One of Texas' greatest entertainers, State Representative Harley Sadler of Sweetwater, will make the principal address at the 11th annual Father-Son Banquet to be held at the Baptist church Thursday evening, February 12.

The veteran showman, who entered politics a few years ago. is now candidate for State Senator. He has spent most of his life in the show business and is known throughout West Texas for his portrayal of "Toby" character. His show has played in Matador many times.

Recently Mr. Sadler was given "Flower for the Living" banquet by the Sweetwater Chuck Wagon Gang with more than 700 attending, including Governor Beauford Jester. He was reared at Stamford and entered the show business when he was a youth. He was on the stage many years before entering the show business for himself in

No harm in that! But I admire veterans like Dick Newcomb . . . who's 23, but going to college under the G.I. Bill of Rights. Intends to ing, and good citizenship. And be a sheep farmer—but a betterinformed, more scientific farmer, with more know-how!

And veterans like Dick aren't letting anything interfere. What little relaxation they allow themselves is in the form of needed exercise, or

There aren't too many college books, or conversation and an occasional glass of beer with friends.

Seems as if, just by having their education postponed, they've put a higher value on it ... and on things like temperance (that glass of beer, for instance), understandfrom where I sit, when Dick gets his sheepskin - he won't have lost much time. He'll be an even better farmer than his Dad. (Exactly what Dad wanted!)

Sounds impossible doesn't it?

Sounds impossible, doesn't it? But that is actually the very job that Reddy Kilowatt does in your home each day-and still the average electric bill of families served by the West Texas Utilities Company amounts to about

A little more than 10¢ a day...for the many pleasures and conveniences of modern living that electricity brings to you at the flick of a switch.

Yes, while the cost of almost everything else you have to buy has gone up-and up; the cost of your electrical service has been held to a low minimum.

Today, in fact, electric service does more to make work easier and living more convenient than ever before. Yet, a kilowatt hour of electric service costs you one-sixth LESS than it did ten years ago!

MPCA Will Repay Big Stock Loan

it Association will celebrate paying \$125,000 back to the Government at its 14th annual stockholders' meeting in Memphis on February 9. The association retired this much of its \$130,000 government-owned stock at the end of 1947, after having surpassed its goal of \$250,000 in member-owned capital and reserves.

The financial statement of the association for 1947 shows that the end of the year members owned \$180,935 in stock and had accumulated earnings of \$69,215, bringing the total member-owned capital to \$250,150. It also reveals that the association's loans during the year totaled \$2,295,000, bringing its total loans in 14 years of oper. ation in excess of \$15,000,000.

In retiring virtually all of its Government capital, officials of the association pointed out that Production Credit was organiz ed in the early thirties when farmers and ranchmen were hard pressed to obtain credit.

In setting up provisions for this form of agricultural credit. Congress authorized the investment of Government funds, stip. ulating that as the association became able, they would retire all Government capital and become self-owned.

It has been pointed out that the Government originally invested \$250,000 in stock in the Memphis association, while nine charter members purchased \$45. in stock. Members are pleased original 13 states. to know that in 14 years they were in a position to retire the CARD OF THANKS Government stock down to \$5,000 and expect to retire the wish to express their sincere remaining \$5,000 in the near thanks and appreciation for the

The largest spring in the world is Silver Springs, located six miles east of Ocala, Florida. The great basin is 80-feet deep, 300 feet in diameter, and clear to the very bottom.

A legend relates that the largest lead-silver mine in the world was discovered in Idaho by a peevish burro pawing the earth while his master slept.
