VOL. 12, NO. 36

MATADOR, MOTLEY COUNTY, TEXAS, THURSDAY, NOVEMBER 27, 1947

PRICE 5c

## Cotton Harvest Is Over 10,000 Bales

### ROARING SPRINGS TO HAVE THREE NEW BUILDINGS

Material is on the ground and construction has started on three new brick buildings in Roaring Springs. One building, being constructed by M. S. Thacker, will be located between the city hall and Spring theatre. It will be 26 feet x 30 feet in size and when completed, will be occupied by the City Cleaners.

Two 25x90 brick buildings will be constructed immediately to the left of the city hall. Mr. Thacker is building one of the structures while the other is being built by "Pumper" Green.

Mr. Green recently started a new building to the left of the Masonic lodge, which he sold to J. R. Cooper. The Cooper Variety will be moved to the building when it is completed.

### Plenty of Pickers Are Now Available

Despite recent inclement weather, Motley county's 1947 cotton crop has already ginned 10,077 bales according to a survey made yesterday noon by County Agent J. R. Emmons. He said cotton farmers and ginners estimate that harvest of the crop can be completed within two weeks of fair weather. Mr. Emmons declared that estimates indicate approximately 2,000 bales of cotton still remain in Motley county fields.

Largest ginning in the county was reported from the Gilbert gin at Flomot which has ginned 2,528 bales this season. Total Motley county cotton crop last year was 4,090 bales.

Mr. Emmons said that pickers are plentiful and it is believed that no further shortage will be faced before the harvest is completed. He has only had one request for pickers this week.

Winds and sunny skies Monday had dried fields sufficiently to permit pickers to resume their work in most sections of the county. Gins are again humming to almost peak production.

Further cotton picking (pulling) will be aided by the shedding of most of the cotton leaves since frost, Mr. Emmons declared.

### Dorothy Willett Home From Europe

Dorothy Willett arrived in Matador yesterday after spending 34 months overseas. She arrived Wednesday morning in Dallas by plane from New York. Miss Willett, daughter of Mr. and Mrs. Harry Willett of Matador, was associated with the American Red Cross for 20 months (18 overseas) and was later employed 16 months with the Army Exchange Service, being stationed much of the time in war-torn Germany. She visited 12 countries during the 34 months spent overseas.

Miss Willett's impressions of Europe will appear as a feature article in a subsequent issue of the Tribune.

### ANNOUNCE ARRIVAL

Mr. and Mrs. Ernest E. Cullison of Highlands, Texas, are announcing the arrival of a son, Ernie Eagan, born at Goose Creek Hospital on November 7, tipping the scales at 5 pounds, 12 ounces. The mother is the former Mavinee Russell.

### 'STAMPS QUARTET' WILL SING HERE

Famous Stamps All-Star Quartet will sing Thursday evening, December 4th, at the Matador high school auditorium (7:30 p. m.) under the auspices of the Matador IOOF and Rebecca lodges. It was announced by lodge officials early this week.

Admission charges will be 25c and 50c. Tickets are offered for sale by N. J. Smalley, Bill Wason, Floyd Webb and other lodge members.

Stamps quartet needs no introduction in this area. The famous singers have delighted lovers of good singing over a period of years.

### TRAIL DUST

By DOUGLAS MEADOR

Serene in a flimsy, golden shroud, the day still smiled as twilight placed stars on her forever closed eyes. Wind in the sage whispered soft prayers and was gone. Time, standing in the gloom, bowed for an instant as night unfolded its dark lace. A blue quail called; there was no answer.

Evidently no travel literature has been published on the place an associate recently urged me to visit. Because of his anger he even neglected to advise the type of clothing I would find best suited to the climate.

Candle of fame may sing the wings of a grasshopper with equal disaster that strikes a butterfly blinded by the splendor of dancing fire. Two many are so pleased with where they have been that they become heedless of where they are going.

Gaunt-eyed and reeling with drunkenness of hunger, the frail yellow kitten cries pitiously when knives of the wind part the short fur on its emaciated flanks. Breaths of warmth blow from unfriendly doors; the perfume of food escapes from a phantom garden. Unwanted and unloved, a living thing with a tiny, beating heart goes from door to door. But there is no mercy; only pain and frozen cement beneath small paws, and the scuffle of moving feet. Beyond the curb is the whine of death in moving wheels; the snapping teeth of roving dogs. Holding tightly the fraying thread of life and listening for a gentle word or waiting for the touch of a kindly hand, the kitten is obscured by the shadows of a winter night. At the portals of eternity an unwanted soul may wait long before a friendly door is opened.

Some self-made men seem to have enough material left over to produce half-a-dozen of the ordinary assembly-line models.

Motion picture producers and radio stations have made more money in dramatizing the cowboy than ranch-owners have earned out of cattle since the passing of the buffalo.

A lonely cloud drifted out of the north and opened its sails near the afternoon moon. Rising from the blue bed of northerners, other clouds followed until the moon was obscured and streamers shadowed the sun. There was a brief silence amid the frost-bitten mesquites and white-faced cattle raised their heads and sniffed the air. The trees creaked and leaves fell when the wind struck; the cattle turned their backs to it and resumed grazing. Blades of sunlight slit the overcast sky.

Fate placed the Indian sign on me early in life and those whom I would impress frequently capture and hold the conversation until it is time for parting. Dogs and children seem to find my company acceptable to a certain stage.

Experience has been expensive but I am wise to the showmanship of merchants I know that clothing never looks as attractive on me as it does on the dummies in show windows.

Progress advances in gossamer robes that entice the imagination and I am grateful for the pleasure and comfort it brings to my life. However, I am unable to acquire the same satisfaction in drinking water from a paper-lined cup as accompanied a brown gourd filled with fresh well water. Perhaps I am merely reluctant to relinquish customs acquired as a youth.

At Workers Conference  
Former Matador residents, Mr. and Mrs. Scott Bolton of Quitaque, were among attendants at the Floyd County Worker's conference held at the Baptist Church here Tuesday.

### Local Residents Attend Rites For J. C. McMahan

Several local residents drove to McLean last Thursday to attend funeral rites for J. C. McMahan, whose body was returned to this country from Belgium, where he was killed in action on January 22, 1945.

The young war hero was reared in this community and was a graduate of Matador High School. He was born at Sherman, Texas, December 23, 1919. His parents moved from this community to McLean, Texas in the early part of 1942 where they have since made their home.

Besides the parents, Mr. and Mrs. R. N. McMahon of McLean, other survivors include a son, Larry Lamar of Jefferson City, South Dakota, a sister, Mrs. Granvill Boyd and two brothers, Bobby, of McLean and Marby, of Borger, Texas.

Attending the rites from here were an uncle and family, Mr. and Mrs. Nelson McMahan and daughter, Frances, Mr. and Mrs. Lee Nelson, J. C. Scaff, Charlie Scaff, Mrs. Curtis King, Mrs. J. A. Groves, Rev. and Mrs. G. W. Fulfer of Portales, N. M. and Mr. and Mrs. Ted McInroe of Afton, Texas.

### OFFICIAL GAUGE INSTALLED HERE

Arguments resulting from various thermometer readings in Matador have reached an end. United States Weather Bureau has made this city an official climatological and hydrologic station, augmenting the U. S. official rain gauge at the city well with official temperature gauges.

Jewell Wheeler, representative of the Ft. Worth regional office of the weather bureau was here yesterday and installed the sensitive thermometers which register the highest and lowest temperatures over a 24-hour period (they do not show the hour at which the high and low were registered). City water superintendent Herman Stanfield will maintain the temperature gauges in connection with the rainfall gauge and register the reading each morning at eight o'clock. Reports will be sent to Houston each Saturday.

Mr. Wheeler said there are only 5,000 official stations in the entire United States and that the Matador station will serve an area south and east of here where no station is maintained. Nearest station west is at Floydada. A station is also maintained at Childress.

The temperature gauges are housed in an especially constructed shed to provide a "shaded reading" which allows free circulation of air, still being protected from rain, wind and sun.

Mr. Wheeler said the gauge being located at the city well would probably result in two or three degrees variation from the city because of the difference in elevation. The two thermometers are of the same appearance but one registers the highest temperature while the other registers the lowest temperature. The thermometers are reset each morning. Residents who want to test their home thermometers may have Mr. Stanfield place them beside the official government gauges for a short period of time.

### DONKEY BASKETBALL GAME COMING SOON

Donkey Basketball, perhaps the most fantastic game played in the United States today, will be exhibited here, in the school Gym, Monday night December 8, at 8:00, under the sponsorship of the senior class. Donkeys will be furnished by the Ralph Godfrey Donkey Basketball Company and arrangements are being made whereby the Matador fireboys will take on the Matador Ranch cowhands in the "funniest game in America."

Donkey basketball is played by regulation basketball rules except that players must ride donkeys and must not shoot, pass, or dribble the ball except when on donkeys.

Only warning given players is that Donkeys will be Donkeys.

### COMMUNITY JOINS IN UNION SERVICE

Thankful Texans of various religious denominations attended the union Thanksgiving services held at the Matador Methodist church at 7:30 Wednesday evening. Sermon was by Rev. Clifford Potts, pastor of the Matador First Baptist church.

Matador high school girls' chorus under the leadership of Mrs. Lolar D. Wilkerson, sang several selections. Offerings for overseas relief were received.

NOTE: The Tribune regrets that the date announced for the union services was inadvertently published as Thursday in last week's issue.

Most stores and other business places had posted "Closed Thanksgiving Day" signs in windows early this week.

Feature attraction of the holiday here will be the Matador Matadors vs Paducah Dragons annual football game which will start 2:30 on Burleson field. A record crowd is expected.

### Famous Photographer Shoots Local Scenes

One of the nation's outstanding photographers, William David Bell, was in Matador over the week end shooting pictures to be used in an article by J. Frank Dobie on the Matador ranch, which will appear in "Holiday" magazine.

A writer in his own right, Bell is famous for his color photography. Drizzle rains during the three days he was here prevented his making outdoor pictures. He is currently telling the story of Texas in pictures and with his assistant, Earl Colburn, has traveled 18,000 miles in their Willis "jeep" stationwagon, often "over roads a goat couldn't travel."

Bell, who carries an ASMP (American Society of Magazine Photographers) card, was a UP press reporter and photographer two years in South America during the war, and also worked for Life magazine the same length of time. While in Matador he made pictures in Schweitzer & Son Saddle Shop, the Tribune, First State Bank and Rogue theatre. He declared that if fair weather prevails he may return in two weeks to complete the assignment. One picture required on his assignment sheet is "Show cowboys standing at bar, drinking." He contemplates some difficulty in obtaining "atmosphere" for this scene.

### Royal Arch Official Attends Waco School

Harold Campbell, High Priest of the Matador chapter of Royal Arch Masons, accompanied by his father, Harry Campbell, Sunday left Matador to attend a two-day school of instructions conducted by the Royal Arch Masons at Waco.

At conclusion of the school Tuesday, the two delegates will represent the Matador lodge during the Grand Lodge sessions, scheduled to last during the remainder of the week.

The Matador lodge, organized in 1907, with a present membership of 135, is one of the largest in West Texas.

The Royal Arch will meet in regular session Monday evening, December 1st, at the Masonic hall. All companions are urged to attend.

### TRIBUNE TO PRINT LETTERS TO SANTA

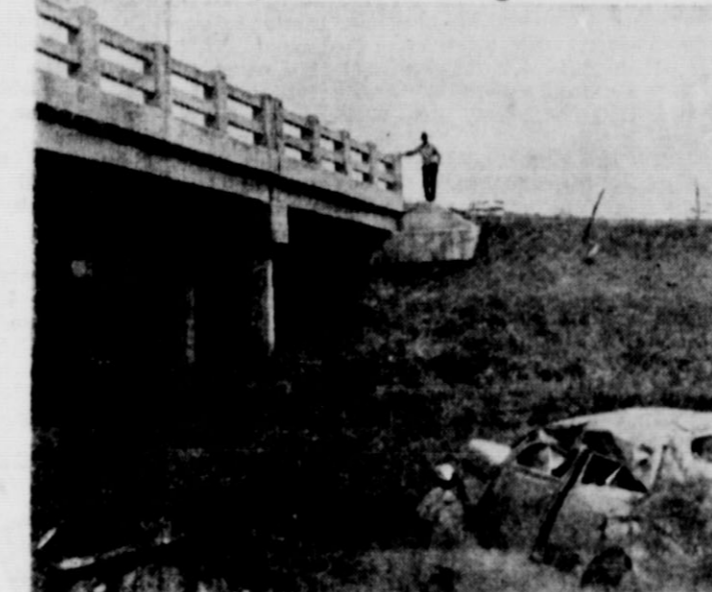

Annual holiday feature of the Tribune will be resumed this year with the publication of letters to Santa Claus during the weeks preceding Christmas. Letters, which should not exceed 50 words in length, will be published in the order received, and as space will permit.

Convenient "letters to Santa" mail boxes will be arranged at principal stores with regular collections on Mondays in advance of Thursday publication date.

Various primary grades in schools are urged to sponsor a "letter to Santa" mail box in advance of the holidays so that the letters will be set into type and printed before Christmas.

Cows are creatures of habit. Proper handling of cows on a regular schedule is the essence of good dairy management.

### Plunges Off Teepee Creek Bridge

LEAP INTO SPACE — Travis Fugate rode this 1935 Plymouth coach off Teepee creek bridge embankment Saturday night, November 15, after shearing off four highway guard posts. The car landed 30 feet from the point where Sheriff John Stotts (upper center) is standing, and rolled over to right itself in the bed of the creek. Fugate, whose home is in Ft. Worth, was treated in Paducah Richards Memorial hospital and released two days later. —Photo by Douglas Meador. Engraving courtesy of Lubbock Avalanche.

### REQUEST FOR SCARLET FEVER VACCINATION IS MADE BY 40 FLOMOT SCHOOL STUDENTS

Approximately 40 Flomot school students (under 12) received scarlet fever vaccination Monday at the Traweek hospital after a case of the disease had been reported in the community. The students received the vaccination at their own suggestion and arrived here by school bus. Dr. Albert Traweek, Jr., city health officer said he did not know the name of the scarlet fever patient in Flomot.

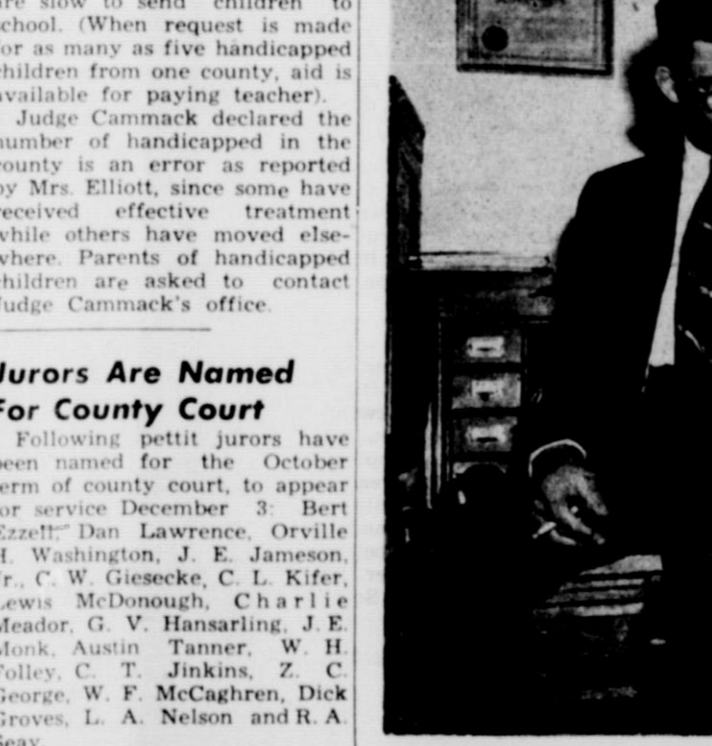

### HANDICAPPED ARE ELIGIBLE TO AID

Handicapped children in Motley county are eligible to special state aid according to a recent letter received by County Judge Wm. R. Cammack from Mrs. Adela Elliott, of San Antonio, publisher of "Plan for Living" literature dedicated to handicapped children of Texas.

Mrs. Elliott declares records show Motley county has a total of 29 handicapped children of school age, who are eligible to special state department of education compensation to provide teachers. She says parents are slow to send children to school. (When request is made for as many as five handicapped children from one county, aid is available for paying teacher.)

Judge Cammack declared the number of handicapped in the county is an error as reported by Mrs. Elliott, since some have received effective treatment while others have moved elsewhere. Parents of handicapped children are asked to contact Judge Cammack's office.

### Father-Son Law Partnership Interrupted By War

WORLD WAR II interrupted the law partnership of John Hamilton, left above, and his father G. E. Hamilton, right, which was started in 1934. John Hamilton is a native of Matador, although he was born in Austin, when G. E. "Judge" Hamilton moved to the state capitol after being elected to the state legislature.

The story of Hamilton & Hamilton attorneys can hardly be told without going back to the story of colorful pioneer lawyer, G. E. Hamilton. He was born in Georgia in 1871 and moved to Texas when he was 21 (1894). His education was acquired the hard way, working on a farm for \$15 per month and studying law at night. Circumstances made it necessary for him to quit school in the 6th grade. "Judge" Hamilton moved to Matador from Abilene in 1899 and has lived here since that time with the exception of a period from 1906 to 1913 when he moved to Childress where he was elected to serve two terms in the legislature. He returned to Matador to become one of its most outstanding citizens, a leader in religious, civic and fraternal movements.

John Hamilton graduated from Matador high school with the class of 1926, after mixing cement and hauling brick to build the high school building in 1925. He attended Texas Technological college, Lubbock, for two years and later attended SMU for two years, which he followed with a year of cow-punching in New Mexico. In 1931 he entered Texas University law school and received his degree in 1934 and automatically passed his Texas Bar Association examination.

Entering politics before he graduated from law school, Hamilton announced for county attorney before he received his degree. He was elected without opponent. On May 15, 1937 he was appointed District Attorney of the 110th district to fill vacancy resulting from the appointment of Alton B. Chapman from District Attorney to District Judge. He was reelected for the third term and after taking his third oath of office on January 1, 1943, left for Dallas as a volunteer in the United States Navy. He entered the service as Lieutenant jg and 40 months later he returned home with the rank of Lieutenant Commander. In his own words, he helped "win the battle of Florida." He was stationed in Florida most of the time in service. His wife is the former Josephine Moore. They have four children, Tom, Dick, Harry and Mary Jane.

Returning to Matador to enter the law partnership with his father, in 1946, he earned 50c the first week of practice. "Judge" Hamilton hauled the lumber from Childress to build his first law office in Matador (present wood structure occupied by L. J. Barkley cotton office) and slept on a cot, eating cheese and crackers until his practice improved to the point he could make his diet a more varied one.

PHOTO BY DOUGLAS MEADOR

### VFW TO STAGE ANNUAL DINNER

Local V. F. W. will hold its annual dinner at the Legion hall Tuesday night, December 2, according to Albert Rattan, Commander.

All members of the organization are invited to bring wives or sweethearts, and to invite others eligible for membership.

A full evening of entertainment is assured all who attend.

### Relatives Attend Funeral At Duncan

Mr. and Mrs. Phil Green, accompanied Mr. and Mrs. Dood Mize of Abilene to Duncan Oklahoma, Friday, November 14 where they attended funeral services for T. B. Burgin, 75, grandfather of Mrs. Green and Mr. Mize.

Survivors are 4 sons and 2 daughters, one of whom, Mrs. C. E. Mize of Abilene, is a former Matador resident.

**Next Program For Assembly Scheduled**

Next in the series of six school assembly programs appearing this year under the sponsorship of the seniors, is scheduled to appear here Tuesday afternoon December 9 at 3:00 p. m. The program is built around the collection of oddities and unusual things found in the oriental country of Java by a world known traveler and adventurer, Joseph Ellis, who will present the show, "Java, Mecca of the Orient."  
Mr. Ellis will exhibit his collection and tell the story of each item. Among the collection are such things as native sarongs, Head Hunter Weapons, Temple Costumes, Jungle Trophies, Mounted Wild Life, Native Musical Instruments and many other amazing things.  
The show is the third of the series and the admission price will be 20 for all who wish to attend, including adults.  
It is believed the exhibition will be very interesting and educational to all who attend.

**Music, Expression Recital Announced**

A recital featuring performances of Mrs. Wilkerson's music and voice students and Mrs. J.R. Whitworth's expression students will be presented in the high school auditorium, Tuesday night, December 9, according to information released this week by the teachers.  
Both teachers have done amazing work in their respective fields in the past and the program promises to be a very enjoyable one.

GO TO CHURCH SUNDAY

**CARNIVAL QUEEN**

Mrs. Clara Marshall, above, high school senior was crowned Carnival Queen at the recent school carnival, having won the most votes in a race with candidates of other classes. Mrs. Marshall received 9,000 votes (each vote 1c). She is the former Clara Dean James of Roaring Springs, and her husband is Albert Marshall, stellar member of the Matador Matadors.

**SENIORS TO SHOW CHRISTMAS FILMS**

Six Christmas films including the "Night Before Christmas," and other animated films concerning Christmas stories will be shown in the high school auditorium at 1:00 o'clock December 3, under the sponsorship of the senior class for the entertainment of school students, especially those in the elementary grades.  
Admission price will be 25 and it is hoped that most all grade school students will attend.  
"Anyone wishing to bring their children to see these colored films, is cordially invited to do so," class president Leo Archer said.

**SENIORS PROFIT BY JAKE MILLER SHOW**

The senior class is some \$22 richer, due to profits derived from the Jake Miller show which they sponsored Tuesday night, November 18. Something like a 72 dollar gate crowd attended the show, despite bad weather and muddy roads.  
Those attending the show also saw the cause for which the show was sponsored - that is the very noticeable run-down condition of our high school stage. Most everyone agrees that something should be done about the sagging curtains, unsteady, and unsightly props, which are the whole of our stage equipment.  
And that is what the \$22 which the seniors made from the show will be used for, together with about \$550 more. It is believed the stage will have an altogether new appearance by the time the seniors are ready to present their annual class play at the end of the year.

**KAMPUS KLATTER**

Hiya keeds! Wanna know a little of the latest??  
Norman Seigler was seen with Wanda G. at the high school Tuesday nite, Oh boy!!  
"Say, what's this we hear about Sappo carryin' the latest in lipstick around with him? ... And with a mirror, also! Wonder if a junior gal had anything to do with it!!"  
Wayne S. and Melba N. were seen together last Sunday!! Cute steadies these days!!  
Fud E. and Billy T. were seen together last Sunday!! Now what will Ross say about this?  
Is there romance in the air or is it that we students are just tiresome?? Anyway Miss June Pope seems to be very interesting to some people, if you know what I mean! Just you ask Mr. Moss and he'll tell ya!  
James W. and Joy M. were seen together this week end quite a bit! Makin' up for lost time, huh??  
W. F. really seemed to enjoy the game at Paducah this Friday. Wonder if Wanda Graham could have helped any??  
Well, until next week.  
Love, Miss El Matador.

**Six Weeks Tests Now Forgotten Shadow**

The shadow which hangs over Matador school students from one term to the next has temporarily lost its grip as all six weeks tests were completed last week.  
Both the elementary school and the high school are now fearfully waiting for the issuance of report cards but it is believed by school officials that grades will be better on a whole this semester than they were last six weeks.  
Honor students and students making the distinguished list will be announced in next week's El Matador.

#### HOME FOR THANKSGIVING

Keith Patton, who is attending State University at Austin, arrived home Tuesday night to spend Thanksgiving holidays. His parents, Mr. and Mrs. M. S. Patton met him in Lubbock where he arrived by plane, and accompanied him home. Messdames Elmer Stearns and Claude Harp accompanied the Pattons to Lubbock. Keith will return to Austin Sunday.

The birth rate on farms in 1946 was apparently the highest since 1929. There was an increase of 2,360,000 in farm population in 1946 over 1945, and of this number 773,000 were babies born during the year.

## Family Night Is Enjoyable Affair At Baptist Church

With the dynamic young president of Wayland College, Plainview, Dr. J. W. (Bill) Marshall as principal speaker and outstanding music furnished by a Wayland quartette, annual "Family Night" at the Baptist Church last Thursday evening was declared one of the most enjoyable affairs of this nature ever to be held.

Although proud of the ministerial department for which Wayland is known, Dr. Marshall stressed the great world need for christian diplomats, and declared it was his desire that Wayland students be trained for world service in citizenship and leadership. "I hope that Wayland will never be known only as a preparatory school for preachers and missionaries alone," he stated, "but rather as a school for training people for every area of life. Christian lawyers, doctors, homemakers, and above all, christian diplomats are sadly needed as well as preachers and missionaries, if world peace is to be ours." Dr. Marshall also informed his listeners that many foreign students are receiving special training at Wayland which they will put into practice when they return to their homeland.

Enrolled at the college are students from Latvia, Sweden, Brazil and China, he said. Rev. F. E. Swanner of Plainview District Missionary of District 9 and former pastor at Paducah accompanied the guests here and was presented by Rev. Clifford Potts, local pastor, for a few mirthful remarks.

Hymns and Negro spirituals comprised the musical program presented by the quartette, which enthralled the assemblage. The group was composed of Sam Allen, George Stokes, Rocky Powell and Jack Compton, and is only one of a number of quartettes out of over a hundred voices which the music department of the college boasts.

The men's Brotherhood were hosts for the occasion, with each attending family furnishing a "covered dish" and it was estimated that approximately one hundred persons were present.

## Association Holds Conference Here

Monthly workers' conference of the Floyd County Baptist Association was held here Tuesday in an all-day meeting, with an attendance of approximately one hundred church workers. Practically every church in the association, numbering 28, was represented, covering Motley, Floyd, Briscoe and Crosby counties.

Theme for the meeting was "Christmas for Christ." Following song service, devotional was brought by Rev. Wayne Eurlick of Mt. Blanco.

"Christmas for Christ in the Home" was subject of a talk by Rev. W. T. North of Whiteflat, and "Christmas for Christ in the Church" was discussed by a visiting pastor, Rev. Arnold of a pastorate in New Mexico, substituting for Rev. G. C. Tiner. "Christmas for Christ Throughout the World" was covered by Rev. L. A. Doyle, of Floydada. Sermon for the morning was delivered by Rev. C. N. Gilbert of Spur, followed by a talk by Rev. A. A. Brian of Brownfield, who spoke in the interest of the Wayland enlargement campaign, stressing the importance of raising \$300,000.00 for the campaign by the first of February.

V. F. W., Motley County Memorial Post No. 6286, meets 1st and 3rd Tuesdays, 8 p.m. at the court room, Matador, Texas. All eligible ex-service men are invited to attend.

Special music was a duet by Mrs. A. B. Simpson and Mrs. Ben Keltz, accompanied at the piano by Miss Rachel Patton.

Following lunch served in the church basement, W. M. U. and Board meetings were held.

The afternoon session was opened by Mrs. G. R. Dowdy of Silverton who spoke on the matter of the Lottie Moon Christmas offering, and sermon message for the afternoon was delivered by Rev. J. E. Lee of Flomot.

### SOPHOMORE NEWS FLOMOT HIGH SCHOOL

Hi there all you gals and guys! I guess you are wondering what has happened to us...

We sent the news in last week but seems as though it didn't get in the paper, so here we go this week:

Betty Jo seems to look downhearted now. Won't Lowell Don ever write you any more?? Better close for now. Be back next week.

Yuur Sophomore Reporter.

From where I sit... by Joe Marsh

### Ma Hoskins Sneezed at Cats!

Ma Hoskins couldn't understand why she got a fit of sneezing every time Harpo, the cat, came in the room. Finally figured she'd have to get rid of Harpo altogether.

Then Doc Hollister explained she had an "allergy." Cat's fur made her sneeze like strawberries give some folks rash. He gave her an inoculation so she and Harpo could live sneezelessly together.

I guess a lot of us have "allergies" in the social sense. Some folks just can't stand movies, or radio comedians. Other folks don't go for

beer. Myself, I enjoy a moderate glass of beer or two with friends... but it's up to them what beverage they choose.

From where I sit, the important thing is not to let our social allergies result in antisocial taboos. Let's not criticize the fellow who likes beer if we like cider. A little inoculation of tolerance can help us live-and-let-live happily together.

Joe Marsh

## He's Looking into Your Future

The scientist in the agricultural laboratory is as truly a pioneer as our grandfathers who fought their way westward to the rich farmlands and the broad ranges of the west. He's looking into your future... seeing greater things! His findings, put to use by practical livestock men and farmers, are resulting in thrifter, faster-gaining cattle and lambs, grazing the Great Plains... higher yielding crops enriching the Corn Belt... new immunity from disease for your livestock. He is pioneering a better and more abundant life for you through new markets for your output, improved products for you to sell.

Miracles like hybrid corn seldom happen by chance. Into its development went more than 30 years of patient research. It cost federal and state governments about ten million dollars. Experiments on individual farms cost unknown amounts. But last year alone hybrid corn added more than \$750,000,000 to farm income. Thanks to research, we now have such chemicals as DDT. Chemists searching for an insecticide to protect our armed forces from malarial mosquitoes found this potent bug killer. Already, DDT has made livestock producers many extra millions through increased production of meat and milk from fly-free herds. One ranch reports an extra ton of beef for every pound of DDT used. What a return on a half-dollar investment!

There are similar thrilling stories being written in every phase of agriculture. Many of the new developments come from colleges and experiment stations (largely financed by taxes paid by individuals and business) or from laboratories supported by private industry. From them you get improved varieties of crops, better control of

pests, parasites and diseases, and many another aid to production. The man who keeps abreast of scientific progress and applies it on his farm or ranch usually profits most. Your county agent, vocational agricultural teachers and farm and ranch publications are your helpers to keep you abreast of latest research information.

Swift & Company, for many years, has engaged in extensive research on agricultural products. It enables us to develop new products; to improve existing ones; to produce better nourishment for your family, your livestock and your crops.

Soda Bill Sez: ... little grains of sense can produce a big harvest of dollars. ... take a good look at America—and be thankful!

### Size of Business

by J. L. Tennant Rhode Island State College

A farm business should be large enough to pay operating costs, interest on the investment, and family living expenses. A southern New England dairy farm, for example, should have at least 18 cows per man; a poultry farm, 1,500 layers; a market-garden farm, 10 acres; a potato farm, 40 acres; and an apple farm, 20 acres.

Doing more business with the same capital investment is one way to lower costs and higher profits. With the larger business, the operator can spend more of his time at productive work. For example, workers on a dairy farm with 9 to 10 cows per man will be just as busy as on a farm with 15 to 18 cows per man. The gross sales and net income on the larger operation will be much higher because more of the time is used in producing milk. Reducing costs per unit puts the farm operator in a stronger competitive position.

If more crop land cannot be bought, perhaps it can be rented. Another plan is to check means by which crop production on present acreage can be increased. Ways to do this include: the use of lime and fertilizer; winter cover crops; higher yielding varieties; double cropping; drainage and terracing. Another step toward efficiency is to install modern equipment which enables one person to produce more per hour. Overhead costs per unit of product can be lowered when each machine is used profitably for as many hours as possible.

WINTERIZE YOUR HOME! WINTER will pass over your home if you protect it against cold by making all needed repairs. Let us explain the advantages of insulation as protection against both cold and heat. If you are planning a new home or any kind of repairs, we can be of service to you. Our stock is the largest and most complete available material sources will permit. We are always glad to offer estimates or any other possible service.

Everything For The Home, Farm and Ranch Higginbotham-Bartlett Co. LUMBER, BUILDING SUPPLIES AND HARDWARE

### From the Editor's Notebook

Since the days of the Pilgrim fathers, Thanksgiving has been a heart-warming day for American families. This year we, more than any other nation, have cause to be thankful for an abundant harvest. In helping to feed America, we are thankful that we can add our efforts to those of the hard working farm and ranch families who produce our food.

If you plan to visit the International Livestock Show in Chicago, November 29 to December 6, plan also to visit us at Swift & Company. Competent guides will gladly show you along the Visitor's Route through our plant. All of us in the Agricultural Research Department cordially invite you to drop in for a chat. We'll be looking for you!

Producers who attend the International Livestock Show, particularly those who come in from distant points, will quickly realize why the livestock-meat industry needs nationwide meat packers, like Swift & Company. Two-thirds of the nation's livestock is produced west of the Mississippi River, but two-thirds of the meat is eaten east of the Mississippi. This means that, on the average, there is a gap of more than 1,000 miles between major producing areas and major consuming centers. There has to be somebody to bring the product to the consumer together. Helping to bridge that gap between the western range and the kitchen range efficiently and economically is one of the chief services performed by Swift.

**PINCKARD-CROWELL VOWS EXCHANGED RECENTLY AT TULIA**

Marriage vows were exchanged at Tulia, Friday, November 14 at 12:01 a. m. uniting Miss Ruby Lois Pinckard and Leonard Crowell Jr., of Flomot, with Justice of the Peace V. R. Gardner, reading the ceremony.  
Attending the young couple were Miss Glyndell Thrasher, H. B. Pinckard, Jr. and Miss Wanda Killen, all of Amarillo; Harlan Bishop and Bill Everetts of Killeen.

The bride wore an attractive suit with black accessories, and her corsage was a lavender orchid. She is the daughter of Mr. and Mrs. Brock Pinckard of Amarillo, a graduate of Turkey schools and is a very popular member of Turkey's younger set. For the past few months she has been employed with a dry cleaning establishment in Amarillo.

The bridegroom is the son of Mr. and Mrs. Leonard Crowell, Sr. of Flomot. He was born and reared in that community and is a graduate of the Flomot schools. He served for two years with the Army, part of the time being spent in E. T. O.

Mr. and Mrs. Crowell are at home in Flomot, where he is engaged in farming.

**ROARING SPRINGS 4-H CLUB MEETS**

The 4-H Club girls of Roaring Springs met for their regular meeting, November 6, and elected officers for the coming year. These are as follows: President, Mary Anne Brooks; vice-president, Ruth Robbins; secretary, Devonne Carpenter; reporter, Nathelda Hollingsworth; recreation leader, LaVern Davis; recreation assistant, Kelly Anne Green.

The club discussed projects of work that they would work on next year.

Mr. and Mrs. Stafford Forbis, accompanied by her mother, Mrs. Roy Burleson, made a week-end trip to Dallas.

Visitors in the home of Mr. and Mrs. Phil Green, Friday, were Mr. and Mrs. Johnnie Houston of Turkey.

**NEW GRANDCHILDREN FOR B. F. TUNNELLS**

Mr. and Mrs. B. F. Tunnell, who still own their home in Matador but are residing temporarily at Orost, California, where they are teaching, are rejoicing over the arrival of two new grandchildren this fall.

A son, James William, was born November 9, to Mr. and Mrs. W. B. (Billy) Tunnell of 307 Walnut St., Coffeyville, Kansas, while a daughter, Linda Jo, was born September 1, to Mr. and Mrs. B. F. Tunnell, Jr., of Fresno, Calif. The Tunnells' other grandson is B. F. III.

**BIRTHDAY PARTY (Delayed)**

Dayton Spencer Graham celebrated his eighth birthday Wednesday afternoon, November 12, with a party at his home.

After playing games, refreshments of birthday cake and soda pop were served to the following: Gene Bruce, Ida Mae Simpson, Billy John Pockrees, Wiley Bain, Manuel Bridges, Roger Scaff, Grant Cooper, Jimmy Rushing, Jimmy Creed Jameson, Joyce Lynn, Frances McMahon, Lucretia Edwards, Johnny Bert Ezzell, Wayne Bowen, Ronnie Steen, Shelby Jackson, Pat Green and James Carmen.

Balloons were given as favors.

**News Briefs**

Miss Clotelle Willie returned Sunday night from Ft. Worth, where she spent two weeks visiting her uncle and aunt, Mr. and Mrs. Carl Willie.

Mr. and Mrs. Harold Bishop of Houston left Monday to return home after a visit here since Friday in the home of his uncle and aunt, Mr. and Mrs. L. R. Bishop.

**Birthday Dinner Is Given For Parents**

Mr. and Mrs. C. A. Markham were honored with a birthday dinner, Sunday November 23,

in the home of their daughter and family, Mr. and Mrs. Lewis McDonough and children, Tresa and Stanley.

Others present were: Mr. and Mrs. W. A. Nuss of Lubbock;

Mr. and Mrs. Elvin Markham and son, Bobby; Duane Markham, Mr. and Mrs. Ruth Birchfield, and Mr. and Mrs. Jerry Birchfield and son, Red.

Tribune, Matador, Matley County, Texas, Thursday, November 27, 1947

New arrivals at the clinic the past two weeks include the following:

Born to Mr. and Mrs. Joe Smith of Flomot on November 12, a daughter, Eulale Fern, weight 8 pounds, 3 ounces.

To Mr. and Mrs. Charlie Grant of Roaring Springs on November 13, a son, David Nathaniel, weight 5 pounds, 14 ounces.

A daughter, Gladys Jeanette, weight 7 pounds, was born to Mr. and Mrs. E. J. Holt of Roaring Springs, on December 16.

Born to Mr. and Mrs. Frank Sellers of Matador on November 17, a girl, Ada Beth, weight 8 pounds, 10 ounces.

To Mr. and Mrs. Elbert Mitchell of Roaring Springs, a son, Elbert Doynne, weight 7 pounds, 10 ounces, born November 12.

An 8 pound, 4 ounce son, Gary Don, born to Mr. and Mrs. W. H. Williamson of Quitaque, on November 13.

To Mr. and Mrs. Eugene Gibson of Turkey, a 7 pound, 15 ounces son, Phillip Eugene, born November 16.

A son, tipping the scales at 12 pounds 9 ounces, born November 22 to Mr. and Mrs. C. F. Hogue of Roaring Springs and given the name Bobby Joe.

To Mr. and Mrs. Perry Lacy of Matador, on November 24, a son, Perry Gene, weight 6 pounds, 16 ounces.

Born to Mr. and Mrs. Clyde Clifton of Roaring Springs on November 25, a son, Clyde Maurice, weight 8 pounds, 12 ounces.

Correction: Mr. and Mrs. A. M. Tanner, to whom a son, Billy Ray, weight 8 pounds, 4 ounces was born on November 7, reside at Flomot, instead of Afton, as erroneously reported in last week's issue of the Tribune.

### College Students Home For Holidays

College students who arrived home during Wednesday to spend Thanksgiving holidays included James Garth, Stanley Dan Level, J. D. Payne, Byron Knight, Charlene Giesecke and Reatha Rayne Robertson from Canyon, where they are attending West Texas State College.

From Texas Tech, Lubbock: Charles Ray Cox, Patsy Sheridan, L. C. Giesecke, Dorothy Nelson, Math Barkley.

### Tailor Shop Opened At Roaring Springs

First cleaning and pressing plant in Roaring Springs since mid-summer opened this week in the former bank building with Paul Enloe as manager. Name of the new establishment is the City Cleaners.

All new equipment has been installed and experienced cleaners are in charge of the work. The business will be operated in its present location until the new Thacker building is completed next door to the Spring theatre. Cleaning plant in Roaring Springs was destroyed by fire in July and since that time the city has been without local service.

Texas leads all other states in the production of wool, with an average annual production in excess of 100 million pounds.

### ARRIVES HOME MONDAY

Thomas J. Camp, S 2-c, who spent most of the last winter in China, and has been in service almost two years, reached home Monday night and will receive his discharge from the U. S. Navy in the immediate future. His parents, Mr. and Mrs. I. W. Fish of near Flomot, met him here on his arrival by bus.

### RETURNS HOME

Glenn Woodruff returned home Monday from Detroit, Michigan, where for the past six weeks he has been attending a special school of instructions for sons of Ford dealers. He is associated in business here with his father, J. L. Woodruff.

WHAT did Stella Dallas do that pierced her name with shame? — Come and see at the Spring Theatre, Roaring Springs Showing Saturday night preview, Sunday & Monday.

### MRS. HAROLD CAMPBELL IS HOSTESS TO CIRCLE

Meeting at the Baptist church Tuesday night, members of Henrietta Shuck Circle of the W. M. U. went in a group to the ranch home of Mrs. Harold Campbell west of Matador for their regular weekly meeting.

Mrs. Forrest Campbell, president, conducted a brief business session, after which a Bible Study was brought by Mrs. J. Farris Fish.

Present were: Mesdames Albert Rattan, H. H. Courtney, Cecil Shelton, Colquet Warren, Howe Hines, Ben Meador, Farris Fish, Bob Scott, Forrest Campbell, Ava Clyde Crump, Clifford Potts, J. L. Woodruff, G. W. Fulfer, A. B. Simpson, R. E. Campbell Jr., Jake Edwards, Willis Cooper, Dick Groves, and J. H. Starkley, and the latter's sister, Miss Wanda Jane Porter who is visiting from Denton County.

# Now... SEE THESE GREAT NEW INTERNATIONAL HARVESTER FREEZERS

## A size to fit your family

Small or large family, there's an IH Freezer for you! Whichever size you choose, you'll be thrilled with its shining white beauty... its miraculous freezing and storage convenience... the wonderful way it enables you to serve more delicious foods... rich in vitamins and minerals... in amazing year 'round variety. And with less effort... in less time... and with substantial savings!

## All these big features... and more

These snowy streamliners have special features such as improved sidewall refrigeration, protected cold control, unobstructed access to and full view of the roomy interior. Along with Harvester's exclusive FROST-LOK and a handsome chrome-plated handle. The result of years of research, development and manufacturing skill, they're tops in low-temperature refrigeration!

ALL STEEL CONSTRUCTION  
Welded to last a lifetime. "Bonded" to prevent rusting.

FINEST FREEZER FINISH KNOWN  
Dupont "Dulux" Enamel; it won't chip, flake or peel.

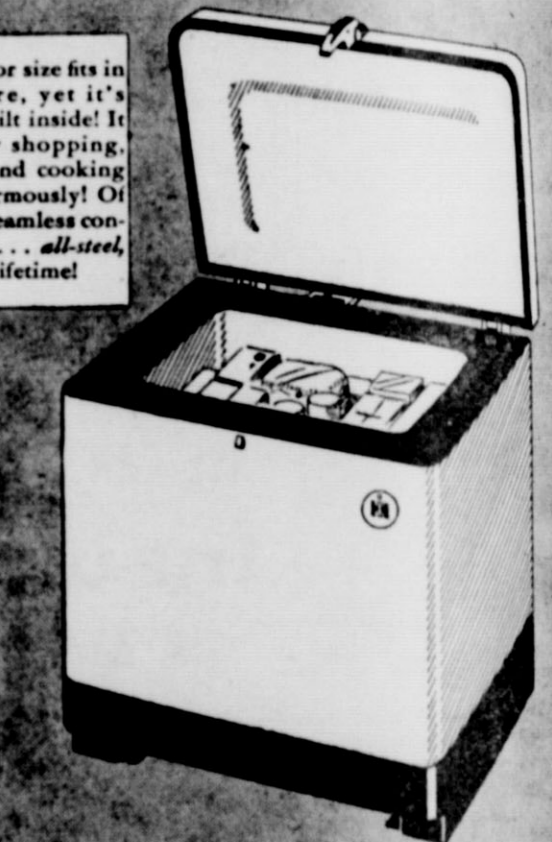

COMFORTABLE TOE-SPACE  
Recessed base to allow close-up, easy standing position.

INTERNATIONAL HARVESTER

HERMETICALLY SEALED UNIT  
A tight-wad for low cost operation. 5-year warranty.

4 CUBIC-FOOT CAPACITY  
HOLDS 150 POUNDS OF FROZEN FOOD

This junior size fits in anywhere, yet it's amply-built inside! It cuts your shopping, kitchen and cooking time enormously! Of welded, seamless construction... all-steel, to last a lifetime!

11 CUBIC-FOOT CAPACITY

HOLDS 300 POUNDS OF FROZEN FOOD

For a lifetime of dependable service! Built to freeze and store fruit, vegetables, meat, poultry, pastry... conveniently and economically, right in your own home! A marvel for the large family... a masterpiece of engineering! Has exclusive, double-duty IH FREEZ-AREA for fast freezing.

IH FREEZERS ARE WORK-SAVERS

Enjoy undreamed-of freedom in your kitchen... hours and hours of extra leisure time. For with the IH Freezer in your home, you can cook and bake huge quantities of food... and store them away for later use!

FLOATING LID-FINGER-TIP CONTROL  
Opens and closes silently, easily; cannot slam.

"VAC-U-SEAL" INSULATION  
4 1/2 in. of indestructible fibre glass... hermetically sealed.
