Site Of Proposed Childress Junior College

COLLEGE OF DEATH during the war, the government's multi-million dollar Childress Army Air Field, where thousands of bombardiers received their final courses that helped bring defeat to the Axis, may become a junior college. An extensive drive is now under way to procure the almost 'ready-made' college site to serve students of Collingsworth, Hall, Hardeman, Childress, Motley, Cottle and King counties.

Top, above, is one of the buildings which would be used as a class room. It is declared that this type building would require little if any alteration to be used immediately as class rooms. Many of the buildings are equipped with refrigeration air-conditioning. Paved streets, electric lines, complete water and sewage systems are already installed.

Center, above, is one of the five concrete tennis courts which could be used for student recreation. Note trees and shrubbery (water reservoir in center background) which has appearance of college campus, altho the air field is still under army control.

Lower, above, splendid officers' club building, which is proposed as college supply store, soft drink counter, possible cafeteria, and student recreation building. Most of the excellent equipment of this building is still intact.

Students would remain at home and attend the college thru a model bus system according to proposed plan.

Many ex-service men have expressed interest in the proposed college which would make further education possible while remaining at home in their respective communities.

* Photos by Douglas Meador

Many Boys Learning To Swim

Most of the 20 to 30 boys members of the Matador Boys Club are learning to swim during the daily excursions to the Roaring Springs pool, according to Coach Brady Thomas.

Coach Thomas urges all parents to consider the necessity of their boys learning to swim as young as possible. Daily swimming lessons are provided and the boys are under the constant watch of life guards. Coach Thomas says that approximately 20% of all mole adults never learn to swim, which deprives them of one of the world's finest sports and also places them in danger when they are near water and during emergencies. There is no charge to any boy in the county to become a member of the Boys' Club.

A picnic is planned by the club this evening at 7 p. m. at Roaring Springs and all parents are invited to attend. Also any boys who are prospective members of the club are invited to attend as guests of the organization.

Chambliss is Praised For Care of Cemetery

Matador's East Mound Cemetery, sponsored by the Fleming Post, American Legion, has often been declared one of the most beautiful small-town burial grounds in West Texas since it has been under the care of E. B. Chambliss.

Many visitors have commented on the park-like appearance of the cemetery and the unusual amount of work required to keep it in condition. Last week Ralph Black of Goldsmith, Texas, former Matador resident, praised Mr. Chambliss' work and made a contribution of \$10 to the cemetery fund. Mr. Chambliss is paid a small stipend from contributions of donors who send in money at regular intervals or authorize the First State bank to draw on their accounts each month. Anyone with loved ones buried here may make arrangements to aid in paying Mr. Chambliss from the fund by writing or contacting J. R. Whitworth at the bank.

YOUTH CARAVAN TO OPEN HERE JULY 5

Methodist Youth Caravan composed of four girls and their adult counselor will arrive here July 5 and remain for a week according to an announcement made this week by Rev. Oscar Bruce.

Members of the caravan are carefully chosen. Each member is required to have two years of college and a recommendation from the pastor of their home church in addition to the recommendation of six adults who know of their church activity. They are chosen for leadership, pleasing personality and interest in the work being promoted by the caravan.

All phases of church work are made interesting through the caravan program. Workshop activities (building recreation equipment and learning its use) are conducted each afternoon between 3 and 5. Evening activities begin at 8 p. m. and included discussions of interest to young people. Worship and recreational periods will close each evening session.

Methodist youth people from Matador, Flomot, Roaring Springs and Whiteflat are making plans to attend. Other young people of the communities of the county are invited to attend.

Pioneers To Sponsor Dance For July 4th

A benefit dance will be held on the night of July 4th, at the Pioneer Park Pavilion, Roaring Springs, sponsored by the Motley-Dickens Counties Old Settlers' Association, according to an announcement made Tuesday by C. C. Haile, president. Proceeds of the dance will be used to help pay expense of the annual reunion in August, he declared. He said that usual admission would be charged and good music provided.

A special call meeting of the directors of the organization has been set for Saturday afternoon, June 28, at 2:30 p. m. The meeting will be held at the pavilion and all directors are urged to attend.

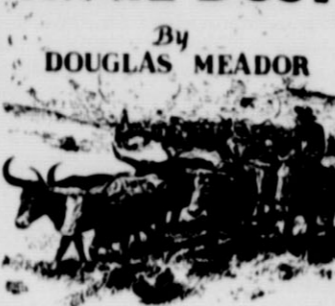

Prior to the last year the expenditures of our highway tourists reached a total of more than 100 million dollars annually.

Grover Cleveland was a bachelor and 45 years of age when he became President of the United States the first time.

Matador Tribune

VOL. 21, NO. 14 MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, JUNE 26, 1947 PRICE 5c

TRAIL DUST

By DOUGLAS MEADOR
 Cured in the kiln of Texas wind, the tall rider's face was relaxed like the straps of an old boot. Laughter was suppressed behind his blue eyes and mirages of compassion rose in their depths when he tilted the broad, rolled brim hat off his forehead. When he walked it was with the easy gait of the wind rocking his lean frame on high-heel boots. He usually dropped his thumbs inside the waist of his tight-fitting trousers, as if to rest the weight of his long arms. Men sought his company because he enjoyed listening more than talking and his heart had never sheltered ridicule. Supper was over and the cook was washing pots and pans when the buckboard neared camp. Tired cowboys stretched against the ground and leaning against bed-rolls, turned to watch the approaching vehicle. Red heat wave from the sunset reflected on the woman's face as she neared the chuck wagon and reined the span of sleepy bays to a halt. As if by silent summons the tall rider rose and went to her. A sparkle came to her eyes at the sight of him. He held her small hands for a few moments, then kissed her on the cheek. Presently he walked back to the wagon, picked up his saddle and bed-roll and carried them to the buckboard. Without a word to the interested group of riders, he took the reins, and climbed into the seat beside the woman. Shadows were rising out of the east as they drove away, the carriage following a weaving wagon road that was like two broad pencil marks drawn through an unimportant statement.

Scouts and Dads Hold Meeting At Golf Park

More than 20 members of the Matador Boy Scout Troop, their fathers and "adopted" fathers, enjoyed an evening of fun and association Monday when they met on the creek under the cottonwoods in the Matador golf course park.

Each Scout prepared the meal for his father guest on the open campfire. Following the meal, fathers and sons engaged in a "wheel-barrow" race, a "three-

legged" race and foot race. Winners of various teams were matched for championship places.

Gathered on a sandy shoal in the creek bed, the group listened to an interesting talk by Colquh Warren on the early history of Motley county, who was followed by Douglas Meador with a talk on his recent plane trip to Guatemala, C. A.

Father and son teams attending were: C. Warren, Jerry Warren; Ward Rattan, Garland Rattan; D. C. Bradley, Don Bradley; Cecil Shelton, Cecil Wayne Shelton; C. W. Giesecke, R. L. Giesecke; Leonard Carman, Cecil Carman; William Dunning, Kenneth Dunning; John A. Hamilton, Ronald Hobbs; Pat Sheridan, Wayne Shelton, Douglas Meador, Fred Stanley and Billy Ray Neighbors; and Scoutmaster Tom Hamilton and Norman Neighbors.

'Blow-Torch' Weather in Panhandle

Five days late, summer arrived today with sufficient force to send mercury sky-rocketing above the 100 mark and cause farmers, stockmen and business men to look towards the sky for possible relief.

Hot, "blow-torch" winds are causing all forms of vegetation to suffer, however, the weather is considered good for growing row crops and ample moisture in the ground prevents any possible drought threat at present. Plenty of water in surface tanks also provides security for stockmen against stockwater shortage.

Unofficial thermometer reading at four p. m. today was 102 degrees (in the shade).

LIONS EVEN SCORE AFTER VFW DEFEAT

Conditions are not settled but they are improved. Wednesday night (June 18) the VFW nine swooped down and defeated "Coolerator" Earl Laughlin's Lions to the score of 24 to 10 in one of the season's most talked-about soft ball games.

But the tense condition righted itself Tuesday night when the Lions returned with steam to crush the oversea boys 12 to 7.

A second game Tuesday night was played between the Fireboys and the BB's with the firemen taking the honors 6 to 5.

Local all-stars went down in defeat Sunday afternoon at 3 p. m. before Floydada all-stars with a final score of 21 to 3.

Matador all-stars will play Paducah Friday night while the Baptist Brotherhood holds the home fort against the invading Childress Boys Club. The game here is called for 8:30.

New Lions Board To Meet Monday Morning

First meeting of the new board of directors of the Matador Lions Club will be held at Marvin's Cafe at 6:30 Monday morning, June 30.

First meeting of the club in the new fiscal year will be held in the Methodist church basement at 12:30 Tuesday, July 1. Scouter Norman Spray, delegate to Boy's State at Austin, will be the principal speaker at the Tuesday meeting. All members of the club are urged to make plans to attend the first meeting in the new year.

Druggist Returns

G. S. (Doc) Craven, former resident of Matador for many years, has accepted a place in the prescription department of the Matador Drug where he began his new duties Monday.

Mr. Craven, who for many years was owner of the City Drug store here, has made his home in Brownwood since leaving Matador.

Navy Recruiter To Be Here Twice A Month

It was announced here last Tuesday by James B. Williams, Yeoman First Class, USN from the Navy recruiting station in Lubbock, that the Navy Recruiter would be in Matador on the second and fourth Tuesdays of each month at 2:15 p. m. Temporary location will be in the post office, Williams said.

City Reservoir Is Emptied Quickly After Main Breaks

A broken water main late Monday accomplished a condition in about 20 minutes that more than 20 years of prohibition was not able to achieve: Matador was dry. Every faucet on the city water department was empty.

Between seven and eight o'clock the Matador Volunteer Fire Department made a practice hook-up at the corner of the First State Bank. After the practice firemen noticed that the paving in front of Spot Cash Grocery was rising and that water was running along the curb. Fireman Freddie Welling hurried to the city wells pump station to notify water superintendent Herman Stanfield. He rushed to the city hall to cut off the big valve that would have checked the lower reservoir of 50,000 gallons of water but it was too late. The tank of water had escaped.

Homes throught the city were without even drinking water, as workmen began digging towards the 8-inch water main buried about 19 years ago. There they found a long break in the cast-iron pipe through which the city's water reserve had escaped.

Mayor George Edwards Tuesday said it was a theory that the fault had been in the pipe since it was installed and that perhaps a sudden closing of the large fire hydrant faucet, had through force of the impact, caused the break to become acute. Automobiles parked over the affected area, sank into the water-soaked clay and gravel, making it necessary to tow them back on solid pavement.

Third Accident At Hi-way Intersection

Series of three accidents within the past week at the intersection of highways 18 and 70 at Bob's Oil Well filling station breaks all previous records, according to Sheriff John Stotts who investigated two collisions since Sunday.

In fact no investigations have been made of collisions at the intersection during the 15 years since the highways were opened until the three, starting on Monday, June 16, reported in last week's Tribune.

Sheriff Stotts investigated the second accident Sunday afternoon, when a car driven by D. H. Henson of Olton collided with a car driven by Willard Young of Matador. No one was injured but the cars were damaged.

Lee Harris (colored) of Matador, driving a truck, and C. D. Garrison driving an automobile experienced a slight accident Tuesday night. Only small damage resulted.

Freight Slow-Up Shadows Harvest

Critical Shortage Of Cars Over Area

SILENCED by a shortage of freight cars the Roaring Springs Red Ball elevator was shut down last night, while frantic telephone calls were being received from South Plains towns seeking more cars in which to ship West Texas' largest wheat crop.

James Moss, member of the Red Ball Feed and Grain elevator firm said 141 cars have been shipped and that approximately 1000 bushels were in storage but no more cars were available. The market last night was \$1.86 per bushel.

Mr. Moss said that calls were being received from Plains towns asking if his firm could provide cars for wheat. He estimated that possibly 30 to 40 more cars of Motley county wheat may still remain to be harvested. He said the freight car shortage was reported the same throught the entire area.

Reports reached here this week that wheat is being piled on the ground throught Floyd and other neighboring counties where the harvest is now reaching its zenith.

Since the great Plains wheat growing areas are filled with machines harvesting what is believed to be the largest wheat crop on record, the demand for freight cars is growing daily. Mr. Moss declared. He said the Quannah, Acme and Pacific Ry. could not promise any more cars and that other railroads are faced with the same problem. In addition to the 141 cars of what shipped from the county, many thousands of bushels are stored for seed and awaiting cars or future sale.

EVANGELIST

ASSEMBLY OF GOD REVIVAL TO OPEN HERE JULY 2nd

Rev. Fred Numerick, Assembly of God evangelist of Springfield, Illinois, will open a revival at the Matador church on July 2, which will continue for 10 nights or longer, according to Rev. C. B. Bowen, local pastor.

Rev. Numerick conducted a three-weeks revival here in December and received wide acclaim for exceptional ability as an evangelist.

Rev. Bowen declared that special singing will be held each evening and that a cordial invitation is extended the public to attend.

COUNTY HAS 27 NOTARY PUBLICS

Motley county now has 27 Notary Publics according to records filed in the office of District and County Clerk Pat Sheridan. Recent appointments and reappointments by the Secretary of State, include: D. I. W. Birnie, Fred Bourland, Forrest Campbell, J. Farris Fish, Dick Groves, J. Tom Hamilton, G. E. Hamilton, John Hamilton, Maggie V. Hamilton, W. F. McCaghen, M. S. Patton, Rachel Patton, W. N. Pipkin, D. E. Pitts, Roy Roberts, Lillie Seay, R. A. Seay, Elmer Stearns, Thyra Thacker, Howard Tra-week, Colquett Warren, Ina Warren and J. R. Whitworth, all of Matador.

Emma Miller, Isabel Mitchell and J. D. Mitchell of Roaring Springs and Leonard Crowell of Flomot.

Norman Spray Article To Be On Air Sunday

FORT WORTH, Boyce House, radio columnist and noted Texas author, will tell about Motley County's foremost water-watcher Jess Perkins, on the Justin Boot and Shoe Program Sunday, June 29. "I Give You Texas and the Great Southwest" is heard over radio stations WBAP-570 (Fort Worth-Dallas) and KTTA (San Antonio) at 12:45 p. m. and over KGNC (Amarillo) at 4:00 p. m.

House will quote from an article about Perkins and his divining rod methods that was written by Norman Spray, Matador youth, and published in the June issue of the Cattleman Magazine.

Perkins is a farmer, rancher and cattleman of Whiteflat, and first started witching for water in 1912.

Norman is the son of Mr. and Mrs. Jack Spray of Matador.

Weather Doesn't Suit? It Has Been Worse

BURLINGTON, Vt. The year 1816 in Vermont often is referred to as "18 hundred and froze to death."

On June 8 a foot of snow fell in the state. Drifts piled two and three feet high. There was some snow in July and August and a heavy frost struck September 10. Virtually no crops were harvested and the suffering was so intense that many Vermonters migrated westward.

Child Runs Across Car's Path

Wiley Lee Jr., 3, son of Mr. and Mrs. Wiley Lee, is in Tra-week Hospital suffering from a broken leg and severe bruises as the result of an accident in east Matador about 10 a. m. Tuesday. The child was struck by an automobile driven by Mrs. F. A. Garnett.

Sheriff John Stotts investigating the accident said apparently the child ran into the car's path in an attempt to reach playmates on the opposite side of the street. Mrs. Garnett told Sheriff Stotts she saw the children playing in the street and believed they had gotten out of the path of her car. She said she did not see the child and did not know when her car struck him.

Dr. Albert Traweek said the injured child seemed to be resting well and that recovery appeared assured. The accident occurred at the intersection of the street just east of the Matador laundry.

State Bank Installs New Weather Sealing

First State Bank here is now air tight. Five workmen from the Protection Weatherstrip Company of Floydada have been busy during the past week installing weather-stripping in 37 windows of the entire bank building and all doors.

The modern weather-seal process involves installing metal strips in all openings, cutting grooves in all window sash frames and placing a heavy copper sealing plate under the door entering the lobby.

The sealing process is insurance against sand and cold that evades the conventional seal in windows and doors.

NEW ARRIVAL
 Mr. and Mrs. H. D. (Skeet) Duncan announce the arrival of a seven pound son named Cary Lee born at Traweek hospital June 17th.

lin, Texas visited in the home of their daughter and family, Mr. and Mrs. Johnny Stephens Mr. and Mrs. Stephen's daughter, Sandra, who has been visiting with her grandparents, returned home.

CARD OF THANKS

We wish to take this means of expressing our gratitude for the many acts of kindness, words of consolation and the beautiful floral offerings following the tragic death of our loved one.

Please accept our most profound appreciation.

Mrs. H. R. Black and family.

IN APPRECIATION

We wish to take this means of showing our appreciation to those who rendered so much kindness to us during the illness of our son, Melvin.

Mr. and Mrs. Bruce Martin.

MOVE TO OKLAHOMA

Mr. and Mrs. Clay Gilbert and daughters Virginia and Linda left this week to make their home in Duncan, Oklahoma where Mr. Gilbert will be employed by the Central Motor Company.

Rodeo-Horse Show To Be In Pampa Aug. 5-9

It has been announced here that the Top of Texas Rodeo and Horse Show will be held in Pampa on August 5-9 and will feature three horse shows. A Palomino show will be held on Tuesday, August 5, featuring a reining contest on Tuesday night.

The official American Quarter Horse show will be run off on the 6th and 7th with grand champion trophies being awarded by the American Quarter Horse Association in addition to the cash prizes totaling well over \$500.00. A reining contest will be held in connection with the show, with all entry fees being added back as prize money plus a trophy for the winner.

The National Quarter Horse show will be held on Friday and Saturday, August 8 and 9, with prizes and trophies being furnished by the National Quarter Horse Association. Only 115 stalls will be available for each of the three shows, first come, first served, according to Quentin Williams, General Superintendent.

**Matador Chapter of Eastern Star Holds
Colorful Installation Of New Officers**

Installation service for the
Matador Eastern Star Chapter
was held at the Masonic Hall
Thursday evening, June 19 at
8:00 p. m.

Installation officers were Mes-
dames Bonnie Lee Davis of Pa-
ducah as Installing Officer;
Maggie Hamilton, Installing
Marshall; Bessie McWilliams,
Installing Chaplain; Cinda Wat-
son, Installing Organist; and
Miss Annie Mae Jackson, In-
stalling Secretary. Those in-

stalled were Mrs. Opal Pipkin,
Worthy Matron; W. N. Pipkin,
Worthy Patron; Ralph Stapleton
Associate Patron; Mesdames
Maggie Hamilton, Secretary;
Allie Cox, Treasurer; Grace
Campbell, Conductress; Win-
fred Darsey, Associate Conduc-
tress; Vinie Keltz, Chaplain;
Virginia Willie, Marshall; Lola
Pohl, Organist; Bertha Jones,
Adah; Beverly Vinson, Ruth;
Margaret Whitworth, Esther;
Margaret Springer, Martha;
Miss Rachel Patton, Electa and
Etoile Stanley, Warder.

Associate Matron, Mrs. Vivian
Jacobs, and Sentinel, Mr. W. F.
Jacobs were not present for in-
stalling but will be at a later
date. Outgoing Matron, Mrs.
Vinie Keltz, made a speech and
presented her officers with
gifts, after which Mrs. Opal
Pipkin, incoming Worthy Ma-
tron, presented the Installing
Officers with gifts. Her address
was the discussion of her theme
for the year which is to be
"Love". Her colors were scarlet
and white.

Mrs. Grace Campbell and
Mrs. Margerite Edwards sang a
welcome song to the Incoming
Matron and Patron. The In-
coming Marshall, Mrs. Hamil-
ton, presented the Star points
with bouquets of flowers ap-
propriate to their stations. She
was assisted by Mrs. Molly
Jameson.

Visitors present were Mrs. V.
Marguerite Aldridge of Colum-
bia Chapter 152, of Halton,
Kansas, Bonnie Lee Davis, Mrs.
Isabel West, Mrs. Emma Mayes
and Lausel West, all from chap-
ter 506, Paducah, Mrs. GERAL-

Whitworth and W. N. Pipkin.
Those present were served
punch and cake squares deco-

**EXPERT DECLARES DEEP PLOWING
IS RUINING AMERICAN FARM SOIL**

NEW YORK — The finest con-
ceivable vegetables, grains
fruits and meats at costs every-
body will be able to pay are
forecast by Edward H. Faulk-
ner, of Elyria, Ohio, in a new
book, "A Second Look" (Uni-
versity of Oklahoma Press).

This farm utopia is based on
a change in agricultural prac-
tices which Faulkner says will
relieve farmers of fertilizers,
lime, legumes for crop rotation
and the equipment and ma-
terials for pest campaigns.

Faulkner's revolutionary ideas
were first advanced in 1943 in
a book "Plowman's Folly," that
declared present practices of
deep plowing was ruining
American farm soil. The book
caused many practical farmers to
make some changes, drew a lot
of criticism, and "A Second
Look" is the sequel.

Faulkner is a farmer who has
been a county agent in agricul-
ture and a soil and crop investi-
gator for many years.

Even the taste of much pres-
ent day farm food has deterior-
ated, he asserts.

"We have succeeded," he
writes, "in keeping crop yields
high enough to withhold our
population from the grave, but
the quality of our farm products
has not been high enough to
keep most of our people out of
dentists' and doctors' offices."

He claims that improper ag-
ricultural practices, including
to deep plowing, have been re-
sponsible for much erosion, for
ground failing to hold rain
water in some places while be-
coming too soggy in others, for
depletion of essential food ele-
ments, and for insect and plant
diseases which he says would
largely disappear in crops grown
on really fertile soil.

This fertility, he declares,
can be had by use of mulches
in place of commercial fertil-
izers, and some changes in
planting practices. Then soil
would be built the same as na-
ture made it, with the aid of
many organic acids of decay.

flowers.

that would extract fertilizer es-
sentials from the minerals al-
ready present in the earth.
This, he says, would be a long
range plan, but a practical one
that would reduce farm costs.
The big point, he says, is to
regain the biological activity of
soil, and he holds that when
properly handled the earth it-
self, with what it grows, is com-
pletely self-sufficient.

The Hunt County Artificial
Breeding Association, now in its
second year, has 160 members
owning 1300 cows. Officials
of the Southwestern Exposition
and Fat Stock Show, Ft. Worth
say new barns will be ready for
the 1948 show. Vaccines
and alleged "cures" for foot and
mouth diseases aren't being
used by the U. S. and Mexico
in the current campaign in
Mexico because of their uncer-
tainty and also the time requir-
ed for vaccines to be effective.

**Miss Betty Price
Becomes Bride of
William R. Coffey**

The marriage of Miss Betty Price, daughter of Mr. and Mrs. Sterling Price of Matador to Mr. William Raymond Coffey of Denton was solemnized in a beautiful ceremony at the home of the bride's parents at 9 o'clock Sunday morning June 22nd. Rev. Oscar Bruce, pastor of the Methodist church read the vows.

Miss Mary Jaunice Wilkinson of Whiteflat, Texas was maid of honor and wore a navy crepe dress with white accessories. Best man was the bride's brother, Franklin Price.

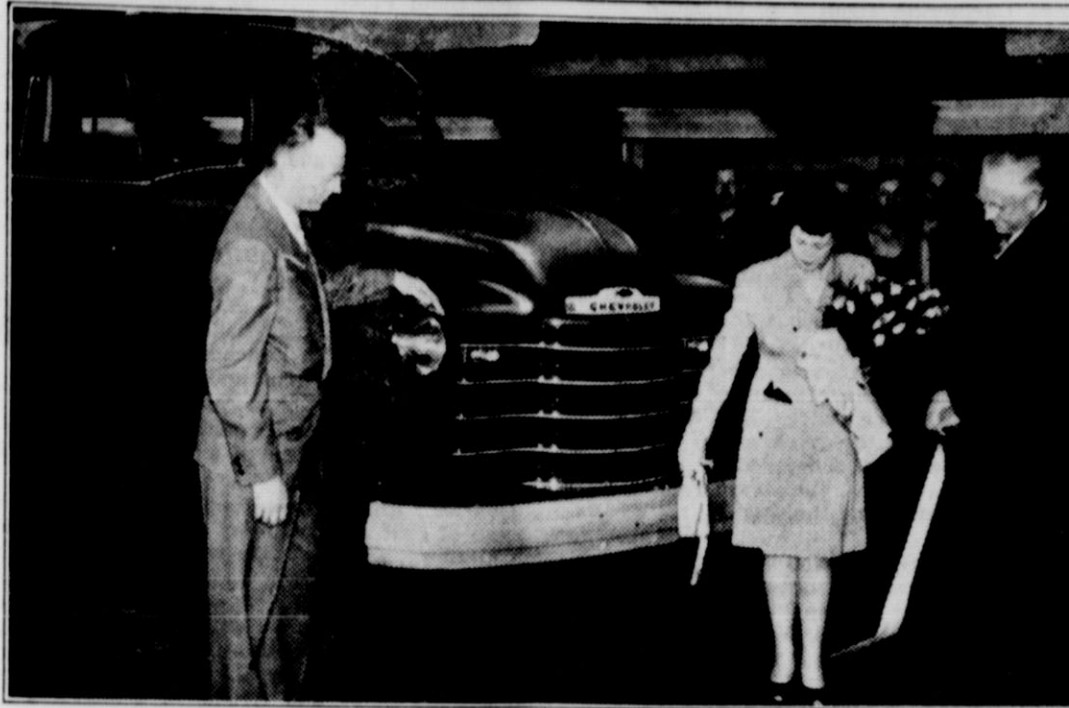

The bride who was given in marriage by her father, wore a magnolia white street length dress with black accessories and a corsage of white rosebuds. She carried a white Bible with streamers.

Mrs. Josephine Coffey of Poolville, Texas, the bridegroom's mother, wore a beige suit with a corsage of white carnations and Mrs. Price chose a rose-colored crepe dress with a

"Advance-Design" Chevrolet Trucks Make Bow

The trucks that will bring true postwar design to the highways of America, Chevrolet's new "advance-design" line of commercial vehicles, will be introduced to the trucking industry June 28 by Chevrolet dealers across the country. Incorporating a variety of new features that assure greater operating efficiency, load-carrying ability and highway safety, the new trucks are said to be more

rugged and durable than ever before. First units were built in Chevrolet's Janesville (Wis.) assembly plant, and were appropriately hailed. Here the "Queen of America's Dairyland," Miss Betty Gene Gardner, Ridge-way, Wis., christens the new vehicle as Gov. Oscar Rennebohm, Wisconsin's chief executive (right), and R. W. Podlesak, Janesville plant manager, look on.

corsage of white carnations for her daughter's wedding.

The bridal party stood before a background of pink and white delphinium and fern, pink rosebuds and snapdragons.

Mrs. James Moss introduced the ceremony playing soft music and then played the Lohengrin "Bridal Chorus" as the bridal party entered.

Following the wedding a re-

ception was held. Centering the bride's table was the three-tiered wedding cake topped with miniature bride and groom. Mrs. Cotton Stephens presided at the punch bowl and Mrs. James Moss and Mary Jaunice Wilkinson served cake to the guests. Gladys Marie Springer presided at the bride's book.

Mrs. Coffey graduated from Matador high school in 1946 and attended Texas Tech and North Texas State Teachers College in Denton for the past year. Mr. Coffey was a graduate of Wichita Falls high school and served with the Army in the United States and South Pacific for three years. He has been employed by the Carpenter Bros. Construction Co., in Denton for the past year.

When the couple left for their wedding trip Mrs. Coffey was

wearing a rose colored suit trimmed with black buttons and black accessories.

Coming from out of town, guests for the wedding were Mrs. Josephine Coffey, Mr. and Mrs. A. C. Tidwell of Granburg, Mr. and Mrs. H. C. Curl and son Sam, and Miss Lois Wood, cousin of the bride, all of Tolar.

Other guests were Mrs. Oscar Bruce, Mr. and Mrs. R. E. Campbell, Sr., Mr. and Mrs. R. E. Campbell Jr., and daughter Charlotte, Mr. and Mrs. Forrest Campbell and son Gary, Mr. and Mrs. T. E. Cammack, Mr. and Mrs. Grover Price and daughter Carolyn, Mr. and Mrs. James Price, Mr. and Mrs. Cotton Stephens, Mrs. H. H. Schweitzer, Mrs. Pearl Wilkinson, and daughters Gwendolyn and Rita, Miss Trudie Fleeschmann, recently of Austria, and Mrs. George Springer and daughter Gladys Marie.

Mrs. Marvin Patton and Mrs. Claud Harp and daughter Ann, went to Littlefield last Thursday and visited in the home of Mr. and Mrs. Rhenard McCary where Ann will visit for a week. While there Mrs. Patton visited her cousin Mr. and Mrs. Newt Harkey.

Messrs Claude Harp, Harold Blair and Rufus Emmons made a business trip to Amarillo Thursday to attend an International Harvester meeting.

**Mrs. Willie Attends
New York Convention**

Mrs. U. L. Willie was accompanied by her husband and daughter Clotelle to Fort Worth last Friday, June 14th, where she met a special train leaving there to New York for the General Federation of Women's Clubs Convention where Mrs. Willie has an appointment as Floor Chairman for the Texas delegation.

Mrs. Willie will join a group for a post-convention tour to Montreal, Canada, for eight days following the convention in New York.

**Baptist Junior Girls
Have Lawn Party**

Mrs. Virgil Rattan entertained the members of her Junior 11-12 year girls with a lawn party last Friday night, June 20th from 7 p. m. until 10:30 p. m.

After playing games they enjoyed a ranch style supper con-

sisting of chuck wagon beans, roasted weiners, fresh onions, potato chips, pickles, and for desert, cake and ice tea.

Those present were Jean Hines, Barbara Neighbors, Betty Ruth Smalley, Donna Joyce Pollis, Lilian Woods and the hostesses Mrs. Rattan and Dorothy Rattan.

Barbara Springer is visiting relatives in Amarillo this week.

Mr. and Mrs. E. O. Tudor and son Paul from Fort Worth visited in the home of his sister and family, Mrs. Forrest Campbell.

Mrs. Ethel Payne made a business trip to Lubbock Monday.

**THE FRUIT OF
UNCEASING LABOR**

★ Between 1911 and 1935, a brief span of twenty-five years, extraordinary progress was made in public health. According to figures released by the Metropolitan Life Insurance Company, the duration of human life during this period was extended by almost fourteen years. It is all the more remarkable in the light of the history of this period, which included the first World War, the worst epidemic in recent history, and America's most severe depression.

Many agencies have contributed to make America a more healthful place in which to live. Not the least of these are scientific medicine and pharmacy, which work increasingly for better methods of prevention and treatment of disease.

From where I sit... by Joe Marsh

**Crazy Hat
Wins Refrigerator!**

One of those "Breakfast in the morning" radio shows came to Capitol City last week, and Sarah Carey won first prize for wearing the craziest hat in the audience. It was a full-sized refrigerator! (The prize, not the hat.)

"Glad them hats of hers paid off at last," says Ed, treating the whole thing like a joke. But you could see he was proud of Sarah. From where I sit, there's another thing Ed can be proud of: the way he's put up with those hats of Sarah's, with never a criticism; just

as she's put up with Ed's pipe and the other little freedoms he enjoys.

They've got that refrigerator home now, stocked with beer; and we're going over tonight to drink a toast—not just to Sarah's hats taking first prize... but to a happily married couple, who've learned to live with one another's differences in tastes—whether it's a taste for hats or beer!

This Is Boys' State
By Norman Spray

Upon returning from Austin, where I attended the 1947 session of Lone Star Boys' State, I have heard quite a lot of discussion about, and have been asked on numerous occasions, "just what is this Boys' State anyway?"

To this question I can usually only reply, "it is wonderful," because I do not have time to enumerate the many good things that go together to comprise Boys' State.

Boys' State is held mainly to familiarize boys with the government of their state, cities, and counties—democracy as a whole—but it does much more than that. A session at Boys' State will do much to teach any boy qualities of leadership, cooperation, how to care for himself away from home, and many other things, all in addition to government.

Lone Star Boys' State is sponsored by the American Legion, and from 320 to 350 boys attend it annually. These boys are sent as representatives from towns over Texas by clubs, The American Legion, or other civic organizations. They are supposed to be average American boys—not necessarily "straight A students," and on the other hand not boys who are bothersome to their communities.

Motto of "Lone Star Boys' State is "Learn by Doing", and soon after registering in at the State School for the Deaf, which is loaned for the purpose of Lone Star Boys' State, the boys enrolled do just that.

They are assigned to one of two political parties, the Longhorns or the Pioneers, and are stationed in one of eight dormitories, which are named and called cities. First the type of government that the city will have is decided, then officials are elected on their own campaign speeches and party backing. Next, two cities consolidate to form a county, and county officials are elected. Then the campaigning really starts, as

Here lie the remains of a driver who thought he could drink and still drive a car. Racing down the highway at a dangerous speed, his car wandered off the edge of the pavement, dragged on the sandy shoulder, and was wrenched into a spin. Drunken drivers are potential murderers of every other motorist who comes near them on the road. They were involved in more than 5,000 fatal accidents last year. National Conservation Bureau safety specialists say even one or two drinks slow up reactions, make judgment unsure, increase chances of accident three times.

state officials are elected.

Both parties hold separate meetings and have about a day and a half of speeches and heated campaigns before they decide the boys they will support for officers. After this much is done, both parties meet at the state capitol—administration building of the State School for the Deaf—for a joint assembly program where the candidates introduce themselves and are allowed campaign speeches. Late that afternoon, the voting is done on ballots, almost exactly like the official voting ballots used in the United States.

The following morning, the elected officers begin their duties and start appointing boys to the appointive offices. After officers are appointed, the citizens of Boys' State are transported to the real state capitol of Texas and meet the men who hold the same offices to which the boys were elected, and see the capitol as well.

When the boys check out after a week at Boys' State, they have an idea of politics as a whole, and a working knowledge of our form of government.

Yes, this is the main purpose of Boys' State: to familiarize boys with democracy; to teach them how to protect it; and keep our nation secure from communism, but it is intermingled with an enjoyable sports schedule. Each city has a team which competes for state championships in touch football, softball, basketball, and volleyball. The state champions are determined by means of elimination tournaments.

Put them all together: co-operation, new friends, clean competition, good sportsmanship, brain-racking campaigns, plain fun and entertainment, some hard work, a certain amount of schooling, and—this is Boys' State.

Youth Revival To Be Held In Paducah

Rev. J. R. Smallwood, pastor of the First Baptist Church in Paducah announces a Youth Revival to be held June 27th to the 29th.

Rev. Paul Stephens of Pensacola, Florida, will preach at the meeting and Mr. Bill Williams of Sweetwater, Texas will lead the singing. Services are to be each evening at 8:00 p. m.

Rev. Smallwood wishes to take this means of extending to all young people of this section a cordial welcome to attend.

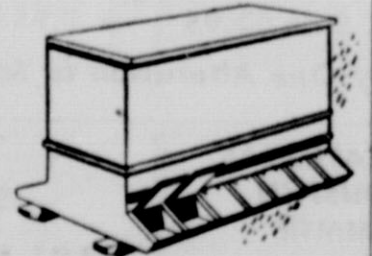

Miss Charlene Giesecke from W. T. S. C. spent the week end at home.

Portable Hog Feeder

SPRING is a good time to plan for the summer hog range. A successful pig raising program demands not only that the porkers have good pasturage but also that adequate facilities be available for supplementary feeds.

The ideal way to meet the problem of supplementary feeding facilities is to make a number of portable feeders. Mounting the feeders on skids will enable the operator to move them from one

location to another by team or tractor with a minimum of difficulty. A unit of this kind should have a strong framework so it can be hauled from one site to another and be enclosed with materials that will protect the contents from the weather.

The feeder shown in the illustration was made by nailing asbestos cement board to a wood framework. Asbestos board was chosen because it provides a barrier against rodents in addition to being proof against sun, wind and rain.

FLOYDADA LEGION TO SPONSOR BIG CARNIVAL SHOWS

Floydada American Legion is sponsoring the T. J. Tidwell shows and carnival at the Floyd county annual 4th of July celebration according to announcement made this week. The carnival will open on a lot opposite the courthouse on June 30, with shows each afternoon and evenings including Saturday, July 5. The Tidwell Shows is the oldest and largest carnival in West Texas and declared to be the largest ever to visit Floydada.

Manager Tom Tidwell was reared in West Texas and has lived and wintered his shows in

Sweetwater for more than 20 years. They have exhibited at Lubbock, Plainview and many other West Texas cities. The Tidwell shows are favorably known for high quality, wholesome entertainment with many new features, a show which children may safely attend unaccompanied.

Carnival Elephant

Tidwell Shows feature the only elephant with a carnival west of the Mississippi river. The elephant, known as "Queenie," is declared to be better known in some West Texas towns than many public officials. Children like to visit the gentle elephant, ride her and watch her act. The elephant will be at Floydada all next week, starting Sunday.

Tidwell Shows offer many new riding devices and shows, according to announcements. A new feature is "Gertie" and her monkeys. "Gertie" is a well-trained chimpanzee who sleeps in the same room with her trainers, on a cot like a human. Her act is the most-discussed carnival show in the Southwest. At each performance the chimpanzee goes through a repertoire of tricks, playing with toys, rides a tricycle and eats from dishes at a table like a well-mannered person. She disrobes, says her prayers and retires like a good little girl. The Floydada Legion urge everyone enjoying good, clean, wholesome entertainment to visit the carnival while it is in the neighboring city.

Mr. and Mrs. W. C. Morehead and son Billy of Amarillo, Mr. and Mrs. R. M. Mayfield and children of Ropesville, Texas and Mr. and Mrs. Hallman Noy and son of Oklahoma City visited in the home of Mr. and Mrs. F. Z. Martin of Matador last week.

X MARKS THE SPOT!

Yes—X marks the spot where more than 2,000 people died and over 70,000 were injured last year when automobile drivers challenged the iron horses of the rails—and lost.

When you approach a railroad crossing you are entering the railroad's right-of-way. To save you from harm, gates are lowered or automatic signalling devices, bells and blinking lights warn of approaching trains. The engineer blows a warning blast, rings his bell. That's the most the railroad can do. The rest is up to you.

The Stop—Look—and Listen sign means what it says. Stop—look both ways—and always listen. If a train is just clearing the crossing, wait—don't hurry across, there may be a hidden train coming from the opposite direction. And when you do cross, keep going. Don't shift gears on the tracks, you may stall.

Take the few extra seconds needed to assure a safe crossing.

The first agricultural experiment station in the United States was established at Wesleyan university, Middletown, Connecticut, in 1878.

Mrs. Charles Haney Speaker At W. S. C. S.

At a general meeting of the Womans Society of Christian Service in the home of Mrs. Oscar Bruce last Tuesday, June 10th.

Mrs. Charles Haney, who attended the "Leadership Training School for Negroes" in Amarillo last week, gave a report of the meeting. She displayed hand work that was made during sessions of the school.

Other speakers at the meeting were Mrs. C. D. Pipkin, Mrs. Adah Ford, Mrs. H. H. Schweitzer and Mrs. Harry Willett who was leader.

Following the program, Mrs. R. P. Moore, Mrs. Homer Sheats and Rev. Oscar Bruce served ice cream and cookies to the following: Mesdames W. N. Pipkin, Ethel Payne, Curtis King, Vance Gilbreath, Harry Willett, W. Y. Higgins, Ed Williams, Frank Pohl, S. S. Ripley, L. Y. Jameson, H. H. Schweitzer, Adah Ford, C. D. Pipkin and G. E. Hamilton.

TIP TO GARDNERS

Here's a tip to vegetable gardeners, coming from horticulturists at Texas A. and M. College.

Time has rolled around when second plantings can be made on black-eyed, purple hull and crowder peas, okra, squash and corn.

Boosts that tomatoes need now, the horticulturists say, are, first, a side dressing of commercial fertilizer, a small handful to each plant, and second, a thorough arsenical spraying to prevent worm damage.

LEWIS NEWMAN, MANAGER

Where Do Managers Come From?

A DOZEN MEN operate turret lathes. A dozen clerks stand behind hardware counters. A dozen stevedores hoist dockyard freight.

Sooner or later, one operator, clerk, stevedore is going to reach out and do the work more competently than those alongside him.

This is a real beginning. But it is not enough for a man who hopes to manage.

A manager must have demonstrated that he can take orders, before he gives orders. He must know how to impart information. He must have character, courage, and the ability to administer.

If he has all these, he is ready to go on up. Some managers stay on the first, eighth,

tenth steps, and do an important job. They are the foremen, superintendents, department heads, buyers. Some still keep going. The most farsighted and imaginative climb to the top.

This constant movement of men upward is one reason why American business has an ever-fresh point of view. Someone is always bringing a new idea on up with him.

Neither the men and women in industry nor the money in industry can be effective without good business-management. Nothing else is so important to the workers' welfare, the investors' welfare or the public welfare.

West Texas Utilities Company

Talented Traweek Children Win Recognition

Musical talent of Frank and Dorothy Traweek, children of Dr. and Mrs. Albert Traweek, Jr., won recognition in Amarillo last month when they received outstanding awards in the annual National Piano Auditions. The auditions were held May 15th.

Dorothy, age 14, has been a pupil of Mrs. Ohmer Willis Kirk of Floydada for the past year and ranks high in her studies. She won the yearly scholarship with an average of 96.73. She entered the auditions with Paul Roe Good-

man as judge and made an average of 94 with an excellent plus and a gold pin given in the Irreducible Minimum Musicianship test. She has studied music for five years.

Frank, age 8, has studied music for two years, the past year with Mrs. J. Morrison Hollums of Floydada. He entered the auditions making an average of 93 and winning the gold fraternity pin. An added distinction for him is his achievement in music according to his age. He also won the yearly music scholarship given by Mrs. Hollums.

HUSBAND ATTEMPTS TO RESCUE WIFE

Charles A. Rhine attempted to save his wife, Mrs. Bessie Rhine, formerly Bessie Black who was born in Matador, from a watery death in an Illinois lake on June 14, but the efforts of Mr. Rhine and others were in vain.

Funeral services for Mrs. Rhine were held here Thursday morning at the Matador Methodist church with Rev. Oscar

Bruce officiating. Funeral arrangements were conducted by the McDonald Funeral Home. The body, which was transported by rail from St. Louis to Quanah, was met there by the McDonald funeral car and brought overland. Interment was made in Matador East Mound cemetery. Pall bearers were Pat Sheridan, Howard Traweek, Douglas Meador, Henry Pipkin, James Hines and Joe Berry Meador.

Details of the tragedy from an Illinois newspaper, are as follows:

"CARLINVILLE, June 16. The body of Mrs. Bessie Rhine, 40, wife of Charles A. Rhine of East Alton, who drowned in Lake Carlinville about 7 p. m. Saturday, was recovered at 1 p. m. Sunday after local volunteers and state police had spent hours searching the waters. It had been believed that Mrs. Rhine had gone down at a point about 60 feet from the south shore but her body was recovered about 150 feet from land.

"Search for the body was stopped about midnight Saturday and was resumed at 4 a. m. Sunday, continuing through the morning and noon hours.

"Mr. and Mrs. Rhine, accompanied by Mr. Rhine's brother, Ed Rhine, and his wife, had planned to spend the week end fishing at the lake. They had parked their car at the first picnic shelter on the north shore.

"Charles Rhine stated that they had been fishing about two hours, their first trip to the local lake, when his wife decided to swim across, about 7 p. m. At the point where she started across, the lake is said to be 600 feet wide, with an average depth of about 10 feet, but an old creek channel runs beneath this point where the depth is between 18 and 20 feet. Her husband believes Mrs. Rhine might have struck cold water in this greater depth and suffered cramps, as she was considered a good swimmer.

"Altho Rhine knew he wasn't a good swimmer, desperately he started after her. In the meantime, Dan Reineke, 22, of St. Louis, who served in the United States Navy for three years, who had been walking on the shore with a party of friends, jumped into the water and passed Rhine. Rhine couldn't swim the distance, but Reineke reached Mrs. Rhine, who struggled with him so desperately that Reineke went down twice and parties in a boat rescued him and returned him to shore.

"Members of the Carlinville fire department were called

with an inhaler.

"Mrs. Rhine, the former Bessie Black, is survived by a daughter by a previous marriage, Miss Patricia Lynn Pickard of Alton; two brothers and three sisters, all reside in other states.

Rhine is employed on a construction job with the C. W. Bronze Construction Company for the Shell Oil Company of Wood River. The couple was married last fall.

"The body was removed to Heinz funeral home and later taken to Steeper funeral home in Alton. An inquest will be held tonight by Coroner Russell Butler. The body will be at Steeper's after 6 p. m. today, and will be shipped to Texas Tuesday."

Relatives attending the funeral included the husband and daughter, Charles Rhine and Miss Patsy Lynn of East Alton, Illinois, the mother, Mrs. Nellie Black of Moran, Texas; three sisters, Mrs. Tressie Cunningham of Miami, Fla.; Mrs. Flora Prejam of San Francisco; Mrs. Kate Hause of Los Angeles and two brothers, Colman Black of Carrizo Springs, Texas, and Ralph Black of Goldsmith, Texas; an aunt and uncle, Mr. and Mrs. Tom Mashburn of Breckenridge and three cousins, Mrs. Emory Morris, and son Robert, of Moran; Mrs. Ted Woolery and Joe Berry Meador of Lubbock.

Gladys Springer who is attending T. S. C. W. in Denton, visited her mother, Mrs. George Springer last week end.

Slight Accident Is Cause Of Broken Toe

Noble Groves, employed by Campbell Chevrolet Company is on crutches as the result of a slight accident Tuesday in which he suffered a broken toe. Mr. Groves had started to move a number of truck wheels in the automobile agency sales

room and had picked up a wheel when the top one on the pile skidded to the floor, striking his left foot and breaking a toe. He received immediate medical attention and said he had suffered little pain. He returned to work yesterday with the aid of crutches.

LEGAL NOTICE
THE STATE OF TEXAS
TO THE Sheriff or any Constable of Motley County, Texas,
GREETING:

NOTICE is hereby given of a hearing before the District Court of Motley County, Texas, on Monday the 7th day of July, at or before 10 O'clock A. M., at the Court House in Matador, Texas, on the written, sworn application of Mrs. Lois E. Bishop, petitioner, filed in Cause No. 1270.

The nature of said cause being substantially as follows, to-wit: Application by said petitioner requesting that she be granted control, management and disposition of community property, and alleging as follows: That H. E. Bishop is her legal husband, that he disappeared and abandoned her on or about January 1, 1942, and that his whereabouts is unknown and has remained unknown to petitioner for more than 12 months immediately prior to the filing of her petition; that there exists certain community property owned by petitioner and her husband and situated in Motley County, Texas, to-wit, a house and lots known as Lots No. 5 and 6, Block No. 48, City of Matador, Texas; that said property is suffering for lack of management and control, and that it is to the best interests of both the property and applicant that she be given full control, management, and disposition of said community property.

The officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Matador, Texas, this 25th day of June, A. D. 1947. Pat Sheridan, Clerk, District Court, Motley County, Texas. 2tc. 7-3-47
