Men and Company Buys Another 320 Acre Lease

Offset Wells Start - West of Big Spring & Co. May Drill

Men and Company recently bought another 320 acre lease on the south half of block 29, W. and NW. The latest deal is the purchase of the south half of section 29.

Woman Killed in Accident

A Chevrolet coupe belonging to Seth Spearman of Big Spring was overturned 15 miles south of Lamesa about 6 o'clock Wednesday evening, resulting in the death of Mrs. Mable Ripley, aged 35 years of Los Angeles, California, and the injury of Seth Spearman. Mr. Spearman's left arm was broken in three places. He was taken to the Dr. T. E. Standifer Sanitarium at Lamesa. The body of Mrs. Ripley was taken to the Higgenbotham Bartlett Mortuary at Lamesa to await instructions from relatives. She has a brother in El Paso and a sister in Los Angeles. A daughter aged thirteen years is the only relative in Big Spring.

Mrs. Ripley has been in Big Spring for the past two weeks, and was staying at the Coleman Camp.

Mrs. Ripley was badly mangled in the accident; one arm torn from her body, her jaw broken and her body crushed.

Mr. Spearman, Mrs. Ripley and two others are said to have left Big Spring Tuesday afternoon but only the two were in the car when the accident took place.

The automobile was practically demolished.

The brother of Mr. Spearman arrived from Lubbock Thursday morning.

A. P. McDONALD CO. NOW IN FULL DRESS

The A. P. McDonald Company on Main Street is now in full dress, the store having been completely remodelled and improved on the interior. New cases, display counters and other new fixtures of the highest quality and workmanship have recently been installed and now this is one of the most attractive stores in the city. The establishment has taken on an entirely new air, since the new equipment has arrived. A. P. McDonald is receiving many compliments since this change has taken place.

SCHOLASTICS SHOW INCREASE

An increase of 150 scholastics in the Big Spring Independent School District, an increase of 22 in the Coahoma district, and an increase of 100 in the rural schools of Howard county indicate a steady increase in the population.

The figures are as follows: Big Spring, 1448 for 1927 compared with 1289 for 1926; Coahoma 227 for 1927 as compared with 205 for 1926; rural schools 1578 for 1927 as compared with 1469 for 1926.

THE STOLEN CAR RECORD

In looking over the stolen car record for Howard county, we find that 20 cars have been reported as stolen to the Sheriff's department. Of this number, 15 cars have been recovered and 9 men have been arrested in connection with the theft of cars.

This is a good record considering how easy auto owners make it for thieves to take their cars.

Water Tests to be Made South of City

John B. Hawley Noted Engineer to Make Survey of Water Resources of City

John B. Hawley of Ft. Worth, recognized as the greatest hydraulic engineer of the South and his assistant Dr. Alexander, are expected here today to study the water resources of Big Spring. While we are all convinced that we have an inexhaustible supply of the best water in Texas, the investigations of an authority are desired so we may make plans to secure a permanent supply should an investigation prove the present source of supply inadequate to meet the needs of a city up to 25,000 inhabitants.

Dr. Alexander will be here a month or more conducting the necessary tests and securing the data needed to determine the facts.

Under the present plan five or six new wells are to be drilled at intervals of 1200 feet in the territory to the Southeast of section 17 or from the point where many of the present wells are located. A siphon is believed to exist in this area and the water is secured in the Trinity sand, the most dependable source of supply known.

These wells are to be placed on pumps for a continuous and extended period to determine if such pumping affects the level of the various wells in this area. The experiment is an especially important one and if it is definitely ascertained that Big Spring can forget its future water problems as a result of the facts ascertained by these tests it will be the greatest news any growing city ever had. If the decision is otherwise it will be due notice that we must begin to make plans to meet the future needs of our city.

The city officials are to be commended in taking this course for it is of vital importance that we have this information. A city without an adequate water supply cannot hold its own; if our supply is in danger of proving inadequate, now is the time to begin a movement to secure a permanent supply.

Luncheon Club Hears Good News

President of F. H. E. Oil Co. Predicts Great Things for Big Spring and Oil Fields

Wm. Fleming of Sherman, Texas, president of the F. H. E. Oil Company, one of the most active of the independent oil companies in the Howard county field, was the principal speaker at this week's meeting of the Wednesday Luncheon club and his was a most optimistic message.

When Robert T. Piner introduced the speaker he informed Mr. Fleming he was at liberty to offer any criticisms of Big Spring and her people that he saw fit.

In reply, Mr. Fleming stated he did not have any criticisms to offer, but he did have many fine things to say concerning the city and its future.

He said Big Spring was especially fortunate, and there was every reason for its becoming one of the best and biggest cities in West Texas.

Big Spring has right at her door when he considered the greatest oil field in West Texas. The newspapers at Dallas and Fort Worth have not been fair to this section in the way of oil publicity, for the oil field already in sight should have attracted ten times as many people. The fact that there is no water to endanger production and there are four sands in which oil may be found in commercial quantities, combines to make Howard county oil fields the best in the land. The further fact that a better grade of gasoline can be made from the oil here than in any other field in West Texas should make it a much easier task to secure a refinery. He said our people should certainly work to secure a refinery. He predicted that if an outlet could be secured for the oil production of the Howard county fields, that an increase of from 5,000 to 10,000 in the population of our city would take place within the next twelve months.

He stated that it was going to be necessary because of the big development work his company was doing in the local oil fields, to open an office in Big Spring, and he expected many other oil companies to make their headquarters in Big Spring when development opened up in earnest. He said he should urge the Texas & Pacific Railway Company to double track their line to Fort Worth so the present congestion might be overcome. This one suggestion and another, that we build homes, apartments, etc., to take care of the increasing population, were the only suggestions for immediate attention. The oil field development will take care of itself he said.

ANOTHER INSTANT FOR STANTON MURDERS

At a preliminary hearing at Rankin Tuesday, J. H. Dumas indicted for murder and conspiracy in the death of two Mexican men in an alleged bank robbery at Stanton, Texas, last December, was denied bond and the case was transferred to Travis county.

Mrs. Ada Evans entertained Mrs. C. L. Alderman at lunch last Friday.

Viaduct Plans Submitted for Study

Plans for Viaduct Across T. & P. Railway Tracks to Cost About \$130,000.00

The engineering department of the Texas and Pacific Railway Co. has submitted to the City and County tentative drawings and plans for a viaduct over the railway tracks on Gregg Street. The construction of this viaduct is to be of the most durable and substantial nature and planned for the needs of our community and the railroad company for many years to come.

The plans are anything but final, and may be changed at conferences between officials of the railway, city and county.

Due to the fact that the plans submitted call for a clear, central span of 250 feet instead of 135 feet as originally considered, the cost has also been shoved up to the high figure of \$130,000. In the first conference the estimate was from \$80,000 to \$100,000 with the railway to pay one half the cost and the city and county to pay the balance.

The 25 foot span is to be of steel construction with concrete floor. A 20 foot roadway and a 5 foot sidewalk will be provided for. The viaduct will be 868 feet long, including approaches; the central span will be 26 feet and 6 inches above the railway tracks a six inch grade will mark the approach from the north. From the South and from First street the grade will be about 8 per cent. The north approach will start near Houston St. Space for twenty tracks will be provided underneath the central span of the viaduct.

A number of important suggestions have already been offered, and a number of conferences may be necessary before final plans have been agreed upon.

Acting Postmaster E. E. Fahrenkamp has had an electric light placed near the mail chute at the Post Office so folks might more easily locate this receptacle after nightfall. This convenience is indeed appreciated, and especially by tourists and visitors.

SEED STERILIZATION IN PROGRESS

Bring in your cotton seed to be sterilized if you want to prevent the pink bollworm getting a foothold in West Texas. Two sterilization plants are now operating in Big Spring, and will be kept in operation 24 hours each day if necessary. The government is anxious to do this work as rapidly as possible and all having cotton seed to be sterilized are urged to bring it in promptly.

The two sterilization plants in Big Spring can handle much more seed than is now being brought in. The men in charge of these plants are eager to cooperate in every way. There are five sterilization plants in the district served by the board with headquarters in Big Spring. Two plants are located in Big Spring, one at Coahoma, one at Midland and one at Stanton.

An office is maintained in room 12, West Texas National Bank Building by the Federal Horticultural Board, a department of the U. S. Department of Agriculture, with G. Claude Bond in charge, who, assisted by twelve Federal inspectors will cooperate with the State department and the cotton planters in the sterilization of all cotton seed against the Pink Bollworm infection, used in the eight counties comprising the Western Extension area.

According to Mr. Bond, "The work of the Federal Department will be the supervision of the sterilizing of the cotton seed at the five plants of this district. We will have an inspector at each plant while operating," said Mr. Bond, "even should it become necessary to operate the plants 24 hours a day. The seed is heated to a temperature ranging between 145 and 165 degrees by a process of live steam, which absolutely destroys the Pink Bollworm infection in the seed and also improves the germination of the seed," he said.

"We are receiving 100 per cent cordial cooperation from the farmers and from Mr. Tom O'Neill and Mr. Lee H. Cox, the State inspectors," he said, "as well as from the business men of the district." For the convenience of the farmers the State has located the sterilization plants as follows: two at Big Spring, one at Midland one at Coahoma and one at Stanton. More than 1,500,000 pounds of cotton seed have passed through the plants to date. One plant at Big Spring this week sterilized 80,000 pounds of seed in one day. The plants have a capacity of two bushels of seed a minute.

The western extension area, under Mr. Bond's supervision takes in Winkler, Crane, Upton, Midland, Glasscock, Howard, Martin and Andrews counties.

Cattle Feeding Experiment Ends at the Guitar Ranch

199 Yearling Calves on Feed 134 Days Shipped to Market Last Saturday

An interesting feeding experiment was concluded at the John Guitar ranch, West of Big Spring last week and from all accounts the experiment was a success.

Two hundred yearling calves were used in this feeding test; one hundred Hereford steers and one hundred Hereford heifers. They were kept in feed lots at the ranch for a period of 134 days. One heifer died, leaving 199 head to be shipped to the Ft. Worth market last Saturday.

The market report gives the 99 heifers as averaging 625 pounds, and the 100 steers averaging 682 pounds. A price of 12.25 cents per pound was received for this choice young stuff.

W. B. Tidwell who had charge of the feeding test states the yearlings averaged 350 pounds when placed in the feed lots the first of last December. They were fed a ration of bundle sorghum, ground maize and cotton seed meal. During the last ten days of the test the animals were fed corn.

Figures on the cost of feed as kept by Mr. Tidwell indicate that the cost of feed consumed was \$63.87 per head. Outside of the twenty tons of cotton seed meal and \$283 worth of corn purchased, the other feed consumed by the calves was raised on the Guitar Ranch farm.

Heretofore 250 acres have been planted to feed but the plans for 1928 call for 375 acres in feed. Mr. Tidwell believes it will pay every farm owner to convert surplus feed crops into beef on the hoof. He states it would have been difficult indeed to have found a market for the maize and bundle cane which was raised in this feeding experiment.

Railway Improvement Started Here

Doubling the Capacity of the Local Railway Yards is the First Task to Be Met

Rumors of the big improvement program the Texas and Pacific Co. has mapped out for Big Spring has been rumored for some time, but it was not until this week when the first work was started, that folks realize the company was actually going to carry out such big improvements at this point.

Recently the railroad company paid \$6,000 for a strip of land 100 x 2640 feet along their right of way in the East part of the city, this tract to be used for building additional side tracks. The company now has nine miles or more of side tracks and the new program calls for an additional ten miles. Grading is now in progress in the East part of the city and the work of building the tracks will be started as soon as grading is completed. The yards will be planned along modern lines and will be equipped with flood lights so work can be carried on at night time almost as well as during the day.

A \$130,000 viaduct is another improvement. Larger shops, and a new and modern round house are other items on the program.

The Texas and Pacific railway is handling all the business it can handle under present conditions and the improvements here and elsewhere are to enable the road to handle a greater volume. The oil business is going to be good in West Texas for many years and the T. & P. Ry. Co. is making its plans accordingly.

P. B. Bittle Resigns As Head of Schools

Has Accepted Position With Public Schools at Eastland To Leave Here August 1

P. B. Bittle, Superintendent of the Big Spring Schools for the past five years, will complete his work in this city August 1st, having accepted a position as superintendent of the schools at Eastland.

The School Board of the Big Spring Independent Schools District tendered Mr. Bittle the superintendency of the Big Spring school, at an increase in salary, making the salary the same as he is to get at Eastland, but he refused to consider the offer.

His election as superintendent of the Eastland Schools came as a surprise as he did not apply for the place; and the fact that one hundred and five had made application for the place makes it evident that they appreciate Mr. Bittle's abilities as a school executive.

Mr. Bittle is one of the outstanding school men of Texas and has had thirty years of experience in the work. He was head of the public schools at Henderson, Texas for twenty one years.

His five years work in behalf of the Big Spring school has been instrumental in building up and strengthening our schools. A number of innovations have been adopted to promote the efficiency of the Big Spring schools under his able supervision. He was instrumental in securing aid for the Home Economics Department under the Smith-Hughes act; and the commercial department has been standardized and enlarged.

The new buildings secured during his administration include: the new Junior High School; the rebuilding of the North Ward building which had been destroyed by fire; the remodeling and enlargement of the South Ward building; and the planning of a new High School building; the bond issue of \$150,000 for same having been voted recently. The \$150,000 bonds have been sold for a premium of \$8,000 and accrued interest. The work on the new school improvements will be started just as soon as plans are approved.

Many friends in Big Spring will indeed regret to learn that Mr. Bittle is to leave Big Spring. Our loss in this instance is Eastland's gain. The best wishes of our entire citizenship will accompany Mr. Bittle in his new field.

SHERIFF'S DEPT. ACTIVITIES

The Sheriff's department located a Buick touring car here Tuesday for Stanton officers. The car had been stolen at Stanton.

An automobile belonging to W. A. Miller was located at Lamesa, Wednesday and three men with the car were arrested, charged with auto theft.

The officers made an arrest for Crane county officers Tuesday on a misdemeanor charge.

Two raids on a suspected establishment resulted in the arrest of eight for gaming and one on a vag charge.

Mrs. L. B. Russell left last week for a visit with relatives and friends in New Braunfels.

Mr. and Mrs. Ed B. Mills of Dallas were the guests of Miss Gertrude MacIntyre Monday.

Announcement

Announcement

OIL NEWS OF WEST TEXAS

Magnolia Is Building Two More
35,000 barrel tanks near Midland, increasing its number of tanks of this size to seven. Magnolia's 8-inch line to a connection at Comanche with a large line leading south has a capacity of 25,000 barrels daily, having four pump stations.

Increasing Pipe Line Facilities
Atlantic is completing two pump stations on its 10-inch, 70-mile line from the Hendricks pool to its Midland tank farm, and from which the oil is moved eastward by Magnolia. The pump stations will raise the capacity of the line from 30,000 to 30,000 barrels.

Water in Crockett Well
Additional water encroachment was in evidence on the Crockett Co. side of the Yates pool, in Pecos county—developments which have been discontinued in advance and which are in line with previous developments which twice caused the curtailment of the "proven area" which is now basis of prorating in this pool.

New Oil Find Near Grand Falls
The striking of oil and gas last Tuesday sufficiently strong to lift the tools 300 feet in the hole, with a good showing of oil at 1603 feet, in the Atlantic Oil Company's Rowan and Tong well, section 4, block 9 H. and G. N. Ry. Co. Survey, Pecos county, five miles south of Grand Falls, on the Pecos river created considerable excitement there.—Upton County Journal.

California Pays \$750,000 For Property
One of the week's deals was the California company's purchase from Turman & Maxwell of Fort Worth of a producing 80 in Winkler and acreage in Ector County for \$750,000, of which \$50,000 was in cash. Gulf announced it would continue to pay for royalty oil already stored or to be stored by it in Winkler on the posted market price, now 60 cents a barrel.

Potash Test in Crockett
Midland April 11.—Location for the eighth potash well being drilled by the Federal government is on the southwest quarter of section 5, block 14, University land, Crockett county.
The test will spud about April 20, according to H. R. Norsworthy, senior mining engineer of the U. S. Bureau of Mines, who is in Midland obtaining data from oil companies located here.

Brown Co. Development
Brownwood, April 14.—An oil test at the northern limits of the city of Brownwood that has a good prospect of making a commercial producer, three new producers by the Henshaw Company in the Buffalo-Clark pool north of Thrifty, some new producers in the Pandem-Hutton-Curry pool and in territory adjacent to that area, with several new wells starting in different parts of the county, are the main developments in the Brown county oil pools during the week just closed.

Tests West of the Pecos

The Owen and Sloan are preparing to plug, having passed contract depth without getting the desired liquid gold in paying quantities.
The Gisham-Hunter Well Seivers et al, is now making new hole below 2,510 feet, and is reported to be looking quite favorable. They ran into a little show last week, getting a break, but continued on with the hole. This well is across the river from the Loving county production wells.

The Vacuum Oil Company's No. 1 Gisham-Hunter north of Toyah, is drilling below 3,200 feet, and going ahead. This test is in a wild undeveloped area, and is showing possibilities.

The Deep Rock Kloh No. 2 in Culberson county which had a good show last week is going on to 1700 feet, the contract depth, and if no further shows occur, will plug back and shoot at 1555 where they found the oil.

The Humble Oil and Refining Co Flores-Kingston well in the edge of the Davis Mountains, is now drilling below 4,500 feet in grey lime, going ahead to make a real deep test.

Pinching of Winkler Wells Causes Drop in W. Tex. Oil
After establishing a new high record of 370,570 barrels daily average production, West Texas oil fields dropped 29,290 barrels daily during the past week, registering a daily average of 341,310 barrels, the lowest for any week since that which ended March 10, according to the official survey of The Oil Weekly, Houston.

Winkler county's output, as usual, governed that of the entire region. Due largely to pinching of wells of Roxana, Republic and the Humble, the great Hendrick pool in Winkler dropped from its new record last week of 209,205 to 183,390 barrels daily. Roxana's 16 wells which produced 42,725 barrels daily the previous week were pinched down to a 28,685 barrel daily average. Humble's 13 wells made 18,955 barrels daily last week being pinched down from the previous week's daily mark of 23,380 barrels. The Republic Production company with 3 wells which made 5,975 barrels daily last week, had flowed 13,845 daily the previous week.

Some idea of the potential production of the Winkler county pool, if all wells were thrown wide open, may be gained from the average production per well for the week that ended April 7, when the 131 producers made 1,597 barrels average, with 86 wells pinched in. Last week with 31 of 134 producers pinched in, the daily average per well was 1,368 barrels.

RATS!
The editor of the Richardson Echo, the fat un, who was "brung up" at Bonham, calculates "as how" one pair of rats, properly cared for, will raise a family of 350,000 rats in three years. That looks to us like a lot of rats, but the editor of the Honey Grove Signal warned us long ago against arguing rats with anybody from Bonham.—Clarksville Times.

NEW EDITOR AT MIDLAND

Midland, April 15.—R. C. Hankins of Fort Worth is the new city editor of the Midland Daily Telegram. Hankins was formerly a student in T. C. U. He succeeds H. B. Dunagan Jr., who has been an important factor in the early days of Midland's first daily. Dunagan is opening a printing shop in Midland.

STATIC ELECTRICITY INJURING WHEAT LOCKNEY SEC.

Lockney, April 12.—Another deterrent in the form of static electricity has affected the wheat of this section considerably during the past two weeks, causing the plant to turn yellow as if suffering from a severe drought.

A few of the farmers have already plowed up their wheat preparing the ground for cotton and grain sorghums, while others believe that the damage from the electricity will be slight and with the advent of a good rain an average yield may be harvested.

Large wheat raisers say hard, dry winds have drained the ground of the moisture on top and the lack of a bottom season is hampering the wheat prospects of Floyd county to a great extent.

SPOILING A LECTURE

A good Bret Harte story is told by William M. Crane. Bret Harte was engaged to deliver a humorous lecture in a small Western city. Just after he had started, one of the deacons sitting on the stage grabbed hold of his coat and whispered:

"Hold on a minute, I want to make an announcement."
Harte was very much astonished and stepped aside, while the deacon took the center of the platform "Ladies and gentlemen," he said, after a pause, "Is Mr. Rogers C. Jones in the hall?"

There was a protracted pause and, as Mr. Jones failed to respond the deacon continued:

"Well, if he is, I have the pleasure to say that his wife has just died."

As everyone in the small city was intimately acquainted with Mrs. Jones, Harte's task, giving a humorous lecture, was far from successful.—Foot Prints and Echoes.

Mr. and Mrs. F. O. Allen, old time friends of J. J. Curlee from Big Spring, are occupying a cottage in the park for an indefinite stay, and are saying all kinds of nice things about our beauty spot.—Christoval Observer.

HOW COME?

Without an increase in the price of crude oil, without an advance in the labor bill, without a raise in freight rates or other transportation charges, without fuss or noise of any kind but with the most efficiency and dispatch, the price of gasoline was boosted another cent a few days ago in the local market.

One wonders how and why it is that half a dozen companies in competition with each other are able to display such a brotherly spirit in the fixing of gasoline prices. There's no use in shopping around for gasoline. If one filling per gallon, that's his price and no station says its twenty one cents bargains are to be found. The price goes up or down over night—and it goes up or down unanimously.

Of course, it isn't the fault of the men who are managing the local filling stations. They manage 'em but somebody else somewhere, controls the price at which the product is sold. It is inconceivable that there should be such complete control of the selling price—not only in Brownwood but everywhere else—without some kind of collusion among the big companies which manufacture and distribute oil products all over the country. There is a federal law prohibiting conspiracy in restraint of trade, but there are oil companies which apparently are smart enough to violate that law and get away with it.—Banna Bulletin Brownwood.

It has been recommended that Congress create a national prosperity fund to stabilize industry and employment by the expansion of public works when signs of hard times appear. An appropriation of \$75,000,000 would be authorized for public works when an unemployment crisis arose.

Spectacles from \$1.00 to \$25.00 and every one guaranteed. I am a Graduate Registered Optician with 21 years experience and give you the same service you get in the large cities, but at a much lower price.—Wilke's, Opticians.

How to Recover Lost Strength

Abilene, Texas.—"I can heartily recommend Dr. Pierce's Golden Medical Discovery to any one who is in need of a good tonic. I take it in the fall to fortify myself against colds and grippe. I also take it in the spring and find it of great benefit. In the winter of 1919 I had a severe attack of influenza which left me in bad condition. I did not want anything to eat, could sleep but little and was very nervous. I took two bottles of Pierce's Discovery and it made me feel like a new man."—J. B. Matthews, Gen'l Del. All dealers. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., if you wish a trial package of tablets, and write for free advice.

The King of Italy narrowly escaped death at Milan Italy, Thursday April 12, when a powerful bomb exploded at the opening of

the Milan Fair. The king and queen were killed. The king was saved because he was late.

As sunshine ripens fruit to perfection Controlled Roasting gives Hills Bros Coffee the flavor flavors

NO OTHER ripening process is as firm as sunshine. And no other roasting process out the rare flavor of coffee as does the patented, continuous method of roasting pounds at a time.

Taste Hills Bros. Coffee and you will detect this superior flavor. Controlled Hills Bros.' process exclusively, and the pack which seals in the goodness was made for them. Ask for Hills Bros. Coffee by name for the Arab on the can. Write for a copy of "The Art of Entertaining." Address—Dept. 561, 2525 Southwest Blvd., Kansas City, Mo.

BY T. E. JORDAN

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, May 8, 1879.

Big Spring, Friday, April 20th, 1928

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon its being brought to attention of the editor.

HOWARD COUNTY

OIL PRODUCTION

According to the records Howard county now has 143 producing oil wells. The pipe line runs show a daily production of 3780 barrels of oil with a number of wells shut in. The fact of the business is that five wells, each capable of equaling the present production, are now and have been shut in for months. These wells hit the big pay in lime around 2900 feet. Other good wells, good for 500 or more barrels per day from sands at 1800 and 2500 feet are not on pump because of lack of pipe line facilities. A number of wells good for from 100 to 300 barrels are not on pump because all available storage has been utilized.

Some of these days the price of crude is going to return to normal and then you are going to see a big development program launched in Howard county.

With four known horizons offering the oil operator a run for his money, the oil fields of Howard county are considered the safest bet anywhere in the country. We have the oil and we can afford to be patient until oil is worth bringing to the surface.

JEALOUS THAT'S ALL

C. T. Watson, George White and Lester Fisher joined the party at Big Spring. Fisher, biggest cotton planter in Howard county, also has the grandest and loudest car in the whole procession with bells and lights at every conceivable place.—Abilene Reporter.

The reporter who penned the description of Lester Fisher's car was either prejudiced or jealous. With all the words Mr. Webster has to spare in his dictionary they could have found more words to describe this particular car. We don't see why he could not have said it was the classiest and most attractive.

HOW OUR CITY CAME TO BE INCORPORATED

Funny how things come about. We never did know just how the incorporation of Big Spring came about until a few days ago. It seems that J. B. Harding was the instigator—just as he has been the instigator of a whole lot of other things. It was back in the good old days when our burg had but 1200 or 1500 population, and no one worried about civic pride, sanitation or clean up and paint-up campaigns. In fact a herd of hogs, cows and burros did the scavenger work, and bunches of these animals made their headquarters on the Main St. in the business section. And it was one of these critters that caused the incorporation movement, so the story goes. This was away back in 1826 when we were just beginning to learn that cotton could be grown in West Texas.

One J. B. Harding who came near starving to death trying to raise cotton in East Texas decided he would come West and make a good job of it. It was one of the few farmers who had the nerve to plant cotton in Howard county. It was a new thing and a little old one stand gin was doing the ginning for the county. The owner didn't fire up usually until you brought the cotton in. J. B. brought a load of cotton in to be ginned one day during the fall of 1925 and while he was waiting for the gin to get up steam, some railroad men, who had heard he was an expert domino shark, persuaded him to "sit in" for just one game. As is usually the case, the one game was prolonged into just one more several times. Anyway when J. B. went to look after his cotton ginned he found he had but half a load. The town cows had been making a feast on his load of cotton. Immediately he started a petition to have Big Spring incorporated so cows couldn't eat up the farmer's cotton—and with the aid of a few others, he aroused enough interest to have the city incorporated by a big majority. J. B. still finds time for a game of dominoes occasionally but he said those cows very near came breaking him off playing.

A demonstration that handsome gowns could be made from cotton at a cost of 75c to \$1.50 was given recently by women's clubs of Atlanta, Ga. The south is interested in cotton and therefore to popularize it among women as much as possible. But they probably will not get far with it, except with those women whom circumstances force to buy economically. When every woman knows a cotton dress may be had for 75c to \$1.50 and knows that every other woman knows it, what woman wants to dress in anything but the dark but let the big question be asked that it must be worth 75c to \$1.50 that would be something like the Paris Herald.

How many men are there who don't admit they enjoy smoking a pipe?

HOW ABOUT TOPPING HIGHWAY NO. ONE

A long time ago we were informed that the State Highway Department planned to place another topping of asphalt and chat on the 100 mile stretch of State Highway No. 1 in Howard, Martin, Midland and Ector counties, but here of late we do not hear any reference to such needed improvement.

Perhaps the State Highway Department has forgotten the West Texas sector of this highway. Our road committee ought to pay the commission a friendly visit and see if this highway work is still on the docket.

Other sections of the State are getting much road improvement work, mainly we suppose because they are keeping on the trail of the Highway Commission.

SWEETWATER

EDITOR KICKED

Luther M. Watson of the Nolan County News at Sweetwater, who incidentally is president of the West Texas Press Association, welds a wicked pen when he is a mind to. At a recent press meeting Tom Jordan of the Big Spring Herald told a story about Mr. Watson in his younger days when a fine daughter arrived at their home and being in a playful mood around kiddles, Luther was simply a great sport around the house when he happened to be at home.

But several months afterward, Mr. Jordan related, the following notice appeared in the Nolan County News:

There's a limit to all things. I don't mind washing the dishes. I don't mind feeding the cat. I don't mind mending my own clothes. But I'll be blamed if I'll wear pink ribbons on my nightshirt to fool the baby.—Scurry County Times.

A French scientist says that this summer will be the hottest ever known, that will end with an explosion that will destroy the earth. A wicked Republican editor says, that the Democrats will be in a position to verify the prediction of the first two calamities, after the Houston Convention. The wish is no doubt the father of the thought of the so-called Constitutional Democrats in Texas who are willing to wreck the Democratic party if they cannot control it.—Baird Star.

We believe that it is time for West Texas to get behind some man for Commissioner of Agriculture who had as much sympathy for the farming interests of this section as he has for those of East Texas and the Black Land Belt. Who can suggest a good West Texan for this position?—Lynn County News.

You are right as a compass West Texas needs a little representation at Austin, and we are not going to get it until we see that a few West Texans are elected to look after our interests.

This is one provision Congress has neglected far too long. There is no excuse for millions being out of employment in a country as prosperous as the U. S. Let the government promote highway building, river and harbor and other public work in periods of depression so that every man who wants to work can find employment.

The Agricultural Committee of the Chamber of Commerce is going to offer a number of valuable prizes to boys and girls for best products produced under rules to be formulated. Prizes for the "Most Maize on Five Acres" will be also in order this year. Plan to enter these contests.

The district convention of the West Texas Laundrymen's Association will be held in Big Spring Saturday April 28. Here's another opportunity for Big Spring folks to prove ours is a hospitable city. It certainly pays to win friends for your home town.

Another topping on the 100 mile stretch of the State Highway No. 1 through Howard, Martin, Midland and Ector counties would place this highway in good shape to last for many years. It has been put to a severe test the past few years by heavy oil field traffic and has stood the gaff.

Folks are queer animals. A few months ago when property prices were soaring everybody wanted to buy. Now, that things have quieted down a little only the wise ones are buying. Property is just as valuable now as it was then, and there never was a better time to buy than right now.

There are plenty of opportunities awaiting the investor, as well as the man who wants to own his own home in Howard county. And we know of no better time to plank down than right now. If you wait until busy times are in progress you are going to need a larger stake.

Snow fell in West Texas on Easter Sunday in 1857, according to one old timer. Its a cinch we are not going to dispute this, as it was a day or two before we landed in West Texas. Seventy one years from now some one of us can tell about our snow on Easter Sunday.

Just keep your eye on the indicator and you will note that Big Spring is going forward at a steady rate. Of course, the pace will be greatly accelerated when oil development picks up—but the main point is, we are going to keep moving forward in the meantime.

There should be some scheme formulated to land a refinery in Big Spring. With an oil field right at our door we ought to be able to interest some corporation in establishing a refinery, even though it is not an extra large one.

Herald Want ads get results—

Some of our folks are still yearning for publicity and more publicity. Until we can secure an office building, a refinery, an airport and a few other essential industries we do not deserve much publicity. We must agree there is plenty of home capital to secure some of these needed aids to city building, and we certainly need to prove that home people have confidence in their own community by investing home money in such enterprises. We certainly don't need any more oil wells until we land a refinery, a pipe line or induce Rockefeller to boost the price of crude.

Members of the State Highway Department favor increasing the width of the Bankhead Highway to one hundred feet. They have already persuaded some counties to adopt this width for this great highway and hope to secure the cooperation of other counties in this widening process.

We hope our streets are to remain just as wide as at present. If economy is the aim, leave the center of the street for future attention, it's difficult to widen streets, much more so than to cut them down.

A large proportion of fires are caused by inexcusable carelessness, with the result that not only the person responsible for such carelessness suffers loss, but in most instances even greater loss falls on other persons who exercise the highest measures of care.

We can't find any good argument for narrow streets and highways. Of course they may be just the thing one hundred years from now when everybody will be riding airplanes. And then they will probably use the wide streets and highways for landing, instead of airports.

The wintry spells of April have caused sheep raisers a heavy loss. Coming right at the lambing season, it has caused a big loss in lambs, and many ewes also were lost. Heavy loss of goats which had been sheared is also reported in the territory to the southwest.

Securing small industries, employing from three or four dozen men, is a mighty good plan. In the course of years these small industries when properly managed, grow into big concerns. Many a time a community makes a big mistake in paying a big bonus to get a supposed to be big concern, which turns out to be a lemon.

Some of our citizens have learned at quite a heavy cost, that you must not tunnel under the state highways without permission from the State Highway Department. So be sure you get permission before you start anything.

So far, patricians have not been able to stir up much strife among the rank and file. This may be one election year when the barnstormers may not get anywhere, and Mr. Average Citizen will use his own judgment as to casting his vote.

If the oil fields of Howard county are not to be developed on a big scale until the slump in price is remedied it is going to be the best after all. No one is getting much out of oil production at present.

The work of installing the six-inch main from the city reservoir to the Texas and Pacific reservoir, south of the city, is now in progress. An electrically operated booster pump will deliver water into the railroad reservoir as it is needed by the railway company.

Just about the time they have convinced us the flying in airplanes has become safe, along comes a series of airplane wrecks which makes us satisfied with a ride a little nearer the surface of the earth.

Queer how we lose our pep and enthusiasm when conditions slow down a little. This is just the time we ought to get up and hustle just a little bit harder. It is no trouble to be a booster when everything is running in high.

Standing around on street corners lamenting the slowing up of things is not going to remedy conditions a great deal.

If you want to enjoy better health grab a hoe night and morning and do a daily dozen with the weeds which are beginning to make their appearance.

No city needs an office building more than does Big Spring, but it looks like we are a long way from getting one. We don't know just why the office building proposition cannot be put over.

Of the eighty four billion dollars deposited in the banks of the world approximately five fifths, or fifty two billions are in the banks of the United States.—Tiogo Herald.

And of the \$32,000,000,000 in the banks of the United States, 99 per cent or \$30,000,000,000 belongs to the editor of the Big Spring Herald.

Life is certainly cheap when men will murder each other for a few dollars.

The government men in charge of the sterilization are anxious to complete their work in this section just as early as possible and those having cotton seed should cooperate by bringing in the cotton seed as rapidly as possible.

H. O. Wooten of Abilene head of the Wooten Wholesale Grocery Co. spent Sunday in Big Spring. Mr. Wooten is interested in the oil properties in the Roberts oil fields southeast of Big Spring and made a trip out through the fields while here.

Kiddies' Evening Story

By MARY GRAHAM BONNER

Edward

Molly had a doll she had named Molly, too, and she had a brother named Edward.

Edward was a tease, not a nice, good natured, funny sort of a tease, but he was the kind who hurt people's feelings.

He would see some one who had on a suit which was not new or which had been patched and he would try to make the one who was wearing it feel very uncomfortable.

Edward would also see boys wearing their older brothers' suits, and he would say with a mean look: "Where did you get that suit?"

And he liked to tease Molly by making fun of Molly-doll, and by tossing her up in the air, and playing with her as though she was a ball, and he could bat her in a game of his own making.

Molly-doll was a rag doll. Oh, how Molly would feel when her doll was lifted up in Edward's hands and then he would say, so meanly:

"She's only rag. What's the difference?"

One day he left Molly-doll up in a high tree and she couldn't be found.

He didn't tell where she was, and that afternoon, quite late, the snow fell, and Molly was afraid her doll was left out in the snow.

She hunted and hunted and then a neighbor boy, who wasn't mean as Edward, was found her and brought her safely to Molly.

But they didn't tell Edward they had found her.

He thought she was still up in the tree.

That night when he slept, and he beheld Molly-doll came and stood at the end of his bed.

No longer was Molly-doll a rag doll. She had grown, oh, she had grown. And she was wearing instead of a painted wig great icicles and cold.

And her body seemed very stiff and very straight, and it seemed so very strong as though she were made of steel or of iron instead of rags.

"Edward," she said, and her voice sounded harsh and terrible. "Edward," she continued, "you left me out in the tree today, and you didn't care if you hurt sister or me."

"I've come to show you." Edward couldn't think what she meant, but he was frightened as everyone who is a bully can so easily be frightened when anything goes against them.

She took Edward in her arms, which had grown so big and hard, and she tossed him up in the air and around and about, so that he was frightened he might land on the ground.

Instead he was in his bed when he awoke. But oh, what a horrible dream it had been. And when he discovered Molly had her Molly-doll and that somehow she had been rescued he was really thankful and pleased.

(Copyright 1928, Western Newspaper Union.)

A Jolly Game

One player starts a story, and after relating an incident, leaves off abruptly for his neighbor to continue the narrative. He tries to connect the story by means of incidents from his own imagination, and then he, too, "passes it on," and so on round the party. As can be imagined, the course of the story will undergo many changes.

Another similar idea is the game of suggestions. The first player starts by saying a certain thing has been suggested to him, say a garden, and he asks his neighbor what a garden suggests to him. Probably he will say flowers. The third player is asked what flowers suggest, and so on, until you get a string of suggestions all relating to the first one.

Juvenile Deduction

The teacher was giving a lesson on the Wags of the Roers.

"What do you know of Margaret Anjou?" he asked.

"She was very fat," said Billy.

"How was that?" inquired the teacher.

"Because," he replied, "I read that she was one of Richard's stoutest opponents."

For Lack of It

One day in school the teacher said: "Mickey, give me a definition of snit."

"Sure," Mickey responded; "it's the stuff that makes potatoes taste best when you boil 'em and don't put any in."

What Am I?

I am neither fish nor fowl, yet I frequently stand upon one leg; and if you bend me I stand upon two; what is more strange, if you agitate me I stand upon four.

Answer—Glass—law—man.

CITY WATER SUPPLY IMPROVEMENTS
City Manager Montan gives some interesting facts concerning the improvements at the city Waterworks Plant which are going to result in saving to the city.

Recently there has been installed the A. B. Cook, continuous pumping units, at ten new wells. These pumps produce 50 gallons of water per minute. They are delivering the water at a cost of about 2 cents per gallon where the larger pumps make the cost 4 cents per gallon. Eighty-five per cent efficiency is possible from the new equipment in comparison with forty five per cent under the former equipment. The cost per well, including drilling casing pump, motor, etc. is approximately \$1,600.

The city now has 29 good wells and is drilling 6 or 8 more. Recently it was necessary to let all the water out of the city's 1,500,000 gallon reservoir, so the connection between the city and the railroad reservoir could be made. In the former years it required fourteen days of pumping to refill the 1,500,000 gallon reservoir but in the test a few days ago it was possible to refill the reservoir in 3 1/2 days and kept the usual quota for the city's consumption up to par.

CHICKENS CHECKERS
Star Parasite Remover will keep them free of worms and destructive insects, in better health and producing more eggs.

BABY CHECKS
Don't let White Diarrhoea and other bowel troubles kill them. Star Roup and Diarrhoea Tablets will prevent and relieve them or money back.

CHRISTIAN CHURCH
 ... Sunday, 50 per cent present at Sunday school. ...
What?
 Meetings to culminate with centralized effort in the Church. The result of the intensified program to be brought into active working of the church.
 We will let you have a report of results later.—Claude Wingo.

OIL LEASES & ROYALTIES
 Paul A. Henshaw assigned to Henshaw Oil Corporation an undivided one half interest in the southwest quarter of section No. 135 save and except the southeast quarter of said tract, being 30 acres more or less.
 John O'Neil assigned to Jack Frost a lease on the southwest 1-4 of the northwest quarter of section 31 township 1 North block 21.
 Mr. and Mrs. O. A. Goodman leased to the Continental Oil Company the East one half of the North-east one fourth of section 16, in block 33, township 1 North.
 The Marland Oil Co. assigned to the Phillips Oil Co. a lease on the southwest quarter of section 8, block 32, township 1 South.
 The Marland Oil Company assigned to the Phillips Petroleum Co. a lease on the northwest quarter of section 16 block 32 township 1 S.
 Mr. and Mrs. J. W. Shnell leased to Lockhart and Company the west one half of the northwest quarter of section 12 block 34 township 1 South.
 Mr. and Mrs. W. R. Creighton sold to the Atlantic Oil Producing Company a lease on 84 acres out of section 27, block 33 township 1 North.
 D. V. Smith assigned to Lee S. Davis, Paul A. Henshaw and William McGinley his interest in the lease on the West 100 acres of the North 100 acres of section 6 block 32; 2 South. The lease is now held as follows: Lee S. Davis one fourth Paul A. Henshaw one fourth, William McGinley one half.

If you smile when you kill a fellow in Texas they can't send you up for more than five years. At Jacksboro on a plea of guilty to the murder of his sweetheart, Robert Crow, Jr., was given a five year sentence. Some law. The law under which Crow was sentenced, reads that the penalty shall not be more than five years and the judge must so instruct the jury in cases where no malice aforethought is proven. With such fool laws it is no wonder the murders continue to increase in our State.

CELEBRATES 83RD BIRTHDAY
 B. C. Rix of Lubbock, but one of the pioneers of Big Spring, celebrated his 83rd birthday on Saturday April 14th. Mr. Rix is still active in business and enjoys good health. However he has recently suffered an attack of the flu from which he has not fully recovered. It left his heart in a weakened condition but he is up and about.

7. After I Become a Christian, What?
 Meetings to culminate with centralized effort in the Church. The result of the intensified program to be brought into active working of the church.
 We will let you have a report of results later.—Claude Wingo.

CHARLES WEEG AND RITA DEHENPORT WIN LOVING CUP
 Charles Weeg and Miss Rita Dehenport, members of the Sophomore-Lathas of the Big Spring High School, represented the Big Spring High School in the Latin Tournament held at Eastland last Friday, April 13th, and won the district championship. The winners were presented a silver loving cup. Big Spring is justly proud of the winners and the record they made at the tournament, where they contested many of the larger High Schools of the State, such as El Paso, Lubbock, etc. Charles and Rita are unusually bright students and especially good in Latin. They made a wonderful showing at the tournament, and their work showed skill and careful training. To Miss Vesta Mosteller, the Latin teacher, is attributed credit and praise for the splendid work her pupils are doing. This is the first year that Big Spring has been represented at the Latin tournament, and to come home the winners is more than was ever dreamed of. Congratulations are indeed in order.

Others participating in the tournament were:
 Latin 1—Zellah Mae Ford, Cora Ashley.
 Latin 4—Mamie Hair, Virginia Whitney.
 Misses Brown and Mosteller accompanied the students on this trip.

BABY NEEDS CUNNINGHAM & PHILIPS.

Warranty Deeds Recorded
 Mr. and Mrs. R. D. Matthews sold to S. Layne a lot 50x140 feet out of block 19 in College Heights Addition.

JOIN THE AMERICAN LEGION
 Join the American Legion before May 1st if you want in. Be ready to go to the big American Legion National Convention to be held at San Antonio next October. This is going to be the largest convention ever held in the State of Texas, if in the entire South. Pay your dues to Roy Carter, Post Adjutant.

DEAD LOOKING PLACE
 Twenty years from now tourists will look down as they fly over the country and ask, "what dead looking place is that?" Someone will say, "That is a city whose residents back in the nineteen-twenties were not progressive enough to establish an airport."—Dallas Times Herald.

Looks like Big Spring is not overly anxious to have airmen visit our city. We have been dawdling along on this airport proposition long enough to establish a whole flock of them.

Roseville Pottery—the kind you see advertised so much, is all the latest most beautiful creations at Wilke's.

half of section 47 in block 33 tp. 2 N.

FUNNY THINGS HAPPEN
 Among the many funny things which happen everyday, in every business and in every walk of life, the druggist has his share of them. A negro woman, who wanted some Jads Salts, walked into the Fox Drug store the other day and said: "Mr. Dalfus, I want a package of them 'jazz salts'." This woman must have been a near neighbor to the one who asked for some "business powders" and was given business powders instead.

Pound stationery... A cheaper way to write better letters... Cunningham & Philips.

Wm. Fleming and father of Sherman Texas, were visitors here this week. Mr. Fleming is president of the F. H. E. Oil Company which owns seven or eight producing wells and much valuable acreage in the oil fields southeast of Big Spring.

Our rent is lower though! we have over again as much space in our new location in Douglass building, and consequently you will find that our prices are lower also.—Wilke's, Jewelers and Opticians.

Herald Want ads get results—

MORE FREIGHT TRAINS THAN CABOOS
 When we noted a passenger coach hooked onto the rear of the westbound Texas and Pacific freight train we jumped at the conclusion that the Old Reliable had started the operation of mixed trains.
 Inquiry brought to light the fact that this passenger coach and several more are being utilized because of the shortage of cabooses due to the ever increasing number of freight trains on this division. In years past, at this season of the year, it was not an uncommon sight to see long strings of idle cabooses cluttering up the sidings in the local yards.
 During the past year an idle caboose has been unknown quantity.

CHATAUQUA COMING IN JUNE
 A representative of the Redpath Horner Chatauqua company of Kansas City was here last week to interest our citizens in bringing a chatauqua program to Big Spring again.
 Fifty names were secured, to guarantee the chatauqua association their part of the expense. The chatauqua will hold forth sometime in June.

LOCAL PASSENGER TRAIN TIME CHANGE SUGGESTED

It has been suggested, and we think the suggestion a good one, that Texas & Pacific Eastbound passenger train No. 4 which now leaves Big Spring at 6:30 a. m. leave at 9:30 a. m. As this train is made up at Big Spring it would not be much trouble to change the schedule, and the change would prove a great convenience to the public.

As the schedule now stands we have the fast passenger train the Texan, leaving Big Spring at 5:52 a. m., just forty minutes ahead of No. 4. As most folks going to Fort Worth or more distant points would take the Texan, No. 4 catches only local passengers. And it would suit folks going to intermediate points for the train to leave Big Spring at 9 or 9:30 a. m. instead of 6:30 a. m.

If enough citizens should request this change in the schedule we feel certain the railway officials will comply with the request. Make your wishes known to M. S. Wade in charge of the ticket office at Big Spring by word or by postal card. Just let him know it would be far better to have the local train leave Big Spring at 9 or 9:30 a. m. than at 6:30 a. m. Don't overlook doing this.

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee, Oklahoma.

R. B. Kennedy, editor of the Whittier (California) Daily News, says:

That the greatest incentive for careful management and honest effort is personal gain.

That private capital invested in public utilities protects itself by securing the best management available.

That the best management of public utilities returns dividends to the public in better service and lower rates.

That usually community business and political business become mixed with a consequent lowering of service and an elevation of costs.

That the rate paid to a community owned utility for service is not the total cost of that service.

That with the rate must be computed the taxes paid to purchase and operate the community owned utility plus the loss of tax revenue which have been received from private capital invested in the public utility.

That cost figures of publicly owned utilities may not lie but they seldom tell the truth.

Regulation of privately owned utilities has been proven best from the consumers' standpoint. In nine cases out of ten the public utility owned and operated by private capital delivers better service at lower costs to the tax payer than does the community owned utility.

Politicians seem to be having a difficult time in getting folks all fussed up over politics. Our own folks seem more interested in wallowing the pink bollworm than they are in anything else just at this time. Politics is going to be a side issue this season.

HIGHWAY COMMISSION HAS A BALANCE; YET IS POOR

Although the Texas state highway department closed March business with deposits of \$11,641,000 in bank it feels poor. Such is the size of Texas that although the highway commission of many another state would think itself rolling in wealth if it had \$11,641,000 cash at one time, the Texas commission feels as hard pressed as the man who has \$100 incash, owes \$150 and is being urged to pay it.

This is what comes of having 40,000 miles of state highway system and 252 counties asking aid—each theoretically at least as much entitled to it as any other.

There is nothing wrong about it. The condition exists and simply faces heavy financial and other responsibilities upon the commission.

The commission thinks it has got along exceptionally well so far, but is not without its worries as for the future. So many contracts have been authorized; so much equipment is needed, maintenance costs are mounting so rapidly and so many new roads are to be built that a depletion of funds will be hard to avoid. Especially will this be so because the 3c gasoline tax is to be reduced September 1. The law says it will, at any rate. Signs multiply however, that a determined effort will be made in the legislature to hold the tax up to the 3c level.

On the other hand, will the license fee be reduced as promised when the fight for the 3c tax was made? The understanding has been that it would be cut at least 50 per cent. But the likelihood increases that no serious reduction will be made. The state needs the money for its highways; and anyway, it is always easy to levy or increase taxes but hard to abolish or decrease them.

It is true that a part of the revenue from taxing motorists in Texas goes to the public school system, which is wrong. Schools should be supported adequately but in another manner. There is no more reason for singling out the motorists of Texas for a special levy to support the schools than for picking upon any other special class of citizenship. The entire revenue from ad valorem and gasoline taxes and from license fees should go to the state highway department.

That the license fee is too high, only a minority denies. That it will be reduced unless the gasoline tax is left at 3c there is great doubt. It may even be that proponents of the gasoline tax will feel impelled to urge an increase of the tax to 4c if the license fee is reduced as much as 50 per cent. However the fee should come down. It should be no more than enough to cover the cost of annual registration of motor vehicles and the manufacture and issuance of license plates.—El Paso Herald.

NOTES FROM SALEM

April 16th, 1928.
Coshoma's base ball team played R. Bar Friday evening, the scores being 7 and 27 in R. Bar's favor. Mrs. J. W. Fryar and children of Highway were visiting with relatives in our vicinity Thursday.

Mr. and Mrs. Tolbert Robinson of Big Spring spent Sunday afternoon with Mr. and Mrs. W. H. Robinson.

Mrs. W. F. Cox who has been sick with the LaGrippe the past week, is very much improved at this time of writing. She was able to spend the week end in the hospitable home of Mr. and Mrs. Albert Edens.

Misses Eva and Bertha Miller of Abilene were visiting with relatives and friends the past week end. They returned to Abilene Monday.

Uncle Jack and Aunt Fannie Wilson spent Sunday afternoon with Mr. J. I. Davis and family.

Mrs. Lula Martin and little daughter Frieda Virginia of Big Spring, are spending a few days with their grandparents Mr. and Mrs. W. H. Robinson.

Mr. and Mrs. Jimmie Walker are building a new home. Grandmother Walker is reported as being on the mend.

Mr. and Mrs. Alvin Lay of Ross City and Mr. and Mrs. Bernard Lay, were visiting with Mr. and Mrs. Elmer Lay Sunday.

Mr. and Mrs. Foord Costes of Richland and children spent Sunday with Mr. and Mrs. Bill Costes.

KNOTT NEWS

A fine program was rendered by the Knott school last Friday night, after which a few pies were sold. The gains, which were twenty dollars, will be used for expenditures of the commencement exercises.

A good sermon was rendered Sunday night at the Baptist church by Rev. Clarence Wood.

Mr. and Mrs. George Sinclair of Abilene have been visiting here the last week. They are planning on making their home in Big Spring or Midland.

Gertrude Turner visited her brother in Abilene last week.

Ask your doctor about our prescription department... Cunningham & Phillips.

BLACK BALL PLAYERS TO BATTLE

The Big Spring Black Aces are all primed for the negro baseball team of Midland, and the big game will be played in Big Spring Sunday afternoon at 3:30 o'clock. Its going to be some game, says the Captain of the Black Aces, and Midland is going to have to get up and hump to get a look in.

TALKING MACHINES

If talk would cut wood or run a store, a good many of the honest poor would be out of job, and a good many biltherskites would be provided with profitable, if not honest, employment. If there is one thing from which this old world is suffering today more than another it is talk. The affliction runs the whole gamut, from the chattering of the society people to the disgusting twaddle of the official or editorial scribe who sits in a sanctum and prates of war with nonchalance and vivacity of a baseball fan. We have this carnival of talk in church, in society, in politics, in business, until a deep longing comes over the thoughtful man for some lodge in the wilderness, far from the sound of its din. It is an age of talk, and the danger confronts the sober thinking man of being drawn into the vortex.

Where facts are feigned to tickle idle ears.

Where good and evil play at tournament.

And end in amity—a world of lies, A carnival of words, where every day

Stale falsehoods serve fresh men.

A day of doing is worth a year of talk; a committee of one that means business is worth a dozen conventions of mouth workers.—The Batteryman.

ASKED FOR PROOF

Signor Garlicko caused much merriment when apologizing for the non-appearance of Madame Ella Vator by saying "she sees a leetle horse these evenings."

Noticing a ripple of laughter among the audience, he nervously repeated his statement that "Madame Ella Vator she sees a leetle horse—a leetle horse; she have a colt!"

Whereupon a witty "gallery god" chimed in saying: "Well, trot her out!"

A NIGHT OUT IN THE BIG CITY

Sylvester came round 'n we hopped in a taxi 'n drove 'round the park 'n he tried to neck me right away 'n men like that bore me to tears but I had to let him to keep him quiet 'n then we went 'round to the Supergorgeous 'n saw an awful revue 'n the film was just as bad 'n after that we went to the Club Sibido 'n danced 'n I thought I'd scream because I'd been to one of these places every night for the past two years almost, 'n after that we went to an oyster place in a cellar 'n when we got home Sylvester wanted to kiss me again 'n I never struggled but I'd sooner kiss a worm..... wish I lived in the country.

In Elm Center

Sam came 'round in his flivver 'n we drove out on the river road 'n as usual Sam tried to neck me 'n I gave him a kiss to keep him quiet 'n then we went to the Bijou 'n sa we punk movie 'n the new organist was even worse 'n after the show we went 'round to the Elite 'n danced 'n I could have torn silk I was so sick of the place, 'n later we dropped in at Nat's Night Lunch 'n if I hadn't been so tired and bored I would have thrown a fit just to cause some excitement. 'n when we got home I was so goofy I let Sam kiss me three times, though I'd rather kiss one of our Poland China hogs..... wish I lived in the city.—E. P. Ferri in Life.

One of our conservatives came very near having a fit when one of the managers of a big concern tried to show him that there was every reason why Big Spring should become a city of 2500 or more within the next few years. The old timer could not see it and contended that if we gained a population of 10,000 or 12000 it would be too good to be true. Its the new comers who are reaping the benefit of the rapid growth of our city.

Golf is recommended for the feeble-minded—and others.

MISS TWILA LOMAX FOR COUNTY SUPERINTENDENT

We are authorized to announce Miss Twila Lomax as a candidate for Superintendent of Public Instruction for Howard County. She announces subject to the action of the Democratic primary, July 28th, and her name appears in the announcement column of the Herald.

Miss Lomax is known to the majority of the citizens of Howard county, having made her home here for the past 21 years. She has taught in the schools of Howard County 6 terms and one term in Taylor county. She is a graduate of the Big Spring High School class of 1918; attended the Texas Woman's College two terms and Sul Ross Teachers' College one summer term; She holds a permanent high school certificate.

Miss Lomax is held in the highest esteem by everyone who knows her and she has a host of friends in every part of the county. Her long residence in the county, and her years of work in the rural school gives her a better understanding of the needs of our schools. She is vitally interested in the welfare of the school children of Howard county and the citizenship has every confidence that she will work for the very best interests of our schools, and no one can do the work in a more satisfactory or efficient manner.

She will appreciate the good will and influence of every citizen. Remember her candidacy when casting your ballot in the July Primary.

STERLING COUNTY SELLS BOND

The Commissioners Court of Sterling County recently sold \$201,000 of county road bonds at a premium of \$4000. The State and Federal governments will cooperate with Sterling County in adding around \$400,000 to build a system of first class highways.

"DUNLOP CITY" is 3 times as big as WASHINGTON, D.C.

DUNLOP CITY
Throughout the world the productive Dunlop properties cover so vast an area that—if combined into one place—they would form a "Dunlop City" of over 100,000 acres.

WITH all its vast area, Washington, D.C., occupies but 39,680 acres.

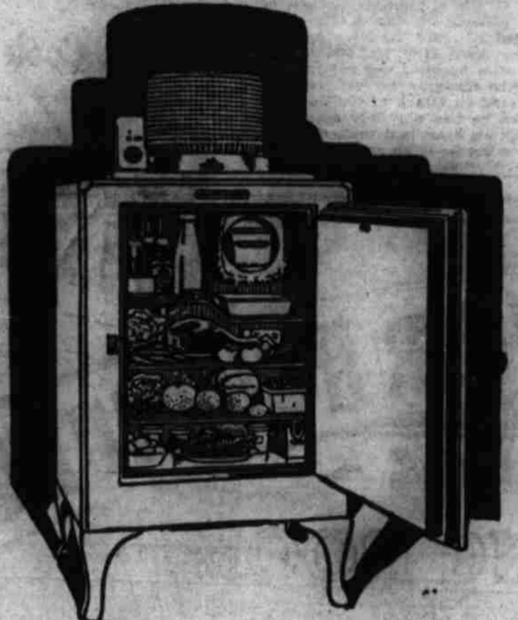

Preference for Dunlop Tires has caused Dunlop to grow so that now, including the greatest of all Dunlop plants at Buffalo, N. Y., Dunlop occupies a productive area of over 100,000 acres. Over 22,000,000 Dunlop Tires are now running. The service that they give is both the cause and result of Dunlop's magnitude.

Tallyrand said, "There is one person wiser than Anybody, and that is Everybody." Practically everybody agrees that Dunlop Tires are best. Put them on your car and prove it to yourself.

Revolutionary—but so simple

GENERAL ELECTRIC Refrigerator

The air-tight steel casing, inside the coils, houses all the machinery of the General Electric Refrigerator. It also contains all the oil this machinery, and the tiny motor which operates it, will ever need to protect them from wear.

The engineers and scientists in the General Electric laboratories worked for fifteen years perfecting this design—worked to develop a refrigerator that would be thoroughly efficient and virtually trouble-proof.

By the very nature of the design, the entire responsibility for satisfactory performance rests with the manufacturer. Every part of the machinery is built, tested and retested in the General Electric

factory. The assembled mechanism sealed in this electrically welded casing. It is then put through a final test. You never see the machinery—we never see it. No one is responsible for it except General Electric and they guarantee absolute efficiency.

When we deliver the refrigerator, all you need do is plug the cord into any electrical outlet—just as you do your fan or your lamp. Automatically, quietly, economically, the mechanism which you never see does the work which you need never think about. You get perfect refrigeration. You are cordially invited to come in and see the remarkable refrigerators. There is a wide range of models and prices.

Time payments can be arranged if you prefer

THE PAST IS GONE—THE FUTURE IS YOURS

Why revert to the past unless it is to draw lessons from the mistakes of life or inspiration from the victories. The past is no more. The glorious future stands out invitingly to those who have faith in themselves and the courage of their convictions. At no time in the history of the world has life been more attractive and alluring. The genius of man is made manifest in the control of the invisible powers. God is unfolding His wondrous works and exposing the secrets of Nature through man. His own creation, just as rapidly as the mind can absorb and utilize. The poorest of the poor today enjoy advantages that were unpurchasable by the richest of the rich a quarter of a century ago. Our educational resources have been multiplied. Means of transportation and communication have been perfected beyond any preconceived idea of the most renowned prophet of old. We have religious freedom, music, art, and entertainment in forms unheard-of a generation ago. Best of all, we have opportunity, the kind that knocks more than once at our door. We marvel at the new and mysterious scientific discoveries. They are being announced so frequently that they seem almost commonplace, yet the boys and girls of today will witness greater scientific advancement than we of the older generation can conceive.

But opportunity does not knock at the doors of the young alone. Those who have passed the halfway mark of the span of life and have witnessed the beginning of a new era in the history of civilization, have the opportunity to grow old gracefully. This is a great privilege, and those of us who accept it in its fullest measure will yet find life full of joy and our children will find pleasure in us. Remember that the same moon that beamed upon you in earlier days still hangs in the sky surrounded by the same brilliant and sparkling stars; and the sun's rays are just as comforting, and that the rains fall as of yore to refresh the earth. The bird sing as sweetly as ever; the flowers are as fragrant and the fruits of the trees and the vines just as delicious. If they are not you are getting old, and it is time that you made a supreme effort to divert your mind from the idea that the earth is a vale of tears, and to cease making constant reference to "my home on High."

The state of mind is a true measure of your age. If you are spared to reach the four score and ten or more, grow old comfortably and gracefully. Live the life that will cause your children and the friends of your children to sincerely mourn your passing. Remember that your father's father and your father had the same opinion of the rising generation as you may have expressed concerning the boys and girls of today.—Farm and Ranch.

MITCHELL COUNTY FARMER MURDERED

The body of Ernest Hardin, a Mitchell county farmer, aged 42 years, was found under a bridge in Colorado Sunday by some small boys. Hardin's skull was crushed and there were knife wounds in his neck and parts of his body. He is survived by a wife and six children. Hardin was seen with three other men at Loraine Saturday night. He is said to have had \$15 or \$20 when he left home.

CHRONIC TRAVELER IS HELD BY POLICE

Columbus Kan., April 14.—Mrs. George Page, who appeared here Friday with five children, claiming to be destitute and asking assistance, is held by police pending word from Wichita where it was reported that she is a chronic traveler and has received aid from a score of towns in Missouri and Kansas during the last month.

This is the family that Kansas City, Mo., police recently supplied with \$10 to travel to her mother's home in Carthage Mo. It is reported she went to Fort Smith and came back through Columbus. Ft. Worth Star Telegram.

There must be a regular army of these chronic travelers, and unless the citizens of the various towns get hard boiled and refuse to be grafted on by these floaters the army will continue to draw new recruits. We make it too easy for the grafters.

The State Highway Department is now seeking to make all trunk highways 100 feet wide.

SPEECH MAJORS GIVE JUN. RECITALS AT C. I. A.

Denton, Texas, April 16.—Misses Jeanette Pickle and Dorothy Jordan Juniors at the College of Industrial Arts, were recently presented in Junior speech recitals in the speech auditorium at this college. Miss Pickle gave "The Reading Public," by Stephen Leacock. Her change from one character to another was swift and sure and each interpretation was unusually clever. Miss Pickle seemed altogether unconscious of herself and her facial expressions were suited to each character.

Miss Jordan read "Coral Beads" by Elizabeth Hall Yates. She had very good facial expressions for the three characters, and her portrayal of the two women was unusually good. Her voice and attitude were excellent.

Both young ladies are members of the Junior class at C. I. A. and are doing major work in "Speech."

Alarm clocks that do their stuff.
Cunningham & Phillips.

CHANGE IN TEXAS & PACIFIC OFFICIALS

According to a bulletin this week Clarence Percy chief Dispatcher for the Texas and Pacific Railway at Big Spring, has been made trainmaster between Baird and Big Spring on the Rio Grande division succeeding J. C. Durnell. Raymond Winn of Fort Worth succeeds Mr. Percy as Chief Dispatcher.

Mr. Durnell has been one of the most popular officials on the Rio Grande division and it is with deepest regret the employees note his departure from Big Spring. Mr. Durnell holds his rights as a railway conductor and will take up his duties as such at once.

Mr. and Mrs. Durnell left Tuesday morning for Fort Worth where they will make their future home.

G. Y. Wilson was in Monday and states they are still looking for that big rain. He said his section did not get any of that fine big snow that Big Spring folks were treated to last Saturday.

STUCK IN SECOND

"Jones had just bought a Blank Six, noted for its speed, and was taking his wife out for a ride," E. P. C. of Lake Charles, La., writes. "A horn tooted up from the rear and on looking back Jones discovered a new Ford in his wake. Just to show off his new Blank Six, Jones decided to run away from his pursuer. When the speedometer touched fifty Jones asked his wife where the Ford was. 'Right behind us' she said. So Jones stepped his Blank up to sixty and then seventy. He had reached his limit when the Ford drew up beside him. 'Do you know anything about these new Flivvers?' the Ford driver asked. Jones shook his head. 'Well, I just thought I would ask,' the

stranger said. 'I've got this dern thing in second gear and can't get it out.'—Automobile Digest.

FIN PRICKS

The gentleman who gives you a sock in the jaw does not arouse so much resentment as the lady who continually nags at you. We can stand the roar of a cannon once better than we can stand the continual dripping that wears out the stone.

It is not the big things of life that we have to fear so much as it is the little things.

We ought to order our lives that our daily intercourse with people shall be pleasant and not irritating.—Frank Crane.

RELIABLE SERVICE

Whether it be a job of cleaning, dyeing, repairing or an alteration, we have the machinery to do it right, and workmen that know how.

We handle the sheepest garment—in such a way that we can return it to you, as good as new.

Our list of customers continues to grow, because they know that we render them reliable service.

Real Non-Skid PERFORMANCE
Slow, Even Tread Wear

That's what the Goodyear All-Weather Tread Balloon Tire gives.

Real Non-Skid Performance—because the deep-cut, sharp-edged blocks in the tread's center seize, grip and hang-on.

Slow, Even Tread Wear—because these sharp-edged blocks are placed in a semi-flat design. They not only grip the road, but retain their usefulness longer than any non-skid tread heretofore offered.

Come in and see it. We'll let the tire do all the talking. It's backed by our standard Goodyear service.

TRAINING CLASSES IN BOY SCOUT WORK TO START

F. D. Craft, Scout executive of the Buffalo Trail Council, with headquarters at Sweetwater, Texas has been in Big Spring the past week working in the interest of the Boy Scout Movement. The work in Big Spring is well underway with two troops already organized another being formed, and with the prospects of a fourth one to start functioning in a short time. Claude Wingo and J. M. Manuel are Scoutmasters of Troops 1 and 2 and Rev. H. L. Owen is to be leader of Troop 3, the one now in the formative stage.

The training classes for leaders of Scouts, or Scoutmasters, will be conducted all next week by Mr. Craft, the place to be announced later. Everyone interested in the work is urged to attend these classes.

On May 1st the first Court of Honor will be held in Big Spring. This will be an inter-troop meeting and at this time badges of honor will be awarded.

J. & W. Fisher are outfitters for Boy Scouts in Howard county and they are putting a stock of uniforms, an also have ordered some Scout handbooks. The boys may secure their knickerchiefs, the latter part of the week and the other uniforms will arrive in a short time.

Edwin A. Kelley has been appointed to serve as organization chairman in Howard county. Others serving on this committee are as follows: J. Fred Phillips, C. W. Cunningham, T. S. Currie, J. B. Pickle and Rev. R. L. Owen.

This district includes Midland, Colorado, Lorraine, Roscoe, Sweetwater and Big Spring.

TYPEWRITER STUDENTS ATTEND MEET AT LUBBOCK

Contestants from the Big Spring High School are in Lubbock today, Friday, April 20th, attending the Interscholastic Typewriter Tournament. This is one of eight tournaments to be held in Texas, and the winners of same will go to Austin. The winner at the state meet gets a complimentary trip to California with all expenses paid.

The contestants from Big Spring in Lubbock participating in the tournament are: Misses Nettie Arnold, Mamie Halr, Virginia Whitney and Curtis Bishop.

EXPRESSION OF THANKS

We wish to extend our sincere thanks to Mr. Fred Sellers for the generous donation which he recently presented to the members of the Volunteer Fire Department. We appreciate the good will and co-operation of those who assist us in fighting fire, and such expressions of gratitude as Mr. Sellers has made is doubly appreciated.

Members of the Big Spring Fire Department.

C. D. Martin of California was greeting old time friends in Big Spring recently. Mr. Martin was a resident of this city twenty-five years ago, at which time he held a position with the John Bryant Lumber Co.

Raise more chickens this year Dr. Le Gears poultry remedies Cunningham & Phillips.

Joe Joy Landers, 7 piece orchestra, furnished the music for the dance at the Miller's Skating rink Wednesday night, April 18th. This orchestra succeeds Harrison's Texans, who have accepted a contract with the Birch Hotel at Breckenridge.

On a recent trip to the city water works plant we noticed at least one sump that was without a cover. With rabbits, snakes and other varmints likely to tumble into this opening, it occurred to us that it might pay the city to have some kind of a person covering made for this sump and others, if more there be.

POSITIVE FOOL!

The Pathfinder: "A sensible man doubts everything. Only a fool is certain of what he says."
"Are you positive of that?"
"Positive!"

H. B. Webb of Amarillo has arrived in Big Spring to make his home. Mr. Webb is a general contractor and will have his headquarters at Coe-Parke Lumber Company.

Mrs. Wm. Price and son Teddie of St. Louis, Mo., arrived Friday night for a visit with friends in this city. They are guests in the home of Mr. and Mrs. Jess Andrews.

Mr. and Mrs. E. L. Haag of Abilene after spending the weekend in this city with her parents Dr. and Mrs. T. M. Collins returned to their home in Abilene Monday.

Tom Cook, manager of the Texas Electric Service company and Harold Satcher, storekeeper, were visitors in Hillsboro the past weekend leaving Big Spring Saturday, and returning Monday.

If I knew you and you knew me, How little trouble there would be. We pass each other on the street Why not come and let us meet, In the "Home-makers' Class" First Christian church, next Sunday.

Mr. and Mrs. J. B. Collins returned Wednesday night from Dallas where Mr. Collins has been on business the past few days.

"A man spends a third of his life deciding what he wants, the next third getting it, and the last third wondering what he is going to do with it."—Ex.

A colored boy in commenting on his hard luck, said he might just as well throw a rock at a funeral procession, since nothing worse could happen to him than already had.

H. L. RIX ATTENDED REGIONAL MEETING AT DALLAS

H. L. Rix president of the Rix Furniture and Undertaking Company attended the Third Regional Meeting held in the interest of the piano industry sponsored by A. G. Gulbransen, Piano Company of Chicago, Ill. the past week. The meeting was held in the Baker Hotel in Dallas and the program carried out the same features as similar meetings held in New York and other large cities in the United States.

The Gulbransen Company has the distinction of being the largest and most progressive producers of pianos in the United States. They now have twenty five models on the market, all of which were on display at this meeting. Seventeen of the models have been created within the last two years. Such an achievement has never before been approached in the piano industry. The line now embodies everything from a plain piano priced \$295.00 to the reproducing Grandes. Every phase of the industry was discussed at the Dallas meeting by personal representatives of Mr. Gulbransen.

Similar meetings to this one will be held in San Francisco and Portland Oregon and others have already been held in New York and Chicago. When they are all held, the entire sales organization of 500 dealers of Gulbransen pianos will have had an opportunity to have attended a regional meeting, where these things of interest were discussed.

H. L. Rix stated that this was an unusually enthusiastic group, and the meeting proved to be one of interest to everyone.

REFUSES T. & P. CO. WATER RIGHT FLEA

The City Council has no objection to the Texas and Pacific Railway using water from the Clear Fork of the Trinity River in connection with the operation of its new yards but it not advisable, councilmen said, for the city to dispose of its water rights there now when they might be needed greatly at a future date. The railroad was refused permission to erect two dams on the river.—Ft. Worth Star Telegram.

HAMLIN TOOK THE GAME

The Hamlin baseball team had an easy time defeating the T. and P. team here Sunday afternoon. When the war was over it was found that Hamlin won by a score of 16 to 8.

The home team has not had an opportunity to get much practice while the Hamlin team all primed to enter the West Texas League, was in trim to meet a much stronger team than we have thus early in the season.

A movement to raise funds to back the local T and P. team is expected to get underway in the near future. We can have some good sport if the folks get behind the team.

Charles Shehan and Miss Lillian Shive Marry

Culminating the happy romance of several months, the marriage of Miss Lillian Shive and Charles Shehan at 9 o'clock, Saturday evening April 14th, came as a surprise to the many friends of the young people of this city.

The wedding ceremony was performed at the Methodist parsonage, on Seury street, by Rev. W. G. Bailey, pastor, in the presence of the family and immediate friends.

The bride, daughter of Mr. and Mrs. C. E. Shive was reared in this city. After graduating from the Big Spring High School, she attended Baylor College at Belton one year.

Mrs. Shehan was highly popular at the schools she attended and took a prominent part in the activities. At the time of her marriage she held a responsible position in the Master Mechanics office of the Texas and Pacific Railway. She is an attractive young lady, possessing womanly charms, and has a wide circle of friends who wish her every success and happiness.

The groom is the son of Mr. and Mrs. G. J. Shehan, prominent family of El Paso. He holds a position as a machanic with the T. & P. Railway Company and is a capable employe. He is an estimable young man and is held in high esteem by those who know him.

Immediately following the wedding the happy couple left for a honeymoon trip to New Orleans, Louisiana, and other points south, and upon their return will make their home in this city.

The many friends of the contracting parties extend to them best wishes for a full measure of happiness and prosperity.

Mrs. Hilo Hatch Hostess To Triangle Bridge Club
The lovely home of Mr. and Mrs. Ebb Hatch is the Cole and Strayhorn addition, was the scene of a very lovely party on Wednesday afternoon, when Mrs. Hilo Hatch delightfully entertained the members of the Triangle Bridge Club. The beautiful furnishings of the home and spacious rooms provided a pretty setting for the play. A note of Springtime was sounded in the tallies, and other details of the party.

Mrs. John Hodges was successful in making high score in the games of the afternoon, among the club members, and Mrs. Manly Cook made visitors high score.

At refreshment time the hostess served an unusually delicious luncheon in two courses, consisting of: Pineapple salad, cheese and pimento sandwiches, ripe olives potato chips, Grape julep and strawberry shortcake.

Those present beside club members were: Mesdames J. Y. Robb, Manly Cook, E. M. Cline, Eck Lovelace and Miss Zou Hardy.

Following the party, the club members held a business session, at which time it was decided to take in several new members, to fill vacancies of members who have withdrawn.

Pioneer Bridge Club
Guests of Mrs. Clarke
Mrs. John Clarke was hostess to the members of the Pioneer Bridge Club on Wednesday afternoon and in a pretty setting, three tables were arranged for the bridge play. By attractive tallies, the guests found places at the tables. Interest was high in the games of the afternoon and at the conclusion of the play, when scores were compared, high score honor among the club members went to Mrs. Bernard Fisher, Mrs. G. L. Wilke made visitors high score.

At the tea hour dainty linens were spread on the tables, and a delectable plate luncheon was served in a dainty manner by the hostess.

I-Deal Bridge Club
Guests of Mrs. Steve Ford Tuesday
The members of the I-Deal Bridge Club enjoyed this week in the home of Mrs. Steve Ford in Edwards Heights. Three tables of players were guests, and around the tables of dainty appointments, the guests were seated and found interest in the afternoon bridge games. High score honor among the club members was won by Mrs. A. A. Williams. Mrs. Harry Rogers made visitors high score.

At the refreshment hour bridge accessories were removed from the tables, and dainty linens spread. A tempting luncheon in two courses was served in a dainty way by the hostess to the twelve guests.

Woman's Auxiliary Met
With Mrs. A. M. Ripp
The Woman's Auxiliary of St. Mary's Episcopal church met with Mrs. A. M. Ripp on Monday afternoon, in regular session, for discussion. A social hour followed the business meeting and the hostess served delicious ice cream and cake.

The Auxiliary will meet with Mrs. O. L. Thomas next Tuesday afternoon at 3 o'clock. All the members are urged to be present.

Miss Jane Lee Hannah Is Honoree at Birthday Party

Little Miss Jane Lee Hannah delightfully entertained a group of friends at her home on Johnson St Wednesday afternoon, this being the anniversary of her eighth birthday. Between the hours of four and six o'clock the group made merry, playing various kinds of games and contests.

A pretty color theme of pink and white was carried out in the details of the party, and brought to a lovely climax on the refreshment plate, which consisted of brick ice cream and cakes, in the chosen colors. Party favors were dainty baskets of pink and white, filled with jelly beans.

Prizes in the contests were won by Miss Ruby Nellie and Harry Jordan. Miss LeFern Dehlinger won second place.

The honoree received many dainty and useful gifts. Those enjoying the birthday party with Jane Lee were:

Virginia Hilliard, Mary Louise Inkman, Camille Koberg, Mary Jane Reed, Betty Jean Fisher, Imogene Barnett, Doris Sparks, LeFern Dehlinger, Mickey Gordon, Janice Mae Jacobs, Addine Carter, Frances a Roe Courtney, Josephine Thigpen, Henrietta and Nellie Gray, Dorothy Dean Sain, Mildred and Dorothy Rhotan, Melma and Ruby Nellie, Barbara and Mary Freeman, Cathrine and Leola Fay Vines, Cathrine McDaniel, Orella Hodges, Billie Frank and Patricia Jeanne Davenport, Harry Jordan, Billie Mercer, Jane Lee Hannah, Mrs. W. E. Boring, Mrs. Frank Davenport, Mrs. H. H. Hannah.

Joe Lusk Celebrates His Ninth Birthday Anniversary
Joe Lusk was the honor guest at a happily planned party on Tuesday afternoon, given at the home of his parents, Mr. and Mrs. J. Lusk in College Heights Addition, in celebration of his ninth birthday anniversary. Various kinds of games were enjoyed by the happy group of boys and girls, who assembled at the home to celebrate with the honoree. After the play hour, the guests were invited into the dining room, where delicious refreshments consisting of fruit jello and cake, were served. Party favors were balloons.

Those enjoying the birthday party with Joe were: Frank B. and Jeane Simpson, Julius and Harold Neal, Blanche Maxwell, Roberts and Keith Cuss, R. H. Miller, Leta Mae Miller, Bubba Wilcox, Ruth, and Joe Lusk. The honoree was the recipient of numerous gifts.

Sunbeams Enjoy Easter Egg Hunt
Members of the Sunbeam Band of the First Baptist church enjoyed an egg hunt on Thursday afternoon before Easter Sunday.

The heavy storm of wind and rain prevented their having the anticipated trip to the waterworks, but they had a most happy time in the church basement. Twenty-six bright little folks entered merrily into the games and general good times which had been planned by their loving and capable leader Mrs. R. G. Bebout and faithful assistant, Miss Mildred Patterson. Following the jolly games the abundant lunch of sandwiches, potato chips, deviled eggs, cake and fruit was disposed of, after which came the egg hunt for eggs which were found hidden in various nooks and corners outside of the building. Mrs. Squires and Miss Theodora Fuller lent very valuable assistance in entertaining and serving the children upon this pleasant occasion.

The Sunbeams meet each Saturday afternoon at three o'clock at the church. A cordial invitation is extended to any and all little folks up to twelve years of age, to join them in their meetings.

Senior B. Y. P. U. Members Enjoy Hay Ride Tuesday Night
The members of the Senior B. Y. P. U. of the First Baptist church enjoy a hay ride on Tuesday night, the destination being the New Wells south of the city. The affair was well attended with Rev. D. H. Heard, pastor, and family, and J. C. Douglass, Sunday School Sup't., and family being among the guests.

The games and music on this occasion were enjoyed by everyone. Gathering around a big bonfire, the guests found enjoyment in roasting wafers and toasting marshmallows, then eating them.

All young people are invited to meet with the B. Y. P. U. each Sunday evening at 7:00 o'clock at the First Baptist church.

Worthy Matrons Visits Eastern Star at Conhoma
Mrs. Chas. Eberly, Worthy Matron of the 1-2nd Eastern Star chapter, and Mr. E. L. Mangrove attended a meeting of the Eastern Star at Conhoma Wednesday evening. They report a most interesting meeting, and a delightful time. Following the business session a social hour ensued and delicious refreshments of home made ice cream and cake were served.

Mrs. Taylor Re-elected President of South Ward P. T. A.

Mrs. T. E. Taylor was re-elected president of the South Ward Parent-Teacher Association, at the regular monthly meeting held last Thursday afternoon. Other officers elected for the new year are as follows:

First Vice President—Mrs. L. S. Patterson.
Second Vice President—Mrs. Lawrence Simpson.
Third Vice President—Mrs. M. Wentz.
Recording Secretary—Mrs. J. L. Webb.
Corresponding Secretary—Mrs. Fox Stripling.

Treasurer—Mrs. B. Leatherwood. Business was discussed, after which Mrs. L. S. Patterson delegate to the district convention, made her report to the members of the P. T. A.

A splendid report was given at the District convention and much progress has been made by the South Ward Parent Teacher Association. Under the leadership of Mrs. Taylor, many worthwhile things have been accomplished for the school, and because of her untiring efforts she was chosen to head the organization another year. Her corp of officers and members of the association, through cooperation and mutual interest, help her to make this one of the most active P. T. A. organizations of the city.

Mrs. Chas. Koberg to Head Junior Hi P. T. A.
The election of officers was the business of the last regular meeting of the Junior High School P. T. A., held at the Junior High School building, Tuesday afternoon at 3:30 o'clock. The election resulted as follows:

President—Mrs. Chas. Koberg.
First Vice President—Mrs. Lawrence Simpson.
Second Vice President—Miss Abbie Neil Rhotan.
Third Vice President—Mrs. Harry Rogers.
Secretary—Miss Marian McDonald.
Corresponding Secretary—Mrs. T. F. Huggins.

Treasurer—Mrs. R. V. Jones. Following the business session, a report from the delegates who attended the District meeting was heard. The Junior High P. T. A. has a long list of accomplishments which show good results of this year's work. Mrs. Ira Driver, past president and her officers and members deserve much credit for the activities of their organization.

Cake at North Ward Brought \$14.00
North Ward was the scene of a lively party when on last Friday night the P. T. A. gave a program and auctioned off a cake. The cake brought \$14.00. Rev. W. G. Bailey of the Methodist church delivered the address of the evening and his made a very inspiring talk.

More good times are in store for the North Ward P. T. A. Come and join, get some of our pep and help us grow. Our next meeting date is Thursday, April 19. We welcome all visitors.—Reported.

Attending District Meeting of Women's Federated Clubs
Mrs. J. I. McDowell, Mrs. F. F. Gary, delegates from the City Federation, and Mrs. W. F. Cushing, delegate from the Hyperion club, and Mrs. B. Reagan, left Thursday morning for Abilene, to attend the meeting of the Sixth District of Women's Federated Clubs, which is in session in Abilene, Thursday Friday and Saturday, April 19, 20, and 21. The Simmons Round Table of Simmons University are hostesses to this delegation.

Mrs. McDowell will take part on the program Friday, when she will be in charge of the Memorial Service for departed members, who have passed away during this club year.

Mrs. Gary will lead the discussion on reports Saturday.

Mrs. J. C. Phillips Entertains With Birthday Party
Mrs. J. C. Phillips of the Sterling Route, delightfully entertained last Friday evening in honor of her daughter Mrs. W. B. Yeats and Miss Josephine Green, in honor of their birthday anniversaries. The rooms of the home were made lovely with emblems of Easteride. In a pretty setting games and contests were enjoyed until a late hour. At refreshment time, the guests were invited into the dining room, where two prettily decorated birthday cakes, aglow with candles, were on the table. These were cut and served with lemonade to: Misses Beulah Mae Crow, Ruby Phillips, Helen Green, Lucille Rankin, Gladys Phillips, Josephine Green, Billie Jean Brown, and Mrs. Ole Phillips. Clytie Reeder, Jannie Phillips, Jewell White, Emory Phillips, Rueben and Jessal Overton, Mr. and Mrs. Herbert Phillips, Mrs. Nell Brown, and Mr. and Mrs. W. B. Yeats.

Miss Maydell Alderman and friend of Dallas, enroute to Los Angeles, California, visited friends in

Christian Missionary Society

The Christian Missionary Society met Monday April 16th in the beautiful new home of Mrs. J. F. Kennedy. Mrs. H. Clay Read, leader. Mrs. A. B. Maxfield led in a very impressive devotional.

Mesdames Marchbanks and Willard Read sang "The Old Rugged Cross."

Mrs. Harry Rogers gave a very interesting account of Evrairie Herberts work with the French Academics. This story was spiced with accounts of personal knowledge of Mrs. Rogers while in Louisiana.

Mrs. L. A. Eubanks sang "Others." "And Yet a While Longer," a plea for the Christian Peoples of America to hold their work in China a while longer was given by Mrs. Wingo.

Mrs. J. A. Yarbrough gave an account of "When Women Pioneered in India."

Mrs. J. R. Parks being absent last meeting on account of illness each member present sent her a personal message. She expressed her appreciation by giving the following poem:

Friendship
By Grace E Kelly
As we number every blessing,
Which our Gracious Father sends
None we hold of greater value
Than the gift of loving friends.

They who all along life's journey,
Halting faith and courage stay;
Guiding light and service lending
Should we lose appointed way.

Overlooking imperfections,
Which most vividly appear;
For our every joy or sorrow,
Giving sympathetic ear.

And the many called to leave us
By ambition's bright allure;
Or some altruistic beckon,
Which a good to all assures—
Thanks we give for those remaining
And in tones subdued with pain;
Give God speed to each departing
Trusting oft to meet again.

Then if by divine decreeing
Some we here no more behold;
Hope we have of sweet reunion
In the everlasting fold.

The hidden answers always promote much study and enthusiasm. Lovely refreshments of coffee, chicken salad, strawberries and cream were served to the following:

Mesdames J. R. Creath, Berry, Purser, Webster, Farris, Glenn, Marchbanks, Clay Read, Willard Read, L. A. Eubanks, Rogers, Wingo, Hutehenson, Parks, Marian Kennedy, Maxfield, Yarbrough, J. F. Kennedy, Joe Jim Green.

The next meeting will be held with Mrs. Harry Rogers, hostess, Mrs. C. Wingo, leader.

If your spiritual life is on the decline, or you think church activities are dull, meet with us next time. Get a surprise. If you like it become a member.

Christian Endeavor Convention
May 4, 5 and 6th, the District Christian Endeavor convention will meet in Big Spring at the First Christian church. Delegates are expected from the societies as far West as Ft. Stockton and Pecos; as far East as Abilene, as far North as Lamesa and as far South as San Angelo and all towns between having societies.

The Endeavors are asking that the young people of our town come and enjoy the good things of such a convention. Epworth Leagues, B. Y. P. U. and all other young people's organizations.

Do you realize that the young people have a real program in Christian service? Do you realize that the young people of this age are training themselves for places of responsibility when you can't carry on?

Big Spring is fast becoming a convention center because of our location.

—C. E. Publicity and reporter.

Miss Willie Ramsey Marries California Man
Miss Willie Ramsey, daughter of Mrs. Mollie Ramsey, formerly of Midland, was married on Sunday, April 1, to Mr. T. W. Hudson. The wedding ceremony was performed in the Immanuel Presbyterian church of Los Angeles in the presence of a few friends and members of the family. Immediately after the wedding, the young couple left for a honeymoon trip to Catalina.

Mr. Hudson is from Shreveport, La., and is a radio specialist.

Miss Ramsey is well known in Big Spring, where she formerly made her home. She has also visited here on several occasions in recent years. Her many friends in this city extend congratulations and best wishes.

Presbyterian Teachers and Officers Meet With Mrs. Dahme
The officers and teachers of the Presbyterian Sunday School met in the pretty home of Mr. and Mrs. Leslie Dahme on Monday evening in their regular business meeting. After the usual discussion, a social hour was enjoyed and dainty

Mrs. Harry Rogers Hostess To Home Makers Class

Mrs. Harry Rogers entertained the members of the "Loyal Home Makers class" First Christian church Friday evening in her lovely new home in McDowell Heights. The rooms were decorated with luster bowls of vari colored Tulips and Bridal Wreath. Many clever games and contests were played causing much merriment. Mrs. L. A. Eubanks received the prize in the Peanut race and Mrs. S. G. Bledsoe was declared winner in keeping the "Straight and Narrow Way."

Each guest was given a lily containing the name of some member of the class to be known as her "Lily Pal."

Those attending this delightful affair were:

Mesdames Claude Wingo teacher; Chas. Bussey J. W. Marchbanks; Geo. Carter, Gilbert Edens, A. J. Sparks, G. Glenn, Walter Farris, Harry Lees, S. G. Bledsoe, Earl Read, J. F. Hutchison, Wm. Dorn, L. A. Eubanks, Harry Rogers, J. E. Crabtree.

Mrs. Rogers was assisted in serving by Mrs. Joe Jim Green and Mrs. Chas. Bussey.

Social First Christian Church Friday Night
Friday night, April 20. Every person is expected to be masked. Two prizes will be awarded: first to the person whose identity is not known for the longest time; second to the person who has learned the identity of the greatest number within the first hour.

The social is to be held for the general fellowship. There are so many strangers in Big Spring who are not known to the church people. We want these strangers. Then too we are anxious to prove that fine feathers do not always make a fine bird. What a person really is speaks louder than what he says or appears to be.

Eastern Star Will Meet Tuesday May 1.
The regular meeting of the Order of Eastern Star will be held on Tuesday evening May 1st, at 7:30 o'clock. All of the members are urged to be present. Initiation will be held. Visiting members are welcome.

Marriage Licenses
Oscar Lee Nabers, Miss Emma Rozella Wheat, April 13th.
Edgar A. Steele and Miss Willie Grimes, April 14.
Charles W. Shehan and Miss Lillian Lee Shives, April 14th.
N. C. Buchanan of Los Angeles and Miss Elizabeth Allen April 16.

Presbyterian Aux. Notes
The regular business meeting of the Auxiliary will be held at the Presbyterian church Monday afternoon at 3 o'clock. All of the members are urged to be present.

The El Paso Presbyterian will meet in Colorado, April 24th, 25th, 26th, and quite a number of the Big Spring women will attend. It is hoped that as many as can will plan to attend this interesting meeting.

Quite a few members of the Church of Christ of Big Spring have been attending the Big Spring Taylor meeting in Colorado this week. Mr. and Mrs. James Campbell and children, Dan Campbell and J. D. Harvey attended the meeting there Sunday. Others have been going throughout the week. They report this to be a wonderful meeting, and those in charge are doing splendid work, with good results.

CLUBS AND CAMP
Work was started this week on a filling station and dining room on Joe Flock's tract of land just west of Big Spring. The service station and dining hall are the first of a number of improvements to be erected on this ten acre tract.

A club house, dance hall and other amusement features usually connected with a first rate club are going to be provided under Mr. Flock's plan to organize a group of congenial citizens into a club.

A club of this nature is a fine thing for members, visitors and our city.

E. H. Josey was awarded the contract for building the filling station and dining room.

WEST TEXAS LAUNDRY CLUB TO MEET HERE APRIL 28TH
Big Spring will entertain the members of the West Texas Laundry club on next Saturday April 28. At least one hundred laundymen from all over West Texas are expected to be in attendance. Prominent men in this industry will take part in the program and much interest is being shown in the meeting.

Headquarters for the Laundrymen's convention will be at the Douglass hotel, where the visitors will assemble, and the meetings will be held. At 1:30 o'clock Saturday a banquet will be served in the Douglass Hotel Coffee Shop. During this affair, a program of interest and entertainment will be given.

BUSY ON SIX BIG JOBS
The J. M. Morgan Construction Company of Big Spring is now busy on six large construction jobs in this city. The buildings include: The Deats Estate garage building, 100x140 feet.

The R. and R. new Theaters Building, 50x140 feet.
J. W. Mitchell building, 50x109 feet.
Ray Wilcox building, 50x109 feet.
Crawford Hotel, completing interior of sixth and seventh stories.
Frank Lester building, remodeling and brick veneer; g business building.

Mr. and Mrs. C. L. Alderman of Dallas visited friends in Big Spring last week and were house guests of Mr. and Mrs. L. S. McDowell while here.

Mr. and Mrs. S. H. Morrison entertained Mr. and Mrs. C. L. Alderman at dinner last Sunday at the Crawford Hotel.

REALTY BOARD WANTS ACTION

The members of the Big Spring Real Estate Board went on record at their meeting last evening, by the adoption of a very leading and progressive resolution. A whole hearted co-operative spirit prevailed throughout the meeting but the key note of this bunch of live wires seemed to be that "we are here to work as a unit for the betterment and growth of Big Spring."

The meeting was called at eight o'clock in the office of the Chamber of Commerce with 15 members in attendance. The meeting was presided over by Chairman R. L. Cook, with Mrs. W. A. Earnest as Secretary. The Secretary reports a membership of 22. The next meeting has been called for Wednesday evening April 25th.

The following resolution was introduced by J. B. Collins and seconded by D. B. Carter and passed unanimously. The resolution:

Be it resolved, that whereas the city of Big Spring is geographically located in the heart of the Great West Texas Empire, in which millions of dollars is being expended in development and that Big Spring has had a rapid growth, until the population today exceeds 8,000, without any effort being put forth by the business and financial efforts of this community, rather the action of certain interests and individuals would indicate to the newcomer that he or she or they may not be welcome in and, that "I don't care whether you locate in Big Spring or not" air of indifference; Now, of the Real Estate Board want to go on record as bitterly opposing such an atmosphere and that we heartily welcome the new comer to Big Spring and that we believe that Big Spring will make a city of 20,000 people within the next two years, if we, the people of Big Spring, will put forth our efforts to help locate industries here, and put our shoulders to the wheel to help build an adequate office building, so that these accommodations may be used by oil companies as well as other business and professional interests.

That whereas, the City of Big Spring now has a water supply of approximately one and a quarter million gallons daily, but that we, as well as the citizens of Big Spring give the Commissioners full cooperation in helping them to increase that supply until it exceeds two and a half million gallons daily and that we recommend a funded indebtedness necessary to carry the waterproject to its full completion, in supply and in adequate distribution to all parts of the city with a reasonable rate, so that the homes of Big Spring may be beautified with lawns and shrubbery.

That action be taken by this board in cooperation with other interests in the establishment of a suitable air port for Big Spring; and we recommend that certain individuals, who are large holders of city property come out of that "dog in the manger" spirit and either help in the necessary improvement and up building of Big Spring or put a price on their property so that those who will improve may buy game.

And be it resolved that we, the Big Spring Real Estate Board acquaint ourselves with the holding prices of the undeveloped city property and place before the Equalization Board those prices so that they may establish for tax purposes a valuation that is adequate.

SCHOOL IN STYLE NOW
D. L. Barnes, head of the Commercial department of the Big Spring High School declares that High School is in style now. In that it has been visited by a thief, just as many of the business houses have already experienced. Mr. Barnes, in this instance, was the loser. Someone entered the Commercial department and took the portable typewriter. His greatest desire now is for them to return to him at an early date.

A similar stunt was pulled at the High School last year, when someone entered the building and made away with one of the standard typewriters belonging to the school.

CLUBS AND CAMP
Work was started this week on a filling station and dining room on Joe Flock's tract of land just west of Big Spring. The service station and dining hall are the first of a number of improvements to be erected on this ten acre tract.

A club house, dance hall and other amusement features usually connected with a first rate club are going to be provided under Mr. Flock's plan to organize a group of congenial citizens into a club.

A club of this nature is a fine thing for members, visitors and our city.

E. H. Josey was awarded the contract for building the filling station and dining room.

WEST TEXAS LAUNDRY CLUB TO MEET HERE APRIL 28TH
Big Spring will entertain the members of the West Texas Laundry club on next Saturday April 28. At least one hundred laundymen from all over West Texas are expected to be in attendance. Prominent men in this industry will take part in the program and much interest is being shown in the meeting.

Headquarters for the Laundrymen's convention will be at the Douglass hotel, where the visitors will assemble, and the meetings will be held. At 1:30 o'clock Saturday a banquet will be served in the Douglass Hotel Coffee Shop. During this affair, a program of interest and entertainment will be given.

BUSY ON SIX BIG JOBS
The J. M. Morgan Construction Company of Big Spring is now busy on six large construction jobs in this city. The buildings include: The Deats Estate garage building, 100x140 feet.

The R. and R. new Theaters Building, 50x140 feet.
J. W. Mitchell building, 50x109 feet.
Ray Wilcox building, 50x109 feet.
Crawford Hotel, completing interior of sixth and seventh stories.
Frank Lester building, remodeling and brick veneer; g business building.

Mr. and Mrs. C. L. Alderman of Dallas visited friends in Big Spring last week and were house guests of Mr. and Mrs. L. S. McDowell while here.

Mr. and Mrs. S. H. Morrison entertained Mr. and Mrs. C. L. Alderman at dinner last Sunday at the Crawford Hotel.

MAX MERRICK TAKING PART IN MILLION DOLLAR PROJECT
 Austin, Texas, April 17. — One student from Big Spring is taking an active part in making a success of the million dollar University of Texas Union project. It is shown in the list of students in the army of 400 who are carrying on the campus campaign, which started April 9, and continued one week.

The one from Big Spring who is taking part in this campaign is Max M. Merrick.

The objective in the drive is a half million dollars from ex-students, students, and others interested in the University and the State. This fund, supplemented by an appropriation of \$600,000 from the board of regents, will go to erect three large buildings on the campus, an auditorium-gymnasium, a woman's activity building and a student's union building, around which student and ex-student life outside the class room will center.

Tyrce Hardy who is attending A. & M. College at College Station, Texas, visited homefolks in this city the past week end.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By Rev. P. B. Fitzwater, D. D.
 Dean, Moody Bible Institute of Chicago
 (© 1928, Western Newspaper Union.)

Lesson for April 22
JESUS AND THE HOME

LESSON TEXT—Mark 10:1-16.
GOLDEN TEXT—Honor thy father and mother, which is the first commandment with promise.
PRIMARY TOPIC—Jesus Loves Little Children.
JUNIOR TOPIC—Jesus Wants Children to Come to Him.
INTERMEDIATE AND SENIOR TOPIC—Being a Christian at Home.
YOUNG PEOPLE AND ADULT TOPIC—The Christian Family.

In this scripture we see Christ as a teacher.

1. Concerning Marriage (vv. 1-12). The question touching divorce, which the Pharisees temptingly put to Christ, brought forth teaching which exhibits marriage in its true light.

1. Marriage should not be degraded by divorce (vv. 1-5). Divorce was not instituted by God. God ordained the marriage relation and intended it to be indissoluble. Moses did not originate it or authorize it, but suffered, limited and regulated it. The reason Moses even suffered it was because of the hardness of the hearts of the people. The existence therefore and practice of divorce indicates the coarseness and perverseness of man. The real cause is sin. There is no more real evidence of the blighting effects of sin in the world than the increasing number of divorces.

2. Marriage God's primal law (vv. 6-8). The ideal law of life for the subjects of Christ's kingdom is marriage. This is proven by the fundamental fact of sex. "God made them male and female" (v. 6). The union of the male and female natures is physical, mental and spiritual. In marriage the male and female natures are mutually complemented. "They twain shall be one flesh, so that they are no more twain, but one flesh." God's plan is that man should not be without the woman or the woman without the man (I Cor. 11:11).

3. Marriage has God's sanction (v. 9). When God created Eve and brought her to Adam He performed the first marriage ceremony and declared that man should leave father and mother and cleave unto his wife and that they shall be one flesh. "What therefore God hath joined together, let no man put asunder."

4. Marriage of the divorced forbidden (v. 10-12). The marriage relation should only be broken by death and sin. In response to the request of the disciples for further information He declared:

(1) "Whoever shall put away his wife and marry another committeth adultery against her."
 (2) "If a woman shall put away her husband and marry another she committeth adultery."

1. Concerning Children (vv 13-16). The union of the male and female natures, according to God's primal law of marriage, lays the foundation of family life. The normal issue of such a union is children. In connection with the divine law of marriage it is fitting that Jesus should set forth His estimate of children and show His interest in them. Those who think it beneath their dignity to give attention to children should ponder well the words of Jesus. Christian men and women will regard children as the property of the Lord and will esteem it a high and holy privilege to train them for Him. Observe:

1. Children brought for the touch of Jesus (v. 13). It is incumbent upon all parents to seek for their children personal contact with Jesus.

2. The parents rebuked by the disciples for bringing their children (v. 13). They seemed to think that attention to children was beneath the dignity of Christ, or, at any rate, they esteem children of not sufficient importance to warrant the interruption of Christ's ministry.

3. Jesus' reply (vv. 14, 15). He was displeased—really indignant at their words. He is displeased today over those who are hindering their children from coming to Him.

(1) "Suffer the little children to come unto Me and forbid them not, for of such is the kingdom of God" (v. 14). The kingdom belongs to the children.

(2) "Whoever shall not receive the kingdom of God as a little child shall not enter therein" (v. 15). Those who count themselves morally helpless, and cast themselves upon Jesus Christ, the King, really enter the kingdom.

4. Jesus' action (v. 16). He took the children up in His arms, put His hands upon them and blessed them. Christ is the Savior of children. Where Christ's spirit rules, childhood is sacred and children have great value.

ELBERT HUBBARD'S SAYINGS
 There is no such thing as success in a bad business.

Man's business is to work to surmount difficulties, to endure hardship, to overcome the inertia of his own nature; to turn chaos into cosmos by the aid of system—that is to live.

To remain on earth you must be useful, otherwise nature regards you as old metal, and is only watching for a chance to melt you over.

What a superb thing it would be if we were all big enough in mind to see no slights, accept no insults, cherish no jealousies, and admit into our heart no hatred.

The pathway to success is in serving humanity. By no other means is it possible, and this truth is so plain and patent that even very simple folk recognize it.

We need an education which fits a boy to get a living, creates a desire for more education, implants ideals of service, and lastly, teaches him how to spend leisure in a rational manner. Then we can get along with less government.

PIE SUPPER AT KNOTT NETS SCHOOL \$20.40

An old fashioned pie supper was held at the Knott school last Friday night and the affair was thoroughly enjoyed by the people of the Knott community. An interesting program opened the evening's entertainment, after which the pies were sold. The sale netted \$20.40. The proceeds will be used to build a stage in the school house, which will be used to a very good advantage in the presentation of plays and various kinds of programs.

During the World War the percentages of population taken for military service were: Russia, 12 per cent; Austria-Hungary, 18 per cent; England, 18 per cent; Germany, 20 per cent; France, 20 per cent.

GEORGE WHITE FOR COMMISSIONER PRECINCT NO. 3

We are authorized to announce George White as a candidate for the office of County Commissioner of Precinct No. 3, Howard County. He announces subject to the action of the Democratic primary, July 23, and his name appears in the announcement column of the Herald.

George White is known to most every voter in Precinct 3, and it is conceded that he is in every way qualified and competent to render efficient service in this capacity. He served two years as Commissioner of Precinct 3 and his services were in every way satisfactory. He did not make the race in 1926 because he did not believe he could devote a sufficient amount of time to the duties of Commissioner. He is now able to devote all the time the duties of the office require, and if elected, proposes to give his very best efforts to work for the best interests of the county at all times. He will appreciate the goodwill and influence of the citizens of Precinct 3, and promises to serve them faithfully and well if they honor him with the nomination in the July primary.

HUSTLE AND BUSTLE

You can't tell the size of a fire by the noise and smoke. There are people who, to hear them talk and see them fuss, one would think them the only ones on earth doing anything worth while. Look a little closer, and you find there is a good deal more wind than wheat going through their mill. There is considerable difference between "hustle" and "bustle." If people would hustle more, there would be less need for bustle. The hustler is the man who is always in a sweat either because he does not know his business or has been asleep when he should have been on the job. Hustling and bustling may look alike, but results tell. The hustler "gets there"; the bustler is just as far behind on the last lap as he is at first.—Batteryman.

The first friction match was made in 1827 by John Walker, an English chemist.

MOVE WITH THE TIMES—HAVE EXAMINATION OFTEN

Watch your symptoms to ward off disease, as you watch the clock to know the hour—remembering that your health is of far greater importance to you than any other consideration in life; it is life.

Observe some anniversary as the time to set apart for a physical examination, and get competent medical advice on the first sign of abnormal functioning. High blood pressure, hardening of the arteries, ulcers, cancers, can speedily develop and one cannot afford to ignore the possibility of having any of these or other physical afflictions. Examinations should be thorough; they should include the weight and build, the eyes, ears, nose, throat, teeth, heart and blood vessels (blood pressure), the lungs

—in fact every organ and tissue of the body that can be examined and tested by physical and laboratory methods. If no evidence of malfunctioning is discovered, one may be reasonably sure that, under desirable living conditions, no serious disease is impending.

"The censor is the salvation of the English stage. In America there is drama that would never for a moment be tolerated in England. Those who criticize the English censor have not watched things work as I have in a country where there is no censor to blue-pencil rigorously the efforts of some dramatists."—Cyril Maude

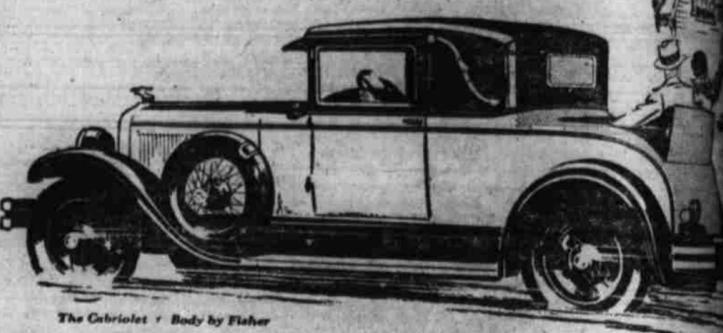

Putnam dyes Cunningham & Philips.

RAVENS KILL

Stiles, April 17. — A flock of ravens swooped down on the country by the University of Texas, eating all kinds of things that are laid out on the houses, and killing some lambs.

When the birds were going to put on the exterminate them from the country.

An American Car for Americans who love to get up and go!

The Cabriolet Body by Fisher

You know the feeling. Wanderlust . . . the urge to get up and go. To see new places and new faces. To drive as far and as hard as you like.

When you feel the urge to wander . . . that's when you'll appreciate this All-American Six . . . this staunch, powerful brute of a car . . . capable of withstanding the hardest pace.

With its big, smooth, silent engine . . . providing an abundance of drive and snap. With its rugged frame . . . its 117-inch wheelbase . . . self-adjusting clutch . . . instant-action four-wheel brakes.

Here's the very car for you when you answer the call of the road. Come in and try one. Drive it an hour . . . and you'll want it for your own.

3-Door Sedan, \$1045; Landau Coupe, \$1045; Sport Roadster, \$1075; Phaeton, \$1075; 4-Door Sedan, \$1145; Cabriolet, \$1155 (wire wheels, spare tires and bumpers extra); Landau Sedan, \$1265. New Series Pontiac Six, \$745 to \$875. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the General Motors Time Payment Plan.

See Crosley's **ICY BALL**

The Mechanical Ice Man Invents Refrigeration for the ranch, farm or city home. The Icyball is new. We presume that you have never seen one. Call at 113 W. First Street and see one in operation.

The Icyball not only keeps the food compartment cold, but dry and crisp as well.

No electricity is necessary. It may be used in a place where there is a cook stove or a campfire.

The Icyball can be used anywhere. In the city home, on the farm, in the summer cottage or in the wilds of Central Africa.

In the city it not only reduces the cost of keeping the food cold as compared with the cost of ice, but it eliminates the bother of getting the ice, the muddy tracks of the ice man and the nuisance of emptying the drip pan.

It also effects a saving of from eight to twenty cents a day in the average home.

In the country, it is a God send.

It permits several days' supply of meat to be purchased and kept fresh and wholesome.

The Icyball requires no service. There are no moving parts. There is nothing to get out of order. It is unnecessary to replace the liquid with which the Icyball is charged.

See the Icyball now on display at 113 W. First Street.

SANITATION ADDS TO PROFITS
 The farmer who knows his live- stock and makes a profit out of them provides them comfortable quarters and keeps them clean. De- stitutive parasites are more than plentiful even in the best of sur- roundings, but where the feed lots, pens, and stables are allowed to remain in a filthy condition, the damage resulting is many times greater.
 Even hogs like a clean bed and a clean bath. They wallow around in the mud only when forced into it by lack of other facilities, and during the heat of the day, or for the purpose of protecting themselves from flies and other bothersome in- sects. Cows, sheep, and goats thrive best where every precaution possible is taken by their owners. The cleaner the quarters and the more abundant the clean cool water provided for their use, the less trouble is experienced with worms, lice and other parasites which are costing livestock producers of this country many millions of dol- lars annually.
 While Farm and Ranch is a staunch advocate of balanced farm- ing with livestock as the market for home-grown feedstuffs, it wishes to lay special stress on the necessity of sanitation in the pro- duction of livestock. A neat en- vironment will respond with in- creased weight if provided with a balanced ration, clean and comfortable quarters and plenty of clean water.—Farm and Ranch.

DEVICE TO ELIMINATE STATIC PERFECTED
 A device to eliminate static, the invention of a veteran of the naval reserve who spent twenty-one years in painstaking labor and expended his small savings to perfect it, is to be installed at radio central of the navy.
 If the apparatus is as efficient as tests by navy engineers indicate, William J. Scott, erstwhile repairer of band instruments, will win a place in radio's hall of fame for an invaluable contribution to wireless communication.
 Scott's invention is the clariph- one. In 1907 he conceived the idea of producing a noise eliminat- ing machine. He was employed in the navy's band instrument repair shop and was regarded as an ex- pert in acoustics. His first ma- chines were huge, unwieldy instru- ments but he kept on working that he might place at the disposal of the navy a device that would be useful.
 Your teeth advertise your face. Cunningham & Phillips.
 Males will respond with in- creased weight if provided with a balanced ration, clean and comfortable quarters and plenty of clean water.—Farm and Ranch.

DEATH CLAIMS MRS. ROSSER
 Mrs. H. N. Rosser, 27, of Big Spring, died at a local hospital Fri- day morning at 6:30 o'clock. She had been ill for one month and was brought here for treatment Wednesday.
 The body was sent to Altus, Ok. her girlhood home, Friday after- noon. The funeral will be held Saturday afternoon at 3:30 o'clock and burial will be in the Olustee cemetery, near Altus.
 Mrs. Rosser is survived by her husband, H. N. Rosser, an oil rig contractor of Big Spring; three children, Lena Bell, Nova Faye and Marjorie Tom Rosser; her parents, Mr. and Mrs. J. T. Billington of Plainview; four sisters, Mrs. Bern- ner Felby, Mrs. Garvie Ashby, and Misses Lola and Arlie Billington, and four brothers, Cecil, Leo, Orville and Darrell Billington all of Plain- view.—Abilene Daily Reporter.

LOST! ONE CREAMERY
 A mystery as deep as one of Sher- lock Holmes's best stories prevades the air with regard to "Where Has the New Snyder Creamery Gone?" Ross J. Saveriaid of Iowa City, Iowa, came to Snyder and made an exhaustive survey of Scurry Coun- ty. He asked for nothing more than cooperation which was given him whole-heartedly, and a new brick- building was started by one of our local men. All seemed well. He said he was satisfied 100 per cent.
 Tuesday the report came that Mr. Saveriaid was moving his creamery business to Fort Worth (which had never been started here) and the air was as thick as molasses.
 The old fashioned remark of "There's something rotten in Den- mark" best explains the situation as it stands today. Some steam roller tactics have happened some place along the line.—Scurry Coun- ty Times Syndicate.

Gifts for kids parties..... Cunningham & Phillips.

GLASER BROS. GARAGE CHANGES HANDS THIS WEEK

Hereafter Glaser Bros. Garage on East Third Street, is to be known as the Automotive Grinding Company. This change was brought about this week, when the proprietorship changed hands. H. Earl Glaser bought the interest of his brother R. L. Glaser in this business and then sold one third interest in the Automotive Grinding Company to Frank W. Covert. Earl Glaser and Frank Covert will personally conduct the work at this shop and customers can rest assured that the service they receive will be high class and satisfactory in every way. Both men are experienced in their work, ranking as A-1 mechanics, and they stand behind their work. This is said to be the best equipped shop in West Texas, and is equipped with the most up to date machinery, is complete in every detail. Much money has been invested in machinery, and other equipment to make this shop rank at the top. New things are being added, all of the time, to take care of the increase in business, and to keep the shop in the ranks of the biggest and best.

R. L. Glaser has not stated his plans for the future, but he will probably be in Midland for a while. Glaser Bros. and N. R. Garza are associated in business in Midland, in the Automotive Grinding business and Mr. Garza who for sev-

Judge Wm. Smith, editor of the San Saba News, was a visitor in Big Spring Wednesday. He is an old time friend of B. Reagan. Mr. Smith is a candidate for Lieutenant Governor of Texas and his chances of winning the nomination are considered excellent.

Jose Orozco is wanted on a charge of stabbing another Mexican in this city Tuesday afternoon.

C. J. Gordon spent the past week end in Abilene on business. Bill Gordon and Tom Jordan, Jr., accompanied him on this trip.

The man who put March in our calendar knew we would then appreciate Apr.

"Sir, I have courted your daughter for six years."
"Well, what do you want?"
"To marry her, of course."
"Fine, I thought you wanted a portion or something."

There are hundred uses for Sheetrock. Maybe you need to use it in your new home. Ask us about it.

When some wives bob their hair gives their husband a permanent rave.

"What is your car, a five passenger?"
"Yes, but I can get eight in it if they're well acquainted."

We read an article the other day referring to business as cold blooded. Take the friendship out of business and there isn't much business, is there?

There is no law requiring you to trade at home but the law of common sense. The home merchant is in a better position to give you quick service than any one else.

"What is that has four legs, stands in a barn and can see equally well with both ends?"
"A blind horse."

Work faithfully for eight hours a day and
Don't worry. Then in time you may become the boss and work 12 hours a day and have all the worry.

Put good buildings on a place and it becomes a farm. Before that it is just a piece of land.

No man, moths do not eat holes in garments. They eat the cloth and leave the holes, but not if the closets are lined with aromatic red cedar.

A properly stuccoed house preserves its new appearance indefinitely. We handle the famous ORIENTAL stucco.

—announcing the "Maiden Edition" of

The Daily Herald

for Sunday, May, 6, 1928

remendous development program which is pouring millions into the Great West Texas Empire has whispered courage to the desolate heart of the vast undeveloped — communities which are despair, gaunt, creaking, and rheumatic, NOW feel the throb of and forgotten ambitions sped from branch to branch of harking them back to duty, until every business twig of the community gave answer to the call of PROGRESS and GROWTH

Spring is now a city of more than eight thousand people—right in the heart of this Great Empire—its growth is healthy and its FUTURE assured—and, with a citizenry that is a master of progress, should make a City of more than 15,000 during the next two years.

HERALD is keeping PACE with that progress.

ing to the people of Big Spring a modern daily newspaper is an important step forward—it will open the avenues of progressive thinking to the Big Spring business houses—it will give a serious readers in the distribution of the worlds' daily happenings and its pages will reflect the BUSINESS, FINANCIAL and SOCIAL LIFE of Big Spring.

SUBSCRIPTION TO THE DAILY IS EARNESTLY SOLICITED—IT WILL HELP YOU—IT WILL HELP US AND HELP BIG SPRING'S PROGRESS

DAILY HERALD will be published every evening and Sunday morning—there will be no paper Saturday evening. (The Big Herald (weekly) will continue just the same as always.) DAILY HERALD will have the Associated Press news service, the best news service in the in the world. This news service will be furnished by the N E A feature service and a number of corresponders covering the Big Spring trade area.

The investment in new equipment is heavy—The DAILY HERALD will start off with two typesetting machines. A model 14 type and a S-M-2 Intertype, equipped with new faces for heads and display ads up to 36 point. The press is a Model B Duplex. Capacity of printing, direct from a roll, 5,000 to 6,000 complete eight-page papers an hour, all folded and ready for the news-

you will mail or bring in your subscription with a check it will be appreciated—your subscription will be dated to start June first—By May we will give you the paper FREE, so that any trouble may occur in having the carrier boys find you or in getting the printing room working will be ironed out before the time starts on your subscription.

Fill out the coupon below and mail or bring it to the office—If you will add a check paying a year in advance you will receive our most cordial thanks.

CANADIAN MINE GAMBLERS CRASH

Sustain Heavy Losses as Bubbles Burst—Industry Now Safe.

Toronto, Ont.—The gilt is off the gingerbread for thousands of Canadian speculators in mining shares owing to a slump in prices that has been under way for three months. Paper profits of \$200,000,000 have disappeared in thin air during that period.

The mines and prospects are just as good as they were three months ago, so the investors blame the professional bears for ending the market by short selling, but the fact is that the bears seem to have been performing a useful function by introducing a needed element of sanity into speculation. Prices had reached a point where they were quite out of line with prospective dividends. Some of the best mines were giving the investor a return of only 2 per cent or less. Apparently no holder of stock wanted to sell. If the bears had not appeared on the scene prices would have been bid up and up with the sky as the limit.

Gold Mine Declines.
Hollinger, Canada's premier gold mine, has declined from a high valuation in 1927 of \$111,000,000 to \$83,000,000, a loss of \$28,000,000, and Hollinger has not been one of the speculative favorites.

The three big mines of Kirkinand Lake have lost \$200,000,000 as follows:

	High 1927	Present Value
Lake Shore	\$27,235,000	\$12,000,000
Wright-Harvey	\$4,000,000	\$2,000,000
Teck Hughes	\$68,000,000	\$69,000,000

Noranda, the new copper-gold mine of northern Quebec, which is now a producer of copper on a large scale, has declined from \$61,000,000 to \$39,000,000, a loss of \$22,000,000. Annet, a neighboring prospect, has had its valuation cut in half for a loss of \$7,000,000. Nipissing, king of the silver mines also had its valuation cut in half for a loss of \$6,000,000.

Losses in the smaller fry, the "cents and dogs," have been proportionately even more severe, and it was in these that the most widespread casualties among speculators occurred.

Smile at Losses.
Fortunately there has been no acute suffering. Except in isolated cases there has been no complaining. Margin speculators have either taken their losses and forgotten them or they have taken up the stocks and put them away pending fairer skies. There has been no suggestion of a panic.

Unfortunately there is no evidence that the mining mania has been cured. The other day a new stock appeared on the eastern exchanges. It bore the romantic name of Pond Oreille. For a while it kicked around at a few cents a share; then it jumped to \$8, to \$16, to \$25. "Where and what is Pond Oreille?" some of the actual purchasers of shares began to ask. They learned it was not even in Canada but some thousands of miles away across the border in the state of Washington. It was supposed to have rich ore in base metals and gold and big interests were said to be buying it. As for information in the possession of speculators there was none. A public so receptive may easily have a more severe lesson coming to it.

That Canada is only on the threshold of enormous mining development is, however, obvious. At the moment attention is turned away from gold and silver to base metals. While \$200,000,000 has dropped from valuations of older mining companies, other millions have been appearing. In Flon in northern Manitoba has come on the market under the prosaic name of Hudson Bay. So has its neighbor, Sheritt Gordon. These are to be producers of copper, zinc and gold. It is said their combined ore "in sight" is valued at \$500,000,000.

New Claims Promising.
In the Sudbury nickel district immense new bodies of copper, zinc, lead and nickel have been blocked out. The Freed deposit which is on the properties of the International Nickel company and the Mond company of England, is said to be one of the greatest bodies of ore in the world. It contains copper and nickel and platinum and may be worth anything from half a billion up. New stars have appeared in the Armand, Treadwell, Yukon, Sudbury Basin and others. They have lead, zinc and copper. The public is scrambling for their shares.

Away off in Newfoundland Canadian interests are consolidating claims which cover another immense lead, zinc and copper deposit. It is in the heart of the island and is valued at something between \$100,000,000 and \$200,000,000.

When one adds the known deposits of the Sullivan lead, zinc and copper mine in British Columbia, valued at some \$50,000,000, there is in these half dozen base metal properties a valuation of more than \$2,000,000,000, conversion of which into liquid wealth, except in the case of Sullivan, has not yet begun.

Every mining camp in the country is seething with activity.

Hearty Breakfast
Cleveland, Ohio.—If Ohio hasn't a champion pancake eater, it isn't because of fault with efforts of John Plummer, twenty-three, South Lorain, Ohio. For breakfast Plummer had 88 pancakes, consumed in an impromptu competition with Patrick Joyce, twenty-six, Chicago, at a restaurant here. Joyce gave up after bolting 72 cakes.

**UNSEEN CREATURES
KEEP WORLD ALIVE**

Every time you put your foot on the earth you step on hundreds of millions of your partners.

We used to think animals and insects and plants were the only living things in the world. Now science has discovered that under almost every square foot of ground are more living inhabitants than the entire human population of the globe. Living and working and multiplying for centuries before the forms we know as animals and plants ever appeared, they form a living world in themselves upon which the larger forms of life developed. And new studies have revealed that without the work of the whole underground world all the plants and animals we know about would quickly die—and so would we!

They would starve to death because they could not get any food they could digest. Without the work of the tiny citizens of the soil as butchers and chefs the plants would be helpless writes Myron M. Stearns in Popular Science Monthly.

This whole marvelous field of knowledge, which is changing our understanding of man's entire relationship to the world about him is so important that the First International Congress of Soil Science has been held in Washington, D. C. with foremost scientists of all the great nations attending and with one of America's leading soil scientists Dr. Jacob G. Lipman as president. It received no headlines in newspapers, yet it dealt with a subject so important that the slightest change in balance may bankrupt nations, change the history of races or cause the death of untold human beings through disease in a single year!

"Since there is only a limited amount of plant food in the world, the continual return of plant and animal forms to the earth is absolutely necessary for further life and growth," Dr. Lipman explains. "Most people think of the process simply as decay or decomposition. But it comes about only through the presence of the micro-organisms and is solely their work. Whenever they are killed off, or not present, it does not occur."

"All plants, insects and animals are composed of fats, sugars, proteins and other ingredients. After they die and before they can be used as food by other plants they have to be broken down into their simple chemical constituents; the proteins have to be separated into amino-acids and so on. With the

SWEETENED WIND

A country swain and his sweetheart wandered hand in hand along the main street, circus day, absorbing the wonders of city life! They paused to watch a dapper young man in a white coat manipulate a soda fountain. They ambled in and after a good deal of hesitation, ordered a raspberry fizz. So absorbed did they both become in the foaming goblet that they forgot the purpose of the liquid, and as the boy saw it subside to an inch of pink fluid in the bottom of the glass, he said with disgust: "See here, mister, this is a lake in. It's nothin' but sweetened wind." There is a good deal of sweetened wind about. There are plenty of people who try to pass off smiles for dollars and honied words for truth. They move complimentary resolutions and pass compliments to save their pockets. They go around with a pocket-full of sugar sticks for those out of whom there is a prospect of making something. Preachers and newspapers enjoy a following of this kind that would make them fat, if wind could be depended upon to pay wages and grocer bills.—Batteryman.

**DR. ORA E. ESTES JOHNSON

Elliot Bldg. Rannels St.
—241f.

ingredients into which they separate organic matter the micro-organisms mix various necessary minerals from the particles of the soil.

"Every dried leaf, every corn-stalk, every particle of organic matter from which life has departed has been temporarily 'with-drawn from circulation.' If it were not restored to circulation, the whole volume of material available for new life would be lessened. After a while we would have only on earth piled high with dead and useless substances."—Dallas News

SUNDAY MAIL FOR LAMESA

A temporary contract has been made with the Red Star Coaches by which first class mail only is brought from Big Spring to Lamesa on Sunday. The new contract became effective April 15th. According to Postmaster J. D. Dyer of Lamesa this is the first time first class mail has been received on Sundays since the few months in 1926 when the star route was in operation between Lamesa and Lubbock; this service was terminated in February 1926. Lamesa has had a Sunday dispatch of first class mail the past two years.

JONES GET READY

Jones county, one of the wealthiest and most prosperous in Texas, is to call a road bond election soon to vote on issuance of \$1,385 to take up outstanding districts issues, take care of lateral roads, and pay the county's part in the paving of the cardinal roads in that county.

Those familiar with the situation in Jones county predict the bonds will be voted.

If this is done it will place Jones where she properly belongs—in the list of good roads counties of Texas, right up near the top.

It would also give encouragement to a good many other Central West Texas counties, and lead to the construction of good roads in a number of them.—Abilene Reporter.

Howard county is going to make a noise like getting ready to build more permanent highways in the near future.

HE GOT HIS

Ted—What is that scar on your forehead?
Fred—Birth mark.
Ted—But it looks like an old wound.
Fred—So it is. You see I accidentally got into the wrong berth.
Paint and Lacquers Cunningham & Phillips.

CONSCIENCE MAKERS

Some of the "whited sepulchres" who today judge their neighbor in the matter of their inward or outward life are not a whit less deserving of the scathing denunciation that fell from the Master's lips when He said: "Ye serpents, ye generation of vipers, how shall ye escape the damnation of hell?" Men who complacently stir their toddy on the "Sawbath" roll their eyes in holy horror at the iniquity of those who desecrate the day of rest by using the same hot water-rest by a shave. The world is full of busybodies who run about with their little human foot rule, measuring by the shrunken standard of their own jaundiced ideas the rights and wrongs of their neighbors. "Judge not, that ye be not judged." Narrow-minded "judges" have done more to sicken the world of religion than all the mouthings of infidelity. The charity that "thinketh no evil" is a jewel so precious that it ought to be sought with eternal diligence by those who value a conscience "void of offence toward God and man."—Batteryman.

I. D. Eddins and wife of Big Spring are here occupying a cottage in the park. Mr. Eddins, who is a Confederate veteran, was formerly shop foreman in the T. & P. car shops, but is on a pension and retired for long and faithful service. He is favorably impressed with our town and people.—Christoval Observer.

Heap of gals run from a mouse, but they are not afraid to park in the dark parlor with the lounge liards.

BASTILE "BOARDERS" TO JOIN CHAIN GANG

Friday, the 13th, was hard on "boarders" in the city bastille. No longer will they idle away their time with a magazine and cigarettes. Last Thursday the city commission adopted Police Commissioner Ferguson's plan for a city chain gang, to begin operations Monday at the city cemetery. The prisoners will cut weeds, grade driveways and do other work such as C. McDonald, construction superintendent, shall dictate, until their fines are liquidated at the rate of \$1 a day, board and lodging.

"Something should be done with transients seeking a soft time in Abilene," Mr. Ferguson said. "One such fellow said that he came to Abilene to get a reservation in our jail, in order that he might get a good rest. Several days of work, with a chain attached to the worker's leg, will do a lot to give our habitual drunkards and gentlemen of leisure more ambition."—Abilene Reporter.

Frequent Bilious Attacks

"I suffered with severe bilious attacks which came on me two or three times every month," says Mr. Ollie Miller, of Murray, Ky.

"I would become dizzy. My head would ache terribly, feeling as if it would almost burst. It felt exactly like a tight band was being drawn closer and closer around my temples.

"My stomach would be so upset I could not retain any kind of nourishment for hours. I would have to quit work and go to bed.

"My color was awful. I was yellow and my skin was drawn and dry. I did not have any energy—no ambition to work. I was just about half sick most of the time because of these spells.

"I got some Black-Draught and began to take it regularly until I got my system clear of the poison I had been absorbing. I soon began to feel better and developed a fine appetite. I had no more bad headaches or bilious spells."

THE FORDS BLACK-DRAUGHT
Purely Vegetable

Millions of Model T Fords are still in active service

FOR nearly twenty years, the Model T Ford led the motor industry and it still is used by more people than any other automobile. More than eight million Model T Fords are in active service today—an indication of their sturdy worth, reliability and economy.

Because of the tremendous investment which people have in these cars and because so many of them will be driven for two, three, and even five more years, the Ford Motor Company will continue to make replacement parts until, as Henry Ford himself says, "the last Model T is off the road."

For the Ford Motor Company has always believed that its full duty consists not only in making a good automobile at a low price, but also in keeping it running efficiently for you as long as possible at a minimum of expense.

No matter where you live, therefore, you can still buy Model T Ford parts with the same assurance as formerly, knowing that they will give you the kind of service you have a right to expect, and at the same time protect the money you have invested in your car.

All Ford replacement parts, as you may know, are made of the same materials and in the same way as those from which your car was originally assembled, and are low in price because of the established Ford policy.

So that you may get the greatest use from your Model T Ford over the longest period of time, we suggest that you take the car to the nearest Ford dealer and have him estimate on the cost of any replacement parts which may be necessary. You may find that a very small expenditure will maintain the value of your car and will be the means of giving you thousands of miles of additional service.

FORD MOTOR COMPANY
Detroit, Michigan

ROTARY CLUB NOTES

One of the most interesting meetings the Rotary club has enjoyed since its organization was in order Tuesday. An especially splendid luncheon by the ladies of the Episcopal church started the meeting off right.

Rev. Dow Heard was in charge of the program and had enlisted some real speakers to give the news on Big Spring and its future.

B. Reagan was assigned the subject, "The Outlook for Big Spring from a Banker's Viewpoint," and according to Mr. Reagan's summing up Big Spring was over the hill and on the way to make a large and prosperous city.

J. Fred Phillips told of the "Outlook for Big Spring from a builder's viewpoint," and stated that the wonderful building program enjoyed during the past year was just a forerunner of what is to take place when Big Spring begins to profit more from oil development.

Edwin A. Kelley made a brief talk, giving the "Outlook of Big Spring from the Ice-man's Standpoint," and stated his company, the Southern Ice and Utilities Co., was showing its faith in the future of Big Spring in its \$200,000 improvement program now underway in this city.

A. J. Crawford stated that he had every faith in the future of Big Spring and would not have erected the 150 room Crawford Hotel if he had any doubts as to its future.

F. D. Croft, district superintendent of the Boy Scout Movement of this district was a visitor. The following members of the Rotary and the following Rotary Annals will attend the big district Rotary Convention at Lubbock April 19 to 21st.

Mr. and Mrs. J. Fred Phillips, Mr. and Mrs. Geo. L. Wilke, Mr. and Mrs. Tom W. Ashley, Mr. and Mrs. E. E. Fahrenkamp and H. L. Rix.

EXPRESS COMPANY BUSY The office of the American Railway Express Company in Big Spring enjoyed the largest amount of business during the month of March that has been recorded, since the express company has maintained an office here.

Gifts for kids parties... Cunningham & Phillips.

NOTICE

SHERIFF'S SALE

THE STATE OF TEXAS, COUNTY OF HOWARD. By virtue of an Order of Sale, issued out of the Honorable District Court of Howard County, on 10th day of April, A. D., 1928, by the clerk thereof, in the case of T. H. Johnson, versus O. G. Kirklint, No. 1183, and to me, as Sheriff, directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's sales, on the First Tuesday in June, A. D. 1928, it being the 5th day of said month, before the Court House door of said Howard County in the city of Big Spring, Texas, the following described property, to-wit:

out of and part of Section Nos. 12 and 13 in block No. 33, Township 1 South, T. & F. Ry. Company Surveys in Howard County, Texas, and described as follows: Beginning at the point in West line of said section 12; 1200 feet Northward from the S. W. corner of said Section No. 12, same being in center of Big Spring and Garden City road; Thence S. 13 deg. E. along the West line of Section 12 and 13, 3170 ft. to point in West line of said Section No. 13 for corner; thence N. 77 Deg. E. and parallel with the North and South lines of said Sections 12 and 13, 1320 ft. for corner; thence N. 13 deg. W. and parallel with the East and West lines of said Sections 12 and 13, 650 ft., for corner; thence N. 77 deg. E. and parallel with the North

and South lines of said Sections 12 and 13, 330 ft. for corner; thence N. 13 deg. W. and parallel with the East and West lines of said sections 12 and 13, 1320 ft. for corner; thence S. 77 deg. W. along North line of said Section 13; 330 ft. for corner; thence N. 13 deg. W. and parallel with the East and West lines of said Section 12, 1200 ft. for corner; thence S. 77 deg. W. and parallel with the north and south lines of said Section 12, 1320 ft. to the place of beginning, containing 106 acres of land more or less.

Levied on the 12th day of April, A. D., 1928, as the property of O. G. Kirklint to satisfy a judgment amounting to \$7460.00 in favor of T. H. Johnson.

Given under my hand, this 12th day of April, A. D. 1928. Frank House, Sheriff, by J. O. Tamsitt, Deputy.—31-3t.

FORMER RESIDENTS UNABLE TO FIND ANY LANDMARKS

Mr. and Mrs. George Parks of Wichita, Kansas, were visitors in Big Spring several days last week. Mrs. Parks will be remembered by old timers in this city as Miss Minnie Lutterloh. Her father was a rancher in Howard county, having owned land just south of the Coffee place, north of town Mrs. Parks was a music teacher in this city.

Mr. and Mrs. Parks made this trip to Big Spring just to see our city. Mrs. Parks has been gone from here over twenty five years and she stated that she had often wanted to come back and see Big Spring. It was her pleasure to visit with many of the old timers, whom she remembered while in Big Spring. The friends she knew had not changed, but the town certainly had, Mrs. Parks stated. It was difficult to find a familiar spot, because all of the old landmarks have been removed, and given place to beautiful and up to date business buildings. Mrs. Parks was amazed at the growth of our city. Mr. Parks is Vice President of the United Sash and Door Company at Wichita Kansas.

GARBAGE DISPOSAL NEEDS ATTENTION

It has been suggested that our city consider the proposition of installing an incinerator. From all accounts the city dump ground is full to overflowing and something must be done toward solving the disposal of the city garbage. It does not seem just the best thing in the world to dump all the city's rubbish in a heap to make a magnificent and permanent breeding place for all kinds of disease germs. In this section, where the playful breezes are convicted of blowing the dread pink bollworm from one section of the state to the other, it is reasonable to assume that the same breezes might be able to scatter a few flu, typhoid, small-pox or other disease germs which find a home in the city dumpings. At any rate it is not adding anything to the health insurance of our city to have this dumping ground right at our door.

We do not know the cost of an incinerator, but we do know what serious epidemics cost our city and citizens, and from past experiences it is certain that an incinerator would be a good investment. Anyway it is a matter that deserves consideration. Extending the sewer system to all parts of the city and solving the garbage disposal proposition are matters of great import to our citizenship.

OFFICIAL AT LITERARY MEET
George Gentry, a member of the Big Spring High School faculty, was in San Angelo last Friday and Saturday, where he acted as an official in the Literary events of the Interscholastic Meet of the 17th district.

Miss Helen Dudley of Abilene was the guest of J. W. Bradley and family the past week.

TELLS ABOUT WORLD'S FIRST AUTO TIRE

"The highly developed automobile tire of today," says J. E. Price of the Auto Supply Company, and local distributor of Michelin tires, "bears small resemblance to its forbear, the world's first pneumatic automobile tire introduced by the Mitchell Brothers in France, as long ago as 1895.

"That tire was a big affair, over four feet in diameter though little larger in cross section than a modern motor-cycle tire. It wasn't much to look at; and the few car builders of the day were not willing to try it out. So to prove that the tire would actually support a car, the Michelin Brothers built a car for it—and then entered the car in the Paris Bordeaux race in 1895.

"The car was a ramshackle affair, built of a tiny Peugeot motor and a pick up chassis. A good wind would probably have damaged it. Except for its pneumatic tires, it would surely have been knocked apart by the impact of the road. But, thanks to the pneumatics, it held together. In fact for brief periods it attained the then hair raising speed of 30 miles an hour.

"It did not win the race, for there were dozens of blowouts on the way, not to mention several fires from short circuits. But nevertheless the event proved that pneumatic tires were practical.

"That was the real beginning of the automotive industry."

Dr. West's tooth brushes
Cunningham & Phillips.

EVERY COMMUNITY NEEDS A HEALTH CENTER

A health center is an organization which provides, promotes and co-ordinates needed medical service and related social service for a specified district.

During recent years there have grown up, not only clinics doing preventive work under health department auspices, but many small clinics unattached to hospitals generally doing preventive rather than curative work. These are sometimes pre-school or dental clinics under the auspices of a local organization like a settlement or a church—sometimes baby welfare stations or prenatal clinics under the health department or a private city-wide organization. A few do chiefly curative medical work.

It will be well when Big Spring organizes a health center for this community.

GARDEN CITY STUDENTS WIN IN DECLAMATION

Mrs. Jewel Dunn, Mr. and Mrs. J. B. Ratliff, Mr. Henry Currie, P. A. Cox, John Christie Ratliff, J. R. Ratliff, Jr., and Miss Edith Currie all of Garden City, attended the District Interscholastic meet held in San Angelo last Friday and Saturday, April 13 and 14. J. B. Ratliff, Jr. won second place Miss Edith Currie won third place and John Christie Ratliff won fourth place in the declamation contest.

E. J. Berry who has been on the sick list the past two weeks, was able to report to work the fore part of this week.

ATTEND BANQUET AND MEETING IN MIDLAND LAST WEEK

The officers and members of the Local Union No. 482 of Painters, Paperhangers and Decorators went to Midland last Thursday night to attend a regular meeting of the Midland union. They were also guests at a banquet given at the Minute Inn. A delicious four course dinner was served. Paul T. Vickers secretary of the Midland Chamber of Commerce made an interesting talk to the group. About twenty members of the local union attended this entertainment in Midland.

NO APPARENT REASON

Tit Bits: "My husband has disappeared," the excited wife told the inspector at the police station. "He just walked out and hasn't come back. Here's a picture of him. I want him found at once."

The inspector studied the picture. Then he looked up at the woman. "Why?" he asked.

Mrs. Miller Harris who is attending Simmons University at Abilene, spent the week end in this city with her parents, Mr. and Mrs. J. B. Pickle and family.

WEIGH YOUR BABY CUNNINGHAM & PHILIP'S FREE BABY SCALE SERVICE

WAYNE COOK HEADS STUDENT BODY AT McMURRAY

Wayne Cook, son of Mr. and Mrs. J. W. Cook has been elected to serve as president of the Students' Association of McMurray College, Abilene, in 1929. Wayne is a Junior at McMurray College at Abilene and since his entrance in the college, he has made an enviable record. He is one of the most popular students on the campus, and is active in all of the student and college organizations. Wayne is a graduate of the Big Spring High School, and while he is making a record for himself, he is also adding laurels to the Big Spring High.

TALKING MOVIES MAY SHOW CANDIDATES

New York, April 17.—The people of the United States will know the figure and voice of the president they elect next November not only through the moving pictures and the radio, but through talking movies, if plans of the new RCA photophone announced by David Sarnoff, president, are carried through. Work is being rushed, Sarnoff said, to enable theatres throughout the country to present talking movies throughout the campaign showing the candidates in action and presenting their arguments in their own voices.

C. C. Wyatt who has been confined to his room the past three weeks is now able to be up and about.

"PUT MONEY IN THY PURSE"

Shakespeare inspires Iago to say—"Put in thy purse" in a way that makes you want the command.

It's a good thing to put money in your purse if you can do it honorably. PIGGLY WIGGLY is an honorable way for you to do it by saving on your groceries, vegetables and fruits.

In the PIGGLY WIGGLY store you go behind the counters. You wait on yourself what you buy and take it home.

You will easily understand why PIGGLY WIGGLY prices are so much lower than other charge for the same goods. Clerk and delivery bookkeeping and collection expenses have to be overcome. You get the benefit of the savings.

You have no idea what a difference there is on a month's food purchases. Many women say they have cut their grocery bill \$10 to \$40 per month.

Buy your groceries from PIGGLY WIGGLY one month, and you will never again go back to the slip-shod method of supplying your table.

WHAT'S DOING IN WEST TEXAS

Alanreed—The chamber of commerce is meeting every Tuesday to care for the pressing needs arising from oil development here.

Carlton—The annual Carlton Fat Stock Show was held April 13 and 14, with large attendance from neighboring towns.

Quannah—The Greenbelt—Lower Panhandle district convention of the West Texas Chamber of Commerce convenes here May 14.

Lawn—W. L. Hughes of A. & M. College spoke at a recent mass meeting of Lawn citizenship on problems of rural education.

Clarendon—April 30 and May 1 have been set as dates for raising funds to take the local band to the WTCC Fort Worth convention.

Apermont—Material is being placed on the ground to erect a new building covering four lots.

Stamford—Newspaper editors all over West Texas will be guests of the West Texas Chamber of Commerce at breakfast June 18 in the Fort Worth Club.

Slaton—The Slaton Slatonite has been sold by Mrs. Bessie M. Donald to J. L. Nunn of Amarillo, D. D. Roderick of Lubbock, and T. E. Roderick of Tulsa, Okla.

Alvord—A fifty by seventy mill house is to be erected here.

Weatherford—The Weatherford Chamber of Commerce is offering a scholarship to the Texas Business College, Weatherford, in the "My Home Town Contest" of the West Texas Chamber of Commerce.

Memphis—A new telephone switchboard is expected to be in operation here by July 1.

Lampasas—J. R. Key, a director of the West Texas Chamber of Commerce, has offered to pay all expenses of the boy or girl representing this city in the annual "My Home Town Contest" at Fort Worth.

Claude—Mains have been completed at Claude for natural gas.

Wellington—The Wellington band is rehearsing in order to be in trim for the WTCC annual band contest.

Fort Stockton—A modern brick business building is under construction here by Tom Talley.

Blackwell—New machinery for the Blackwell ice factory is being installed.

Lamesa—The South Plains district convention of the WTCC meets here May 10.

Pampa—A new carbon black

plant is being established in Pampa
 Rotan—A water extension move-
 ment is underway in Rotan to be
 completed during the summer.

Rising Star—A luncheon club,
 auxiliary to the chamber of com-
 merce, has been formed at Rising
 Star.

 poultry Cunningham &
 Phillips.

SAFETY TRAFFIC LAW
 The following, we are assured, is
 from the pen of G. C. Schink, direc-
 tor of traffic of the Detroit police
 department and is suggested as the
 code for all drivers during 1928.
 "When I am driving on a street
 Where little folks I'm apt to meet
 Who dash across the street in play,
 I hope I'll drive in just the way
 That I would drive if mine were
 there

Upon the crowded thoroughfare,
 It's a good code of conduct, and
 any motorist who has children of
 his own, or little brothers and sis-
 ters of his own, or friendly little
 neighbor children, or little nieces
 and nephews, will adopt it whole-
 heartedly.
 After all, the Golden Rule is the
 only safe traffic law.—Abilene
 Reporter.

Insect killers of all kinds

VENIRE OF 100 IS ORDERED IN CASE
 Orders to prepare a venire of 100
 men from which to select a jury to
 try Lee Smith, accused of murder,
 have been issued by Judge Milburn
 S. Long of 42nd district court.
 Smith is to be tried in Judge Long's
 court April 30.

The defendant was placed in the
 county jail here Thursday after being
 brought to Abilene by Sheriff
 H. T. O'Bar from Big Spring.—

 ments."—Ex.

CHILDREN'S FATAL DISEASES
 Worms and parasites in the in-
 testines of children undermine
 health and so weaken their vi-
 tality that they are unable to re-
 sist the diseases so fatal to child
 life. The safe course is to give
 a few doses of White's Cream
 Vermifuge. It destroys and expels
 the worms without the slightest
 injury to the health or activity of
 the child. Price 35c. Sold by

PANTHER DRAW NOTES
The farmers have started planting.

Miss Crow will finish her extra month's school this week and return to her home at Milford.

J. J. Phillips has been sick with flu.

Mrs. Graves and Miss Edna left Thursday for San Marcos, Miss Edna will take a six weeks' study course.

Mr. and Mrs. Hart Phillips are vacationing at Glen Rose.

Mr. Isom Carr spent Saturday night at home.

Mrs. Harting of Stanton is visiting her daughter Mrs. Carr.

Mrs. J. C. Phillips Emey and Mrs. W. B. Yeals left Thursday for several days visit in East Texas.

The B. Y. P. U. program committee met Wednesday night at Helen Green's.

There will be a B. Y. P. U. social Friday night at the school building. We will have East Third B. Y. P. U. of Big Spring with us.

Brother Washington preaches Sunday morning and night. Sunday school 10 o'clock. B. Y. P. U. 7:30. Come we need you.—Reported.

DEPUTY SHERIFF IN HOSPITAL
Oscar Bass of Coahoma, deputy sheriff of Howard county, who was injured when a quantity of bootleg booze, exploded when a carelessly tossed lighted match came in contact with the hootch, in the jail at Colorado several weeks ago, is still confined in a hospital at Colorado.

Physicians say it will be six months before he recovers from the serious burns he received. Four were burned in this explosion, one of the injured died a few days after the accident.

Mrs. W. G. Mims spent the last week end in Abilene, returning to this city with a handsome new Buick automobile, which they recently purchased.

NOTICE
THE STATE OF TEXAS:
COUNTY OF HOWARD:
TO THE SHERIFF OR ANY
CONSTABLE OF HOWARD
COUNTY, GREETING:
You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of this notice in the County of Howard, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication, before the return day hereof.

NOTICE IN PROBATE:
THE STATE OF TEXAS:
To all persons interested in the welfare of the Estate of L. B. Ellison deceased, and all heirs of the said L. B. Ellison, deceased:
You will take notice that L. B. Ellison is Dead and that on the 4th day of April A. D. 1928, James T. Brooks was appointed temporary Administrator of the Estate of L. B. Ellison, deceased, said appointment being made by the County Court of Howard County Texas and such appointment if not contested, will be made permanent at the next term of said Court.

Therefore, you and all of you are cited to appear at the next term of the County Court of Howard County, Texas, commencing the first Monday in June, A. D. 1928, same being the 4th day of June, A. D. 1928, in the Court House of said county in Big Spring, Howard County, Texas, at which time all persons interested in the welfare of the Estate of L. B. Ellison, deceased, may appear and contest such appointment should they desire to do so.

Herein fall not, but have you then and there before said Court this writ, with your return thereon endorsed, showing how you have executed the same.

Given under my hand and seal of said Court this 19th day of April, A. D. 1928.

J. I. Prichard, Clerk of the County Court of Howard County, Texas.—31-21.

ORDER OF SALE
State of Texas:
County of Howard:
By virtue of an order of sale and execution, issued out of the District Court of Howard County, Texas, on a Judgment rendered in said court on the 25th day of February, A. D. 1928, in favor of Joe B. Neel vs. J. T. Bosworth, in the cause of Joe B. Neel vs. J. T. Bosworth, No. 1176 in such court, I, Frank House, Sheriff of Howard County, Texas, did on the 7th day of March A. D. 1928, at 2 o'clock P. M. levy upon the following described tract and parcel of land situated in the County of Howard and State of Texas as the property of the said J. T. Bosworth:

An undivided 1-2 interest in and to lots Nos. 7 and 8 in block No. 4 in Tennyson's Addition to the town of Big Spring in Howard County, Texas.

And on the first day of May, A. D. 1928, same being the first Tuesday in said month, between the hours of 10:00 a. m. and 4:00 p. m. on said day at the Court House of said county in Big Spring, Texas, I will offer for sale and sell at public auction all the right, title and interest of the said J. T. Bosworth in and to said property to satisfy said judgment.

OIL OFFICIAL VISITING OIL FIELDS
T. M. Selby of Merita Ohio, has been here this week to make an investigation of the oil fields south-east of Big Spring.
Mr. Selby is president of the Selby Oil and Gas Company of Tulsa, Oklahoma, and it is thought the company plans to acquire some property in this section.

Write Clyde Cook, Big Spring Texas

This the 11th day of April A. D. 1928.
Frank House, Sheriff of Howard County, Texas.
By A. J. Merrick, deputy.

Big Spring is without a doubt the busiest place in the world. If you doubt this just you try to line up a big delegation to attend an important convention or a good will trip and see how many business men you can sign up. Just too busy to get away is the way nine-tenths of them turn you down.

Mrs. James T. Brooks and baby daughter spent the past week end in Sweetwater visiting Mrs. W. R. Carr and Mrs. S. H. Kelsey.

Mrs. T. E. Paylor and children spent the week end in Abilene visiting Mrs. Paylor's sister Mrs. Ira Dorton.

F. R. Fletcher and of Pasadena, California, after a pleasant visit in this city with her sister, Mrs. A. R. Ka-anah, have returned to their home. They also visited other relatives while in Texas.

Mrs. W. F. Fahrenkamp and her daughter, Billie Mae spent the Easter holidays visiting relatives in El Paso.

Watch for the messages on our new electric billboard.—First Christian church.

Don't forget the masquerade party First Christian Church Friday night April 20th.

A. C. Shumake has bought of E. H. Josey, a Better Home recently completed by Mr. Josey.

A friend says the days are so short that the ink doesn't have time to dry on a thirty day note before it falls due.

We need more men who are unselfish enough to devote some time to aiding the community.

Miss Bill Preston of Midland visited relatives and friends in the city this week.

Bill Nabors has been on the sick list the past week.
