted tanks being
 rushed to completion. One tank
 should be ready the last of this
 week. The crude from this test
 runs about 33.8 gravity. Those who
 are experienced in the handling of
 production place estimates on the
 pressure all the way from 400 lbs.
 to 80 pounds.

The Taylor Link Oil company's
 test in the Southeast corner of the
 southwest quarter of section 3, blk.
 32-2 south, 1700 feet north and one
 location east of the Henshaw, set
 the eight inch at 1882 feet in ce-
 ment Friday, and are standardizing.
 This location is 24 feet higher
 in elevation than the Henshaw and
 should find the lime around 1980
 feet. The Louisiana Oil and Refin-
 ing company in the southwest cor-
 ner of the northeast quarter of
 this same section is drilling below
 1620 feet. This test is a half mile
 and 1700 feet north of the Hen-
 shaw producer.

Owing to the fact that there is
 some speculation as to whether the
 formation is dipping to north of
 the Henshaw the writer has been
 unable to find any formation
 above the lime that may be termed
 a marker, that has shown any
 indication of a dip. A sand that is
 called a water sand, that has been
 drilled through with a rotary in
 all three tests in this area so that
 the amount of water that it may
 contain is unknown may be termed
 a marker, if there is a marker
 above the lime. Here is the record
 of that sand in the Henshaw and
 the Louisiana wells. In the Hen-
 shaw it was found from 1546 to
 1565 feet, with a surface elevation
 of 2707 feet. In the Louisiana test
 it was found from 1567 to 1578 feet
 with a surface elevation of 2748
 feet. If this is a marker then the
 formation in the Louisiana test is
 running 28 feet higher than in the
 Henshaw, when the bit in the Lou-
 isiana test penetrates the lime then
 we will know to what extent this
 sand conforms to the deep lime
 formations. The figures quoted
 above were furnished the writer by
 Lonnie Glasscock of Glasscock
 Bros., drilling contractors on the
 Louisiana well.

Lester Fisher
Has A Fine
Cotton Farm

In company with Lester Fisher,
 R. L. Price and Miss Lucille Yaw-
 ter, I had the delightful pleasure,
 last Wednesday of going over Mr.
 Fisher's farm, about 12 miles
 northwest of Big Spring. On Mr.
 Fisher's original farm of about 1-
 280 acres, there are about 1100
 acres of cotton out of a possible
 1200 planted. This cotton is in good
 condition and will make a good
 yield this year. The party on this
 trip estimated the entire crop at
 200 to 300 bales. It is really fine
 cotton, but it is a fine farm and
 in the main, has been well culti-
 vated. Mr. Fisher has a fine lot of
 men on his place, thrifty, industri-
 ous and good farmers and they
 have something good this year to
 show for their work.

Fay McCormick, W. R. Witt, W.
 B. Walker, G. R. Steadman are
 still there. Two other tenants have
 sold out to Mr. Fisher and are go-
 ing to depend on him to gather
 the crop.

Mr. Fisher, last year, added a
 half section of good land to the
 north side of his original two sec-
 tions and recently he has bought
 a half section of fine land from E.
 C. Witt on the east side. This
 makes nearly two thousand acres
 in a fine body, good productive
 land. Nearly all of this land is in
 cultivation, and if we remember
 correctly he stated that he was
 willing to add more acres to his
 already large farm.

Farming with Mr. Fisher is a
 hobby perhaps, an experiment but
 he is justly proud of his plantation
 and has been fortunate in secur-
 ing the help of good men to culti-
 vate it for him. Between the land-
 lord and his tenants, there is the
 most sincere good feeling and co-
 operation. There is no doubt to
 account for the good crops that
 have been produced on this place
 in the past at least as far as cor-
 rect farming can be responsible
 for production.

In addition to the good cotton
 crop on this place this year there
 is lots of fine feed and some of the
 fields which have been cut and
 stacked, look as productive as the
 best corn belt of the north. W. R.
 Witt has a small acreage in the
 new crop, alfalfa, which is show-
 ing an extraordinarily good yield;
 and if it proves of high grade val-
 ue, West Texas has added another
 valuable crop to its rapidly grow-
 ing list of grain sorghums.

We could not call Mr. Fisher a
 farmer perhaps. We could not even
 call him an agriculturist, but he
 is a good judge of land and
 knows where to put his money to
 keep it and make it grow, because
 in addition to his investment in
 good farm land, he owns some of
 the best business property in the
 city of Big Spring.

LEGIONNAIRES
SEE FERRISS

Happy, carefree legionnaires en-
 route to the tenth annual conven-
 tion of the American Legion which
 opens Monday in San Antonio con-
 tinued to pass through Dallas Sun-
 day.

Prevented from any prolonged
 stay in the city through the saige-
 ches of their railroad schedule they
 swarmed about the Union Termi-
 nal, where the trains paused to
 switch cars and engines with the
 bustle and to do characteristic
 crowds anticipating a big time
 ahead.

HILLS BROS

Arab identifies
 the coffee of
 matchless flavor

*Hills Bros. Coffee
 is the only coffee
 roasted by a
 continuous process—
 a few pounds at a
 time.*

Just what makes this matchless flavor?
 Controlled Roasting is the answer. For
 this continuous process, originated and
 patented by Hills Bros., roasts every
 berry evenly.

No other coffee can taste as good as
 Hills Bros. Coffee because none is
 roasted the same way. And every bit of
 its enticing aroma and glorious flavor
 comes to you intact because Hills Bros.
 Coffee is packed in vacuum. Ask for
 Hills Bros. Coffee by name and look for
 the Arab—that well-known trade-mark
 —on the can.

Fresh from the original
 vacuum pack. Easily
 opened with the key.

DANGEROUS MODELS

The world worships success and half the time is not particular as to how it is attained. At the same time, with this modern devil-worship, there is ever a lingering consciousness on the part of the worshipper of the hideousness of the object adored.

QUIT HIM

No decent man will be associated in business with a man who is unprincipled or dishonest. The inevitable result is loss of self-respect and honor, and usually moral degeneration.

A MAN'S WORTH

"If all men were like him there wouldn't be any check protectors made because there wouldn't be any needed," thus commented one man upon a man whom another man was criticizing.

To size up a person by his law-abiding behavior isn't such a bad way of judging him. To measure a man by what the world would be if all men were like him, to estimate a woman by what the world would be if all women were like her, isn't such a sorry yard stick.

You hear folks jumping all over folks; he is so supercilious. She is so blasé. He is so cock sure. She is so irritable. He is so pugnacious. She is so nervous. He is so fault-finding. She is so touchy. Thus, on and on, the list proceeds,—flaw after flaw, kink after kink.

Yet, getting right down to cases, what do those flaws and kinks amount to measured in big terms? What bearing do they have on the general welfare and safety of society?

None. True they are things to be worked out of things to be overcome, but they do not menace your life or mine; they do not even threaten our property; they do not deprive us of the chance to get on and up.

For instance, here is a bus driver who carries you past your block; then he tells you you should have told him where you wanted to get off when you had told him in as stentorian tones as you could command, or as your naturally retiring disposition would permit.

You feel angry toward that bus driver—you would like to swat him, even mash him. You climb out and walk toward wherever you are going, inwardly raving at him, thinking of things you might have said and condemning him to all sorts of super-heated, uncomfortable zones.

Yet, should you analyze that bus driver's life, you would find that he has just one wife, several well trained, healthy children; is paying for a home; has paid for his furniture; that he is sober and industrious; keeps his family supplied with vitamins, A, B, C, etc., and has never run over anybody.

Looking that bus driver up one side and down the other, it is safe to say that if no man were worse than he the country could take the money it is now spending for jails, penitentiaries, criminal courts and police forces, and put it into other enterprises.

There would be no criminals. The worst that anybody would do is to sass you for complaining about his carrying you past your getting-off place. That degree of misconduct, while unbecoming and annoying, wouldn't make the world a dangerous place in which to live.

We waste much time and energy in allowing ourselves to get worked up over trivial defects in human character; disagreeable things are disagreeable of course, but so long as they are not serious, what's the use getting all excited about them?

We should get a fairly accurate idea of a man's or woman's worth if we would stop and ask ourselves what kind of world would this be if everybody in it were no worse than he or she.

MR. RUTH PERFORMS

Mr. Babe Ruth added a fitting filipp to the close of the world's series, when at St. Louis he knocked three successive home runs out of the park to give his teammates the game and the championship of the world in four straight games.

That, we believe, is the first time the like has happened since 1914, when Mr. George Stalling's Boston Braves took their opponents to a four-straight cleaning. If our history is on crooked, the fans will correct us, we feel sure.

About that time (to-wit, 1914) this same Mr. Babe Ruth was a pitcher for the Boston American Leaguers, the Red Sox. He was still a pitcher for the Sox in the world series of 1918, and won his first game 1-0.

As good a pitcher as he was (and his record was one of the best in the business), Mr. Ruth's fame depends on his ability to hit home runs. At St. Louis two years or so ago, he knocked three home runs in a world's series game. This stunt he repeated only last Tuesday, thereby showing that the prophets who predicted the Babe's early eclipse did not know what they were talking about.

It all goes to show. Ability comes from the sweat as well as the palace. Mr. Ruth

got his start in life in an orphan's home. There is an object lesson here, particularly for persons who affect to believe that a lowly origin is a bar to achievement or preferment.—Abilene News.

TRUTH VS. HALF TRUTHS

United States Senator Morris Sheppard took the affirmative Monday night at Wichita Falls, in a debate on the subject "Be It Resolved, That Truth Shall Supersede Half Truth in the Ranks of the Democratic Party in the Present Presidential Campaign."

Excepting the speech of acceptance of Presidential Nominee Alfred E. Smith, the declarations of the senior United States Senator from Texas is the most accurate, most reasonable and reasoning and the most sensible discourse of the entire year.

Senator Sheppard has the peculiar position of knowing both his subject and his party. He is one of the men most directly responsible for the passage of the Eighteenth Amendment. He has experienced all of the conflicting influences that have been brought into the question of prohibition legislation and its subsequent enforcement activities.

What he knows is the knowledge of first-hand experience. He has not accumulated a mass of "whispered" innuendo and glib "pour it on 'em platitudes."

Senator Sheppard said, "I can accomplish more for prohibition and beneficent legislation within the Democratic party than I can by deserting the party which gave prohibition to the Nation and going elsewhere. And so can every other dry Democrat."

There can be no better battlecry for the Democratic party. Hundreds of thousands of loyal and honest Democrats have been saying that same thing since the present campaign began and hundreds of thousands of newspapers have published their parallel views on the subject. But it remained for the author of the constitutional amendment that is both the target for one line of attack and the smoke screen for another to give those expressions of support the authority that can only belong to responsibility for a measure.

With the utterances of Senator Sheppard, the very voice itself of constitutional prohibition is speaking. It is not a question of "they say—" The author of the Eighteenth Amendment is as such an authority as the teachings of Jefferson are Democratic fundamentals.

Like Governor Smith, Senator Sheppard is not side-stepping any issues. He took an unsigned circular and answered it for the Nation to hear. He is not afraid of the "religious issue." He knows the history of Tammany, its present composition and its relation to the candidacy of Al Smith.

He knows that the New York Governor is not "an habitual drinker." He knows the manner of Governor Smith's handling of the religions of the hundreds of appointees he has made in New York since his first governorship. He knows the honesty of the man personally and that which his official record shows.

He wholeheartedly and unqualifiedly is supporting him for President of the United States. The speech of Senator Sheppard Monday night should have sent at least 100,000 erstwhile waving Texas Democrats back across the line forever and erased from the equation all possible suggestion of a "Republican Texas."—Fort Worth Star-Telegram.

WOMEN DECIDED

Sometimes it is hard to trace any very definite results of the "woman's vote" in an American election.

But Omaha held an election the other day in which the fair sex most decidedly settled the outcome.

Omaha uses artificial gas in its kitchen stoves. A new company offered to pipe in natural gas all the way from Texas. The franchise they offered was hedged about with all kinds of safeguards, and the rate for the natural gas was to be well under the price of the artificial gas.

But in a special election held to decide the matter Omaha turned down the natural gas offer by an overwhelming vote.

The women did it. Why? Because it was widely reported that natural gas flames would make pots and pans dirty, while artificial gas wouldn't.

Chalk up one case where the housewife's vote was all important.

DONAHEY QUILTS

Governor A. V. Donahey of Ohio, who has been the Democratic chief executive of a Republican state for a good many years, is retiring from politics. He says that he cannot afford to hold public office any longer, the time has come when he must make a little money for himself and his family.

It is almost impossible, says Governor Donahey, for an office holder to save any money. If he is honest, he says, he has to stint himself constantly, wearing old suits of clothes and guarding the nickles and dimes with great care. Donahey has had enough.

This is rather a sad commentary on our system of government. Surely this prosperous nation could afford to pay its chief public servants enough to remove them from the need of forever worrying about their personal expenses.

HE KNOWS OUR TROUBLES

Delighted we are over the fact that Big Spring is to have a new postoffice building. The Daily Herald has been harping on that one item until we had feared for Brother Jordan's pulling through the ordeal without going bughouse.

But he certainly hammered away until the government really awakened and presented that rapidly growing city with an ideal postoffice building. And, too, Editor Jordan would sidestep the postoffice building long enough to whale away at Big Spring building an office building. Now a ten-story structure is to be built. Editors like Jordan and his Herald are worth a ten thousand barrel oil well to their town.—Graham Lender.

ANOTHER BULL RAMPAGE SETS STOCK MARKET

NEW YORK, Oct. 10 (AP).—The stock market went on another 'bull' rampage today when more than 30 stocks were boosted to record high levels on gains running from \$5 to nearly \$15 a share. Meanwhile the sale of a New York Stock Exchange seat was arranged for \$480,000, a record breaking price and an increase of \$25,000 over the previous sale.

DID YOU EVER STOP TO THINK

By EDISON R. WAITE Shawnee, Okla.

That right now every merchant should pay particular attention to his advertising.

That business is picking up now and it is the time to go after it.

That every sensible merchant believes in newspaper advertising.

That some merchants are not sensible—they lose.

That advertising catches the eye brings customers to a store and causes sales.

That ads are a simple means of getting the seller and the buyer together.

That advertising is conveying to the public an idea as to what your product is, what it will do and how well it will do it.

That you will find it always costs least to buy the best, because it lasts longer and gives satisfaction.

The best goods are always advertised and sold by merchants who stand behind them.

BRITAIN TO TELL DETAILS OF FACT

LONDON, Oct. 10 (AP).—It is understood that the cabinet today decided to publish details of the discussions leading to the Anglo-French naval compromise proposals with relevant documents and the replies from the powers consulted as soon as certain outstanding formalities are completed.

Reports of snow in Canada reminds us that the coal man will soon be inserting his hand in our empty pocket. Well, he merely takes the place of the ice man and a few other summer complaints.

Texas Legislators Fraternity To Meet In Dallas, The 13

The Texas Legislators fraternity will hold their second annual reunion at Dallas on next Saturday, October 13th at 10 a. m. at the Adolphus Hotel. Special Saturday rates will be given those attending.

All former members of the Legislature present members and 1928 Legislative nominees and their wives will be guests of the Dallas Chamber of Commerce at a luncheon at 11:30 o'clock at the Adolphus Hotel. After the luncheon they will be guests of the Dallas Fair association.

The Legislators Fraternity was organized last year, for the purpose of perpetuating the friendship originating in the legislative halls at Austin and to encourage the holding of Annual Legislative Reunions.

The Church of Christ Honors Its Younger Members

The Church of Christ delightfully entertained its younger members at the beautiful new home of the minister, J. D. Boren and wife in the Cole and Strayhorn addition Saturday night. After a well rendered program of songs, readings, stories, jokes and puzzles, many games and contests were enjoyed. A spirit of rivalry was created by choosing sides and seeing which side could gain the greatest number of points. Miss Ewing's side being declared the winner.

Delicious refreshments consisting of cherry ice cream and angel food cake were served to the guests, who on departure thanked Rev. and Mrs. Boren for an evening full of fun and pleasure.

Heggars continue to invade our city. Hardly a day passes that four or five needy ones (or apparently needy) visit the various business houses asking for money to buy a "feed."

Miss Lova Mae Bailey And James S. Stovall, Wed

Rev. and Mrs. W. G. Bailey announce the marriage of their daughter, Lova Mae to Mr. James Selby Stovall at the First Presbyterian Church in Dallas, Texas, on Thursday, October 4th. Dr. Anderson, pastor, officiating. The happy couple will make their home in Italy, Texas.

Mrs. W. G. Bailey and son Bishop Bailey, attended the wedding in Dallas. Other relatives in attendance were Mrs. Lorraine Wolover and Mr. and Mrs. Carroll Coke of Dallas, Mr. and Mrs. Park Stovall and Misses Emma Lou and Sydney Rose Stovall of Italy.

The many friends of the contracting parties extend to them best wishes for a full measure of happiness and prosperity.

J. C. Douglass, Jr. Has Matinee Party on Birthday

J. C. Douglass, Jr. was host to a group of friends at a matinee party, in celebration of his eleventh birthday anniversary. The happy group assembled at the Douglass Hotel and from there, went to the R. and R. Lyric theatre where they enjoyed a splendid movie. Following the show the young guests were served delicious refreshments at Cunningham and Phillips drug store.

Those enjoying the matinee party with J. C., Jr., were: Robert Satterwhite, William Dehlinger, Mac Austin, Truman Shaw and David and Paul Ellis.

Coahoma Couple Married

The wedding ceremony which united in marriage Gayo McGuffin and Miss Opal Cary, was performed at the Christian Church study, at 10 o'clock last night, by Claude Wingo, minister of the First Christian Church. The happy couple will make their home in Coahoma. They were formerly of Cement, Oklahoma.

Mr. and Mrs. Gordon McGuire, Jr., Miss Jimmie Lee Lester of Lamesa and Elmo Wasson were visitors in Lubbock Sunday.

SUSANNA WESLEY'S HAVE HALLOWEEN PARTY

The Susanna Wesley Class of the First Methodist church enjoyed one of the most delightful parties of the year last Friday afternoon when Mesdames Morris M. Flewilen, Penn Bell and Fred Miller entertained with a halloween party in the basement of the church.

The guests assembled in the auditorium and waited until the hostesses invited them into the parlor where the shades were drawn and shadowy lights were burning. Everything was beautifully decorated with baskets of flowers—black cats, witches and everything spooky.

They were met at the door by a great tall Goblin, who directed them to a tent where a real witch told each one's fortune.

After enjoying games, contests, ghost stories, and stunts until refreshment time, the hostesses served the following menu: Elves Delight, Sand Wiches, Fried Butterly Wings, Goblin Salad, Witches Delight and Conquerors' Charms.

Mrs. R. T. Piner Hostess to L-Deal Bridge Club Members

Beautiful cut flowers adorned the rooms of the R. T. Piner home yesterday afternoon when Mrs. Piner delightfully entertained the members of the L-Deal Bridge club. Only club members were present, and around three daintily appointed tables the guests found interest in the afternoon play.

Mrs. L. W. Croft was successful in making high score of the afternoon.

At tea time the hostess served an unusually tempting two course luncheon to the twelve guests.

Nolan Williams And Miss Sybil Newman Married

Claude Wingo minister of the First Christian Church, performed the ceremony which united in marriage Nolan Williams and Miss Sybil Newman of Midland in the church study, this morning at 11:30 o'clock. The happy couple will make their home in Midland.

RIBBLE THE FLORIST, SOON TO OPEN HERE

Fine progress is being made on the new florist shop, in the 1700 block on Scurry street, being erected for Mr. Ribble of Lubbock. A brick veneer display room and office is well underway, and other buildings for the new floral shop are to be started soon.

Mr. Ribble is experienced in the florist business, and owns and operates a first-class shop in Lubbock.

Dr. H. H. Kennedy of San Angelo visited home folks in this city over the week-end.

Weekly Weather And Crop Report

(Courtesy H. and E. Beer Big Spring Office)

Temperatures were generally above normal with dry sunshiny weather prevailing in most sections of the cotton belt. In the Atlantic states warmth and sunshine were favorable, bolls are opening rapidly and picking and ginning advanced well, though there was some retardation in previously wet sections because of moist lint and seed pods.

The crop is practically made in Georgia but is opening rather slowly in north with staple short and poor in many sections. Bolls are opening rather slowly also in parts of North Atlantic States with some further deterioration but picking made fair progress in most districts and is about complete in parts of the South.

In the States bordering the Mississippi River conditions favored rapid opening and also favored harvesting, except for considerable rain in places, principally in Arkansas.

Warm and continued dry weather in Oklahoma made a continuation of unfavorable conditions in the West part but the bulk of the crop is open and being picked rapidly.

In Texas progress is poor in Northwest with premature opening but mostly elsewhere with top crop conditions poor. The weather, was favorable for picking which is well advanced except in Northwest. The weather was favorable in far Southwestern States.

VINCENT ITEMS

October 9, 1928.

Mr. and Mrs. Elmer Williams entertained the young people with a party last Saturday night. Everyone reported a nice time.

Alton Shafer left several days ago for Dallas where he will take a business course.

Troy Christian left Saturday for Abilene.

G. R. Brashears of Knott was a business visitor here last week.

Ben Brown spent the week end at Abilene, where Mrs. Brown is in the sanitarium.

Mrs. Lee Warren spent last week end visiting in Snyder.

Mr. and Mrs. C. C. Tate and family spent Sunday visiting friends near Vealmore.

Mrs. Ruth Harris of Merkel, returned to her home last week after several days' visit here with her parents Mr. and Mrs. Wayne Ingram. She was accompanied home by her sister Miss Floyd Ingram.

HE KNEW HIS AGE—

"How old are you?" inquired the visitor of his host's little son.

"That is a difficult question," answered the young man, removing his spectacles and wiping them reflectively. "The latest personal survey available shows my psychological age to be 12, my moral age 4, my anatomical age 7, and physiological age 6. I suppose, however, that you refer to my chronological age, which is 8. That is so old-fashioned that I seldom think of it any more."—Exchange.

BIG SPRING BOYS ON ACADEMY TEAM

Three Big Spring boys are making good at the Peacock Military Academy in San Antonio, especially in football. Robert Prichard, Cecil McDonald and Denny C. Ivey have made the first team at the Academy this year. They have played in 2 games this season and were victorious in both of them. They took the game from Fredericksburg with a 22-to-12 victory, and the score with San Marcos was 12 to 7 in their favor.

The three Big Spring boys are making fine progress in their school work, as well as in athletics.

OUR POST OFFICE COMING

Work on the Wm. Fisher building on West Second Street was started today. This building will be occupied by the post office when completed. Everybody will rejoice to know that larger quarters for our post office are on the way.

NOTICE

Our first excursion to the Medina Irrigated farms only fifteen to thirty-two miles from San Antonio, will leave Big Spring Oct. 20th.

These farms can't be beat for a home or investment.

See the T. H. Johnson Land Co. for full particulars.

GOOD YEAR

Here's the way we look at it: to be the best tire dealers in town we must have the best tires!

That's our aim—to be the best in town! So, there just isn't any other way about it—we sell Goodyear Tires exclusively.

We Know Our Rubber,

Believe us, we've put in a long, long time in the tire business. We know just why some tires won't do at all. You may sell a man one of them, but he'll never come back for more. We want every customer to remember us when he needs a tire—and Goodyear Tires satisfy.

Complete Price Range Goodyear provides us with a

complete line of tires—Goodyear All-Weather Tread Balloons, known as "The World's Greatest Tire," for the man who wants the best tire at any price. And, then, for the man who must have a low-priced tire we have Goodyear Pathfinders—a remarkable tire at a remarkably low figure.

Goodyear Service, too!

With every tire we sell goes real tire service—we put it on properly, see that the tube is correctly installed and inflated; we give you free inflation to help you keep your tires operating at their best; we check your wheels, see that everything is going right to make your tires last a long, long time.

Make This Your Tire Headquarters—
Honest Prices—Honest Tires—Honest Service

New Formations Steers Hopes For Game Friday

Cook Bill Stephens Will Keep His Tackle Bag Closed Until 4 P. M. Friday

Snyder To Be Here

Hoops Given Thorough Workout All Week To Meet Strong Snyder Eleven

With more gliding tales drifting into camp about the prowess of the Snyder aggregation, the Steers are working at a feverish heat trying to perfect their new formations for the opening conference till. This week so far, has passed with out the rail bird witnessing any kind of devil war at all.

Everybody is pleased with everybody's success except the rail birds who have waited in vain for some sign of strife, because a signal drill is certainly not an interesting form of exercise to watch from the sidelines. Every evening the usual collection of rail birds appear, finding a smile a mile wide, for surely, they reason, Skipper Bill will line his cohorts up one against the other, but every evening as the sun goes down you will hear disgusted grunts from the sidelines as some rail birds depart homeward with everything but praise upon his mind, for the way that Bill is exhibiting his wares to public scrutiny. No sir, Bill Stephens is too

smart to stray the squad for his. The set might be let out for the bag and Bill has no intentions of this particular feline leaving the folds of his bag until Friday at 4 p. m. Then with all due formality, the string will be unrolled and the bag left yawning wide open and all the little kittens will be at liberty. And what a sight it will be, "I wonder where they hatched that one up, or where in the world did they get that trick," said ole Bill will just smile and open the bag a little wider, because he sure has a heap of tricks stored away for that opening, conference, game. Wouldn't be a bit surprised if Snyder is not taken so off their feet on the opening whistle that they will throw in the sponge, but still we never did hear of an aggregation of the reputed power of Snyder throwing in anything except more tactics and more off tackle plays. But the Steers are prepared now for off tackle plays. They have already been beaten by that mode of warfare and they intend for any team that tangles them under foot to change their tactics.

Only two days left for perfection of those plays, and they must be perfected or the Steers will certainly take the small end of the tally, as Stephens is pinning all his hopes on these new formations. Hope they will work, and Bill hopes that they will work and if hard work previous to the game will make them work, they will go off like oiled machinery, whether they work or don't work the game will be well worth seeing "cause Bill will pull some stuff that you will never see on a grid again, and stuff that you have never seen, because it was all hatched up in his own brain, and so far as we are able to determine no one has ever had a similar thought on a football offensive.

J. P. Watkins was a business visitor in Sweetwater yesterday.

Citizens Urged To Cooperate During Game

Good Attendance at Wednesday Luncheon Club and Good Friday

Highway Location

Committee to Meet Highway Commission and Secure Detailed Information as to Location

A well attended and interesting meeting marked today's session of the Wednesday Luncheon Club. Highway Location was the main topic of discussion. A committee to meet the Highway Commission and secure detailed information as to location was organized.

STATE HIGHWAY OFFICIALS, VISITORS

S. O. Hann of Wichita Falls and Martin N. Koonsman of Abilene, license and weight inspectors for the State Highway Department, are in Big Spring on official business. Hann arrived last evening and Koonsman this morning.

FIXING UP THE AIRPORT

Runways at the new airport just west of Big Spring are to be graded in the near future so that the port may soon be put to practical use.

HIGH RENTS DUE IN BUSINESS SECTION

High rents in the business district are now being offered by new business men seeking to open establishments in our city. In addition to offering a substantial bonus to secure possession, one firm is offering \$250 per month for a building with 5000 feet of floor space. Another agrees to pay \$225 per month for a 25 foot front building on Main Street.

BANKERS HERE OCTOBER 12

A meeting of the South Plains Bankers will be held in Big Spring on Friday October 12th. A fine program has been arranged for this occasion.

GET THE PARKING HABIT

Many are not waiting until the time limit parking ordinance goes into effect Friday but are forming the habit of picking a parking place outside of the parking zone, and thus avoiding worry or danger of fine due to forgetfulness.

Fourteen Convicts Escape From Prison Farm

Huntsville, Oct. 10 (AP)—Fourteen convicts escaped from the Wynne prison farm last night by sawing a hole through the floor of the building in which they were housed.

Adult Health Club in Final Meeting

The Adult Health Club will meet Thursday 3 p. m. at the community clubhouse. This will be the last class until a permanent nurse is employed. Large attendance is desired.

Parking Ordinance Goes into Effect Friday At Midnight

The parking ordinance goes into effect at midnight Friday, October 12th. The ordinance has been published and everyone knows what streets are in the parking zone. The parking law is in effect from 7 a. m. to 7 p. m.

Zeppelin Starts For U.S. Wednesday

FRIEDRICHSHAGEN, Germany, Oct. 10 (AP)—Dr. Hugo Eckener, announced that the dirigible Graf Zeppelin would start on its flight to the United States at 8 o'clock tomorrow morning.

Benefit Luncheon at Community Clubhouse

Quite a number have made reservations for the Benefit Luncheon that is to be given at the Community Clubhouse Friday at noon, beginning at 1 o'clock. A delightful program has been arranged to be given at this time, and a great effort has been put forth to gather a very desirable group of artists and speakers for this affair.

Bank Statements Prove Prosperity Of This Area

The statement as to the condition of the three national banks in Big Spring as of October 3 which were made in the Comptroller of Currency this week conclusively prove that the Big Spring county is in mighty fine shape financially.

In fact, the statements are just about the best ever shown for this time of the year, and before the money for the cotton crop is in.

The statements show that the combined deposits for the three banks in Big Spring total \$3,810,915.88. The combined cash on hand \$1,069,981.08, the loans total \$2,773,317.32 and total resources reach the total of \$4,437,500.13.

The figures for the various banks are as follows:

First National Bank—deposits, \$1,226,070.43; cash, \$319,388.90; loans \$988,268.68; resources \$1,456,628.48.
State National Bank—deposits \$1,247,091.35; cash \$318,521.84; loans \$841,496.69; total resources, \$1,542,617.37.
West Texas National Bank—deposits \$1,256,753.90; cash \$434,070.74; loans \$832,841.18; resources \$1,425,067.38.

Howard Co. Woodman No. 63

The Howard Co. No. 63 will leave at 10 o'clock Thursday, October 11, for Big Spring.

The new Buick is the new Style
Nowhere such beauty and luxury... where such pleasing lines and contours... nowhere Bodies that equal these Masterpiece Bodies by Fisher--The only country is saying, "That's the Style!"
Setting an entirely new, a revolutionary, style—introducing what will unquestionably be the trend of smart body design during the next several years—the new Bodies of the Silver Anniversary Buick are enjoying universal acclaim as the most original and distinctive, as well as the finest and most beautiful ever created by the world-famous Fisher organization!
None is not only a new car but a new vogue—a vogue of economy, born of gently rounded contours instead of plain straight lines—a vogue of distinction, derived from sparkling colors, brilliant chrome-plated metal and striking new roof, radiator and fender design—a vogue of technical composition of finest mohair upholstery, artistic hardware and fine appointments of comfort and convenience not to be found in any other automobile—and the vogue is proving so popular—moving public welcoming it so enthusiastically—that this beautiful car continues to outsell all other cars on the very lowest price field by an overwhelming margin!
The entire country is falling for Anniversary Buick. The entire country is saying, "That's the style!"

Permanent Peace Adequate Defense

SAN ANTONIO, Oct. 10 (AP)—Peace with preparedness was the theme of the addresses by three distinguished speakers on the American Legion program here today.

Prolonged applause greeted Mayor George Seapini of France, secretary of war; Dwight Davis and William Green, president of the American Federation of Labor, as they advocated universal permanent peace and adequate national defense.

Secretary Davis brought the convention assurances that the administration contemplated no weakening of the defenses of the nation because of the Kellogg multilateral treaties.

HIGH SCHOOL DEBATING CLUB ELECTS OFFICERS

A meeting of the High School Debating Club was held in the Episcopal Parish house, last evening, with a good attendance.

Officers were elected at this meeting, and committees were appointed for the various activities of the club.

It was voted to hold meetings every Tuesday night, at the Parish house on Runnels street. W. B. Scott was elected coach and advisor of the club.

Conduct Services For Slain Priest

BEAUMONT, Oct. 10 (AP)—Seventy-five priests today prayed before the body of Rev. Anthony De Simone who was found shot to death in his study Monday, as it lay in state. Meanwhile the body of John Rose, statutory and candle dealer, who officers say shot the priest and then killed himself, was held at an undertaking establishment. Rose will be buried tomorrow unless contrary instructions are received from relatives.

Infant Of Mr. and Mrs. J. B. Cribbs, Dies

The infant daughter of Mr. and Mrs. J. B. Cribbs, was claimed by death at 9:30 o'clock yesterday morning. The little one aged one year, seven months and 19 days, has been sick for several weeks. The remains were prepared for shipment by the Rix-Griffith Mortuary and sent to Dallas, as the passenger train this morning, for burial. Mr. Cribbs is an employe of the F. H. E. Oil company.

Cotton pickers are now very much in demand in our county and the need will increase if the weather continues favorable. Jack Frost and the weather are the determining factors as to the size of the crop our county will make.

Local Refinery Now Shipping Out Gasoline

The Big Spring Refinery, the first of the four or more refineries scheduled to be located in Big Spring, is now manufacturing gasoline, fuel oil and other products in quantity.

From twenty-five to thirty carloads of fuel oil have been shipped out by rail to distant points up to Saturday and on Saturday the first shipment of gasoline in carload lots was shipped from their refinery here.

The gasoline is being marketed through the Altitude Petroleum Corporation.

A. H. Bugg To Open New Camp

One of the most modern tourist camps to be found in the country will soon be opened in Big Spring. A. H. Bugg is having the camp built on a site just south of his residence on the Lamesa highway, in the north part of the city.

The camp will be just a little bit different from any yet constructed in our city. Built in an "L" shape, the cabins will be of mission style of cream stucco finish, with red tile roofs. 16 cabins will be built, each one with every modern convenience. Running water will be piped to each cabin a sink will be installed and they will be up to date in every way.

A filling station will be operated in connection with the camp and a small stock of groceries will be kept on hand, for the accommodation of camp customers. The building housing the station and grocery will be two stories of stucco finish. The upstairs will consist of a four room apartment.

Work is progressing nicely on the building and it is thought that everything will be in readiness for the opening of the camp by November 1st.

Conaster Denied Re-Hearing by Court

AUSTIN, Oct. 10 (AP)—The murder sentences of Henry Davis of Mitchell county, given ninety-nine years, Frank Weaver of Hopkins county, given ten years, Melvin Hollifield of Van Zandt county, given five years, were affirmed by the Court of Criminal Appeals.

Lloyd Conaster's motion for a re-hearing was overruled by the court. Conaster was given a 99-year sentence for murder in Jones county.

Mr. and Mrs. Gus Pickle are at home to their friends in their pretty new home at 1910 Scurry Street.

Save Your Best Flowers For The Fall Flower Show

The annual flower show of the City Federation will be staged the early part of November. All of the flower growers of Big Spring and Howard county are reminded now, to plan to have flowers on display at this time. Save the best that you have now and get your pot plants in shape so that they will make a creditable showing at the flower show. The more flowers entered, a greater success the flower show will be. The members of the City Federation urge the cooperation of one and all and ask that everyone enters the best that you have at the time the flower show is held.

The flower show was a big success last year. Let's have still a better one this year. Many of the people living in the country brought in beautiful flowers last year and they are urged to cooperate again this year in the same splendid way.

Some mighty pretty flowers were on exhibit at the Howard County fair Friday and Saturday and it is hoped that those who grew these will have some to enter in the Fall Flower Show.

President Coolidge Addresses Gathering

WASHINGTON, Oct. 10 (AP)—Addressing the General Convention of the Episcopal Church here today President Coolidge proclaimed religion to be necessary for the continuation of the American government and for the maintenance of those liberties and privileges which are characteristic of American life. The present convention and other similar organizations are taken by the president as evidence that "major forces of the world are actively and energetically engaged in promoting spiritual advancement" of humanity.

BUILDING MODERN ROADS

The ever present question of maintenance is paramount in all road building plans and activities. In the long run, maintenance commonly requires more work and more money than the original building of the highway.

The perfect highway is one that gives a fine, smooth waterproof surface that wears well and can, when it becomes necessary be repaired at a low cost. Communities too often build cheap highways that become "white elephants" ceaselessly taking money from the treasury.

When roads are built surfaces should be used that do not require undue expenditures for maintenance.

OPENING UP NEW WEALTH

For some years there has been more or less of a slump in many Western mining camps but now most of them are bustling with activity and new locations are being developed.

This means greater prosperity for the nation. Copper, lead, zinc, and other metals, both base and precious must be produced in greater quantities than ever before to meet our needs.

Mining is the world's basic industry. A country with great mines has an underlying quality of greatness. A country lacking in mineral resources must struggle against an almost overwhelming disadvantage.

THE POLITICAL SITUATION AS WE SEE IT

We think both Hoover and Smith are men of irreproachable character and great attainments. We think the West needs and desires the policies of the Democratic party. Al Smith is a Democrat and a good man. Hoover is a good man, but a Republican. Therefore the logical course is to vote for Smith. Whichever party is victorious neither religion nor prohibition will be affected. The swift anger of an alert democracy would at once tear to shreds any party that proposed the return of the saloon or the coalition of church and state and both the Republican and Democratic politicians know it. Therefore if you are a Democrat, why vote for Hoover?—Dawson County Journal.

MATHIS BARBER SHOP ADDS NEW EQUIPMENT

J. C. Mathis owner of the popular barber shop in the Douglas Hotel is making steady gains and has been compelled to add another chair and other equipment in order to take care of his growing patronage. He has a mighty fine barber shop, expert workmen who give the patrons the sort of service they appreciate and is centrally located.

REMODELING DWELLING FOR MODERN APARTMENTS

Leland Stone is another of our citizens who is thoroughly convinced that Big Spring is going to make a real city. In line with progress he is remodeling the large residence at the corner of Main and Tenth streets and is to convert it into a modern apartment building. Three apartments will be available when the building is completed.

Health Comm. Reports Sanitary Conditions Here

Fourteen Camps and Cot House Inspected, Bad Defects Found In Some

The committee on inspection spent Thursday afternoon inspecting tourist camps, other camps and cot houses, within the city limits. Fourteen were seen.

Six were in excellent condition with every convenience, while the other eight had the following defects:

- 3 were entirely without screens.
- 4 were partially screened with sagging doors and torn spots.
- 5 had untidy and unsanitary grounds.
- 2 were filthy inside.
- 3 had to carry water long distances.
- 3 had no toilets at all.
- 2 had unsanitary ground toilets.

COUNTY INSTITUTE WILL BE HELD IN COLORADO

The program for the Howard County Institute has been completed, and an especially good one has been arranged. The institute will be held jointly with Mitchell and Borden counties, to be held in Colorado, three days, beginning Monday, October 29th.

Some prominent educators in the state have been asked to talk at this meeting. A program will be published later. All those desiring to attend the institute are cordially invited.

Some splendid talks will be made during this three-day meet, according to Miss Pauline Cantrell, county superintendent.

Carroll Jones arrived last night from New York City to visit homefolks in this city. Carroll has received a thirty-day furlough from the U. S. Navy.

City Commission Meets In Regular Session Last Night

Y. J. Aiken chief bacteriologist and food inspector, of Lubbock, met with the members of the City Commission at the regular meeting in the City-Hall last evening. Mr. Aiken made a talk in regard to the sanitary inspector that is to be in Big Spring on October 15. Big Spring will also have a milk ordinance and a meat ordinance, passed for the protection of the public health.

Silver Denied Re-Hearing by Court

AUSTIN, Oct. 10 (AP)—The Court of Criminal Appeals today denied the second motion of Robert Silver of Fort Worth for re-hearing his case. Silver was granted a third stay of execution until October 26 by Governor Moody to permit the court to action on this motion.

Silver was given the death penalty in connection with the theatre hold-up in which the cashier, Rosecoe Wilson was killed.

HAULING STORAGE TANK MATERIALS TO HOBBS

At present there is a fleet of heavy trucks hauling materials through Seminole to Hobbs, N. M., to the location of the Midwest well which is 31 miles west and 2 miles south of Seminole. This material will be used in erecting another 55,000 barrel storage tank to take care of production at this well. Tank builders have already started work on same.

The Midwest people have filled all storage on this location and we understand are making preparations for the erection of more tanks at their Hobbs well.

Aside from the new tank now under construction they already have two 55,000 barrel and six 5,000 barrel tanks full of oil from this well.

H. & B. Beer Will Add To Facilities

Owing to the great increase in the business now being transacted at the local office of H. and B. Beer on East Street the firm is extending their quotation board facilities to permit of a greater number of stock quotations being carried daily.

"The character of the business now offering," said C. D. Carter, local manager, "compels us to carry a more diversified line of stocks and we will quote the Major Oil Companies each day. Our cotton business is also increasing by leaps and bounds. We now look for Big

Spring to be the office of the firm.

BUYERS FOR FARMERS who have heirs on estates. Several heirs around \$50 each. Commerce bought used as a prize at test.
